

# THE MULESHOE OF JOHNSON

Dedicated to the Progress and Development of Bailey County and the South Plains of Texas

VOLUME 13

MULESHOE, County Seat of Bailey County, TEXAS, THURSDAY, MARCH 14 1935

NUMBER 7

## RAIN AND SNOW COVER PLAINS

### SIX INCHES OF WET SNOW FALLS IN MULESHOE AREA SLOWLY SINKING INTO SOIL FOR FARMERS BENEFIT

#### Citizens Held Jollification, Taking A Movie Picture of The Scene With Business Men Parading and Flags Flying.

Last Monday was a day of jubilation among citizens of Muleshoe and throughout Bailey county, the big six inch snow falling being responsible for the jollification.

Flags were put out in front of business houses. R. L. Brown formed a parade of citizens up Main street while Fred Warren, with moving camera, took a picture of the paraders, flags, snow covered autos and street deep with snow.

Everywhere people were patting each other on the backs in good humored style, smiling broadly and congratulating each other on good fortune. Farmers laid definite plans for agricultural activities, stockmen rejoiced over the benefit to pasture and even townsmen began buying seed and contemplating plans for spring gardening now that moisture had arrived.

It was Muleshoe's first moisture for 1935. In November of last year there was no rainfall at all, in December only 14 of an inch, and in January and February of this year no precipitation. Following the long dry period, steady storms during the past two weeks have been a decided menace, and some citizens had begun to drone a "blues" melody of some kind; but the snow last Monday changed the general attitude and feeling of folks from one of pessimism to that of optimism. Apparently, as one old-timer remarked it's the same story repeated: "It always rains or snows in the Panhandle of Texas just before it is too late." Clearly that is the case here.

#### Moisture Covers Plains

Reports coming in from other sections bring the good news that the snow and rainfall was general throughout the entire Plains area, the coming moisture greatly buoying the hopes of everyone for good crops and promising to loosen purse strings in general. The precipitation ranged from a quarter of an inch of rain to six or more inches of snow.

North and east of here, up toward the Oklahoma line, there was rain, but when the North Plains attitude was reached it turned to snow there being a heavy snowfall from Amarillo south, the greatest being around Muleshoe and fading into rain southeast at Anton in Hockley county.

Previous to the snowfall here there was rain during the night, which gradually changed to a wet snow, much of the first fall melting as it struck the wet ground, but coming heavy enough to form a five inch coating over the wet soil. As the day advanced the wind springing strong and two feet or more in depth. There was a lowering of the temperature, but considerable melting during Monday, the snow water sinking into the ground where it fell, resulting in the greatest amount of good. It is estimated here that at least one inch of water went into the ground, affording an ideal condition for spring plowing and a reservoir of moisture for sprouting spring seed planting which will soon be started in this area.

#### FROG FORECASTS WEATHER

At last! Muleshoe folks, no folks anywhere for that, matter have to worry any more about the weather since a Toronto, Canada man has made his contribution to meteorological service.

He declares he has conclusively proven beyond the shadow of a doubt that a medium-size frog placed in a jar of water stays at the bottom, and when the weather is bad, ambles around the middle of the jar when the weather is fair, and stays near the top when the weather is good.

Now get your jar and frog and prove it. Results of all experiments will be published in the Journal if you will write that newspaper.

### BIG CROWD WAS HERE SATURDAY FOR DRAWINGS

#### Committee Plans Program For Trades Day In April

An immense crowd that jammed the street to fullest capacity was in Muleshoe last Saturday afternoon for the first award of \$2500. Mrs. C. A. Horely living about four miles northeast of Muleshoe received the second award of \$1500; Bert Mathis, living in the Longview community, southeast of Muleshoe received the third award of \$500.

The awards were deferred from the regular Trades Day, Monday, March 4 on account of unfavorable weather keeping a large number of people from attending the monthly event, about \$75.00 being given away for this Trades Day event, including horse racing awards.

R. L. Brown, chairman of the Trades Day committee, says plans are now in the making for a big program to be given at the next Trades Day to be held here Monday, April 1. That is "April Fools" day and most anything may be expected, though it is declared the program will be real.

### Cox Lets Contract For 1,200 Well To A. B. Hays Driller

The first of this week D. E. Cox closed a contract with A. B. Hays, Littlefield, for an order for a No. 10 section for drilling an irrigation well on his 20 acre tract just north of Muleshoe, the work to begin immediately. He also placed an order for a No. 10 Layne & Bowler two stage vertical type centrifugal pump and a 15 horse power electric motor to handle the water flow. He expects to develop a well producing at least 1,200 gallons of water per minute.

Several other small tract owners ad joining the Cox farm have also signed for water service from this new well, and it is understood still other neighbors will also become water users, it being realized that service of this kind may be obtained cheaper and more satisfactorily from one centrally located well than from several wells individually owned.

Mr. Cox's son, Howard Cox, will be in charge of the irrigation plant when it has been completed.

### SCHOOL DIRECTORS ELECTION WILL BE HELD HERE APRIL 6

The annual election of school directors will be held in the Muleshoe district April 6, directors to be chosen for the places of Levi Churchill and Walter White, both of whom have made good directors, but their term expire this spring.

Other present members of the board are Neil Beckey, president, A. J. Gardner, vice-president, A. W. Copley secretary; R. L. Brooks and J. H. Farley.

There are now 60 candidates out for the job of representative made vacant by Mrs. Sarah T. Hughes when she was appointed a judge by Gov. Alfred.

Statistics show there are 7,300 head of domestic animals killed annually on Texas highways, being an average of 20 per day.

### The Interscholastic League Meet Is Here Fri-Sat. Mar. 22-23

The Bailey County Interscholastic League meet will be held at the High school building in Muleshoe, Friday and Saturday, March 22 and 23, representatives from all school districts of the county taking part.

The program begins at 10:00 a. m. Friday with a welcome address by Jess Mitchell, and response by Prof. P. O. Smith, superintendent of the Buia schools, after which there will be contests in extemporaneous speaking, fourth, fifth, sixth and seventh grade spelling contests, story telling and debating, also, contests in picture memory, arithmetic, essay, and senior boys declamation.

In the afternoon there will be Junior boys declamation senior spelling, must memory Junior girls declamation, senior girls declamation and choral singing.

Junior and senior track and field events will be held Saturday, also volleyball and tennis played Friday and Saturday afternoons. Play ground ball contests will be held round robin style during dates set and places selected by the athletic director who will mail schedules to the different schools in due time.

A large crowd of pupils teachers and patrons from the various schools are expected to attend the two days event.

### Large Crowd Here For Young Peoples Rally Last Sunday

Young people of the Methodist churches Plainview district, held a rally in Muleshoe at the Methodist church last Saturday and Sunday, and a large number of people from the group returned to the Legion hall and various enjoyable games were played, under directions, of some of the league leaders.

A business meeting was held at the church and then Sunday school was attended. Woodrow Adcock district secretary preached at the 11:00 o'clock service.

The Methodist Missionary society served luncheon at the noon hour in the Sunday school annex.

The business session and the devotional services was held Sunday afternoon at 2:00 o'clock.

The next rally will be held at Plainview in the near future, in the form of a year banquet. Several from Muleshoe are planning to attend.

The yearly assembly which will be held at Abilene in the summer will be headed by several from here.

Those who attended the rally from other towns stayed in various homes in Muleshoe Saturday night.

### Mis-Trial Called In Bera Cook Case Set For Re-Trial In Aug.

Failure of jurors to agree resulted in a mis-trial last Saturday in the case of Mrs. Bera Cook, Buia community, charged with the poison death of her husband, Tom Cook.

Cook died June 17 at their farm home under mysterious circumstances. Expert witnesses in the trial held at Otton, Lamb county, testified to the finding of poison in the body of defendant, but it was also testified he had taken the antidote.

District Judge R. C. Joiner discharged the jury after it had twice reported during the morning that it was deadlocked. Consideration of the case began Friday.

The case has been set for re-trial at the August term of Lamb County District court.

Resumption of Unit 1 work, grading and drainage structures, on State Highway No. 28, which was ordered stopped more than a week ago, began again last Tuesday under orders issued to Pat R. Bobo, county relief director, by Harry N. Roberts, assistant state highway engineer in charge of the work.

By the close of the week it is expected a full crew will again be at work on this highway.

#### TO FENCE IN THE TOWN

WINK—It's the next oil well that's bothering this West Texas boom town—just some pesky cows.

They have been roaming the streets at will and have caused the official fathers no little worry and embarrassment. But a ranch country remedy will be applied.

The corporation of Wink will be enclosed with wire fences. Residents of the corporation must keep their cattle either staked out or in pens.

The remainder of the cow "critters" must do their browsing outside the fences.

### START SIGN UP COTTON ACRES HERE WEDNESDAY

#### Farm Agent Names Days For Meetings In Communities

The sign-up on the 1935 cotton acreage reduction program began Wednesday, March 13th. J. B. Waide Jr., county farm agent stated.

Mr. Waide stated that the sign-up would require about two weeks time. The producers of Bailey county are very anxious to obtain their allotments before planting time and this will be possible only by completing the sign-up quickly.

The following sign-up days have been scheduled. West Camp March 13; Baileyboro March 14; Fairview March 15; Circlebuck March 16; Goodland March 18 Buia, March 19; Muleshoe March 20; Watson, March 21; Plainview March 22.

The cotton contract for 1935 is very similar to the one offered in 1934. The 1935 contract calls for a reduction of 25 per cent with an optional reduction of 35 per cent. The rental payment will remain at 9% cents per pound for the estimated production of the land retired from cotton production.

The parity payment has been increased from 1 to 1 1/4 cents per pound on 40 per cent of the adjusted production.

Waide stated it was likely a high per cent of the producers would take the 35 per cent reduction. The cotton tax-exemption certificates will be issued on the basis of a 35 per cent reduction regardless of the reduction the producer elects to take under his voluntary contract.

### More Trees Are To Be Planted In Santa Fe Municipal Park

Two hundred and twenty-five tamarix, a beautiful shrub or tree with fine flowers, indigenous to this section, have been received here through efforts of Al Isaacs, city secretary, also four beautiful poplar trees which will be set out on a corner of the local Santa Fe park, the tamarix will be set out around a 200 foot square in the center of the park. It is also planned to put out some more flowers in this park this spring.

About two years ago, under direction of R. L. Brown, 1,000 Chinese elm trees were planted in the park and are growing nicely being irrigated with city water. Various local clubs also planted flowers of different kinds.

Land for this park was donated about three years ago by the Santa Fe railroad system, being located in the east part of town and, in time will become an excellent recreational spot for people of this community. It was landscaped by experts from Tech college Lubbock.

MUTTON BEING DISTRIBUTED Distribution of 224,000 pounds of mutton to Texas counties was begun last week, according to announcement received here from Austin relief headquarters, the commodity being shipped to central distribution points throughout the state.

Just how much Bailey county will receive is not known at this time by Pat R. Bobo, county relief director, he expecting a notice from Lubbock at any time.

### ALLRED WOULD SPEED UP ACTS LEGISLATURE

#### Fearful Essential Bills May Not Get Much Attention

Governor Alfred has expressed apprehension today over the fate of part of the program he has submitted to the Forty-fourth Legislature as essential to Texas' welfare.

His remarks came as the first half of the four-months general session ended in what many considered a remarkable spirit of harmony, except for a controversy over the method of submitting to the people repeal of prohibition and the setting up of liquor control in the event of repeal.

"I hope the Legislature will dig in a little harder, spend more time in the Capitol and not get in a jam at the close of the session and have to pass legislation hurriedly," the Governor said.

He voiced special concern over his tax program and renewed suggestions for passage of his utilities relation bill repeal of the law legalizing gambling on horse racing and action toward curbing gas wastage in the Panhandle.

"I am most concerned with real tax measures," he said. "The ones suggested in my message ought at least to be passed on. I am anxious to have the utilities regulation bill passed and the horse race law repealed."

All situation in Hand "The so-called hot oil situation in East Texas is well in hand, but the gas shortage in the Panhandle is being up by Secretary Isaacs and others is a reason for careful control. "Senator Morris Sheppard has visited me here and he will have the Thomas bill providing federal oil (Turn to page eight please)

### Cunyo To Judge Turkeys At Bailey Co. Poultry Show

Albert Isaacs, local poultry fancier, this week received information from an invitation extended Prof. Paul A. Cunyo, poultry husbandman expert at A. & M. college, in which he would arrange his plans to judge turkey exhibits at the Bailey county poultry show to be held here some time this coming November. A special day will be set aside as "Turkey day" during the show. He was judge at the Turkey show held in Plainview last year, pronouncing himself one of the prize-winning bird sent by members of the South Plains Turkey Growers association to President Roosevelt.

The Bailey county Poultry show, which Mr. Isaacs is one of the leading sponsors, is becoming a worth while institution, growing rapidly in interest, attendance and number of birds shown. The exhibitors last year more than doubled those of the year before. Not only are Bailey county growers taking an active interest in raising turkeys, but also better turkey raisers from the South Plains show last fall.

### 1935 Hog-Corn Men Increase Cooperation With Governm't Plan

The new 1935 hog-corn adjustment contracts of the AAA have been signed by 28,000 Texas farmers of which number 158 growers in Bailey county signed the contracts. This is a slight increase over the figures for 1934.

being 154 of them that year, the increase for the entire state was a 25 per cent increase. The Federal Government will pay 35 cents per bushel on corn which is five cents paid last season, and regulations and procedure somewhat different, the rulings other crops to be pl. corn.

### SEN. DUGAN WOULD LAW ON TAXING

Senator A. F. Dugan introduced in the Legislature to change the cigaret tax to more effective. The present tax is \$1.00 per 100 cigarettes. The tax stamp would be quarterly to evade counterfeits license would be \$5 to \$25 per year.

### P. A. Sponsored A 42 Party Friday Night At The Legion Hall

Friday evening of last week the Muleshoe Parent-Teachers association sponsored a progressive 42 party at the American Legion hall. Twenty-five cents per person was charged and the proceeds went to the Grade school play ground equipment fund. Eighteen dollars above expenses was cleared.

The Ways and Means committee, which included Mrs. A. W. Copley and Miss Ouida Davis was in charge. There were 18 tables in all, three of which had special dominos and the others were 42. There were about 70 in attendance. No prizes were awarded to the winners, everybody had a coffee wonderful time they had and several requests were made to have another party in the near future.

Delicious refreshments consisting of doughnuts, hot chocolate and coffee were served to those present.

The members of the Muleshoe High school girls' basketball team sold tickets.

### Bailey County Has \$12,700 For Relief Work During March

Checks were written last week at the State Relief office, Austin, for \$1,881,745.10 to be distributed to Texas counties for relief work during March, of which total Bailey county received \$5,890, and with a balance on hands of \$3,800 from previous allotments gives this county a total of \$12,700 to be expended on both direct and indirect relief work on its lists.

McFarWayda Washington authorities have also approved a grant of \$3,250,000 for March general and drought relief needs, of which sum Bailey county will receive its pro rata part. It is expected the Legislature will soon make available \$500,000 state relief funds.

Relief appropriations and work is being greatly cut-down for the month of March, according to official announcement.

### R. U. S. PRESIDENT F. of New York, last

uncement of his candidate of the United under the banner of unity.

of work in Texas January 21 when paid \$671,269.38.

UP AGAIN!!

Production figures are steadily advancing. It was 5,000 cars daily the first of this week, now it is 7,000 CARS DAILY

Of course, this means more used cars! See our stock, some of which are described in our advertisement to be found elsewhere in this newspaper. Some big bargains with thousands of miles of satisfactory service still in them.

MOTOR CO.

Watch the beautiful Fords go by.

GOODLAND SUNSHINE CLUB

The ladies of the Goodland community have organized a Home Demonstration club, named the Sunshine club. There were 16 present at the organization, as follows: Mrs. Ponder, Mrs. Brandon, Mrs. Rackley, Mrs. Stamps, Mrs. Hanover, Mrs. Forgason, Mrs. Kirk, Mrs. Sanderson, Mrs. Johnson, Miss Morene Tarlton, Miss Irene Tarlton, Mrs. Everetts, Mrs. Hale, Mrs. Trussel, Mrs. Evets and Mrs. Gaddy. Mrs. Ponder was elected president; Mrs. Brandon vice-president; Mrs. Rackley, secretary, Mrs. Stamps assistant secretary.

Mrs. Ponder Mrs. Brandon, Miss Morene Tarlton and Mrs. Gaddy attended the county club meeting at the Circleback school house, March 5. All enjoyed meeting other club members and especially enjoyed hearing the talk given by Miss Westbrook, Lamb county

demonstrator, on club work also a demonstration on making tea for sub-irrigating.

There are several ladies in our club interested in sub-irrigating their garden so the club intends to give a demonstration on the work later.

The ladies had another meeting Thursday afternoon, March 7, at the home of Mrs. M. D. Gaddy. Mrs. Kirk served the women with cake and coffee much enjoyed by all.

All members should be at our next meeting. We are to have some lessons on meat canning, and invite all the ladies in the Goodland community to be there, think if they will, they will get interested in the work.—Reporter.

The low-thatched hut, if it brings you back your own, is better than a palace whose unbroken hush presses life's sad story upon you.

OPEN FORUM

In this column the Journal will publish contributions from the general public. Articles must be plainly written and signed, though the contributor's name will be withheld if desired. Articles offered for publication must not contain statements of libelous or defamatory nature, the editor reserving the right to delete such statements or to withhold the entire article.

Dear Muleshoe Journal:

"Great Britain produces about 40 percent by value of her food requirements. The other 60 percent is secured by promoting a dog fight between countries which have more food stuffs than they need for themselves."—The Manitoba Cooperator.

And yet we have people who are kicking because we are trying to get prices up so our people can make a living wage.

Do we owe England any consideration? I think not. What she tried to do in 1770 and 80 (collect tribute) and could not do it with bullets she has done ever since with her Liverpool Board of Trade. And we have had, and have now, a gang of pirates that are doing all they can to deliver us bound hand and foot to England.

We have some good men in Congress, but I think very shortsighted, who are trying to pass laws to regulate future markets. Regulate, 'ell we want them out laved. Make it a felony to deal in futures. Give them a prison sentence. It would be cheaper for us to dig down in our pockets to feed them than to let them run loose to rob us legally.

"Oh," some numbskulls will say, "What would we do for a market?" Those curs do not make a market. They just make the price for England. Would it not be better to turn this price-making over to Secretaries of Agriculture and Commerce, the master of the granary, the head cottonman, manager of Farmers National Grain Corporation to represent the farmers, and the head of the consumers league to represent the consumers?

Then we could line up and all get our just dues. England is and all get ways has been a parasitic nation, even her national emblem (the mistletoe) is a parasite. She seems to be proud of it, and has advertised it to the world.

Yours Resp. Uncle Sl.

Cogn of Eugenics

Eugenics is from a Greek word meaning well born, and was first used by Francis Galton, the noted English scientist, in 1883, who defined it as "the science which deals with all influences that improve the inborn qualities of a race."

Poultry

USE SURPLUS MILK TO GROW BROILERS

Weight Is Added Faster and Meat Is Better.

By R. H. Gray, Extension Specialist, in Poultry Husbandry—WVU Service.

A use for some of the surplus milk on the farm is seen in the practice of milk-fattening broilers. This practice may lead to four possible gains. Milk-fattened broilers add weight faster than do cockerels on range. Their meat is of better quality, and in some markets the broilers will command a better price because of it. By hastening the maturity of the cockerels for broilers the poultryman can separate them from the pullets sooner, which will result in better laying stock. Fatness breeds in feeding but the fatteries leads to best results, and very fine results may be secured by pen-fattening if the pens are darkened between feedings so the birds exercise less than they do normally.

A good fattening ration may be made of three pounds of yellow corn meal and one pound of wheat flour middlings, mixed with liquid milk to the consistency of a batter that pours readily from a bucket.

If liquid milk is not available, semi-solid butterfat may be used in place of the skim milk at the rate of 1 1/2 pounds to each gallon of water.

Very little feed should be given the birds the first day a fattening ration is put before them. Let the birds get hungry. Give them as much feed as they can clean up in five minutes the morning of the second day and in the evening, as much as they will eat in ten minutes.

Not until the third day should the chickens be given a full fattening ration as much as they will eat in 10 to 15 minutes morning, noon, and night. Nothing to drink should be given the chickens as much liquid as they need is contained in the wet mash.

Early Care of Goslings

Cited by an Authority

Goslings do not need feed until they are from thirty-six to forty-eight hours old, when they should be fed stale bread soaked in milk, or a mash made of four parts corn meal and one part middlings, says an authority in the Missouri Farmer. Green grass should make up most of their feed and only a limited amount of grain should be put before them. Fresh, clean drinking water should be supplied. After two weeks, if the goslings have plenty of grass, they will not need any other feed. In case extra feed is needed a suitable mash can be made of two parts shorts, one part of corn meal or ground oats. After six weeks old, if extra feed is still needed, the mash should be changed to equal parts shorts, corn meal, and ground oats with five per cent meat scrap. Where pasture is good, most goslings are raised from the time they are two or three weeks old to fattening time without additional feed. Whole grain should not be fed until the goslings are well feathered. Because of a limited demand, it is doubtful if geese can be profitably raised except where they have good range.

Cutting Range Costs

Next to the feed cost, the greatest expense in brooding and rearing of chicks is in labor. Any poultryman, observes a writer in the Country Gentleman, whose range is not already so equipped can well consider installing certain practical labor-saving devices. A lot of time can be wasted carrying water in pails, so any range on which a considerable number of chicks is reared should be piped for water. Three-quarter-inch pipe for leaders one-half-inch pipe for laterals, with an automatic self-feeding shut-off near each colony house, will more than pay for the complete cost before the season is half over. To keep the water cool, the pipe should be laid in a furrow which has been plowed up and laid back over the pipe. Once a day the pans can be rinsed with a large bottle brush, which is all the labor required in the watering operation. In the fall the pipes can be taken up and stored till spring comes again.

No Cure for Stunted Chicks

Start a chick in the way he should go—and you will reap the reward, says Miss Cora Cooke, extension specialist in poultry, University farm, St. Paul. Flocks in which some chicks lag behind the rest, carry evidence that something is wrong. Some chicks, unfortunately, are "born runts." There is nothing to do but put them out of their misery. Some of these runts could have been avoided, however, if the parent stock had been selected with care—selected for health, vigor,

Production of Geese

According to the 1930 census, Missouri ranks fourth in the production of geese, says a writer in Missouri Farmer. Geese production in the United States has, since 1910, passed completely from the South Central to the North Central states. This shift is attributed to the fact that geese were formerly produced in the South mainly for the feathers, and that as the demand for feather declined in that section the production of geese was abandoned.

Longview News

A large crowd attended Sunday school and church Sunday morning. Rev. Hough rendered a very good sermon and at the closing hour members of the church surprised him with an old fashioned ponding. The ladies club met last week with Mrs. Burt Black 12 being present. A quilt was quilted for Mrs. Margaret Black. This week they will meet with Mrs. Arthur Shoffer and her mother Mrs. Bartlett. All the ladies are invited to come and bring their needles and thimbles for this is a very busy club.

Miss Fellicie Dockery, teacher, spent the weekend in Lubbock visiting her parents.

N. C. Moore took the scholastic census and assessed taxes in this district last week.

There were quite a number out for singing Sunday night but there were still plenty of empty seats. Everyone has a hearty invitation.

The snow which fell Monday will be a great boost to the wheat and the farmers who are still putting up their land, for it is getting quite dry.

A six character play called "Haunted" will be given at the school house soon.—Reporter.

Baileyboro News

Baileyboro is enjoying a nice shower and snow which fell here Sunday night and Monday. Although it is not as much moisture as is needed we feel sure it will help lots and everyone is thankful for it.

The Sudan mail carrier failed to make his route Monday and we imagine the

snow was lots heavier in that part of the country. Mr. and Mrs. C. B. Walls spent most of their time last week at the home of Mr. Walls' father, at Rogers, N. M., where his sister, Miss Gaud Walls, formerly of Baileyboro is seriously ill. March 5 there was a county club meeting at Circleback, 11 of our club members being present and reported a very enjoyable meeting, consisting of a number of interesting talks and a cement tile demonstration by the Lamb county demonstrator.—Reporter.

Why Southwestern Life Registers Every Policy It Issues

INSURANCE laws of the State of Texas provide how a life insurance company of Texas may register its policies. A registering company must deposit approved securities in an amount adequate for the protection of policyholders.

The Registration Law requires the segregation of policyholders' funds, thus preventing substitution of assets without the knowledge and consent of the State Insurance Department. Experience of the last five years has demonstrated the effect and value of registration laws.

The Registration Law makes mandatory the valuation of the required securities at the current market. A company which elects to operate under a market valuation law evidences the intention to invest policyholders' funds with added caution.

Many good companies do not elect to register their policies, and we urge policyholders of such companies to maintain their insurance in force.

Supplying a week-to-week inspiration for the heavy-burdened who will find every human trial paralleled in the experiences of "The Man Nobody Knows."

JEREMIAH

It is a terrible handicap to the memory of a man when a descriptive phrase or adjective attaches to his name, for people feel that they are thereby relieved from learning anything more about him.

He did weep, and good cause he had to do it. God laid on him a tremendous burden, and once when he cried out because he was carrying every bit that he possibly could God's answer to him was, "Cheer up, Jeremiah the first is yet to come," or, in the worst phraseology:

If thou hast run with the footmen, and they have wearied thee, then how canst thou contend with horses? And if in the land of the living, wherein thou trustest, they wearied thee, then how wilt thou do in the swelling of Jordan?

"THE LAND MAN"
Muleshoe, Texas

hast borne me a man of strife and of a man of contention to the whole earth! I have neither lent on usury, yet every one of them doth curse me. Jeremiah was a countryman, born in the little town of Anathoth. When the call of God came to him to stand forth as a turbulent prophet instead of a quiet priest it found him modest and reluctant.

SUNDAY SCHOOL LESSON

by REV. CHARLES E. DUNN

Peter Delivered From Prison. Lesson for March 17th. Acts 12:1-19. Golden Text: Acts 12:5.

The story of Peter's delivery from prison is unusually graphic and detailed. Note that the affairs of the apostolic church were in a bad way. Our lesson reveals a crisis. Stephen, the head of the deacons, had been stoned to death. James, a member of the Master's inner circle, had been killed with the sword. And now Herod cast Peter the leader of the twelve, into one of his filthy jails.

We can imagine how panic-stricken was the little church. It doubtless anticipated the speedy death of Peter. What an outlook. Their leaders gone, it seemed as though the little band would be completely dispersed. They did not dare to openly protest against Herod's action. The only course open was to pray. And so they offered "long and fervent prayer" for the release of Peter. (vs. 5) And God answered their petitions.

There is a mystery in what we call necessary prayer. Many of the prayers we offer for others are not answered. On the other hand, some, like those uttered on behalf of Peter, do bring to pass the desire of our hearts. Some weeks ago the pilot of an air transport was compelled to make a landing in a remote Adirondack forest. The only passenger on board, a very religious man, began to pray. And his prayer, brought with the magic of the radio, together release.

The lesson, then, teaches the power of prayer. An angel saved Peter, he was free to go to Mary's home where a prayer-meeting was in progress. And here comes a delightful touch in this thrilling tale. Rhoda, the maid-servant who answered Peter's knock, was so overcome with excitement that "she opened not the gate for gladness," but ran back to tell the others. (vs. 14) How human! Her emotion, not the better of her. She was sentimental, not practical, for she neglected to open the door.

Who masters his own trade can fix his own wages.

Newspaper advertising gains its popularity because it appeals to the public by the greatest method which information can always be communicated—the printed page.

SPRING SUITS

Spring will soon be here and our new 1935 samples have arrived. We are especially featuring the famous "International Tailoring Co." line, witty, new all year-round and summer weights in a delightful assortment of weaves colors and hand somely tailored. Priced from

\$22.50 UP

We also have other lines of Tailor Made Suits at cheaper prices—and well worth the money.

MULESHOE CLEANERS

W. F. BASINGER, Manager

NOTICE FOR BIDS ON ROAD MACHINERY

NOTICE IS HEREBY GIVEN that on the 8th day of April, 1935, the Commissioners' Court of Bailey County, Texas, at the Court House in Muleshoe, Texas, will open bids for— (a) Purchase of 1 50 Horse Power Diesel Tractor, with auxiliary starting equipment and high compression ignition and. (b) Purchase of 1 12 foot Blade Grader.

A CERTIFIED check for five per cent (5%) of the amount of each bid shall be required to be filed with each bid submitted, as required by law, and which check shall be payable to J. E. Adams, County Judge of said County.

EACH SUCCESSFUL bidder shall be required to give a good and sufficient bond in the full amount of the contract price, executed by some surety company authorized to do business in this State.

IT IS ESTIMATED that the cost of road machinery, heretofore described will not exceed the sum of SEVEN

THOUSAND FOUR HUNDRED DOLLARS (\$7,400.00), which will be paid by the issuance and delivery to the proper contractor or contractors of the legally issued warrants of said County, bearing interest at a rate not exceeding SIX PER CENTUM (6%) per annum, payable annually or semi-annually, aggregating said principal sum of SEVEN THOUSAND FOUR HUNDRED DOLLARS (\$7,400.00), payable serially, the maximum maturity date to be April 15, 1942, and which said warrants will be paid by the levy of a continuing direct annual tax on each one hundred dollars' valuation of all taxable property out of the FIFTEEN CENT ROAD AND BRIDGE TAX, authorized by the Texas Constitution (art. 8, sec. 9), and by Texas Revised Statutes, 1925 (arts. 2392 and 7049).

PROPOSALS shall be submitted in sealed envelopes and marked "BIDS FOR PURCHASE OF ROAD MACHINERY."

THE RIGHT is reserved to reject any and all bids.

ISSUED, this 7th day of March, 1935, pursuant to order of the Commissioners' Court.

J. E. ADAMS, County Judge, Bailey County, Texas.

March 7, 14, 1935

NOTICE OF TRUSTEE'S SALE

WHEREAS, on the 20th day of May, 1926, James L. Dow and Della Dow executed a deed of trust, conveying to Wiley L. Robertson as trustee, the real estate herein described, to secure EMPIRE MORTGAGE COMPANY OF WICHITA FALLS, TEXAS, in the payment of a debt therein described, said deed of trust being recorded in Vol. 7, Page 401 in the deed of trust records of Bailey County, Texas; and

WHEREAS, The undersigned has been appointed substitute trustee in the place of said original trustee, upon the contingency and in the manner authorized by said deed of trust; and

WHEREAS, Default has occurred in the payment of said indebtedness, and the same is now wholly due, and the owner and holder of said debt has requested the undersigned to sell said property to satisfy said indebtedness;

NOW, THEREFORE, Notice is Hereby Given That on Tuesday, the second day of April, 1935, between ten o'clock A. M. and four o'clock P. M. I will sell said real estate at the door of the County Court House in Bailey County, Texas, to the highest bidder for cash.

Said real estate is described as follows: In the County of Bailey, State of Texas: Labors Nos. Nine (9) and Ten (10) of League No. 177, of the Motley County School Lands, containing 354 Acres of Land.

Witness my hand this 2nd day of March, 1935. H. L. HUNTER, Substitute Trustee. March 7, 14, 21, 28, 1935.

The Increased Danger Of Cancer Demands A Careful Investigation

Austin Texas, 3-12.—The definite increase in the number of persons dying from cancer makes the subject of tumors a timely one. A tumor is a mass of new tissue which is of no use whatever to the body. If tumors or their manifestations were more generally appreciated, much of the misery and many deaths could be prevented, stated Dr. John W. Brown, state health officer.

The malignant tumor known as cancer may consist as in the case of benign tumors, of any bodily structures such as fat, bone, connective tissue, superficial layer of the skin, mucous membrane and bodily organs. They grow rapidly and may establish secondary growths far from the site of the parent tumor by means of detached cells traveling in the blood or invading the lymphatics.

Where benign tumors are recognized early, removal does not pay to take any cure. However in cancerous tumors surgery or irradiation (X-ray and radium) or a combination of the two, to be effective depends upon early diagnosis and prompt professional action.

While a number of cancerous growths unfortunately do not present early symptoms, many of the more common ones do. It is the delinquent disregard of such early symptoms that has so decidedly occasioned the increase in cancer deaths.

The outstanding signals which justify a suspicion that cancer may be present, though not necessarily so, are: any lump; any unusual bleeding from any bodily opening, a persistent sore, and chronic indigestion.

To disregard these signs, which may mean cancer in an early and therefore curable stage, is to flirt with death. The outstanding signals which justify a suspicion that cancer may be present, though not necessarily so, are: any lump; any unusual bleeding from any bodily opening, a persistent sore, and chronic indigestion.

THOSE BABY BONDS

Have you bought your Baby Bond yet? You've probably seen the picture in the movie newsreels by this time, showing President Roosevelt digging down into his change pocket and handing out a ten dollar bill to pay \$12.50 for six of the smallest of these new obligations of the United States.

Anybody who has as much as \$18.75 that he doesn't need to use right away can buy a Baby Bond for \$12.50 for six of the smallest of these new obligations of the United States.

These Baby Bonds are different. Nobody in these days is giving or being asked to give to the Government, but the Government must borrow somewhere, and it doesn't want to put the load on the banks too heavy. So it is offering better than bank interest for money in small amounts. The Government limits banks to 2 1/2 percent interest. A Baby Bond which can be bought for \$18.75 or any multiple thereof runs for ten years and at the end of that time the Government will pay \$25 for it. That figures out somewhere around 3 percent a year.

You don't have to hold the Baby Bond for ten years, however. If you need the money you can turn it in and get your money back, plus interest to date, any time after sixty days. But you can't sell the bond to anyone else. It is issued in your own name and is not transferable. That will keep the speculators from trading in them, and prevent the price being forced down.

From where we sit, these Baby Bonds look pretty good.

First Prayer in Congress

Dr. Jacob Duché, a native American Episcopal clergyman, at the prayer at the meeting of the Continental Congress in 1774, feared the cause of the colonist and fled to England in 1776.

urging Washington to do likewise. Washington was convinced at self, declared a traitor. But was permitted to return to Philadelphia, where he died in 1781 under Magistrate.

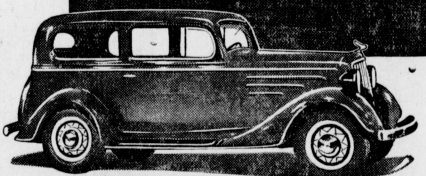

—TRY— MOTHERAL'S —for— Quantity, 6 Servis

REGULAR M PLATE LI Short Order Reas

It is our honest conviction that —

THE NEW CHEVROLETS

offer the finest combination of high quality, low prices and low operating costs Chevrolet has ever offered to the American public

THE NEW STANDARD CHEVROLET \$465 AND UP. List price of New Standard Roadster at \$465. Includes 12 volt battery, spare tire and tire lock, the list price is \$25.00 additional. Price quoted in this advertisement are list at \$465. Plans and are subject to change without notice.

THE MASTER DE LUXE CHEVROLET \$560 AND UP. List price of Master De Luxe Coupe at \$560. Includes 12 volt battery, spare tire and tire lock, the list price is \$25.00 additional. Price quoted in this advertisement are list at \$560. Plans and are subject to change without notice. Knee-Action optional at \$20.00 extra.

And so, when you decide to buy your new car, may we suggest that you see and drive the 1935 Chevrolets. Then this will become your conviction, too. You will discover that Chevrolet has gone well beyond its high standards of the past to make these the most desirable cars in Chevrolet history. Fine craftsmanship and precision engineering are evident in every line and in every part. With the result that these new Chevrolets give you much more quality than you are accustomed to getting at Chevrolet prices. Much more beauty—much more ability to serve long and dependably—and much more performance. Their getaway, acceleration, and all-round spirited action are the most thrilling ever engineered into a Chevrolet product. Yet the New Standard Chevrolet is the lowest-priced Six in the world. And the Master De Luxe Chevrolet also is offered at exceptionally low prices for such a luxurious car. Moreover, these are the most economical Chevrolets ever built, which is highly important in these days when economy means so much. Come in today. See and drive these new cars—and choose Chevrolet for quality at low cost. CHEVROLET MOTOR COMPANY, DETROIT, MICH. Compare Chevrolet's low delivered prices and easy G.M.A.C. terms. # THE MULESHOE JOURNAL

Entered as second-class matter at the Muleshoe Postoffice under the Act of Congress, March 3, 1879.  
JESS MITCHELL, Editor. L. F. MITCHELL, Bus. Mgr.

**SUBSCRIPTION RATES**  
In Bailey County, one year, \$1.50; Outside of County one year, \$2.00.  
Published every Thursday at Muleshoe, Texas.  
Advertising rates given upon application. Telephone No. 54.

Subscribers who change their addresses, or fail to get their paper, should immediately notify the office, giving both new and old addresses. Communications of local interest are solicited. They should be briefly written, on only one side of the paper, and must reach this office no later than Wednesday morning of each week. The right of revision or rejection is reserved by the publisher.

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, matters not by whom nor for what purpose, if the object to raise money by admission fee or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.

Obituaries, cards of thanks, and resolutions of respect will also be charged for at the same rate.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Muleshoe Journal will be gladly corrected upon its being brought to the attention of the publisher.

In case of errors or omissions in local or other advertisements, the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

### A THOUGHT FOR THE WEEK

Better is the poor that walketh in his uprightness, than he that is perverse in his ways though he be rich.—Proverbs 28:6.

Poverty, labor and calamity are not without their luxuries, which the rich the indolent, and the fortunate in vain seek for.—Hazlitt.

### WHAT INFLATION MEANS

The Journal does not pretend to be any financial or economic expert, yet we are frank to say if we didn't know anymore about such matters than the senseless twaddle some supposedly skilled men in these lines blab out we would keep our mouths shut up tight. However, inflation is a subject of vital interest to all Muleshoe people as well as every business citizen throughout the country generally and we have gone to some trouble to learn a little about what all this "inflation" talk means.

As nearly as we can make out, "inflation" means putting the value of money down by comparison with the things that money will buy. It does not necessarily mean printing money with nothing back of it, as Germany did, nor the free and unlimited issuance of silver, though that, too, would be inflationary. It means any artificial process of sending prices up.

Well, it appears that we have been gradually going through a process of inflation for a couple of years now. The devaluation of the old dollar, the forcing up of bank prices, the addition of the monetary system, the increase of farm credits through Government borrowings—all of those are part of the process of inflation. Almost everybody around is feeling the effect of it in rising prices of things they buy though not all have yet felt the inflationary effect upon their incomes.

The next step, the experts tell us, will come about through the centralization of banking and credit control. Our expert adviser pointed out that the ones who benefit are those who have property of any kind bought at the pre-inflationary price which they can sell in terms of the cheaper dollars. Also, those who owe money in dollar bills, who will get money with which to pay more cheaply than they can now. That sounded reasonable to us. If inflation puts up the price of hogs or of a day's work, the man with a mortgage or a note in bank notes will have to sell as many hogs or do as much work to pay off his debt. That's about all we know about inflation, except that the folks who know more about it than we do say it's going a lot farther before long.

### THE WORST IS OVER

If the men who make our almanacs are correct, the worst of winter is over and everyone can now breathe a sigh of relief. Older residents remind us they have seen a lot of cold weather in March and April, but even the local weather shark seems, for once, to be able to agree with the professionals, and to agree that the worst is over. Now with a little spring period of sand storms the Plains area of West Texas can settle down to a delightful, and, we hope, a profitable summer and fall.

There could be more welcome news. The housewives are anxious to get at their spring cleaning and to get their flower and vegetable seed started on their way. The home owner is anxious to make needed repairs and to put his premises in order for the spring and summer months. The farmer is a bit restless, too, though in his case there has been plenty of work to do in the winter months, the same as there will be in the warm months ahead. In fact, everyone is ready for a change, and the general expression is: "Spring can't come too soon to suit me."

But it isn't actually here yet, by any means. There are still a few weeks left in which to plan the things that must be done—and this year there should be no postponement. Too much property around here has slumped in value already, through sheer neglect. The longer improvements are put off the more they cost in the long run. Those who realize this and make them this spring are going to be glad they did so when the price of hardware and materials of all kind begins to soar, as it now seems sure of doing when a nation-wide building boom sets in.

### A FALSE GOD

In a way, the long-awaited decision of the supreme court in the gold clause case shows how ardently money is still worshipped as a god by millions of Americans. Despite the fact that it didn't change the status of the dollar, insofar as its purchasing power is concerned, the millions awaited the decision of the court almost hysterically, as excited as they would await the outcome of a World War.

Money has no value, no matter how the supreme court rules, unless it brings happiness to the person who has it. Except for the comforts and luxuries of life desired by himself and family, and the aid and comfort he can buy for others, no man finds any

## WELCOME, Sweet Harbinger of Spring—by A. B. Chapin

One of the worst things we hate to encounter in Muleshoe is a couple of citizens arguing over which has the worst cold.

If it is true that clothes make a man, then what kind of an animal is a Muleshoe man when he takes a bath?

### SNAP SHOTS

A police judge says women do 70 per cent of the driving. Perhaps so, but a good many men still hold the steering wheel.

It appears that Japan simply cannot understand why China should not be tickled pink every time it pushes a bayonet into her ribs.

If men feel sorry for the husband, and women feel sorry for the wife, it appears they are about even and both are getting what they deserved.

No wonder middle-class people are the best. They don't need vice to enable them to escape their misery or forget their boredom.

We sometimes fail to wonder about auto drivers not avoiding collisions when we read about steamships having them with a whole ocean in which to dodge.

Scientists are men who find ways to prolong life while inventing machines to shorten it.

Big towns are just like little ones, except the clean part and the dirty part are farther apart.

The things nations need most to keep them out of war is something to laugh over.

The more imbecile one's mental proclivity, the easier they are amused and satisfied.

### Pavement Pickups

Also, the dirt expert at the Valley Motor Co. says the only advantage in driving an airplane over driving one of the new Chevies, is that there you've got four ways to dodge and don't have to worry so much about getting a fender smashed on the beautiful thing.

Reading that a Chicago man is cutting a new set of teeth at the age of 35, Dr. Lewis, local dentist, says he is probably getting ready for the early routine of his season.

Shatterproof tiddies and brassieres in either rayon or real silk are said to be the latest invention of feminine lingerie.

Present indications are that the

dry goods store the other day and asked to look at some stockings. "What number do you wear?" asked Mr. Bennett, the youthful manager. "Why, two of course," replied the indignant customer. "What do you take me for a centipede?"

At Isaacs and Lewis, Quisenberry, both expert chicken fiends of this section, were delineating the virtues of their various flocks the other day and finally got around to some pretty tall stories. Lloyd told of a hen he had that would hatch anything from a tennis ball to a lemon, and one day she sat on a piece of ice and hatched out two quarts of water. Al came back with a story in which he said his wife had been feeding his biddies on saw dust instead of oat meal, by mistake. One of the hens laid 12 eggs and sat on them. She hatched out 11 chickens with wooden legs and the twelfth was a red-headed woodpecker. Now, everybody here will believe these stories stand on their head please while Fred Warren takes a morose of the scene.

### Dyed in the Wood

By injecting dye in growing trees by a secret process, wood is produced dyed with red, green, blue, etc. The sap in the tree carries the coloring matter with it.

present administration of Roosevelt is to be a Long suffering one.

It is reported a citizen living in Muleshoe trade territory who last week bought his first owned automobile, absent mindedly put a bunch of hay in front of the new car and tried to make his mules drink a bucketful of gasoline.

Apparently to Muleshoe will go the honor of producing a second Babe Ruth. Little Oscar Ray White is said to be genius enough already to put a baseball in a half bushel basket or a rock in the center of a car windshield. Dad is planning putting him in training this season for one of the big league teams.

We were told the other day one of Muleshoe's doctors told a man who claims to smoke about 40 cigars and drink 10 cups of coffee a day if he didn't cut it out it would affect his brains. We disagree with the doctor. A fellow who will continue to do a stunt like that hasn't any brains.

It is now rumored that "Booster Bob" Brown was in the midst of a big land sale last week when a sandstorm came up fast and furious. He had reached the point where all he had to do was show the land and get the prospect's name on the dotted line. They had put on their hats ready to start out to see the land, when Brown looking out of his office window, exclaimed: "My Gawd, there goes that quarter section up Main street right now."

Some Muleshoe citizens are insisting that the late Orver Wendell Holmes, former Civil war soldier and ex-justice of the Supreme court, was not as smart as some thought him to be, because he left his entire estate of \$550,000 to the government. In a day when practically everyone is trying to get all they can out of the government, it must be admitted that such patriotism does seem a wee bit strange.

A lady customer went into Jones' dry goods store the other day and asked to look at some stockings. "What number do you wear?" asked Mr. Bennett, the youthful manager. "Why, two of course," replied the indignant customer. "What do you take me for a centipede?"

At Isaacs and Lewis, Quisenberry, both expert chicken fiends of this section, were delineating the virtues of their various flocks the other day and finally got around to some pretty tall stories. Lloyd told of a hen he had that would hatch anything from a tennis ball to a lemon, and one day she sat on a piece of ice and hatched out two quarts of water. Al came back with a story in which he said his wife had been feeding his biddies on saw dust instead of oat meal, by mistake. One of the hens laid 12 eggs and sat on them. She hatched out 11 chickens with wooden legs and the twelfth was a red-headed woodpecker. Now, everybody here will believe these stories stand on their head please while Fred Warren takes a morose of the scene.

## Try Faster Way to Relieve Your Colds

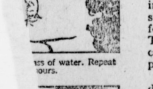

Medical Discovery Bringing Almost Instant Relief to Millions

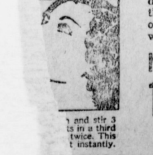

MEMBER DIRECTIONS  
The simple method pictured here is the way many doctors now treat colds and the aches and pains colds bring with them!  
It is recognized as a safe, sure, QUICK way. For it relieves an ordinary cold almost as fast as you caught it.

Ask your doctor about this. And when you buy, be sure that you get the real BAYER Aspirin Tablets. They dissolve (disintegrate) almost instantly. And thus work almost instantly when you take them. And for a single, Genuine Bayer Aspirin Tablets disintegrate with speed and completeness, leaving no irritating particles or grittiness.

BAYER Aspirin prices have been decisively reduced on all sizes, so there's no point now in accepting other than the real Bayer article you want.

Still another hand-picked modern Muleshoe kids escape that their parents knew was sulphur and molasses along about this time of the year.

### Jaunty Journalettes

It's safe to bet that the average Muleshoe man spends one-third of his life without sin. You see, he spends that much of his life sleeping.

During the five minutes he was dead a Boston man claims he went to heaven and returned, and here in Muleshoe some people boast if they go 60 miles an hour.

The life of a bachelor in Muleshoe is probably just one undared thing after another—and we happen to know some married men here who have the same experience.

Muleshoe parents say a son is less troublesome. They don't have to watch their evenings in the kitchen when he is courting.

If you want to get some important news across to a Muleshoe woman just tell it to her husband confidentially.

When Muleshoesmen start house cleaning after one of these spring sand storms she realizes they now have machines for everything except the dirty work.

After all, it may be a Muleshoe dad's own fault if he is not appreciated. Who would feed a cow if she gave milk out but being fed.

Brains alone won't help the average Muleshoe, unless he carries along with them a heavy stock of brass.

**Texas Members of W. O. W. Will Meet in Waco Soon**

**HEAD CONSUL W. A. TIDWELL EXPECTS LARGE ATTENDANCE AT STATE MEETING**

An unusually large attendance of members of the Woodmen of the World of Texas is expected at the biennial Head Camp meeting of the organization at Waco, March 28-29-30, according to an announcement today by W. A. Tidwell, head consul for the state.

Among those prominent in the organization in the state who will attend are: Junior Past Head Consul E. Z. Crowder, Dallas; Head Clerk W. C. Cox, Mineral Wells; Head Banker E. C. Meador, McKinney; R. E. Miller, one of the National Directors who is also state manager, also will attend.

National officers who will attend the meeting include: Directors, W. C. Braden, Lake Charles, Louisiana, Farrar Newberry, Little Rock, Arkansas, and R. E. Miller, of Dallas, Texas.

Head Consul Tidwell said he expected a big attendance because of the record-breaking achievements of the Woodmen of the World during the last two years under the leadership of De E. Bradshaw, president of the Woodmen of the World Life Insurance Association.

One of the features of the meeting will be the initiation of a large class of members from all sections of the state.

Elaborate ceremonies will attend the formal induction into membership.

At this meeting delegates also will be elected to the national convention, the supreme representative legislative body of the Woodmen of the World.

Woodmen of the World members, it was pointed out, are al-

ways keenly interested in the progress of this state because the national association has a large investment in its municipal, county and state securities.

Members and delegates will review the achievements of the past year and make plans for continued growth and expansion this year.

The gross assets of the association have grown to more than \$119,000,000, making it outstanding as the largest and richest fraternal life insurance association in the world. The consistent growth of the association, which operates in 44 states of the Union, is shown by the fact that in 1934 its gross assets increased more than \$4,000,000, with a net gain of 12,322 members.

The association has invested more than \$108,000,000 in government, state, county and municipal bonds. Since its organization in 1890 it has paid in death losses and disability benefits more than \$240,000,000. It has a membership of more than 355,000.

Woodmen officials generally give credit to President Bradshaw for the unusual achievements and growth in the last two years. He was elected to the presidency after serving the national organization for many years as general attorney. He has taken an aggressive interest in all Woodmen of the World activities and in particular has devoted his personal attention to improvement and enlarging the War Memorial tubercular sanitarium at San Antonio, Tex., an institution where members of the organization are cared for without cost.

**Community VISION**

A BUSINESS is no taller than the shadow of the man who built it—is an adage known to all. Likewise, a community is no greater than the institutions and the men who built them. Civic-minded citizens reflect their vision in the manner in which the community grows.

The Muleshoe State Bank is a Muleshoe institution which always strives to do its part in the development of our town. We have done this by ever striving to keep our banking service modern in every way, rendering patrons and depositors all the aid which sound business warranted. If we can serve you in financial matters please feel free to call upon us.

WASHINGTON . . . Above is Col. Edward W. Starling, now chief of the White House Secret Service. He was assistant-chief to Richard Jervis who, after 20 years, was transferred to a field post at his own request.

**New Trust Buster**

ATLANTA . . . Miss Patricia Collins (above), has been appointed special attorney in the anti-trust division of the Department of Justice by Attorney General Cummings.

**Wilson News Items**

There were good crowds out for Sunday school Sunday at both churches.  
A collection was made for McMurray college at the Methodist church Sunday morning to help pay the debt on the college. The pastor asked for \$1.50 from us and the collection totaled \$2.00. Also, several gave the secretary of the stewards money on the pastor's salary and were greeted by a different kind of storm Monday morning. It began snowing Monday and became a real snow blizzard during the middle of the day but subsided by four o'clock in the afternoon. Pay the preacher again, brethren.

Mr. and Mrs. B. B. Christie were Muleshoe visitors Saturday afternoon. Bob Sanders made a business trip to Muleshoe Monday.  
Mr. and Mrs. George Tyson had as their guests Sunday, his parents and brother and family, Mr. and Mrs. J. C. Tyson and Mr. and Mrs. John Tyson and children.  
Mr. and Mrs. E. B. Fleming and children and J. C. Eubanks made a business trip to Muleshoe Tuesday.  
The Happy Home Makers met with Mrs. B. B. Christie Thurs-day afternoon and hemed cup towels.

**The FAMILY DOCTOR**

By JOHN JOSEPH GAINES, M. D.

**ADOLESCENCE**

By this word, is meant the period at which boys and girls arrive at the estate of young manhood and young womanhood.

All family doctors know this to be one of the most critical periods of human existence; here human beings of grater or less worth are started on the voyage of life for better or worse; the very existence and excellence of our race depend on parental care and discipline at this stage, through which all young people must pass.

Many valuable and helpful articles appear in the many parent-teacher publications of our land; all are well worth deep study by parents who are heads of families. The average boy, at puberty has his world before him; as a rule, it is a period of dreams—a sprinkle of ambition—and, much of searching for animal pleasures. He is certain of nothing; here he needs, above all else, the counsel and companionship of prayerful parents more than at any other time in his career; impressions which he receives during this stage will surely abide with him longest; how important that these impressions are correct ones! Many earnest fathers have tripped at this, most important time in administering parental duties. See to it that your conduct is beyond reproach; that neglected boy may live to haunt your hours of what should be a blissful doze.

Experience must careful observation have shown that girls require your deepest, tenderest consideration at the early-teen age; watch your girls, not with coldness, grumness or suspicion and distrust but in your parental arms, retain and love them into the straight and narrow path; for, there is nothing sweeter, that will pay happier dividends than a loving, and appreciative daughter; nothing can surpass the love of perfectly-raised youngsters of your own flesh and blood.

The model man is a working model.

**Death Investigated**

PINHEURST, N. C. . . . Above is a recent informal photo of Mrs. H. Bradley Davidson, Jr., heiress to the Starler hotel fortune, whose death from monoxide gas in the garage of her home here is being closely investigated.

**METHODIST MISSIONARY MEET**

The regular meeting of the Methodist Missionary society was held Wednesday afternoon at the church annex. Two chapters of the "Suzuki Looks at Japan" study book were studied, with Mrs. Levi Churchill as leader. Those attending were Mesdames J. Frank Luker, Levi Churchill, Buford Butts, McCullough, J. F. Wallace, H. C. Holt, Tom Davis, White, Finley Pierson and Miss Opal Jean Haney. The next meeting will be held Wednesday afternoon of next week at the annex and all members are urged to attend.

**NOTICE TO FARMERS!**

I have a man who desires to furnish onion and potato seed to farmers and who will contract to buy their crops this fall. If interested, see me for details—RAY GRIFFITHS, Muleshoe, 7-12

**General News Over Texas And Adjoining States For The Week**

The New Mexico State Highway commission has been cut from five to three member commission.

Amarillo was host to 3,000 mother-in-laws last week. Gov. Alired was the principal speaker of the day.

The West Texas Pharmaceutical association will hold its annual session at Big Spring, March 29-31.

Central market prices of cattle were \$14.60 and of hogs \$9.80 last Saturday, local buyers paying a little less.

The storm loss of March 3 is reported to have damaged San Antonio more than a million dollars insurance companies losing a half-million.

Citizens of Abilene voted last week about two to one for a High school gymnasium costing \$15,000 to be constructed under direction of PWA.

A bill has been introduced in the Texas senate to change the primary system of electing officers, proposing to do away with one of the primaries.

Contract was let at Littlefield last week in the sum of \$43,448.00, for construction of a municipal water system under direction of PWA.

There have been 28,000 Texas farmers to sign the new 1935 corn-hog contracts which is 25 per cent more than signed last year.

Business of the First National Bank and the Amarillo Bank & Trust Co., Amarillo were combined under name of the First National Bank, last Saturday.

Mr. and Mrs. J. L. Bauer, of Randall county, the grandparents of an entire attendance of the school in their district, 20 of their grandchildren composing the total school body.

That the total percentage of natural gas in Texas increased 76 per cent during 1934 is the statement of Elmer H. Johnson, economist at State university.

There was a general decline of workers in Texas during February of about two per cent, although more employment than the same month a year ago.

Hereford city commission, taking the lead, has made a reduction on city water as a summer rate for property owners to encourage the growing of flowers and trees.

The Texas Livestock Sanitary commission is considering the building of a fence along the U. S.-Mexican border to keep tick infested cattle from crossing and infesting U. S. cattle.

Lubbock officials have begun a drive against alleged lottery systems in that city, also including confiscation of candy and other kinds of punch boards several have been arrested in connection.

The Wirt Franklin Petroleum Co., of Texas will spend \$300,000 testing out geological structures for oil in Roosevelt county, N. M., work with a big seismograph machine and test drill beginning there last week.

Duffy Morrison, 42, a Creek Indian worth \$1,000,000, but an invalid all his life, from infantile paralysis died at Tulsa, Okla., Thursday of last week without ever knowing what money was. He was never able to even move his arms or legs.

New Mexico had three governors last week. First Gov. Clyde Tingley went to El Paso to settle a strike difficulty making Lieut. Gov. Louis C. DeBaca temporary governor, then DeBaca was called to Colorado and Secretary of State Mrs. Elizabeth Gonzales, became acting governor.

The popularity of Texas as a Mecca for automobile vacationists from all parts of the country is indicated by a report just released by Conoco Travel bureau, a free branch service of Continental Oil Co. According to the report, 239,470 travel bureau tourists spent more than \$9,852,490 in this state last year.

Oklahoma wheat crop is estimated at 33,000,000 bushels, compared with 37,964,000 raised last year. Much wheat of this section thought to have been seriously damaged by recent sand storms is now said to have been merely sanded over and will come out alright.

Up to last week Deaf Smith officials had paid a bounty on 16,250 rabbits killed this fall during drives, at the rate of two cents each, a total of \$325.18. The bounty period paying time closed Monday, unless another extension is granted. Deaf Smith, Parmer and Castro counties are paying bounties on dead rabbits slain to protect crops.

**Growing Holly**  
Of the 300 or so species, American holly, Ilex opaca, is the most adaptable variety. It forms a fine pyramidal tree, frequently 40 feet high at maturity, and on estates where it has been protected for generations it will rise to 60 feet with a circumference of as many inches. The tallest broad-leaf natural evergreen for cold regions, it will thrive in the United States wherever rhododendrons and azaleas are found.

The hope of the world is not in the control of impulses, but in the conversion of impulses.

**In The WEEK'S NEWS**

**DEEPLY INTERESTED**—A group of socialites engaged in the play of the new game "Make-A-Million"; Sidney S. Lenz, Princess Olga Chagodeff, Baroness Carbonelli di Letino, and Signor Jose Capablanca—New York, Russia, Italy and Havana—enjoying the exciting pastime which has taken New York society by storm.

Peckhandle Lbr. Co. Muleshoe, Texas

**New Kidneys**

If you could trade your neglected, tired and busy kidneys for a pair of new, healthy, active kidneys, you would be glad to do so. Dr. Caldwell's Syrup Pepsin is the only medicine that can do this. It contains the most powerful kidney cleanser and restorer ever discovered. It relieves a condition biliousness, indigestion, constipation, and all the ailments that result from a clogged-up system. Must be up in 3 days or money back. At all drugists.

**Doctors Know!**

... and they use liquid laxatives

You'd use a liquid, too, if you knew how much better it makes you feel. A liquid laxative can always be taken in the right amount. You can gradually reduce the dose. Reduced dosage is the secret of real and safe relief from constipation. Just ask your own doctor about this. Ask your druggist how popular liquid laxatives have become. The right liquid laxative gives the right kind of help—without the right amount of help. When the dose is repeated, instead of more each time, you take less. Until the bowels are moving regularly and thoroughly without aid. People who have experienced this comfort, never return to any form of help that can't be regulated! The liquid laxative generally used is Dr. Caldwell's Syrup Pepsin. It contains senna and cascara, and these are natural laxatives that form no habit. It relieves a condition biliousness, sluggishness without upset, relieves your occasional upsets and discomforts, try Syrup Pepsin the druggist has it.

**GABBY GERTIE**

"A girl generally chooses the narrow path when she's driven to it."  
Kit Is Busy Again

Kit Klein of Buffalo, N. Y., who was the women's speed skating champion in 1933, is active in this winter's contests. At Newburgh, N. Y., she won the 220 yard dash in the Middle Atlantic meet, her time being 24 1/2 seconds.

**Father Sage Says**

Camp out when you're young. When you are older, you may not get the chance or like it when you do.

**Particle Attracts Particle**  
Every particle of matter in the universe attracts every other particle with a force equal to the product of their masses and inversely as the square of distances between them.

**These Added Touches**

These added touches will mean much to the enjoyment of your kitchen. Through our March offer you make a splendid saving by the purchase of this trio of useful appliances—an assurance of well turned toast, invigorating coffee and delicious waffles. Every appliance properly designed for long wear, finished in heavy, highly polished chromium plate, and fully guaranteed.

**The Lenox Toaster**

Toasts two large slices of bread at the same time. Finished in highly polished chrome plate. Four cool turning knobs—non-scratching fibre feet. Genuine Mica-core Heating Element.

**The Puritan Percolator**

Makes two to seven cups of delicious full-flavored coffee. New improved Never-Drip, easy-pour spout. Body of heavy gauge, seamless copper—heavily chromium plated inside and outside. Easy to clean—no cracks, corners or crevices.

**The Imperial Waffle Iron**

Heat-indicator shows when the iron is at the correct baking temperature. Pure die-cast, deep aluminum grids make large, full-size 7 1/2-inch waffles, creased for breaking into halves and quarters. Heating element is in direct contact with grids, assuring quick, even heat distribution and golden brown waffles.

The three appliances above by Royal-Rochester are fully guaranteed. During March this set of appliances may be purchased at the remarkably low figure of \$11.95 for the three—a tremendous saving. Terms as low as 95c down, \$2.00 per month on your service bill. Think of the innumerable occasions when they'll be appreciated.

There is no soda in soda pop. The effervescence is caused by carbonic acid gas.

**Progress News**

The Triple T club met at the school house Thursday afternoon, March 7. The afternoon was spent piecing quilts and copying recipes. Our next meeting will be the 21st. Everyone is invited to come.

The Progress boys and girls went to Y L Thursday afternoon and played basket ball. Both boys and girls came home victorious.

Church and Sunday school were well authorized additional bonds would have to be done at this session because any enabling constitutional amendment could not be proposed at a special session.

"I think the Legislature should study carefully the proposed state liquor monopoly because the people are entitled to know what kind of regulation will be planned if prohibition is repealed," he continued.

Mr. and Mrs. Virgil Stone and children Elva Lou and Bobby were visitors in the Everett Smith home of West Camp, Sunday.

Mr. and Mrs. Bob Jones of Friona, visited Mr. and Mrs. E. D. Chitwood, Sunday.

Rev. H. H. Copeland and daughter, Clara Mae, Mr. and Mrs. Orville Stone of West Camp were visitors in this community Sunday afternoon.

Raymond and Bill Chitwood left Sunday afternoon for Amarillo.

Mr. and Mrs. Harold Adair visited Mr. and Mrs. A. M. Gurley Sunday night.

The good rain and snow is highly appreciated by every one. All we want is more of it and a bounteous crop will be the result.—Reporter.

**West Camp News**

Most every one has a smile. Wonder why? Well we had a very nice snow in this community Monday.

Mr. and Mrs. Cortez and Raymond Waller, of Ft. Sumner, N. M. were weekend guests of the latter's parents Mr. and Mrs. B. Waller.

Mr. and Mrs. Harold Adair of Lariat, were Sunday dinner guests in the Chas. Seller's home Sunday.

Mr. and Mrs. Virgil Stone, formerly of this community are visiting relatives and friends here this week.

Those among the Clovis, N. M. visitors, Saturday were Mrs. J. R. Sheriff and daughter Miss Velva. Mr. and Mrs. E. L. Smith and daughters, Wilma and Naomi, Mr. and Mrs. Asa Smith, Bryan Smith, Sam Lindsey and Vernon Adair, Mrs. B. Waller, and Mrs. Edith Gurley.

W. B. McAdams the Mulshoe rural mail carrier on route two, was delayed several hours in this community Monday, on account of the deep snow drifts which rendered him unable to travel without assistance.

Johnnie Williams and wife left here Wednesday last week for Hollis Oklahoma, where their little son Bert, will be operated upon for appendicitis at a sanitarium there.

Saturday evening, also Sunday morning and evening, Rev. W. B. Wages of Lubbock will fill his regular appointment at the West Camp Baptist church. We extend a hearty welcome to everyone.—Reporter.

**MASONS HOLD MEETING HERE**

At the regular monthly meeting of the Masonic lodge here held last Tuesday night an entered apprentice degree was conferred upon a candidate, after which the lodge was thrown open and a social program enjoyed.

A feature of the program was the contributions of Rev. Haymes, Methodist minister from Sudan, also of Mrs. Joe Coventry, of Sudan. Mrs. Al Isaacs of Mulshoe, also gave readings. There were several talks from those present and various parts taken to complete the program by guests.

March 20 a special meeting of the Masons will be held to confer a Master's degree all Masons being urged to attend. Refreshments will be served.

**TUESDAY BASKETBALL GAMES**

Last Tuesday night at the Mulshoe High school gymnasium the girls of the Junior class played a match game of basketball with the girls of the Senior class, the Juniors being victorious 30 to 28. Miss Ouida Davis called the game.

Immediately following the girls game the Junior boys played a match game with the Senior boys. The Junior boys were victorious the scores standing 20 and 12 at the final wind up. Bill Garrett and Morris Garth called the game.

The Senior boys and girls will entertain the Juniors with a party in the near future, as results of the Juniors winning.

A good crowd attended these games, and no admission fee was charged.

**M. E. BROTHERHOOD SOCIAL**  
A social meeting of the Brotherhood class, Methodist church, was held, Thursday night of last week in the church annex 14 members of the class being present and an enjoyable evening passed.

J. S. Glasscock was toastmaster. Talks were made by Prof. W. C. Cox Rev. J. Frank Luker, A. W. Copley and others. Several games of different kinds were played and refreshments of cocoa and sandwiches were served.

**ALLER WOULD SPEED UP ACTS OF THE LEGISLATURE**

(Continued from page one)  
control set over until April. I asked a delay until the Legislature dealt with the interstate oil compact and gas wasteage bills."

He said he was studying the bill passed by the Legislature issuing the remaining \$3,500,000 of state relief bonds and expected to sign it if no serious flaws were found. With reference to future relief, he stated any authorization of additional bonds would have to be done at this session because any enabling constitutional amendment could not be proposed at a special session.

"I think the Legislature should study carefully the proposed state liquor monopoly because the people are entitled to know what kind of regulation will be planned if prohibition is repealed," he continued.

Mr. and Mrs. Henry Hanover are expecting a new V-8.

Otto Lancaster of Clovis, N. M. spent Friday night with his parents Mr. and Mrs. C. C. Lancaster and family.

Miss Fern Elms spent the weekend at her home near Littlefield.

J. P. Taretton is building a new house this week.

**Why the FORD V-8 is a Sensible FARM TRUCK**

Ford V-8 Trucks have a reputation for hauling more tons, more miles with more satisfaction and at less cost. Ample power, excess strength and remarkable ability of the Ford V-8 Truck insures continued performance on the toughest jobs.

On any road with any load Ford V-8 trucks are consistent profit earners because of these advanced features:

1. V-8 engine with 80 full horsepower
2. New forward load distribution
3. New, stronger front axle
4. Full-floating rear axle
5. Heavy duty four speed transmission
6. New, larger centrif-force clutch
7. Improved cooling
8. Comfortable, insulated cab
9. Rib cooled self centering brakes
10. Torque tube and radius rod drive
11. New spring suspension
12. New truck style—comfortable coupe type cab

Call any Ford dealer for an "on-the-job" test. You drive it with your own load and check the results. There is no obligation except to yourself.
