Bells will ring again Monday morning. The sound may be doleful to youngsters but the sadnesses of all will be those of the first time in their lives will not be wending schoolward. It is at a starkly sudden that the carefree childhood are over.

Some may sometimes seem and teachers a bit too devoted, but one doesn't have to be from the campus but while to realize what a experience it really is.

Back and bon voyage to those for whom Monday school bells hold a significance.

Mrs. C. H. Dawson Dies In Arkansas

Mrs. C. H. Dawson, a resident of Cross Plains the past 15 years, died early Monday morning in a Hot Springs, Ark., hospital after a lengthy illness. Funeral and interment services were to be held at Georgiana, Ala., her girlhood home.

News of Mrs. Dawson's passing was received in Cross Plains in a telephone call from her husband, who has been at the bedside constantly. She was taken to the Hot Springs Hospital last June 5 in a Higginbotham ambulance.

Mrs. Dawson, although confined to bed for the past several years, maintained a keen interest in affairs of this community. Friends recall that when misfortune and sorrow befell a local home, her telephone became busy in enlisting aid and rendering whatever service was within her power. Persons in necessitous circumstances knew her as a sympathetic benefactor.

Mrs. Hazel Dellridge and family of Wichita Falls visited in the home of her aunt and husband, Mr. and Mrs. J. B. Neeb here over the week end.

WEEKLY NEWSPAPER ADVERTISING PAYS — Representatives of American Tobacco Company, manufacturers of Lucky Strike cigarettes, said in a visit to Cross Plains this week that sales have boomed since the corporation began use of weekly newspaper space. The above photograph of W. T. Cox, standing alongside a display at his store on South Main Street, shows the type of merchandising being utilized to supplement sales efforts. Texas weekly newspapers were chosen for a "pilot" schedule by the tobacco firm and the plan is reported meeting with surprising success.

Work Starts At 3 Of 12 Sites For Retention Dams In Area

After three years of paper work and legal involvements, first steps toward actual construction on 12 flood prevention dams in the Cross Plains area is now underway.

Bulldozers moved on three sites last week and began clearing away brush, preparatory to core hole drilling. First work was done on sites two, three and eight. Site two is on the Floyd Odell place, 2 1/2 miles west of Cottonwood. Site three is on the Gayle Dean farm, two miles southwest of Cottonwood, and site eight is on the Damon Jones place, across the road east of East Caddo Peak.

All necessary legal work has been completed on three other damsites. They are: number nine on the Oliver D. Worthy place, two miles north of Cross Plains; site number four on the Will Varner estate, one mile north of Cottonwood, and site 10 on the Mrs. Augusta Koenig and Oscar Koenig tracts, southwest

of Cross Plains.

Only a single easement is required to complete legal work at each of three additional dam-

sites. They are those numbered five, six and 12.

Farmers Vote Tuesday On '62 Wheat Quotas

Callahan County farmers will join wheat growers over the nation Thursday, Aug. 24, in voting on marketing quotas for the ensuing year.

A two-thirds majority is necessary for carriage of the wheat stabilization program which includes price supports.

Voting boxes will be set up at five places in this county. In Cross Plains the polls will be in the City Hall. Other polling places are: Putnam, Shackelford's Store; Baird, the A. S. C. office in the courthouse; Eula, Farmers Store, and Oplin, McIntyre's Store. Polls will be open

from 8 a.m. to 6 p.m.

Any farmer with a wheat allotment of 13.5 acres, or anyone who has planted that amount of acreage to the crop in the past three years is eligible to cast a ballot.

If wheat marketing quotas are not approved by the necessary two-thirds majority, there will be no wheat stabilization program for 1962, no limit on marketings, and price support would be at the rate of 50 per cent of parity to cooperators.

All farmers who have produced more than 13.5 acres of wheat in at least one of the years 1959, 1960 or 1961 are eligible to vote in the wheat marketing quota referendum except those who have a feed wheat exemption in effect for the 1961 crop.

For 1962, the exemption for those who planted not more than 15 acres during any one of the three years 1959, 1960 and 1961 will be decreased to 13.5 acres. For those who have planted less than 13.5 acres during any one of these years, the exemption will be the highest planted acreage during any one of such years. Producers who have not grown wheat during 1959, 1960 or 1961 will not be exempt from marketing penalties if they plant wheat in the 1962 crop year without an allotment.

The 200-bushel exemption is permanently repealed. If allowed to remain in the law, it would permit evasion of the new exemption provisions in the 1962 wheat program.

The program increases the penalty rate per bushel on the farm marketing excess to 65 per cent of parity.

The previous law provided a rate equal to 45 per cent of parity.

Fred Stacy, Vernon Spencer and Glen Payne will supervise voting at the Cross Plains box.

Mr. and Mrs. R. D. Ulrey of Big Spring were guests in the home of Mr. and Mrs. J. B. Neeb here last week.

Mr. and Mrs. Bernice Foster and family of this city and Mr. and Mrs. Carl Smith and two sons of Rising Star visited in Dallas over the week end with Mr. and Mrs. George Webb Jr. and children and Bevelyn Foster. Tammy and Butch Webb accompanied them home for a two weeks visit.

It's 'Back To Books' For 540 Teachers, Students Monday

It will be "back to books" for 540 Cross Plains public school students and 42 teachers and school employees Monday morning.

The new term will get off to a fast start with all classes meeting the first day and a full work schedule being followed. Buses will operate on customary schedules.

Classes will begin at 8:15 a.m. and dismiss at 3:35.

Compulsory physical education will be a part of this year's freshman curriculum, in keeping with statewide regulation. The physical fitness and health course will henceforth be an additional subject for all students entering high school.

Lee, English, history and Spanish; Jack White, science; Terry Watkins, science and math and assistant coach; Bill Gunn, mathematics, physical education and coach; I. B. Loving, commercial subjects, history and driver education, and Wayne L. McDonald commercial subjects and band.

B. C. Godwin will devote a portion of his time to vocational counseling here as well as in other high schools of Callahan County.

Bus drivers this year will be: O. B. Switzer, Ira B. Tension, James Oscar Koenig, Boyd A. Luttrell, Beryl M. Lusk, W. G. Vaughn, Sam Balkum, Jess Flippen, Carl T. Champion and Charnel G. Hutchins.

Chief custodian will again be E. H. Oliver, who will be assisted by Tension, in addition to the latter's bus driving responsibilities.

Lunchroom workers this year will be: Mrs. Robert Brashear, Mrs. Arthur Burton, Mrs. Herman Harris and Mrs. Duke Mitchell.

Our Slumbering Colossus

(An Editorial)

Either world affairs are not as grave as the public has been led to believe, or at least two branches of our government are derelict in duty.

Americans appear willing and anxious to make any sacrifice to perpetuate their democratic way of life and guarantee freedom for their children. They have shared their food with underprivileged nations, dug deep into their pockets for tax dollars to elevate living standards in backward countries and offered no protest as their sons shouldered arms and hurried off to trouble spots around the world. These sacrifices are but a token of what average citizens are willing to accept if necessary.

Many are now wondering, though, if leaders in government could not set a better example by abandoning the "business as usual" attitude and getting down to brass tacks in preparedness. While Russia concentrates on only three objectives: heavy industry, scientific achievement and advances in education, America continues to outdo herself in the production of consumer goods, and promises greater benefits for everybody. More argument is heard in legislative halls for higher pay, shorter hours and greater subsidies than for training in civil defense, stockpiling foods and medicines to combat an atomic disaster, or accelerating educational programs of the young prodigies who might develop skills of earth-shaking importance.

This country sorely needs an "order of priorities" and someone to tell the people what is most urgent. There has, thus far, been an awful lot of talk and little accomplished, much money appropriated but little evidence of value received. The people are not to blame. If America is some day found wanting in her hour of need, it will be because duly-elected leaders failed to function while there was yet time.

The Colossus has slumbered long enough.

Court Talks Knocking Off Jail's Second Floor

Callahan County Commissioners Court expects to receive bids within the next 10 days for repairs at the court-

house and jail, for which \$50,000 worth of bonds were recently approved by voters.

Several proposals are being considered for jail remodeling. One plan calls for removing top story of the structure and erecting a new ground-floor cell block.

"We're waiting to see what the costs will be," said County Commissioner Claude Foster, yesterday.

Repairs for the courthouse building are more definite. Work on that structure will mainly deal with eliminating underground water which is said to be imperiling walls.

\$2,500 Fire Here Tuesday Afternoon

Fire of undetermined origin did approximately \$2,500 damage at the farm owned by Mrs. Jeff Clark, two miles east of Cross Plains, shortly before five o'clock Tuesday afternoon.

The alarm was sounded by Mrs. Leo Franke, who with her husband and children live on the place. Her attention was attracted by one of her children shouting, and when she first looked the average-size barn was enveloped in flames. Cross Plains Volunteer Fire Department responded to the call, however, the structure was beyond rescue when they arrived.

Mr. Franke said Tuesday night that he lost 300 bales of hay, 125 bushels of oats, about 20 bushels of wheat and 1,000 pounds of maize none of which was insured. A portion of the loss suffered by Mrs. Clark was said to have been covered by insurance.

C Of C To Hold Luncheon Tuesday

Next regular meeting of the Chamber of Commerce will be held one week ahead of customary schedule. It will be Tuesday noon of next week, instead of the first Tuesday in September.

Purpose for advancing the date was explained yesterday by Howard McGowen, C of C president, as being to permit business and professional men to pass on procedures for the organization to participate in a United Fund meeting to be held later in the day next Tuesday.

Fred Tunnell was in Brownwood Saturday afternoon.

Community Party Set At Burkett Saturday

Regular monthly community supper for the Burkett community will be held in the school building there Saturday night, Aug. 26.

The function will begin at 7:30 and an interesting program has been arranged. County Agent Ray Sims will be present and exhibit films.

"We're hoping everyone will remember the date and make plans to be present," said Mrs. Roger Watson, a hostess.

Damon Joneses Build First Atomic Shelter

Dangers of the Hydrogen Age have been put clearly in focus with the installation by a Cross Plains family of a blast and fallout shelter. Mr. and Mrs. Damon Jones of Cross Plains announce that the shelter has been completed at their store on North Main Street.

The shelter is the Dynamics Survival Unit manufactured in Abilene. The unit designed to withstand the tremendous pressures released in an atomic explosion, is built of fiberglass and steel-reinforced concrete. It has been engineered to meet civil defense standards for a maximum security shelter. Mr. and Mrs. Jones said that the shelter was designed not only for fallout protection but also as absolute blast zone protection. It may also be used as a storm shelter.

The two primary materials, fiberglass and concrete used in construction of the unit were selected because, according to Dynamics engineers, fiberglass affords strength equal to armor-plate steel to reinforce the concrete in the event that an earth shock cracks or damages the concrete.

The entrance tunnel is also

constructed of fiberglass to resist rust and corrosion. The blast hatch entrance is locked both from the outside and from the inside. The tunnel has a ladder molded into it. By civil defense requirements and criteria all shelters must have a right angle in the entrance way. This is to prevent the entry of radiation which only travels in a straight line.

Since it is possible to have debris cover the entrance of any shelter in time of a nuclear blast, it is necessary to have an emergency exit. The Dynamics unit is provided with an escape hatch for such an emergency.

The unit provides a "three-filter" activated charcoal air purification system with a positive-type air pump for pure air ventilation. Polyethylene is wrapped around the shelter for watertightness. The unit includes disposable sanitation facilities.

Design of the unit has given it the ability, tested by independent engineers, to resist impact pressures of 391 pounds per square inch. The average house will collapse under three to four pounds per square inch pressure.

If Claude Miller Says Horse Will Lay An Egg, Build Nest

How lucky can you get?

Claude Miller, former local resident who now operates a laundry at Andrews, recently attended the Ruidoso, N. M. Horse Races in company with his wife and Mr. and Mrs. Morris Odom of Cross Plains.

When the last race was run he went to the windows and collected on a quinela ticket. The two couples were about to leave the track when he startled the others saying:

"Hey, I had two tickets on that race and only cashed one."

Others told him that if he couldn't find it he was probably mistaken. He remained adamant.

Back into the stands the four went to look around the seats which they had occupied. His pockets were searched again but nothing

found. Others doubted that he'd had two winning tickets in the first place.

In leaving the grandstand for a second time the quartet waded through a litter of worthless pasteboard. And again the group was startled by a surprising statement:

"That's my ticket yonder," said Claude as he reached down and lifted an abandoned scrap from a floorfull of ducats.

Sure enough it was too. The second ticket—worth \$104—was cashed and three surprised people followed him to parked automobiles.

Rev. and Mrs. John Harper and two daughters, Ann and Sue and Mrs. Edwin Baum and daughter, Terry, Linda Whitton, Mickey Freeman and James Payne attended a district meeting of Methodist Youth Fellowship in Cisco Tuesday night.

Claude Foster Won't Run For Re-Election

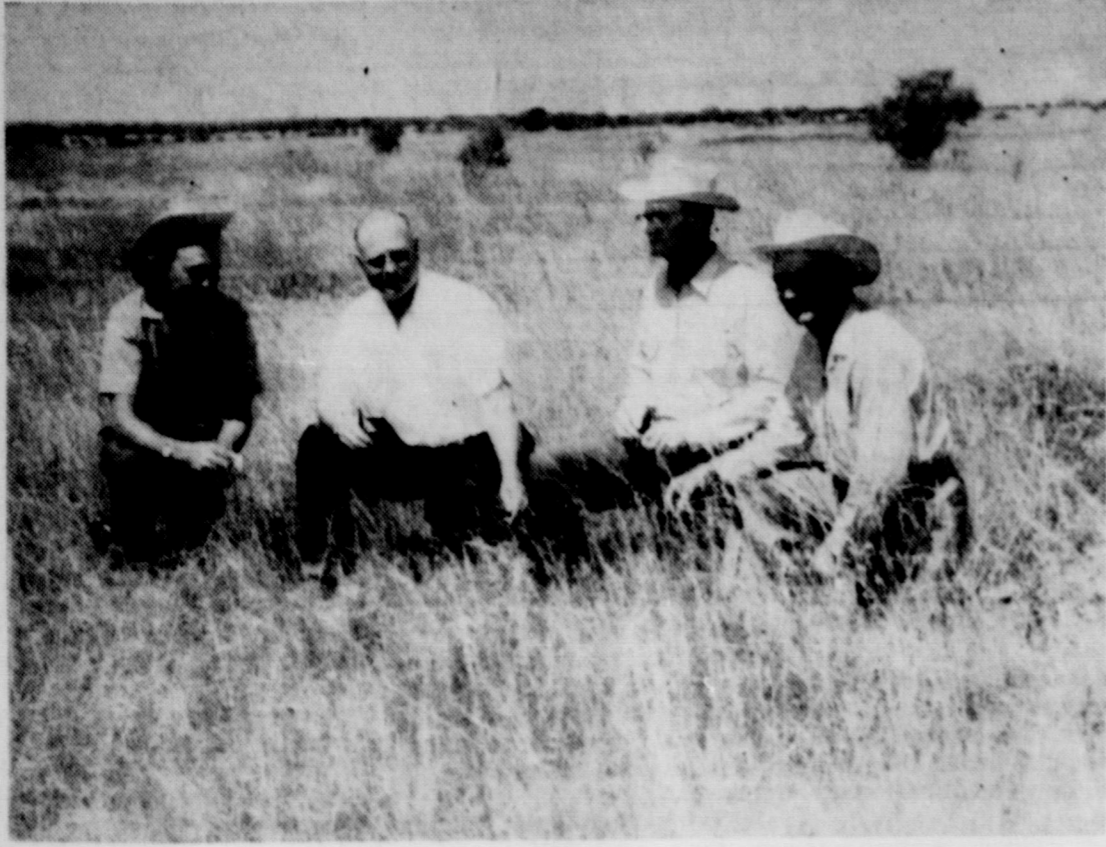

County Commissioner Claude Foster will not be a candidate for reelection.

Completion of his present tenure will round out 16 years of service to Precinct 4. He made his first campaign during the Summer of 1946, and was sworn into office Jan. 1, 1947. His present term expires Dec. 31, 1962.

"I'm grateful for the favors which have been accorded

me," Foster said Monday, "however I feel that the time has come for me to step aside."

Since moving primary election date from July to May, political plans now come to light earlier than heretofore. Announcement of Foster's retirement is expected to result in several entering the race, some possibly before first of the year.

CONVERSION — A few years ago the area where this quartet is kneeling was a bald, bare hilltop on the Weldon Edwards ranch south of Clyde. Using an SCD grass drill, Edwards seeded a mixture of KR bluestem, sideoats gramma and buffalo and got this excellent stand. From left, Edwards, owner of the ranch and SCD board secretary; Eldon Knox, Coleman, board chairman; Leon Copeland, Lawn, and J. W. Vance, Coleman, board members.

PHILOSOPHER ADDS TWO-BITS WORTH TO BERLIN CRISIS, BUT IT'S INFLATIONARY

Editor's note: The Bayou Philosopher on his Johnson grass farm on the Bayou discusses the Berlin situation this week, without making much of a dent in it.

"Dear editor:

"Right when people ought to be enjoying the closing days of summer, all you can hear from them is: What's going to happen over West Berlin and East Berlin?"

"Why, the newspapers are so full of the Berlin crisis even old fashioned ax murderers have been crowded to an inside page, and any robber who holds up a bank for only a few thousand dollars can't even get in the paper at all.

"But I've been viewing the Berlin situation this way: with so many brains at work on it in every corner of the world, I figure I can be excused from devoting my full time to it, although I'll admit that West Berlin's demand that the United States stop talking and start fighting over its plight has me puzzled. It hasn't been very many years since the same place was hollering that we ought to stop fighting and start talking.

"Now I'm not saying the situation could be any different. It's mighty easy to look back 15 years and say what we should have done, but I can look

out over this Johnson grass farm and list a dozen things it looks like I would have had sense enough to have done 15 years ago, but there they are, still undone. This goes for both the East side of this place as well as the West side.

"For example, while one of the problems in Berlin is the question of whether you can cross from the East to the West, my problem is that a cow can cross from either direction and leave the place altogether from all sides if she takes the notion. You might say that on this farm, a cow recognizes no borders and while I could shut the gate, it seems like a waste of time where the fences beyond the gate won't hold cows anyway.

"One advantage my cows have over people is that they don't recognize any political philosophies. I've tried dictating to them, but it won't work. Some day Mr. Khrushchev may find out the same thing about people.

"Yours faithfully,
"J. A."

Mr. and Mrs. H. McDonald of Silver visited here one day last week.

Mr. and Mrs. Ben Wagner and children visited here Wednesday of last week with his mother and brother, Mrs. Mary Wagner and Dick. The Wagners had spent a week's vacation at Padre Island and were enroute to Dallas to spend a few days before returning to their home in Vernon.

ATOMIC BLAST OR TORNADOES

WOULD YOUR FAMILY SURVIVE?

In event of a nuclear attack, not only would the blast be severe, but lethal radioactivity would fall over a vast area. There is no way to evacuate from deadly radioactive fallout. Current civil defense strategy advises the use of shelters as the only effective survival method.

The Dynamics Survival Unit provides safety in the blast area as well as protection from fallout. Installed below the surface of the ground this unit also gives COMPLETE TORNADO PROTECTION.

Roping Club Will Be Organized Here

Riders and ropers interested in forming a club to hold at least one local show each week are being asked to meet Friday night at Odom's Restaurant at eight o'clock.

Proponents of the club idea hope to improve facilities at the arena just west of the City Park and hold roping shows regularly.

"Remember the time and make an effort to be present," said Johnny Adair yesterday.

Mr. and Mrs. C. E. Bayley of Goldthwaite spent Friday night and Saturday visiting in the home of their daughter, Mrs. Jack McCarty and husband.

CARD OF THANKS

To the many friends who remembered me in so many ways during my recent stay in the hospital and since returning home, here's a genuine "thanks a lot" from and ol' boy who considers you the finest people on earth. Here's wishing every one of you the best and never an encounter with a haughty Holstein.

New . . .

A revolutionary approach to college finances, offering full-time students opportunities and privileges without "extra" costs, the new Comprehensive Curriculum will become effective at Howard Payne College this fall—offering privileges including the swimming pool, bowling alleys, visiting distinguished professors (Pitirim Alexandrovitch Sorokin and Mrs. Helen P. Sorokin in 1961-62), extra-course cost reductions, activity attendance (including Lone Star Conference sports events), cultural series, publications, hospitalization-accident insurance and many others. Part-time students may choose, at a nominal fee each semester, to take advantage of these same privileges.

Comprehensive . . .

A Texas Baptist school, Howard Payne helps students grow mentally through accredited work—socially through supervised organizational activities—spiritually through Christian emphasis in all areas—in responsible citizenship through the national-award-winning Democracy-in-Action program.

Urgent . . .

Expanding enrollment, together with an enlarged academic program and "stretched-to-the-limit" facilities, make advance reservations important for students wishing to enroll for the fall semester that opens September 12. Inquiries about enrollment should be filed immediately with Mrs. B. O. Herring, registrar.

Gulf Holds Edge In Bowling League Race

D. C. Lee Gulf team holds a four game edge in the race for the championship of the Cross Plains Bowling Club.

Although Gulf team holds an edge, there is a three way tie for second among George Hutchins Mobil, Johnston Truck & Supply and Ray Day Builder.

A play off could result if the Johnston five could sweep the final four games from Gulf. A three way deadlock is possible should either Mobil or Day whitewash the opponent.

Needham Sets Mark

Robert Needham, Mobil, unseated his teammate for high game honors last week with a 221.

Ted Souder, also of Mobil formerly held the high game mark of 215. Needham also set a new high average for a single series with a fine 574 total, and an average of 191 pins per game. Dick Grider of the Gulf quintet formerly held the record with a 529 series, average 174.

Top Bowlers

Benny Glover of Gulf owns the top average in the league of 145. Lucille Day of Day is the leading woman bowler with an average of 110. Jane Bonner heads the "most improved" list with a gain of 25 pins, but Charles Waggoner of Johnston is close behind with an increase of 23 pins.

Top Ten

Top 10 Bowlers in the league according to last week's play are Benny Glover, Gulf, 145; Raymond Franke, Mobil, 141; Ted Souder, Mobil, 138; Dan Johnston, 138; Robert Needham, Mobil, 137; Jim Gilmore, Gulf, 136; Dick Grider, Gulf, 135; Robert Eubank, Gulf, 131; Don Watkins, Day, 129, and Charles Waggoner, Johnston, 127.

Reorganization is planned by the club and there will be some vacancies which will have to be filled. Anyone interested should contact Jim Gilmore, Don Watkins or Benny Glover.
