VOL. XLVI—NO. 2 Dial 682-5311 MIDLAND, TEXAS P. O. BOX 79701, MONDAY, MARCH 11, 1974 (AP) — Associated Press Daily 10c, Sunday 20c

Fair, Warm

Pecos Gets Prospector, Confirmation

Credo Oil & Gas, Inc. of Beaumont, plans No. 1 Shearer as a 3,700-foot wildcat in Pecos County, 1/2 mile east of the firm's No. 1 Benoit, opener of the one-well Grandma Benoit (lower Clearfork) field.

Drillrite is 1,803 feet from northwest and 467 feet from southwest lines of section 117, block 10, H&GN survey, 10 miles northwest of Girvin.

The discovery was completed Jan. 14, to pump 90 barrels of 29.2-gravity oil and six barrels of water per day, natural, through perforations at 3,448-3,486 feet. Total depth is 3,600 feet.

Gas Confirmer Don R. Ormand of Midland has reclassified as a second lower Clearfork gas producer and 1/2-mile southeast extension to that pay in the Abell field of Pecos, No. 1-A Hunt, former Clearfork oil producer, eight miles east of Imperial.

It rated a calculated, absolute open flow of 1,910 million cubic feet of dry gas daily, producing through perforations at 3,675-3,753 feet, which had been acidized with 500 gallons.

Drilled to 3,788 feet, and plugged back to 3,785 feet, it has 1/4-inch casing set on bottom.

Location is 1,334 feet from northwest and 467 feet from northeast lines of section 16, block 2, H&TC survey. (Location was filed in May, 1972 as 1,787 feet from northwest line of the section.)

It was completed in June, 1972 from the oil pay, by Ormand.

The lower Clearfork gas discovery, Continental Oil Co. No. 2-B E. A. Hall, also a former oil producer, was completed from the lower Clearfork April 8, 1967, for 490,000 cubic feet of dry gas daily, through perforations at 3,723-3,753 feet. Dual completion from upper Clearfork gas was effected through perforations at 3,039-3,265 feet.

Confirmer Finals In Loving Sector

The Vermejo (Fusselman and Ellenburger) gas field of Loving County gained its second Fusselman well and 1/2-mile southeast extension to that pay with completion of Forest Oil Corp. No. 1 Rainbow-State, four miles southeast of Mentone.

Calculated, absolute open flow was for 41.5 million cubic feet of gas per day, producing through perforations at 18,774-19,094 feet, which had been acidized with 15,000 gallons.

Drilled as an offset to the dual strike, total depth is 21,547 feet, and the plugged-back depth, 21,452 feet. It has 5/4- and 4/4-inch liners hung from 15,013-21,545 feet.

Location is 6,600 feet from northeast and 550 feet from northwest lines of section 70, block 33, H&TC survey.

The pool opener, Forest No. 1 El Paso-State, was completed in July 1973 from the Fusselman, for a calculated absolute open flow of 32 million cubic feet of gas per day, through perforations at 18,804-19,119 feet. Forest announced an absolute, open flow of 9.4 million cubic feet of gas per day, through Ellenburger perforations at 21,298-21,479 feet. Both zones are

Storms Rumble Through Texas

NEWSMEN LISTEN TO TAPE—Newsman listen to one of the tapes received during the weekend from the Symbionese Liberation Army, which says it is holding kidnaped Patricia Hearst. The tape was received by a San Francisco radio station, which found it taped to the wall of a rest room. The tape, seen running in the right background, contained the first recording of Miss Hearst's voice that has been received in the last 17 days. (AP Wirephoto.)

'IT'S THE FBI WHO WANTS TO MURDER ME'—New Tapes Break Hearst Silence

By THE ASSOCIATED PRESS — The tapes were the first communications from the kidnapers in 17 days. Miss Hearst's mother, Catherine, said, "I know that while Patty is captive that she'll have to utter all the words that are dictated by her captors." Miss Hearst, 29, is the daughter of Randolph A. Hearst, editor and president of the San Francisco Examiner.

Sunday's tape included the SLA charge that, "The FBI intercepted and suppressed" one of two tapes it put out Saturday. It said the FBI "thought the first one was the only one sent out," said a woman who described herself as being from

an SLA information intelligence unit. She said the FBI was foiled by "a double-decoy system."

Sunday night's tape was addressed to KPFA-FM, Berkeley, where a woman telephoned that the new tape could be found in the fifth row of a San Francisco theater.

The FBI said it would not comment on the tape at least until this morning.

In the tapes, Miss Hearst says she had the feeling she had "been written off." She said, "I don't believe you're doing everything you can, everything in your power. I don't believe you're doing anything at all."

In other kidnaping developments over the weekend: —The wife of a Decatur, Ga., K-Mart store manager was released unharmed after her husband paid about \$20,000 in ransom from the office safe. It was the fourth similar incident since Christmas involving K-Mart employees in three states. New Jersey Manhunt —In Hackensack, N.J., authorities continued their search for additional suspects in the kidnaping of 3-year-old John Calzadilla and their attempts to locate the \$50,000 ransom paid for his release. Five persons have been arrested. The boy was released unharmed early last Friday.

—In Los Angeles, the FBI said it will present an affidavit detailing a plot to free a convicted skyjacker and another jailed man by kidnaping a foreign consul general. One woman was arrested Saturday in connection with the reported plot. She and the two jailed men were to be arraigned today.

Two Tapes Reported Sent —In the Hearst case, the latest recording by the coed included this request: "I really want to get out of here. I ask you not to aid the FBI."

In Sunday's recording, a woman said the SLA sent tapes to radio stations KDIA in Oakland and KSAN in San Francisco. KSAN released its tape, but KDIA said it did not receive a copy.

"Either KDIA, without telling the public or the Hearst family, turned it over to the FBI, who in turn suppressed it, keeping it from the Hearst family, or the

California To Drop Burglary Charges Against Watergaters

WASHINGTON (AP) — District Atty. Joseph Busch of Los Angeles County agreed today to seek dismissal of California burglary and conspiracy charges that had been placed in the Ellsberg case against John D. Ehrlichman, David R. Young and G. Gordon Liddy.

The perjury charge leveled against Ehrlichman would remain.

The announcement was made jointly by Busch and special Watergate prosecutor Leon Jaworski.

Ehrlichman and Liddy were indicted by a federal grand jury last week on federal conspiracy charges in the case. Young was not indicted by the federal grand jury in Washington.

Busch agreed to drop the state charges as a result of the federal indictments.

"Among the reasons given for seeking to dismiss are that many of these issues involve matters of national interest and therefore would best be decided in the federal court system," the announcement said.

"The two indictments would be exposing defendants to trial in two different jurisdictions and, in fairness to those defendants and in the interests of justice, they should be tried in one jurisdiction," it said.

Ehrlichman, former chief domestic counselor to President Nixon, pleaded innocent Saturday to one count of conspiracy to violate the rights of Dr. Lewis Fielding, Daniel Ellsberg's psychiatrist, one count

of lying to the FBI and three counts of lying to the grand jury.

Charles W. Coison, a former White House aide, also pleaded innocent Saturday to a conspiracy count in connection with the Ellsberg case.

Four other defendants in the case, including Liddy, are to be arraigned Thursday before U.S. District Judge Gerhard A. Gesler.

Perjury Charge Remains Ehrlichman, Young and Liddy pleaded innocent to the California charges last September and their trial had been scheduled by Superior Court Judge Gordon Ringer for April 15.

Both the federal and state cases involve the September 1971 break-in of Fielding's Beverly Hills office by burglars seeking Ellsberg's files.

"The perjury charge as to John Ehrlichman in Los Angeles County will remain," the announcement said. "It involves protection solely of a state interest."

Busch and Assistant Dist. Atty. Stephen Trost met with Jaworski for an hour and afterward announced that Busch "has agreed to seek dismissal of the charges of conspiracy and burglary as to David R. Young, John Ehrlichman and G. Gordon Liddy."

It was the second time the federal case had taken precedence over the charges in California.

Egil Krogh Jr., former assistant to Ehrlichman, had been indicted along with the others in Los Angeles. But he pleaded guilty to one federal count of

Archbishop Of Canterbury To Resign Next November

LONDON (AP)—Dr. Michael Ramsey, Archbishop of Canterbury and spiritual head of the Church of England, announced today he will resign next November.

Dr. Ramsey is 69. He has been Archbishop of Canterbury and primate of England since 1961.

His resignation effective Nov. 15 was announced in a message to Queen Elizabeth II, temporal head of the Anglican Church. His successor will be appointed on the advice of Prime Minister Harold Wilson—assuming Wilson's minority government survives in power.

Dr. Ramsey came to the forefront of the Anglican Church after a series of academic posts, including professorships at Durham and Cambridge universities.

He was archbishop of York from 1966 to 1961 before promotion to Canterbury.

He has been a world influence in the ecumenical movement toward closer inter-church relations.

Dr. Ramsey's resignation will take effect the day after his 70th birthday.

As bishop of Durham he took part in Queen Elizabeth II's coronation in 1953, the first to be televised.

Great occasions of state in which he participated as primate included Sir Winston Churchill's funeral and last year's wedding of Princess Anne to Capt. Mark Phillips.

His work for church unity reached its symbolical peak in his historic meeting with Pope Paul VI in 1966 in Rome.

Japanese Army Officer Will Fly Home Tuesday After 29 Years In Philippines

MANILA, Philippines (AP) — Hiroo Onoda, a World War II Japanese army officer who hid in the Philippine jungles for 29 years, presented his sword in surrender to President Ferdinand E. Marcos today.

In a televised ceremony at the presidential palace, Marcos gave the 52-year-old Japanese a full presidential pardon, "for any claims or responsibilities during the war" and in the years since. The president told Onoda he was welcome to stay in the country.

However, plans were being made to fly Onoda to Tokyo Tuesday for a medical checkup. Marcos also returned the sword to Onoda, who wore his old Imperial Army uniform.

Marcos put his arms around the wiry Japanese and said he admired him for his bravery and courage.

Onoda, facing television cameras for the first time in his life, said: "From now on, I will try my best to contribute to the development of my country and the closer cooperation of the Philippines and Japan."

A helicopter brought the former Japanese intelligence officer to the presidential palace from Lubang Island, 75 miles southwest of Manila, where he surrendered Sunday to his former commanding officer, Yoshimi Taniguchi, and the Philippine air force chief, Maj. Gen. Jose Rancudo, in the presence of Japanese Ambassador Toshio Urabe. The fugitive's older brother, Dr. Toshio Onoda of Tokyo, was also present.

Dr. Onoda and Philippine Air Force doctors examined Onoda and found him physically fit. Dr. Onoda said his brother apparently had been sick only twice, with the flu, in his years in the wilderness.

Onoda was one of four Japanese soldiers who refused to surrender on Lubang when Japan capitulated in 1945. Several searches were made for them over the years, and twice Onoda was declared dead. One of the four surrendered, and another was killed in a clash with the Philippine army.

Another search for Onoda was launched last year after he and the other holdout ambushed a Philippine patrol. Onoda escaped, but his companion was killed. In February, a Japanese student, Norio Suzuki, contacted Onoda on Lubang, and last week Taniguchi joined the search to help persuade him to give up.

Onoda told newsmen he did not surrender because he had no order to do so from his superior officers.

Onoda's parents, both in their 80s, burst into tears when told their son had been found. The Japanese government announced that he will draw a pension of \$610 a year for 31 years and three months of military service.

Bumpers Will Try Fulbright

LITTLE ROCK, Ark. (AP) — Gov. Dale Bumpers, 48, announced today that he would oppose Sen. J. W. Fulbright in the May 28 Democratic primary.

Bumpers' announcement for the Senate surprised newsmen and about 100 onlookers in the Governor's Conference Room in the State Capitol.

Fulbright, 68, chairman of the Senate Foreign Relations Committee, has announced that he will seek a sixth term.

Egypt's Bid To Lift Oil Embargo Fizzles

By THE ASSOCIATED PRESS — President Anwar Sadat failed to get all the Arab oil ministers to a meeting in Cairo to consider his proposal to end their oil embargo against the United States.

Instead, Algeria and Libya, who want to continue the embargo, forced a delay in the meeting until Wednesday and insisted it be held in the Libyan capital of Tripoli.

Blow To Sadat Sadat's failure Sunday was considered a blow to his chances of getting the embargo lifted. The Cairo newspaper Al-Akhbar said the holdouts had agreed to discuss Sadat's proposal in Tripoli. But some observers doubted the oil ministers would raise the issue unless it had been resolved at a higher level.

After a week of conflicting announcements about the place and time for the meeting, six oil ministers — from Saudi Arabia, Kuwait, Abu Dhabi, Bahrain, Qatar and Egypt — were in Cairo Sunday. Algeria, Libya and Syria stayed away.

Will Go To Tripoli The six who came met for 90 minutes and announced they would go to Tripoli. An Egyptian spokesman said there had been no talk of the oil embargo. A communiqué said Egypt had offered to host the meeting because of a shortage of accommodations in Tripoli due to an international fair. But it said Libya had managed to provide facilities for the meeting.

Sadat has championed an end to the ban in exchange for Secretary of State Henry A. Kissinger's assistance in getting Israeli troops to withdraw from the Suez Canal. But Algeria,

Moisture Falls In Most Areas, Misses Midland

In possibly the last gasp of winter, a cold front sent menacing thunderstorms loaded with hail—and in some areas badly needed moisture—rumbling across Texas Sunday night and early today.

While many sections already have suffered crop losses, there was hope the rain would dent the drought. Scattered showers still fell in various areas over the eastern half of the state this morning as the forward edge of the cooler air stretched through Central Texas along a north-south line.

City Rain Chances Fade Unlike many areas of the state, Midland remained dry, despite precipitation probabilities ranging up to 50 per cent.

National Weather Service forecasters at Midland Air Terminal predict mostly fair skies through Tuesday. Highs both days will be in the middle 70s, with an overnight low in the middle 40s.

Winds will be westerly 8 to 16 m.p.h. this afternoon and tonight.

Sunday's high was 74 degrees and this morning's low was 41.

There was still fog or drizzle at some points behind the frontal zone, but skies already had cleared over most of West Texas. Motorists were warned about zero visibility from fog around Abilene before dawn.

Huge Soviet Natural Gas Loan 'Dead'

WASHINGTON (AP) — Sen. Richard S. Schweiker, R-Pa., said today the Export-Import Bank has suspended consideration of credit for the \$7.6-billion natural gas development project with the Soviet Union.

Schweiker said he has been told the bank acted after receiving a General Accounting Office opinion that such loans can be made for transactions in Communist countries only if the President determines, on a case-by-case basis, that such action is in the national interest.

"At Least For Now" "The Siberian energy deal is dead, at least for now," Schweiker said.

He said he was advised by Walter Sauer, president of the Export-Import Bank, that all consideration of the loan applications was suspended at 8:45 a.m. EDT today "pending further study of the GAO ruling."

The proposed deal, one of the largest in world business history, would involve extension of \$6.1 billion in U.S. credit for the energy development project.

LATE NEWS FLASHES

CAIRO (AP) — Egyptian President Anwar Sadat and five visiting oil ministers went into a huddle late today to discuss preventing an open quarrel over lifting the oil embargo when they meet with other ministers Wednesday in Libya.

AUSTIN (AP) — State gasoline tax collections for January showed a decrease over the previous year's collections for the first time in a number of years, the State Comptroller's office reported today.

SAN FRANCISCO (AP) — A tape recording of the Hearst kidnapers accused the FBI of attempting to suppress was found today in the women's rest room of Foster's Restaurant.

Weather

FORECAST: Mostly fair through Tuesday. High today and Tuesday, middle 70s. Overcast here, middle 60s. Winds west to S to 15 m.p.h. this afternoon and tonight.

Louisiana To Institute Voluntary Gas Rationing Plan

By THE ASSOCIATED PRESS
Louisiana Gov. Edwin Edwards says he will announce a voluntary gasoline rationing plan for Louisiana motorists today, based on the so-called Oregon license plate system.

Under the system, cars with license tags ending on an even number could buy gasoline on even-numbered days, while those ending with an odd number buy on odd-numbered days. Edwards, contacted at the executive office in Baton Rouge Sunday night, said, "I want to emphasize that this is a voluntary plan."

He called it "an effort to cut down the size of long lines at service stations and to conserve available gasoline."

He added that he had no immediate hopes for increasing the amount of gasoline available for Louisiana motorists.

Nationwide, motorists generally found last weekend a bit easier in their search for gasoline. Fourteen weeks after the first "Gasless Sunday," service stations were open in increased numbers, an Associated Press survey revealed. The trend for business as usual on Sunday is a result of concern over declining

tourist revenues and long lines during the week.

In many cases, the Sunday openings were urged by state officials. The New York State Thruway Authority announced an end to Sunday closings, claiming they caused too much "hardship and inconvenience."

In Allentown, Pa., the gasoline shortage has been blamed for the first cancellation in the history of the city's annual St. Patrick's Day parade.

The decision to cancel the parade was made Sunday at an emergency meeting of the St. Patrick's Day Observance

Society. A spokesman for the society said 70 per cent of those who were planning to participate in the March 17 parade had to travel 75 miles or more just to get to Allentown.

New federal gasoline allocations should provide about 6 per cent more gasoline daily in March than was available last month before emergency allocations were ordered.

According to this month's figures, announced last Thursday by the Federal Energy Office, all but five states are getting larger daily gasoline allocations in March than in February.

However, those five states all have unusually high supplies already, a detailed study of the FEO figures indicates.

The allocation system generally is guiding larger per-day gasoline increases toward states whose supplies otherwise would be relatively poor, with smaller daily increases going to states whose supplies are close to average.

The FEO said in issuing the March allocations that all states were slated to receive increases in their total gasoline supply for the month, compared with February.

However, consideration of average daily supply is important because March is three days longer than February, and gasoline demand continues each day, no matter how long the month is.

In other energy-related developments:

—Kuwait Oil Minister Abdul Rahman al-Ahki announced that Arab oil ministers will meet formally Wednesday in Tripoli, Libya.

Six oil ministers conferred informally Sunday in Cairo but an Egyptian spokesman said they did not discuss lifting the

Arab oil embargo. He said ministers who did not attend — those from Algeria, Libya and Syria — would join Tripoli talks.

—The Central Intelligence Agency tried last year to assess prospective oil sources abroad but found it difficult, according to secret testimony made public Sunday.

Then CIA Director Richard Helms told the Senate Foreign Relations Committee Feb. 7, 1973, that obtaining oil company information about prospective prices and supplies "is one of the hardest jobs we have."

Burglary Charges To Be Dropped

(Continued From Page 1A)
violate Fielding's civil rights and was sentenced to serve six months of a 2- to 6-year term.

He began serving the sentence at Allenwood, Pa., prison farm on Feb. 4.

Dismissal of the case in California will make moot a demand by Judge Ringer that President Nixon come to California to testify as a "necessary and material witness."

Indicted in connection with the coverup were Ehrlichman; Colson; former Atty. Gen. John

N. Mitchell; former White House aide H. R. Haldeman; and Gordon C. Strachan; former assistant Atty. Gen. Robert C. Mardian; and Kenneth E. Parkinson, former Nixon campaign finance committee lawyer.

When the grand jury returned the indictments in the Watergate cover-up case, it also handed Sirica a sealed report and satchel of evidence, which sources later said dealt with President Nixon's role in Watergate.

James D. St. Clair, President Nixon's chief Watergate lawyer, told the hearing the White House would take no position on what Sirica should do with the report. However, in a letter filed with the court, St. Clair asked for permission to review the report if Sirica decides to send it to the House Judiciary Committee.

It was at Wednesday's hearing on the report that St. Clair also announced Nixon's decision to give the impeachment inquiry all the evidence he already had given special prosecutor Leon Jaworski and also to answer written questions and submit to an interview by ranking committee members.

Meanwhile, the senior Republican on the House committee, Rep. Robert McClory of Illinois, said he questions whether the committee is get-

ting full cooperation from the White House.

He and committee member Rep. Robert Kastenmeier, D-Wis., were interviewed Sunday on ABC television's "Issues and Answers." Both predicted that if the White House does not give the committee six tape recordings it is seeking the committee will subpoena the tapes.

Also interviewed Sunday, Sen. Charles H. Percy, R-Ill., said on the CBS television and radio program "Face the Na-

tion" that Republicans might be better off if Nixon resigned. He said there was a growing feeling in the party that Ford would be less controversial.

Percy also said that continued White House refusal to turn over all Watergate material sought by Jaworski "could well be" an impeachable offense, and "failure to produce evidence if Jaworski got a court order... would be an impeachable offense."

Democrats Approve Betting Referendum

DALLAS (AP) — State Democratic leaders today reluctantly approved a party primary referendum on the May 4 party primary ballot but squelched similar efforts for an ethics commission, presidential preference primary and an anti-union measure.

The party's executive committee (SDEC) also approved Austin as the site of the September party convention and certified a listing of candidates for the May primary.

SDEC Chairman Calvin Guest of Bryan said he opposed the referendum for the same reason he opposed all the

other referendum items—they would "clutter" the ballot.

But because backers of the betting proposal obtained the necessary number of signatures on a petition (five per cent of the 1972 voters), the SDEC was bound by law to authorize the issue on the ballot. The other three proposals lacked such petitions.

The referendum, which will appear only on the Democratic primary ballot, is non-binding and is generally considered a "straw vote" expressing citizen opinion.

Colin Carl of Austin, who offered the ethics commission proposal, said there was a "growing consensus in the country for this type of reform."

Another ethics commission sponsor, Joe Batoon of Amarillo, said "an ethics commission could solve some of the great problems we're seeing today in our political realm."

But the measure was doomed before the official vote came. There were strong indications that labor supporters had helped defeat the ethics proposal in return for aid in killing the proposal for a right-to-work referendum.

The right-to-work plan was backed by Harris Hill, a proxy for Bob "Corky" Smith of Dallas, and by State Rep. Dick Geiger of Dallas.

The presidential preference proposal, which seemed to have practical support, was made by Dr. M. E. Bradford of Dallas, a Wallace supporter.

All three were quickly tabled on voice votes and Guest said later the items were "in effect gone."

The next formal SDEC meeting is in May following the first primary.

Fighting Reported Around Besieged Cambodian Airport

PHNOM PENH, Cambodia (AP) — Sniff fighting was reported today around the besieged seaport of Kampot, a Cambodian command said.

Clashes were reported to the south along the shipping channel from the sea. The insurgents were reported trying to close the last means of the government's supply of supplies. Field reports said a battalion of marines was positioned along the banks of the channel trying to keep it open.

In Cai Lay, South Vietnam, officials said that 32 children died Sunday when a Viet Cong mortar shell landed in a schoolyard located between two military headquarters.

The officials said that 23 children were killed instantly and nine died later in the hospital. More than 50 others were wounded. Cai Lay is a district town in the Mekong Delta 45 miles southwest of Saigon.

Funeral services were held today for some of the children, aged 8 to 13. A few miles away, government gunships raked suspected Viet Cong mortar positions.

El Paso Democrat Changing Parties

ARLINGTON, Tex. (AP) — State Rep. Ralph Scoggins, a Democrat from El Paso, told Republicans meeting here today that the legislature "is void of leadership."

For that reason, Scoggins told members of the state Republican Executive Committee that he is asking voters to return him to office as a Republican.

"I couldn't see returning as a Democrat," Scoggins said.

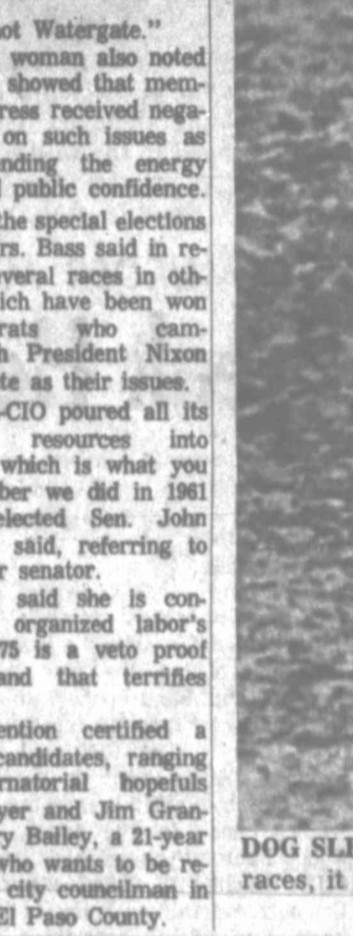

The 43-year-old lawyer has served three terms as a representative of the Far West Texas city.

At the end of his brief speech, Scoggins received a standing ovation as did many of the other party speakers who addressed the legally required meeting of the committee.

Many of those who spoke referred to the specter of Watergate and whether it will haunt them during the November elections.

Mrs. Rita Bass, national committeewoman from Texas, in an opening speech noted that "it is Congress that is up for

Stock Fraud Trial Of Carr, Osorio Resumes At Dallas

DALLAS, Tex. (AP) — Waggoner Carr, a former state attorney general, and John Osorio, a one-time Texas insurance commissioner, continued today their attempts to prove themselves innocent of stock fraud and conspiracy.

Both are charged in four counts in indictments that grew out of the 1971 Sharpstown scandals. Also indicted on one count of stock fraud is David Hoover, a Dallas businessman accused of arranging some loans.

All three defendants have pleaded innocent.

Carr and Osorio, the government contends, violated security laws in pledging RIC International Industries Inc. securities to obtain bank loans.

The men took the loan money and used it to purchase stock in National Bankers Life Insurance Co., government attorneys say. Osorio was president of the firm, and Houston financier Frank Sharp was chairman of the board.

Many observers, including opposing counsel, believe the trial before U.S. District Court Judge William Taylor Jr. will last another six weeks.

Attention's What He Got

VAN NUYS, Calif. (AP) — "Attention!" called the commanding officer to his ranks. Attention was what a streaker got when he raced to the front of a formation of national guardsmen and saluted the commander.

The unidentified male nude made his appearance Sunday at Van Nuys Airport before a formation of 700 clapping and whistling members of the Air National Guard.

An observer said a "mild" attempt was made to apprehend the streaker after he saluted the group's commanding officer, Col. James Cutler, but he streaked away.

Calley Hearing To Be Held Soon

COLUMBUS, Ga. (AP) — A hearing will be held soon on the government's suit to revoke bail for Lt. William L. Calley Jr.

U.S. District Court Judge J. Robert Elliott, who released Calley on \$1,000 unsecured bond Feb. 27, said Sunday he would schedule the hearing. He did not specify a date.

U.S. attorneys filed the suit Friday.

Embargo—

(Continued From Page 1A)
getting to the Hearst family and the public," the women said.

The latest tape was received by radio station KPFA in Berkeley.

Patricia Hearst called a \$2-million food distribution plan for the poor and paid for by her father and the William Randolph Hearst Foundation "a real disaster." The SLA originally demanded \$70 worth of food for every poor person in California.

Miss Hearst's father said, "We were glad to hear her voice and to know that Patty's alive. But we'll have to study it before we make any reply."

Preceding Miss Hearst's voice on the tape was one of an SLA member who identified herself as General Genina.

"The prayers of the police state agency are to see to it that Patricia Hearst is killed and then use her death to further rally middle America in support of the Nixon-represent-

Ex-CIA Chief Says Watergate Barker Involved With 'Criminal Elements'

WASHINGTON (AP) — Former Central Intelligence Agency Director Richard Helms says the CIA broke off contact with Watergate burglar Bernard L. Barker in the mid-1960s after "we found out he was involved in certain gambling and criminal elements."

Helms, now U.S. ambassador to Iran, referred to Barker in secret testimony before the Senate Foreign Relations Committee. The testimony was made public Sunday.

Barker, one of seven men who pleaded guilty in the initial Watergate break-in case, denied the Helms accusation.

In his closed-door testimony Feb. 7, 1973 Helms indicated little knowledge of several other Watergate figures he was asked about but said Barker had been one of the Cubans involved in the abortive CIA-funded Bay of Pigs operation in 1961.

"It is my recollection that all lines with him on the part of the agency were eliminated sometime in the middle 60s. As a matter of fact we found out he was involved in certain gambling and criminal elements and we didn't like the

Patman Reserves Impeachment Views

MARSHALL, Tex. (AP) — Rep. Wright Patman, D-Tex., dean of House Democrats, said Sunday that he believed members of Congress should refrain from expressing an opinion on the subject of impeachment of the President.

The veteran congressman spoke at a special awards program in the city auditorium hosted by a fraternity at Wiley College. Outstanding citizens of Marshall were honored.

Nixon To Nominate Warner As Bicentennial Group Head

KEY BISCAYNE, Fla. (AP) — President Nixon has told a nationwide radio audience the country's 200th birthday in 1976 offers a unique opportunity for a "rededication to American values, as well as a reaffirmation of our strength and potential as a free people."

Nixon, in his talk Sunday from his bayside home here, said Americans "will have our share of disagreements and disappointments" but declared that "in our laws, in our ideals and in the character of the American people, we hold the keys to all the problems that confront us."

Texan To Keynote Democratic Event

CHARLESTON, S. C. (AP) — Rep. Jack Brooks, D-Tex., will keynote the 10th annual Democratic Governor's Dinner in Charleston tonight.

The event, one of three fundraising dinners held each spring across South Carolina, is expected to attract about 500 persons.

Tinder To Ho Coal

BRUSSELS, B.
Leon Tindemans, Belgian Socialist Minister for Coal and Mines, said Sunday that a coalition government would be formed in Belgium after the elections in June.

There had been a big increase in the Dutch-speaking French-speaking parties in the voting. The Socialist-Liberal party, led by the Flemish party, had won one seat.

However, Tindemans said he was now able to form a coalition government.

Tindemans Slated To Head Belgium's Coalition Regime

BRUSSELS, Belgium (AP) — Leon Tindemans of the moderate Social Christian party is expected to head Belgium's next coalition government following elections in which his party again won the largest number of seats in the House of Representatives.

There had been predictions of a big increase in support for the Dutch-speaking Flemish and French-speaking Walloon parties that advocate the country be remade into a federation divided along language lines. But in the voting Sunday, the three parties who made up the last government—the Social Christians, the Socialists and the Liberals—ran ahead again; the Walloon party lost ground, and the Flemish party gained only one seat.

However, Tindemans, 52, may now be able to push through constitutional revisions which he helped draft and which are designed to end the Flemish-Walloon feud. They would set

Bills Designed To Solve Cancer, Aging Mysteries

WASHINGTON (AP) — Congress is trying anew to help researchers find more clues and perhaps eventually solve the mysteries of what causes cancer and how the aging process works.

The House is expected to vote soon on bills that would:

- Provide a three-year extension and \$2.7 billion for the nation's basic law calling for a concentrated campaign against cancer. The 1971 law, authorizing an initial \$1.6 billion program to combat cancer, is set to expire June 30.
- Set up a new institute on aging within the National In-

KCRS Wins Four Awards From UPI

KCRS radio station last week end won four awards at the United Press International Broadcasters Association convention in San Antonio.

The Midland station received three first place awards and an honorable mention in the population category of 50,000 to 200,000.

The station was cited for best news coverage, won the best investigative reporting award for a feature on the energy crisis and received the best on-the-scene reporting citation for coverage of a fatal private plane crash near Midland. The honorable mention was received for a documentary on 18-year-olds receiving full legal rights.

KCRS news director Bruce Barker, for the second time, was elected as a regional vice president.

Three Persons Injured Slightly In Auto Mishap

Three persons received minor injuries shortly before 2 a.m. Sunday when their car swerved to avoid striking another vehicle and crashed into a utility pole at Front and Terrell streets.

Driver was Abel M. Carrasco, 20 of 1100 E. Parker St. Passengers were Mary Carrasco, 18, of the same address, and Cruz Reyes, 22, of 508 N. Terrell St.

Patrolman Bill Morgan said all had minor injuries but none sought medical treatment immediately.

Texas Industrial Production Stronger Than National Norm

AUSTIN (AP) — Texas has experienced some unemployment because of fuel shortages, but the state's industrial production is showing "a bit more strength" than in the nation as a whole.

Those conclusions were reached by Robert Lockwood, research associate for the Bureau of Business Research at The University of Texas in a report issued Saturday.

Industrial production held steady in Texas in January, Lockwood said, while nationally there was a decline of almost 1 per cent. Compared with January 1973, Texas' industrial output gained 5 per cent while the national increase was 3 per cent, he reported.

January declines in employment included 2,800 jobs lost in

Two-Week Upheaval Produces Chance For Ethiopian Reform

ADDIS ABABA, Ethiopia (AP) — A two-week upheaval has given the Ethiopians the tools to transform their feudal state into a modern democracy, if they want to.

But despite major gains by the reformers, many observers question whether Emperor Haile Selassie's kingdom is ready to shake off the traditions that have built up over 2,500 years.

"These reformist tendencies have a way of dying," one long-time Western resident said. "Ethiopians prefer gradual change, and that means slow."

About 120,000 workers were returning to their jobs today after a four-day general strike that demonstrated the strength

of organized labor for the first time in the country.

The unions won from government negotiators promises of a minimum wage, the right to strike for public utility employees, nationwide price controls and abolition for poor children of \$2.50-a-term school fees.

The 32-year-old emperor told officials of the Confederation of Ethiopian Labor Unions he was pleased with the peaceful settlement. International flights into Addis Ababa resumed, and a quick return to normal was expected in the ports, on the railroads and in basic industries.

Premier Endakachew Makonnen's pledges of quick legislative action to accomplish the labor reform apparently closed the crisis that also included

Spanish-Vatican Crisis May Be Simmering Down

MADRID, Spain (AP) — The Spanish government has indicated that its crisis with the Roman Catholic church may be cooled off by the church's statement that Bishop Antonio Anoveros meant no attack on national unity when he urged more freedom for the Basques.

A government source said the statement issued by the conference of bishops was "conciliatory." He indicated it would end the most serious crisis in church-state relations since Generalissimo Francisco Franco came to power in 1939.

Bishop Elias Yanes, spokesman for the Permanent Commission of the Spanish Episcopate, told newsmen the bishops considered the matter "resolved."

Because Basque nationalists are blamed for the assassination of Premier Luis Carrero Blanco in December, his successor, Premier Carlos Arias Navarro, was enraged by a

homily from Bishop Anoveros on Feb. 24 calling for greater civil rights for the Basques.

When the bishop refused to back down, the premier was reported preparing to tear up the 1953 Concordat with the Vatican so he could put the bishop on trial.

In their statement, the bishops fully supported their colleague's right to comment on social conditions, but they also said: "He did not intend to attack national unity or plant discord." These were apparently the key words the government was looking for.

Bishop Anoveros' diocese is Bilbao, in the heart of the Spanish Basque country.

\$2,000 Cash Taken From Home

Almost \$2,000 cash was reported stolen from the Lynn Bronson residence at 2716 Kessler St. sometime after 2 a.m. Sunday, Patrolman Jerry Stuard said.

The largest amount, \$1,828, was in a money bag and belonged to Pay-less Self Service Shoes, 900 Midkiff Road. The remainder, \$170, was in the woman's purse.

Potentially Bitter Primaries Threaten Democratic Outlook

WASHINGTON (AP) — Democratic prospects in many of the nation's largest states are being threatened by potentially divisive primary battles as candidates try to take advantage of seeming Republican vulnerability.

Party leaders are concerned that hopes to make major gains in the wake of Watergate, including capturing the New York and California governorships, may fall victim to factionalism.

Republican-held states in which Democratic primary fights for governor seem likely include New York, California, Connecticut, Michigan and Massachusetts.

are heading for their first gubernatorial primary. Their leading contenders are Rep. Ella T. Grasso and Atty. Gen. Robert Killian.

In Massachusetts, a primary between former state Rep. Michael Dukakis and Atty. Gen. Robert Quinn could damage chances of defeating Gov. Francis W. Sargent.

In Michigan, a primary battle could hurt Democratic hopes to oust GOP Gov. William G. Milliken.

As for Senate races, the most notable case of Democratic

Lloyds Asks Ships Look Out For Lost Balloonist

LONDON (AP) — Lloyds of London has asked ships off the west coast of Africa to look out for missing American balloonist Thomas Gatch Jr. after two ships reported sighting large objects that would be his gondola.

The British freighter Antiochus radioed Lloyds last Thursday that it had spotted a "large white buoy" about 150 miles southwest of the Liberian coast.

Two days later the Indian freighter Jag Vijay reported a "white and orange object" about 50 miles south of the previous sighting.

"Neither of these sightings has proved to be conclusive yet," a spokesman for Lloyds said. "But an alert was flashed to all ships in the Atlantic, and the information was also passed to the U.S. Coast Guard."

Gatch, 48, has been missing since Feb. 21. He was attempting to make the first crossing of the Atlantic by balloon, using a pressurized, floatable gondola suspended from 10 helium balloons. His last known position was about 950 miles southwest of the Azores. The sightings reported to Lloyds are about 1,500 miles southeast of that position.

Gatch's family has offered a \$10,000 reward for information leading to the recovery of the missing adventurer. A sister, Nancy Svien of Rochester, Minn., is in the Canary Islands off northwest Africa to carry out a private search. She said the two sightings were "the most encouraging news we have had."

Driverless Pickup Runs Over Boy, 7

Seven-year-old Jeffrey Yarbrough of 208 E. Summit St. was run over by a driverless pickup truck late Saturday.

He was released from Midland Memorial Hospital after receiving treatment for a cut ear and multiple bruises.

The accident occurred on Gist Street near its intersection with South Main Street.

The truck, owned by Leroy Grooms, was being pushed by two men as the boy rode in the back. The child jumped from the bed of the truck to help push but fell as he hit the ground, Patrolman Bill Morgan reported.

The two men let go of the truck to help the child and it rolled backward over the boy.

The accident occurred shortly after 10 p.m.

Midlander Stabbed During Argument

Jesse Lopez, 26, of 410 W. Neely St. was stabbed once in the right arm about 11:30 p.m. Sunday after an argument at the Jamaica Club, 610 E. Industrial St.

He was treated at Midland Memorial Hospital and released. Police said no one wished to file a complaint.

POLLY'S POINTERS

Crayon In Wash Is Spotty Mess

By POLLY CRAMER
Newspaper Editor/Reporter Association

Polly's Problem

DEAR POLLY.—I did not know there was a yellow crayon in my husband's pocket until two loads of clothes came out of the washer with bright yellow spots on them. Is there any way to get this out of permanent press shirts, knits and nylon underwear? —MRS. M.C.J.

DEAR POLLY.—My Pet Peeve is with those mail order companies who send out more and more catalogues each year. They flood the poor mail service and then write almost insulting letters if you have not made a recent purchase. To add insult to injury they offer almost unbelievable sweepstakes in which you are sure(?) to win a fabulous prize.

Surely three catalogues a year is enough for any company. I have reached the point where I am almost ready to mark off my list any company that send more than four "wish" books per year or who write me one of those "personal" form letters. This complaint is also for others who feel as I do. —DORA.

DEAR POLLY.—Tell B.M.S. to wash her foam-rubber pillows with some wintergreen in the water to remove the odor. Also I had a rug cleaned that went all through the house. I took the rug up and lightly applied water with wintergreen in it with a mop on both sides. When it was dry the odor was completely gone. —LENA.

DEAR POLLY.—Do not forget when washing foam pillows that they must not be dryer dried on a "heat" setting. Set on AIR only or line dry. —POLLY.

DEAR POLLY.—A large kitchen salt shaker kept near the flour canister makes a good flour duster for cake pans, meat, fish, and so on. No flour is wasted and you do a far less messy job. —DONNA.

DEAR POLLY.—My Pointer is for those who blow out eggs to have the shells to make Easter decorations. This is difficult as you know. After losing a few eggs you get a real

headache and feel as if the top of your head is coming off. I found that after making a small hole in each end of the egg I can ease an ear syringe to blow out the egg. This works beautifully and no headache. Do not squeeze the syringe too hard or you may break the shell. —GERTRUDE. You will receive a dollar if Polly uses your favorite home-making idea. Pet Peeve, Polly's Problem or solution to a problem. Write Polly in care of this newspaper.

West PTA Unit Chooses Officers

Mrs. Dalton Linton was elected president when the West Elementary Parent-Teacher Association met recently in the school.

Other officers named were Mrs. James Bostwick, first vice president; Mrs. Gene Hunter, second vice president; Mrs. Henry Maxwell, secretary; and Mrs. Gilbert Casbeer, treasurer.

Mrs. Linton will be the unit's delegate to the national PTA convention to be held in May in San Antonio.

The program was presented by the fifth and sixth grade choirs. The flag was presented by Brownie Troop 125.

Following the meeting, there was visitation of classrooms in observance of Texas Public School Week.

Ranchland Hill Country Club Women Golfers Announce Pairings

The Ranchland Hill Country Club Women's Golf Association announces pairings for Tuesday games.

The 18-hole flight pairings are: Mrs. J. D. Norton, Mrs. J. R. Simpson, Mrs. J. L. Palmer and Mrs. J. J. Humes; Mrs. J. R. Collier and Mrs. C. E. Frothingham; Mrs. Loret Miller, Mrs. Gay Proctor, Mrs. B. E. Coaster and Mrs. W. J. Young; Mrs. A. J. McDade, Mrs. Gordon Eberhart, Mrs. David Reed and Mrs. A. DuBois; Mrs. C. W. Smith, Mrs. Yvonne Dunning, Mrs. James Blaine and Mrs. Joan F. Hayes; Mrs. B. G. Wilson, Mrs. John B. Campbell, Mrs. Claude Mitchell and Mrs. C. D. Johnson; Mrs. E. O. Price, Mrs. George F. Harting, Mrs. Bob Adams, Mrs. Jerry Mohler, Mrs. John E. Casper, Mrs. W. V. Danner, Mrs. Paul Varner and Mrs. Byron Robinson; Mrs. Don Gibson, Mrs. John G. A. Wagner, Mrs. George Chesler, Mrs. Charles Woodruff and Mrs. Robert Cook; Mrs. E. M. Gorosco, Mrs. O. A. Binn and Mrs. R. McCune; Mrs. R. H. Gault, Mrs. R. L. Peterson and Mrs. Jesse Wright.

Chapter Holds Business Meet

The Psi Phi Chapter of Beta Sigma Phi met recently in the home of Mrs. Lyons Lockhart Jr., 709 Godfrey St., for a business session.

Mrs. Pete O'Connor was a guest.

Plans were made for a couples' social to be held March 30. Also discussed was the Founder's Day luncheon and Volunteers in Midland as a new service project.

Mrs. Ron Thurston and Mrs. Les Acker presented the program, "People."

Hostess gifts were won by Mrs. Russell Sexton and Mrs. Gary Lane.

Chi Omegas Set Wednesday Coffee

Chi Omega Alumnae Association will hold a coffee at 9:30 a.m. Wednesday in the home of Mrs. Verne E. Griffith Jr., 311 Bedford St. Alumnae new to the area are invited.

SINUS SUFFERERS

Here's good news for you! Endless new "cold" SYNA-CLEAR Decongestant tablets act safely and continuously to drain and clear all sinus-sinus cavities. One "cold" SYNA-CLEAR tablet gives you up to 8 hours relief from pain and pressure of congestion. Allows you to breathe easily—clears watery eyes and runny nose. You can buy SYNA-CLEAR at DANIEL DRUG without need for a prescription. Satisfaction guaranteed by return, try a packet.

Introductory Offer Worth \$150
Get this 30-day trial, 12-pack, 12-pack of SYNA-CLEAR 12's and receive one more SYNA-CLEAR 12-Pack Free.

Now available—PRUVO Cough Syrup from the SYNA-CLEAR people.

GIRL SCOUT NURSERY WORKERS—As a part of the development of Girl Scouts in community action, these Senior Girl Scouts from Midland Troop 90 take charge of the nursery at the First Presbyterian Church. The Scouts are, from the left, Jeri Cabaniss, Copper Butman and Robbin Harrill. The children are, left to right, Jack Campbell, Carole Ann Campbell and Shane Morrison.

Ladies' Hospital Auxiliary Hears Radiology Program

Dr. William F. Trotter, radiologist and president of the staff at Midland Memorial Hospital, discussed the Department of Radiology, when the Women's Auxiliary, Inc. of the hospital met Friday in the hospital cafeteria.

Dr. Trotter described the new special procedures room as the best equipped room of its type in West Texas. Combined with x-ray machines, are moving picture and television cameras enabling not only movies but tapes for instant replay to be made. He also said the hospital has a Department of Nuclear Medicine, whereby radioactive material may be given a patient and its progress scanned in order to make better diagnosis of internal disorders.

Wayne Ulrich, hospital administrator, reported the hospital has 114 patients. He also said that in April the hospital will be visited by a Joint Hospital Accreditation Team.

During the business session conducted by Mrs. Van Hower, seven new members were introduced. They are Mrs. Warren Berry, Mrs. Jimmy Hollis, Mrs. Robert Peyton, Mrs. Richard Cramer, Mrs. John Houser, Mrs. Barney Hightower and Mrs. Ralph McCleskey.

It was announced that during February 167 women worked 3,108 hours, including the following who worked more than the normal volunteer time: Mrs. F. R. Arnold, 24; Mrs. Vern

Scouts Contribute Hours Of Service

In the last year Girl Scouts made stuffed toys for a burned-out nursery school, contributed many hours to the library, worked as Candy Strippers, took time to clean a vacant lot, baby sat, carried baskets to shut-ins and participated in many other community related activities.

Midland Girl Scouts and volunteer leaders join the Permian Basin Girl Scout Council in celebrating this Girl Scout week.

Active citizens all, Girl Scouts learn from their association with other girls from 7 to 17 of all races, creeds, nationalities, economical and geographical backgrounds who accept the Girl Scout promise and laws. The diversity of activity and informal, relevant programs reinforces and supplements the teachings of home, school and church or synagogue. They enjoy, too, learning to sew, crafts, ride a horse, cook over an outdoor fire and to enjoy nature.

Wherever there is beneficial action, you'll find a Girl Scout. Girls have been joining the section of doing since 1912 when Juliette Low founded Girl Scouting. From a small beginning, Girl Scouting has grown to an international organization that gives girls an opportunity to learn about people and cultures of other countries firsthand, to learn how other girls contribute to their communities through Girl Scouting.

Dear Abby Metric Conversion Bill Bogs Down

He Lost Interest In Sex After The Wedding

—By Abigail van Buren

DEAR ABBY: Joe is 33. I am 30. This is the second time around for both of us. We've been married for four months, which is when all our trouble started. We lived together for a year first, and it was heavenly. There was never a problem about his ability to satisfy me, but now that we're married, he has absolutely no interest in me sexually. Joe says when I was his girlfriend lovemaking was exciting, but now that I'm his wife — nothing. I can't understand that statement.

I have suggested counseling, but he refuses. I think about him all day, and when he comes home I'm turned on by just the sight of him, but he doesn't respond. I am ready to climb the walls.

I am an attractive woman and I'm meticulous about my grooming, and I can't understand his total indifference. I was better off when we just lived together. What do you recommend?

LEGAL IS LOUSY

DEAR LEGAL: I am NOT going to recommend that you divorce your husband in order to turn him on again. His inability to become aroused sexually now that you are legally wed indicates that for sex to be "exciting" to Joe, it must be forbidden. (There are men who can perform only with women they consider to be inferior or low-down; wives are "nice" women — like their mothers and sisters, and therefore not for sex.) Too bad Joe refuses counseling. He needs to change his attitudes about

sex and love. And counseling is the answer.

DEAR ABBY: My husband and I have been invited to a house-warming party. The wife is a fanatic about people smoking in her home, and has stated on the invitation that guests who wish to smoke will have to go out on the patio!

Both my husband and I smoke, and neither of us wants to drive 35 miles to attend a party where we will have to go out on the patio to smoke. (It's cold this time of year where we live.)

I've been wrestling with my conscience for weeks, trying to decide whether we should make some excuse and decline at the last minute to avoid hurting the hostess's feelings, or to simply decline now and tell her the truth. What do you say?

HOOKED

DEAR HOOKED: Decline now, and tell her why.

DEAR ABBY: My wife and I were the parents of three children — two girls and a boy. The boy died last year (at age four) following heart surgery. When we meet new people, they inevitably ask, "How many children have you?"

Our son was a beautiful child, and we don't want to exclude him, so how do we reply? Your answer may help others in our situation.

C.G.S. IN THE SOUTHEAST

DEAR C.G.S.: Tell them you have two lovely daughters and lost a beautiful four-year-old son last year following heart surgery.

WASHINGTON (AP) — A bill to ease America onto the grams-and-meters metric system is snarled in a House battle over federal aid for workers who'll have to buy differently calibrated tools.

After putting off House action week after week for four weeks, leaders have pulled the bill off the calendar entirely.

Chairman Olin Teague, D-Tex., of the House Science Committee, threatens he may

12,000 Miles With Stolen Car, Credit Cards

SEATTLE (AP) — How far can you get with a stolen car, jewelry, wallet and credit cards?

About 12,000 miles in one case, authorities say. The King County prosecutor's office said Phillip C. Barbour, 41, has been charged with the Feb. 2 robbery of Kenneth T. Caplinger, 62, of Seattle.

A spokesman for the prosecutor's office said Caplinger's vehicle and credit cards were used in Oregon, California, Arizona, New Mexico, Texas and Louisiana before Barbour was found sleeping in the vehicle last weekend at Kalama, Wash.

never bring it up if a vote is permitted on granting federal aid to replace inch-calibrated tools with millimeter-measured ones.

The bill basically is President Nixon's proposal to set out guidelines for easing American products and, therefore, American shoppers onto the metric system in 10 years on a voluntary basis.

It would create a 21-member National Metric Conversion Board to develop and recommend the guidelines in a year.

A similar Senate bill would be more compulsory, directing the board to recommend a plan in 18 months for getting the federal government and its billions of dollars of purchases on the metric system in 10 years.

The reason the House bill kept getting put off week after week was that leaders kept scheduling it but the House Rules Committee never got around to clearing it for House action.

Rep. Spark Matsunaga, D-Hawaii, says several labor unions "lobbed heavily" against clearing it and the only way to get the committee's clearance last week was to permit a House vote on his amendments for federal tool replacement aid. Matsunaga's chief amendment would entitle individual

workers to Small Business Administration grants for which 90 per cent of the first \$500 and 80 per cent of any higher cost would not have to be repaid.

Two other Matsunaga amendments would entitle small busi-

Banker Testifies In Parr Tax Suit

CORPUS CHRISTI, Tex.

(AP) — The vice president and cashier of the First State Bank of San Diego was to be the first witness today in the second week of the income tax evasion trial of South Texas political boss George Parr.

Parr, 73, is being tried in federal court here on charges of evading more than \$122,000 in income taxes between 1966 and 1969 and with understating his income for that period by more than \$287,000.

Banker Carl Williams had just taken the witness stand Friday at the time U.S. District Court Judge Owen D. Cox called the weekend recess.

nesses to SBA loans for replacing tools and stretch the U.S. metric system conversion out to 15 years instead of 10.

Without the special Rules Committee rule, it would have been illegal for the House to vote on creating new SBA programs in a bill not dealing principally with that agency.

Teague had been waiting for four weeks to get a House vote on his metric conversion bill, but he asked leaders to yank it off the agenda when the Rules Committee permitted the federal tool-aid vote.

Jefferson Nickel Designer Dies

OWOSSO, Mich. (AP) — German-born artist Felix Schlag, 82, who won \$1,000 in 1938 for his design of the Jefferson nickel, died Saturday. A veteran of the German army in World War I, Schlag became an American citizen in 1938. Since 1966, his initials have appeared on the coin under his bust of President Thomas Jefferson.

WHAT IS THE TRUTH?
"Thy Word is Truth" (John 17:17)
by Bryan Boes

"It is more blessed to give than to receive."
This saying of Jesus recorded in Acts 20:35 is generally met today with polite smiles, allowing Jesus to say such an idealistic thing but knowing that it's not practical and won't work in our world. Modern man has come to the conclusion that you have to look out for yourself and that doing so leaves no time to be concerned about others.

And this is the basis of our problem. Selfishness breeds unhappiness. A life that is self-seeking will not be a useful, fulfilled life.

Jesus knew what he was talking about. Real happiness in life comes when we use ourselves in service to God and others, when we try to give instead of always wanting to receive. This is the way God is: he gave his only Son for our salvation. This is the way Jesus lived: he used himself in service, saying that he came "not to be served but to serve." This is the way we ought to be: loving God and loving others, serving God and serving others.

As we live in this way, we will realize the truth of the Lord's statement.

Medical Journal Warns About Earlobe Piercing

CHICAGO (AP) — Earlobe piercing with improperly sterilized instruments has been found to result in hepatitis, a study in Seattle, Wash., has found.

The March 11 issue of the Journal of the American Medical Association reports that seven cases of the liver disease were associated with earlobe piercing in one year in King County, Wash.

The investigation was begun in 1973 after the mother of a girl who had her earlobes

pierced in a jewelry store complained to public health officials that the jeweler had used soiled instruments.

The authors of the report, Dr. Carl J. Johnson, now of the Jefferson County, Colo., Health Department, and Herb Anderson, Jean Spearman and Julia Madson of the Seattle-King County Health Department, found that the jeweler used blood-stained instruments.

He told the authorities he soaked the instruments in a strong alcohol solution between procedures. But they point out that the alcohol solution does not kill the hepatitis virus.

They also found that some physicians still use a sterilize solution which is supposed to sterilize instruments used in minor surgery, including earlobe piercing, which also does not destroy the virus.

The authors recommended that earlobe piercing instruments be sterilized in an autoclave, an oven-like device which destroys germs with extremely high temperatures, or by boiling for 20 minutes.

Oklahoma Plane Crash Kills Texans

SUMMERFIELD, Okla. (AP) — Three Del Rio, Tex., men were killed Sunday afternoon in the crash of a light plane about three miles northwest of here.

Highway patrolmen said John Lester Dodson Jr., 54, the pilot, and passengers Floyd R. Kitts, 40, and Edward L. Garza, 45, died as their Beechcraft Bonanza apparently was hit by lightning and crashed.

Witnesses said the craft's engine failed but restarted before losing power again. Patrolmen said the right wing struck a tree as the plane slammed into the ground.

Heavy thunderstorms were active in eastern Oklahoma at the time.

Poll Shows Need Of Average Family Now \$152 Weekly

PRINCETON, N.J. (AP) — A Gallup Poll indicates that Americans estimate \$152 a week to be the average minimum income needed by a non-farm family of four to meet necessities.

The figure is more than five times the \$30 estimate of 1937 and 50 per cent more than the \$101 average given in 1967. It is \$3 higher than last year's average minimum.

The 1,444 adults interviewed in two periods in mid-February considered living costs to be much lower in the South and Midwest than in the East or Far West. The East was considered the most expensive section of the nation.

A scorpion stings with its tail but only when extremely frightened or provoked.

Senator Kennedy's Views

Should there be any doubt as to how Sen. Edward M. Kennedy of Massachusetts feels about the oil industry, just read the following letter received from him by Earle M. Craig Jr., Midland independent oil operator. It reads:

"I appreciate your writing to express concern with the energy crisis, a concern which was extremely evident in my visit throughout Massachusetts before the return of the 93rd Congress.

"From the elderly to the very young, the decrease in home heating levels was a potential health hazard, while the soaring prices of home heating fuel was depleting incomes of families in every community. Long lines were formed at gasoline stations and unemployment rates were rising . . .

"Everyone I met was willing to sacrifice and cut back on their use of energy, and was doing so. But a surprising majority are confused or convinced that the shortage is being manipulated by the major oil companies . . .

"For this reason, I believe that the first priority of the Congress is to establish by law a requirement that there be total disclosure by the domestic petroleum industry and foreign affiliates of every aspect of their activities. We need a federal bureau to examine the petroleum industry to determine what reserves actually exist, how much is being stockpiled and where, who has excess refining capacity and why, and the precise amount of profits—convert or over—at every level of operation.

"I have joined in the introduction of legislation to end dependence upon industry-furnished information, not only for petroleum, but for natural gas, for coal and for nuclear energy as well. We need, too, a national policy to deal with the present crisis and future energy needs as well as a tight set of price controls on the petroleum industry and an excess profits tax on the windfall gains at the expense of the consumers.

"Other steps are necessary. One is a federal oil and gas corporation to provide a public yardstick for the performance of private industry in the energy field. We need to move promptly into an effective program for allocating scarce supplies . . .

"Finally, since the problem is worldwide, in December, I proposed the convening of a World Energy Conference, and accordingly support Secretary of State Kissinger's call for an Energy Action Group and the initial meeting of foreign ministers from major consumer countries.

"The willingness of the people I met to make sacrifices to conserve energy is exemplary, but I do not believe that they must sacrifice while others profit . . .

And now you know what the petroleum industry is up against!

Jack Anderson Says: Documents reveal more on Nixon's taxes.

WASHINGTON — Confidential White House documents show that President Nixon, contrary to the statements put out in his name, has taken an intense personal interest in wangling every possible tax deduction he could get away with.

He even inquired in 1969 about deducting his payments to his daughter Julie as a business expense. He wanted to count money he was contributing to her support as salary for her work as a White House tour guide. Yet the White House already had put out publicity that she was a "volunteer."

The President also wanted a tax break for using the den at his San Clemente estate for an office. He asked what tax write-offs were available, too, for permitting others to use his California and Florida houses.

He thought he should be permitted to charge off wedding gifts, funeral sprays and similar items, because he felt these were "business expenses" for a politician. Most of his entertaining, he also contended, should be deductible. "He wants to be sure," instructed aide John Ehrlichman in a confidential memo, "that his business deductions include all allowable items."

This differs with the picture the White House has tried to portray of a President too busy to bother with the detail of his tax returns. Press spokesman Gerald Warren has implied Nixon was so preoccupied with the presidency that he left the preparation of his returns entirely to his lawyers.

The implication was that his lawyers really were to blame for claiming the controversial—and probably illegal—\$76,000 tax deduction for the gift of the Nixon papers to the government.

Documents now in the hands of the Joint Congressional Committee on Internal Revenue Taxation, however, prove that the President was not at all removed from the preparation of his returns. On the contrary, he pulled every possible string to increase his tax deductions.

Ehrlichman relayed the President's wishes to Edward Morgan, the White House aide who handled the President's taxes. For example, an Ehrlichman memo, dated June 16, 1972, asked Morgan:

"The President proposes to personally pay Julie for her work in the White House this summer and deduct it as a business expense. Would you please determine whether he can properly do this . . ."

Morgan took the problem up with the Internal Revenue Service's Deputy Chief Counsel Roger Barth who served as political impresario for Julie and Tricia Nixon during the 1968 campaign and is now the Nixon man inside the IRS.

Barth responded a month later with a memo, carefully stamped "Confidential," advising:

"Legally we might justify deduction as a business expense for a salary paid to Julie as a tour guide this summer. However, for the following reasons, I MOST strongly recommend that this should not be done:

"(A) The amount involved is rather small;

"(B) This is always a factual

It's Time To Run, Bud!

The Washington Merry-Go-Round

for depreciation and maintenance expenses."

Ehrlichman also wanted to know about "the tax consequences of permitting others to use the Florida and California houses." Barth responded: "We would have to establish the business purpose for the President with regard to each person invited to use the homes."

On the question of deductions for wedding gifts, funeral sprays and the like, Ehrlichman noted: "The President holds the view that a public man does very little of a personal nature. Virtually all of his entertainment and activity is related to his 'business.'"

Agreed Barth: "I personally agree with the idea that much of the President's expense is related to his 'business.' As with the business use of his residence, a careful system must be established for keeping track of business expense . . .

"Small gifts by the President, which are related to his 'business,' would be deductible . . . Note, however, that we must give thought to distinguishing between activities and gifts related to 'being a President' and those related to running for re-election."

The Country Parson

It is not a minor matter, either, that the grand jury says it has a roster of about a dozen others who conceivably might be later charged but, on the other hand, might — if the need arose — be called as witnesses against the accused, just as the existing "guilty pleaders" are sure to be called to testify.

The great unanswered question at this stage is what Mr. Nixon's role was in all this complex contriving which led to outright criminal offenses and massive attempts to undermine the American political process, partly by grossly misusing established agencies of government.

Barth also was approached on this question. He advised that "a deduction would be permitted in the dark depths . . . Since no plants can live in the dark depths of the sea, abyssal animals eat each other or feed on dead organisms that sink down from lighted areas above."

JACOBY ON BRIDGE

By OSWALD and JAMES JACOBY (Oswald is Enterprise Associate Editor)

Oswald: "Another one of the old rules of play inherited from chances are that every South player would be declarer at three notrump."

Jim: "Most West players would open the six of spades and every declarer would look at that card with the expression of a man seeing a coiled rattlesnake."

Oswald: "Eventually they would all call for the king from dummy. The king would hold. The rattlesnake would turn out to have been harmless and declarer would proceed to rattle off the next 10 tricks before conceding the last two to the defense."

WORLD ALMANAC FACTS

Recently, the U.S. Supreme Court unanimously upheld a Florida law making shippers, off-shore oil drillers and oil terminals liable for damage caused to the state and property owners by oil spills. The World Almanac notes. Since 1969 regulations governing outer continental shelf oil and gas operations have been strengthened and enforced. The average oil discovery offshore contains 10 times the oil of a similar onshore discovery.

BRUCE BOSSAT

The Plot Thickens As Indictments Released

WASHINGTON (NEA)—When the other shoe finally dropped from the Watergate grand jury's hands, it turned out to be a giant's boot.

What is most important about the indictments set forth against President Nixon's top circle of advisers and a few lesser aides is the multiplicity of the charges and their sweeping character when viewed in totality.

It also is significant that three key men — H. R. (Bob) Haldeman, John Ehrlichman and John Mitchell — are accused of perjury before the grand jury. Lying is a particularly heavy charge to lay against men who often made a conspicuous public show — in the Senate Watergate hearings and other utterance — of telling an open, honest, direct and full account of the Watergate break-in episode and the long series of follow-on events associated with its cover-up.

We have, then, what the grand jury and Special Prosecutor Leon Jaworski perceive as a grand conspiracy to obstruct justice. The investigators would not likely levy so sweeping an indictment (that charge of course embraces all seven newly indicted men) without having in their possession what they deem to be very convincing evidence.

To be convincing, that evidence must have satisfied the jury that the accused, while professing innocence, were in critical cases telling conflicting stories. If such conflicts can be laid persuasively before the trial court, there is no way, therefore, that all of those freshly charged can be found innocent. It does not pre-judge their cases to say that.

It seems clear from the indictment language that the jury was deeply affected by the secret or public statements of the accused post Nixon aides and what it heard on White House Watergate tapes given it by Judge John Sirica after their submission by President Nixon. Tapes and statements evidently don't match at decisive points.

Even on the open public record, there is evidence of stories told which do not fit together. Former Attorney General Mitchell, for instance, first said he knew nothing of Watergate, of cover-up, of other plans to try to subvert the Democrats' 1972 presidential campaign. But he later publicly declared he had taken part in meetings where first the plans were discussed and later where cover-up was the issue.

Of course we can't forget the many Nixon aides who already have pleaded guilty, by that fact alone giving strong credence to the grand jury's notion of a broad conspiracy. High on the list, naturally, is former White House Counsel John Dean, whose very elaborate tale both the prosecutor and the grand jury appear to find more impressive than its rebuttals by the accused.

DON OAKLEY

Holding Gun To Head Of Society Just Won't Work

NEW YORK (NEA) — California Gov. Ronald Reagan has called on the poor people of his state to refuse to accept the food handouts demanded by the captors of Patricia Hearst as a way of telling the "Symbionese Liberation Army" and similar revolutionaries or "social reformers" that kidnapping and extortion and otherwise trying to hold a gun to the head of society just won't work.

He obviously is asking too much of people in need, or of simple human nature. But while later distributions of food happily did not repeat the chaotic scramble of the first day, the whole giveaway program has to be one of the less ennobling occurrences of our time.

"The rich have plenty," said one recipient of a food package, a widowed mother. "If my son was kidnapped no one would give a damn. If this is what makes the ruling class stand up and take notice, then I'm for it."

"I'm behind the SLA 101 per cent," said an 18-year-old woman. (What is an 18-year-old doing in a handout line?)

"This is something that should have happened a long time ago," said a 17-year-old. (What is a 17-year-old doing in a handout line?)

The BIBLE

Can You Quote It?
 By LAVINA ROSS FOWLER

1. Modern Jewish immigration, known in Hebrew as "Aliya" started into Palestine in 1882. These people obtained help from the Baron Rothschild and it was they who laid the foundation of the Zionist movement. Why do some feel that this is in keeping with prophecies of Joel 2 and Malachi 3?
2. Give either the promise, prayer or benediction in Revelation 22:20-21.
3. Give the other name for the Hebrew Golgotha. Luke 23:33
4. Give one quotation with which Jesus answered Satan in the wilderness. Deuteronomy 8, Psalm 90, Isaiah 40, Matthew 4.
5. Of what value is the memorizing of any Bible verse? Psalm 119:11. Four correct . . . excellent. Three correct . . . good.

TIMELY QUOTES

"Everyone worries about gasoline but no one cares about Pinto beans."

—Alfred Klimm, owner of a string of California restaurants, announcing a shortage of Pinto beans.

THE HOUSE THAT DON BUILT — This doll house was made by Don Boyd of Kansas City, Kan., shown in upper picture with his daughter Cynthia. The colonial-style structure is 2x4x4 feet in size and includes three bedrooms, bathroom, living room, dining room and kitchen. One of the miniatures in the house is an organ that actually plays. Cynthia, an avid organ player, is taping music to be played by the doll house instrument. (AP Wirephoto.)

Food Price Hikes Hurt Poor Most

WASHINGTON (AP) — Figures released today by the Agriculture Department showed poor people last year paid proportionally more to eat than middle-income and richer families.

The statistics, compiled by family economists in the Agricultural Research Service, showed a "low-cost" food plan in January cost a family of four \$41.70 per week. That was up almost 14 per cent from \$36.70 in April 1973.

Other Plans Rise Less
A "moderate-cost" plan rose less than 12.5 per cent from April to January to \$53.20 per week. Nine months earlier it cost \$47.30 per week.

For a "liberal" plan, a four-member family — including two school children — the January bill was \$64.60 per week, up about 11.2 per cent from \$58.10 in April last year.

The Nixon administration imposed retail and wholesale price lids on meat in March and later extended Phase 4 curbs to all food prices. Most controls were removed in July, although beef prices remained under the freeze order until Sept. 10.

Basic Difference Defined
A basic difference between low-cost and liberal-cost food plans as defined by USDA is an allowance for more expensive cuts of meat in the higher-cost category.

Thus, the department says, a family eating a low-cost diet would have more potatoes, dry beans, peas, breads and cereals. But prices for those items have gone up, in some cases more rapidly than meat prices.

Dairy Cooperative Considers Court Action About Donations

FOND DU LAC, Wis. (AP) — The nation's largest dairy cooperative is considering civil action against some of its personnel concerning 1972 presidential campaign donations, a spokesman said Sunday.

John E. Butterbrodt, president of Associated Milk Producers, Inc., said a decision on lawsuits will be made after a report on an internal investigation is filed Wednesday with AMPI headquarters in San Antonio, Tex.

The study was authorized in September at the co-op's convention in Minneapolis.

AMPI, with 40,000 members in 30 states, is one of the dairy groups involved in controversy over donations to President Nixon's re-election campaign shortly before the administration approved milk price moves favorable to the industry.

Butterbrodt has denied AMPI had any intention of allowing campaign contributions to congressmen to wind up as funds for the Committee to Re-Elect the President.

In a statement Sunday, he said AMPI has concluded "a long, unbiased, uncontrolled investigation" by lawyer Ed Wright of Little Rock, Ark., involving "possible improper and illegal acts by former and present AMPI employees, officers and board members."

Copies of the Wright report, the statement said, probably would be turned over to the Senate Watergate committee, "the Washington Watergate grand juries, and to John W. Oliver, U.S. district court judge in Kansas City where a number of lawsuits involving dairy cooperatives are being heard."

AMPI, it said, "will consider actions including lawsuits,

against those persons or agencies that have unlawfully or improperly disbursed funds of AMPI or have done acts that have caused financial loss or damage to the co-op."

"Dismissal of any board of director member who has been shown by the facts of the report to have committed seriously improper or illegal actions will also be considered," it said.

Butterbrodt said an auditing firm helped Wright with the study.

Full public disclosure of the report, Butterbrodt said, may be tempered by interest in "protecting the rights of individuals and adhering to the processes of law."

Tobacco in Europe
Tobacco was not introduced into Europe until after the discovery of America by Columbus.

Pat Returns To Venezuela

KEY BISCAIYNE, Fla. (AP) — Pat Nixon returns to Caracas, Venezuela, today on a good will mission to a country where she and President Nixon were spat upon and threatened by angry mobs 18 years ago.

There will be tight security for the First Lady's three-day stay in Caracas, but a friendly welcome is anticipated. And Mrs. Nixon has no fears about returning, according to her press secretary, Helen Smith.

The First Lady heads a U.S. delegation to Venezuela for the inauguration of its new president, Carlos Andres Perez, who won a landslide election victory in December.

A presidential jet will pick Mrs. Nixon up in Florida, where she relaxed over the weekend. Nixon was to be on hand to see her off at noon EDT from Homestead Air Force Base there.

After Venezuela, she will fly to Brazil for the inauguration Friday of its new president, retired Army Gen. Ernesto Geisel.

President Nixon said he was sending his wife to the inaugurations as evidence of his "continued interest in promot-

ing close and cooperative relations with the nations of Latin America and the Caribbean."

The Nixons visited Caracas in 1956 during a vice presidential tour of South America. Venezuela, the last stop on their trip, had just emerged from 19 years of dictatorship under Perez Jimenez. Anti-American sentiment was high because Jimenez had been given asylum in the United States.

Rifle Ball Speed
A rifle ball moves 963 miles per hour or 1,466 feet per second.

Linen was first made in England by Flemish weavers, in 1253.

END DENTURE MISERY

BEITS DENTURES BEAUTIFULLY

DENTURITE refits loose dentures in only five minutes. "Cushion of Comfort" lets you eat anything. Laugh, talk, even sneeze without worry. No more food under plates. DENTURITE lasts between dental visits. Ends daily mass of pads, powder or paste. Easy to remove. No taste. No odor. Money-back guarantee. See your dentist regularly. Use DENTURITE for comfort and economy. At all drug counters.

ATTENTION HOME OWNERS

If you live between North "L" and Midkiff, Cuthbert and Neely... THIS CONCERNS YOU.

We have no desire to see another "Andrews Highway" situation develop in heart of the Midland's 1-F-1 residential area.

Come to the City Council Meeting at the City Hall, Tuesday, March 12, at 1:30 P.M.

We must appear in numbers to defeat the proposed change in zoning of the 5.6 acre tract bounded by Sinclair, Lanham and Golf Course Rd.

Concerned Homeowners

COME: Tuesday, March 12, 1:30 P.M., City Hall, 300 N. Loraine

Blake, Mr. and Mrs. Charles Hartwell, Dr. and Mrs. Herbert Cavenaugh, M.D., Mr. and Mrs. John Redfern, III, Mr. and Mrs. Dan Kallus, Mr. and Mrs. Bill Smith, Dr. and Mrs. Wm. P. Trotter, Mr. and Mrs. Sam White, Mr. and Mrs. Harry G. Bissonnet

"To save energy and money this summer... cool your home with Gas Central Air Conditioning.

You save with a gas system because it's a more efficient energy user than its electric counterpart. It's more efficient because gas, unlike electricity, is a direct source of energy. You don't have the energy loss that occurs in electrical generation and transmission.

We help you save in another way, too.

In addition to determining the exact cooling requirements of your home, our cooling specialists also check your attic insulation. If it's insufficient, insulation is added and included as part of the job. Proper insulation saves energy and money for both cooling and heating. So, beat the summer rush.

CALL US NOW FOR A FREE COOLING SURVEY AND ASK ABOUT SPECIAL WINTER TERMS.

PIONEER NATURAL GAS COMPANY

Also, if you're buying or building a home make sure it's a Natural Energy Home with Gas cooling and get more for your energy dollar year 'round."

Bulldogs, Rebels Suffer Losses

By BOB DILLON
 The Midland Bulldogs have lost the services of their only starter off last year's Class AAAA state championship team in outfielder Steve Widner who will undergo surgery on his left shoulder. Widner had already had surgery on the right arm, but the left shoulder kept popping out of place.

Coches Arlen Dickson said that it was hard for Widner to even swing a bat at all.

He played in one of the two games with Pecos in the doubleheader on the Memorial Stadium diamond Saturday where the Pack split the twin bill, losing 16-9 and winning 6-4 to even the season record to 4-4 on the season.

Coches Ernie Johnson's Midland Lee Rebels finally fell from the undefeated ranks Saturday, losing 2-1 to Andrews, but stormed back to bomb the Class AAA Mustangs 10-1 in the second game. The Rebels take a 7-1 season mark into Tuesday's game with Lubbock Coronado in Lubbock. Coronado then comes to Midland Saturday

5-4A Baseball Standings

Midland has its work cut out this week, meeting a strong Snyder nine which is 7-1 on the year and then plays a 3-game series with the powerful Carlsbad, N.M. Cavemen in the New Mexico City. Carlsbad racked up Pecos, 17-4, while Midland lost two-out-of-three to the Eagles, also losing 10-5 in Pecos Friday.

The Purple Pack meets the Cavemen in a single game Friday and then plays morning-afternoon doubleheader to wind up non-district play.

Midland meets Odessa Permian in its District 5-4A opener, March 19 at the Memorial Stadium diamond while Lee takes on Odessa High at Fly Field the same day.

Both Lee and MHS are pounding the baseball well with the Rebels owning a .349 average in eight games while Midland is hitting .306 as a team in eight outings.

Lee has rapped out 12 doubles, four triples and nine homers in chalking up its 7-1 mark while MHS has seven doubles and two homers.

Leading the Lee attack are Larry Tidwell, Brett Blackwell, Blain Murray, Bobby Stevens, David Clingman and Craig McCulloch. Tidwell has a .463 average while Blackwell is hitting .458 and Murray even .400. Stevens and Clingman follow with .385 and .381 followed by McCulloch's .353 mean. Tidwell has knocked in 13 runs while collecting a double, two triples and three homers. Blackwell has a pair of doubles, a three-bagger and homer.

Alan Buonasera is hitting at a .450 clip for the Pack while Terrell Littlejohn owns a .429 average and Jeff Cole a .385 mean. Next comes Terry Copeland with a .370 average while Bruce Smith and Brandon Battles follow with .350 and .300 averages, respectively.

Lee has three pitchers who stand 2-0 in juniors Keith Bishop and Jay Frazier along with senior Phil Anderson.

Buonasera is 1-0 for MHS while Cole, Charles Northington and Littlejohn stand 1-1. Eddie McNeal owns a 1-1 mark for Lee.

Area Gridders Make Prep All-America

Stanton's Mark Eiland and Lattessa's Bob Kilgore have been named to the Prep All-America Football program for 1973-74 as announced by the editors of Coach & Athlete Magazine.

Their selection to the Prep Honor Roll makes them eligible for judging in the Prep All-America Football National Awards, Prep 100 Squad, Super Eleven Team and Cum Laude. The national finalists will be announced in the March issue of Coach & Athlete.

Kilgore, a guard for the regional champion Golden Tornadoes, was also all-state in AAA where he received more votes than any other player.

Eiland was a standout back for the Stanton Buffaloes and was named all-district in District 7-AA. Eiland is also a nominee for all-state as a basketball player. He helped lead the Buffs to a district championship in basketball.

Good News For Astros

By HERSCHEL NISSENSEN
 AP Sports Writer

In spring training, it's not whether you win or lose, it's how you play the game... and Larry Dierker and Steve Kline played it pretty well Sunday for a couple of sore-armed pitchers.

Dierker, the only 20-game winner in Houston's major league baseball history, allowed one hit in three strong innings as the Astros beat the Montreal Expos 5-1 in an exhibition game.

The 27-year-old hurler was limited to 14 appearances last season with a 1-1 record and 4.33 earned run average because of hand and shoulder problems.

Cesar Cedeño drove in two of the Houston runs with a triple and sacrifice fly.

Kline, meanwhile, was nicked for four hits in three innings, including Earl Williams' first-inning two-run homer, in the New York Yankees' 4-3 loss to the Baltimore Orioles. But he, too, was a most happy fellow afterwards.

The 26-year-old sinkerballer was expected to be the ace of the Yankee staff last year, but a tender elbow limited him, too, to 14 appearances, a 4-7 record and a 4.61 ERA.

"I couldn't be happier," he said Sunday after recording six outs on ground balls, his specialty. "Heck, it didn't hurt. That's all I care about."

Another pitcher with a lesser problem — Tom Seaver of the New York Mets — also recorded passing grades in his first spring outing. The National League's Cy Young Award winner, bothered by a tender shoulder late last season, allowed one run and two hits in three innings of the Mets' 6-5 loss to the St. Louis Cardinals.

The Cards, who fell behind 4-0 in the first inning, won it with two runs in the ninth on Ken Reitz' game-tying single and Keith Hernandez' tie-breaking double.

The Cincinnati Reds made it two in a row over the Pittsburgh Pirates, this one by a 2-0 score on Joel Youngblood's homer and Dave Concepcion's run-scoring single. It was Concepcion's first appearance since he broke his ankle last July.

The Minnesota Twins dropped their third in a row, losing to the Detroit Tigers 4-2 when John Knox collected three hits and Jim Northrup drove in two runs.

Pancake Jamboree Tickets Sell Quickly

Tickets to the 12th annual Pancake Jamboree are "selling like hot cakes," Jeff George of the ticket sales committee said today.

Steffes Of Houston Files For RR Commission Post

HOUSTON — A Houston businessman, Dale W. Steffes, has declared his candidacy for the four-year term on the Texas Railroad Commission in the May 4 Republican primary election.

Please make all checks payable to the Reporter-Telegram.

at the jamboree, which is scheduled from 7 a.m. to 8 p.m. Saturday in the Dellwood Plaza Mall.

Frank Marlow, the club president, said preparations are being made to serve between 8,000 and 9,000 men, women and children at this year's event.

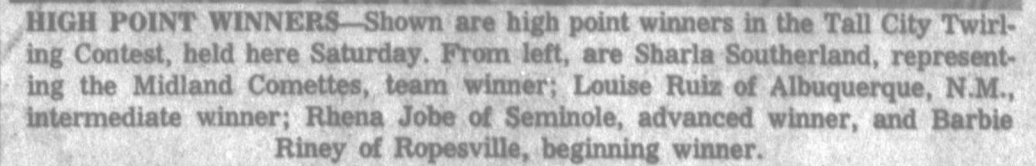

Through the years the jamboree has come to be known as one of the Tall City's most popular and most enjoyable events. A county fair atmosphere always prevails.

Special musical entertainment will be presented throughout the day, with Paul Dively in charge of arrangements.

John Berry, chairman of the equipment committee, said today that 16 electric griddles, four electric fryers and four food warmers will be used. Serving lines will be quick moving, and waiting for food will be held at a minimum.

The mixing, cooking and serving of the pancakes, sausage and drinks will be done by Lions Club members, assisted by members of the Lion Tamers Club. Club members also will be in charge of policing and clean-up details.

Proceeds will be used to finance the club's sight conservation, youth welfare, hearing aid program, civic projects and charitable work during the coming year.

HIGH POINT WINNERS—Shown are high point winners in the Tall City Twirling Contest, held here Saturday. From left, are Sharia Southerland, representing the Midland Comettes, team winner; Louise Ruiz of Albuquerque, N.M., intermediate winner; Rhena Jobe of Seminole, advanced winner, and Barbie Riney of Ropesville, beginning winner.

Stanton FFA Team Wins Judging

SAN ANGELO — Stanton FFA team members took top honors Saturday in the 4-H and FFA Range and Pasture Plant Judging Contest of the 41st annual San Angelo Stock Show and Rodeo.

For the second straight year, Stanton High School received top senior team honors. Team members Dennis Iretion, Gary Henson, James Franks and Kenneth Hull scored 1,400 points out of a possible 1,500 points.

James Franks was second high judge in the contest with a total of 480 points out of a possible 500 points. Other Stanton FFA point winners include Terry Kelly, 470 points; Lisa Byrd, 460 points; Gary Henson, 460 points; and Kenneth Hull, 459 points.

Ewing Wins Top Money At Rodeo

LUBBOCK — Jerry Ewing, son of Mr. and Mrs. Ken W. Ewing of 3805 W. Louisiana St., Midland, was the only person to remain on a bull the required eight seconds at Saturday's rodeo competition sponsored by Lubbock High School Rodeo Association.

Ewing, a senior at Midland High School, received first, second and third place money for the event.

He is a member of the West Texas Junior Rodeo Association and serves as bull riding director for the group. Last year, he was reserve champion bull rider in group competition.

Midland Comettes Win High Point Team Trophy

The Midland Comettes won the team high point trophy Saturday at the Tall City Twirling Festival sponsored by Midland Jayco-Ettes.

About 150 contestants from West Texas and from as far away as the Texas Panhandle, Dallas, Albuquerque, N.M., and Oklahoma City competed in the all-day festival held at Austin Freshman School.

Linda Wood of Midland was overall high point winner. Other high point winners were Barbie Riney of Ropesville, beginner division; Louise Ruiz of Albuquerque, intermediate division, and Rhena Jobe of Seminole, advanced division.

Midland Comettes, competing as a team, took first places in large juvenile twirl, large junior twirl, small juvenile twirl, small junior twirl, large juvenile dance twirl, large junior dance twirl and small juvenile dance twirl.

Tall City Sparkettes won first place in small junior dance twirl; Lamesa Twirlers won first in small senior dance twirl, and Donn's Twirlers of Odessa, took first in small senior twirl.

Goddard Majorettes won second in small junior twirl. Individual winners, listing all first places and Midland winners, were:

- BEST COSTUME — Age 6-8 — Barbie Riney, first; Age 9-10 — Kim Bromley of Andrews, first; Age 11-14 — Myrinda Kay Herriot of El Paso, first; Gail Griggs of Midland, third. Age 15 and older — Alice Freeman of Dallas, first. BEST MAJORETTES — Age 6-8 — Barbie Riney, first; Age 9-10 — Louise Ruiz of Midland, first; Age 11-14 — Dawn Dodson of Garland, first; Stacy Lewis of Midland, third; Age 15-18 — Sherry Simmons of Fort Worth, first; La Juan Reid of Midland, fourth. Age 17 and older — Rhena Jobe of Seminole, first; Susan Bechtel of Midland, third. ADVANCED FANCY STRUT — Age 6-8 — Barbie Riney, first; Age 9-10 — Tracy Ingalls, first; Age 11-14 — Melissa Billings of Lubbock, first; Carol Blanche of Midland, third; Teresa Brown of Midland, fourth. Age 15 and older — Rhonda Dennis of Midland, first. BEGINNER 5-BEATON — Age 7-10 — Melody Hobbs of Ropesville, first; Julie Gallagher, second; Age 11-14 — Linda Wood, first; Age 15 and older — Rhonda Dennis, first. SOOP — Age 7-10 — Kelli Lynn Yarbey of El Paso, first; Pam Branch, third; Age 11-14 — Louise Ruiz, first; Julie Gallagher, second. Age 15 and older — Sherry Simmons of Fort Worth, first; Loreta Daly, third. ADVANCED MILITARY — Age 6-8 — Wretha Roderick, first; Age 9-10 — Bobbi Cole, first; Age 11-14 — Dawn Dodson, first; Age 15 and older — Alice Freeman of Dallas, first. LA JUAN REID, fourth.

Daughter Born To Natalie Wood, Robert Wagner

LOS ANGELES (AP) — The first child of Natalie Wood and Robert Wagner is named after the character Miss Wood played in a motion picture the two starred in.

Miss Wood gave birth to the 7-pound, 5-ounce girl at Cedars of Lebanon Hospital Saturday night. The girl was named Courtney, Miss Wood's role in the television movie called "The Affair."

It was the couple's first child. Each has a daughter by previous marriages. Miss Wood and Wagner were married once before, in 1957, but were divorced in 1962. They both remarried, but those marriages ended in divorce. They remarried in 1972.

Truman Show On Tonight

By JERRY BUCK LOS ANGELES (AP) — Amid the revival of interest in former President Harry S. Truman, ABC tonight offers a "Portrait" special that deals with an incident when he was a judge in Missouri.

The show is concerned with his integrity and the Missouri-mule stubbornness that brought him to the presidency 16 years later.

Robert Vaughan stars in "Portrait: The Man From Independence." Arthur Kennedy is Tom Pendergast, and Martha Scott is Mama Truman. As Truman's mother, Miss Scott—herself a native of that area of Missouri—portrays a wise and witty woman who was a strong influence in his life.

"Because I was from that area, I read the script with a certain nostalgia. A pain in a way," said Miss Scott, a film and stage actress for 30 years. "I recognized my own grandmother in the role of Mrs. Truman and my own father sounded like Truman. He had that twang."

Wealthy Collector Says Six Paintings Stolen From Home

WASHINGTON (AP) — Six valuable paintings, including a self-portrait by American master Thomas Eakins, have been stolen from a collection destined for the new Joseph H. Hirshhorn Museum.

Abram Lerner, director of the museum scheduled to open here this fall as part of the Smithsonian Institution, said Sunday the works apparently were stolen over the weekend from Hirshhorn's estate in Greenwich, Conn.

Hirshhorn has donated his collection of more than 6,000 paintings and 3,000 pieces of sculpture to the United States. The Smithsonian estimates the total value of the gift at more than \$50 million.

Lerner said the oil paintings stolen include the Eakins self-portrait along with two paintings by Winslow Homer, companion pieces depicting a boy with a pail and a girl with a pail; an early Edward Hopper portrait of a woman, as well as two portraits of women by Adolphe Monticelli.

Eakins, Homer and Hopper are among the giants of American painting. Monticelli was a Frenchman who greatly influenced Vincent Van Gogh and has been described as a prophet of abstract impressionism.

British Miners Return To Pits

LONDON (AP) — Britain's 280,000 miners began fulltime work today after a four-week strike and a three-month slowdown that crippled the country's economy.

The National Coal Board said it would take another four weeks to return to full production. It predicted production would be 50 per cent of normal by the end of this week, 75 per cent by the end of next week and 90 per cent plus the week-end after that.

Normal weekly coal production is about 2.5 million tons.

night she's Earl Holliman's mother on NBC's "Police Story."

"I don't mind playing mothers," she said, "not if the parts are good. I've been playing character parts since I was 27. I love a good character part. It's fine with me because it's meant a longer acting career. I'd hate to still be doing ingenues."

On Broadway, beginning with "Our Town," Miss Scott always had starring roles. She made the film version of Thornton Wilder's "Our Town" and received an Academy Award nomination as best actress. Her plays included "Soldier's Wife," "The Voice of the Turtle," "The Male Animal" and "The Subject Was Roses."

Miss Scott helped fund the Plumstead Playhouse to bring more stage plays to Los Angeles.

The playhouse, of which she is president, was the first to revive "Front Page," which is now in vogue and is being made into a motion picture again.

Miss Scott does have some tips to the Trumans. In 1966 she appeared with Margaret Truman on an NBC talk show series.

STRIKE—About 20,000 coal miners voted Sunday to stay off their jobs in southern West Virginia to protest state restrictions on the sale of gasoline. Here approximately 1,000 shout their decision in a meeting near Drawdy Falls. (AP Wirephoto.)

Coal Miners To Continue Gas Protest

CHARLESTON, W.Va. (AP)—Miners in four southern West Virginia counties say they will remain off their jobs, virtually assuring continuation of a strike that has killed an estimated 20,000 men.

The miners agreed to continue the strike at a series of meetings Sunday after a few miners at scattered union locals decided to report to work today. The work stoppage, entering its third week, has crippled production of metallurgical coal for the nation's industry and steel mills.

Dissident miners are protesting a state ban on selling gasoline to motorists whose fuel gauges register more than a quarter of a tank.

Overwhelming Vote
A meeting Sunday afternoon at Drawdy Falls in Boone County drew more than 1,000 UMW District 17 miners, who voted overwhelmingly not to go back to work until Gov. Arch A. Moore rescinds the limitation.

The governor attempted last week to get the miners back to work by exempting from the quarter-tank rule miners and others who travel to work 250 miles or more a week.

Bill Sparks, a strike leader, said West Virginia officials have shown "the state can't deal with the oil companies, so we've got to go higher up. What we can do is this... close every mine in the country."

Late Winter Storm Dumps Heavy Snow On Several States

By THE ASSOCIATED PRESS
A late winter storm brought heavy snow to parts of Colorado, Kansas, Wyoming and Nebraska today.

Up to seven inches of snow covered parts of those states and it continued to fall.

Elsewhere in the nation, rain fell from South Dakota to Northeast Texas, extending eastward to the western Ohio Valley.

The rains caused streams to overflow in parts of southeastern Kansas and southern Missouri. More than 100 persons were evacuated from homes near Coffeyville, Kan.

Scattered light showers fell from North Carolina to Kentucky, and rain from western Washington to northwestern California.

Skies were clear over the Rockies and from the upper Mississippi Valley and Great Lakes region to the northern and middle Atlantic Coast and in the extreme southeastern states.

DESPITE MULTIPLE-FATALITY ACCIDENTS—

Texas Tabs Few Violent Deaths

By THE ASSOCIATED PRESS
Although one auto accident snuffed out four lives and another claimed three, the past weekend may have been one of the least deadly in recent Texas history.

There were reports of just 17 violent deaths from 6 p.m. Friday to midnight Sunday. Except for two shootings and two stabbings, all were killed by motor vehicles.

A South Texas collision four miles south of Riviera on Texas 385 killed Steven Davis, 40, and his wife Mary, 53, of Falfurrias; her mother, Mrs. Lee Reader of Corpus Christi, and Martha Martinez, 26, of San Antonio. Officers said vehicles driven by Mrs. Davis and Alice

Belle Williams, 27, of Victoria, who was injured seriously, crashed on a curve about dusk Sunday.

Police said a car struck and killed three pedestrians as they tried to cross a street Saturday night on San Antonio's south side—Wayne Haglund, 20; his wife Rose Marie, 18, and his mother, Edith Haglund, 42, all of Cottonwood, Minn.

These were among other victims: Charles Gamboa, 36, was shot and killed Sunday night at an East Austin residence, police reported. They said there was no suspect in custody.

A Missouri Pacific freight train struck and killed David K. Olm, 23, of Austin just south

of town late Saturday night. Authorities said his small foreign-built van apparently stalled on the tracks.

Ramon Quintanilla, 54, a Falfurrias construction worker, was shot and killed in a bar there and Lupe Lopez suffered a minor wound, officers said. They charged Jose Mario Guerra of Falfurrias with murder.

Rudolfo Lopez, 39, of Houston was shot to death early Sunday in the backyard at his home. Officers said the case would be referred directly to the grand jury.

Regina Ann Wells, 13, of Buna, Tex., was killed Saturday while riding a bicycle on U.S. 94 about two miles north

of that city. No charges were filed.

Police said Albert Rasberry, about 40, of Montgomery, Tex., was killed Friday night as he stood in front of his stalled car about six miles north of Houston and another vehicle struck the Rasberry auto.

The brother of Rep. George Mahon, D-Tex., died in a one-car accident on FM 2128 near Lubbock Saturday. Durwood Dale Mahon, 65, of Lubbock was pronounced dead at the scene after his car crashed through several fences and hit a tree.

Joseph W. Sears, 21, of Llan, Tex., died early Saturday when his car was struck from behind about 14 miles south of Mineral Wells on U.S. 281, investigators said.

Officers said Pedro Renovato Pina, a laborer from Teague, died early Saturday after he was struck by a car a mile west of Teague on FM 1365.

Passing motorists found the body of Tommy Auburn Smith, 23, a Texas A&M student from Jerrell, Tex., Saturday morning between an access road and Interstate 35 near Salado. Investigators said the body bore about 19 stab wounds.

Police said Greta Gomillion Richards, 37, was found slain beside a county road near Wichita Falls early Sunday. A motorist found the woman with hands tied behind her back, throat cut and stabbed four times.

FCC Starts Ordering Refunds For Deceptive Sales Schemes

WASHINGTON (AP)—The Federal Trade Commission's time-honored method for dealing with deceptive practices has been to let the violators off with a promise to go and sin no more.

But a promise isn't enough any more. Now the commission is ordering violators to return tainted gains on purchases as varied as motorcycle helmets and homesties.

As Mayo J. Thompson, the commissioner from Texas, puts it: "I don't see how you can stop rustling if you let the rustler keep the cows."

An example of the change,

now in full bloom despite a pending court challenge, is the commission's dealings with pyramid marketing schemes.

The pyramid is usually set up to distribute an everyday consumer product. Participants pay a few thousand dollars to enter the distribution chain. The person who signs up a new recruit gets part of the entry fee, and the organizer gets the rest.

The commission has found that the organizer and anyone lucky enough to sign up a stable of recruits are rewarded handsomely, very few products are sold and the folks at the

bottom of the pyramid wind up wiser but poorer.

In 1970, the commission complained that Bestline Products Corp. of San Jose, Calif., had set up a pyramid to sell cleaning products, charging \$3,700 for the second level of distributors.

Bestline signed a promise not to use deceptive techniques in recruiting distributors, and the FTC let it go at that.

But last year the commission complained in court that Bestline hadn't kept its promise. The court is considering the FTC's request for almost \$500,000 in fines.

In 1971, the commission filed similar pyramid complaints against Holiday Magic and Kosco Interplanetary, two cosmetic distribution plans. Now, the commission staff is asking that the companies be required to refund participants' money.

"In each case the staff is taking a look at the facts to see if restitution is justified," said J. Thomas Rosch, head of the commission's consumer protection bureau.

"There's a great deal of staff effort now being placed in the area of restitution," said Commission Chairman Lewis A. Engman.

Senate Plans Final Vote On Massive Housing Bill

WASHINGTON (AP)—The Senate plans a final vote today on a massive \$10.4-billion housing bill going far beyond President Nixon's recommendations.

Senate passage is certain. The administration has decided to fight the bill when it is considered later by the House.

The House will begin debate Wednesday on another major measure—an \$18.4-billion education bill revising and extending the aid programs for grade and high schools.

This promises to be the best

Young Kennedy Spends Weekend In Medical Center

BOSTON (AP)—Edward M. Kennedy Jr. spent the weekend in Children's Hospital Medical Center here undergoing more tests and anticancer treatments.

The 15-year-old son of Sen. Edward M. Kennedy, D-Mass., entered the hospital Friday and was released Sunday morning. The treatments are aimed at preventing recurrence of a cancer that forced amputation of his right leg above the knee late last year.

A spokesman declined to comment Sunday on whether the tests have shown any recurrence of the cancer.

Cardinal Dies

WARSAW (AP)—Boleslaw Cardinal Kominek, 70, the Roman Catholic archbishop of Wroclaw, died Sunday of a heart attack. Kominek was named cardinal in 1973. He had been ill since November.

tieground for another in the long series of fights over school busing. But floor votes on this legislation will not take place until the following week.

The Senate may take up later in the week a bill to restore the death penalty in certain cases.

The housing bill contains a Democratic substitute for Nixon's special revenue-sharing plan on funds for the cities.

It lumps together money for all the present community development programs such as Urban Renewal and Model Cities. However, it retains federal strings on the funds which the President wanted to drop.

The measure also meets in part another administration recommendation by consolidating a multitude of housing assistance programs into a number deemed more manageable. But in doing so, the bill also continues major housing subsidy programs which Nixon wants to end. These cover both home ownership and rental apartments for the poor.

Other provisions would lower down payments on FHA-insured mortgages and raise substantially the ceilings on the amount of a mortgage that can be insured.

a very posh pajama from...

...vanity fair

Perfect companion for candlelight nights with a glass of wine. Vanity Fair knows how to make you beautiful. In their Posh Pajama with its slim Antron® III overshirt fronted in lace with graceful lace sleeves. And trim trousers well-suited to curling up on a chaise. Or lounging by fire-side. Pink, Beige, White, \$20. Lingerie.

Monday thru Saturday

Tormenting Rectal Itch Of Hemorrhoidal Tissues Promptly Relieved.

In many cases Preparation H gives prompt, temporary relief from such pain and itching and actually helps shrink swelling of hemorrhoidal tissues caused by inflammation. Tests by doctors on hundreds of patients showed this to be true in many cases. In fact, many doctors, themselves, use Preparation H or recommend it for their families. Preparation H ointment or suppositories.

Stock Prices Break Lower, Then Stage Sharp Comeback

NEW YORK (AP) — The stock market was close to even today, recovering from some early losses.

The noon Dow Jones average of 30 industrials was down 1.17 at 278.88, after a drop of better than 8 points in the first half-hour of trading. Gainers trailed losers by about 7 to 5 on the New York Stock Exchange.

Analysts said the initial declines had reflected disappointment among investors that a meeting of Arab oil ministers slated for Sunday in Cairo had fallen through, producing no evident progress toward an end to the Arab oil embargo. As practices turned upward, Jack Trachtman at Steiner, Rouse & Co. noted, "I think the market is recognizing that the embargo is going to come off — it's just a question of when."

Walt Disney Productions, the Big Board volume leader, was down 1/4 at \$1. Among other stocks with a direct stake in oil supplies, Howard Johnson was

Tipperary Acquires Bowie Gas Plant From Union Texas

Tipperary Corp. announced the acquisition of the Bowie Gasoline Plant located two miles northeast of Bowie, Tex., from Union Texas Petroleum, a division of Allied Chemical Corp. The plant was purchased for \$850,000 cash with Feb. 1, being the effective date of the acquisition by Tipperary.

The plant has a rated capacity of 15 million cubic feet of gas per day and is currently producing 13,500 gallons of propane and a butane-gasoline mix from an inlet gas stream of 4 million cubic feet of gas per day. The plant's gathering system has 127 miles of pipeline all of which is located in Montague County, Texas.

Tipperary's objective will be to develop additional gas supply for the Bowie plant in an area which presently has accelerated drilling activity. Tipperary's other gas processing plants are located at Claytonville in Fisher County, Tex., and Denton in Lea County, N.M.

(Continued From Page 1A) sample chamber recovery was 6.3 cubic feet of gas, 1,850 cubic centimeters of oil and 850 cubic centimeters of water.

Location is 600 feet from south and 2,310 feet from east lines of section 228, block 2, H&TC survey, four miles southeast of the Tonto, Northeast field, but separated by a 7,135-foot failure.

Fasken Completes Discovery in Eddy

David Fasken, Midland, has completed a Morrow discovery in Eddy County, N.M., its No. 2-2 El Paso-Federal, 1/4 mile southeast of the firm's No. 1-3 El Paso, recent Strawn gas strike.

Calculated, absolute open flow was for 3.9 million cubic feet of gas per day, producing through perforations at 10,740-10,750 feet. The section had been acidized with 10,000 gallons, fractured with 28,000 gallons and 28,000 pounds of overflush and 15,000 cubic feet of nitrogen.

Drilled to 11,165 feet, it has 5 1/2-inch casing set at 10,993 feet. Wellbore is 4,196 feet from north and 660 feet from west lines of section 2-215-266, four miles northwest of Carlsbad.

Stepout Planned In Crane Region

Gulf Oil Corp. will drill No. 1-NZ State as a location south and northwest offset to dual Silurian and Ellenburger production in the McElroy, North multiphase oil field of Crane County.

It has a scheduled depth of 12,000 feet, and spots 660 feet from north and 467 feet from east lines of section 24, block 30, U.L.S., eight miles north of Crane.

The field has two Silurian and five Ellenburger wells.

Gambling Case's Motions Hearing Continues Tuesday

The motions hearing in the gambling case pending here will resume in federal court here at 2 p.m. Tuesday.

The hearing has been going on about two weeks while attorneys explain their motions, which are expected to be ruled on before the trial begins.

No date has been set for the trial but it is expected to be held while court is in session this month and part of April.

The matter which has taken up most of the time is the defense request that telephone wiretaps made before the indictments were returned last year be declared inadmissible in the trial and that evidence confiscated as a result of information from those taped conversations also be quashed.

Seven men from Midland, Odessa and Monahans are defendants in the case.

Pampa Rider Top Cowboy At Angelo

SAN ANGELO — Lee Cockrell of Pampa was named All-Around Cowboy at the four-day San Angelo Fat Stock Show and Rodeo which concluded Sunday.

Cockrell won more than \$1,700 during the competition.

Richard Stowers of Madill, Okla., and Roy Cooper of Cisco tied with 9.2 seconds each in calf roping. George Anderson of Midland scored a 70 to win the saddle bronc competition.

Winner of the girl's barrel race was Karen Abercrombie of Richmond, who raced around the course Saturday night in 14.7 seconds.

San Angelo Saddle Club outraced Concho Riding Club in Pony Express competition Sunday. Both Kirby of Greenville won bull riding with 76 points.

Ace Berry of Modesto, Calif., won bareback riding with 74 points.

Winner of steer wrestling competition with 3 seconds was Dwayne Newton of Grapevine.

Calif scramble winners included Paul Roseman, Olin Smith and Rusty Smith, all of Del Rio, Marty H. Graham of Rocksprings, and Dub Latham, Roy Dan Alderman and Gary Strum, all of San Angelo.

Identiseal Changes To National Scope

Identiseal, a company with several Midland investors which provides a method of identification for check cashing purposes, has changed its name.

The firm is now known as National Identification Bureau Inc., with headquarters in Philadelphia, Pa., and offices throughout the United States. The Midland office is located in the Britton Oil Building, 312 N. Big Spring St.

The firm offers a fast, positive system of identification to make check cashing safe for the merchant and easy for the customer, according to Frank Swinehart, president and general manager.

Discovery Seen In East Scurry

Hilliard Oil & Gas Corp. of Midland was drilling below 7,424 feet in shale and chert on a 7,500-foot wildcat contract, at No. 1 Western Reserve.

Rhoades, Scurry County test, 12 miles northeast of Snyder, after taking a drillstem test in an unidentified formation.

Tool was open an unreported time on the test taken from 6,994-7,014 feet. Gas surfaced in seven minutes, gauge not reported. Recovery was 2,976 feet of free 40-gravity oil, 186 feet of oil and gas-cut mud and 186 feet of salt water. The

Predator Control Program Canceled

A meeting sponsored by the Midland County Extension office slated for 10 a.m. Tuesday has been canceled, according to Charles Green, Midland County agent.

The meeting was set up to discuss a predator control program as part of a 44-county program authorized several weeks ago.

Green said a federal judge in Washington had issued an injunction, at the request of the Society for the Prevention of Cruelty to Animals, which had cut short the beginning of the program.

A similar meeting scheduled Tuesday at Rankin also has been canceled.

Employe Layoff Notification Urged By WT Chamber

ABILENE — The West Texas Chamber of Commerce is urging all employers to cooperate with Secretary of Labor Peter Brennan in his announced proposal of voluntarily notifying State Employment Service offices of prospective or planned employment layoffs involving 50 or more employees caused by the energy crisis.

Brennan has asked the chamber to disseminate information on this program through its membership.

"Each chamber of commerce can be a great help in assuring the effectiveness of the effort to gather and report the required data to the proper office on a continuing basis," WTCC President Emil Rasmussen said.

This is the only capital murder case filed in this county since the state's new death penalty law went into effect last summer.

A special venire of 250 persons was called for the case but only 104 were qualified by the

Manus Jury Selection Begins This Afternoon

Jury selection was to begin at 2 p.m. today in the Tommy Manus capital murder case in 142nd District Court.

Manus is one of three men charged with murder in the Sept. 20 robbery and murder of Henry "Pancho" Moyah, a Canadian carnival worker.

His co-defendants, James Allen Eired Jr. and Danny Johnson, will be tried later.

This is the only capital murder case filed in this county since the state's new death penalty law went into effect last summer.

Death Ruled Self-Inflicted

The death last week of Mrs. Joyce Bludworth Turner, 46, has been ruled due to a self-inflicted gunshot wound, Justice of the Peace John Biggs said this morning.

Mrs. Turner's body was found in her car parked on Old Crane Highway just off Rankin Highway about 18 miles south of Midland.

Authorities said Mrs. Turner, who lived at 707 Austin St., had been ill for several months.

Dowell's New Fracturing Fluid Proven Effective In Canyon And Morrow Sand Completions

Dowell's new Fracturing fluid for Ezeffo Service is a water base fluid containing a newly developed surface tension reducing agent which lowers the surface tension of the aqueous system below that of pure isopropyl alcohol. The agent performs effectively in fresh water, calcium or potassium chloride water, brine, acid or spent acid.

One of the major problems related to using water base fluids as a fracturing fluid is the slow clean-up after the treatment. Because of imbibition and related capillary effects, low permeability formations tend to absorb and hold the water. The pressure differential required to remove the water from the matrix pores is proportional to the surface tension of the liquid. By using a low surface tension fluid, a lower pressure differential is required to push the water or spent acid from the pore channels into the fracture where it can flow to the well bore. The surfactants normally used to reduce the surface tension of fracturing fluids tend to absorb to the formation rock surface, thereby diluting their effectiveness in the returning fracturing fluid. The additives used in Dowell's new fracturing fluid are specially formulated such

Dublin Fire Kills 12 In One Family

DUBLIN, Ireland (AP) — A newsstand operator, his pregnant wife and 10 of their 13 children were burned to death in a fire that gutted their Dublin home early today.

The three surviving children, a 19-year-old girl and two younger brothers, were hospitalized with burns.

Firemen said it was the heaviest fire toll in Dublin that they could remember.

The dead couple were Mr. and Mrs. Derek Howard, in their late 30s. Howard ran a newsstand at the Dalkey railroad station. The children who died ranged in age from one year to 19.

Constitutional Meet Enters Tenth Week

AUSTIN, Tex. (AP) — More challenges to the power of Texas governors in the new state constitution were expected today as the constitutional convention began its 10th week.

General debate on the executive branch article was set to continue at 2 p.m.

The 181 legislator-delegates took up the executive article Friday, making two important changes before quitting at noon for a long weekend.

In the Friday action the convention voted 102-39 to limit Texas governors to two consecutive four-year terms, effective in 1978. The convention's Executive Committee had recommended that no limitations be placed on a governor's tenure, saying voters should decide when he should leave office.

Another Friday action put the treasurer back in the new constitution, despite the Executive Committee's recommendation

that his fate be left to the legislature, which prescribes his duties.

The convention made no protest of Executive Committee action in adding the state land commissioner to the constitution.

Other executive branch recommendations, many of them controversial ahead of the convention included:

—Proposed new power for the governor to name a third of the members and the chairmen of state agencies within three months after taking office.

—Proposed new power for the governor to remove anyone he appoints, unless the Senate vetoes the action by a two-thirds vote within 30 days.

—Plans to allow the governor to reorganize or consolidate state agencies and boards, with approval of both houses of the legislature.

—Provide that state agencies shall have a life of only 10 years, unless renewed by the legislature.

Magazine Says IRS Eyes Criminal Fraud By Nixon

NEW YORK (AP) — Newsweek magazine says President Nixon's 1969 income tax return is the subject of a criminal fraud investigation by the Internal Revenue Service.

Quoting unnamed sources, the magazine said that "in recent weeks, the IRS special intelligence agents, who only do criminal investigations, have interviewed Edward L. Morgan, a one-time White House aide; Arthur Blech, Mr. Nixon's personal accountant, and Frank DeMarco, the President's former tax lawyer."

"The key question is whether a fraudulent deed to Mr. Nixon's vice presidential papers was drawn up in the spring of 1970 to make it appear he had actually given the papers to the archives one year earlier — before congressional legislation outlawed deductions for such gifts," Newsweek said.

The President claimed a \$576,000 deduction for donating the papers to the national archives.

The magazine said DeMarco has testified "he had a new deed typed up and had Morgan sign it on the President's behalf in April 1970, but he insists that the new version was only a copy of an original he drew up the year before."

The 1969 document has not been produced, however, Newsweek said.

IRS spokesmen have refused to comment on the inquiry and the White House says it has not been notified of a criminal investigation of the President, the magazine said. Presidential Press Secretary Ronald L. Ziegler is quoted saying the problem "goes to the preparation of the documents, not to any action of the President."

FOR INJURED SON—

Dallas Dad Keeps Yule Tree Glowing

DALLAS (AP) — Fred Foster is hoping his son Bobby, 17, will finally be able to celebrate Christmas by, say, midsummer.

The youth, a junior high school pupil, was found beaten almost to death last September in a Dallas alley. Police caught a man who beat him with a board and he paid a \$52.50 fine. Officers say the man since has disappeared.

Fred Foster vowed to keep their Christmas tree, complete with gifts, waiting until his son comes home. It's still there in

the living room of their small dwelling.

"I never did give up on him," the father said Sunday. "It was just constant prayer and constant belief in God that he would recover. Dozens of churches prayed for him. I just knew he would recover."

After being taken to a hospital and undergoing surgery, Bobby slipped into a coma. Later he was moved to a convalescent home. Attendants said he wasn't expected to live.

He fooled everybody, however, except his father, who provided constant care.

The youth started talking and recognizing his father in mid-January. Now he is back at a hospital for daily therapy.

At one point Bobby dropped from his normal weight of 138 to a mere 84 pounds. He's back up to 100 pounds and gaining, the elder Foster said.

"He has really made a big turnaround—he is alert and oriented and much, much better than I ever thought he would be," said the youth's doctor, who asked not to be identified.

Medical care for Bobby has cost more than \$15,000 and there will be further expenses. Friends have set up a special fund for this purpose at a Dallas bank.

More surgery will be necessary to insert a metal plate in his head.

"But he is not going to die," said the father. "I'm keeping that Christmas tree up until he comes home."

Bishop's Attackers Remain At Large

HOUSTON (AP) — Police said today no arrests have been made in the beating that blinded one eye of Bishop John L. Morkovsky of the Galveston-Houston Roman Catholic diocese.

A physician said Morkovsky, 64, permanently lost the sight of his left eye as a result of the beating by two gunmen Friday night in the bishop's home in southwest Houston.

Man's Walking Speed
It has been estimated that a man walks 3 miles per hour or 4 feet per second.

"You have questions about the 10¢ stamp. You deserve the answer."

Postmaster David E. Holster, Midland, Texas

All of us at your Post Office hear the questions about the 10¢ stamp. Nobody likes to see prices go up. Me, included. Still, I've found that when I tell people the whole story, most admit they feel a little better about the new stamp.

Sure our costs are going up. Probably just like at your house: heat, light bills, cars and even wages have gone up quite a bit. You know as much about inflation as I do. But there's a lot more to the new stamp than that.

Your tax money shouldn't pay for other people's mail.

The Postal Reorganization Act was signed into law to straighten the Post Office out.

This won't happen overnight. But brakes were put on the use of your tax money to subsidize postage. That means the price of postage goes up to pay the real costs of the mail. And this is being done fairly. So all kinds of mail, whether it's letters, packages, business mail or magazines, will be paying their own way—without your tax money.

There's no profit on your mail.

Our job at the Post Office is only to give you good service—at cost. Most of us who work here are trying hard as we can to do just that.

We know we won't please everybody, every time. What we're trying to do is strike a balance—to give the service that you want, and get a hold on the rising costs that all of us face today. I think most people are fair-minded enough to understand that, and want to pay their own way. If you stop to think about it, you really get quite a lot for what you pay. If you're like most people, you take it for granted that your letter will go to anyone you want, anywhere in the country. We're proud you can. But it's still a whale of a bargain!

The idea is that the price of a stamp should pay the cost of delivering a letter.

Maybe not an earthshaking idea. But the plain fact is that postage hasn't paid the cost of delivering the mail for a long time.

Fact is, your tax dollars make up the difference. That isn't fair at all, if you think what it means. It can help keep stamp prices down. But a lot of people's taxes end up paying for somebody else's mail.

It's not too smart either. When the Post Office can regularly count on your tax money to bail it out of the hole, there's not as much reason to watch what things cost. Or worry about budgets.

You have questions. We want you to have the answers.
