

County TB Ass'n Elects New Officers

The Callahan County Tuberculosis Association closed its ninth year of work March 13, 1956 at a meeting held in the home of Mrs. W. P. Brightwell. The following officers were elected at this time.

President: Mrs. Jess Pyeatt, Clyde.
Vice President: Mrs. Fred Cutbirth, Cross Plains.
1st. Vice President: Mrs. W. P. Brightwell, Baird.
Secretary-Treasurer: Mrs. H. W. Martin, Baird.
Seal Sale Chairman: Mrs. C. H. Sladous, Baird.
Mrs. Ace Hickman and Mrs. Homer Driskill served as a nominating committee.

Mrs. C. H. Sladous, who is completing her fourth year as Seal Sale Chairman for the organization, reported Seal Sale returns for this year were \$1,138.03, 18 percent of this amount is paid to state and national organizations, leaving a balance of \$933.54 to be used in Callahan County as it may be needed.

The total expenditures, as reported by the treasurer, amounted to

\$636.77, not including state and national participation. The money is used for Seal Sale expense, Health Education, Case Finding, Rehabilitation, Social Service and Administration.

A County-wide X-Ray survey was sponsored by the Ass'n the past year, and they are planning to have another the coming year, together with a Patch Test Program throughout the Schools of the County.

At the meeting, Mrs. S. L. McElroy and Mrs. W. P. Brightwell were elected as Delegates to the State convention held in Midland April 8th. Mrs. McElroy is a representative Director on the State Board of Directors, and attends meetings regularly.

The Association feels that Callahan County has played an important part in the fight against Tuberculosis, and every contributor may feel proud to have contributed to the success of our organization. Mrs. H. W. Martin, Secy.-Treas.

July 17 is the date set by the Texas Agricultural Stabilization and Conservation Committee for a state-wide meeting in which groups or organizations representing farms on an area or state basis will be given the opportunity to discuss problems relating to the 1957 cotton quotas.

Miss Galia Irvin To Wed Gordon Underwood

Mr. and Mrs. Leron Irvin of Rising Star are announcing the engagement and approaching marriage of their daughter, Galia Irvin, to Gordon Underwood, son of Mr. and Mrs. Leeman Underwood of Pioneer.

The couple will be married May 31 with Minister G. A. Dunn of the Pioneer Church of Christ performing the ceremony.

The couple will make their home in Big Spring where he is employed.

Pre-Nuptial Gift Shower Honors Bride-Elect

A pre-nuptial shower honoring Miss Patsy Farrish, bride elect of Homer Robinson, was held in the home of Mrs. Fred Cutbirth Saturday evening, May 5.

Guests were met at the door by Mrs. Cutbirth and were received by the bride-elect and her mother. Also in the receiving line was Mrs. Oscar Koenig.

A lovely lace tablecloth was used on the serving table. The bride-elect's chosen colors of pink and white were carried out. Lighting the table were white candles in crystal candelabra. An arrangement of blush pink carnations and greenery centered the table. The crystal punch bowl and silver completed the arrangement.

Serving the individual pink cakes and punch were Misses Jane Bonner and Mary Scott.

Favors were white wedding bells tied with pink satin bows.

Vases of pink rosebuds were used as decorations throughout the house. Guests were registered by Misses Glenda Pillars and Elva Nell Rouse.

Hostesses alternated at showing the large array of gifts.

Hostesses were Misses Fred Cutbirth, J. L. Bonner, Morris Odom, O. B. Edmondson, John Pruet, Jack Scott, Norman Farr, Oscar Koenig, Ray arrowed and J. P. McCorr.

Texas poultrymen can profit by studying the information which is being accumulated from the random egg production tests being conducted at Stephenville's Tarleton State College. Ben Wormell, extension poultry husbandman, believes every egg producer should keep familiar records on his flock.

The 1956 Guide for Controlling Cotton Insects, L-218, is now available at the offices of local county agents and from the Agricultural Information Office, College Station, Texas. Get the jump on cotton insects by being ready to fight before the "bug robbers" get the upper hand.

Under the Smith-Doxey Act groups of producers organized to promote the improvement of cotton, including the adoption of a variety, the filing of an application for the classification service, arranging for sampling and meeting certain other membership requirements, are eligible for all services offered by the Act. Local county agents can supply details on the program.

Mr. and Mrs. W. E. Koenig and Mrs. R. G. Adams and Deborah Kay went to Austin Friday to get Elizabeth. She will visit her parents here.

An Early Season Glance at Cotton

Cotton prospects are very much in doubt in some areas of Texas this spring where farmers are plagued with either too much or too little rain.

"Too much rain" is only a temporary condition of course, but it occurred in one area where extreme drought prevailed only a few miles away. It was in the "hardship zone" between San Antonio, Laredo and Corpus Christi a 17-county region that has been subnormal in moisture for nearly seven years.

Bee, Liveoak and McMullen counties are examples where drought has made the cotton outlook negative this year. Bee County has a cotton allotment of 15,000 acres and, until a few days ago only 9,000 had been seeded. Many of these were planted on a "risk" basis and about 3,000 may never come up unless rain is received immediately.

In Liveoak County, only about 2,500 of the 20,000 cotton acres allotted had been planted the first of May and many of these allotments were returned for redistribution over the state. McMullen County has had less than one inch of rain since January 1st. One 15.1 acre plot of the 1,500 allotment was sown by May 1st.

Around Nueces County with Cor-

pus Christi as the county seat, much of the cotton already planted was washed out by the recent rains. Counties to the north and north east had the same problem.

These counties are not typical of the state, but each area has its own problems. Moisture is badly needed in the dry-land farming section of the Panhandle and West Texas where farmers will soon be planting.

Estimates of the cotton crop traditionally are released about the first week in August. A revised version of the 1955 crop was released this week which placed Texas production at 4,039,000 bales of 500 pounds gross weight. Value of the 1955 lint production amounted to

\$11,386,000 based on an average price of 30.3 cents per pound.

Cottonseed from the 1955 crop amounted to 1,657,000 tons, a 10 percent increase over the 1,479,000 tons of 1954. The increase was due more to offset heavy losses in 1954 than to an increase in production. Prices with value of cottonseed year amounting to \$77,600,000 about three-fourths that of 1954.

Mr. and Mrs. Bill Pigeon left by train Wednesday for Princeton, Indiana where they will visit with Mr. Pigeon's sister and family, Mrs. Allen Vine and children.

The meaningful emblem  of Body by Fisher

When you see "sterling" on silver you know what it means—solid silver, all the way through.

And when you see the medallion "Body by Fisher" on an automobile it means much the same thing—quality all the way through, in things unseen as well as on the

visible, gleaming surface.

Only one who has owned a Chevrolet for several years can fully know the satisfaction this emblem pledges. For only Chevrolet in the low-price field is entitled to wear the small, proud plaque that proclaims "Body by Fisher."

Short Snorts

One of its biggest annual under-
takings helping some 9,000 high
school graduates find jobs, is now
under way by the Texas Employ-
ment Commission. Last year TEC
placed about 52 per cent of the 8-
45 graduates... Texas' cotton
harvest was 281 pounds per acre—
the highest since 1866, reports the
U. S. Department of Agriculture...
State recovers in veterans' land
suits are approaching the million
dollar mark... Texas railroads
won another round in their battle
to by-pass the Texas Railroad Com-
mission. The Third Court of Civil
Appeals upheld the railroad's right
to negotiate directly with the Fed-
eral government in setting rates
for interstate contracts... Texas'
traffic deaths totaled 2,547 persons
in 1955. Major causes of fatal rural
accidents were excessive speed, 62
percent, and drinking, 37 per cent...
Sen. Price Daniel, now a candidate
for governor, has selected Joe R.
Greenhill of Austin as state cam-
paign manager. Greenhill once serv-
ed as first assistant attorney general
under Daniel. Bill Daniel of Liberty,
the candidate's brother, will head
the speakers bureau... Maurice R.
Bullock, president of the State Bar
of Texas, will attend a nation-wide
conference on "congestion in the
courts", May 21-22 in Washington,
D. C. So acute is the situation na-
tionally that numerous cases are
not brought to trial until many years
after they are filed.

Only remaining question is how
far Johnsonites will go in sweeping
out Shivers' backers. Almost all
members of the State Executive
Committee are staunch Shivers
supporters.

Ordinarily, new committee mem-
bers would not be elected until Sep-
tember conventions. But two factors
reflect on the stability of their po-
sitions.

First, state law merely says the
committee member shall hold office
"until his successor is elected." Sec-
ond, in a 1944 contest between party
factions the Supreme Court held one
convention could set aside the ac-
tion of a previous convention.

At stake is Ben Ramsey's job as
National Committeeman. And per-
haps that of Mrs. Hilda Weimert of
Seguin, Democratic National Com-
mitteewoman.

Also in doubt about how they
will be treated on May 22 are
members of the Dallas County dele-
gation, one of the groups to go for
Shivers. In this case, a rump con-
vention named delegates favorable
to Johnson.

Shivers' Dallas supporters expect
the like-minded credentials commit-
tee to seat them. But they won't be
surprised if other delegates vote to
give them the heave-ho.

Two Texans Honored
Two outstanding Texans, who
have contributed greatly to the cul-
tural and educational life of Texas,
were honored by the Texas Heritage
Foundation.

Miss Ima Hogz of Houston receiv-
ed the Texian Woman of the Year
award.

Texian Man of the Year honors
went to H. H. Coffield of Rockdale.
Awards were presented by Foun-
a banquet where Governor Shivers,
dation President Paul Wakefield at
honorary chairman of the Founda-
tion, was principal speaker.

Miss Hogz is the daughter of the
first native Texan to serve his state
as its Chief Executive. Said Wake-
field "She has lived and furthered
her great family tradition of ser-
vice to humanity that was passed
on to her by her illustrious father."

Of Coffield he said: "After gradu-
ating with highest honors from the
University of adversity, in the rural
area of Milam County, Pete Coffield
lingered on the campus at Rockdale
to become his native city's first citi-
zen. His genius for multiple affairs
and love of people soon spread his
horizon to the borders of his state
and beyond."

Insurance Hearing Set
Ben B. High of Houston has been
directed to appear before the Texas
Insurance Commission on May 23,
to show cause why all his outstanding
agents' licenses should not be
revoked.

On the following day Canal Insur-
ance Co. of Greenville, S. C. will be
asked to show cause why its license
to do business should not be revoked.
High is general agent for the
company in Texas.

High is charged with "deliberate
and flagrant violation of the au-
tomobile insurance rate statute."

Stock Fraud Charged
Two Austin companies are defend-
ing themselves in district court here
against charges of fraudulent stock
selling.

A temporary restraining order is
sought by the State against Ameri-
can Guaranty Underwriters, Inc.,
and the Karisch Company Inc.

Calvin C. Hoffman, American
Guaranty president, denied the
charges. His company was issued
25,000 shares of Karisch stock to
cover a \$9,500 loan, he said.

"No stock of the Karisch Co., was
sold to the public," said Hoffman.
"Nor have any of the officers named
received any commissions."

In its allegations the state accus-
ed American Guaranty of collect-
ing "gross and exorbitant commis-
sions" on stock sales.

Insurance Change Sought
Just how valuable are treatments
with fire-resistant chemicals, when
it comes to reducing insurance
risks. This question will be decid-
ed by the Texas Insurance Com-
mission.

Texas Chemical Fireproofing Co.
has asked that insurance credit on
chemically fireproofed public build-
ings be extended from 15 to 25 per
cent. Sen. Grady Hazelwood of
Amarillo, representing the com-
pany, made the application.

A group of casualty companies,
represented by the Texas Insurance
Advisory Association, opposes the
change.

Election Law Viewed
A movement to insure reporters
the right to cover precinct conven-
tions may be spearheaded by the
Texas Press Association.

Under the Texas Election Code
only a qualified voter in the pre-
cinct may "vote, be present at, or
participate in, the business of such
a convention."

TPA President Russell W. Bryant
has suggested deletion of the words
"be present at" from the law. He
indicated the matter would proba-
bly be considered at the PTA con-
vention in Amarillo next month.

Three precinct chairmen in Travis
County refused reporters admission

guar and blue panic good cover on it and there are plenty of roots and organic matter in the soil.

Roy Early of Bangs has an example of what organic matter in the soil can do. He leased a place last fall and when he got it there was a heavy growth of sunflowers and cocklebur on it. He got the Soil Conservation District weed cutter and chopped them down. He left all of the trash on the ground and bedded the land. Last week during the heavy rain the fence of this field was washed out but it didn't wash down the beds. This emphasizes the very important fact that organic matter in the soil is many times more effective in controlling erosion than such mechanical practices as terracing, deep plowing, etc. There are many cases where there is a disease of our soil called erosion. We have expected to cure that disease by building terraces and with other mechanical practices when the real cause of the illness is lack of organic matter in the soil.

How can this disease of erosion and loss of valuable water be cured? The treatment is some grass cover left on our pastures and some organic matter returned to our fields each year. Some of the fields and

Cotton Classification and Market News Services Available To Farmers

The USDA has announced the procedure to be followed by cotton farmers in obtaining cotton classification and cotton market news services in 1956, says Howard W. Zuch, agricultural engineer, Texas A. & M.

Under the Smith - Doney Act groups of producers organized to promote the improvement of cotton, which adopt a variety of cotton, file application, arrange for sampling, and meet certain other requirements as to membership are eligible for these services.

It is necessary for cotton producers to prepare and submit their applications as soon as cotton has been planted and well in advance of the ginning season if they are to receive the maximum benefits from the services as members. Applications must be on file by June 1 in the following counties in Texas: Dimmitt, LaSalle, McMullen, Liveoak, Karnes, DeWitt, Jackson, Matagorda, and all counties lying south of those named. All applications must be in no later than August 1, and must be filed with a classing office of the Cotton Division, Agricultural Marketing Service, USDA.

Those not filing applications early may fail to obtain the classification of cotton ginned in the season. Samples under this program must be cut from both sides of the bale by a bonded sampler or by an employee of a public warehouse or compress which issues negotiable warehouse receipts.

Instructions and application blanks may be obtained from county agricultural agents, from State and County Agricultural Stabilization and Conservation offices, or from Agricultural Marketing Service Cotton Division offices.

Mr. and Mrs. Walter West of Abilene spent Mother's Day with his mother, Mrs. A. G. West, and also visited with other relatives.

pastures are so run down they are going to have to have a shot in the arm to get started back on the road to recovery. In some cases on pasture land this will be root plowing, seeding, pitting or chiseling. On crop land it may be chiseling to break a hard pan or surface crust, a deep rooted legume to open up the sub soil and in some cases just a feed crop chopped up and returned to the soil.

"Do you need assistance to find out what you can do to make more effective use of your rainfall? Your Soil Conservation District is ready to assist you," says David Watters, Chairman of the Brown-Mills Soil Conservation District.

Rising Star, Texas

How strong is the weaker sex?

Strong enough to carry a 3-ton elephant in daily installments. That's about how much laundry the average woman carries to and from her clothesline every year. Wish you could get out of that heavy work? Well, you can—with an electric clothes dryer. And the cost for electricity is just a few cents a day.

electricity—a dishwasher, for instance, or an automatic washing machine. You can afford to let electricity do all your work—for it's the biggest bargain in your family budget!

"No Man More Worthy
Of Esteem Than A
Physician"

A physician devotes many years of his life to learning all about the properties of the body, the diseases that assault it, and the remedies that benefit it. All this learning and experience is available to you.

Do you make proper use of his ability and willingness to help you live a healthier life? Do you consult him at the beginning of an illness, or wait until you are so sick that treatment is more difficult? Be wise depend more on your physician instead of self treatment.
