LITTERA SCRIPTA MANENT—THE WRITTEN WORD ENDURES MULESHOE, County Seat of Bailey County, TEXAS, THURSDAY, JULY 16, 1936

VOLUME 14 NUMBER

## BANK AND P. O. STATEMENT IS CREDIT TO CITY

### Post Office Gains \$10,000, Bank Deposits Up To \$220,000.

Bank deposits and post office receipts are generally an inevitable index of the prosperity of a given town and surrounding area. The increased business transacted at the Mule shoe office for the year ending June 30, 1936, totaling \$66,086.34, shows an increase of \$11,827.58, or about 22 per cent increase over business handled the previous year, according to Postmaster A. J. Gardner, details being as follows:

Gross postal receipts for year ending June 30, 1936	\$8,001.59
Gross postal receipts for year ending June 30, 1935	7,016.10
Gain over last year	\$ 985.49
Total money orders issued July 1, 1935 to June 30, 1936	\$58,084.75
Total money orders issued July 1, 1934 to June 30, 1935	47,242.66
Gain over last year	\$10,842.09

**Bank Makes Fine Statement**  
The financial statement of the Mule shoe State Bank, published in the Journal last week shows a very healthy and prosperous condition of this financial institution which is an entirely home owned concern and operated for the benefit and accommodation of home people.

Operating on a capital structure of \$55,000, the statement of business at the close of July 9th shows a surplus of \$3,500 and undivided net profits totaling \$5,646.13.

June 30, last year deposits total \$185,000, but deposits for approximately the same date this year total \$220,000, a very healthy increase, and speaking favorably for the general economic condition of this specific territory.

Recently this bank retired \$2,000,000 government debentures which sum was added to its growing surplus.

This concern is now serving approximately 1,000 individual depositors, 98 per cent of whom reside within the Mule shoe territory. By far the majority of its loans, also, are made to citizens of this community, the record showing there are 392 loans, totaling \$67,900 made to farmers of this immediate section, while 102 other loans, totaling \$21,600 have been otherwise loaned.

## \$8,695 Loans Made In Bailey Under Nat'l Housing Act To Date

Fort Worth, Texas, July 14.—Latest figures reveal that 17 loans amounting to \$8,695.00 have been made in Bailey county under the Modernization Credit Plan or Title I of the National Housing Act, according to a statement today by S. P. Luttrell, associate director of the Northwestern Texas district of the Federal Housing Administration.

The northwestern district of Texas with headquarters in Fort Worth comprise 113 counties of north and west Texas. During the 30 months operation there has been a total of 9,610 loans amounting to \$3,241,905.08 made under Title I throughout this district states Luttrell.

Title I or Modernization Credit Loans are made by banks and other financial institutions approved by the Federal Housing Administration; the loans are made for repairing, altering, modernizing and the improvement of real property. The obligation is repaid in small, equal monthly payments over a period of years not to exceed five. This particular section of the National Housing Act expired on April 1, 1936, but because of the demand for this type of loan, and the great benefits to property owners, building material dealers, and labor in the building trades, the Modernization Credit plan was extended to April 1, 1937.

The widespread effect of the National Housing Act may best be judged from the fact that loans have been made in all except four of the one hundred and thirteen counties in this district," says Luttrell. "Information on the FHA plan of financing repairs, alterations and modernization of homes as well as for the construction of new homes may be had at any lumber yard, building material dealer, approved lending agency or by writing direct to the Federal Housing Administration office in Fort Worth, Texas.

## FORECAST HEAVIEST PRESIDENTIAL VOTE IN HISTORY MADE BY EXP'T

A record-breaking total of from 43,000,000 to 45,000,000 votes in the November presidential election has been forecast by William Tyler Page, former clerk of the House and an authority on election statistics.

The forecast indicates the total vote cast for President by 1936 will be from 3,000,000 to 5,000,000 more than the 1932 election.

There should be a total vote of from 43,000,000 to 45,000,000, considering the intense interest that has been shown in the forthcoming election and the efforts being made to qualify voters," said Page. First voters will be rounded up as they never have been before.

"I look for a heavier vote in the South, where the vote in elections usually is light because the election is one-sided.

"Naturalization of aliens has increased during the last four years, because of conditions. Women are inter-

ested in elections and youth is being solicited to take part."

Page estimated the potential vote of the Nation is 70,000,000.

"With a population of from 127,000,000 to 130,000,000 my outside estimate is that about 70,000,000 of the population and increased interest in politics," explained Page.

Four years ago the total vote cast for President was 39,700,000. Roosevelt's election received 22,821,837 votes to 15,761,841 for Hoover. Minority parties

cast slightly more than 1,000,000 votes. The entrance of Representative William Lemke into the presidential race as the candidate of the Union Party may result in a sharp increase in the vote cast outside of the Democratic and Republican parties.

In the last election eight parties competed. One of the features of the vote in 1932, Page said, was the increase in the vote of the Communist party to 102,991, more than doubling its previous presidential vote.

## Stanley and Britton Identified As Bank Robbers At Friona

Herbert Stanley and J. C. Britton, said to be escaped convicts, and captured last week by police at Fort Worth were pointed out last Thursday by Cashier Charles McClain and his wife, assistant cashier, as the two men who robbed the State Bank at Friona a short time ago. Both officers were positive of the identification of Stanley, but Mrs. McClain wasn't absolutely sure of Britton, but thought he was the other man. Witnesses were accompanied to Fort Worth by Earl Booth, sheriff of Parmer county.

## Sudan Team Shuts Out Locals In A Fast Game Sunday

Sunday afternoon the Mule shoe baseball team played a return game at Sudan, with the Sudan team, it was a fast moving game and both teams declared it to be the best they ever played together. The scores were five and nothing in favor of Sudan. This was the first game played this season for the Mule shoe team. The Sudan team failed to score. Sudan made one error and the local boys made two.

Saturday afternoon of last week Mule shoe had a match game with Crickstock scheduled, but due to rainy weather they were unable to play. Next Sunday afternoon the local team will play a game here with either Friona or Crickstock.

## THURSDAY JULY 23, MULESHOE WILL PLAY A GAME WITH ANTON, AT ANTON. THIS DATE IS WHEN ANTON WILL HAVE THEIR BIG CELEBRATION WITH A BASEBALL GAME, CARNIVAL, DINNER ON THE GROUND, ETC.

**HAS PLIERS 55 YEARS**  
J. Frank Norfleet, noted Hale Center amateur detective, who has a record of tracking down 93 swindlers in the last 20 years, has an interesting bit of personal property he was exhibiting the other day, being a pair of pliers which he has kept tied to his saddle, and has used for more than 55 years.

"The killed snakes, driven nails, and staples, moved and repaired fences and done a thousand other tasks with those pliers," he said.

## INSTALLS NEW SODA FOUNTAIN

The Dameron store, this city, last Saturday installed a new "Russ" soda fountain to take care of their increasing patronage in that line.

The new dispenser is a beautiful piece of workmanship being finished in black vitrolite trimmed in yellow. It has 14 flavor pumps, five double combination for cream and other supplies, double chipped ice box, besides sterilizing vats and other required accessories. There are two carbonate and one water jets and three fruit trays.

## FRIONA VS. MULESHOE GOLF

Sunday afternoon members of the Mule shoe golf club played a very interesting yet amusing match game with the Friona club here on the local course at the Mule shoe team being victorious, nine and five.

Sunday afternoon, July 19, the local team will play a return game at Friona and is planning to bring home the larger end of the score.

## PLANS MADE FOR MUSEUM

Plans for the West Texas museum to be erected on Tech college campus, are now in the hands of the Texas Centennial Commission and Board of Control, Austin, awaiting approval.

## TALL AND TERRIBLE TULIANS TAKE TOWN MONDAY WITH SURPRISE WHEN ADVERTISING ITS BIG CELEBRATION

Muleshoe reverted to early days of the wild and woolly west last Monday afternoon when a gang of "rough-neck" gentlemen and pioneer-clad ladies invaded the sacred precincts of this peaceful little village to advertise the 46th annual round-up, rodeo and celebration of Swiss county to be held at Tulla, Friday and Saturday of this week.

The delegation was headed by J. W. Kellog, celebration manager, and Rev. Sam Thomas, Methodist dominion of that city, who, wearing Al Smith's famous brown derby was otherwise dressed as a combination Dago-Sheeny jolly fellow fresh from the Broadway of that county capital city.

They had with them a band, the members being dressed true cowboy style, and there were plenty of the masculine sex wearing red shirts, long

beards, six shooters and other characteristic western paraphernalia, while the women were attired in old fashioned and somewhat other type costumes characteristic of the early west when Judge Cull held provincial legal sway over this section.

The delegation, headed by a state patrol officer, arrived in a big school bus and a still bigger bus, resembling a super-elongated dachshund on wheels, equipped with loud speaker which, in stentorian tones, solicited the invitation for Muleshoe citizens to attend the big trinitum celebration.

More than \$1,500 in prizes will be given for rodeo events. There will be a big chuck wagon and basket dinner on the grounds, automobile races and numerous other interesting attractions. It is said already quite a number of local citizens are making preparations to attend.

Small plots were furnished to Sugarland Industries and the Experiment Stations at Weslaco and Angleton. The results of the plantings at Weslaco and Angleton have not been made public. Mr. Waide stated, but the test made by Sugarland Industries shows that Bailey county seed potatoes were equal in quality to those produced in the northern and western states. If certification is granted to the Bailey county producers this year, it will be the first certified seed potatoes produced in Texas.

## 30,621,000 Acres Of Cotton Listed By The Government For 1936

Cotton in cultivation July 1 was estimated last week by the Crop Report Service at 30,621,000 acres, or 66.8 per cent of the 27,883,000 in cultivation a year ago.

The area picked last year was 27,335,000 acres, the yield 186.3 pounds per acre, and total production 10,638,000 bales of 500 pounds gross weight each. In 1934 the July 1 acreage was 27,860,000, the area picked 26,886,000, and yield per acre 174.6 pounds and total production 4,635,000 bales.

Abandonment of acreage from July 1 to picking time has averaged 2.3 per cent in the 10 years, 1926-35.

An especially large acreage of cotton has been planted this year in Bailey county and present prospects are for a bumper yield.

## Cash Awards Made By Business Men For Trade Expans'n Day

Notwithstanding inclement weather and rain during the afternoon there was a big crowd present here last Saturday for shopping, fraternizing and taking part in the awards made by business concerns in the Trade Expansion campaign.

Mrs. David Belle, Muleshoe, received the first award of \$10; H. G. Hockins, Muleshoe, \$5; J. M. Woodfin, Maple, \$3; Wood H. Harmons, Muleshoe, \$1. The name of Mrs. W. F. Menefee, Muleshoe was called for first honor; Mrs. David Thrill, Muleshoe, second; J. C. Hank, Muleshoe, third; Oleta Truman, Virgil Webb, Mrs. B. H. Culbert, Edna Mae Williams, Eddie Mae Ferris Mrs. I. F. Williams, all receiving mail at Muleshoe, and Mrs. T. Potter Goodland, for fourth award, all being absent.

The usual awards will again be made next Saturday afternoon.

## GIVE FORDS 'SCOTTIE' TEST

To demonstrate that not necessary to sacrifice power, smoothness and pick-up to obtain satisfactory gas mileage, the Muleshoe Motor Co. now has one of the Ford V-8 "Scottie" cars for demonstration purposes.

It is standard equipment with the exception of an added gallon glass jug connected to the fuel line so passengers may check its consumption against the speedometer, thus showing actual mileage obtained at varying speeds.

## EVANGELINE MORE FAMOUS

A drilling crew operating for the Continental Oil Co., has struck paying oil a mile west of St. Martinville, La., under farms of the descendants of Acadians, producing a sequel to Longfellow's immortal "Evangeline."

## INSPECTION INDICATES BAILEY CO. MAY HAVE FIRST CERTIFIED SPUDS RECOGNIZED IN STATE OF TEXAS

The first inspection leading to certified seed potato production in Bailey county was made July 10 by O. B. Howell, plant pathologist of Texas Tech. and W. A. Goeth, pure seed inspector of the State Department of Agriculture. Three producers have applied for certification this year, J. B. Churchill, J. A. Dearing and H. M. Gable.

J. B. Waide, Jr., Bailey county farm agent, stated that the results of the inspection was very encouraging toward certification. The potatoes showed to be practically free from disease at the time of the first inspection.

In 1935 seed potatoes for test in small plots were furnished to Sugarland Industries and the Experiment Stations at Weslaco and Angleton. The results of the plantings at Weslaco and Angleton have not been made public. Mr. Waide stated, but the test made by Sugarland Industries shows that Bailey county seed potatoes were equal in quality to those produced in the northern and western states. ## PLAINS WINS TURK POULTRY AT BIG SH

### Churchill & Warren Have 2000 Turk For Market.

Members of the Plains Co. Hatchery, Plainview, took the five premiums in the Centennial show at Dallas in June, according to information received by J. B. Warren, county farm agent. The following awards were made to Warren and Churchill of Mule shoe: first, Bourbon Red; second, Irish Narragansett; fourth, Br fifth, Bronze.

The second place award was to Warren and Churchill of Mule shoe breeders of baby beef type P turkeys and leaders in the development of the turkey in the plains area. In addition to place taken by Warren and Churchill and fourth and fifth places were winners who had purchased from the Warrens.

Warren and Churchill have attention on the superior quality turkeys from all over the State. Breeding stock of baby beef type was imported from Colorado and this firm has a record of producing quality birds equal to any United States.

In 1934 at the first Plains Turkey show, Warren and Churchill recognized on their exhibit a grand champion and a small flock in 1934 they increased production to 5500 birds in at the present time have approximately 2000 birds to put on the Christmas market and a few restaurants and hotels in States.

The 1936 turkey they had raised from two months old. Many of the keys weigh more than which is an unusually good weight, that age turkey.

Editorial

Every Great Attempt is Glorious Even If It Fails

Light for the week is weary of my life; I will complain unto myself; I in the bitterness of my soul.

The Savage Sex: The "gentler" sex is astounding and deplorable; but it does seem like women have men considerably bested when it comes to the sheer thirst for blood.

County Politics: The Journal editor is frequently asked by interesting citizens "how the election is going, who will be elected to certain county offices, etc."

Pavement Pickups: Dr. Matthews says it looks now like the Liberty League is cracked about as much as the Liberty Bell.

Jaunty Journalettes: Plenty of Muleshoe kids get a licking because they took after their fathers.

ALAS, 'TIS TRUE!: He brushed his teeth twice a day with a nationally advertised toothpaste.

Ghost Circulation: The present circulation of this newspaper is now much larger than it has been proportionately charged in its advertising rate.

Art of Weaving Demonstrated: Demonstrating the art of spinning and weaving from Biblical times to the middle of the eighteenth century attracts much attention in the Ford Exposition building at the Texas Centennial in Dallas.

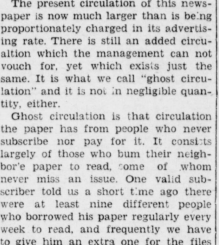

County Health Dr. Warns Against The Typhoid Fever Germ: Typhoid fever is present in Bailey county, at least two cases accounted for by Dr. Matthews, county health officer.

Area of Death Valley: Death Valley is about 2,500 square miles in area, a long, narrow sink, the floor of which is 276 feet below sea level.

Sore Gums—Curable: You won't be ashamed to smile again after you use Loto's Forchea Remedy.

Constipated 30 Years Aided By Old Remedy: For thirty years I had constipation, suffering food from stomach choked me.

Art of Weaving Demonstrated

Demonstrating the art of spinning and weaving from Biblical times to the middle of the eighteenth century attracts much attention in the Ford Exposition building at the Texas Centennial in Dallas.

It is thought, was responsible for his loss not discovering the fact.

Re Robinson, local cobbler, was seen wearing a broad grin on his face Monday night of last week while watching the dancers on Main street, thinking of how many shoes would need re-soles the following day.

Pat Bobo suggests maybe the reason he dropped the insanity charge against Representative Zimbeck was because other politicians were afraid it might end with an investigation of the entire personnel of Congress.

Bob Canfield says he don't understand why democrats wasted so much time over framing a new platform at Philadelphia. He suggests the '22 one ought to be alright, since it hasn't been used any.

Watermelon was rapidly approaching, and D. Moon, negro residing on R. L. Brown's farm, is reported experimenting on an apparatus that will clamp a generous slice of watermelon under one's ears so as to keep the face from slipping off.

George Mahon, congressional speaker here last week, proved himself quite a punster when he said something to the effect that the fellow who can garner is better than one who knocks, and that all democrats would land-on the Republicans good and hard.

Pie-Eating Yells

The Journal has often been amazed and sometimes filled with wonderment at the tremendous amount of joviality and hilarity manifest at political meetings. We frequently find ourselves contemplating how much of it is genuine and how much just make-up.

At both national political conventions this year there was an excessive amount of jubilation turned loose, and evidently someone else was as inquisitive as this editor, for the St. Louis Post-Dispatch took the trouble to make a poll of the noise-makers, interrogating each of the 181 delegates present at the Democratic convention, and found that 60 per cent of them were now employed in some public or party position. In their words, exactly 814 of those delegates were sucking puppy.

While there were probably very few present pie-eaters in the noisy bandwagon at the Cleveland convention, yet it would be safe to say that the majority of them were expectant anticipators if London can land-on Democrats hard enough to swipe Roosevelt's chair for the next term.

Jaunty Journalettes

Plenty of Muleshoe kids get a licking because they took after their fathers. It is said some of the Muleshoe women are like icicles in that they readily melt when squeezed.

It is difficult to tell some Muleshoe people money because they invariably take it as a gift. Leaving loaded guns around the house where small children can get them is one way to cut the grocery bill for Muleshoe families.

Among the sad and distressing sights seen in Muleshoe are a horsefly on a Ford car, a blind man looking for a summer nudist colony and a relief worker with no car to ride to his job.

Most Muleshoe citizens fail to realize why political parties worry so much about their platforms as few ever read them and none believe them who do read them.

If the increased accumulation of tin cans in the back yards of some of Muleshoe restaurants may be taken

### REAL ECONOMY

There is quite a difference in real and claimed economy in the operation of an automobile. Ford Motor company always underestimates the performance of its products in national advertising. For instance, "18 miles per gallon of gasoline."

This statement is underestimated and we have placed in service a "Scotty" demonstrator which has a picture of the tight little Scotch dog on each side.

The demonstrator is for your convenience and is equipped with a gas mileage measuring device. We invite you to drive "Scotty" 20 miles or better per gallon at 40 m. p. h. ! Real Economy.

### COMPETENCY EXPERIENCE EFFICIENCY

*These three assets are fundamental in the successful handling of any public office and citizen-voters should insist upon obtaining such when casting their ballot in the coming Democratic Primary Election.*

Numerous property owners and other citizens transacting business in the County Clerk's office attest the efficiency of service received here from the Assistant County Clerk. My previous experience in keeping these very important records in an absolutely correct manner during the past two and one-half years, is a guarantee even greater efficiency and satisfaction as County Clerk of B. county during the coming term.

The fact that I have served the citizens of this county in an acceptable manner during the past as Assistant County Clerk, speaks my ability to give future service as your County Clerk competent manner.

Therefore, on the basis of service, familiarity with the duties of this office and my ability to carefully and conscientiously perform these duties, I sincerely request your favorable influence in the coming primary election.

Thanking you in advance for your courteous favors, I am,  
Yours for service,

After the program, the closets were then looked through, when punch and coffee were served to all present. They had as visitors Mr. and Mrs. L. L. Swart, parents of Miss Alma Stewart.

KNOW Your Asparagus

ASPARAGUS is too good for just a chance acquaintance. It is one of those foods that you like to know, and which like good books or good music, improves with acquaintance. Know, then, that there are two varieties of canned asparagus—the white and the green. These are planted from the same seed, but they are picked differently. Green asparagus is green because the tips of the spears have been allowed to poke through the earth and see the sun for a while. White asparagus remains white because it is picked before being exposed to the sun. From Giant to Tiny. About grades, Asparagus is graded according to size and it is packed both as spears and as tips. Spears are especially nice for cooked dishes and tips are often preferred for salads, sandwiches, etc. From giant to tiny—here are the grades: Giant contains eight to twelve spears to a No. 2 1/2 can; Colossal contains thirteen to sixteen; Mammoth contains seventeen to twenty-four; Large contains twenty-five to thirty-four; Medium contains thirty-five to forty-four; and Small contains forty-five to sixty. The grades of tips are the same, except that Mammoth is the largest and Tiny is the smallest. Know these facts about asparagus, and you are a careful buyer who can stock up with asparagus when it is on sale, and select the kinds and sizes most adapted to your own use. Mesdames Ed Myers, Lucille Wright, Russell Bearden, L. L. Daniels, Albert Simmons and Miss Regna Daniels, of Joyland, Mrs. A. W. Coker and Mrs. C. F. Moeller, of Muleshoe, and 15 club members. The next meeting will be held with Mrs. W. G. Kennedy, August 4—Reporter.

Bula News Items

Sunday school was well attended at each church Sunday, with preaching at the Baptist church. Our community was visited by light showers Saturday afternoon, cooling atmosphere some. Miss Bula Maye Hubbard spent the weekend with Mrs. Jack Alford at Enoch. Mr. and Mrs. Jess Richardson are happy over the arrival of a new son born July 11, weighing 9 pounds. Mr. and Mrs. Arbie Simmons and boys also Oliver Simmons and Miss Charles Verie Evans are slight seeing in New Mexico and plan to visit the Carlsbad cavern. Dr. A. Hubbard returned to Lubbock Thursday after spending a few days here with his family. Mr. and Mrs. McMaster and Miss Lily Painter shopped in Littlefield, Saturday. Mr. Clifton Whitmore attended to business in Sudan, Saturday—Reporter.

Cook with Canned Beer

GANGWAY! Make room for new ideas. Now that housewives have stocked their shelves with canned beer, they are making room also to add new recipes to their files. They have discovered that beer in the new convenient canned form, is every ready for use—and consequently dietitians are discovering new dishes which are enhanced by the addition of beer. Savory and Spicy. Here are two suggestions which are delicious for every-day meals or for smart entertaining. Onion Ranch: Slice six large onions thin and saute gently in a little butter until tender and a golden color. Spread on slices of buttered toast and cover with grated cheese. Melt one-half teaspoon salt, one-half teaspoon butter slowly in a large skillet four tablespoons, one pound of grated cheese, one-half teaspoon salt, one-half teaspoon Worcestershire sauce and one-half teaspoon beer slowly as the cheese melts. Stir constantly until smooth and have the fire very low. Then mix two beaten eggs with the remaining beer (use one cup of canned beer for the entire recipe) and add to the cheese mixture, stir a minute or so longer, and pour over the toast and onions. This serves eight persons. Spiced Chocolate Cup Cakes: Soften one-half cup butter, add one and one-half cups brown sugar slowly, and cream these two ingredients thoroughly. Add two well-beaten eggs, then add the following sifted dry ingredients alternately with one cup of canned beer: two cups pastry flour, one teaspoon baking powder, one teaspoon soda, one-eighth teaspoon salt, one teaspoon cinnamon, one-fourth teaspoon nutmeg, one-eighth teaspoon cloves and four tablespoons cocoa. Bake in cup cake pans and mix with chocolate butter icing or with any other desired chocolate icing. This makes twenty-four small cup cakes.

Tobacco Hogsheads

The Bureau of Agricultural Economics says there is no absolute standard for the size of tobacco hogsheads used in the United States. However, the usual commercial size has a diameter of 48 inches and a height of 54 inches. Tobacco packed for export is generally placed in hogsheads 48 by 48 inches. Fighting Leaders. Commanders once stationed themselves on the battle line at the Battle of Jena, in 1806, both the Prussian commander in chief and a reigning prince lost their lives. Hormones Active. Chemical reactions called hormones act as messengers which circulate through the body, making every physical process keep its due proportion in relation to every other. "Man in the Iron Mask". "The Man in the Iron Mask" was imprisoned on St. Marguerite, a small island off Corsica. The prison was a fort built by Cardinal Richelieu. Analysis kills love, as well as other things.—Brown.

NOTICE TO THE VOTERS OF BAILEY COUNTY, GREETINGS Dr. A. R. Matthews asks your support for the office of County Judge and School Superintendent in the coming Democratic Primary election, July 25th. ## Are You— PIXILATED?

Mr. Longfellow Deeds, in the movie play, "Mr. Deeds Goes To Town," says a "pixilated" person is one who is crack-brained, balmy, daffy, bats in the belfry—in short screwy.

If that happens to be your mental condition or the warp of your personality perhaps you had better change your place of buying Groceries and come to Henington's.

Good, wholesome foods have a wonderful influence not only on one's physical but their mental condition as well. We're real proud of the fine anatomies and pulchritude of our customers. They can't be beat!

We invite you to join this happy bunch of mentally and physically satisfied customers. Red and White Groceries tell the story—better than many other brands, and never inferior to the best. Always at your service—

### FORD V-8 SHOWS NEW EFFICIENCY

"Believe it or not," but a Ford V-8 from Sudan, neighboring town on the south, got into that class of questionable wonders last Saturday night when it climbed a telephone pole located west of the local service station and just south of State Highway No. 7.

The car is said to have been driven by Matt Brisco, care proprietor at Sudan and there was another man and two women riding with him. They drove south across the Santa Fe railroad track, but failed to make the turn onto the highway. Probably traveling at a pretty good rate, the car struck the heavy guy wire of the telephone pole, scooting up it to the cross-arms on top where it stopped, slid back and tipped over on its side for a moment's rest from its gymnastic stunt, and to receive the congratulations of its occupants that none were even slightly injured. Marks of the front bumper on the cross arm and some wire bindings on the guy wire prove conclusively the car went the limit of the 20 foot pole.

The car was quickly righted, the driver stepped on the starter, and the party was soon on its way as though nothing at all had occurred. Everyone who has ever driven one of the old Model T Ford cars knows they had eccentric and iconoclastic ideas and habits, now it is clear that the new model, under certain provocations, can act just as peculiar.

### A Retire At Birth Plan May Succeed The Old Age Plan

An alternative to the Townsend pension plan was worked out by a small group of Battle Creek, Mich., citizens and publicly submitted in the recent congressional election contest in the third district.

The substitute plan in ridicule, is asserted to be much better than the Townsend plan.

It is called the "Retire at Birth Plan," the RABP, as opposed to the Townsend "Old Age Revolving Pension, the OARP."

As summarized by Arthur Kroek in the New York Times, the retire-at-birth proposal is this:

Every newborn child in the United States would receive from the government a promissory note for \$20,000, at 3 per cent interest, payable in 20 years.

The 3 per cent or \$50 monthly, would go to the child's parents until the child was 20.

Each year during these 20 the government would pay \$1,000 into a sinking fund to retire the retirement of the note, and when the child reached the age of 20 the government would give him or her the \$20,000 which had paid into the sinking fund.

Boys and girls of 20 who elected to marry would thus have a capital of \$40,000, and would be forever unnecessary if they would undertake to have at least four children.

Because they would receive \$50 a month for each child until it reached the age of 20, and there would be left of their own \$40,000 after that to care for them in their own old age.

The authors of the RABP urge these advantages over the OARP: people of all ages would be for it; nobody would ever have to work again; it would cost only \$1,600 a year per person instead of \$2,400 annually, the per capita cost of the Townsend plan, and it would automatically end the agitation for birth control.

### What's Happening In Washington And Other Cities Of Importance

More than 400 deaths are reported occurring while people were observing July 4th.

Nearly 700 people are reported tricken by heat in vicinity of Chicago last week.

Wisconsin's new unemployment insurance law, with \$12,000,000 backing it up is now in effect.

Motor deaths in the nation rose to 2,870 in May, a seven per cent increase over May 1935.

The U. S. has canceled the Australian tariff pact, claiming this nation was being discriminated against.

Communist party claims more than 15,000 members of the American Federation of Labor are communists.

Italy's conquest of Ethiopia cost that nation 2,533 lives, not counting the native troopers who fought for the black shirts.

Five million dollars have been allotted by Secretary Wallace, Washington, to relieve drought conditions in northwestern states.

An allotment of \$71,250,000 has been made for further schooling and relief work under the National Youth administration.

Annual report of AAA says the combined cash income from cotton, corn, wheat, tobacco and hogs increased 99 per cent from 1932 to 1935.

U. S. Senator Wm. E. Borah, who was not entirely satisfied with the Republican platform recently adopted at Chicago, has stated he has no thought of holding the party.

The Bureau of Engraving and Printing, the fellows who make the money we spend, have been put on a 5-day week shift under a bill recently signed by President Roosevelt.

Chief Justice Alfred A. Wheat of the District of Columbia Supreme court has made permanent an injunction forbidding private telegrams to be read in Congressional committees.

With nearly 5,000,000 more or less affected, nearly \$4,000,000 property has already recorded, there have also been approximately 175 deaths from the excessive drought condition reported in northwestern states to date.

It is announced settlement has been made by the U. S. Postal department of \$601,500 worth of suits, or about \$1.50 per suit, for air mail contracts canceled. Nearly \$9,000,000 was canceled in the suits.

England has her House of Commons to appropriate an additional one hundred million dollars to bolster her army, navy and air forces to be ready to meet any anticipated war threat.

Italy last month bought \$149,340 worth of munitions from the U. S. in July, according to export figures. Shipments from the U. S. to all other countries: last month totaled \$1,807,745.90.

Mrs. Florence Thompson, mother of four children and sheriff at Owensburg, Ky., last week refused to allow a substitute to spring the trap in the hanging of Rainey Bethea for the murder of a 70 year old woman, declaring it a bad job but her duty.

It has been announced that Mrs. Ruth Owens, daughter of the late Wm. Jennings Bryan and now ambassador to Denmark from the U. S., will soon be married to Captain Rhode, a member of the king's body guard, that country. Later, they were married.

Gov. Hoffman, of New Jersey, who recently refused extradition of Ellis Parker on a New York charge of Parker's forcing a confession, from Paul Wendell in the Richard Hauptmann case, has filed a libel suit for \$100,000 against Roake Carter, radio commentator, and others.

It is now announced by President Roosevelt that Postmaster General James Farley instead of resigning that job to look after his duties as chairman of the National Democratic committee, will be merely granted a payless leave during the term of political war, First Assistant Wm. W. Howes, acting in his stead until November.

## WARREN POWERS

Candidate For  
COUNTY JUDGE AND SCHOOL  
SUPERINTENDENT

When in February I announced for office, I did so on my own initiative. Neither before nor since that time have I been endorsed by any "click or clan," and do not expect to take orders from any such body after being installed in office. I much prefer serving each and every citizen of the county on an equal basis.

To be judge it is not necessary to be a lawyer. In fact, there is no legal bar to any one taking the office provided he is a qualified citizen. In this county the one who is judge is also school superintendent. If the office of school superintendent were separate, no one who is not qualified to teach in the better schools of the county could be installed in this office. You are entitled to one qualified to hold either office. In offering myself for County Judge and ex-officio School Superintendent, I feel that my experience and training fully qualify me for the duties of both offices.

I am 40 years of age, married, and have two children. I am a graduate of an accredited high school and hold a bachelor's degree from the Texas Technological college. I have completed a business course in a standard commercial college. My professional training includes, in addition to educational and cultural subjects, the more vital phases of economics and civil law.

I served in the army during the World War. During boom days I kept books in an oil town bank. At times I have assessed taxes in independent school districts, and in 1930 I enumerated the Federal census in the southeastern part of this county. For thirteen years I have taught in schools similar to those found in Bailey county, and have served in two different schools of the county.

It is my belief that thrift and economy should be exercised in the spending of county and local funds. Present roads leading to markets and schools, including mail routes, should be maintained in a state of good repair, and others opened as conditions make it necessary. All coming before the county and commissioner's courts should be as disposed of at least possible cost, and with special privileges shown to none.

All grade schools should be standardized, the standard school having minimum requirements as to equipment, length of term, per centage, attendance, and the training of teachers. A sufficient number of classed high schools should be established that each boy and girl may have easy access to an accredited high school. In each school maintain, within the county, courses should be taught dealing with the present interests and future needs of those in attendance. It would be my pleasure to visit each school at least twice during the school term.

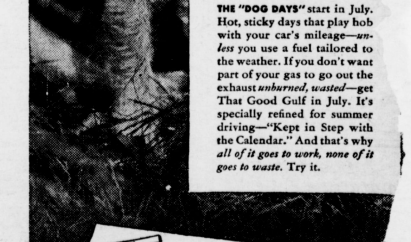

Before making up your mind to vote for any one else, my training and experience should be carefully considered. When you go to the polls on July 25 and again on August 22, vote for Warren Powers, the one best qualified to fill the office of County Judge and ex-officio School Superintendent.

**General News Over Texas And Adjoining States For The Week**

Commercial failures in Texas showed a decline of 44 per cent for May and 47 per cent for June over the same periods in 1935.

Imitating the plan of a former noted desperado five prisoners from the De Witt county jail last Friday made a pistol from soap and escaped.

The Texas Prison system received \$538,924.23 for its cotton reduction under the AAA program, secretary Wallace has announced.

One of New Mexico's oldest citizens is Senora Jetrudes Arguey, born at Chama, that state in 1824, now living at Clovis, 112 years of age.

The largest steer ever received at the East St. Louis stock yards arrived there last week from Texas. It weighed 2,630 pounds.

A petition is being circulated in Clovis, N. M., to raise Curry county's \$100,000 part of cost for a \$181,000 county hospital.

Littlefield school directors, in Lamb county, last week placed an order for Chevrolet school buses totaling \$21,930.

Former state senator Walter C. Woodward, Coleman, was last week elected president of the State Bar association at its meeting held in Dallas.

Reports from 15 representative counties in Texas show a 33 per cent increase or a total of 8,226 automobile sales during June over the same period in 1935.

Peter Molyneux, prominent Texas economist and publisher of the Texas Weekly, is seriously ill at a Dallas hospital, blood transfusions having been given him.

South Texas onion growers were last week paid \$213,000 for onions by the Federal Surplus Commodities corporation, the payment averaging 55 cents per sack.

Opening last week of a highway from the U. S. to Mexico capital city forms an important connecting link. The road from Laredo to Mexico City is 760 miles long and cost \$17,000,000.

Clearly a county seat fight is in the offing in Lea county, N. M., since 2,683 citizens have petitioned moving of the county capital from Lovington to Hobbs. An interesting legal battle is anticipated.

Little Misses Doris and Nell Ruth Hammock and Ross Hammock of Sudan visited their grandmother, Mrs. A. G. Hammock last week.

W. C. C. Elmore is visiting in Lubbock.

Welcome address, Mrs. W. A. Elmore. Response, Mrs. W. G. Kennedy. Secretary's report, Mrs. Cecil Robinson. Solo, Mrs. Alvie Moore. Demonstrator's story, Mrs. O. R. Wilson.

A special "Circle Back punch" was served with cake to all those present. "Your booties are just splendid," said Miss Stewart. Mrs. Wilson's work was also highly commended.—Reporter.

**LANDED ALIENS MUST REPORT**

Attorney General McCraw ruled last Friday that all aliens owning land in Texas must file the report required by Article 176 of the revised civil statutes of 1925, without regard to whether such lands are subject to escheat.

McCraw said failure to file it would make the lands subject to escheat even though the properties otherwise were exempted from the escheat law.

Article 176 provides that aliens acquiring lands shall within six months after such acquisition, file with their county clerk a detailed report concerning themselves and their lands. The report would include the nation of which the alien is a subject, how long he has resided in this country, name and number of survey in which property is situated, the abstract and certificate number the persons from whom acquired, and either a description of said land by metes and bounds or a reference to a deed in which it is described.

**Length of Suez Canal**

The actual length of the Suez canal is about 100 miles, a little more or a little less, depending upon the way in which it is measured. Reference books do not agree as to its exact length. The discrepancy lies in the fact that it may be measured from the southernmost end of Port Said harbor to the northeastern shore of Suez bay at Port Tewik, or from the De Lesseps statue north of Port Said to the anchorage in the middle of Suez bay.

**PURSANG**

Invaluable gain faster with this marvelous new tonic which helps build healthy, red blood corpuscles.

It is remarkable how much better Pursang makes invalids feel. And not only invalids but those who always feel "half sick" because of overwork, wrong food or lack of exercise have reduced the iron content of their blood.

Physicians and hospitals now prescribe Pursang as an aid to convalescence. If you are tired or nervous, can't sleep or find it hard to rest well, or find it hard to recover from simple illnesses, try Pursang for a week or so. See how much better you feel!
