Deadline Nearing for New Auto License Plates and Safety Inspection Labels

Next Wednesday, April 1, will be the deadline for motorists to have their vehicles inspected and new license plates installed, and, according to A. J. McCuin, deputy tax collector, only about two-thirds of the local vehicles have been licensed to date.

E. C. Gilmore, owner and operator of the Cross Plains Motor Co., licensed inspection station here, reported that more than a third of the vehicles are still to be inspected, also.

If you are one of these, you can save yourself a long wait by getting your car inspected and having your license plates now, before the last-minute rush period begins.

Junior Class to Present Play Here, March 31

The junior class will present the three-act comedy, "A Case of Springtime," in the high school auditorium at 7:30 p.m. on Tuesday, March 31.

The public is urged to attend this entertainment, from which the proceeds will be used to sponsor the annual Junior-Senior Banquet. Admission will be 25c for students and 50c for adults.

"A Case of Springtime" is the story of the Parker family and their friends. The following students appear in the play: Grady Scott as Bob Parker, a far-from-average high school senior; Belinda Brashear as Joan Abernaker, the principal's daughter whom Bob almost saws in half while trying to do magic tricks; Cecil White as Mr. Parker, a strict but kind-hearted father; Jerry Koenig as Mrs. Parker, who understands the many problems her children encounter; Evelyn Foster as Dickie Parker, Bob's kid brother who is full of "dynamic tension"; Jean Bonner as Gwen Anderson, who adores Dickie so much she keeps bringing him candy and carrying his books to school; Shannon Bryan as Betty Parker, the sophisticated sister of Bob and Dickie; Claude Beeler as Eddie Abernaker, Betty's irreplaceable boy friend; James Cowan as Mr. Abernaker, the school principal who unwisely lends Bob his good Stetson hat for an egg-breaking trick; Vondan Walters as Louella, the maid who adds to Bob's problems by dyeing Mr. Abernaker's coat a bright yellow; Christine Smart as Mrs. Brunswick, Sandra Kilgore as Mrs. Hill, and Nelda Tenneson as Mrs. James—all officers of the P. T. A. who might help Bob except that they become victims of some "booby traps" meant for Joan and her college freshman; Odean Smoot as the plains-clothes man who comes to arrest Bob for bringing home some "little rabbits" that escaped from the zoo; and Virginia Lane as Miss Bright, a zoo attendant who solves Bob's problems by telling him what the "little rabbits" really are.

Mrs. E. L. Morgan and Bill Gunn, sponsor of the junior class, predict that the public will be well pleased with this presentation. The play is lively and witty, and the talented cast has worked diligently for six weeks to perfect its preparation.

A Dixieland Band composed of members of the stage band, under the direction of Roy Flournoy will furnish musical numbers between acts.

Pioneer Couple Moving To New Home In Stephenville

Mr. and Mrs. J. D. Inabnet, long-time residents of the Pioneer community, are preparing to move to Stephenville in the near future, it was learned here this week.

This beloved couple have sold their farm in the Pioneer area to their daughter and husband, Mr. and Mrs. Carroll Westerman of Artesia, N. M., and are now building a new home in Stephenville and will move as soon as it is ready for occupancy.

"Uncle Jonn" Inabnet and his wife have a legion of friends throughout this area who will regret to see them move and who will wish them complete happiness in their new home.

He was one of the area's best farmers and was named the state's outstanding soil conservation farmer by the Fort Worth Press several years ago when he was honor guest at a banquet at the Texas Hotel in Fort Worth when the sponsoring newspaper presented him with a check for \$500.

It is hoped that this fine couple enjoy a well-earned rest in their retirement.

Methodists to Worship In Remodeled Church Here Easter Sunday

Members and visitors of the First Methodist Church in Cross Plains will observe Easter Sunday morning services in the newly remodeled and redecorated sanctuary, according to an announcement made here this week by Gordon Dennis, pastor of the church.

An extensive remodeling program is scheduled for completion this week, according to Rev. Dennis, and worshippers will find an attractive building interior which has a completely new choir loft, with the organ located in the center immediately behind the pulpit. The electric chimes have been placed on the center of the wall in the rear of the choir. A new chancel rail has been added and all appointments in the choir loft are new except the organ and chimes. The sanctuary has been completely redecorated. New carpeting has been installed on the rostrum and the aisles and new upholstered pews are to be installed Saturday.

New swinging slab doors have been refinished and varnished and waxed. The program will be complete Sunday except for installation of two accordion-style doors separating the two Sunday School rooms from the auditorium. These will be installed as soon as they are received, it was said.

Rev. Dennis urges all members and visitors to attend services Easter Sunday and enjoy the services in the newly-remodeled sanctuary. Mayes Lumber Company, of this city, was contractor on the project, which also included waterproofing the exterior of the building in the basement.

Bishops Buy Interest of Partner In Auto Firm

Lee Bishop and son, Dale, announce in a display advertisement appearing in this edition of The Review, that they have recently purchased the interest of Theo Lamo of Snyder in the Bishop Chevrolet Company here, and are now sole owners of the firm.

The Bishop family moved here from Eastland and opened the local agency Nov. 1, 1947, in partnership with Lamb. At the time they owned only a quarter interest in the firm. In 1952 they acquired another 15 per cent interest, and in 1956 they purchased another 30 per cent of the business, giving them a 75 per cent interest.

Effective March 1, of this year, a deal was consummated between the partners in which the Bishops became sole owners of the business.

Speaking of the latest transaction, Lee stated that while his association with Mr. Lamb had been completely satisfactory, it was, indeed, a pleasure to become sole owner of the firm with his son.

He stated that the policies of the firm will remain the same, and he expressed his sincere thanks to the citizens of this community for their fine patronage and friendship which made it possible for him and Dale to buy the business, and he pledged their best efforts in serving the driving public in the Cross Plains area in the years ahead.

Patronize Your Home Town Merchants

It increases the value of your property in actual dollars and cents. Certainly neighbors, friends and visitors are impressed by a clean, attractive town. One of the quickest ways to discourage investors or prospective citizens in a community is to let them view a dirty, disorderly and unkept town.

"Another phase of this program is that a city can be improved a great deal by a very small investment in actual cash. Work, interest, planning and civic pride are the best tools in this campaign," Smith stated.

"Many diseases are associated with filth and unsanitary conditions. Rats, mice, undesirable pests and insects are harbored in trash and brush piles or stagnant water.

"The consumer customer, renter, or lessee may be more interested in the appearance of the grounds or building than in the price. Why? Because clean, refined looking neighborhoods are similar to physical characteristics. One clean attractive yard makes others desire to make their places look better. Slums or neglected properties breed others.

"These are some of the reasons why we, the citizens of Cross Plains, should band together to make our city a cleaner, more attractive and healthier place in which to live," Smith declared.

"In collecting trash or rubbish, the city will gladly help you. However, it is absolutely necessary that such materials be in boxes, containers or wrapped and tied so that it can be handled quickly. Place your trash at vantage points near the street or alley so that the city truck can get to it and the city crew will get it sometime between April 15-18," he stated.

Pioneer Area Enjoying Big Building Program

Building is "booming" in the Pioneer community along Highway 36. Recent buildings and improvements include the following:

Mrs. Sam Eakin has recently completed an addition to her business as the Roadside Snack Bar, giving her more space to serve her patrons.

James Cloud has constructed and is now operating a new welding shop on the lot just east of the Fore Grocery and Station.

Bill Hester has recently moved a new two bedroom home on location just west of the Fore store and is now completing the project.

Homer Brown is completing work on his new store and station located on the north side of the highway just west of the Pioneer farm-to-market road.

Work is nearing completion on the Jess Brown home which included a complete remodeling both inside and out.

Mack Gray has completed work on a back porch on his home and has poured concrete curbs and sidewalks.

Delma Dean is now wrecking the old store on his property and will move his present home on the concrete slab left from the store building. He plans to move a larger house to the site of his present home.

Mrs. Odom and Mrs. Barnett Attend Restaurant Meeting

Mrs. Morris Odom, proprietor of the Nite & Day Cafe here, accompanied by Mrs. Judd Barnett, were in Abilene Tuesday night of this week, where they attended a dinner meeting of the Texas Restaurant Association, held at the Abilene Country Club.

The Nite & Day Cafe is a member of the organization, which takes its members from only the best eating establishments in the State by invitation only.

Mrs. Myrt Adams of Denver, Colo., who has been visiting in Austin with her niece, Mrs. Sam R. Wood, is here for a visit in the home of Mr. and Mrs. Doyle Burchfield. Cancer Breakthrough—Now or Never

Editor's Note: This is the first of a series of five articles on the question: "Cancer breakthrough—now or never?" This article deals with the present status of cancer control.

By PAT McGRADY
Science Editor
American Cancer Society

Is the long-awaited "cancer breakthrough" near? A few recognized authorities have suggested that it may be. But the word, "breakthrough," is left undefined. And few, if any, will hazard a guess as to just when this blessing may come to pass. They don't say how near is near.

Unhappily, it must be said at the outset, nothing in the published accounts or in confidential reports of thousands of scientists working on the cancer problem now suggests that new cure is at hand. As things stand, the 260,000 Americans doomed to die of cancer in 1959 will die on schedule—unless something unforeseen happens.

That a "breakthrough" will come to pass eventually few now will deny. This is a strange and encouraging contrast to the attitude of scientists and informed doctors of only a decade ago, when the consensus seemed to be that cancer, by and large, never would be controlled.

In this series, we will try to out-

line where we now stand, prospects for the immediate future, the course of future progress and the possibilities of a sudden and surprising development which would drive cancer from its grim empire as the second most prolific killer of this century.

What Is A Breakthrough?
For our purposes, a cancer breakthrough would be any development which would a) prevent a substantial percentage of cancers which now occur, or b) bring about the cure of advanced cancers—the kind against which medicine today is completely helpless.

In a sense, and within the framework of this definition, the last twenty or so years have seen a cancer breakthrough—or, more exactly, a "sneakthrough." Just recently we have found that one in three cancer patients is saved; the figure used to be one in four.

This salvage of human life has not been due to research advances so much as to the application of common sense by patients and of good medical practices by doctors. The patients became suspicious of their symptoms, and brought them to the attention of the physicians in time—and the doctors cut out the cancers or burned them out with radiation before they could seed distant parts of the body and foreclose on the patients' lives.

It was one saved in four.

Now it is one in three.

When will it be one in two?

It could be one in two right now—and without a single new discovery. One-half of today's cancer victims die not so much from can-

cer as from ignorance, carelessness and fear. And maybe poverty. They could be saved by the best cancer detection and treatment facilities now available. But they must go to the doctor in time. And the doctor must know what to do—and do it quickly.

Some Cancers Can Be Prevented
The best way to beat cancer is to prevent it. The only way to prevent it now is to avoid the things that cause it.

More than 400 chemicals have caused experimental cancer in animals; and their use in food and drugs has been curtailed.

Excessive X-rays cause cancer; and, while they must be used to diagnose and treat certain illnesses, they should not be used capriciously. Long-sustained over-exposure even to sunshine causes skin cancers; and within reason, this abuse too should be avoided.

Chemicals and physical irritants are believed to give rise to pre-cancerous conditions. Common sense and good personal hygiene eliminate many irritations. Non-healing injured tissues should be looked at by one's doctor.

Among the habits suspect of causing cancer, cigarette smoking has gained the most attention. Responsible authorities do not dispute the fact that, statistically, cigarette smokers have many times the risk of lung cancer run by non-smokers. And more and more investigators are finding chemicals in cigarette smoke which cause cancer when applied to experimental animals. Each must decide for himself whether or not to smoke. They are your lungs—and your life.

One big life-saving advance adopted during the last decade is the technique of removing fluid from various body areas and examining it under the microscope for the presence of cancer and pre-cancerous cells. This has been highly effective in finding uterine cancers, while they are still early and curable; and scientists are using similar procedures in other areas of hidden and dreadfully deadly cancers—such as the lung and stomach.

If you would avoid death by cancer, you should call these conditions to the attention of your physician:

- 1) Unusual bleeding or discharge.
- 2) A lump or thickening in the breast or elsewhere.
- 3) A sore that does not heal.
- 4) Persistent change in bowel or bladder habits.
- 5) Persistent hoarseness or cough.
- 6) Persistent indigestion or difficulty in swallowing.
- 7) Change in a wart or mole.

These symptoms may not mean cancer. But if they do, your best bet for beating the disease is to have it treated without delay.

She is a cousin to Gaylon. Rev. Ned Fairbairn read the vows. Only a few relatives and close friends attended the wedding.

At the reception the bride's table was covered with a cutwork cloth and centered with an arrangement of stock and blue carnations. Miss Lydia Gardner, an ACC student, served the cake and Mrs. Weaver served punch.

Beulah and Hazel Respass attended the wedding in Abilene Thursday night of their great-nephew, Gaylon Coppinger, and Miss

IT'S THE LAW IN TEXAS

Are you in sound legal "health"? It costs much less to avoid legal trouble than to get out of it once you are in. Hence the family lawyer.

But since you can't go running to him all the time, how do you avoid legal trouble in time? The following pointers will help in diagnosing your situation.

When you come of age, marry, have children, get a divorce, buy or sell property, move to another state, or when someone in your family dies, you may take on new legal rights and duties.

Then you may need to up-date your will, your insurance program or the way you figure your taxes.

2. When you buy or sell property always have the legal papers prepared or checked by your attorney before you sign them or put up any money.

Double check your contracts, important letters or leases before (not after) you sign them.

3. The law defends your rights, but sometimes only if you yourself act within certain time limits. Make sure you do. Otherwise your claim may be outlawed, or it may be too late to file an action to protect your rights.

If you have been in a car accident, for example, get all the facts at once and check with your lawyer and your insurance company.

4. A few other questions may put you in good shape to avoid legal trouble:

In case something happens to you, who knows where you keep your papers—your deeds, will, insurance policies or contracts?

SOIL CONSERVATION NEWS

Many ranchers have found that
 brush control is an important phase
 of range improvement, but brush
 control alone is not the complete
 answer to rapid range improve-
 ment. Brush control is a good
 starting point, keeping in mind that
 the kind of management follow-
 ing the brush control is the real
 key to developing a high produc-
 ing range.

Seeding of grasses should nor-
 mally be done following mechan-
 ical brush control where the native
 vegetation has been disturbed dur-
 ing the operation. Grasses that
 are usually seeded on the heavier
 soils are Blue Panic, K. R. Blue
 Stem, Sidecats Grama and Switch-
 grass. Blue Panic, K. R. Bluestem,
 Switchgrass, Weeping Lovegrass

and sand lovegrass are adapted to
 our sandy type soils. Planting
 dates are from now through May.
 Earlier plantings have a much bet-
 ter chance for success.

Pasture deferment is another
 necessary step in a pasture im-
 provement program. Deferment al-
 lows the weak plants to gain vigor
 and produce a good seed crop. It
 also gives new seedlings the oppor-
 tunity to become well established
 before being grazed.

Once a range has made enough
 improvement to be grazed, it should
 be properly grazed so as to insure
 a high level of production. At least
 2,000 pounds of cover and litter
 per acre should be left on the
 ground to give protection to young
 seedlings, to aid in conserving
 water and to protect the grass from

extreme temperatures. Proper use
 also means leaving approximately
 one-half of the plant to provide
 this cover and litter and to main-
 tain the health and vigor of each
 plant.

More ranchers are finding that
 proper use of rangeland is profit-
 able.

BAPTIST GA NEWS

JUNIOR GA MEETS

The Jaxie Short Junior GA met at the Baptist Church Monday afternoon with the president Jackie Holt, calling the meeting to order.

Prayer chairman Linda Purvis directed the prayer calendar. Secretary Marcia Petty read the minutes of the last week and stewardship chairman Dianna Petty announced the Annie Armstrong offering for home missions was over the goal which had been set.

Dianna Purvis and Eugene Walters sang "He Lives on High" and Mrs. Baird told a story entitled "Twenty-four Cents."

Forward Step Chairmen Connie Goble gave letters to each girl. After studying for a while on Forward Steps, refreshments were served to the 14 members present.

INTERMEDIATE GA NEWS

The Alma Rohm Intermediate GA met for mission study on March 19.

Mrs. Donald Baird taught the book "The Charley Matthews Story" by David Mason, the life story of Dr. C. E. Matthews, for several years, head of evangelism for the Southern Baptist Convention.

A progressive supper was served in the homes of Mrs. Donald Baird, Mrs. Richard Thompson, Mrs. Lee Bishop, and Mrs. B. F. Wither- spoon.

Enjoying the study and the meal were Becky Baird, Kathleen Cowan, Brenda Pennell and Carolyn Simmons.

Sew and So Club Meets In Smith Home, March 19

The Sew and So Club met March 19 in the home of Mrs. Marvin Smith with Mrs. Mack Campbell and Mrs. Vellie McDonough as co-hostesses.

Club president, Mrs. O. M. Bailey, was in charge of the meeting. The club song was sung to open the meeting. After a short business session Mrs. Campbell and Mrs. McDonough had charge of the recreational hour. Each of the ladies gave readings and directed a quiz and questions.

All members are to bring a flower or bulb to exchange at the next meeting which will be held in the home of Mrs. Luke Westerman April 2. Mrs. Jeff Clark will serve as co-hostess.

A delicious plate carrying out the Easter motif was passed to the 14 members present as follows: Mmes. O. M. Bailey, Pat McNeel Sr., Harry Coppinger, W. B. Williams, Vellie McDonough, L. W. Westerman, Mack Campbell, Jeff Clark, A. Painter, Craig McNeel, Richard Thompson, A. D. Petty, C. D. Lane and Mrs. Smith.

Mr. and Mrs. Paul Whitton and family visited in Nacogdoches Saturday and Sunday with Mr. Whitton's mother, Mrs. L. A. Whitton, and other relatives.

Mr. and Mrs. Edgar McNutt, Mr. and Mrs. George Watson and Mrs. Rosa Watson and Bill Harris visited in the home of Mrs. Rhoda Pierce Monday evening.

Campfire Girls News

By Reporter

The Ha2-Ko-Ta-Wa Campfire girls held their regular meeting the past week.

During the meeting we worked on our workbooks and talked about our bake sale Saturday.

Fran Swigale served refreshments to all members present. Sandra Thetford was absent from the meeting.

Happy Bluebird News

By Reporter

The Happy Bluebirds met Tuesday, March 24, with LaNeal calling the meeting to order.

Peggy Erwin led the Bluebird song and Six Little Ducks and Marlene Stansbury called the roll. Pat McMillan collected the dues. Garnett McCowen was selected as the new scrubbook keeper.

Our leader, Mrs. Harold Garrett, asked us to keep empty spoons and also told us to bring empty coffee cans to our next meeting.

We enjoyed playing games outside.

Third Grade Enjoys Field Trip to Abilene Tuesday

Forty-six members of the third grade in Cross Plains grade school with a number of room mothers and their teachers, Mrs. Roy Acker and Miss Betty Browning, were in Abilene Tuesday of this week on a field trip.

The group made the trip in a school bus and visited the T. S. Lankford and Son clothing factory at 9:45 a.m. and at 10:45 visited the Borden Milk Co. They then journeyed to Fair Park where they enjoyed lunch and activities in the park.

The afternoon activities included a visit to Mrs. Baird's Bakery at 1:30 before the group left on their return trip home at 2:15.

DON SCOTT HONORED WITH BIRTHDAY PARTY TUESDAY

Mrs. Elvis Scott honored her son, Don, with a party Tuesday, March 24, on his sixth birthday.

Birthday cake in the form of a rabbit and hot chocolate were served to the 13 guests attending. Favores were Easter eggs and rabbits.

An Easter egg hunt was enjoyed during the afternoon.

Guests attending were: Vicki Goble, Beverly and Kim Tatom, Vicki Foster, Betty Purvis, Jim Whitton, Rex Mayes, Lenley Goble and Mark and Jim McCowen, and the honoree.

Miss Yvonne Eppler, Gaylon Coppinger Exchange Vows In Abilene, March 19

Marriage vows were exchanged Thursday evening, March 19, by Virginia Yvonne Eppler and Audrey Gaylon Coppinger of Pecos.

The bride is the daughter of Mr. and Mrs. A. D. Eppler of Santa Anna. The bridegroom is the son of Mrs. Hazel Coppinger of Abilene, and the late Mr. Audrey M. Coppinger.

The bridegroom's uncle, Ned Fairbanks of Littlefield, Church of Christ minister, officiated for the double ring ceremony at the home of Mr. and Mrs. Don Weaver in Abilene.

Given in marriage by her father, the bride wore a ballerina length gown of white chiffon over net. The three-quarter sleeves of the fitted lace jacket were edged in satin. Rhinestones trimmed her lace cap. She carried a white orchid surrounded by stephanotis on a white Eible and a handkerchief which belonged to her mother.

Betty Eppler, cousin of the bride, was maid of honor. She wore a blue silk shirt waist dress with gardenia corsage.

Best man was Rodney Beaty. At the reception the house party included Mr. and Mrs. Douglas Cahout of Big Spring, Mrs. Walter Purch, Lynda Gardner, Joe McKenzie, and Hazel and Beulah Respass of Cottonwood.

The bride is a 1958 graduate of Santa Anna High School and attended Abilene Christian College one year. He is a telegraph operator for the Texas & Pacific Railway Co. The couple will live in Pecos.

STATE CAPITAL
Highlights
AND Sidelights
by Vern Sanford
TEXAS PRESS ASSOCIATION

AUSTIN.—Stakes are high and playing rough as the tax battle at the State Capitol this Spring moves into the "hammer and tongs" stage. High state officials are laying their careers on the line when they take a stand.

On one side is Gov. Price Daniel, who wants to obtain needed new revenue through a program based primarily on taking over abandoned property, changing the bookkeeping methods a bit and increasing corporation franchise taxes, natural gas taxes and certain selective sales taxes.

On the other side are a number of lawmakers, including Speaker Carr, who call the Governor's plan inadequate. They contend Texas' revenue needs are great and should be "spread thinly" to cause the least injury. Cited as possible solutions by Carr were the nine-part omnibus tax by Reps. R. L. Strickland and Wesley Roberts, or Rep. H. J. Blanchard's 1½ per cent gross receipts tax.

Some House members, of course, side with the Governor. Just how many will go to each side will not be known definitely until a floor vote is taken.

LAND BANK LOANS

More than a third of all the Farmers and Ranchers in Texas who borrowed money on their lands last year got it from the Federal Land Bank.

Let us explain the reasons why and how a Land Bank loan is best for you. Come in or write.

HOW BOUT THAT

the industry's burden to 43 per cent, seriously impairing ability to stay in business, let alone contribute to Texas' growth.

Several House committee members were openly hostile to the bill. City Boys Ho'nswo'gled—In a couple of recent city vs. country votes in the House, the "city boys" were completely outdone by their country cousins.

This is not unusual in the frequent clashes over rural and urban interests, since rural area lawmakers now predominate. But with the cities growing so fast, the rural group fears that one more census and redistricting will tip the scales.

They hope to head this off in a constitutional amendment proposed by Rep. Will Ehler of Childress that would limit any one county to nine representatives. Despite city protests, it passed the amendments committee, 10-6.

Cities lost again in the House floor vote on a bill which would allow farmers with 10 acres of land to "disannex" themselves from a city.

Easier Pond Permits — Farmers won, too, when the House passed a bill that would make it easier to get a permit to dam up a small pond for irrigation.

Rep. Murray Watson's bill would change the law governing ponds of less than 200 acre feet. These may be constructed without a Water Board permit for domestic and livestock use. For irrigation use, a permit is required which farmers complained was far too complicated, expensive and difficult to get.

Sen. Bill Wood of Tyler is sponsoring an identical bill in the Upper House.

Advertising "Pro" Urged—Senators are studying two different approaches to putting into effect the new constitutional amendment permitting state-financed advertising of Texas.

Senator George Parkhouse of Dallas, an advertising man for many years, insists professional ad men should be at the helm of the program. He suggests a five-member state advertising council. Four members would be existing state officials; the chairman and executive director would be an advertising professional.

Original bill sponsored by Sen. Bruce Reagan of Corpus Christi would set up a Development Council of the Governor and chairmen of the Highway Commission and Industrial Commission. Highway Commission would take care of luring tourists and the Industrial Commission would seek to attract new industry.

After Parkhouse protested this arrangement, Senate State Affairs Committee decided to give it some more study.

Death Penalty Argued—"Day of the death penalty is over in most of the civilized world," say proponents of a bill to abolish it in Texas.

Rep. Ronald Bridges of Corpus

Christi is sponsoring the bill, which is being studied by a sub-panel of the House Criminal Jurisprudence Committee.

Huntsville newsman Don Reid told the committee he had seen 157 persons executed and had decided "there must be a better way." He said he believed at least six or seven of those executed were innocent.

Representatives of organized labor and church groups joined in supporting the measure. Several said they thought chances of drawing the death penalty were greater for defendants too poor to hire top-notch lawyers.

Vanishing Trains—Why don't people "take the train" to get places these days? Spokesmen for rail unions and some lawmakers say it's because there practically aren't any passenger trains to take. Rail company men say it's because all their passengers took to riding in cars.

Rep. Clyde Miller introduced a bill which would require the Railroad Commission to consider "public convenience" before allowing discontinuance of a passenger line. Present law allows abandonment if the company can show it is losing money.

Railroad companies protested this

By VERN SANFORD

An expert trick caster is William S. "Bill" Carter of Dallas. Every fisherman aspires to become an expert at casting. But not for the same reason Bill did. Most of us want to master the art in order to place a tempting lure right in the exact spot where we think the fish are located.

But not Bill Carter. Actually, although he is an expert caster, Bill Carter doesn't rate himself even as an average fisherman. In fact, he goes fishing very little. No siree, Bill Carter wanted to become an expert with the casting rod for an entirely different reason. Bill's one and only goal was not to take fish but to catch the eyes of the guys who buy fishing equipment. You see, Bill is a tackle salesman.

So Bill learned to cast, and to cast expertly. Now he gets the undivided attention of everyone when he takes rod and reel in hand. Bill learned to cast from every conceivable position. He learned to cast with the reel in his shirt pocket, detached from the rod. He learned to cast with the lure in his hand, on the ground, even between his teeth.

Whether it is a between the legs cast, or his bow and arrow cast, or any of his wide repertoire, all are accurate casts.

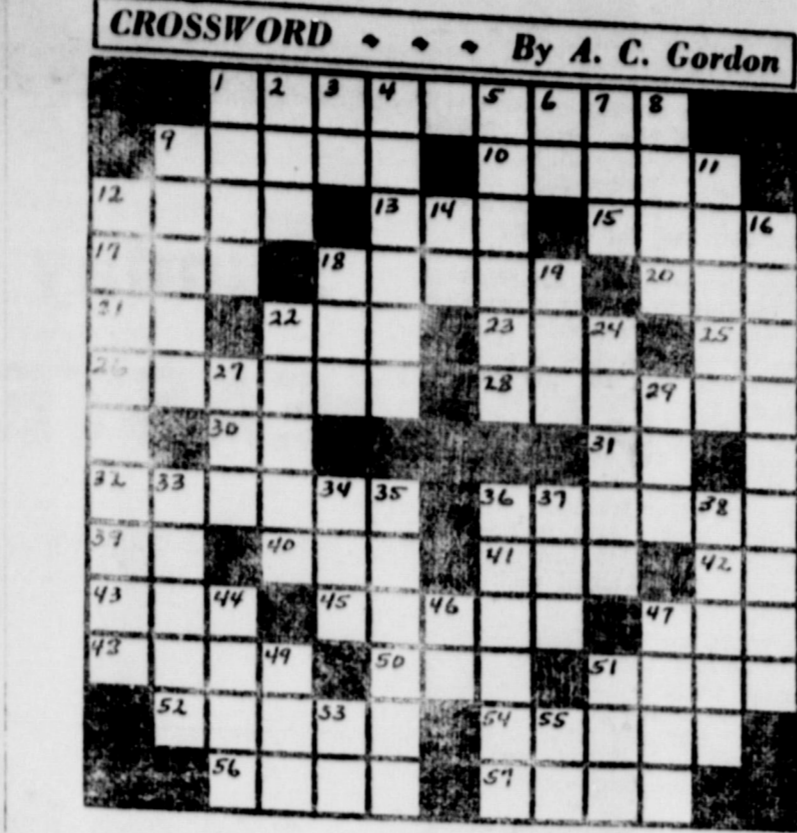

Naturally Bill uses a rubber casting plug, without hooks, for his trick casts, for safety reasons. But his bull's-eye accuracy is amazing. At 20 paces Bill can wind the lure around a person's extended arm—at the elbow, at the waist, or about the finger, with the ease that comes only from a marksmen.

He can flip a cigarette out of a "target's" mouth, at 20 paces, without the subject realizing he's been "robbed."

We've been told that Bill can pop the ashes off a cigarette without disturbing the fog itself. That, too, at 20 paces, mind you.

So proficient has he become, and so frequently is he called upon for demonstrations, that Bill now has devised a black light stunt whereby some of his casting tricks are done with the use of fluorescent and glow-in-the-dark material.

A truly great guy with the casting rod and reel is Bill Carter. Where did he learn the techniques? When we asked Bill Carter about that he surprised us again. He said, "Indoors, while my time away waiting for prospective customers to come to my

hotel room to see my display of fishing equipment."

Bill, who is approaching the half-century mark, is now and has been for 20 years, a tackle representative. Not content to sit idly by in a big sample room, waiting for buyers to come view his merchandise, Bill assembled a rod, reel and practice plug and went to practice casting between the rows of his display tables. Then he tried casting between doorways and down hallways.

It wasn't long before he had head-eye accuracy.

Then, for variety, he tried different methods of casting. First thing he knew he was demonstrating his products in the aisles of the stores he called on. That's when he began to get the undivided attention of his customers and the store's customers.

It is not unusual for Bill to give as many as 50 trick casting demonstrations a year before service clubs, meetings of outdoorsmen, boy scouts, 4-H and FFA clubs. In fact, his first public demonstration was entertaining veterans in a hospital. Bill makes no charge for his trick casting demonstrations; "It's good for my business," says Bill, "and besides I love to do it."

Right now the gear that Bill "talks with" and about, is Zebeo's Model 33 black and white reel.

Bill says the dual unit makes a beginning fisherman look like a pro. He's stretching his "line" there of course, but we must admit the combination does wonders for any fisherman.

Bill has been with Zebeo for seven years; Glenn L. Evans, Inc., for 20 years and the Newton Line Co. for 20 years. Other connections are with the H. A. Whittemore Co., Tackle Industries, and the Standard Boat Co.

He makes all sports shows in his sales area, which includes six states: Alabama, Mississippi, Arkansas, Louisiana, Oklahoma and Texas. In fact, it was at the Dallas News Sports Show, several years ago, when Bill Carter gave yours truly his first casting demonstration.

Let one gets the idea that Bill never goes fishing, he reminds us that he is a member of the Texas Game Fishing Club and journeys to Canada with a club on its annual pilgrimage, and to Acapulco every year for the Sail Fishing Tournament.

Next to fishing, Bill's love is golf. But even then his mind is on trick casting, for one of his favorite stunts is a trick cast made with a golf club. But he does them with other items, too—such as a landing net, a paddle, or a tennis racket.

Although Bill was born in Monticello, Ark., he has lived in Dallas since he was 13 years of age. His parents (native Texans) moved back to Texas from Arkansas when Bill was only four. They first lived in Austin where his father, Lee Carter, once played short-stop for the Austin team in the Texas League. It was in Austin where Bill's initial interest in sports developed. His dad, by then, was employed by Caswell & Smith Jewelry Store, now known as C & C Sporting Goods.

Bill's schooling ended upon his graduation from Sunset High School in Dallas, where he lettered in football (quarterback), baseball (short-stop) and golf.

His first job, naturally, was in a sporting goods store in Dallas. It was a part-time, holiday job, running the elevator for Cullen & Boren, where his father worked for many years.

In 1937 Bill's dad formed Carter & Sons, a tackle representatives business, with his two sons, Bill and Frank as partners. Frank, 11 years younger than Bill, now lives in Atlanta, Ga., where he has his own firm, Frank Carter Co., agent for sporting goods manufacturers.

Bill's dad passed away three years ago. Carter and Sons now

belongs to Bill and three associates, Bob Speer of Irving, Eddie Choice of Dallas, and Lawson Richards of Birmingham, Ala.

Bill's advice to those who want to learn to cast with accuracy is to practice, practice, practice. Then go out and try it on the fish.

Mrs. Rosa Watson, Mr. and Mrs. George Watson of Rotan, Mrs. Bunnell and Melvin Bunnell of Stephenville, Mrs. Clyde Bunnell of Cross Plains, and Mrs. Myrtle Carlisle and Mrs. Roxie Hibbert of Cisco visited Sunday with Mrs. Rhoda Pierce.

Chevy makes one for you... and you'll want it for all its worth

The plain fact is Chevrolet builds so many different kinds of cars there's one to please just about everyone.

Say you want a stylish, spacious car that combines low initial cost with rock-bottom operating expense. You'll find what you want in the Biscayne 2-Door Sedan—one of the lowest priced of all Chevy models. And you can have Chevrolet's new Hi-Thrift 6 under the hood to stretch and stretch the distance between gas stops.

If, on the other hand, you're looking for a car of utmost elegance, you could hardly make a happier choice than the Chevrolet Impala 4-Door Sport Sedan. And, to go with it, Chevy's velvety V8 power teamed with triple-turbine Turbo-glide—one of the finest, smoothest automatic drives offered on any car.

These are just two examples of the dozens of different kinds of Chevrolets you can choose from.

Your Chevrolet choice includes the Corvette, the Impala Sport Coupe, the Nomad Station Wagon, the Bel Air 4-Door Sedan, El Camino, and the Impala Convertible—all shown above.
