"AS I SEE IT"

Welcome, Ex-Students of Cross Plains Public Schools! It is nice to have you with us and we trust that you will thoroughly enjoy your stay here. An excellent day of activities has been planned for you and we believe you will enjoy every minute of it.

Congratulations, Buffaloes, on clinching the right to represent District 9-A on a co-champion basis. Now let's make it a clean championship title by defeating the Rising Star Wildcats next Saturday night and remain as the only undefeated team in the district! While the Wildcats do not have a very impressive record in season and district play this year, they were successful in holding Goldthwaite to a one touchdown victory which shows they are capable of playing a good brand of football. And, as any Buffalo supporter knows, the Wildcats always play a far better game against Cross Plains than they do against any other opponent. While this game can do nothing to change the district play-off, it would be a feather in the caps of the Wildcats to be able to say they whipped the district champions. The Wildcats haven't won a game against the Buffs since the big drought set in, in 1950, and they can be depended upon to try their best to get back in the win column in the annual grid duel.

How about those old toys you have planned to gather up and take to the city hall for the Chamber of Commerce Goodfellows to repair and distribute at Christmastime? Why don't you do this today, while you are thinking about it? Remember, some underprivileged child will be made happy by your effort. There is also a need for more workers in this worthy movement and if you want to help repair these toys, report for work at the city hall any Tuesday or Thursday night.

Mr. and Mrs. Mac Holdridge of Abilene attended the Cross Plains-Mason football game Friday night and visited his parents, Mr. and Mrs. C. C. Holdridge.

Philosopher Wants Europe To Substitute Football For A Crisis Every Six Months

Maybe a month or two, the story begins to fade, and the world falls back on hold-ups, murders, and Hollywood news. Then a few months later another crisis breaks out, and we start all over again.

Understand, every new crisis has to be paid attention to, and you never know when a little one will develop into a big one, but my position is that if a man hasn't learned to live with a fresh crisis around the corner, he might as well learn to.

A crisis in Europe or Asia plays about the same part that football does in this country, only it's more dangerous. On the whole more people get hurt in a crisis than they do in a football game, especially the spectators.

If Europe had something on the order of football, with one country playing another each week like towns and colleges do over here, and if they throw Russia out of the conference for unethical recruiting, things might be more peaceful, but I don't look for it to happen. After the present Middle Eastern crisis is over, somebody will spring another one. Probably working on it right now. It's something we have to live with. If you stop and think about it, every tire on your car sooner or later is going to have a flat.

Yours faithfully, J. A.

Myrtle Merryman Weds James Moore, Nov. 3

Mrs. Myrtle Merryman daughter of Mrs. Bruno Jemelka of San Angelo, and James R. Moore of Coleman, son of Mrs. J. A. Moore of Cross Plains, were united in marriage in a candlelight ceremony at the Massie Club House of San Angelo on Nov. 3, at 7:30 o'clock. Dr. James B. Leavell, pastor of the First Baptist Church of San Angelo officiated.

The double ring ceremony was performed before an altar of Candelabra, flanked by baskets of greenery and bronze and yellow mums.

Given in marriage by a friend, Mr. E. E. Bradford, the bride was wearing a ballerina length dress of smoke blue rayon peau, featuring a lace bodice and an empire waistline above a gently flaring skirt. Her shoulder length veil was attached to a Juliet cap of smoke blue velvet and white seed pearls. Her only jewelry was a single strand of cultured pearls with matching earrings, a gift of the bridegroom. She carried a Colonial bouquet of pink and white mums nestled in pink net with flowing satin streamers.

Mrs. Iris Poynter of San Angelo, the bride's only attendant, wore a waltz length dress of champagne lace with bronze accessories and carried a bouquet similar to that of the bride, of yellow mums.

Gerald Moore, son of the bridegroom, was his father's best man. Music was furnished by Mrs. G. H. McLaughlin, organist for the First Baptist Church of San Angelo. She played the traditional wedding music and "Because."

A reception was held at the Massie Club House immediately following the ceremony. The bride's table featured a center-piece of yellow and white mums flanked by yellow candles. The wedding cake, baked by the bridegroom's brother of Abilene, was the open Bible, with "Myrtle and James" inscribed on one side and a miniature bride and bridegroom on the other.

Mrs. Maris Underwood registered guests and Mrs. Bill Lee presided at the punch bowl. Mrs. Gary McElroy served cake.

The bride is a graduate of the Snyder High School and Jolley Beauty College of San Angelo. The groom attended high school at Cross Plains and business school in Abilene. State Capitol NEWS

Austin—General election results, nationally, have added new suspense to the already tense issue of who will succeed Texas' Gov.-Elect Price Daniel as U. S. Senator.

At stake is whether Democrats or Republicans will control the U. S. Senate, when Congress convenes on Jan. 3.

Democrats now have a precarious 49 to 47-member advantage. But it would be 48 to 48 if a Republican replaced Democratic Senator Daniel. GOP Vice Pres. Richard Nixon can vote in case of a tie. Therefore this one vote, which Texas could bestow upon him . . . in a round-about way . . . could determine the balance of power. Most important of all, it could decide which party could organize the Senate and appoint the all-important committee chairman.

This possibility puts Gov. Allan Shivers in the national spotlight again. And Senator Daniel.

Texas' conflicting election laws have clouded the issue as to whether Governor Shivers legally can call a special election before Jan. 15. That's when Daniel takes office as governor. This because Daniel's letter of resignation from the Senate specifies Jan. 15 as the effective date of his resignation.

Shivers contends that inasmuch as Daniel did not resign, effective immediately, there is no vacancy until January 15. Daniel argues that Shivers has the power to call an election. Both point to different provisions of the poorly drawn election code.

Unless Congress is in session, a governor cannot make an appointment to fill a vacancy. Therefore, should Senator Daniel resign effective today, Shivers could not name a successor until Jan. 3 . . . opening day of the new Congress.

Shivers feels that Daniel should resign outright, thus paving the way for an immediate election. The governor is required to call an election within 90 days from the effective date of the resignation, and not before 30 days have elapsed. This means that the governor could call for an election in December—or he could designate a January or February date.

Whatever course Daniel pursues, Shivers undoubtedly will have a chance to appoint a temporary replacement. First, because Shivers is not likely to call for a December election. Second, if Daniel submits a new resignation before Jan. 3, effective immediately, Shivers automatically can name a successor on Jan. 3. And third, if Daniel sticks to the Jan. 15 date, Shivers will have from 12:01 a.m. on the 15th until Daniel is inaugurated at 12 noon, to name a successor.

Drought Authority Given
Gov. Shivers has been authorized to designate Texas farmers eligible for reduced railroad rates.

Secy. of Agri. Ezra Benson asked the governors of seven drought-stricken states to indicate persons qualifying for this aid.

Railroads have offered free return transportation for cattle shipped from dry areas to western grazing areas. Designated persons also can receive a 50 per cent reduction in rates on hay shipped from western states to drought regions.

Farm Income Up
Improved methods have kept Texas' overall farm income up, despite drought setbacks.

Cash income for January through September totaled \$1,108,000,000 an increase of \$13,000,000 from last year, reports the University of Texas Bureau of Business Research. Average for the dry years of 1951-55 was six per cent above 1947-49.

Irrigation, conservation and improved crop varieties are credited for the increase. Some areas, the bureau noted, have not had a major crop in five years. Offsetting these are such areas as the Panhandle-South Plains region where "spectacular results" have been achieved with irrigation.

Shivers Buys Home
When Governor Shivers becomes Mr. Shivers next January, his family will move from one historic Austin mansion to another.

He has purchased Woodlawn, 103-year-old residence bought by Gov. Elisha M. Pease when Pease retired from office. Seller was R. Uiles Graham, grandson of Governor Pease.

Known locally as "The Pease Mansion," the 17-room antebellum home contains century old furnishings. Its new owners plan only such remodeling necessary to accommodate their family.

Construction Sparingly
An all-time record for 1956 with a healthy boom carrying over into '57 is foreseen for the Texas construction industry.

Awards through October totaled \$1,049,179,948. This was only slightly less than the total for the whole 12 months of 1953, the highest previous year.

October awards of more than \$84,000,000 did not include a Texas Highway Department contract letting. This means the November figure, with two months of road contracts, likely will be large.

Bond Election Upheld
State Supreme Court has upheld and clarified a new law for unlimited issuance of bonds by school districts.

Validity of some \$75,000,000 in school bonds was affected by a test case from Hamilton County.

Voting in bond elections is limited by the Constitution to property-tax payers. An act for school bond elections passed by the last legislature further restricted voting to those

who had rendered property on the county tax roll.

High court ruling removes this restriction, but upheld constitutionality of the rest of the law.

Short Snorts

Nov. 29 has been proclaimed as Texas' Thanksgiving Day by Governor Shivers. This is in accordance with legislative action setting the last Thursday in November as the state's official holiday. Federally, Nov. 22 will be observed. Construction of a \$30,000,000 federal dam and reservoir at San Angelo has been approved conditionally by the State Water Board. Law requires recommendation by the governor also before the project can be undertaken by the Department of Interior. . . U. S. Dept. of Agriculture has upped its estimate of Texas 1956 cotton crop to 3,800,000 bales, a 140,000-bale increase over last month's prediction. But the new total is still under last year's crop of 4,039,000 bales. . . Dollar value of Texas farm and ranch land increased one per cent during the past year, compared to a three per cent gain for the nation. Average acre value of Texas land was estimated by USDA at \$63.13. National average was set at \$48.63. . . John B. Nations succeeds Asst. Atty. Gen. John Davenport as president of the Texas Public Employees Assn.

THE MARK OF A REALLY SMART PERSON

The mark of a really smart person is not necessarily a college diploma or a Phi Beta Kappa key. It might be simply a record of carefully-considered actions. To "know it all" would be wonderful — if we humans could absorb that much knowledge in a lifetime. Next best is to seek and accept the advice of experts, particularly your Doctor. Visit him frequently. Follow his directions carefully. Bring your prescriptions to us to be filled, and take the medicine he prescribes regularly. Such cooperation is the best course possible for preservation of your health, and it marks you as a really smart person.

C. M. Garrett of Cross Plains has again seeded all his cropland to vetch and rye. He has done this each year for several years previously.

L. V. Hagan has seeded five acres in an orchard to a cover crop of vetch and rye.

J. S. Freeman has planted 12 acres to vetch and rye on his farm west of Baird.

Henry Bailey has seeded 17 acres to Austrian Winter Peas on his farm north of Putnam. Mr. Bailey plants a few acres to Guar, a summer legume, each year.

Many other farmers in this area are now seeding cover crops. This practice will be continued through December.
