

MULESHOE JOURNAL

Dedicated to the Progress and Development of Bailey County and the South Plains of Texas

LITTERA SCRIPTA MANET—THE WRITTEN WORD ENDURES MULESHOE, County Seat of Bailey County, TEXAS, THURSDAY, SEPTEMBER 30, 1937

VOLUME 15 NUMBER 36

CARNIVAL ATTRACTIONS, EXHIBITS FOR FAIR READY

INDIVIDUALS, CLUBS & DISTRICTS ALL OVER BAILEY CO. VIE WITH EACH OTHER IN VALUE OF EXHIBIT

Farm Communities, Schools and Clubs Take Part, Football Game and School Parade On Schedule of Events.

Everything is all set for the Bailey County fair beginning here today, big crowds of people arriving this morning for first view of exhibits. Under direction of Manager Connie Gupion and his assistants booths have been built, reservations made and a large number of exhibits from all over the county expected to be moved in by the noon hour.

W. C. Taylor said that while numerous farmers of various communities had expressed intention of making showings of their products, he had no idea the number of individual and community exhibits there would be; but said he was confident of extensive showings. Already overflow space has been necessary, and some exhibits are being placed in the Muleshoe Motor Co. building.

Women Take Part

Every women's and girls' club in the county, under direction of Miss Alma Stewart, home demonstration agent, will take part in some of the exhibits shown. It is expected that at least 250 club girls and women will bring more than 500 cans of foods of different kinds to enter in the exhibit shown. Contest for award of \$35 which goes to the County Council. Some of these clubs will be represented 100 per cent in the contest. Members of the Council will give away at the fair a large cabinet filled with canned food prepared and donated by the club women. Some fortunate person will obtain it absolutely free. Details of the gift may be obtained from any of the club girls or women.

Several community booths of products grown and made preserved by citizens of the respective communities.

Football Game With Dimmitt Featuring County Fair, Friday

The Muleshoe High school football team is scheduled to play a game with the Dimmitt High school team here during the fair. The game has been called for Friday afternoon at 2:30 o'clock, October 1, according to Coach C. R. Stevens.

This will be the third game played with the neighboring team in the past two years, and the first time the Dimmitt team has played on the local field. The local boys lost one game and tied the other one in previous playing with Dimmitt.

All local citizens and fair visitors are urged to attend the game. A small admission fee will be charged.

A pep squad has been organized among the high school girls with Miss Evelyn Boone, sponsor. A majority of girls in the upper classes are taking part and much interest is being shown. New yards, parades and songs are being worked out and plenty of sideline support will be in order to boost the football players.

County School Supt. Gives Warning To Drivers About Bus

Texas has a law designed for the protection of school children, and requiring all motor vehicles to come to a stop when passing a school bus that is loading or unloading pupils, according to M. G. Miller, county school superintendent, who suggests that car drivers give more careful attention to such requirements.

Some complaints have already been turned in regarding drivers who have not observed this requirement, some of whom probably are not familiar with the law; but in the interest of humanity, it is being urged that all car drivers should strictly observe this statute when coming upon a school bus taking on or discharging pupils.

There are more than 2000 pupils being transported daily to and from the different schools in Bailey County, being handled by 20 buses, and every possible precaution should be used to protect these pupils from accident. Mr. Miller insisted.

are in evidence. There is going to be a large display of textiles, including bed spreads and fancy needle work of different kinds. Some of the school districts over the county are also preparing exhibit booths. Merchants of Muleshoe will have display booths of various kinds, while one unique booth is that of the Resettlement administration, showing a model farm home with its attending crop products for the year.

There will be two radio booths where messages and music will be gathered out of the air and through loud speakers spread abroad over the fair grounds. The Bailey County Council has prepared Educational booths, the Goodland club showing "Production of Clean Milk," Joyland, "How to Help Your Child Help Himself," West Camp, "Barbecued Suppers," Balleysboro, "An A-1 Lunch."

The Carnival Here

The Dudley Carnival shows, having 20 distinct shows and concession features moved in the first of this week and took possession of an entire block of land just west of Main street. It's a regular Midway outfit, recalling the days of the Chicago Worlds fair when every conceivable form of entertainment was offered the visiting public.

Shows of various kinds, merry-go-round, high dives, knife and cane rick, big ferris wheel, merry-go-round, have already been doing a thriving business, hundreds being attracted by the interesting novelty features of entertainment offered.

Football Game

The Dimmitt High school football squad, an old and formidable enemy of the Muleshoe Yellowjackets, will be here Friday afternoon for a hard fought game on the local gridiron at Warren park. These teams, clashing before, have proven to be quite equal in ability, and plenty of thrilling plays are anticipated before the game ends one way or the other—which way being just a toss-up.

School Play at Fair

Saturday is School day at the fair, and various schools from all over the county are planning attendance, many of them decorating and bringing floats of various kinds to enter in the big parade.

Some Friday directors will hold a meeting looking toward permanence of the fair, completing the organization, and making arrangements for land and buildings for the coming year.

The Journal this week printed 350 feet of ribbon to be given as premiums for exhibit honors during the fair.

HUGE SUM FOR PARALYSIS

A total of \$1,000,779.23 was raised by the 1937 National Birthday balls for the President, according to figures just released.

Of this sum \$952,293.89 was represented by the more than 3,800 parties held throughout the U. S. Telegraphic birthday greetings accounted for another \$80,106.19, the remaining \$59,379.15 represented private contributions.

Under the plan, 70 percent of locally raised funds remained at home to combat infantile paralysis, while the 30 percent went to the Warm Springs Ga. Foundation, it receiving \$327,223.70.

COUNCIL EXHIBITS AT HUB CITY

The Bailey County Home Demonstration Council has entered an educational exhibit in the South Plains fair being held this week at Lubbock, it being in charge of Mrs. E. L. Smith, West Camp community.

The exhibit consists of some 15 different kinds of vegetables in Mexican basket containers obtained across the Rio Grande river, also appropriate placards and explanations regarding the food value of each and how to prepare it.

All five proposed amendments to the New Mexico constitution were crushingly defeated last week by an unexpected vote approximating 80,000 ballots.

AGRICULTURAL PROGRAM FOR '38 ANNOUNCED ONE VARIETY COTTON URGED BY SPEAKERS

Acreage To Be Divided Among Growers Officially Says. Experts Urge Planting Longer Staple Kind To Meet Demand.

College Station.—The 1938 Agricultural Conservation program will set up acreage goals for cash crops which are smaller than the established bases, according to Geo. Slaughter, chairman of the Texas Agricultural Conservation committee, who has recently returned from Washington, where representative farmers were called to confer with AAA officials as to the program.

The 1938 program is in most respects quite similar to the 1936 and 1937 program, Slaughter said. The range program, developed during 1937, will be continued.

Chief difference in the new program from previous plans is the provision for national goals for major soil-depleting crops to provide adequate supplies for consumption and export, but such as to keep down burdensome surpluses, according to Slaughter. He explained that each state will be given its share of the national goal, and each county will be given its share of the state goal. The county goal will be distributed among the farmers of the county.

In 1938, the maximum payment for each producer will be calculated at the beginning of the crop year and the attainments of soil depleting and soil building goals will be set as conditions for full payment.

The division of payments between landlords and tenants will be the same as the division of crops, Slaughter said. The new program was hailed by Slaughter as by far the most uniform in application to all regions that has yet been developed. He stated that it is the plan of the Agricultural Adjustment administration to inform each farmer as to the acreage in each of his crop goals before planting time in the spring of 1938.

LUBBOCK BOOSTER HERE

Three big bass loads of Lubbock citizens advertising the South Plains fair visited Muleshoe Thursday noon of last week. They carried with them a loud speaker over which features of the fair were announced, also brought with them a band which furnished inspirational music for the occasion.

Main street was crowded with autos containing people to hear and see the boosters.

The local Chamber of Commerce, under direction of R. L. Brown, its president, furnished the visiting delegation with a big watermelon feast before they departed.

Buy it in Muleshoe.

ONE VARIETY COTTON URGED BY SPEAKERS

Experts Urge Planting Longer Staple Kind To Meet Demand.

Seeing the need of better quality cotton to meet competition from other states and from foreign countries, Bailey county farmers agreed at a meeting in Muleshoe, Wednesday, of last week to make an effort toward securing varieties that will yield longer staple than is generally grown in the county.

A committee composed of representatives from the various communities was designated to study experiment station results of variety tests with the view of recommending the use of the best variety to all growers in a community or the county as a whole.

E. A. Miller, extension agronomist, and F. E. Lichte, extension gins specialist, A & M college, met with the farmers and discussed the serious problem faced by Texas growers of short staple cotton. Mr. Miller pointed out that the major portion of the world carry-over of cotton is of poor staple and grade and that Texas is now producing most of the short staple cotton grown in America.

In emphasizing this urgent problem, Mr. Miller stated, "Some foreign spinners are now discriminating against Texas and Oklahoma cotton by specifying in their orders for American cotton, that cotton from none of these states shall be included in the shipment."

Mr. Lichte discussed methods of harvesting as it affects grades. It is his opinion that Texas growers must get away from the practice of "boll pulling" and pick their cotton if they expect to compete with other states. He presented figures to bear out the fact that picking is done at a lower cost per bale than pulling. The sample is usually stepped up as much as two grades, according to Lichte.

One-variety communities, it is thought, will enable producers working together to provide sufficient volume of good cotton that it can be marketed on grade and staple basis.

The committee expects to study cotton varieties at the Lubbock experiment station within the next few days. Their findings will be discussed in community meetings at a later date when one-variety communities will be organized.

HAVE BOOTHS AT CLOVIS

A wide variety of Bailey county exhibits is being shown at the Curry County fair held at Clovis, N. M., this week, the exhibit being under direction of R. L. Brown, Levi Churchill and others.

STORM CLOUDS GATHER WHEN THE SPECIAL LEGISLATURE GOES INTO ACTION AND GOVERNOR LEADS WAY

Lightning Flashes About Sales Tax Idea As Other Plans for Clearing Debts and Raising Funds are Suggested.

When Gov. James V. Alfred faced the legislators at Austin last Monday gathered there in special session to do something about the state treasury deficit and make arrangements to pay added taxes accruing and voted recently by constitutional amendment, he faced a bunch of men widely divided as to their ideas and with all indications of a stormy session at hand.

Even as the governor delivered his conventional message, there were evidences of storm clouds gathering in the state capitol building, with fiery lightning of oratory to soon break loose. Several of the legislators declared in no uncertain manner they would vote for no increase of taxes at this time.

The governor said \$5,500,000 was needed annually for social security payments, \$2,000,000 for old age assistance, \$300,000 for the needy blind, \$1,500,000 for dependent children and a similar amount for retired teachers, also, \$1,626,000 to repay money borrowed for old age assistance. He said the state debt might go to \$24,000,000 within another year.

MULESHOE DELEGATES HEAR MAHON AT LITTLEFIELD FEED

Among those from Muleshoe who attended in honor of Roy McQuatters, master farmer of Lamb county, at Littlefield, Thursday evening of last week were Judge M. G. Miller, Miss Elizabeth Harden, Miss Mildred Miller, Mr. and Mrs. W. G. Kennedy, Mr. and Mrs. H. E. Schuster, Mr. and Mrs. J. W. Alford, Mr. and Mrs. George Damon, Mr. and Mrs. Oran Sanders, Miss Alma Stewart, A. J. Gardner, Gilbert Wollard, Jess Osborn and Dr. A. E. Lewis.

The delicious banquet was served at the Methodist church of the neighborhood city and Congressman George Mahon was the principal speaker for the evening. Judge Miller of Muleshoe introduced the local delegation and made a short talk. Immediately following the banquet, guests visited the Lamb County fair.

STOCK MARKET DROPPED TO NEW 2-YEAR LOW SATURDAY

Selling forces in the New York stock market pounded stocks down to a price lower than during the past two years, representing the sixth steady decline within a week's time.

A downward revision of earnings and dividend prospects occasioned by increased wage demands and slackened business caused by forced increase of prices, was given as the principal cause.

COLDER WEATHER IS HERE

Old Man Winter dropped down from the North Pole last weekend and rode rampant over several states of the Union, citizens of the Texas western area awaking last Saturday morning to discover the mercury in thermometers had considerably tumbled during the previous night.

With the exception of a light norther which hit this section September 10, this is the first real breath of winter felt this year. Old-timers who believe in the theory that killing frosts come 60 days after the first norther, are looking for such on or about November 10.

While this cold spell continues, light frosts may be witnessed here sometime in October, yet no serious apprehensions seem to prevail among citizens in and around Muleshoe of near-damaging consequences to crops in this area.

Pleasant weather, which invariably prevails in this section, may show a return ticket any time and folks will again throw back their added best covers and again don lighter garments.

NEW PASTOR FOR SUDAN

Following the resignation of Rev. Vernie Pipes of the Baptist church at Sudan, the congregation has called Rev. John Dickerson of Fletcher, Okla., to fill the vacant first added best covers and again don lighter garments.

His arrival in that town is expected soon.

In another year. The governor does not favor a sales tax to raise this money.

However, it is known some legislators do favor a sales tax, and it is expected several such bills of different kinds and provisions will be soon introduced. One senator would tax "everything, but food, medicine and cheap clothes." Senator Clint Small introduced a modified form of sales tax bill two years ago, and it is expected he will have another along the same lines. Several senators are said to be anxious to delay the sales tax question until the next regular session, just taking such legal steps as are necessary to get by with during this special meeting.

Senator Holbrook has declared himself fundamentally against the idea and says, "If we are going to collect taxes, we should spread them among all people, not pick out an age or a class. He stands with the late President Cleveland who declared "the people must support the government, not the government the people."

Rep. Harry McKee has a plan to divert approximately \$5,500,000 from the state road fund to bolster the state general fund which will likely create quite a commotion when and if it reaches the floor of the House. Senator Collier has a similar idea.

Among such legislators are pessimistic over the probable outcome of this session. A few days organization and preliminary wrangling is to be expected before these solemn assembly get down to business before fur and fire begins flying; but there is every present indication that whatever comes out of this session, it will come as the result of a battle royal.

Cotton Popping Open Gins Get First Bales Soon On Regular Run

Look about in any direction as one travels over Bailey County and a big column of smoke may be seen exuding from the stack of some of the 13 cotton gins located in this county here the task of ginning an estimated 16,000 bales of the fleecy staple has already begun.

During the past months gin owners have been diligent in overhauling, repairing, installing new machinery or needed parts and getting ready for the annual "run." Already practically every gin has been in operation for a week or more. Within another week all eight will be running pretty well on full time schedule.

Most of the cotton crop in this county is late this year, some growers having to replant two and three times, because of excessive rains during the spring months; but now it is opening rapidly, and with a continuance of fair weather and the granting of reasonable sunshine days, the bolls will be popping open by the millions.

Government Rules Participating In Adjustment Paym't

Instruction to gin producers who expect to apply for the cotton price adjustment payment have been received by County Agent W. C. Taylor, and are given below.

Buyers' receipts for cotton from the 1937 crop sold prior to September 15 must be delivered by mail or in person to the county agent's office not later than September 15. Buyers' receipts for cotton sold after September 15 must be so filed not later than 15 days after date of sale.

Pending receipt of government forms, producers should secure original sales receipts from the buyer showing date of sale, name and address of producer, the number and gross weight of bales and the signature and address of the buyer.

Each college Lubbock, had an enrollment last week totaling 3,036, or 41 students more than the same day last year.

SUBSCRIPTION RATES

In Bailey County, one year, \$1.50; Outside of County one year, \$2.00.

Published every Thursday at Muleshoe, Texas.

Advertising rates given upon application. Telephone No. 54.

Subscribers who change their address, or fail to get their paper, should immediately notify this office, giving both new and old addresses.

Communications of local interest are solicited. They should be briefly written on only one side of the paper, and must reach this office not later than Wednesday morning of each week. The right of revision or rejection is reserved by the publisher.

Advertising that does not run in its text or typography that is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, it matters not by whom nor for what purpose, if it is to be published, must be paid for in advance, unless it is an advertisement and when sent in for publication must be paid for at the regular advertising rate for each issue printed.

Obituaries, cards of thanks, and resolutions of respect will also be charged for at the same rate.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Muleshoe Journal will be gladly corrected upon its being brought to the attention of the publisher.

In case of errors or omissions in local or other advertisements, the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

Editorial

Every Great Attempt is Glorious Even if It Fails

A THOUGHT FOR THE WEEK

Oh, let the fierceness of the wicked come to an end; but establish the just for the righteous God trieth the hearts and reins.—Psalms 7:9.

The fine and noble way to destroy a foe, is not to kill him; with kindness you may so change him that he shall cease to be so; then he's slain.—Alyen.

FINE TRAINING

Those Bailey County citizens who have had little or no contact with the training offered the youth of the land through the various activities of the numerous 4-H clubs, are due to open their eyes in astonishment once they become acquainted with actual results. Four-week and the opportunities it offers for development of personal interests and self-reliance are almost unlimited. Youths, through their various projects, learn useful and worthwhile ways in which to entertain their spare time, and in conducting their meetings learn all the fine points of rules of order and discipline. A 4-H club meeting is not a casual get-together but an orderly, well-regulated session, and the youths elected to office gain experience which equips them far better to assume positions of leadership in later life than was possible in years past. The growth of the movement has been rapid because it has so steadily proved its value.

Youth activities recently have been developed by adults to direct them something to do which will give their excess energies in a progressive course. The work of the 4-H clubs is offering to the entire county a fine example of what youth-founded and youth conducted organizations can be, and that work deserves the hearty support, morally and financially, of every citizen who has the best interests of future Americans at heart. Parents of growing boys and girls in this and every other neighborhood can do no better thing than to encourage them in the principles, the purposes and the actual activities of 4-H clubs of every description.

In addition to the exhibits placed by men and women in the Bailey County fair to be held here next week, we anticipate there are going to be some fine 4-H club exhibits from the boys and girls who are such members. They will be worth while observing with much interest and concern. These young folks of today will become the citizens of tomorrow and should have every appreciation and encouragement possible.

JOE GALT

THE SIMON PURE OPTIMIST'S BADGE THIS WEEK GOES TO THE FELLER DOWN THE STREET WHO TOLD US ANHOLE AGO THAT THE WORLD WOULD TOLERATE ANY MORE WARS.

THE COUNTY FAIR

That the county fair is one of America's favored annual institutions is clearly evidenced by the numbers of them held each year, several discontinued during recent years being back again with big exhibits of appealing nature, enjoying monster crowds attending and showing good financial returns on the ledger.

If you wonder what the American people as they really are, visit a county fair. No fancy clothes will you see but rather the serviceable, comfortable styles to which American clings.

You will learn that it is still possible in this modern age for folks to enjoy themselves by inspecting the harvests of the fields, the products of the home and the inventive genius of the nation as displayed in labor-saving device and agricultural machinery. You will find as much interest shown in horses, hogs, cattle and chickens as you will in streamliners, airplanes or more-cylindrical autos. You will overhear men and women chatting about weather conditions and coming crop prospects and about the coming and going of their neighbors, instead of about fan-dancers, finger-nail polish or movie star divorces.

Other American institutions may come and go but the county fair remains. It does so because it fills a need and meets a want in American life as it exists outside the large cities. The county fair is not only an educational set-up, it is a social oasis for those in whose lives the green spots are infrequent. The county fair has established itself as a fixed part of our American life. It will remain such just as long as it affords a cheerful holiday to those who anticipate its pleasures for months in advance, as many millions of people now do majority of Muleshoe citizens among them.

BETTER READ IT

The recent loss to a poor widow in a neighboring state of insurance money that would have cared for her comfortably the remainder of her life must have impressed everyone who read about it with the importance of reading the fine print on not only an insurance policy but on everything else to which a signature is placed. Almost every Muleshoe citizen is, in the course of his or her lifetime, called on to sign some sort of contract or agreement. In most instances, such documents carry stipulations, reservations or agreements in very fine print, and in a majority of instances the person placing his signature to it does so without a careful reading of that fine print. The results have been anything but pleasant for thousands of people.

Where there is a deliberate intention to practice deception, this fine print serves the dishonest salesman or business concern with a loophole through which to escape responsibility. No matter what sort of verbal contract you may have had, it is null and void if the fine print on the printed contract specifies differently. Careful reading of every word on the contract or agreement you are about to sign may prevent serious misunderstanding and financial loss. No matter how much confidence you may have in the salesman or his firm, always read the fine print before you put your name to it. If its meaning is not then clearly understood by you, then let it alone or insist upon its being so worded that you will not later on be left holding the bag.

GETTING THEIR SHARE

With our national income having risen to \$62,000,000,000 last year, an increase of about 40 percent over the dark days of 1932 and 1933, it ought to be of interest to everyone around Muleshoe to note that the workers of the nation are getting their share of these mounting billions.

Analyzing figures issued recently by the Dept. of Commerce, it may be noted that labor's share of our national income last year amounted to \$41,233,000,000, or about 66 1/2 percent of the total, compared to less than 60 percent in 1932. These figures answer rather effectively the charges made by certain muckworms that industry is engaged in piling up huge profits for itself without passing on to the workers a fair share of the mounting wealth. The facts in the matter are that labor is now receiving a larger percentage of our national income than at any time since the boom year of 1929.

The wide distribution of this increasing national income among the workers in factories, mines, stores, utilities and farms means additional buying power to the millions, and this in turn makes for better business all around. We are adding to our national income by creating wealth, not merely attempting to divide what we have. And we are bolstering our purchasing power by seeing to it that this new wealth finds proper distribution among those who created it. That way lies national prosperity.—The thing America has been praying for.

A CHALLENGE

If single men and 30 years old or less, of sound mind and body, cannot support themselves in days like these it is worth an effort to find out why. The depression emergency is over. Except for strike factories are operating at near-record production. The crop for more help on the farms has been heard for months. If any able-bodied man, not more than 30 years old, cannot manage to feed, clothe and shelter himself under such conditions then the taxpayers, out of whose pockets come the relief funds, are entitled to know why.

America was built by men and women who managed for themselves. If it is to continue to be the kind of country in which we all can take pride, the job must be done by those who do for themselves and make a go of it despite the difficulties.

The average citizen around Muleshoe feels the time is ripe for show-down in the relief set-up in this country. He doesn't want to see any worthy person suffer, but he has grown tired of being a support to the man who, in thousands of cases should now be able to support themselves. In some instances, there are indications certain relief rolls are actually padded more or less so administrators may hold their jobs. "Rid the relief rolls of able-bodied men" is the rebel to become a national slogan.

THE IRON LUNG

It is quite common, in numerous instances, for people to "look the stable after the horse has been stolen; and several towns of this part of the state are pecking up and taking action before loss in the matter of infantile paralysis.

While there have been few reported cases in this immediate section, yet no one knows when that dread disease may spread, and it is not unreasonable that means of protection should be taken.

Recently several municipalities, both large and small, have invested in the "Iron Lung," a form of mechanical respirator which frequently saves the lives of children afflicted with infantile paralysis. Wichita Falls and Abilene have each placed orders for this life-saving contrivance, and the little town of Santa Anna, near Coleman is planning the purchase of one. Several of the larger cities of this area have already fortified themselves with this machine.

THE SCHOOL FLAG

The Journal has no idea the cost of such a mechanism. However, its virtue of cure is well established. Numerous lives obtaining its benefits have been saved. We believe the purchase of such might be advisable, for to be forewarned is to be forearmed. No one knows when someone of this section may become a victim, and the saving of such one life would readily warrant such investment.

SNAP SHOTS

Probably the one who writes obituaries on tombstones should be called a monumental liar.

It is said that everything that goes up must come down; but most taxpayers have their doubts.

Fortune may only knock once; but it has been our observation that Misfortune isn't so particular. She just walks right in and sits down.

It is quite often that flaming youth cocks its own goose.

Folks used to sit out in the evening and gas on the steps; but now they spend the evening stepping on the gas.

Perhaps one trouble with the present generation is that too many parents' slippers are being worn out on the dance floor.

Jaunty Journalettes

Most Muleshoe girls do not care to stuff olives; but they do like to fill dates.

One can never tell about some Muleshoe girls—and if they could they wouldn't.

It's still unwillful to kill anybody in Muleshoe unless one takes several years for the job and dies by nagging.

In early days an Indian painted his face and set out to "win a squaw"; but nowadays it's the other way in Muleshoe.

Maybe a Muleshoe man would also spend an entire afternoon buying a hat if he merely wanted other men to see it.

The average Muleshoe girl doesn't have to watch the speedometer now days to know what her boy friend is driving at.

Middle-age is that period in a Muleshoe man's life when he would enjoy having a good time if it wasn't so hard getting over it.

Another thing one seldom sees around Muleshoe is a man all out of breath from running to escape temptation.

No Muleshoe woman can tell for sure when she begins to seem old to others because most people are too loopy to tell her.

No Muleshoe woman ever gets used to dust—and maybe it's because her husband is made of dust some of them so often object to his hanging around for themselves and make a go of it despite the difficulties.

Pavement Pickups

H. C. Holt says "lots of times when a woman goes up in the air she lands on her husband."

"As a general rule," remarked Miss Lola Lyscomb, "little remains to be said after the Laldes Aid has adjourned."

Prof. Cox says lots of old-fashioned men who had good heads for figures now have grandsons who have good eyes for them.

Some one asked Mrs. Fere Little the other day if she had read 'Freckles.' "No," she replied, "just a few brown ones."

Cecil Tate and family enjoyed several days vacation in the mountains of New Mexico this week. Upon their return, Cecil said he was just like the moon gets sometime—down to his last quarter.

It is reported the pupil who recently won high honors in an essay contest on "The Results of Laziness" put on by Prof. Gallman, was a boy who just turned in a dirty sheet of blank paper.

Pharmaceutical Scientist says he has recently become convinced that some of the Scotch fathers around Muleshoe are telling their kids ghost stories instead of giving them Ex-Lax.

Noting that an expert has recently said that 500 different muscles were involved in writing, Jess Osborne remarked, "No wonder we get so many checks at the bank whose signatures can scarcely be read."

An Old Custom
It was an old custom in Norway and England to present every bride with a keg of butter, predicting an abundance of all good things.

786 Appendicitis Victims in Texas Say St. Statistics

Austin, Sept. 27.—During the past year 786 persons died of appendicitis in Texas, according to Vital Statistics compilations of the State Department of Health. Many of those deaths might have been prevented had the patient been more aware of the disease and its symptoms.

There are two forms of appendicitis, acute and chronic. The form that appears suddenly, with great pain and sickness is acute. Chronic appendicitis may extend over a long period of time and consists of slight attacks at intervals, but, at some time, there will usually occur an attack worse than any before and the disease may then become serious.

"In the presence of abdominal pain, give nothing by mouth. Never give laxatives. Apply an ice pack. Call your family physician. Abdominal pain which persists over a period of six hours is usually serious," advises State Health Officer Geo. W. Cox.

Hospital records show that the above advice has reduced appendicitis deaths 75 per cent. When otherwise healthy people are operated upon soon after the beginning of the "pain in the stomach" caused by appendicitis, little danger is experienced, but the surgeon's work is made more difficult and the patient's chance of recovery considerably lessened when there is a long delay in seeking medical help, and especially if a cathartic has been given.

How to prevent appendicitis? Keep the body in perfect health as long as possible. Watch your teeth, your tonsils any place where infection may occur. Get plenty of good food, plenty of sleep, plenty of exercise. Have a thorough medical examination at least once a year and have your teeth examined and cleaned by a dentist at least once every six months. This kind of watchfulness will not only help you to avoid appendicitis, it will help you to avoid many other illnesses as well.

Two thousand negroes were drowned in the recent Mozambique flood in South Africa.

PRINTER WOULD GET EVEN WITH DOCTOR FOR CHARGES

A printer got slightly peeved at a letterhead from a doctor who wanted bids on several thousand letterheads, different sizes, different grades, and different colors, and wanted the printing form held standing. So the printer took his typewriter in hand and wrote:

"Am in the market for bids on one operation for appendicitis. One, two or five-inch incision—with or without incision open for about sixty days, as I expect to be in the market for an operation for gallstone at that time and want to save the extra cost of cutting."

Chile supplies from its nitrate fields about 90 percent of the worlds loline.

Make Every Farm a Factory Every Day of the Year

WELCOME TO THE BAILEY COUNTY FAIR

This your county-wide bank takes real pleasure in extending to all an invitation to attend the county-wide fair to be held at Muleshoe.

We are proud of the crops being raised in Bailey County this year, and we are proud of the people who raise them. Let everyone join in viewing the magnificent exhibits to be seen during the fair.

While enjoying the occasion, it would be a good time to open an account with the bank—if you do not already have one. You will soon be needing a place to put your harvest-received money.

We will be glad to discuss with you any financial problems you have in mind.

West Camp News West Camp H. D. Club Meet The Ladies H. D. club met in the home of Mrs. Willie Williams Wednesday, September 22. Plans were made for the fair exhibit. It was decided we set a table for a buffet supper. The tables served delicious ginger bread and butter milk to Mesdames E. L. Smith, B. Waller, Luther Blakely, Roy Sheriff, Grady Sheriff, Melvin Snider and Johnnie Williams. Next meeting will be with Mrs. Roy Sheriff, Oct. 13. Husbands Entertained The West Camp H. D. club ladies last week entertained their husbands with a buffet supper in the home of Mr. and Mrs. Melvin Snider. The table was beautifully set with yellow candles and yellow flowers in the center, this color scheme being carried out through the entire meal. The menu consisted of brown and white sandwiches, chicken salad, sliced carrots, pickles, cookies and punch. Forty-two was played throughout the evening. The attending were Messrs and Mesdames Everett Roark, Odes Thompson, Chas. Pruitt, Luther Blakely, Roy Sheriff, E. L. Smith, Johnnie Williams, Willie Williams, Jodie Bright and Melvin Snider. Guests were Mr. and Mrs. Williams of Hollis, Okla., father of Mrs. Snider and mother of Roy Sheriff.

Naomi Smith and Nora Lee Dotson set the table—Reporter. KEY BABE BORN THURSDAY The babe born September 18 to Mr. and Mrs. W. L. Key, Watson community, died Thursday of last week. The little one, which weighed less than three pounds, following its birth, was rushed to a Lubbock sanitarium for incubator treatment, blood transfusion given and every known means used to prolong its life to no avail. Funeral services for the little one were held at Amberst, former home of the parents, being conducted by Rev. Clyde Coffman, assisted by Rev. J. E. Moore, a large crowd of family friends attending and many beautiful floral offerings contributed. MISS GOOCH IS PENSION AGENT FOR BAILEY COUNTY Miss Marie Gooch, formerly of Hale county, has been appointed old age pension assistance investigator for Bailey, Lamb and Parker counties, beginning her duties here Thursday of last week. She replaces Odes F. Martin, who was recently transferred to another district.

Miss Gooch will be in Muleshoe each Thursday morning of the week at the court house; at Farwell each Thursday afternoon at the court house; at Olton, each Wednesday afternoon at the court house, during customary office hours. Buy it in Muleshoe.

What Is the Farmer's Share?

A recent investigation of farm income by the Federal Trade Commission shows that the dairy farmer receives a substantial portion of the consumer's dollar.

Milk Industry Foundation Chart around 5 per cent, leaving an average return of 45 per cent for the farmer.

BAILEY CO. HOME DEMONSTRATION CLUB NEWS

By MISS ALMA STEWART Home Demonstration Agent

"I saw the exhibit on storing carrots at the Bailey County fair last year and tried it. I found it a successful method," said Mrs. Roy Helson, cooperator of the Enochs home demonstration club.

A basket, box or stone jar may be used for storing carrots. A layer of damp sand should be placed in the bottom of the container and the carrots should be pushed down in the sand then other layers of sand and carrots until the container is full.

Mrs. Helson says they had fresh carrots nearly all winter and they could not have had them otherwise because it was too far to town to buy fresh vegetables.

Plants Irish Cobblers

"We planted Irish Cobbler potatoes on March 12 and made a bushel on each 60 foot row," said Mrs. J. A. Johnson, home food supply demonstrator of the Goodland home demonstration club.

Plants New Zealand Spinach

Mrs. J. J. Deshaun, cooperator of the Muleshoe H. D. club planted 24 feet of New Zealand spinach in her cold frame. They have had fresh spinach all summer, divided with 5 neighbors and canned 25 pints.

Main Crop Was Peas

"We planted Genney's Yankton and Main Crop English peas," announced Mrs. Levi Churchill of Muleshoe, when asked about her garden. They found the Main Crop variety gave the best yield.

Six Baileyboro club girls walked 26 miles to a club meeting in August.

THE BIGGEST HOME OWNER

Uncle Sam is the biggest home owner in the land, through HOLC foreclosures. Now he has a whole town on his hands.

THE COMMUNITY FAIR AT BULA A BIG SUCCESS

Boys and Girls Exhibits Defy Skill of Adults.

More than a thousand people, citizens of Bailey and neighboring counties attended the Bula Community Fair held there in their spacious gymnasium Friday night of last week.

All exhibits shown were the work of 4-H club boys and girls, members of the agricultural and home economics department of that school; the older folks merely being permitted to come, view and take advantage of the skill the youngsters were attaining.

There was a big exhibit of canned goods, including vegetables, meats, fruits, jellies, etc. Lots of grain sorghum, melons and garden truck were shown.

Representatives of the Sudan Chamber of Commerce, composed of leading business men from that city, under direction of Herb Teal, president, were present, bringing with them "Uncle John Wills" orchestra.

At the conclusion of the evening's event, an immense watermelon feast was spread outside the building where everybody present had the opportunity of enjoying the luscious fruit of the vine and distending their equators to the utmost limit.

Bula community will select the best of its exhibits to be included in the Bailey County fair held here this week.

What's Happening In Washington And Other Cities Of Importance

Cattle sales reached an 18-year high in Chicago last Monday when they sold at \$19.60 per cwt.

The Federal government has ordered bonuses of \$50 each paid to men and officers being exposed to danger in both the Sino-Japanese and the Spanish conflicts.

That President Roosevelt is looking toward an infantile paralysis foundation for prevention and care of those so afflicted, is the information coming from Washington.

Estate of the wireless telegraph inventor, Guglielmo Marconi, who died a short time ago, has been set at only \$150,000, in contrast to the reputed fortune of \$25,000,000.

Americans have more automobiles than any other nation. Statistics show that in the U. S. there is one passenger car for every 5.8 people, compared with one for every 19 in France, 20 in England and 49 in Germany.

A flegly cross blazed early last Friday near the farm home of Ray Sprigle, Pittsburg newspaper man who recently wrote a series of articles associating Supreme Court Justice Hugo L. Black with the Ku Klux Klan.

Of the first 11,000,000 applications for social security account cards to that board in Washington, 8,243,385 were from men and 3,071,970 from women.

The nation's unemployment census will begin for the 31,000,000 families in November when blanks to be filled out by them will be distributed by mail carriers and through post offices Nov. 16 and 17, return being requested by the 20th.

U. S. Chamber of Commerce officials at Washington last Saturday declared federal, state and local taxes take too much of the national income that they discourage business, threaten the security of wages and savings, and retard employment.

Frederick H. Stuehnfeldt, president, American Bar Association, in an address to Kansas City, Kan., lawyers, asked for nationwide support of the legal profession "in opposing the present administration and particularly its apparent determination to destroy the Supreme court."

Albert Levitt, former federal judge of the Virgin Islands, has filed suit against eligibility of Mr. Justice Hugo L. Black taking seat on the U. S. Supreme court on the plea he was a member of the senate which allowed justices of 10 years service to retire at \$20,000 a year after reaching the age of 70.

THE JOURNAL SNAPSHOTS

Grid of 12 small photographs with captions: Cat Mothers Orphan Squirrels, Famous Tenor Quetta His Bear, Yerk, Tigers, Sets Home Run Record, Kate Smith is back in New York, Strutting Her Stuff - Pretty Claire James, gilded young dancer, chosen 'Miss Los Angeles' for the coming Ward's Glee beauty contest of Venice, Calif.

THIS WILL BE A GREAT KICK FOR THE OLD SCOTCHMAN!', 'HELLO SANDY! I'LL BET YOU DON'T REMEMBER ME?', 'HELLO, HECTOR - AN WHATEL'VE HE HAD TODAY?', 'WAS HE SURPRISED AS HE WOULD HAVE BEEN TWENTY YEARS AGO IF HE HAD GONE OUT HIS BACK DOOR AND IN THE FRONT?'.

Circleback News

The Chamber of Commerce good-will boosters from Sudan visited this community last Tuesday night. A splendid program including "Uncle John Wills" and his boys, was enjoyed by a large crowd.

Rev. Moore and D. L. Brewer went to Silvertown Sunday where Rev. Moore preached at the morning service.

Grandma Garner returned home Monday, after visiting in Morton and White Face.

C. Nail of Amarillo, spent Saturday and Sunday with Mr. and Mrs. Gene Nail.

Mr. and Mrs. Eimer Garner visited at Progress Sunday with Mr. and Mrs. Dave Stoval.

Mrs. L. C. Coker of Wichita Falls is visiting her daughter, Mrs. H. A. Gore. Dorothy Nell and Viola Brown were taken to Lubbock last week for medical examinations.

Mr. and Mrs. Clinton Lackey of Midland, spent Saturday and Sunday with Mr. and Mrs. Clayton Wells and family.

Mr. and Mrs. J. C. Hunt visited Sunday in Otton with her sister and family.—Reporter.

Goodland News

We are having some cool nights tonight in the rain the first of the week. We are hoping for some pretty weather to mature late feed and cotton. Feed is now being harvested, but cotton is opening slowly.

MANY DUCKS ARRIVING

County citizens coming into the county said they there are plenty of ducks now alighting on the shallow lakes in Bailey county and have been for the past week. Some declare it means a mild winter because the abundant grass and grains will furnish plenty of food, while others insist it predicts a hard, cold winter which is already on the way.

Practically all lakes of this area are not full of water due to recent rains and Nimrods are looking forward to good duck hunting.

GOVERNMENT FARMER LOANS

The Farm Security Administration operating in Bailey county up to July 31, this year had made 166 loans to farmers in Bailey county, such totaling \$114,276.29, according to J. W. McDermet, county supervisor.

Of the total amount of these loans now mature, collection totaling \$35,523.32, or approximately 63 per cent, have been collected he said.

Total loans made in Texas to the above date amounted to \$1,947,163.51.

TODAY'S TAXOGRAM

Advocates of a greater tax receipts on the part of the public have suggested that each rent contract include a statement of the portion of the rent that goes to meet the tax burden. On the average 22 cents out of the rent dollar goes into taxes and under the recently suggested plan a tenant paying a monthly rental of \$30 would receive a receipt of \$23.40 for living quarters and \$6.60 for taxes.

TO COLLECT BACK TAXES

It is stated during the special session of Texas legislature which began last Monday, efforts will be made toward collecting some of the \$20,000,000 delinquent taxes due the state, according to Senator Albert Stone, Brenham.

WILLS ORCHESTRA AT FAIR

The "Uncle John Wills" orchestra, well known in this section, playing nightly over broadcasting stations at Lubbock and Clovis, N. M., have cancelled their engagements for the latter part of this week and will play during the Bailey County fair here.

JUDGE HAY IS SUDAN P. M.

Judge Simon D. Hay, former county commissioner then county judge of Lamb county, has been appointed postmaster at Sudan, succeeding W. H. Lyle, who resigned to become cashier of the First National Bank, that city.

WEEKLY LAY SERMON BURNING BAD BOOKS

By JESS MITCHELL

History is replete with instances of the burning of lecherous literature, and there are a few records where, under the stress of political or religious bigotry, some good literature has been burned or otherwise destroyed. There is a record in sacred history where, under the ministry of a heroic evangelist, books were piled in the public streets and set afire, the value of them amounting to "fifty thousand pieces of silver."

I have thought for some time that another big bonfire, using the same kind of fuel is greatly needed today. The cost of many books today do not in any way represent their actual value, for many books, newspapers and magazines are of no real benefit at all, either as they degrade, in practically all the cities of this land bonfires of this nefarious literature could be made where the flames would mount two or three hundred feet high, and all the small towns could have similar bonfires of relative proportions.

New York City alone is said to now be putting out an average of 350,000 newspapers daily, much of their contents being insufferable trash that should never face the optics of any human being. The hundreds of thousands of "pulp magazines," the numerous pocket magazines devoted to sex, polluted love, rackets and crime of various kinds, all belong in the same category of profane literature that needs to be suppressed and then destroyed.

The position of a preacher standing in his pulpit is a responsible one; but I verily believe that of the editor and

publisher sitting behind their typewriters are even more responsible. I could name dozens of editors of the past whose literary, social and moral influence will live on forever. I believe the printing press is one of the world's greatest agencies for correction and propagation of high ideals. It is greater in its revolutionary powers than battle-ships and giant cannons; but much of it is being diverted into degrading and impoverishing channels.

Unfortunately there are some people in this world who make their minds receptacles of everything they read. Many are not capable of differentiating between the good and the bad. Such must be especially careful the kind of literature they peruse; for some of it is certain to have a distasteful effect upon their morals as well as their physical welfare. A novel, for instance, is a combination of history and fiction, with perhaps a little poetry mixed in. There have been good fiction writers of the past and today are; but the majority of novels are mere mental slush. It is not even fit to feed the hogs as stop. Reading of light literature is sometimes recreational, after one has been delving deep into some heavyweight subject; but the tendency of most people who begin reading light subjects is that they lose the habit of reading the heavier ones which require greater concentration of thought and more serious study to understand.

Many books and magazines of today portray an entirely false picture of life. Life is neither a farce nor a tragedy, a comedy nor a drama, though some may have a part or all of these

elements in their experiences. Men are not all knaves, nor all philanthropists, nor heroes; women are neither fairies nor furies, angels nor female devils; yet much of our modern literature covers such impressions.

Many a woman today who is an indiscriminate reader of books and magazines of the devitalizing or suggestive type is unfit for the duty of wife, mother, sister or daughter. Many a young man who becomes enraptured in such study reading becomes unfit for the responsible duties of the store, bank, factory or any other business, while both become degenerated mentally until they are unfit for the highest possibilities of successful life. Here and there may be an intellect which, like a magnet plunged into a mass of steel and brass filings, will pick up the steel and repel the brass; but that is an exception.

Sometimes a man for professional purposes must read plainly spoken words to gain information for the social and physical benefit of others, just as a doctor goes into a pest house, takes risks with contagious diseases for human betterment; yet I have known many of this kind whose previously poor character was terribly tinged and their personal purity perverted by such methods. Some books may have a modicum of good in them; but reading such is too much like plunging through a dense thicket of briars to get one or two juicy berries. I have known the mere scratch of a pin to produce lockjaw, and the striking of a single match to blow up a giant powder factory.

Playing with iniquity is always dangerous. Such is generally presented in a very beautiful and attractive form, apparently quite placid; but like the fangs hidden back in the serpent's mouth, it is there ready for the deadly strike at first opportunity. Books that corrupt imaginations and arouse base passions should be permitted in no home, and are entirely too many such books and magazines being published today. Even some of the otherwise great newspapers frequently carry race stories not intended to be morally enlightening or uplifting. The one who lets their mind dwell upon sensuality soon gets so they can think of nothing else. This statement is largely true in all departments of life.

Much of our modern literature is so reckless and polluted with its vivid and suggestive scenes and stories it is fit to poison all the fountains of public and private virtue unless the righteous combine for its destruction. Some books pose as apologizing for certain crime tendencies of today; but no matter the richness of their binding, the luxuriance of their pages, the expense of their printing nor the fineness of their rhetoric, their authors deserve a scourge of scorpions, the wrath of eternal lightning and the blast of righteous indignation, for they are conceived in sin, written in shame and should die in howling darkness.

Any literary compilation that seeks to make impurity decent, inquiry right and hypocrisy honorable deserves the curse of all respectable, high-minded citizens. Authors who write, publishers who print and dealers who sell books and magazines swarming with liberties and desperadoes, glorifying gangsters and soft-pedaling triangular situations deserve to be cut to pieces with the indignity of every community where such live or are dispensed. Unclean pictures, which some youths form the habit of buying, and many of the picture shows of today may be put in the same category; but their discussion is reserved for another time.

Every father and mother reading this epistle should carefully examine the books in their libraries and the magazines lying upon their tables to see if they are what their sons and daughters need. Some of these parents might be under the mattress of their children's beds, for they frequently get there. Perhaps some parents may be in need of a holy minister or sincere professor to examine some of their own reading. Badly chosen books may be put in any other place in which to begin an expurgation of obnoxious, seductive and damaging literature. Kindle the kitchen fire with kindling, burn the back yards, drop on the poison and keep stirring it in the flames until every piece from title page to appendix has been entirely consumed.

BY-DISTRICT LEAGUE MEETING HELD AT EARTH LAST SUNDAY

An all day intermediate bi-district Epworth League meeting was held at the Methodist church at Earth Sunday with representatives from Amherst, Muleshoe and Otton attending. Sunday school was directed by Mr. Wofford, his subject being "My Creed," after which Rev. Hill preached at the church hour, his topic being "Keeping True."

Dinner was served at noon to all present by women of the Methodist church. A business session was held immediately after dinner, followed by a pageant, "I Would Be True," given by Earth Intermediates. Rev. E. E. White spoke on the topic, "In All Things Faithful." Miss Geraldine Taylor of Muleshoe played a special piano solo.

About 50 leaguers were present at the meeting, those from Muleshoe being as follows: Thelma Jura, Pierson, Geraldine Taylor, Leona Bartley, Doris Churchill, Willis Farrell, Horace Edwards, Newt Hill and the league sponsor, Miss Elizabeth Harden.

THE REST OF THE RECORD

By James V. Allred
Gov. of Texas

AUSTIN.—The opening week of the second extraordinary session of the 45th Legislature has arrived and again the legislative chambers of the capitol are filled with the people's representatives.

As Governor, I felt it imperative to convene the session in order that the Legislature might pass laws levying taxes to raise revenues sufficient to provide adequately for:

1. The wiping out of the deficit in the General Fund and to make income equal outgo from said fund.
2. To provide additional funds to be allocated for old age assistance.
3. To provide for aid to the needy blind, the dependent, neglected and needy children, and to take care of the state's portion under the teachers' retirement amendment act.

Let me review briefly these points of the all.

First: The general fund of this state at present is operating under a deficit approximating fifteen million dollars with the income into the fund lacking four and a half million dollars per year of equaling its outgo. The legislature at the recent regular session increased appropriations approximately four million dollars per year without providing a single penny of additional revenue to care for either the deficit or the increased appropriations.

It seems only good business—for a state or an individual—that income should equal outgo and that a deficit should be wiped out.

Second: At the regular session last January I recommended that additional moneys be placed in the old age assistance fund. That fund is now in debt \$1,620,000.00 on outstanding warrants and the Board of Control estimates that in addition we need to allocate approximately two million dollars annually to this fund. In my opinion, the old Legislature should provide this additional revenue for the old age assistance fund in order to care for the actual need.

Third: At a special election held on August 1, 1937, the people adopted amendments to the Constitution to authorize the state to aid the needy blind and provide help for the needy, dependent and dependent children of this state under provisions of the National Social Security Law. The amendment providing for this participation by the state under the social security program required the state share not to exceed \$1,500,000.00 per year.

The regular session of the 44th Legislature submitted a constitutional amendment providing a teacher retirement system for Texas which the people approved by popular vote. The 45th Legislature passed a law to make the amendment effective. State Auditor Tom King has estimated a minimum need of \$1,350,550.00 and a maximum of \$1,683,750.00 as the state's share in matching contributions by teachers for their retirement system.

In previous issues of "The Rest of the Record," I have stated my position in limiting this session to revenue raising purposes only. No one can deny that it is my duty as Governor to recommend a revenue program to finance the people's program.

It is the duty of the Legislature of this state to provide revenues for the operation of the government and in my opinion, it is certainly the duty of the Legislature to provide revenues to take care of the appropriations they might be under the mattress of their children's beds, for they frequently get there. Perhaps some parents may be in need of a holy minister or sincere professor to examine some of their own reading. Badly chosen books may be put in any other place in which to begin an expurgation of obnoxious, seductive and damaging literature. Kindle the kitchen fire with kindling, burn the back yards, drop on the poison and keep stirring it in the flames until every piece from title page to appendix has been entirely consumed.

WATSON CLUB NEWS

The Watson Home Demonstration club met in home of Mrs. N. O. Sullivan, Wednesday last week, with Mrs. Marie Willford as hostess.

Mrs. Sullivan, the president, was in charge of the meeting.

Watson club was not represented at Muleshoe last Council day, so Miss Alma Stewart gave the council report, then gave a demonstration on cooking strong vegetables, after which refreshments were served to Mesdames T. G. Miller, Auline Davis, N. O. Sullivan, David St. Clair, Miss Stewart and the hostess, Mrs. Marie Willford, Mrs. F. L. Wilson, new member, Mrs. Guy Elliott of Morton, and Mrs. Ethel Sullivan, visitors.

\$5,780,486 GAS TAX RETURNED

Texas refunded \$5,780,486 in gasoline taxes to farmers, municipalities, aircraft and marine operators and others the past fiscal year ending Aug. 31, according to an announcement made by George H. Sheppard, state comptroller. Tractors and other machinery brought a refund of \$3,682,650 or 65 per cent of the total farmers' tax. The total tax collected was \$46,483,454, of which refunds amounted to 124 per cent.

Incidentally 1,379 claims for refunds were denied.

COOK THE MODERN ELECTRIC WAY

Better cooking results is one of the most important reasons for buying any range. It is the BIG reason why we recommend a Westinghouse Electric Range. While you are away, it cooks a complete meal to a perfect goodness that the family will rave about. For example, shrinkage of meat is practically eliminated as the healthful juices are cooked in and NOT evaporated. The golden brown cakes, pies, and biscuits are always a treat to the eye and the appetite. So, for goodness sake, cook with a Westinghouse Electric Range.

100 SIMPLE TRICKS THAT CAN SAVE YOU MONEY

ANY farmer will be a better—and a richer—farmer for following the fascinating sketches by Willard Bolte appearing in this newspaper. Bolte has collected 100 clever ideas for better crops, better stock, that any farmer can execute with his own hands. Clear, concise illustrations and brief written descriptions make every one simple as ABC. And most of them are brand new!

FARMING IT by Willard Bolte

Follow it regularly in THIS NEWSPAPER

FARMING IT . . . BY WILLARD BOLTE

Upper sketch shows furrow terraces that were constructed on a 5-acre Missouri hillside pasture—with a tractor and two 14-inch plows—at a total cost of 25¢ for gas and oil. The furrows were 10 inches deep, with the earth thrown down hill. There is an earth dam across each furrow every 50 feet. Distance between the furrows depends upon contour and slope—the average being 12 feet.

Five years ago the Michigan Experiment Station worked out a new and better way to prune apple trees—and today thousands of apple growers are profiting by it. The whole trick is to remove all thin, slender wood from the center of the tree. This plan does away with the wood that produces undersized and poorly-colored apples—and makes spraying easier—increases the amount and the quality of good apples—and increases cash returns about 20 per cent.

Lower left sketch shows a temporary silo made of cribbing or wire fence. The upper ring of fencing sets inside of the lower ring—and the entire silo is lined with a special tough, waterproof paper with wide overlaps to exclude the air.

Lower right illustration shows irrigating water being pumped from a 150-foot well by means of a tractor and a 50-gallon rotary pump. Four irrigations of the cornfield behind the tractor—costing \$1.00 per acre for fuel—produced 40 bushels of corn to the acre last year when corn on adjoining land was a complete failure, a pretty good argument for cheap irrigation.

STATE AGRICULTURE COMMISSIONER LAMENTS COTTON GOWERS MUST DO SO MUCH WORK FOR SO LITTLE RETURN

Austin, Texas, September 27.—Texas cotton farmers this year will receive nine cents an hour for their work.

"That statement was made today by J. E. McDonald, State Commissioner of Agriculture, in discussing plans for a trip to Montgomery, Alabama, for a conference with Governor Bibb Graves and Agricultural Officials of that State on the Domestic Allotment Plan.

It takes an average of 250 man hours to produce and harvest a bale of cotton, and it is a fact that the price per pound a farmer receives for his cotton equals the price per hour he receives for his work, the Commissioner stated.

"It is a travesty on the intelligence of the American people to allow a bale of our cotton to be sold for domestic consumption at less than 20 cents per pound," McDonald declared.

The average price of cotton for the past 10 years, 1921 to 1936 inclusive, is 20.31, or \$101.55 per bale, in terms of a 100-cent dollar, it was pointed out. At present, however, the price is nine cents, or \$45. per bale, on the basis of a 50-cent dollar.

"I am grieved," Mr. McDonald said, "to think of our farmers and share croppers having to produce cotton at this ridiculously low price." At nine cents per pound, it was estimated, the share cropper who furnishes only labor gets about \$22.50 for his bale of cotton.

"Government curtailment of cotton will bring disaster to American agriculture through unemployment and loss of foreign markets."

"A fair cotton price could be attained in other words, the average tenant farmer, raising ten bales of cotton, has an income of \$250.00 to show for this year's work."

"The Domestic Allotment plan, on the other hand, would stimulate production of agricultural goods for sale abroad, thus providing employment for a great army of farm laborers," McDonald declared.

OIL NOTES

The Enochs oil test well drilling in southwest Bailey county has struck an ocean of fresh water at the depth of 1970 feet which has been holding up further drilling for the past three weeks.

This water appears to be somewhat of an artesian flow nature, while it does not come to the surface, yet it has been found impossible to bale it out. Two other artesian wells are in that vicinity which do trickle out over the surface at stated periods.

Drillers have been trying to puddle the hole with mud, thus casing off the water so drilling may proceed; but, according to report, it is now thought cementing may have to be resorted to so as to dam off the water.

The well has been standardized and as soon as the water difficulty can be overcome drilling will be continued. This well is running about 225 feet high in formation, according to geologic information, instead of about 900 feet, as previously reported.

Cochran Flow Tested The Carrie Slaughter Dean test four miles northwest of the discovery on Cochran county, was opened Thursday of last week, making a flow of 25 barrels in one hour. It has been acid treated two times. This well extends the proven area four miles nearer the Bailey county line.

Hockley Flow Gaged The Stanbold Co., Slaughter No. 1 in Hockley county, which has been recognized by the State Railroad Commission, last Thursday made its full quota flow of 432 barrels in 24 hours also letting off 465,000 cubic feet of gas during that period.

Two Bailey County Girls Honored With Gold Star Awards

Misses Annie Hall, Fairview and Opal Sntiker, Bula were honored last week when presented with gold stars indicative of exceptional club work done, being two of the 109 4-H club girls in Texas to be so honored. The presentation was made by Miss Alma Stewart, Bailey county home demonstration agent.

The awards are made each year through the A. & M. Extension department on the basis of merit; what has been accomplished by the member during the past year and a written history of her activities. Generally these pins are presented at the annual Short Course meeting; but such meeting this year having been called off because of the infantile paralysis, the awards to each of the girls were made here by Miss Stewart.

Miss Haley won her honor on clothes closet improvement, a remarkable transformation of that raiment depository being accomplished with the expenditure of only three cents—plus plenty of labor.

Miss Sntiker not only won a gold star but was also designated as one of eight best 4-H club girls throughout the entire state, her work the past five years being valued at \$100.

ATTEND H. D. STATE MEET Mesdames W. G. Kennedy, Progress; M. A. Snider and Bonnie Williams, West Camp; Claude Gage, Joyland; Guy Berry, Enochs, left last Monday to attend the Texas state meeting of the Home Demonstration association to be held this week in the Gunter hotel at San Antonio.

Delegates from every county in the state will be present, it being the first meeting of this kind ever held independent of the Short Course at A. & M. college.

CLOTHING EXHIBIT AT LUBBOCK The fifteenth semi-annual West-Texas-New Mexico Wholesale Clothing Market association's fall event will be held at the Lubbock hotel, Lubbock, Tuesday evening, Oct. 12, the Fashion show being followed by a dance at that hotel.

Invitations have already been sent out to retail merchants over this area to attend, and about 75 wholesale firms are expected to have goods on display.

First Meeting of P-T A. Held Monday Night; Plans Named

The first regular meeting of the Parent-Teachers Association for this school year was held Monday evening at the Muleshoe High school auditorium with a large crowd of parents, teachers and patrons attending.

Mrs. J. Clyde Taylor, new president of the association for this meeting, opened the meeting in appropriate manner and a business session was held.

A report was made by Mrs. Irvin St. Clair, chairman of the Membership committee. For the past week a membership drive has been in full swing and several additions have been made. The drive is still in progress, and members and their assistants have been working diligently on the project.

Two of the outstanding projects the association plans to work on this year are the beautification of both school grounds and new decorations for the High school stage. It is hoped that new curtains and scenery can be purchased sometime this year by the P-T A. and other local organizations.

Sup. W. G. Cox made a very interesting and appropriate short talk for the occasion, discussing the Bailey County fair and other important subjects. He announced that Saturday would be school day at the fair and all pupils have a cordial invitation to attend.

One new officer, Mrs. Jay Wyer, was elected vice-president of the association.

The following program under direction of Mrs. A. W. Coker, chairman of the program committee and her helpers, was rendered: Piano solo, Mrs. Flaude Gallman; reading, Miss Trammie Mae Russell expression teacher special number, "Soldier Boys" by several boys in grade school and an educational talk on "Approaching School" by Mrs. Jay Wyer.

All teachers of both school were introduced to the audience by Mrs. Ray Griffiths, chairman of the Social committee.

The picture went to the second grade room, Mrs. Curtis Taylor teacher, for having the most parents and friends present to vote.

The association plans to have a booth at the Bailey County fair and sell various items such as candy, soda pop and foods. They urge that everybody patronize them as the proceeds will be used to assist with the various projects they are helping to finance.

The next regular meeting will be held Monday evening, October 25.

ELECTRIC RATES ARE CUT

The Southwest Public Service Co., serving the northern Panhandle area, last week announced a reduction in its electric rates from eight to seven cents for residential and commercial lighting, the first 1,000 kilowatts taking a rate of 3 1/2c.

In 1925 the rate of this company was 20 cents, gradual reductions having been made since.

The WEEKLY CONSTITUTIONAL

Only Right Makes Right

Are the principles of our government right because they are in our Constitution? The ten commandments are not right because they are in the Bible. They are in the Bible because they are right.

With this in mind, let us see whether the following principles of our Constitution protect us against despotism:

- 1. Our Constitution makes the people master and the government our servant; 2. It grants the government only such powers as are listed; 3. It distributes these powers among three separate and independent departments instead of concentrating them in one department; 4. It declares our Constitution to be "the supreme law" and provides that only the people can amend it; 5. It creates a Supreme Court to see that both the people and the government obey our Constitution as the supreme law of the land.

Doughnuts For Dough Boys

NEW YORK CITY—Twenty-thousand doughnuts were tossed to throngs jamming the side-lines as the Salvation Army Doughnut Hut Boat passed in the big American Legion parade. Erig. Helen Furman, the original "doughnut girl" is shown wearing the uniform she used when serving the boys in France. The float is a reproduction of the original Salvation Army Hut is made of corrugated steel, tar paper and sand bags, and camouflaged with autumn branches.

New Fall, Winter Washable Styles Deceive Experts With Their Beauty

WEAR washable clothes all Fall and Winter! That is the word from the style dictators, but it does not mean that the new fashions resemble the typical wash garments of summertime. Only the expert eye of the most clever shopper can detect that of these new garments are washable. Cotton, for example, appears in a form from corduroy and twill to luxurious nubby fabrics, with French crepes, alpaca, and even the trend effects and surprising reproductions of wools. But although they look like styles that cost many times the price of these, the new dresses can be kept fresh and spot-free by a quick trip to the household washing machine and a few moments of finishing on the family ironer. The youthful, smart flowered crepe and the lovely spun rayon shown here, the latter with its cleverly contrasted stripes, horizontal in the blouse and vertical in the skirt, were exhibited at a recent style show that introduced the new fashions to store representatives from throughout the country. Both costumes, the spectators were told, can go into the household washer as successfully as the most unpretentious kitchen apron.
