Changes Made In Social Security By '58 Amendments

(Editor's Note: This is the 5th in a series of 10 articles.)

One of the important reasons for social security insurance benefits is the protection of children. Before the recent changes in the law, however, foster children who had not been legally adopted were often out of luck where social security is concerned. I have known many "little orphan Annes" who were not eligible for payments.

I recall, in particular, the case of 6-year-old Johnnie K. The Johnsons had taken him to live with them but before they could get around to a legal adoption, Mr. Johnson died. Mrs. Johnson fully expected to get survivor's payments for the little boy and for herself as she had the child in her care. However, Johnnie had not been legally adopted and she, as a widow without a legal minor child, could not get payments as she was under 62.

The 1958 changes in the social security law make it possible to pay benefits to more children (including Johnnie) and more widows (including Mrs. Johnson). In the case of children, this results from the removal of the adoption provision in the old law; in the case of widows, the removal of the adoption provision will also permit the payment of mother's benefits in most cases.

It is no longer necessary that a child, other than the worker's own child, be an adopted child in order to qualify for survivor's benefits. The requirement now is that the child be "adoptable" and be adopted by the surviving spouse within two years after the worker's death. If the child was living in the worker's household as a member of the family, and was not supported by

anyone other than the worker, the spouse or a social agency, he is now regarded, for social security, the same as the worker's own child.

In the case of the adopted child of a retired insured worker it is no longer necessary that the child have been adopted for as long as three years in order to be eligible for benefit payments. Benefits are now payable to an adopted child immediately after adoption.

Under the old law, the mother of a child adopted by her deceased husband could not get widow's benefits if their marriage had not been in effect for at least a year before his death. This often resulted in a situation where the child could get survivor's benefits but the widow with the child in her care could not. Under the amended law, the length-of-marriage restriction has been removed if the deceased worker legally adopted the spouse's child.

The amended law includes other changes relating to marriage and remarriage. I shall discuss them in the next article in this series.

Questions From Vets Answered By VA Officials

Q—Does my GI home loan have to be paid off in full before I can sell my home?

A—Not necessarily. The buyer may assume your GI loan, if he is willing, if your payments are up to date, and if VA determines he is a satisfactory credit risk.

Q—I have a dental condition which is not service-connected, but my doctor tells me it is making my service-connected disability worse. Would I be eligible for VA dental care even though my tooth trouble is not service-connected? If so, would there be any deadline for receiving treatment?

A—If VA finds that your dental condition is aggravating your service-connected disability, you may be eligible for as many treatments as are needed to alleviate the aggravation. You may apply at any time.

Q—I receive a VA pension. I also hold a part-time job which does not interfere with my disability. In reporting my 1958 income for VA pension purposes, do I put down my gross salary or my net salary, after income tax deductions?

A—You must report your gross income, before any deductions have been made.

Q—I am due to get an annual policy dividend soon, on my World War II GI insurance. If I decide I do not want to have my yearly dividends in cash, can I let them stay with VA, to my credit?

A—Yes. VA offers you two plans. Under one, you simply tell VA you would like to have your deposits held for you, on deposit. In the other plan, called the dividend credit plan, VA will automatically withdraw funds to pay GI insurance premiums, in case you fail to

Army Offers Young Men Career Group Enlistment

Placing the right man in the right job is the intent of the new "Army Career Group" enlistment option which became available to Regular Army enlistees on January 1, 1959. Colonel Garlen R. Bryant, Commanding Officer of the Fourth U. S. Army Recruiting District, announced today.

Under the "Army Career Group" option, individuals will be qualified through a battery of tests at the nearest U. S. Army Recruiting Main Station, and a career field within his occupational aptitude area may be selected by the individual.

In effect this is a choose-it-yourself vocational training system. The individual can choose the exact career group in which he would like to receive training.

More than 60 Career Groups, covering virtually all of the Army's occupations, are offered.

Qualified men are guaranteed either schooling or on-the-job training in the career field which they select, and the guarantee is entered on their Army records when they enlist.

Many of the career fields are open also to qualified young women who enlist in the Women's Army Corps.

Details on each of the career fields are described in the catalog, "Army Occupations and You," which is available for study of the nearest U. S. Army Recruiting Station. The catalog summarizes the duties and responsibilities of each career field, lists the necessary qualifications for applicants, shows the training which will be given, and the related civilian jobs for which the individual

send one in. Under both plans, your dividends will draw interest.

will become qualified.

Counselor for the applicants under the "Army Career Group" option is M. Sgt. Frank Lockman, the local U. S. Army Recruiter, whose office is located at 900 N. 3rd St., Abilene. Complete information on this and other Regular Army enlistment options is available without obligation.

Miss Beatrice Smith To Wed Robert Calhoun, February 14

Mr. and Mrs. Leo Smith of Brownfield have announced the engagement and approaching marriage of their daughter, Beatrice, to Robert Calhoun, son of Mrs. Cornelia Calhoun of Brownwood and the late E. A. Calhoun.

A graduate of Brownwood High School, Miss Smith attended Howard Payne College and is employed in the business office of the Southwestern State Telephone Company in Brownwood. Her fiancé, who graduated from Cross Plains High School and attended Callahan County Vocational School, has served in the Air Force and Army. He is a member of the Masonic Lodge and the Jaycees, and is employed with the Great American Reserve Insurance Co.

Views are to be exchanged Feb. 14 at 5 p.m. in the Melwood Baptist Church in Brownwood, with the pastor, Rev. Travis Gibson, officiating.

GIVE NEW HOPE!

Today, the March of Dimes is fighting the dread "crippling problems" of our nation: polio, arthritis, and birth defects. In polio, it is estimated that 150,000 people already stricken, can still benefit by help. The rheumatic diseases, including arthritis, are afflicting at least 11 million persons. Birth defects are the largest unsolved child-health problem, and some 250,000 infants are born malformed each year! You can give all of these people hope of living normally again! Give... and give generously... from your heart!

FORWARD GREATER VICTORIES!
health and happiness for all

 State Comptroller Calvert's official revenue 1960-61 is more of a than a forecast.
 The state's general fund to hit \$65,234,703 by this biennium next August the present tax set estimates revenue to be during the next two total \$180,697,245.
 deficit is taken care of, \$30,000 would be left for spending. It's a pretty thin compared with the

\$282,000,000 appropriated from general revenue for 1958-59. It means the state will have to raise \$167,000,000 more just to maintain its present "standard of living."
 Comptroller Calvert's official revenue estimate this year is a far cry from the one he made two years ago for the 55th Legislature. In that well-heeled era Calvert forecast approximately a \$50,000,000 surplus. No one paid too much attention to outgoing House Speaker Jim Lindsey's prophecy that spending needs would outrun this figure.
 In good years and bad, the Legislature is bound by law to hold its appropriations within the comptroller's revenue estimate.
 Treasury Hunt—A number of economies plus stricter levying and collecting of present taxes might net the state as much as \$74,599,957 without new taxes.
 This report was made by a financial study committee headed by Secretary of State Zollie Steakley. Committee was appointed by Gov. Price Daniel last summer.
 Its six cash-raising ideas: (1) put more tax-collecting personnel in the comptroller's office, (2) cut out tax exemptions for beer and cigarettes sold on military bases, (3) increase franchise tax rate, (4) consolidate state "housekeeping" services (such as telephones), (5) increase fees charged by state agencies and (6) establish a "conservatorship" for the state to take

over unclaimed money (such as bank accounts) and personal property.
 Senate Investigating Committee also inquired into the comptroller's work, was told that additional personnel would make it possible to collect millions more in taxes.
 Hope For Creditors—State Liquidator C. H. Langdeau reported his office is making progress toward clearing up some of the stickier problems resulting from insurance company failures.
 Langdeau told the Senate Investigating Committee that if some proposed property sales go through, creditors of US Trust and Guaranty will get a 10 per cent payment. They have previously received a 31 per cent payment.
 Cecil Rotsch of the liquidation division told the committee that ordinary life policies of bankrupt Estate Life Ins. Co. had been reinsured and the unsound industrial policies cancelled.
 In an earlier report the Senate committee had charged Insurance Commissioner William A. Harrison with negligence contributing to the downfall of Estate.
 Battle Lines Drawn—Representatives of Texas Municipal League and spokesmen for the State Firemen's and Policemen's Associations tried to have a friendly get-together. Purpose: to share views on future legislation on firemen's and policemen's wages, hours and pension plans.
 Municipal League wanted to talk about its plan to put more control of wages and hours in the hands of city councils, rather than the Legislature. Firemen and policemen were more interested in their plan to get the Legislature to limit working hours in cities over 10,000.
 After a stormy session the two groups admitted they were "poles apart."
 Each gave notice they'd stick by their guns and fight it out at the Capitol.
 At It Again—Texas Employment Commission, a frequent battle ground for labor-management hassles, is caught in the cross-fire again.
 It was touched off at a meeting of TEX's advisory council called to consider proposed changes in the unemployment compensation laws. Commission Chairman Perry Brown is recommending that the weekly checks be upped from \$28 to \$35, the 24-week pay period to 26 weeks and that there be a one-week waiting period before payments begin.
 R. F. Newman, labor's representative on the Commission, recommended payments pegged at 55 per cent of the average salary. At present \$78 weekly average, benefit checks would be about \$43. Newman also recommended extending the unemployment law to firms with only one employe.
 Labor spokesmen on the council were critical of Brown's one-week waiting period proposal and even more critical of Brown and Commissioner Maurice Acers. State AFL-CIO President Jerry Holliman accused the two commissioners of voting down the appeals of jobless workers.
 Management representatives declared the commission's first responsibility was to get people employed, not to pay out benefits.
 Higher Prices Seen—1959 may be the year for another round of inflation, warns the University Bureau of Business Research.
 BBR noted that even with the recession there was no drop in prices during 1958. Hence, the expected expansion in business in the coming year might mean some sharp price rises.
 Mr. and Mrs. T. H. Johns, Indianapolis, Ind.; Mr. and Mrs. J. H. Jones of Lawton, Okla.; and Mr. and Mrs. L. E. Booth of Chico were recent visitors in the R. D. Hitt home.

Surely our sympathy goes to Mrs. Tip Wrinkle, who lost her mother Saturday. Mrs. Cook was well known here, having lived in these parts a long time. She was buried in Fort Worth Monday at 10 a. m.
 There was a good attendance at the Primitive Baptist Church Sunday. Visitors included Elder and Mrs. Edwin Robertson and daughter of Wichita Falls and John Donaldson of Kokomo.
 Mrs. David Foster returned home Saturday from San Antonio, where she had been with her son, Jerry, who was ill in the Air Base Hospital. We hope Jerry is soon well again.
 Mrs. Roy Neil Tatom, Beverly and Kim, spent Thursday with Mrs. Leroy Byrd at Cross Cut.

Kizer Telephone Company Has New Billing Process

This month all Kizer Telephone Co. subscribers received a new type of bill. The new billing process is known as machine billing. The new bill form was designed for its compactness and legibility and allows better and more accurate bills to be made in considerable less time than the old method. E. O. Kizer, owner of the company, says with the addition of the new lines and new areas billing had become a major problem. The company now bills approximately 1,200 subscribers and handles 5,000 toll tickets each month. Machine billing is accomplished by two main machines, one that imprints the name and address on the bill and the other imprints and charges and automatically totals each. The machine that totals each bill also gives a grand total of all bills at the end of the billing period. The advancement to this new method was made possible by the REA loan program to this locally owned commercial company.

Hoyt Byrd Visits Parents Enroute To Austin Meet

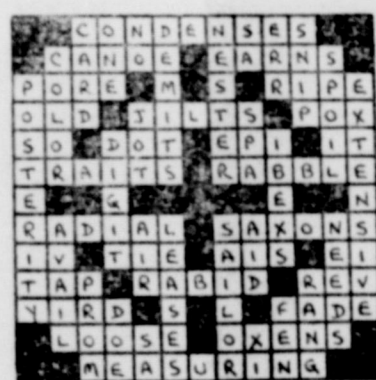

Hoyt Byrd of Corpus Christi visited here Thursday night of last week with his parents, Mr. and Mrs. Les Byrd of Cross Cut, before going to Austin Friday morning where he attended an Administrators Conference called by the Texas Education Agency, January 8-9.
