A committee composed of Howard McGowen, J. C. Claborn and Alton Hornsby was named to investigate costs and begin a financial campaign to see if sufficient money can be raised for the project.

Plans are as yet incomplete. however, it was discussed at the meeting that a non-profit corporation should be organized to construct and operate the pool.

It was the concensus of business and professional men at the meeting Tuesday that a thorough canvass should be made to see if the pool is wanted enough for people to give generously toward its cost. The general opinion was that the pool should either be built or forgotten; continued talk with no action gains nothing.

Cross Plains left the field at intermission with a 6-0 lead. Bears Threaten.

The Baird eleven punched deep into Buffalo territory three times in the first half, but the locals' defense manned the barricades and threw back the assaults. In the first stanza, Baird pounced on a Buff fumble and moved to the Cross Plains 13 before Buff right tackle Tommy Adams smothered a Baird backfield bobble. After an exchange of fumbles, Baird took the pighide on the Buff 16 and moved to the seven before losing the

ball on downs. Early in the second canto, the Bears moved to the Buff 15 before the Buffs held the hosts on downs

Cross Plains crossed into Bear country only three times during the night, but twice it was for touchdowns.

Second Half.

Baird took the second half kickoff and mounted a mild threat to the Buff 25, but lost householders might go together the ball on downs. The Buffs then started to move, but a pass and contract for the installation interception by Baird's quarterback, Calvin Barnes, put the Bears back in business on the Cross Plains 44. Then on the installation of new lights three consecutive plays, penalties all but wiped out the Buff thrust. Dallas got Cross Plains out of the hole with a tremendous 58-yard boot to the Baird 22.

After taking a Baird return punt, the Buffaloes marched 59 yards in 10 plays for the winning margin.

Hutchins got credit for the key play in the drive and the eight points. Facing fourth down and four to go for a first, Dallas pitched back to Hutchins around right end, and he scampered 22 yards to the Bear five before being bounced out of bounds. On the next play Hutchins cracked up the middle into "the land of plenty". Hutchins then circled right end for the two-point conversion, with only 3:50 left in the game.

Baird Scores.

Taking the Buff kickoff, the determined Bears cranked up the longest drive of the night. In 11 plays the county seaters covered 72 yards and their first 19, Mary Louise 13, and touchdown of the season.

Berry's Life Told In Library Article

An informative article dealing with the adventurous life of one of the most colorful men ever to inhabit this county has been received by the Callahan County Library, located in the

court house at Baird. The article, prepared by the West Texas Genealogical Societ, traces the life story of Andrew Jackson Berry, a veteran of the Battle of San Jacinto and also the War Between the States. After the wars, Berry settled down to ranching on a league of land given him by the state. It is located six miles south of Baird and is currently

owned by Dr. R. L. Griggs. Berry first came to this county in 1881. He was killed nine years later when thrown from his horse.

His widow was honored during the Texas Centennial in 1936. She was the last surviving widow of a veteran of San

A gun made by Berry and used by him at San Jacinto, is now a treasured museum piece in the Callahan library.

BILLY JAMES HARGIS, D.D. FOUNDER CHRISTIAN CRUSADE

TIBET-ANOTHER FORGOTTEN VICTIM

An Associated Press news item of August 7, 1960 said: The International Commission of Jurists today charged that Red China had engaged in a campaign of killing, torture, rape, abduction and forced sterilization in Tibet in the last 10 years." These findings were published in a 340-page report by the Commission based mostly on accounts by Tibetan refugees who fled to India. The Commission's report was drafted by an 11-member committee on

The Dalai Lama, religious leader of the Tibetans, told the committee that at least 10,000 Tibetan children were taken to China against their will. Another refugee told them that from 1955 on all children under 15 in his area were taken to China. This refugee further told the committee: "From 1956 all babies were taken away 10 to 15 days after birth. All births had to be reported and a medical staff went to the houses and took the babies. The people were told that the new-born babies belonged to the Com-

munists. Most sleeping, dupen Americans living in the comforts of our land cannot imagine the horror of parents having their babies and older children taken away from them forcibly. Many of our church people have been so blinded to the realities of the communist peril that they have no idea of the entres to which they will be subjected if Courmunism continues to win the

battle for America. Imagine having your babies or young children snatched away by atheistic monsters who will raise them to be cruel servants of the satanic communist con-

The people of Tibet begged for help from nations which are supposed to be opposing Communism, but the leaders of most of these nations, including ours, are sold on the false idea that peace can be bought by appeasing Communism, and forgetting their victims. Our leaders turn a deaf ear to the appeals of the Tibetans while continuing to aid communist tyrants with our hard-earned money taken from us by excessive taxation. During March, 1960, the Dalai Lama asked in the name of the "conscience of the world," that the "ruthless brutality" of the Chinese Communists not be allowed to slip from peoples' minds by the passage of time.

The conscience of a Christian nation, the United States of America, has been seared, and millions of our citizens completely ignore the plight and suffering of the victims of Communism. Communism's goal is America and no amount of appeasement will turn them from that goal To continue ignoring the communist peril within and without is to commit national zuicide.

The natives in Nigeria practice polygamy. Mr. Nicks recalls that one of the boys in his training school was the first son of a man who had 30 wives. The natives who practice this are those who live by native law church law.

RE-ENTRY OIL TRY IS

PEGUN NEAR BURKETT

Yours faithfully,

er than three months.

Editor's note: The Bayou Philosopher on his Johnson grass farm on the Bayou has found some welcome news, his letter this week reveals. Dear editar.

You can hardly pick up a newspaper these days without reading something about who's winning the race for space, and I guess it's important, we have to race in self defense, but nobody has convinced me that life in space after we conquer it is going to be any better than will be a wildcat re-entry prolife here on this Johnson grass farm, and consequently I was Burkett. amazed to read an article last night that proves Washington hasn't abandoned the earth altogether.

According to it, the government has now set up an experimental plant to convert sea water into drinking water, and any water good enough to drink is good enough to irrigate with and you can see what this could lead to.

You give me all the water my crops want, at the time they want it, and you can have the moon and all its canals, even Cross Plains. if they're filled with running water. Plenty of moisture, and a good farm program which both candidates are promising, is all any farmer could ask.

Of course, us farmers don't want to get the notion that by next year there'll be a pipeline running by our farms with a hydant ready to turn on, but the fact Washington has made a start is something to dream about. After all, you've got to remember the while billions of dollars are being spent on space exploration with thousands of men at work at it, this new water plant will cost only one and a quarter million dollars and will employ exactly 10 men. You can't go hog-wild over improving this earth while the backside of the moon is still

However, I'm not complaining about this. Everything should be in the right proportions, and everybody knows outer space is more important than this earth, but at least they've made a start.

Who knows, if we've made

A TRIBUTE TO UNCLE SAM

With the world's brow full of worry wrinkles and all of us praying for a workable peace, the beloved old "Uncle" who symbolizes our nation becomes the most important "relative" we can have! So let's pause, now and then, in our busy preoccupations and silently thank God for the strength of our Government. Stephen Decatur said "right or wrong, this is my country". And the of his loyolty lives on today as never before. It may be that ourstatesmen are not always far visioned, but their sincerity is never questioned nor their motives impugned. United we stand, the United States of America . . . the Land over which Uncle Sam is continuously watchful!
