Burleson Fears Wild Session In Congress

Scattered Rains Nearly Miss Here

Spotted rains fell over most of this section of the state last week. Some localities reported as much as three inches. Over most of the Cross Plains area, however, it was much drier. S. F. Bond, local weather observer, measured only .85.

Atwell locality and the Rowden vicinity are both reported to have received more generous downpours. As a whole, though, the Cross Plains area remains abnormally dry and farmers and ranchers are watching the skies expectantly. Crops and pastures are reported suffering.

Mrs. LaBeff Quits Faculty Post Here

Mrs. Ina H. LaBeff, teacher in the elementary grades of Cross Plains school system for the past eight years, has resigned the position to accept similar responsibilities at Brownfield. She is here at the present time and plans to sell her home in Cross Plains before moving.

Three vacancies have been created in the local school faculty since completion of the Spring semester. Terry Watkins resigned to accept an assistant-professorship at West Texas State College in Canyon. He taught math and science in high school here. Mrs. Ross J. Newton resigned as teacher of high school English, and now Mrs. LaBeff has tendered her resignation.

An expense-paid trip to the state convention will be given district winners and their attendants.

3-Year-Old Boy To Have Heart Surgery

He is Johnny Glen Harris, son of Mr. and Mrs. Billy Jack Harris of Amarillo. Mr. and Mrs. J. B. Harris of Pioneer are the paternal grandparents. Maternal grandparents are Mr. and Mrs. W. O. Wylie of Amarillo, former residents of this city.

The heart ailment, necessitating surgery, was discovered two years ago. Physicians advised, however, waiting until now to perform the operation. Valves in the child's heart are said to be too thick, hindering the flow of blood through the vital organ.

Drillers Bop Eastland 10-9 For Fifth Win

Cross Plains Pony League picked up their fifth win of the season at Eastland Monday night 10-9 in a five inning, rain delayed game.

Rain delayed the start of the tilt almost an hour before play got underway. Last Thursday night's game with Cisco was washed out. Cisco leads the League while the locals will be trying to even their record in the season finale.

C. D. Shields was the winning pitcher Tuesday in going the route for Cross Plains. Shields, in picking up his second victory, threw no-hit ball at the host Greenbacks for the first three innings, but got into trouble in the final two frames.

The Drillers staked Shields to a one run lead in the first inning, and never relinquished the advantage. Although the winner was touched for only five hits, the host crossed the plate with nine runs, three on an error by the Drillers' center fielder.

L. D. Bayless tutored the Drillers to their victory when neither of the regular managers were able to make the trip.

The victory upped the locals league record to 5-6 and their season mark to 5-7.

According to Bill Pope, general manager, Cross Plains will finish league competition with Cisco Monday night in Cisco. Pope stated that the Drillers will meet Rising Star in a return match before the season ends, probably the game will be played the last week end of this month.

Things move faster in Callahan County.

From over the nation there have come complaints from high government officials in recent days for the slowness in which the missile program is being advanced.

The story is different in this county.

The Oplin site is farthest along. There the silo shaft is reported nearing 100 feet in depth.

Site midway between Baird and Clyde is said to be below 70 feet.

The Denton Valley project was reported not far behind the Baird-Clyde installation.

Most of the other 12 installations are just getting construction underway. The three Callahan County sites are expected to be ready for use ahead of the other nine.

Quarter Million Dollars!

How much is the dairy business worth to Callahan County?

We have just completed an exhaustive investigation in an effort to answer this question, and are now pleased to report that during the past 12 months \$258,000.00 was paid to the milk producers here.

An abnormally large grain crop has just been harvested in the county and it is estimated that it grossed something over \$200,000.00.

The dairy business is one that will grow from year to year, bringing new capital into our community if properly supported.

May we urge that you buy and boost milk products in which people of our area are suppliers. Both Borden and Foremost buy milk from the Cross Plains area.

**IS OUR FACE RED?
APOLOGY EXTENDED**

In last week's issue of
The Review it was errone-
ously stated that Mr. and
Mrs. Herman Keith of Hico
were visiting his aunt and
uncle, Mr. and Mrs. Mark
Adair in Cross Plains.

The item contained just
about as many errors as it
is possible to incorporate
in four lines. There is no
Mrs. Herman Keith. A
brilliant, young Rice Insti-
tute student is not and has
never been married. Too,
his address is Houston and
not Hico. Then further
adding to our embarrass-
ment, the sentence contain-
ed a singular verb with a
plural noun. How wrong
can you get?

We apologize to Herman,
his aunt and uncle and all
our readers.

Not often will you see

Mrs. Joe Riddle of Hamlin

Mr. and Mrs. Biggs Irvin and

sited with Mr. and Mrs. Lorán

COOLING THOUGHT—A local
snow scene printed in July
should indeed be news. Since
the real thing was not possible,
Review writers thought publi-
cation of the above photograph,
made in November 1958, might
bring refreshing respite from
summer heat. The top shot is
one made on the banks of Tur-
key Creek in the western edge
of the city. Bottom photo is of
the grounds surrounding the pa-
latial Tom Bryant home at the
end of North Main. The 1958
snow is regarded as one of the
most beautiful to fall here. It
remained on the ground three
days and Cross Plains resembled
a Winter wonderland. School
were dismissed and youngsters
celebrated in unaccustomed
fashion.

Mr. and Mrs. Clarence M. Wil-
son of Abilene visited in the
home of their parents, Mr. and
Mrs. J. W. Marchbanks and Mr.
and Mrs. Fred Wilson here over
the week end.

Visiting in the V. I. Spivey
home Thursday and Friday were
Mrs. W. R. Nicholson, a sister
of Mrs. Spivey, and Miss Sharon
Kay Spivey, Mr. Spivey's niece
of San Angelo.

**LL People To Have
Celebration Supper**

A celebration supper for spon-
sors, managers, officials and in-
terested individuals of the local
Little League program has been
set for the night of August 2
in the American Legion build-
ing here. Officers for the en-
suing year are to be elected at
that time.

The supper, to begin at 8 p.
m., is to compliment adults who
have worked so diligently in
this year's activities. H. Mc-
Donald, president of the local
set-up, urges that parents of
boys who played in LL program
just ended, make plans to at-
tend. The supper is to be pro-
vided by sponsors of various
teams.

**GARDENS' RIDDLE MAY
BE SOLVED IN SPRING**

We'll know next Spring.
Just what were the unusual
growths on several potato
plants will be determined next

were tomatoes, other claimed
they were nothing by potato

A. O. (Slim) Harris may have
the final answer. He harvest-
ed several of the strange objects
of the vegetable kingdom and
will replant them in his next
year's garden.

I'm sorry I didn't get my news item in our paper last week, but I left early Monday morning for a weeks visit with my sisters and son and family. Visited in Sweetwater with my sisters, Miss Nellan Minix and Mr. and Mrs. Olaf South and Mr. and Mrs. Lloyd McBeth and then on to Hobb, N. Revival Begins At Cottonwood Sunday

Cottonwood Baptist Church announces its coming summer revival will begin Sunday, July 31 and continue through Sunday, August 7.

Rev. John Hamilton, pastor of the First Baptist Church in Terminal, will be the visiting evangelist. Rev. Hamilton is a graduate of Hardin Simmons University at Abilene, where he obtained a B. S. degree in Theology. He surrendered to the ministry when about 35 years of age. He was farming at the time; he, his wife and son, left the farm and with faith in God, moved to Abilene to begin his training. In this vicinity, he has previously served the Corinth Baptist Church as pastor, and also the Noodle Baptist

Church as its pastor. Morning worship will be at 6:30 with coffee and served. The idea is for people to come to the service going to work. The service will begin at 7:00 with the Rev. James Don, pastor, conducting the service. Miss Connie Brown will be playing the piano. A unique feature about this revival meeting is that it will be on the outside. Plans to use God's own conditioner, so that you can be comfortable," said the Rev. Brandon yesterday.

Mr. and Mrs. Scotty who recently moved here from Rising Star have moved here. It is understood they plan to enter training to come a Texas Highway man.

Babe Ruth Leaguers Nip Santa Anna 8-7

Cross Plains Babe Ruth Leaguers nipped Santa Anna 8-7 in their first official game of the season here Saturday night.

Doug Dallas was the winning pitcher allowing only one run in the six innings he hurled. Jimmy Gilmore relieved Dallas in the sixth inning and was touched for six runs, before Dallas returned to the hill from the outfield to get the last three batters in order.

Cross Plains clouted two home runs. Gilmore poled one out of the park in the second inning with two men aboard, and Darrell Wyatt got his in the sixth with one man on base.

The locals took a three run lead in the first and added three more in the second on Gilmore's round tripper. Santa Anna managed their lone run off Dallas in the top of the second. Three innings of shutout ball followed the second inning. Then Santa Anna closed the gap to 5-6 with four tallies in the top of the sixth. Cross Plain's Wyatt added his homer to give the locals an 8-5 lead in their half of the sixth. A visitors rally in the seventh netted two runs before Dallas came on to put the fire out.

It was not known whether the locals would return the game with Santa Anna as the Review went to press.

FOR and AGAINST THE LENIN SCHOOL

Many of the most trusted Communist conspirators in the United States have been trained in the Lenin School located in Moscow, Russia. Here they were trained thoroughly in the techniques of the communist plot to destroy our nation from within. They were trained how to destroy food supplies and public utilities, how to wreck trains, how to use chemicals for setting fires and other techniques of civil warfare.

Ex-Communist Joseph Z. Kornfeder, who attended the Lenin School in 1927 and 1928, described the Lenin School as "a college that trains the officer personnel for the Communist Parties outside of Russia." Mr. Kornfeder's testimony on the Lenin School was given during House Un-American Activities Committee hearings on July 7, 1953. One of the subjects they were taught was entitled, "Leninism." Mr. Kornfeder described this subject as follows:

"Leninism is the method of conquering power and preparing for the seizure of power and what to do after the seizure of power—that is, the whole art of conquering a state and preparing for the conquest of a state of the labor, the masses, psychologically prior to it and how to organize for that purpose. It is on the subject of Leninism that a topic like how to combat religion was discussed. Another subject that would be gone into extensively is what they call the structure of the party. That is the type

of party like the Communist Party which is a civil-war organization. It is not the type of party that we are accustomed to call political parties."

Joseph Kornfeder furnished the House Un-American Activities Committee with a copy of the Lenin University curriculum. In training the United States communist conspirators in how to prepare the people of America for a communist takeover of our nation, the Lenin School taught them that everyday politics was preliminary warfare to the final armed struggle to take over the nation. They were taught in detail the technique of using communist fronts and other communist-influenced organizations to spread misinformation and confusion. The U. S. communists were taught that physical sabotage is secondary to political sabotage and is carried out only by specially instructed groups in places and at times when it may count most.

Present-day leaders of the Communist conspiracy in the United States were trained in the Lenin School, and they are engaged in a war to destroy our nation just as surely as if they were already firing at you with military weapons. Support of, and even tolerance of, Communist sympathizers, fellow travellers, and active dupes is the road to national suicide.

PHILOSOPHER SAYS CASTRO'S SELLING SUGAR TO MR. K HAS ITS DRAWBACKS

Editor's Note: The Bayou Philosopher on his Johnson grass farm on the Bayou offers a prediction about Castro this week, and he may be right.

Dear editor:

I heard a man in town say yesterday he'll be glad when the national political conventions are over so he can get down to work, and all I've got to say is a man who has to depend on something held only once every four years to stop him from working, just ain't trying very hard to stop working.

But what I started out to say is something entirely different. According to a newspaper I read one night last week while somebody on TV I never heard of was seconding the nomination

of somebody else I never heard of for President, although I guess I should have heard of him as he said he was the most fearless leader who ever lived, I forget in which state, at any rate, according to this newspaper, Castro over in Cuba, who has been taking over American plants over there right and left, is going to get even with the United States for cutting down on the Cuban sugar quota by selling Cuba's sugar to Russia. Well, it's not exactly a sale, he's going to do some trading with Mr. Khrushchev.

It's not any of my business, but I'm afraid Senor Castro is going to find trading with Mr. Khrushchev has its drawbacks. Russia may take all his sugar, but it won't stop here. Before

long, it'll take over all his cane fields too.

Then it will divide up the cane fields among the peons, and then a little later, divide up the peons among the Communist bosses. They'll get to sweetening their coffee with wild honey, until Russia gets around to taking their coffee too.

Russian generosity knows no bounds, and if Castro comes out of this Communist dickering with his beard left, he'll be lucky.

Winning a revolution is sort of like winning the Presidency. Campaigning is a hard and glamorous job, but after you win, your troubles have just begun. Ain't nothing glamorous about running a country on tax money in this atomic age with men like Khrushchev hanging around setting the dogs to barking, it's the hardest job on earth, it's even harder than running this Johnson grass farm, and I found out years ago that was too much for me.

Yours faithfully,
J. A.
