Buffaloes Tackle Gorman In Saturday Night Game

Cross Plains Buffaloes take to the road again Saturday night for their last non-conference clash.

Gorman will host the Herd at 8 p.m. in the school's annual homecoming gridiron tilt.

The Panthers, of District 21-B, sport a 3-1 season mark but were picked to finish third in pre-season polls behind Rising Star and Bangs. However, the Panthers have been beaten only by a strong Ranger eleven this year and have chalked up victories over Graham's B and Center Robert Whitt, 155-pound junior, the latter two and Overstreet being 1963 all-district honorees.

Barring practice injuries the Buffaloes should be at full strength for the renewal of a rivalry after a few years absence on the slate.

Only four lettermen were lost from last year's squad which posted a lowly 1-8-1 record, but 14 returnees make Saturday's hosts an experienced and well balanced squad.

Much of the Panther offense is centered upon 190-pound senior Fullback Gary Overstreet, who runs with authoritative power. He also has been used on occasions to throw the ball. Jerry Ormsby, senior, and Daryl Hurst, freshman, are expected to share signal calling chores. The Panther line is anchored by Erd Tommy Kirk, 160-pound junior, Guard David Kirk, 150-pound senior, and Center Robert Whitt, 155-pound junior, the latter two and Overstreet being 1963 all-district honorees.

Newly-elected directors are: Blain Odom of Rowden, W. P. Stephenson of Eula, Tommie Harris of Cross Plains and Ira Akers of Clyde. Hold-over members of the directorate are: Robbie Hicks of Clyde, Earnest Franke of Baird, Douglas Frye of Putnam, Hadden Payne of Cross Plains and Hilton Tarrant of Eula, who serves as president of the corporation and chairman of the board.

A. G. Black of Baird is general manager.

Explanation Given Of Proposed Change For State's Constitution

Editor's Note: Texas voters will ballot on three proposed changes to the state constitution when they go to the polls for the General Election Nov. 3. A short summation of the first of these propositions is published here. The remaining two will follow in succeeding issues.

"FOR the Constitutional Amendment to remove the authorization to transfer not exceeding one percent annually of the total value of the permanent school fund to the available school fund."

"AGAINST the Constitutional Amendment to remove the authorization to transfer not exceeding one percent annually of the total value of the permanent school fund to the available school fund."

This proposal would amend Section 5 of Article VII of the Constitution to remove a provision that the Legislature may

transfer to the available school fund "not exceeding 1% annually of the total value of the permanent school fund."

This is the section of the Constitution which sets up the Permanent School Fund and the Available School Fund. The constitutional convention in 1875 conceived of the Permanent School Fund as a trust fund which would be created out of public lands. The Available School Fund was to receive the interest and earnings off the capital in the permanent fund, to which were added receipts from a poll tax of \$1 and other revenues. The Available School Fund was to be the source of all state aid to the public free schools. By means of these two funds it was expected that Texas would be guaranteed well-financed free public schools.

At present the Available School Fund is made up of current or annual revenues from many sources. In addition to interest and dividends and the poll tax money, there are paid into the fund receipts from a 35c state ad valorem tax, one-fourth of all the monies contributed by occupation taxes including gross receipts on petroleum and other products. It was the source of practically all state aid until 1949.

The Permanent School Fund is at present receiving the principal from land sales, royalties from oil and gas, coal, precious stones and other ores and minerals produced from public lands, and the money from the sale of sand and gravel off of school lands.

government bonds and some corporate bonds and stocks. The total investments and net cash balance of the Permanent School Fund amounted to \$475,287,645 as of Aug. 31, 1962. A year later they had increased to \$504,886,446, and by Aug. 31 of this year to 537,384,571.

During the 1880's it was realized that the Constitution's requirement for maintenance of public free schools could not be met out of available school funds. A constitutional amendment was adopted in 1891 authorizing the Legislature to transfer money from the Permanent School Fund to the Available School Fund. That is the provision which the proposal would repeal.

From 1892 to 1899 a total of \$1,336,461 was transferred. This was of little benefit to the

Available School Fund which was running large annual deficits. This fact and fear that the Permanent Fund might be impaired, brought an end to the transfers at that time.

In 1957 rising costs of education, combined with a tax squeeze, resulted in the use again of 1% of the Permanent School Fund to help pay costs of free schools. This was done in five different years, the last being the fiscal year 1962, when \$4,625,982 was transferred. It is interesting to note that this was only about 1% of the State's total expenditures that year of \$442,592,000 for support of public free schools and vocational education. This does not include state expenditures for teacher retirement.

Now, as in 1899, growing opposition has caused a halt to

such transfers from the Permanent Fund and the proposed constitutional amendment would remove all authority for any such transfers in the future.

Proponents feel very strongly that the state has been expending its capital and that this should be stopped. They argue that if additional money is needed for the Available School Fund it should be obtained from current taxation and that the state should carefully preserve and increase the trust fund.

Opponents of this amendment insist that the purpose of the present constitutional provision is sound; that even though use of money from the permanent fund in recent years may be thought unwise, the provision for its use in a real emergency ought to be kept in the Constitution.

De Leon Axes Herd 34-0 In District Opener Friday

De Leon Bearcats used speed, power and the air to hand Cross Plains Buffaloes their worst defeat of the season here Friday night 34-0 in District 10-A opener for both teams.

De Leon employed the speed of Halfback Bill Lamb power of Fullback Johnny Terrill and trickery and passing of Quarterback Gary Burleson, who gave indication of possessing plenty of power and speed of his own, in completely dominating the initial district encounter. The punchless Buffs were out-rushed an even 200 yards, 231 to 31, and the Bison aerial game was a failure in eight attempts, while De Leon connected on eight of 14 tries for 101 yards and eight points.

Out Front Early
Visiting Bearcats wasted no time in proving superiority by scoring with less than two minutes gone in the game. Burleson skirted left end for the counter from eight yards out following a stolen Buff pass by Center Westley Tucker. Terrill then swept right end for the two points.

Late in the initial quarter the first of five fumbles lost by the Herd set up De Leon's second tally. Burleson climaxed the 23-yard, five play drive with a rollout around left end. He passed to Lamb in the right flat for the two point conversion.

Cross Plains' lone bright spot came immediately after the second Bearcat TD. After a yardage-losing series the Herd punted, but picked up a loose oval on the punt and was aided by a 15-yard penalty. After a first down Lamb gobbled up another Buff bobble to end the threat at the Bearcat 18.

In the second stanza Burleson had a 63-yard touchdown run canceled by a penalty, and moved to the Bison 12 later before Herd defenders held.

Pad Lead
Taking the second half kickoff De Leon marched 65 yards in 10 plays for another tally.

Burleson sneaked over from the one, and passed to Left End Bo Shifflett for eight more points.

On the first play of the last canto Burleson found Lamb in the right flat for a 39-yard pass and run touchdown. Terrill knifed over left tackle for the two points. The score came on a five-play, 62-yard drive.

Score Safety
Midway of the final quarter Buff Quarterback was trapped in his own end zone by reserve Bearcats Bob Straub and Mike Hare for a two-point safety.

Twice in the final quarter De Leon moved inside the Buff 10 but defenders held and intercepted a stray aerial. Quarterback Donny Sharp had one touchdown called back in the second half.

Benny's Football Forecasts

Last week this department managed an even break in the games concerning 10-A and 11-B, getting two right and missing two. The two predicted easy choices were just that but the two thought to be trouble.

Our percentage dropped 14 points, back to 586, with the season record standing 17-12.

This coming week end all one of the four games are a family squabbles. The exception is the Cross Plains-Edwina tilt set for Saturday night at Gorman.

Predicted winners in bold type.

Eastland at Baird: The only clear-cut choice of this week's slate. Bears to break back into to win column, 32-6.

Ranger at Clyde: Battle of Bulldogs and it could be a real dog fight. Ranger lost to Cisco. Clyde beat Lobos. Home field gives Callahan team slight nod, 12-8.

Albany at De Leon: If up for game Bearcats figure in biggest upset of season and hand Lions first conference defeat in many years, 16-14.

Cross Plains at Gorman: Buff defense could be difference if punitive offense finds scoring punch. Panthers will be up for homecoming, 7-6.

Water Witching Explained

By H. V. Falkner

To acquaint the public with a better understanding of water witching, I wish to say that I don't blame anyone for not believing in it. It is, nevertheless, a fact that some men can locate underground water with a forked switch.

I have been water witching for 30 years and with the help of God have located a number of underground reservoirs in this area. The hard part is pinpointing veins for drillers to penetrate. If the water is trapped in sand or gravel it is easy but other types of formations are difficult, much like rifle shooting in the dark.

Water at depths of 15 to 30 feet will pull a switch strong even though there may not be a great deal of water there. Past 30 feet, though, I can tell more about it. All of the sheet-water spots are fed by strong nearby veins. In wet years you will have a good well in sheet-water, but in times of drought the supply will be less. It is like a creek in times of flood and in times of drought.

I wish I could pinpoint every vein, but if the water is not in sand or gravel this is impossible. I have missed 12 out of 77 wells and it really pains me to have this to occur. There are some circumstances, though, which are unpredictable and must be endured as occupational hazards.

There is no meter on the instrument which a water witch uses and neither does he have x-ray eyes. The estimates of the supply of water to be encountered is reasonably accurate and can generally be relied upon. This is hard work. I do it only to help neighbors and friends. The sciences of water witching is as old as the Scriptures. It is a gift that some men have had — and some have not — since the beginning of time. If I can help you I am delighted to do so, however, please realize there are limitations and problems which I cannot eliminate. (Pd. Adv.)

Pioneer's Many Events Keep Community Busy

By Mrs. Delma Dean

The Pioneer Community Club met in regular business session last Thursday and elected officers for the coming year. W. W. Parson was elected president, Ida Gray vice-president, Eula Fore secretary - treasurer, Jean Fore condolee, Ethel Brown chairman of the recreation committee and Ella Dean reporter.

Others there were Laverne Hutton and son, Lynn, Velma Brown, Dora Tate, Nell Fleming, Nettie Roady, Mrs. Jack Mitchell and Mrs. Beggs and little son.

We voted to meet the next rainy day, when the men can't work in the fields, and put up the rest of the sheetrock. The women will serve lunch to the men that will come and work. After we get that finished we will start our game night again. Our regular meeting day will still be the first Thursday of each month at 2 o'clock.

Dan Gaines was able to be back and fill the pulpit at the Pioneer Baptist Church Sunday. We were glad to have him and his wife back with us.

Ethel Brown visited with Mrs. Nettie Smith in Cross Plains Wednesday. Then Saturday she visited Mr. and Mrs. Nat Browning at Colonial Oaks.

Visitors in the George Scott home Sunday were Ray Barron and Elmore Kendrick of Clyde. Grandma Stover was able to be moved from the Rising Star hospital back to her home last week.

Mr. and Mrs. Spaulding of Abilene were dinner guests of Mr. and Mrs. Cowan Hutton and family Sunday.

Cowan Hutton, Jr., Morris Belew and a classmate of Fort Worth Christian College came in for the week end with their parents Morris and his friend attended a football game in Abilene Saturday night. Cowan, Jr. spent his time with his parents and family. They returned to Fort Worth Sunday afternoon.

Lorine Bryson had as dinner guests Sunday the Rev. Dan Gaines and wife of Abilene. James Williams and family of Abilene and L. D. Westerman and family of Cross Plains. Carol Westerman and Eula Fore were also guests.

Lige and Dora Tate have sold their place and will move to Ab-

ilene. We hope they will like their new location. They have lived in this community a long time. We will miss them.

Mr. and Mrs. R. L. Carey had lunch with Mr. and Mrs. Andrew Walker Sunday. They all went to Burkett Sunday afternoon to attend the golden wedding anniversary celebration of Mr. and Mrs. M. A. Walker, Andrew's parents.

Mrs. Anne Reeves of Tyler visited several days with her sister and husband, Mr. and Mrs. R. L. Carey. Mrs. Reeves took them to Eastland Friday where Mr. Carey received another physical checkup. They visited and dined with Mr. and Mrs. Jack Sherrill of De Leon. The Sherrills came home with them and stayed until after supper Friday night.

The Martins of Abilene, who play in the musical at Cottonwood, visited the Lynn Daniels Sunday.

J. T. Brown and family of Brownwood visited his parents, Mr. and Mrs. Bart Brown, Sunday.

Velma Brown was a business visitor in Rising Star Monday morning.

James and Wanda Cloud and son, Perry, have moved their trailer house back to Pioneer and Perry is attending school at Cross Plains. It was nice to have them back in church Sunday.

Leonard and Artie Fleming of Gatesville are spending part of their vacation with Mr. and Mrs. Joe Fleming and Jerry. They all visited Joe's and Leonard's sister, Mrs. Kate Watson, Sunday.

Mr. and Mrs. Jack Mitchell's children of Dallas, Mr. and Mrs. Jerry Barker and daughter, Missy, spent the week end with them. The Mitchells went to Ozona to see her son and family, Mr. and Mrs. L. Brown, Monday. Mr. Brown is pastor of the First Baptist Church there.

Janet Harlow and Cathy Anderson stopped by for a short visit with Pete and Jean Fore Sunday enroute from Lovington, N. M., where they had been visiting Janet's parents. Her father, Paul Harlow, had surgery recently, but he is doing fine.

'65 Chevrolet Impala Sport Sedan

'65 Chevrolet Impala

It's '65's biggest, most beautiful change. There's striking new styling, New length, width and lowness. A roomier new Body by Fisher housing an interior that's a knockout. And a more serene Jet-smooth ride with a new Full Coil suspension system. Fact is, if you overlook just one thing you can easily convince yourself you're onto a big expensive car here. And that thing is its Chevrolet price.

New Corvair Corsa Sport Coupe

'65 Corvair Corsa

There's never been anything like it from either side of the Atlantic. There's new thin-line hardtop styling for all closed models. More length and width, more entrance and shoulder room in all models. And a higher powered range of engines—with up to 180 hp available in the top-of-the-line Corsas. How sporty can a car get?
