Much in being shown in this section turkeys and chickens, and management is looking forward further cooperation of the businessmen and other citizens of Muleshoe to enable them to handle the successfully with the greater of birds expected to be exhibited this year.

MARGARINE BILL KILLED
conciliation committee of the Legislature, now in special session, unfavorably a bill to raise 15 cents a pound, increased tantamount to killing

Still Fighting

WASHINGTON • Oberlin M. rior, now 79 years old (above), his first chance in 37 years to at his charge officers have been unfairly railroaded out of a career by a corrupt court. He calls it the American "virus".

GRASSHOPPERS COVER DALHART

Dalhart and vicinity which last year suffered so dreadfully from sand storms, was last week visited by a deluge of grasshoppers, which it is estimated have already destroyed more than 3,000 bushels of wheat.

The hoppers are about two inches long and brown in color, it being said they eat out the heart of the wheat almost as soon as it sprouts up.

ARMISTICE DAY IS CELEBRATED BY LEGIONAIRES

Judge Thomas Principal Speaker, Music, Lunch, Many Guests

Armistice day was duly and fully observed in Muleshoe last Monday by members of the local post American Legion and members of their families, also a few invited guests.

Beginning at 10:00 a. m., there was a general visitation period until the noon hour, when a big dinner was served, all kinds of delicious food, most of it provided by ex-soldiers, but much of the delicacies the culinary handiwork of their wives.

"Chunky" Morris and his orchestra of "Hot Rocks" was on hand to furnish music for the occasion, there were several vocal quartets, also vocal and instrumental numbers by Miss Ely.

Hon. J. D. Thomas, Farwell attorney was the principal speaker of the occasion. From his remarks patriotic remarks and allusions to the definite occasion of the day, he stated that a new generation was now living that had not yet come into being when the Armistice was signed calling a halt to the World War. In fact, he stated, most of the high school pupils of today were then born. Recently he had made that test of his own high school and not a single hand was raised, indicative of the fact that they were living when the big light was closed across Europe.

Mrs. Curtis Taylor also spoke in behalf of the women, members of the local auxiliary, following which there was a drawing of lots for prizes. Mrs. A. S. Hill, Progress committee, received the beautiful rifle, while Mrs. A. J. Gardner and Jim Baker were each winners of a jacket.

The salute and the golf ball game, scheduled for the afternoon were called off because of the cold weather, but that evening most of the guests returned to the hall for the supper hour, at which time various plans were discussed for improvement of the local cemetery, members of the post having recently assumed charge of such work.

Bailey Co. Schools May Lose Much State And Teachers Aid

With every indication that Bailey county public schools have several thousand dollars state teacher and transportation aid this year, county Superintendent J. E. Adams, accompanied by W. C. Cox, superintendent of the Muleshoe schools, A. W. Copley, school board member, and Wm. Kennedy, president, Progress school board, met at Lubbock, Monday, meeting L. A. Woods, state superintendent of instruction relative to an adjustment of the matter.

It is stated the State is this year giving a stricter interpretation to the laws regarding furnishing funds for teachers and truck drivers than it has heretofore done, and that such interpretation may deprive numerous school districts of Northwest Texas not only of funds for employing teachers and truck drivers but, as a consequence of such failure, many small children not able to walk the minimum two miles required by law, may also be deprived of educational facilities.

1935 Red Cross Poster Invites Your Membership

THE \$7,008.83-WPA ROAD BUILDING PROJECT STARTS NEXT TUESDAY IN COUNTY, MANY MEN EMPLOYED

State Project On Same Road Totalling \$42,777 Also Expected To Begin Within The Next Few Weeks.

WPA project No. 2 for Bailey County, being improvement of the North and South road from Muleshoe toward the south county line will begin next Tuesday, Nov. 19, according to decision of the County Commissioners' court in special sessions held here last Saturday and Monday, these meetings being attended by W. E. Burke, field supervisor of the WPA office at Lubbock.

The work will begin at Needmore store, coming north to Muleshoe, and will embody expenditure of \$48,777.35 federal funds and \$3,231.48 county money for this road improvement which will include not only grading and drainage, but also a nine inch caliche base on which it is later expected an asphalt top coat will be run by the State Highway Department.

SENATOR NELSON PROPOSES A ONE HOUSE LEGISLATURE, 42 MEMBERS MEETING CONTINUOUSLY IN YEAR

"A two-headed snake was going to a creek to get a drink of water. Being in a hurry, it was not very observant of the dangerous path ahead and soon found itself caught by a twig, one of its heads on one side and one on the other. It was unable to get loose from its mooring and, after about 30 days, expired.

"That," Senator G. H. Nelson, from this the 30th Senatorial district, recently elected to succeed the late Senator A. P. Duggan, said, "is a fair analogy of what happens to laws the people want passed."

To make the state government more democratic, to simplify its workings so that the will of the people can be carried out with the least possible expenditure of funds, Senator Nelson believes Texas should replace the present Legislature with a unicameral body Wednesday of last week he offered a resolution in the Senate asking representatives to go on record favoring, at the regular session of the Legislature in 1937, the submission of a constitutional amendment to the people on the question of the adoption of a unicameral legislature. The resolution was sent to the State Affairs committee. Senator Nelson's proposal suggests a Legislature of 42 members, two from each congressional district, to be elected for four-year terms. One member

MAY EXTEND TELEPHONE LINE

E. C. Troup, district manager of Southwestern Telephone Co., was here last week, and in company with R. L. Brown inspected the district toward Lambddy, northeast of Muleshoe, and south toward Baileyboro, relative to running telephone lines into those sections. His reaction was very favorable toward the line to Lambuddy community.

COTTON FUTURE FORECAST DOWN FOR NOVEMBER

Figure Is Estimated At 11,141,000 Gin Report Announced.

A cotton crop of 11,141,000 bales of 500 pounds gross weight this year was reported Friday of last week by the department of agriculture as indicated from conditions Nov. 1. Production of 11,464,000 bales was indicated a month ago. Last year's crop was 9,536,000 bales; the 1933 crop, 13,047,000 bales.

Ginnings from this year's crop prior to Nov. 1 were reported by the census bureau to have totaled 7,749,635 running bales, counting round as half bales and exclusive of linters. Ginnings on that date a year ago were 7,917,671 bales; two years ago 10,355,021.

The indicated acre-yield of lint cotton this year is 186.1 pounds, compared with 191.5 a month ago, 170.9 last year and 177.1, the 1924-33 average. Ginnings in Texas to Nov. 1 were placed at 1,904,133.

NEW MANAGER TAKES CHARGE

W. P. Lee, of Lorenzo, recently appointed manager of the local lumber yard, Huginbush-Barrett Co., arrived here, accompanied by his family, Friday of last week and took charge of the business.

Mr. Lee is an experienced lumberman, having been with the same company for several years past. He is well known by some Muleshoe citizens well stationed with this company at Levada and a few years ago. He expresses himself as greatly pleased with his new location and the acquaintances he is rapidly forming here.

Mr. C. Walden, former manager, with his family left Friday for Carnegie, Okla., where he has been transferred by the same company.

PLAINVIEW VOTES DOWN BONDS

Plainview voters last Friday voted 119 to 90 against issuance of \$55,000 in revenue bearing bonds proposed to meet the city's obligation for a proposed additional improvement of that city's waterworks system, only 208 votes being cast.

Bailey Co. Citizens Take Part In State Centennial Contest

That Bailey county home owners will participate in the Centennial Farm and Home Demonstration contest being held under direction of the Dallas Morning News and Texas Extension department, and being directed in this county by the farm and home demonstration agents, is information coming this week to the Journal.

CORN-HOG PLAN EMERGED SAT'Y QUOTA IS OK'D

Production Up, Five Specific Points Are Disclosed.

A new corn-hog program—intended to speed up hog production next year to quiet consumers—emerged here Saturday from the conference between farmers and AAA officials.

Final details will be arranged by the officials but the major outlines were sketched in recommendations of farmers and extension workers from 25 States. Gerald B. Thorne, chief of the AAA division of livestock and feed grains, said the program favored by the farmers was satisfactory to the Administration.

Chief among the changes suggested from past control programs was a new method for paying credits on hogs. Heretofore the AAA has paid farmers a certain amount per head for keeping their commercial hog production a required percentage under the 1923-33 average production.

Under the plan now brought out, farmers will be paid about \$2.50 a head for all hogs they raise, up to 50 per cent of the number they produced on the average in 1923-33. That would mean that a farmer with a base of 100 hogs, who is to be paid \$150 for limiting his production this year to 50, would be paid \$125 in 1935 if he grew 50 or more hogs.

The conference also voted to permit production to expand to 100 per cent of the 1923-33 advance, but few farmers outside of the Eastern Corn Belt are in position to reach this figure. Penalties will be provided for contract signers producing more than the 1923-33 average next year.

AAA officials believed the 100 per cent limit next year and the payment for hogs produced would help to stimulate production. They suggested that the corn control phase of the program to prevent a runaway expansion of corn acreage next year, which they said would be a stimulant to too large a hog crop in 1937.

The two-year contracts will leave the way open to AAA officials next year to order such adjustments for 1937 as seem desirable.

Under recommendations of the farmers and extension workers, the new two-year contracts would contain the following major features for next year:

1. Contract signers would be required to hold their corn acreage from 10 to 30 per cent below their 1923-33 average acreage.
2. They would be paid 35 cents a bushel for the estimated yield of the acreage withheld from production.
3. They would be required to grow at least 30 to 50 per cent of the acreage possible after selecting their reduction.
4. They would be required to put the retired acreage into soil-conserving or erosion-preventing crops.
5. They could produce as many hogs as their average in the 1923-33 period and would be paid about \$2.50 a head for all produced up to 50 per cent of the average 1923-33 production.

Under these plans, corn-hog officials hope to withhold 10,000,000 acres from corn next year compared with about 11,500,000 this year and to increase pork supplies about 30 per cent above this year.

KIWANIAN NAME OFFICERS

At the regular meeting of Kiwanis club last Friday, Connie Gupton was chosen president, R. L. Brown, vice-president and Ray C. Moore, secretary-treasurer for the fiscal year.

Talks Social Credit
NEW YORK... The success of the Social Credit party in the recent Alberta, Canada, elections brought The very Rev. Hewlett Johnson, D.D., Dean of Canterbury, England, (above) to America, supporting the movement by lectures in Alberta and New York on "Social Credit and The War on Poverty".

MODERN RIDING LUXURY

The new Ford V-8 brings you more than mechanical excellence. In it you find dash and spirit, beauty and good taste. These qualities are immediately apparent, but only when you ride in it do you realize what modern riding means.

Rear compartments are roomy, designed in every detail for comfort. Your position at the wheel is most natural and steering is practically effortless. Your first "center-poise" ride will inspire you to say "Here is a car made to order for me."

SENIOR EDITION
Seniors of the Senior Class

A member of the senior class am I. In school at dear old Muleshoe High. The seniors, we've fought through thick and thin. Which makes us feel that we're kin.

The number in our class is twenty-eight. And we're looking to the date when every one will reach the pleasant goal. To find diploma there to hold.

The teachers Boone and Beaty, Ely, Fort. Efficient ladies for the sport. The Messers Morgan, Powers, Stevens, Cox. Attempt to make us work as clocks.

And when we finish this useful course. The seniors find another source. To work and make the world to know. The graduates can make a show.

Pep Squad
We, the pep-squad, are all very proud of the football boys. We have been fully paid for all our yelling and loyalty.

The Texico-Muleshoe game was a cinch from the beginning, after we saw Woodie plowing through those eleven giants like nothing was there. So boys if you do go to district remember the pep-squad still believes in you.

Civics Inspiration
Mr. Cox put some inspiration in some of the civics students the other day. He explained the possibilities of becoming a secretary of an ambassador or minister.

If a person prepares himself for a job, he not only receives a high ranking position, but exclusive living quarters, ample salary, and an annual vacation. He also attains a high social position and has the honor of representing his country.

So be prepared, we may have some thirty five seniors to be proud of yet.

Senior Program
A program was presented in general assembly sponsored by the seniors in a radio studio fashion. Songs and piano solos were presented by the talented seniors, also jokes were told about some of the students and members of the faculty. Rev. Laker, presented a very good talk which was enjoyed by the entire student body. Finally Mr. Stevens, our permanent speaker, entertained the remaining time.

Muleshoe Yellowjackets Rank High In Conference
In a district meeting of the football coaches at Lubbock, Thursday Nov. 7, Morton was declared district champion by a lead of only one-half game over Muleshoe High school.

The Yellowjackets are to be commended, for they defeated the Springlake team which defeated Morton their last game.

The early season fumbles caused the Yellowjackets much trouble but they staged a fine comeback by winning the last three consecutive games by large scores.

Muleshoe-Texico Game
Friday, Nov. 8, the Yellowjackets finished the football season with a smashing victory over Texico, N. M., the final score being 24-0.

Fine teamwork was displayed throughout the game with exceptional ability being shown by the Sophomore rookies.

The Bray wishes to acknowledge its appreciation and to commend the following players for the teamwork and sportsmanship they have shown

during the season: Curtis Spivey, Ben Beaty, Ralph Border, Sonny Griffiths, Raymond Brooks, Woodie Lambert, Bill Falkner, Houston Hart, Frank Prescott, Delbert Parsons, Odis Rollins, Charles Alsop, Harvey Lee Bass, Walter Brooks Winn, Horace McAdams, Roy Elrod, Bobby Olmes, Martin Hill and Myron Bayless.

Mr. Stevens and Mr. Davis did a fine piece of work with the football squad this year.

Boys Basketball to Start Nov. 12
Coach Stevens sounds a call for the basketball aspirants to meet Nov. 12. The season promises to be exceptionally interesting with the following material: Neal Prescott, Frank Prescott, Woodie Lambert, Bill Falkner, Allan Harris, Don Moore, Henry Carpenter, Odis Rollins, Ralph Border, David Border, Raymond Brooks, Curtis Spivey, Joe Bill Alsop, Houston Hart, Sonny Griffiths and Delbert Parsons.

UNION LEAGUE MEET AT BULA
Sunday afternoon at the Methodist church at Bula a union Epworth league meeting was held, with 80 members in attendance.

Representatives from Littlefield, Amherst, Needmore, Earth, Spring Lake, James Chapel and Muleshoe were present.

The business meeting opened at 2:30 o'clock and members from the Muleshoe league presented a program. The devotional was then held, after which delicious refreshments of hot chocolate with marshmallows and cookies were served.

The next union meeting will be held six weeks from last Sunday at the Methodist church at Earth.

These from Muleshoe who attended the meeting at Bula were Misses Mary Holt, Haze Nelson, Twyla Farrell, Margaret Copley and Cecil Speare, Alvin Farrell and Cloyd Skeeters.

MRS. LINTHICUM, FARMER
Mrs. L. B. Linthicum, old time settler residing in Bailey county west of Muleshoe who, years ago won her agricultural laurels and is supposed to have retired from direction of the plow and mowing machine, but who is still actively farming, last week sent into the Journal office a sample of some grain, said to be a cross between milo maize and kafir, each head weighing more than three-quarters of a pound. It is of a beautiful golden color resembling the maize but the grains resemble more of the kafir nature, though much larger. Heads are all uniform and well filled with plump grain from base to tip.

Notwithstanding it is coming winter and frost has been on the pumpkin, Mrs. Linthicum also has roastings and watermelons for table enjoyment.

FIRST SNOW FALLS SUNDAY
Snow and lower temperatures were the lot of South Plains areas the first of this week.

Friday night of last week there was rain, about one-quarter of an inch in Muleshoe and vicinity; but much heavier farther east.

Saturday afternoon the thermometer mercury began dropping. Sunday afternoon was considerably cooler, that night dropping in the region of 20 degrees above the zero mark, the ground being covered with snow Monday morning, the snow continuing until nearly noon, when thawing set in, and by night it was nearly all melted from off the ground.

Monday night there was a heavy frost, and the temperature was again considerably lowered; but not so low as following players for the fine teamwork and sportsmanship they have shown

Wears Mark of Master Craftsman

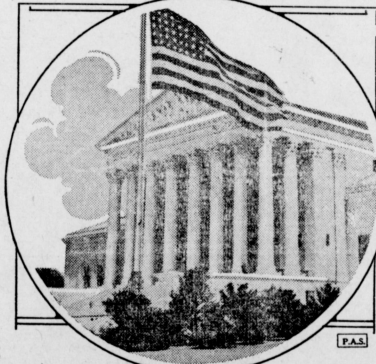

DAVID TENNANT, 19-year-old London, Ont., youth recently elected international president of the Guild Alumni, receives the badge of office from Raymond S. Doerr, 23, of Battle Creek, Mich., retiring head of the organization, which is composed of the 45 scholarship winners in the model coach-building competitions conducted by the Fisher Body Craftsmans' Guild since 1930. Induction of the new officers took place at the fifth convention of the General Motors-sponsored educational foundation, held in the City of Quebec.

President Expects Landon to be 1936 Opponent

DENVER . . . In a conversation with mid-western state Democratic leaders, while enroute to the coast recently, President Roosevelt indicated, indirectly that he expected Republican Governor Alf M. Landon of Kansas to be his opponent in the November 1936 Presidential election. The conversation occurred on the Presidential special between North Platte, Neb. and Cheyenne, Wyo. On the train were U. S. Senators Adams and Costigan and Gov. E. C. Johnson of Colorado and a group of Wyoming leaders.

The \$20,000,000 Home of the U. S. Supreme Court

WASHINGTON . . . A view of the imposing twenty million dollar home of the United States Supreme Court, the Corinthian marble temple erected by the government to house the Justices. At its formal opening this week it was dedicated to the philosophy of equal justice under law.

Mrs. Thomas A. Edison Now a Bride

HOT SPRINGS, Va. . . Mrs. and Mr. Edward Everett Hughes (above), are spending their honeymoon here. Mrs. Hughes is the widow of Thomas A. Edison, famous inventor. Mr. Hughes of Franklin, Pa., is a retired steel executive. They were neighbors and childhood sweethearts at Lake Chataqua, N. Y. in the 1870's.

HOME DEMONSTRATION NEWS

By MISS ALMA STEWART
Home Demonstration Agent
Bailey County

Don't Miss Achievement Days
Each Home Demonstration club in the county plans to show what their farm food supply demonstrator has accomplished. There will be a contest to see which club has the most people attending these programs. The public is invited. Exhibits of other accomplishments of the club will be on display. A short program has been planned for each. Two will be held each afternoon beginning Nov. 15. Some of the dates had to be changed. Dates for the programs are as follows:

Nov. 15—Progress, Mrs. R. T. Jenkins, 1:30 p. m.; West Camp, Girls and Women, Mrs. E. L. Smith, 3:15 p. m.

Nov. 18—New Bula, Mrs. G. V. Davis, 1:30 p. m.; Bula, Girls and Women, Mrs. J. A. Nichols, 3:15 p. m.

Nov. 19—Joyland, Mrs. Albert Simmons, 1:30 p. m.; Circleback, Mrs. Walter Dammor, 3:15 p. m.

Nov. 20—Enochs, Mrs. E. N. McCall, 1:30 p. m.; Watson, Mrs. A. Neufelder, 3:15 p. m.

Nov. 21—Muleshoe, Mrs. R. L. Jones, 3:15 p. m.

Nov. 22—Goodland, Mrs. L. D. Sanderson, 1:30 p. m.; Maple, Girls and Women, Mrs. W. M. Holloway, 3:15 p. m.

Nov. 25—Baileysboro, Mrs. W. O. McCrary, 1:30 p. m.; Longview, Girls and Women, Mrs. Winford Young, 3:15 p. m.

Likes Sub-irrigation
"If I plant my tomatoes on sub-irrigated soil I feel sure I will make a lot," said Mrs. R. L. Jones, farm food supply demonstrator of the Muleshoe Home Demonstration club. Mrs. Jones planted cucumbers on sub-irrigated soil this year and made more than she ever before. She used all she wanted, and some and gave business away.

Lives At Home
We buy all our food and clothes with our produce. We have 890 state certified White Leghorn hens. When the state culler left last year we had 240 hens and, have raised 150 pullets this year," said Mrs. Winford Young, farm food supply demonstrator of the Longview Home Demonstration club.

"In hatching season we sell \$27.50 worth of produce each week. We usually sell between 60 and 70 dozen eggs each week. I have 200 containers of food canned this year and will have to buy very little next year. We have nine hogs and plan to kill all we need and sell the rest. We expect to can a beef."

Beef Cutting-Canning Demonstration
A demonstration on killing, cutting and canning a beef will be held at the home of Mr. and Mrs. W. B. McAdams, near Muleshoe, Monday, Nov. 25. J. B. Waide, Jr., will be in charge of the killing and cutting, and Miss Grace I. Neely, food preservation specialist from A. & M. college will give the canning demonstration. One man and one woman from each community in the county will be expected to attend and later give the demonstration in their respective communities.

STATE HIGHWAY 7 FINISHED
Friday of this week is to mark completion of paving of State Highway No. 7 through Farmer county, which means its completion from the New Mexico line through here to Lubbock and on south, according to announcement made by the contractors.

For the past three years travelers on this highway have been more or less embarrassed by detours on this particular highway; but now they can spin right on into Fort Worth or Dallas without having to go around a single unpaved portion, an all-weather topping being provided throughout. Traffic over this particular highway will not be greatly increased, it is said.

MOVE RESETTLEMENT OFFICE
The government regional resettlement office of Oklahoma and Texas, formerly located at Stillwater, Okla., is to be moved to Dallas within a few days, according to announcement, because the latter place is said to be more centrally located for transacting such business.

A PARADISE

The wonders never cease. Wh appealation to He months ago he he was starting. Last Sunday ter and her husband a diningroom carrying a : tween them which they chair beside her after's a long handed spoon table beside it. Of course, prised; but Howard explained particular egg was not la hen, rather by eight he they had been a week-doi was a kind of joint sto of the hens, and Howard the co-operative action c farmers under the Pan- pump had proven just a the work of a group of the fiency.

After breakfast Dad st lock over the place and ard several new bulb one being used for a bar and said there wasn't a f in it. It was all grown ri the place. It was mostly pumpkin, he having cut a the end to let the stock i juicy stuff of the pumpkin there, and Howard expl when he got through wor this winter he'd just shut up in there and forget all until crop planting next s the plenty of food and t the pumpkin to care for th ter.

Horseshoe Pitchin
The rule in horseshoe pit if both contestants have an equal distance from or against the stake or ri shall be counted as tie n closest shoe shall score. Four shoes are in or an equal from the stake, our i score shall be recorded; the who pitched last shall be av lead.

It is... shown in the results of a survey made... by "Banking," the monthly publication... of the American Bankers Association... City and county districts in every state... are represented. It is pointed out... "The outstanding conclusion is that... there has been a genuine nation-wide... improvement the last few months in... the attitude of the public toward its... banking institutions," the publication... says. Statistical evidence on which... the bankers base their conclusions... warrant this statement is as follows:

The Evidence — "How do you know there has... been an improvement in the public... attitude? They have certain statistical... evidence. They have seen their deposits... increase substantially in nearly all... cases reported, and tremendously in... some cases. Many letters tell of in-... creases of 100 to 200 per cent from... the low point of the panic.

"Another thing they know that... fewer people are using safe deposit... boxes as a repository for their savings... and that, in many instances at least... , banks are getting a tremendous... "However, many express the view... that they could throw out the statisti-... cal evidence and still realize that the... public is in a better mood toward... the banks are concerned than before... The best evidence offered on this point... numerous bankers say, is to be found... in the fact that in 1935 many of the... newly instituted service charges and... the reduced deposit interest rates."

A Summary of the Returns — The statement presents the following... summary of the survey:

"We find on breaking up the general... classifications of replies to the poll... that the 65 per cent of those answering... with an unqualified 'yes' represent only... a partial measure of the optimistic... feeling. Adding the favorable replies... included in other groups, (i. e. 'yes'... with qualifications, 'no change,' and 'mixed')... we find that the total number of... healthy situation in 84 per cent of... the localities reporting; at least... signs of improvement in another 12... per cent; a continuance of unfavorable... conditions in 2 per cent, and a change... for the worse in another 2 per cent... It is not too much to say that this is... substantially 96 per cent favorable."

Reasons for Changed Public Opinion — As to reasons for the change in... public opinion regarding banks reported... by the clearinghouses "more than one... organization has a word to say about... the American Bankers Association... advertising and educational material,"... the magazine says.

It mentions in addition the benefits... of the Federal Deposit Insurance Cor-... poration in the emergency, improvement... in the general business situation, the... weeding out of weak banks and the... banking moratorium.

"The response to the survey can be... put down as encouraging and informa-... tive," the magazine concludes. "It holds... out the definite hope that with a... continuance of a cooperative, educational... attitude on the part of the bankers... the rest of the journey back to normal... may well be completed in the not too... distant future."

BANKERS ACTIVE IN SOIL SAVING MOVE

Issue Book Describing Causes, Ravages and Means of Prevention of Erosion

MADISON, Wis.—Under the title... "Protecting Investment Values in... Land," the American Bankers As-... sociation Agricultural Commission has... published a booklet dealing with the... conservation of soil resources as a... pressing national problem.

"Careful estimates indicate that 750... ,000,000 tons of soil, suspended and... dissolved, are carried off to the sea... each year by running water," the... commission's book declares. "An equal... amount removed from its source is left... on route. This means a total of 1,500,000,000 tons... equal to approximately one ton for... each acre of land in this country. The... Soil Conservation Service estimates... that 35,000,000 acres have been ruined... "There are 125,000,000 more acres... that have lost the valuable topsoil, and... it is estimated that still another 100... million acres are being converted into... marginal or sub-marginal land, bring-... ing disaster to those trying to eat out... a living from erosion-enriched soil... and threatening ruin to the next... generation, since these destructive forces... are going on at an increasing rate."

In a chapter devoted to control and... preventive measures for soil losses it... describes terracing, strip cropping... wind erosion control, gully control... and the control of losses from leach-... ing. Other chapters are devoted to soil... resources, the toll exacted by soil... erosion, methods for keeping soils pro-... ductive, state and national uses for... non-agricultural land, forestry in a soil... conservation program and wild life in... a land use program. The booklet... describes in detail the marshalling of... many forces which is being brought... about under the leadership of the Soil... Conservation Service to meet this national... problem.

What's Happening In Washington And Other Cities Of Importance

President Roosevelt has signified he will visit the Texas centennial at Dallas next June.

Rural electrification loans totaling \$1,274,000 for 4,000 farms have been approved to date, some of the lines having already been built.

U. S. Senator George W. Norris of Nebraska, has announced he will retire from political service when his present term has expired.

The State of Kentucky has repealed the prohibition amendment by a majority exceeding 90,000. It is said this will mean immediate expansion of the state's \$106,000,000 distilling industry.

W. A. (Billy) Sunday, well known Presbyterian evangelist, died Thursday of last week at Chicago, of angina pectoris, at the age of 72.

Four armed bandits, one having a machine gun, robbed the National bank at Prospect, N. J., of \$18,000 Thursday of last week, making good their getaway.

The Santa Fe railway system, along with other railroads fighting encroaching passenger business done by buses, has purchased a bus line, one of the largest operating in the State of Kansas.

Building of the Conchas dam, near Tucuman, will be done entirely by Federal funds, according to Gov. Clyde Tingley, of New Mexico, who says that all private subscriptions for that purpose will be returned.

When Sarah B. Hathaway, 83-year-old Milwaukee spinster died, she specified that her entire estate of \$40,000 should go to 18 cats, and it was so ordered in court, cat administrators being duly appointed.

The states of N. Carolina, Mississippi and Connecticut were last

week entirely taken off from federal relief. Other states not now having federal relief are Alabama, Indiana, Nevada, New Hampshire, Vermont, Wyoming, Maryland, Delaware, South Dakota, Rhode Island, Georgia, Iowa and New Mexico. Texas is expected to be off relief this month.

There were 175 homes found unfit for occupancy, while many more were more or less seriously damaged, also many business houses, following the series of earthquakes at Helena, Montana two weeks ago.

A machine gun gang of at least five robbers, firing shots and shouting threats of death, held up an Erie railroad passenger and mail train Friday of last week near Garrettsville, Ohio, as it stopped for that station, boarded a mail car and looted it of pouches containing \$45,000.

General News Over Texas And Adjoining States For The Week

WPA projects of various kinds totaling \$30,000 have been approved for Hockley county.

There are 21,920 telephones in New Mexico according to a recently completed survey.

Citizens of Pampa last Saturday voted \$50,000 bonds for building a high school addition, \$90,000 PWA grant having also been made.

Since Taylor county this state began offering a bounty for the killing of rattlesnakes last April 1, 2,733 reptiles have been killed and turned in.

Texas Baptists convention assembled at Houston, unanimously decided gambling, legalized liquor and war, pledging their efforts against all three.

A safe belonging to the R. L. Bowers Grain Co., at Brownfield was blown open last Friday night and \$30 in cash and notes valued at \$7,000 taken.

More than 12,000 cars, containing over 60,000 passengers have visited Palo Duro canyon state park to date this year.

The Texas pecan harvest is now in full swing, the largest crop in many years, the association now selling them at 4 1/2 cents per pound.

Under direction of E. R. Bateman, farm agent of Farmer county, 10 "ditch sites" have already been dug and filled with feed, and many more are in process of construction.

Cruero, well known turkey-raising center in Texas, will market about 165,000 range grown turkeys this year, estimated at 2,900,000 pounds, for which the growers expect to receive \$500,000.

J. R. Paul, a station chiropractor, was last week sentenced to pay a fine of \$50 and spend one minute in jail, by County Judge Pitts of Lubbock county. This is said to be the shortest jail sentence on record.

Two tornadoes striking north of Muskogee, Okla., last Saturday, one of them at Porter, the other at Wagoner, damaged property over an area of 30 miles, several people being more or less seriously injured.

Randall county, taking the lead on gathering data, reports 23,233 quarts of canned food valued at \$4,730.40 have been added to the pantries of 130 home demonstration club women during the coming season now closing, also, \$2,072.69 worth of dried or cured products, cheese and lard have been added.

Sinking of the Sultana — In the spring of 1856 the federal transport Sultana was hastily engaged carrying the released federal soldiers from Vicksburg to their homes. On April 27, 1856, she arrived at Memphis. While steaming along some 90 miles above that point her boilers suddenly exploded and she sank almost immediately. She was carrying 2,154 perished Union soldiers. About 1,900 perished.

HOLTS GET DIPLOMAS — Clyde Holt, of Morton, H. C. and Horace Holt, of Muleshoe, received diplomas in first-aid work of the Pan-handle Refining company at a meeting held last Wednesday night in the banquet room of the Hilton Hotel at Plainview.

Thirty representatives of the company were present at the gathering, representing the West Texas district. It was a combined meeting for first-aid and safety work as well as a lube oil conference.

The only complete low-priced car

Be Safe

WITH CHEVROLET'S NEW PERFECTED HYDRAULIC BRAKES

Safeguarding you and your family as you have never been safeguarded before

SOLID STEEL one-piece TURRET TOP
a crown of beauty, a fortress of safety

NO DRAFT VENTILATION ON NEW BODIES BY FISHER
the most beautiful and comfortable bodies ever created for a low-priced car

SHOCKPROOF STEERING*
making driving easier and safer than ever before

NEW Perfected Hydraulic Brakes
— the highest development of the hydraulic brake principle— are standard on all Chevrolet models for 1936. And, like many other features of the only complete low-priced car, these new brakes are exclusive to Chevrolet in its price range! They are the most efficient brakes ever developed. They help to make Chevrolet for 1936 the safest motor car ever built. Visit your nearest Chevrolet dealer. See and drive this car—today! CHEVROLET MOTOR CO., DETROIT, MICH.
*Empire Chevrolet's low delivered prices and the new greatly reduced M.C.C. 6 per cent time payment plan—the lowest financing cost in G.M.A.C. history. A General Motors Value.

IMPROVED GLIDING KNEE-ACTION RIDER*
The smoothest, softest ride of all

HIGH-COMPRESSION VALVE-IN-HEAD ENGINE
giving even better performance with even less gas and oil

ALL THESE FEATURES AT CHEVROLET'S LOW PRICES

\$495 AND UP. List price of New Standard Coupe at Flint, Michigan. With bumper, spare tire and tire lock, the list price is \$520 additional. *Knee-Action on Master Models only \$20 additional. Prices quoted in this advertisement are list at Flint, Michigan, and subject to change without notice.

FARMERS IN COUNTY FAVOR PLANTING OF WHEAT IN ROWS

What planted in rows has been growing in favor over other methods of planting. J. B. Waide Jr., county farm agent stated, an increased acreage in wheat planted in rows being reported over last year. J. R. Sherriff of West Camp community, planted two strips of land to wheat last fall. One of the strips was planted in rows, while the other was in the land. Time of planting and conditions were identical. The wheat planted in rows made 15 bushels per acre, while that sown made 10 bushels per acre. Some wheat producers state, however, that wheat planted in rows on sandy soil has more tendency to blow.

WEST CAMP ACHIEVEMENT DAY

The West Camp Home Demonstration club will hold its annual Achievement day at the home of Mrs. E. L. Smith, garden demonstrator, two miles south of the West Camp school building. Friday Nov. 15, beginning at 3:15 p. m. We especially invite every family in this community and extend an invitation to the merchants and business people of Muleshoe, other club members and people of other communities to attend this meeting.—Reporter.

Old Dobbin Still Useful on Farm

Twenty Thousand Horses Will Be Needed in New York, This Year.

By Prof. M. W. Harper, New York State College of Agriculture at Cornell University. Despite coos, wheels, pulleys, and other evidences of the machine age, the demand for old Dobbin remains steady. In the spring of 1931, 20,000 work horses were in demand on New York farms. The demand promises to be greater, and the supply less next spring. New York farmers now have about 200,000 horses. Since the average working life of a horse is about fifteen years, about 20,000 horses will pass the age of usefulness within one year and a like number will be needed as replacements. To meet this demand, less than 5,000 home-bred colts are coming into the working age, and farmers in the Empire state must look to other states to buy about 15,000 horses. The United States has about 17,000,000 horses and mules. Replacements call for more than 1,900,000 colts of working age, but only one-half of this number can be bred. Because of the small supply, prices are high and will be still higher before enough horses can be raised to meet the constant demand. Some farmers can raise horses needed for replacements.

Legumes Check Nitrogen Loss in the Corn Crops. Although Illinois' corn crop this year was the smallest in 61 years, it removed so much nitrogen from the soil that it would take more than 21 million dollars' worth of nitrate of soda to replace it, according to F. H. Crane, assistant chief in soil fertility at the college of agriculture, University of Illinois. For every 75 bushels of corn that are taken off the land, a quarter of a ton of nitrate of soda costing around \$10 would be needed to put back the nitrogen that had been removed. The past year's corn crop is estimated at 102,000,000 bushels. Fortunately, farmers do not have to buy this 21 million dollars' worth of nitrate of soda, for they can replace the lost nitrogen cheaply through the use of legumes for soil improvement or for feed crops, provided the manure is taken care of in the latter case. Mr. Crane pointed out that, in fact, the economic solution of many problems of soil management depends almost wholly on making full and proper use of the assistance plants can give, he explained.

Sorghum Seed Used as Feed With Other Grain. Sweet sorghum seed contains considerable tannin which makes it astringent. Its feeding value is only about two-thirds as much per pound as seed from the grain sorghums like kafir, milo maize and feterita. It can be fed to live stock as a part of other grain mixtures. In three trials at the Kansas experiment station, says a report, pigs fed ground sorghum seed with protein supplement gain 1.2 pounds daily, compared with 1.6 pounds per pig fed ground corn in place of sorghum and 1.45 pounds for others fed on ground kafir. In these trials ground sorghum was worth only 63 per cent as much per 100 pounds as ground corn and only 70 per cent as much as ground kafir.

Making Concrete Block. A good quality concrete block can be made of a mixture of one part cement to two and a half parts of sand and three parts crushed stone or screened pebbles not over a three-quarter inch in diameter. To make a cubic yard of finished concrete of this mixture will take six and a half sacks of cement, three-fifths of a cubic yard of sand and a three-quarter cubic yard of crushed stone or pebbles. This amount of concrete will make somewhat over 60 blocks 8 by 16 inches with air spaces amounting to 33 per cent of the total volume. Bank run gravel should not be used for concrete blocks unless it is known to contain the correct proportions of sand and pebbles for concrete of maximum density.

Leads in Raising Goats. The West has been interested in the raising of goats for some time. California leads with the most goats; Texas is second. It is claimed that six goats may be maintained on the same coat as it takes to care for and feed one cow. A goat does not need much space and likes to browse among brush, weeds, leaves, twigs and bark. Goats are not the solution of what to do with one's old razor blades and tin cans. However, they do eat the paper from tin cans. They like paper, as it supplies fiber for them. Their feed is very much like that of a cow, consisting of alfalfa, hay, barley, bran and silage.

Shelter for Live Stock. With a shortage of feed facing farmers in many parts of the country the need to provide animals with shelter against the cold of winter becomes more necessary than usual. It is necessary not only because it will add to the thriftiness of all live stock and lessen the chance of loss, but also because it decreases the amount of feed necessary. Animals exposed to the wet and cold are forced to draw on their own body fat for energy and this fat must then be replaced by feed.

CLEANLINESS BEST FOR CHICKEN YARD

Five-Point Program Is Outlined by an Expert. By W. C. Monahan, Extension Poultryman, Massachusetts State College—W. H. Service. A five-point program of cleanliness followed by successful poultrymen include clean chicks, clean brooders, clean land, clean feeding and watering, and clean management. "Clean" chicks are chicks which are free from pullorum disease and are hatched from healthy, vigorous, well bred stock. Brooder houses should be thoroughly cleaned and disinfected before chicks are ever put in them, and they should be kept clean by frequent changes of litter on the floor. Summer range for growing birds should be land which has not been used for this purpose for at least two years. The range should not be overcrowded with birds. Feeding the birds from hoppers is more sanitary and also more economical than any other method of feeding. On the range, hoppers and watering places should be moved frequently to keep any one spot from becoming contaminated. Eliminating rusty, unthrifty chickens is helpful in preventing the spread of disease. Keeping chicks away from old stock also is advisable. Preventing visitors walking through the houses and over the range is another precaution taken by most men, as a means of keeping out possible infection.

New Breed of Hens Lays Eggs That Mark Chicks

Canada has contributed materially to the making of what is claimed as a new hen which has been evolved by agricultural scientists at Cambridge university, England. The bird, at the moment, is the object of considerable attention in the old country; concerning it the Specialist says: "Few successes of greater interest and practical possibilities have been won in the field of agriculture biology than the making of the new Cambridge hen. Her chicks declare their sex at birth, because the males and the females are differently marked. This is a great advance over the poultry industry, since chicks travel safely and well only during the first two days of their life. The new breed, known as a 'sex marker' was developed at Cambridge, England, by the application of Mendelian principles. By the use of the Canadian Barred Rock, supplied by the University of British Columbia to Cambridge university, both silver and golden Cambars have been evolved. They are prolific layers of large colored eggs which still possess the virtue of sex-linked chicks. These chicks mark an epoch in the scientific breeding of poultry."

Bronze Birds Need Greens

Just as vitamin A is required by the bronze variety of turkeys than by White Leghorn chickens, studies conducted at the University of California disclose, it has been shown that turkeys require an 8 per cent level of the entire ration of high quality alfalfa leaf meal to promote normal growth to 20 weeks of age and to prevent symptoms of A-vitaminosis, a vitamin A deficiency disease. White Leghorn chickens grow normally and show no symptoms of the disease on a 1 per cent level of the alfalfa meal, according to experiments made at the university.—Montreal Herald.

Ducks Grow Rapidly

Poultrymen who raise ducks have noted one thing—that they eat lots of feed and grow rapidly. Generally speaking there is profit in feeding good breeds of ducks for market so long as they are growing. Where the profit disappears is after they have reached maturity and kept on eating voraciously. To come out on the right side of the ledger with ducks it is, therefore, necessary to market them as soon as they are full grown, and this points out the advisability of hatching them late if one plans to sell them on the holiday markets.

Meat Spots in Eggs

Meat spots in eggs which do not develop into rots are something over which the poultryman has little, if any, control. It is simply the rupture of a blood vessel in the egg before the egg leaves the ovary until it comes down the oviduct. It does not necessarily mean that the hen which laid such an egg is diseased, but it does mean, or blood spots, and the only method of controlling the output is to have eggs candled before sending them to market.

Telling Sex of Goslings

This is one of the difficult problems for the inexperienced goose raiser. Ganders have longer necks, coarser heads and slightly higher pitched voices. However, there is but one absolute test, not so easy to make. This is an examination of the vent which will disclose the sexual organs—a little experience will tell the sex, which one may master with patience. Goslings are now sexed at a day old same as chickens, observes a writer in the Rural New-Yorker.

Stegall News

It is, indeed, "a world unknown" this Monday morning. Varying reports claim we have from an inch to two inches of snow, and it is still falling. Despite the reluctance with which the farmers left their warm beds this morning, this snow is very welcome because the young wheat has been badly in need of moisture. C. W. Williams and Frank Cotter were in Muleshoe on business Sunday. Stegall community wishes to extend its heartiest thanks to the ladies of the Home Demonstration club for the gasoline lantern they presented to the school. Mr. and Mrs. Frank Cotter entertained visitors from Spring Lake, Sunday. Mr. and Mrs. J. S. Pollard and daughter, Lois, visited over the weekend with their daughter, Mrs. H. N. McDaniel, at Shallowater. Leaman Carpenter, of Longview, transacted business in this community Thursday.—Reporter.

Goodland News

There was some snow fell over this community Sunday night. J. S. Blair's son visited him the first part of this week. Eugene Trussel returned from California last week. Mr. and Mrs. Alvie Rackley visited Mr. and Mrs. D. F. Reed at Maple last Thursday. Mr. A. C. Rackley visited Mrs. Richardson at Maple, Sunday. Mrs. M. D. Gaddy and son Marvin Lynn returned from Lubbock, Sunday. Several in our community are threshing sand this week.—Reporter.

REV. LUKER AND WIFE HONORED

Tuesday evening a surprise 42 party was given in honor of Rev. and Mrs. J. Frank Luker at the Methodist parsonage. An enjoyable evening was spent and the honorees were declared winners at 42, being presented with a lovely fruit bowl and candle holders. Delicious refreshments were served. Those attending the entertainment were Dr. and Mrs. L. P. Gibbs, Mr. and Mrs. Harold Wyer, Mr. and Mrs. A. J. Gardner, Mr. and Mrs. S. C. Beavers, Mr. and Mrs. Warren Powers, Mr. and Mrs. Pat E. Bobo, Mr. and Mrs. Mills Barfield, Mesdames C. R. Farrel, Levi Churchill, Fay E. Erod, Finley Pierson, Albert Isaacs, Misses Lola Lipscomb, Elizabeth Harden, Adda Belle Fort and Evelyn Boone.

Maple News Items

On account of good weather, gathering of crops will continue during several more weeks.

Woody Mead, of this community, is in a Lubbock hospital in a very serious condition from an accident Wednesday of last week. The door of the car was unharmed. The door on the side of the car by which he was riding came open and he fell out-side, the car rolling over him.

Mr. and Mrs. Elmer Gardiner, of this community, are the proud parents of a baby girl, born last Wednesday.

Several from this community attended the movie picture show at Morton Saturday night, and reported it was real good.

Rev. G. R. Port, Methodist pastor, has preached his last sermon of this year's work, and is retiring from the ministry. He celebrated his 71st birthday last Saturday. We all wish him very much success in the future.

Everyone in this community woke up Monday morning to find a light snow covering the ground. We hope to see pretty weather soon, so the farmers can get busy crop gathering in a big way.

H. D. Club News

The Maple home demonstration club met Tuesday, November 8, at Mrs. M. W. Holloway with 12 members present as follows: Mrs. Jimmie Woodfin, Mrs. Iris W. Holloway, Mrs. Elbert Stephens, Mrs. Charlie Shaw, Mrs. J. F. Carter, Miss Naomi Shaw, Miss Wilma Blylock, Miss Pauline Cooper, Miss Minnie Woodfin, Miss Ruby Lee Holloway, Mrs. Geo. Tyson and the hostess, Mrs. M. W. Holloway.

The house was called to order and the members present elected, Mrs. J. F. Carter for president; Mrs. Jimmie Woodfin, wardrobe demonstrator; Mrs. Charlie Shaw, vice-president and Mrs. W. H. Holloway, secretary.

We decided to serve cookies, cocoa, and coffee on Achievement day at Mrs. M. W. Holloway's home, Monday, Nov. 8, at Mrs. Holloway's—Reporter.

Watson News Items

The first real freeze of the season has arrived and we knew that winter had come. A light snow fell Monday morning.

Mr. and Mrs. Gaylord Butler, of Amberst, spent the weekend with her parents, Mr. and Mrs. W. L. Key. They are moving to Palo Pinto.

The H. D. club met at Mrs. A. J. Neutzel's Friday afternoon to make plans for Achievement day to be held, Wednesday afternoon, Nov. 20, at 3:00 o'clock. As Miss Stewart could not be present she sent Mrs. Jack McIntosh to help with the plans. Her presence and suggestions were much appreciated. Everyone is cordially invited to attend Achievement day and see what the women of the community are doing toward keeping the wolf from the door this winter.

School began Monday, after a vacation from cotton picking.

Rev. Box, our district missionary, preached at Watson Sunday night. Although the weather was unfavorable, quite a nice crowd enjoyed his message.

Mr. and Mrs. Corbell are entertaining a new visitor at their home. The little lady arrived last Thursday.

Miss Frances Stewart returned Sunday to resume her school work, after visiting homefolks in Lubbock. She was accompanied by her parents, Mr. and Mrs. S. D. Stewart and her sister, Miss Lillian Baker.

Mrs. T. J. Green, of Enocha, daughter of Mr. and Mrs. Sullivan, of this community, is to undergo an operation at a Littlefield hospital this week. We wish her a speedy recovery.

Miss Lora Key is visiting in Amberst this week.

Will Schulz and son, Albert, of Hereford, are Watson visitors this week.

Mrs. Joy Lane is visiting relatives in Oklahoma.—Reporter.

HomeMakers Class Meet

The Homemakers Class, Baptist church met November 7 at the Educational building in a business and social meeting. Mrs. L. Benson presiding. Devotional was led by our honorary member, Mrs. L. Coker, which we enjoyed, then business was attended to.

Pecans Dangerous Says Doctor When Not Handled Right

Austin, Nov. 12.—Pecans, the favorite nut of thousands of people, may be a source for the spread of disease, according to E. C. Koerth, Director, Bureau of Food and Drugs. The pecan itself is not to blame, but the manner in which it is shelled and later handled is the cause for this warning.

The shelled pecan industry has as usual large proportions in the last few years and the shellers in other state have attacked the Texas product of the ground that the shelled nuts are not handled in a sanitary manner. The large packing houses, that have the nuts shelled in their own packing plants maintain a satisfactory standard of sanitation. The evil of the shelled pecan industry is where pecans are taken into individual homes where no supervision is possible.

Many Mexicans, Negroes, and a few whites do this work at home, with at times the neighbors coming in to help them out. It is possible for the communicable diseases to spread by shelled pecans, and for that reason it will be to the public's advantage to ask where the pecans were shelled and under what conditions. The food inspectors of the State Department of Health have investigated the home shelling of pecans for hire and report that many homes where this work is done are most unsanitary.

All persons engaged in shelling pecans should have a health certificate the same as any other food handler. The purchaser should demand that the pecans they buy shall have been shelled by such a person and handled in a sanitary manner and under supervision to lessen the chances for the spread of tuberculosis, colds, dysentery, typhoid, and other diseases.

Electric Current

An electric current consists of a stream of electrons, and electrons have weight! However, the weight of an electron is so small in comparison to its charge that for all practical purposes this weight can be entirely disregarded.

McCormick-Deering Hammer Mills Grind Feed at Low Cost

WHEN you belt your tractor to a McCormick-Deering Hammer Mill your own experience will prove that you have a grinding outfit unexcelled in performance and operating economy. Three sizes of McCormick-Deering Hammer Mills are available. Ask us for a demonstration of the size you are interested in.

No. 1-B—A small machine but a giant in capacity, grinding from 3700 to 9700 pounds of shelled corn or from 4000 to 11,500 pounds of wheat an hour and other grains and roughages in proportion.

No. 1-A—An unusually low-priced mill with approximate capacity of from 1500 to 4300 pounds of shelled corn an hour.

SENATOR NELSON PROPOSES ONE HOUSE LEGISLATURE, 42 MEMBERS MEETING CONTINUOUSLY IN W. C.
(Continued from Page One)

For the Forty-second Legislature, which he said was a fair example, salaries to members totaled \$402,842.34; mileage amounted to \$47,123.37; stenographic help, \$21,878.99; postage, \$23,435.52; telephone and telegraph, \$33,861.71. Numerous other items make the total amount.

"First, the one house legislature will save thousands of dollars to the State," Senator Nelson said.

"It conforms with modern ideas of business direction. It will not change our representative form of government because, like the present senators and representatives, the members of the one house would be chosen from identical districts by the same people. Each of the two would be paid the same salary."

"The one house, instead of breeding corruption, will eliminate corruption. It will do away with the free conference committee, which is in fact a separate house," Senator Nelson, on this point, explained that conference committees often inserted provisions in important bills which do not conform with the wishes of a majority of the legislators or of the public. When late in the session something like that is done, members of the separate houses have the alternative of refusing to adopt the report of the conference committee, in which case an additional expense is entailed because a special session generally has to be called, or of adopting the report, in which case they are being made to vote against their own and the wishes of their constituents. Besides," he continued, "the one house would eliminate practice of shifting responsibility.

"The people of Texas are vitally interested in seeing that their orders are obeyed," Senator Nelson said. "If they simply the machinery of government, then they can see who is responsible for the neglect of the people's business. He cited a passage from Woodrow Wilson: "Simplify your processes and you will begin to control. Complicate them and you will get farther and farther away from their control."

"Simplification is the task that awaits us. To reduce the number of persons to be voted for to the absolute workable minimum—knowing whom you have trusted and knowing whom you have trusted and who has few persons to watch that you can watch them."

Another passage he cited from a text by James Wilson, Garner, in which the author gives as one of the advantages of a bicameral system, that it affords "a convenient means of giving representation to special interests or classes in the state and particularly to the aristocratic portion of society," in order to "counterbalance the undue preponderance of the popular element in one of the chambers, and thus introducing in the legislature a conservative force to curb the radicalism of the popular chamber."

"That," he said "is one of the issues involved. The people of Texas will not be long in discovering what's what and who's who. They will probably make their expression of opinion felt at the next election, if not on the issue of unicameral legislation itself, then on the question of whether they would like the Legislature to submit such a proposal."

Cliff Dwellings Mystery
The cliff dwellings of Mesa Verde, in southern Colorado, are one of America's mysteries. There have been many conjectures about the people who built and inhabited the dwellings on this table land 6,000 feet above sea level. What remains of the stone and clay dwellings gives evidence that they were a civilized race worshippers in temples and burying their dead with rites that testify to a highly advanced religion. No research, however, has been able to place definitely the period in man's civilization when these dwellings were occupied.

The FAMILY DOCTOR
BY JOHN JOSEPH GAINES, M. D.

"GULLIBILITY"
It occurs to me more and more frequently as the years go by, that "gullibility" is one of the greatest misfortunes that afflicts our people. Sometimes I think it costs our country more in the total than the most devastating epidemic of disease.

Let's get the meaning of the word clear. Gullibility is the ease with which you can be misled by false propositions.

At heart you really abhor all swindles. It's the deal that you THINK is honest, that you bite at with avidity and do not realize you are being used until you have parted with all the good, honest money that could be extracted from you. Your gullibility leads you through suckerdom.

There are all sorts of false sanitariums in the country, with a so-called "religious" complexion added and a freak diet system, all designed to catch the American sucker. Such things have no legitimate place in the honest care of the ailing—nor are they true components parts of any worthy church enterprise.

The "preacher-doctor" has long been noted as an American hoax, insinuating himself into the confidence of gullible people by prostituting the sacred tenets of religion to his unholty ends.

There is no more humanitarian work than that of the true physician. If an individual must summon religion to command him in a money-getting endeavor, he is sadly defective in the most important qualification, the ability to honestly deliver the goods.

I wish I were able to write a book about humbuggery. But, I think I would run myself ragged, only to find in finding a publisher.

Circleback News
The Home Demonstration club met with Mrs. Walter Damron Thursday, Nov. 7 with 18 members and several visitors present. Miss Alma Stewart was with us and helped us make plans for Achievement day to be held Tuesday, Nov. 19, beginning at 3:15 p. m., at Mrs. Walter Damron's. Everyone is invited to come and learn something of the club has accomplished this year.

Mrs. A. G. Hammock is visiting her son, E. R. at Needmore, this week.

Mr. and Mrs. Charles Elmore and children, of Buvin visited in the W. A. Elmore home last week.

Rev. Geo. Fort, of Mulshoe, preached his last sermon at Circle Back Sunday afternoon. He and his wife are moving to Lubbock this week.

The Joyland H. D. club met with Mrs. Albert Binmons Wednesday week to complete plans for Achievement day, Nov. 19.—Reporter.

Texas Gets About 500,000 Checks On 2nd Cotton Rentals

College Station.—Approximately 3,000,000 cotton sales certificates have been distributed in Texas to Extension Service county agricultural agents, according to F. E. Lichte, assistant chairman of the State Allotment Board at College Station, who says the county agricultural agents are busy identifying these sales certificates with Bankhead allotments on the cotton crop of 1935. Of this sum Bailey county will get certificates for about 11,000 bales, according to J. B. Waide, county farm agent.

Cotton adjustment payments are figured as the difference between the average price of the 10 spot markets on the date of sale and 12 cents. The check will be made to the producer who made the Bankhead application and he in turn will distribute tenant and croper their share.

Lichte said that many tenants were asking that, if they put their cotton in a 10 cent loan, would they get their cotton adjustment payment. He explained that producers would receive payments as claimed on cotton sold prior to July 31, 1936.

"If a producer doesn't clear his loan and it runs beyond July 31, 1936, he will receive payment on liquidation of July 31, 1936, and will be paid the amount of claim less carrying charges, Lichte further explained.

After November 8, 1935, all sales certificates must be filed in the county agricultural agent's office within seven days from the date of sale.

As a note of interest, the Assistant Chairman of the State Allotment Board said that approximately 500,000

second rental cotton checks have been received in Texas.

Deals by growers in shifting Bankhead cotton act tax exemption certificates from light to heavy product areas, figures available today indicate may bring tax free sale of most Texas 1935 cotton crop.

PEANUT CROP IS INCREASE

Reports emanating this week from College Station say the income of nut growers in Texas this year increased an average of \$100 grower, bringing a total of \$1, more money into the state than brought from this source last year.

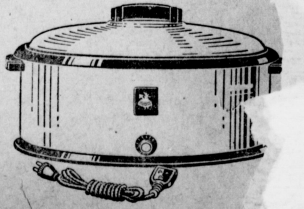

Texas raises about one-tenth the amount of peanuts grown in the United States averaging 100,000,000 pounds per acre; but the crop this year is estimated at 117,000,000 pounds it is stated they will bring one more per pound than they did year.

Last year the market opened cents per bushel, and in a few jumped to 80 cents.
