### BUMBLE BEE CAUSES AN ANXIOUS MOMENT

A bumble bee caused Mr. and Mrs. J. C. (Doc) Claborn several anxious moments Sunday afternoon.

They were enjoying a leisurely ride to Brownwood Lake. He was driving and had his left arm resting in an open window. The cool breeze was delightful. Then with electrifying rapidity he felt three painful stings from his forearm to his shoulder. The sensation resembled that of a hot branding iron stabbed against naked flesh.

Instinctively, the Higginbotham store manager grabbed the steering wheel with his left hand and crushed an insect between his thumb and forefinger of his right. But not, however, until the little intruder had inflicted one more stinging wound, this time on the forefinger which crushed out its life.

Having once seen a man in critical condition from a similar incident, Claborn decided to see a physician. After all, why take a chance?

The doctor looked him over carefully and remarked: "You're all right but you should have killed the bee."

"Here, you want to see him," replied Claborn, as he reached into a pocket and extracted something flat enough to have spent the last few years pressed between the pages of a heavy book.

### AGRICULTURAL FEAT ON COPPINGER FARM

Friends of Lewis Coppinger consider him an excellent farmer, however, additional evidence of that distinction was seen this week.

Sweet potatoes are customarily harvested in Autumn months throughout this area however, the Coppinger table had yams from the new crop Monday at noon. Another oddity at the Coppinger farm is the fact that blackberries are still yielding there, despite the fact that vines usually don't produce after June.

Candied yams and blackberry cobbler, both prepared from items picked fresh from the same garden, are regarded unusual here.

### PHILOSOPHER TAKES A LOOK AT FOREIGN AND THEN BACKS OFF IN CONFUSION

Editor's note: The Bayou philosopher on his Johnson farm on the Bayou takes a look at the world situation this week. He may need better glasses.

Well, what do you think Russia is going to do about West Berlin? ...

Understand, I'm not opposed to foreign aid, the last four Presidents we've had, from both parties, have argued foreign aid is cheaper than war, and a lot safer, and I imagine they're right, but I'm not sure we're making all our money count. ...

ever heard of Kuwon, since it was a word I made up on the spur of the moment.

"Don't laugh. I have a notion there are people in Washington who would fall for this too, and if somebody didn't stop them would vote for foreign aid for the fictitious place and then take off in an airplane hunting for it.

"Understand, I'm not opposed to foreign aid, the last four Presidents we've had, from both parties, have argued foreign aid is cheaper than war, and a lot safer, and I imagine they're right, but I'm not sure we're making all our money count. ...

"On the whole though the problem is too big for me and I'm happy to have somebody else making the decisions. ...

"Say, the joke sure would be on me if there is such a place as Kuwon. Is there?"

"Yours faithfully,

# How 45,000 companies help their employees buy security

The average American company is pretty busy tending to its own business. Yet many companies have sandwiched in a valuable service for their employees—the Payroll Savings Plan for U.S. Savings Bonds.

Through this plan, your payroll clerk sets aside a certain amount each payday for Bonds, buys them, and arranges to get them to you. It's completely automatic, and the easiest way in the world to save.

Save as much or as little as you wish

Employees can sign up to save as little as \$1.25 a week. The average among the more than 8 million folks on the Plan is \$20 a month. All in all, 45,000 companies help

their employees save about \$2 billion in Savings Bonds a year—a lot of future homes, vacations, college degrees, and nest eggs for retirement.

#### The security built into Savings Bonds

U.S. Savings Bonds are guaranteed by the Government to grow. \$18.75 becomes \$25 in 7 years, 9 months. In 10 more years, it becomes \$36.25. Your Bonds can be cashed in anytime, with interest. And if they're lost or destroyed, the Treasury Department replaces them free.

Every Savings Bond you buy is an investment in Peace. What better way to help your government help you enjoy the things you're saving for.

#### Hats off to American Industry!

"American Industry has given the Savings Bonds Program its greatest success," says William H. Neal, National Director of the Treasury's Savings Bonds Program.

"45,000 American companies have sold many billions of dollars in Savings Bonds—at no cost to the taxpayer," says Mr. Neal. "By operating the Payroll Savings Plan, these companies, big and small, are helping to keep our country strong. At the same time, they're helping 8 million people save automatically for the things they want. America owes a vote of thanks to these companies for their outstanding contribution to the 20-year success story of the U.S. Savings Bonds Program."

## FIRST SERGEANT LOSES BATTLE TO RED WASPS

A first sergeant seldom comes out second best in any entanglement, as any ex-serviceman will attest.  
 Such was the case at Lakewood Country Club here Saturday, however, as a Dyess Air Force "Top Kick" walked into a nest of red wasps. He suffered 10 stings in less time than it takes to salute a Second Lieutenant, but in best traditions of the military service the injury did not deter him from duty — that of caddying for a comrade in arms, Walt Melton, who went to the semi-finals of the championship flight before being eliminated.

## CARD OF THANKS

Having just passed through one of life's darkest shadows were constantly reminded of blessing of true and friends. Countless demonstrations of love and concern by many of you strengthened faith and provided stamina that sad experience.

Each of us gratefully acknowledges—and none of us ever forget—the many tributes done to make our burden able.

## \$20,000 Bond Vote Council Won't Call

Cross Plains City Council in regular meeting Tuesday night expressed the belief that calling a \$20,000 bond election at this time for improvement and maintenance to municipal utilities was unwise.

It was voted to execute a \$5,000 bank loan and devote that amount to repairs of the city utility systems.
