Dear Voters:

Tomorrow is primary election day, and I am asking you for a promotion. For almost five years, I have been deputy District Clerk, and I believe that experience qualifies me to work for you in this important office. It will not be an easy task to take the place of Mrs. Ruby Murray, my present boss-who is one of the State's finest public officials and a wonderful person-but I have learned from her the duties of this office, and believe I can do a good job for you. You can be sure that I'll work hard and do my very best.

You have been so very warm and kind to me during this campaign as I visited with you in your homes, on the streets and in your places of business, and I deeply appreciate your many courtesies. I have said many times that we in Midland live in the finest county, among the best people, in all the world. Working for you in our Courthouse is a great honor for me, and I shall try to serve you with courtesy, gratitude and efficiency at all times.

If I have not had the pleasure of meeting you and soliciting your support, please permit me by this letter to sincerely ask for your vote tomorrow. I shall always be grateful, and will do everything possible to deserve your confidence.

Yours very sincerely,

Madge Wallis

Helen is well known and respected throughout Texas as a party worker and organizer. She is recognized as the one who gets the job done in Midland County. As Vice Chairman for the past four years, she assisted in electing a new County Commissioner, obtaining the largest vote ever for the major candidates, establishing a solid financial base and keeping headquarters open throughout the year. Cooperation Is The Key!

Charlie Welch has learned, through 5 years as County Commissioner, that all taxing agencies - city, county, college and school - can best serve the taxpayers by working together to save money. That's why he has supported joint use of equipment and other resources in paving city streets . . . in laying the base for roads and parking areas on the new Midland College campus . . . in improving drainage facilities, and in joint longrange planning for roads and highways both in and out of the city. This kind of cooperative effort saves you money and that is what Charlie Welch believes he was elected to do. He serves ALL the people, and is candidate of no special interest, faction, group or section.

An Open Letter from Ciro Sanchez:

In campaigning for your support, I have sought only to set forth my qualifications for office without indulging in personal references to my opponent. He, however, by innuendo and otherwise, has chosen to call into question my ability to serve you. A response is in order.

My opponent emphasizes his qualifications in respect to Economy and Experience. During his terms in office my county taxes have increased in excess of 60%. This money together with Federal Revenue Sharing money represents a substantial increase in county spending. I submit that we cannot afford the Economy we are experiencing.

He further asks you to compare the candidates, which I also urge you to do. If it makes a difference whether a person is Irish-AMERICAN, Mexican-AMERICAN, German-AMERICAN or whatever, then you should resolve this in favor of your preference. If you are interested in a citizen of this community who has not only conducted his own business the past several years, as we both have, but has taken the time and effort to give of himself toward the civic and economic growth of our community, then I ask that you investigate our records.

I sincerely solicit your vote for County Commissioner Precinct 2, repeating my pledge to serve you with fairness and equality, being open-minded to your suggestions and needs and, above all, honest in my dealings.

Sincerely,

Cris Andy

IT TAKES A TO SEE HOW THEY RUN

Ask yourself one question.

Who really makes money from legalized racetrack gambling? Not the state. The truth is that mobsters follow the horses and the cost of police protection against organized crime is always more than the insignificant increase in tax revenue.

Not the good people of Texas who may face new taxes to pay for a brand new bureaucracy to try to control gambling and fight the underworld.

Not you and me. That's for sure.

The truth is that only a few fat cats . . . and organized crime can make a dime from legalized racetrack gambling.

An Able Judge, A Man Of Honor...

The surest way to determine what kind of job any judge is doing is to look closely at his record. Judge Max Osborn has made an exceptionally fine record on the Court of Civil Appeals for this district, and he has earned a first elective term on that basis alone. Equally important, he is a man of the highest professional and personal integrity, and a man of unquestionable fairness with a great store of legal knowledge and judicial experience... a judge wholly dedicated to the achievement of true justice under the law for every citizen. Max Osborn won the respect and admiration of his fellow West Texas attorneys during the 18 years he practiced law in Midland, and his already considerable stature has been increased even more by his outstanding performance as Judge. As Midland attorneys who are proud to know Max Osborn and claim him as one of our own, we commend him to you enthusiastically and without reservation as the proven, best-qualified candidate for this judicial office.

Big Problem By ED BLANCHE LONDON (AP) - What do you do with 19 masterpieces worth about \$20.4 million, that your stole in the world's greatest art robbery?

Art Thieves

Now Have

One thing's for sure - you can't sell them for anything like their market value. At least not openly.

Right now, those 19 paintings are possibly the hottest chunk of stolen property in the world. Art dealers and police around the globe have been alerted to watch out for them.

It poses a problem for police in Ireland investigating the raid last weekend by an armed gang on the collection of gold and diamond millionaire Sir Alfred

No Ransom Demanded So far, the gang that pillaged Beit's mansion near Dublin April 26 has made no ransom demands of any kind.

But some art experts and some police officers believe the robbery was politically motivated. Beit himself thinks the gang was out to make a killing by ransoming off the paintings for hard cash. And he's also said firmly he won't pay a cent if that is correct.

Stealing art -- treasures has been a lucrative business for centuries. But in these days of terrorism and revolutionary politics it has assumed a more sinister aspect.

New Motives Hugh Leggatt, a respected London art dealer and international art historian, said: "There are new motives behind these art thefts. In the old days, thefts were often insurance frauds. Now there are sociopolitical reasons and some form of blackmail is likely."

There has been speculation the gang that raided Beit's County Wicklow mansion at Blessington, near Dublin, may be linked with the Irish Republican Army, an underground guerrilla movement fighting to unite the British-ruled province of Northern Ireland with the Irish republic to the south.

The gang of five, led by a French-speaking brunette, screamed revolutionary slogans, such as "capitalist pigs" at Beit, and accused him of exploiting the working class.

This, the experts believe, indicated the raiders were probably motivated by something more than just personal gain.

In the last three or four years, according to police mates, art treasures worth \$3 billion have been stolen.

Thieves Organized Most law enforcement agencies agree the thieves these days are far more organized internationally and more knowledgeable about art than ever before.

And they are convinced that a lot of major works that vanish after they are stolen are sold to wealthy collectors who in the words of one dealer "lust" after paintings their riches can never buy legitimately.

However, some detectives suspect, no thief would be able to dispose of 19 famous masterpieces, even to shady collectors. This reasoning tends to back up the theory the Irish robbery was politically moti-

Interest seems to be lagging in the primary elections scheduled Saturday in Midland County and across the state.

And this is frightening! The wrong person easily could slip into an office due to apathy on the part of the electorate.

'I have never seen such a lack of interest in a gover ernor's race in my lifetime," a Midland poitical observer told the editor while discussing election possibilities. Come to think of it, there simply isn't a great deal of interest in any of the races.

The poor performer, however, doesn't pocket his entire share. His agent takes 10 per cent. His manager gets another 15 per cent. The recording studio gets \$110 an hour. Since cutting a record may require eight hours per song, or more, with special effects using up extra hours, the artist can be in hock for \$50,000 before his song even gets into production.
