He was laid to rest in the Coleman Cemetery in the family plot of BAYOU PHILOSOPHER WORRIED ABOUT EXPERTS SHOWING FARMERS HOW TO FARM

Editor's note: The Bayou Philosopher on his Johnson grass farm on the Bayou is unnecessarily worried this week, but apparently he'd rather worry than

Dear editar:

According to an article I read in a newspaper last night which my wife had spread on the floor to keep from tracking mud in after a little rain some time back, some experts in Washington have been thinking over the farming problem and have come to the conclusion the trouble with farmers is they aren't efficient enough, they don't produce enough stuff per acre.

the experts to get out in the field and show the farmer how to grow more per acre. I'd like for you to know I don't believe the situation is bad enough to require such a desper-

To remedy this, one of the

thinkers said it might be wise for

ate remedy. In the first place, I don't know any experts who are hankering to get out in the field and plow, if they were inclined in that direction they wouldn't be experts. Most experts I know, with a few exceptions, got that way to avoid plowing.

And in the second place, I don't know any farmers willing

to turn their plowin over to em. It's sort of like economics. Business men listen to speeches by economists at conventions telling how business will pick up by three and two-tenths by September, but don't many of em hire em to run their outfits. Every time they try it, something goes wrong with the pro-

economists and agricultural experts, but they want to stick to their own departments. However, this particular group

Understand, I'm in favor of

fit department.

of experts I'm talking about may be smarter than we realize. If most farmers thought there was any likelihood they'd have

to turn their farms over to an expert if they didn't get more efficient, things would pick up considerably, although not necessarily in my case. If anybody wants to come out here and show me how he can

make more per acre off this farm

than I'm doing, he's welcome to

it. There's the tractor sittin

pennies can grow into millions of

But, it is with pennies that Texas minutes cited that they were pressolving its financial problem. Big discussion of the week has been the proposed two cent increase in gasoline taxes. Right behind that

big topic has been the 1c increase in demanding the maximum 10-year cigarette taxes and the hike to 1c prison term for Giles, in his scheper bottle (\$1.30 per barrel) in beer duled trial on charges of accepting With these topics before them, the

egislators came back almost to where they started-namely Gov. Allan Shivers' original tax recommendations. Tossed out by the Senators, after many hearings on numerous phases of taxation, were virtually all other tax proposals.

When the tax bill bogged down in grounds for continuance until 30 the Senate, Governor Shivers threw in a surprise strategy move.

By message, he told the House and Senate-now working without paythat if they wanted to end this session, he would call them back in a special session when they could be paid \$25 a day.

Lt. Gov. Ben Ramsey and Speaker Jim Lindsey at once respondeed that the session could complete the tax chore, unblock the billion and a half dollar appropriation bill, and finish

For the third time during the '55 legislative session, a new talkathon mark was established by a member of the usually sedate Senate.

This time the speaker was Sen. Kilmer Corbin of Lubbock who took 28 hours, 25 minutes against a state water project financing plan.

Previous holder of the record was Sen. Wayne Wagonseller of Bowie. Before that it was Sen, Jimmie Phillips of Angleton.

Corbin was opposing a committee report on Sen. Dorsey Hardeman's proposed constitutional amendment to the \$100,000,000 water program. He was objecting to the three-cent ad valorem levy.

Governor Shivers had advocated the plan as a key part of his water conservation legislation. The proposal would set up a six-man board, to be appointed by the governor.

Corbin also contended that the board should be elected, rather than appointed. In objecting to the method of taxation, Corbin said that it would cause dry land farmers to bear the burden of water projects in other districts.

Like the other "billibusters," it was fruitless.

Rain Steals the Show.

General rains throughout the state stole the spotlight from the Legislators the past week. It was NEWS -BIG news. Even where there were floods, there were smiles of gratitude for the moisture.

As for the capital city, weathermen here report that Austin already has received more rain this year than it did throughout 1954.

Recent almost statewide rains have changed Texas' crop outlook from "dismal failure" to "fairly good" according to Agricultural Commissioner John C. White. Rain came too late to help the wheat and oats, says White, but benefits to pasturelands were rated "excellent." He pointed out the need for a normal amount of moisture the rest of

Probe in Senate. Lack of information prompted them to approve veterans land deals as a matter of routine. So said two Veterans? Box

VETERANS ADM Q. I have been out of military service for a year and a half. If I apply for disability compensation, is there any chance that my payments could be made retroactive to the date of my discharge?

A. No. For veterans who wait longer than one year to apply, compensation payments may be made retroactive only to the date of the application. For those who file within one year's time, it is possible for payments to become effective as of the day after discharge from service Q. My three-year starting deadline for Korean GI training is coming close. I want to apply for a correspondence course. What does VA consider as the starting date of the course?

A. The starting date of your correspondence course is the date the school sends you your first lesson. Q. Is it possible to convert Korean GI term insurance to permanent plans? I understand this could be done with World War II GI insurance. I am not a disabled vet-

A. Under the law, Korean GI of the Duval County area, has been transferred to Austin.

Sen. Wm. H. Moore of Bryan has pending in the Senate a resolution to investigate Southwest Conference athletic recruiting, following accusations against A. and M. College.

A Senate committee struck from the House-passed "unfair sales" bill authority for a trade association to vert and State Auditor C. H. Cav- sue a merchant for selling goods below cost. Sponsors said they wanted that proviso because an individ-Giles to request funds for loans. ual merchant might hesitate to sue -and give housewives the idea he was trying to keep them from buying as cheaply as possible.

Cuts in allowable oil production, "Nothing came to us to cause us made by the Railroad Commission, to have any suspicions," Cavness whittled the state's prospective revenue from oil. June allowable was cut 64.820 barrels daily and July Governor Shivers and Atty. Gen.

The Senate joined the House in passing Rep. Dolph Briscoe's stringent bill regulating veterans' land sales and outlawing block deals. Briscoe's constitutional amendment replaces the Governor and Attorney General as Veterans Land Board members. Two appointive members attorney's office announced it was would serve with the land commis-

CLEAN YOUR WINTER CLOTHES FOR SUMMER STORAGE NOW

It's smart to have your Winter clothes expertly cleaned and pressed before storing them away for the summer. In addition to making them ready for wear next season, it also protects them from moth damage.

Before storing, bring your garments to us for cleaning at its best.

An Appeal for 101 Days of Safe Driving

During the summer months-from Memorial Day through Labor Day-highway traffic fatalities are high. So high that the Governors' Conference has endorsed a nation-wide safe driving program during the 101 days between the two holidays.

Only you, the motorist, can make this campaign a success . . . If you, and every other highway traveler, will resolve to drive at a safe speed, to follow the recommendations of Safety Associations for safe highway driving, literally hundreds of lives will be saved during this summer's travel. One of them may be your own.

Wherever you drive this summer, PLEASE DRIVE SAFELY

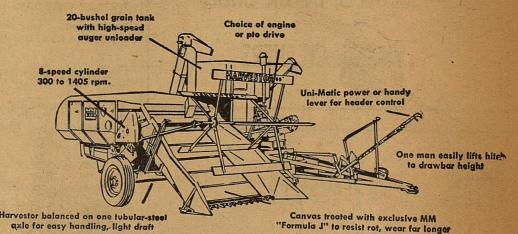

Safety Associations recommend that you follow these simple rules for a safe vacation trip:

- Observe all posted speed limits; don't hurry, ever.
- Regulate the speed of your car to highway and traffic conditions.
- Don't drive too long-stop when you're tired.
- Observe all highway caution warnings-slow down for curves, when descending steep hills, etc.
- · Don't drink when driving.
- Follow the golden rule of traffic courtesy: give other motorists the same consideration you'd like for them to give you.

built for VOUL lowest-cost

LOOK AT ALL THESE MONEY-MAKING ADVANTAGES!

This year, profit by the experience of thousands of farmers. Make this the fall you cash in on the MM Harvestor "69"—the one combine with harvest savings built right in!

GET BIG-CAPACITY, STRAIGHT-THROUGH THRESHING!

Straight-through design, plus full-width threshing, separating, and cleaning sends the crop through the "69" and into your truck box at a rate that can cut days off your harvesting time. Gentle, thorough "rubbing" between the rasp-bar cylinder and the one-piece, all-steel concave and grate give you threshing that means extra bushels per acre ... in grain, bean, and seed crops.

HOW THE "69" SAVES YOU UP TO 21/4 HOURS A DAY! With the high-speed MM auger unloader of the Harvestor "69", you empty the full 20-bushel grain tank in about 1½ minutes, compared with about 4½ minutes for ordinary unloaders. Figure the time it takes to unload 900 bushels (a one-day threshing job for the "69" in 60-bushelper-acre oats) and you'll come out with a saving of as much as 21/4 hours

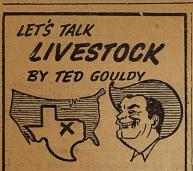

STOP IN SOON AND GET THE FULL FACTS ON THE HARVESTOR 69
