LET'S TALK LIVESTOCK CATTLE TRADE ACTIVE, FAT CALVES HIGHER

FORT WORTH—Slaughter calves brought fully 50 cents to \$1 higher prices than the low close of last week at Fort Worth Monday. Cows also sold in a strong to 50 cents higher trade. Stocker and feeder cattle and calves were very scarce, and prices fully steady to strong with considerable inquiry in the trade for thin calves, yearlings and cows suitable to winter in the grain fields.

Fed steers and yearlings were very slow, bids being largely steady with the close last week, and salesmen asking higher prices for the offering.

Receipts in all divisions of the market were sharply curtailed by the general rains over the weekend, and reports to the market indicated pasture men were jubilant over the prospects for making winter feed and in many places low stockwater tanks were replenished.

Wheat and oat farmers reported moisture conditions "excellent" and predicted a sharp expansion in the already good demand for cattle and sheep to graze their fields this winter.

The "local" nature of the stocker outlets were pointed out by representatives of corn belt interests,

who said western and northwestern stockers and feeders were moving in numbers and current Texas prices were out of reach of their clients in most cases.

However, these representatives were quick to point out that in much of the corn belt the crop is late, and an early frost would mean much "soft" corn. A situation with usually results in a sharp increase in cattle feeding since such corn will not store.

Good and choice slaughter steers and yearlings bulked at \$19 to \$23 and common, plain and medium butcher sorts sold from \$13 to \$18.50.

Fat cows sold from \$12.50 to \$15.50, and canners and cutters drew \$8 to \$12.50. Bulls sold from \$11 to \$16.

Good and choice slaughter calves cashed at \$18.50 to \$21, and a few fancy seavies sold to \$22. Plain and medium slaughter calves sold from \$14 to \$18, and rannies and common sorts sold from \$11 to \$13.

Good and choice stocker steer calves ranged from \$20 to \$23.75, and stocker heifer calves cashed at \$21 down. Stocker steer yearlings sold from \$20.50 downward. Feeder heifers sold from \$17.50 down. Stocker cows cashed at \$10 to \$14.50.

HOGS OPEN STRONG TO 25 CENTS HIGHER

About ten thousand less hogs than a week earlier were reported around the major marketing circle Monday than a week ago, and the sagging hog market staged a mild rally of 25 cents per hundred at Fort Worth Monday.

Choice butcher hogs scored \$19.25 to \$19.50, and the medium to good variety sold from \$17 to \$19. Sows cashed at \$17.50 to \$18.50.

SHEEP AND LAMBS OPEN FULLY STEADY

The trade on sheep and lambs was fully steady, quality considered, and high grade offerings were practically lacking in the offering at Fort Worth Monday.

Medium and good fat lambs sold at \$20 to \$21, and cull and common sorts drew \$15 to \$18. Stocker and feeder lambs sold from \$19 to \$20. Slaughter ewes sold from \$7.50 to \$8.50. Old bucks sold around \$6.

A few stocker ewes in the run sold from \$9 or \$10 on old broken mouths, to \$15 or \$16 on a better king.

IS CATTLE POPULATION TURNING UPWARD AGAIN?

Two reports, within a week of each other, arrived in Fort Worth in which well-informed persons raised the questions as to whether the cattle population of the United States may not have started upward again this year.

Norman G. Warsinke, publisher of the Western Livestock Reporter at Billings, Montana, said: "There is a basic uptrend in the cattle population cycle. Considering the drought liquidation of the past two years, this is quite normal. Cattle are being held in pasture and range areas for maximum feed utilization, which means that grass beef is accumulating for the Fall market — Despite the reduced calf crop, the inventory of cattle numbers on January 1, 1958 may be up."

This past week the annual meeting of the American Meat Institute, Oris V. Wells, administrator of the Agricultural Marketing Service of the United States Department of Agriculture, said: "Cattle marketings this year are likely to be two percent under 1956. In several previous cycles the down phase has lasted as long or longer than the expansion or buildup phase. However, some of us feel that under present conditions this phase of the current cycle may not be as long or the decrease in numbers as great as in most recent years." Cattle numbers were reported down one, and two percent last year and the year before, respectively.

State Capitol NEWS

AUSTIN, Tex.—"Tickets" for Texas 1956 political bouts go on sale next week. Poll taxes, \$1.75 each, can be bought from October 1 until

January 31. Holders of the small white tax receipts not only can watch, but participate in the semi-annual struggle to decide who'll be "top dog" for the next two years. In the ring will be contenders for the offices now held by U. S. Sen. Ralph Yarborough, Gov. Price Daniel, Lt. Gov. Ben Ramsey, and so on down the line. "Ticket" holders also can attend their Democratic Party precinct conventions next May, where the first round of a fight for party control will be staged. Assuming you have \$1.75, paying a poll tax shouldn't be hard. Dozens of groups—Jaycees, labor

unions, Women Voters, etc.—plan massive drives. Most voters probably will be able to find a poll tax selling booth within blocks. Exact number of potential voters is not known, of course. But some civic leaders hope as many as three million persons will pay poll taxes. Previous record is 2,410,188 for 1956, a presidential election year. Another peak is expected in 1960 when census projections show more than 5 1/2 million should be eligible to vote in Texas. OIL QUOTAS SAG—Lean days are ahead for Texas' top industry—oil. After three months on an all-time low producing pattern of 13 days, the Railroad Commission cut the October production to 12 days. Daily allowable will be 2,964,062 barrels. Major oil buyers at the Commission hearing indicated that any more production would result in an oversupply. For a state heavily dependent on oil tax revenue and already faced with fiscal problems, the oil cut means tough times for the state budgets. MORE TAXES, SAYS BOARD—Even before the oil slash, the Legislative Budget Board had some hard facts to share with Texas taxpayers. By 1968, says the Board the average Texan will pay 64 cents of each dollar he earns, in state taxes. This is compared to 53 cents per dollar in '57. It's the inevitable result of a billion dollar a year budget, say the fiscal experts. They attribute the soaring expenses to inflation and citizen demand for more government services. Who's to pay for it, the Board says. "All taxes ultimately come from the individual. There's no one else to pay them." On the brighter side, State Comptroller Robert S. Calvert reported

the state started the new fiscal year this fall in the black. Calvert's report showed Texas took in approximately \$100,000,000 more than it spent up to Aug. 31. "BUG" ON THE LOOSE—In schools, colleges, offices—even jails—over Texas, thousands of people are abed. Nearly three thousand cases, with flu-like symptoms, have been reported to the State Health Department. Finding out whether it's Asian flu requires special tests. Health Department offices are swamped with specimens and requests for tests. Whatever the disease, it meant that football games and other school activities had to be called off in a number of areas. So far, only a dribble of Asian flu vaccine has come to Texas. Dr. Henry Holle, Health Commissioner urges these precautions for the general public: 1. Stay away from crowds. 2. Drink plenty of liquids—water and fruit juices. 3. Go to bed at the first sign of symptoms. Symptoms are fever, chills, headache, sore throat, and aching back and limbs. DEMOS HAVE CHOICE — In some areas people contributing to the Oct. 11-12 Dollars for Democrats drive can choose where they want their money to go. One set of fund-seekers will be working at the behest of the official Texas organization, the State Democratic Executive Committee. In accordance with a formula set up by national officials, they will keep two-thirds of what they collect for Texas work, send one-third to national headquarters. Workers for the liberal-minded Democrats of Texas, at odds with official party leaders, say they'll turn no money over to the state office. All DOT collections are to go to national. PUSH FOR WATER—Activity toward a statewide water development program moves forward. Members of the government's citizens water planning committee are receiving information kits. Material is to be used in a campaign for adoption of the \$200,000,000 water bond amendment. Governor Daniel also announced the three representatives who'll be charge of getting water planning legislation through the House during the special session. They are Reps. W. N. (Bill) Woolsey of Corpus Christi, Rep. Leroy Saul of Kress and Rep. Bill Shaw of Forney. At the third annual Water for Texas conference at College Station, Gibb Gilchrist, conference founder, allied creation of one central water agency as the state's greatest need. MORE APPOINTMENTS—Governor Daniel's appointment list grows. Recent additions to state government: A. H. (Kerry) Knippa of San Antonio to the building and loan section of the State Finance Commission. E. L. Jackson of Cisco and John E. McKelvey of Electra to the State Veterans Affairs Commission. Joe C. Carrington of Austin to the Commission on Alcoholism. John E. Lowe of Vidor, B. B. Rabb of Point and Carroll Swearingen of Quitman to the Sabine River

COAST-TO-COAST ECONOMY RUN PROVES IT—CHEVY COSTS LESS TO DRIVE!

Test run from Los Angeles to New York by the three leading low-priced cars showed Chevrolet costs less to operate, with up to 17% greater fuel economy!

When fuel and operating costs for cars are officially checked from Los Angeles to New York, that's an economy comparison! And what happened? In certified NATA* findings, Chevy delivered up to 17% greater fuel economy, and lower total cost for the trip—proof that Chevrolet costs least to operate of the three leading low-priced cars that were tested! But that's not surprising. You expect Chevrolet engines to wring extra miles out of a gallon of gas—just as you expect finer craftsmanship in the way a Chevy is built. Better see your Chevrolet dealer soon!
