good taste and thoughtfulness.

And any bride would glow with pleasure to see the lustrous quality shining through every gift of steel. And she can be assured these good-looking items will go to work in a thousand ways to prove their lasting value. For only steel can do so many jobs so well.

So when you shower the bride, make it a Steel Shower. And when you shop for the bridal gifts, make an investment that is fashionable and practical. Look for the store displaying the Steel Shower symbol-and get the gifts that will last a lifetime.

This symbol identifies the store that's a Bridal Center, where you can get a variety of gifts styled in steel . . . to last a lifetime.

A homestead should flowers and gifts which I received be rendered to tax assessors like any while in the Scott & White Hospital other property, and taxes assessed against it should be paid as faithfully as those on any other taxable property.

The deadline for rendering propording to record, was given to Pope perty for taxation is April I, so far The Rondal Young family is spendas most city taxing agencies are ing this week with his parents. concerned. The last date for rendering real and personal property for state and county taxes is April 30. State taxes are collected by the County Tax Collector.

Under the Texas Constitution, each family is entitled to claim one piece of real property as their homestead. This claim must be esablished by an affidavit filed with the county tax assessor on or before April 30, each and every year. This affidavit must be filed by the owner himself. A lending agency cannot do so, even though it may actually pay the annual taxes thereon from a fund created by the owner's monthly installments.

When the homestead affidavit is properly filed, the owner becomes entitled to an exemption of State taxes up to the value of \$3,000 or 200-acres in the case of farm lands. This is an exemption from payment, not a complete exemption from rendition and assessment. There is no similar exemption with reference to county or city taxes.

The homestead claimed for tax purposes need not be the property which is actually occupied by the owner as his residence.

When the homestead affidavit is not filed by April 30, the taxpayer loses his right to the \$3,000 or 200acre exemption, and consequently becomes lable for more taxes than he would otherwise be required to

against the person who is the record owner of each piece of real and personal property on the first day of January of each year. Individuals purchasing real property furing the year should make sure that the taxes for all previous years have been paid. Otherwise, the purchaser may be forced to pay hundreds of dollars in delinquent taxes to protect his property. Urmaid taxes create a lien against the procerty which can be enforced regard-

ess of change of ownership. One should also keep in mind to make some arrangement for the previous owner to pay his pro-rata share of taxes for the current year. Otherwise, the buyer may find it decessary to pay the entire taxes

for that year. When taxes are not paid by the deadline prescribed for the particuar taxing unit (city county state or district), mometary penalties and interest are added from month to month. In addition, the property become subject to seimire and sale to satisfy the tax lien. This lien applies to all property, whether homestead or not.

LET OUR EXPERT ELECTRICIANS REWIRE YOUR HOME FOR SAFETY

Hornsby Electric Co.

Forty years ago, in June of 1917, the Humble Company received its charter from the State of Texas.

The Company was formed through a merger of the properties of a number of independent oil operators. Its founding brought together a remarkable group of men who occupy an important place in the annals of the oil industry:

R. S. Sterling and his brother, F. P. Sterling, the principal organizers of Humble Oil Company from which the present company acquired its name; W. S. Farish and R. L. Blaffer composing Blaffer and Farish; H. C. Wiess with assets from Paraffine and Reliance Oil Companies; Walter W. Fondren and C. B. Goddard, producers; and L. A. Carlton and E. E. Townes as lawyers.

All of these men contributed greatly in adopting the principles, in shaping the policies, and in laying out procedures that have guided the Company's progress through these forty years. Their influence will survive as long as the Company continues.

They possessed courage and business judgment. They established high standards of performance. They built a strong organization of competent men and women.

The Company, as it stands today, is a tribute to the leadership, the vision, and the work of its founders.

But it is doubtful that these men, with all their foresight, visualized the changes that have occurred in the oil industry since 1917, or the size and complexity of Humble's present operations, or the extent of the Company's contributions through the years to the progress of our society.

To all who have made those contributions possible-employees, customers, shareholders and the people of the states in which the Company operates-Humble extends its thanks.

HUMBLE OIL & REFINING COMPANY
