NO. 15

RANGER EDITOR SEES PROGRESS IN METROPOLIS

Times Man Comes to Cisco and Writes of Material Development; Oil Companies and Subsidiaries Located in Cisco.

Mr. W. H. Wright, managing editor of the Ranger Daily Times the live afternoon daily of the oil district, was a visitor to Cisco last Monday, and while here was a pleasant caller at the Round-Up office. Mr. Wright gathered sufficient information about the metropolis to write an interesting story of Cisco, and her material development.

The following is the way Mr. Wright saw things, during his visit here.

BY W. H. WRIGHT

CISCO, Aug. 11.—Like other towns in West Texas, Cisco is squarely up against the proposition of providing homes for the hundreds of persons seeking residence. A business man cognizant of reality conditions on being asked if it was possible to secure any considerable number of houses for new arrivals declared that there was not a vacant house in the city. Numerous persons were coming in to establish their residence and where they were able to purchase they were accommodated, but as for the renting of houses they found it impossible. Ordinary residences, he said, where procurable, were bringing from \$40 to \$90 per month, with the emphasis on the ninety.

Will Aid People

And despite the demand for residences there is no great number being built. This is accounted for by the statement that the embargo against bringing in material is somewhat less stringent than that which obtains in Ranger. The Chamber of Commerce has given consideration to this housing situation and measures will be taken possibly to remedy same.

Live Secretary

Walter A. Downing is Secretary of the Cisco Chamber of Commerce. He has been in Cisco only a short time, but has an intimate working knowledge of conditions there. He has studied the many intricacies of city building and with the cooperation of the business men and citizens he is working some civic miracles there.

The Chamber of Commerce has its headquarters in the new city hall, just off the main street. This is one of the most attractive city halls in West Texas. The rooms are all tidy and equipped with the very best furniture.

Just across the street Rev. Frank J. Norris tabernacle has been erected. Services begin there the night of August 18th. A large choir has been organized and fine music will be dispensed. Large numbers of visitors to Cisco are to hear the noted Ft. Worth divine.

Paving Streets

Three or four blocks on the main business street have been paved. The remainder of the stretch of this street in the main business section will be paved. And a contract will be let within the next few days for an additional 40,000 yards of brick paving. Considerable material has already been assembled for the paving of the main street. The first block was paved with wooden crossties.

Morning Newspaper Next

Cisco business men have subscribed \$20,000 of the \$40,000 worth of stock of the Cisco Morning News, the new daily which expects to get out its first issue about the middle of October. Two linotype machines have been ordered and a brand new press. The paper will receive the night Associated Press service. A new building 50x110 feet is being constructed for this new journalistic venture, it was stated by one of the managers. Clifton, Arizona, capital is interested in the venture. W. B. Kelly and J. C. Gaines, owners of the Clifton, Ariz., Copper Era, with R. H. Kennon are among the

(Continued on Page 8.)

BIG MEETING AGAIN RESET FOR AUGUST 18

Dr. Norris Was Unable to Fill Second Appointment; Dr. Batten's Letter to the Evangelist Explaining the Situation.

The Norris tabernacle meeting has been postponed. Dr. Batten, pastor of the First Baptist Church, received a telegram from Dr. Norris, last Sunday, stating that it was impossible for him to reach this place for his appointment last Sunday. However, the telegram from Dr. Norris stated that he was on his way to Texas, and would surely be here and commence his meeting next Monday, August 18.

Following is the letter of Dr. Batten to Dr. Norris, which covers the situation.

"Dr. Frank J. Norris,
"Ft. Worth, Texas.

"Beloved Brother:

"Your wire announcing that you could not reach us before the 18th arrived yesterday morning.

"Be assured I greatly sympathize with and appreciate your position. I know it is painful to you to be forced by circumstances to delay your coming to Cisco. The illness from which you have been suffering is deeply regretted—very much more than we regret our disappointment. I am glad, however, that you state definitely that you will be with us on the 18th, and that you will be "in fine shape" at that time.

"I am sure you will be interested in the following statement of facts:

"1. The hearts of our people are definitely fixed upon you as the man to conduct this meeting. Many other inquiries have been made as to whether some other preacher would meet the situation. All such questions are settled by plain and direct statements, somewhat thus: "We believe that Norris is the man and our hearts are set upon getting him."

"We have built a tabernacle at a very heavy expense. While it is a very plain affair, yet we have already put \$1,000.00 into the building. Of course, we can get something for any lumber we have left, if not too badly damaged. Also, the bagging used for cover will no the wholly lost. But, from any point of view our church is already "into it" for several hundred dollars of expense, before we even start. We are not distressed, however, in the least over this situation. We confidently believe that you will stand by us, that you will not disappoint us; that you will actually be here next Monday morning with the spirit of God upon you to lead us in the greatest revival that was ever held in middle west Texas.

"3. The other denominations called off their Sunday night services for the whole month of August in order to cooperate in this meeting. They have already given us two Sunday night audiences. You see we expected you to begin on the 4th of August, and all announcements to that effect were made, and the pastors arranged accordingly before we got your first wire announcing your illness and the resultant delay. So we had a big union service anyhow. I made due announcements and explanations to a disappointed but sympathetic audience. Then I went into the paper and wrote the matter up, announcing that you would surely be here the 11th of August, also that union services would be held at the tabernacle on the night of the 10th. Your wire came too late to make any adjustments. So we took our plans to the tabernacle gathered a great choir and met to the number of over one thousand, at the tabernacle last night. None except my morning congregation knew that another disappointment was coming. I felt under an awful pressure, fearing that my explanation would not meet the situation. But I looked brave and cheerful, and explained that Christian people must always cultivate patience which is one of the Christian graces. I told the audience that your disappointment was as great as ours, that you had had a back set with your teeth; that you were now getting in fine condition; that you were already on your way home, and that

CHECK ARTIST VISITS CISCO BUT GETS AWAY

Arrested by Constable Looney, but Leaves the Law in the Car, While Seeks Another Destination on Foot; Worked Eastland.

Last week the banks of Cisco were notified that a check artist was headed this way. The information stated that he had previously visited Eastland, relieving one or more of the banks of that city of a certain sum of money that would look as big as a barn door to the average Eastland county farmer three years ago, but now would be classed as only pennies. That is the Round-Up is so informed.

Whether it be true that the artist got in his work in Eastland, the tip was handed over to Cisco bankers, who profited thereby.

On Thursday of last week a party visited the American National Bank here, so our information goes, and presented a check for approximately \$500.00, requesting that same be cashed. Cashier Van Doren asked for identification, but was told the payee was a stranger and knew no one. Then Mr. Van Doren offered to handle it for collection. Naturally this was not what the stranger desired so he departed with his check, but later came back and offered to deposit the check, but wanted to draw against it, and asked for the payment of a check for \$75. Mr. Van Doren informed him that the check was good for its face value, if good for five cents, and further told him that he did not care to have his account.

It was learned that he went to one of the other banks and by similar methods secured \$50.

Constable Looney was put on the case, and his man was found at the Mobley hotel, where he had registered as Moore. Mr. Looney went to his room and asked his name, and was told it was Wingate. When asked to explain why he had registered as Moore, he said, "that was simply a mistake." Mr. Looney agreed with him but informed him that he was under arrest.

It is alleged that after making the man return the \$50 he had fraudulently secured from the other bank Mr. Looney secured a jitney and started with his man for Eastland but failed to hand-cuff him. It is stated that when out some distance, and the jitney was taking a hill, the alleged check artist jumped from the jitney and waved Mr. Looney a fond farewell.

Being one armed, the officer was unable to over take him, and up to the present the Round Up is informed that Mr. Looney has not heard from his man. When arrested the alleged crook had on his person about \$1,100.

You will surely be here, D. V., on Monday night the 18th. So we had a great service of songs, prayer and spiritual talks by preachers and laymen of the different denominations.

"4. Beloved, I am sure that it will be ruinous to wait much longer for the beginning of our meeting. Observe that the schools will begin next month; also that we are apt to have some weather not helpful to outdoor meetings. I should say that even the Masonic lodge has called off some of its work rather than seeming interfere with the Norris meeting. I occupy an official position in the commandery being charged with the duty of conferring the Knight Templar obligation and delivering important obligations explaining the work. The Commandery has more work to do than ever in its history, and if it were not for the meeting there would be from one to two meetings every week. This has all been called in. We are determined that Dr. Norris shall have absolute right of way.

"I enclose you my last write-up in our weekly paper. There will be a good many people here tonight from neighboring towns expecting to hear you by reason of the advertising which I have given out. We shall have no services, however, and the people will return without having

BIGGEST SALE OF OIL LEASES YET RECORDED

H. C. Poe of Cisco Passes the Papers in the Largest Individual Sale of Oil Leases Yet Made in Texas; Consideration \$1,235,000.00.

A deal representing a consideration of over one and one-quarter million dollars was recently consummated whereby leases on Texas lands changed hands last week. A Cisco man put the deal over, which is a matter that is of interest to all Ciscoans.

From private sources Thursday Mr. J. C. Gaines of the Cisco Round-Up, received the news of the consummation of one of the biggest individual oil lease sales ever put over in Texas. The lease on twenty-six thousand acres of land are involved in this sale which was a cash consideration, and represented the stupendous sum of \$1,235,000.00, which in cash has been paid, the titles approved and the leases delivered.

The acreage transferred in this sale are on acreage in Eastland, Clay, Wilbarger, Hardeman, Childress, Hayes, Coryell, Stephens, Young, Jack, Archer, Wichita, Montague, Wise and Potter counties, thus embracing the oil producing area of most of the northwest Texas counties.

But this deal has a local significance, since it was put over by a Cisco man. True, it required time, pluck and energy, as well as the largest amount of business integrity and sagacity to put a deal of this magnitude over. But that is characteristic of the man responsible for the successful conclusion of the negotiations whereby the new owners have come into possession of this vast and valuable property.

After an absence of ten weeks from Cisco Mr. Poe came in last Thursday for a brief visit with Mr. and Mrs. J. C. Gaines, but at that time all matters had not been concluded, for it was he who put this deal over, but he confided in no one that this big transaction was practically closed.

Mr. Poe spent about ten weeks in Kansas City, Chicago, St. Louis, and New York, conferring with the purchasers, who were bankers from those cities, and according to the information to Mr. Gaines, the deal was only consummated this week.

Just when Mr. Poe will return home is not known, as Mrs. Poe and their little daughter, Gertrude, are still in St. Louis and it is not likely that he will return for some weeks.

PUBLIC MEETING OF CHAMBER OF COMMERCE
There will be a public meeting of the Cisco Chamber of Commerce at the City Hall next Monday night, at 8:30 o'clock, to which everybody is invited. There will be no collection or subscription taken.
W. E. Morris, Pres.

First Presbyterian Church.
Rev. J. D. Leslie, D. D., Pastor
Services at 11 a. m. No night services on account of Baptist meeting.

heard you. But I am going right into the paper this week and do my very best to "fix the matter up" and I include the hope that this great people will take the whole matter in the right spirit, and come out next Monday night to meet you and stand by you, pray for you and in every way back you up in your one great meeting for this year.

"Beloved, scores of praying people are carrying you and the revival, daily, to a throne of grace.

"Give me a good, sweet answer saying, "By the Grace of God I will be with you next Monday night."

Affectionately,
"A. E. Batten."

Dr. Norris has just phoned Dr. Batten that he will be here Monday with his singer, ready to start the meeting Monday night.

FOUR MILLION AMOUNT AGREED ON FOR ROADS

Committee Appointed to Put Bond Machinery in Motion Met at Eastland Last Saturday and Marked Out Roads to be Built.

The committee appointed by the recent mass meeting which was assembled in Eastland recently to consider the building of roads in this county, met in the court house last Saturday and appointed a member of the advisory committee from each precinct, to act with the commissioners court. Also the number and route of the several roads to be built in the country were marked out.

Mr. W. A. Downing, secretary of the chamber of commerce was named on the advisory committee from this precinct, and it was decided to raise the amount of bonds to be voted upon from three million to four million dollars. It was said that the committee ascertained that this amount could be legally voted, according to the taxable values of the county.

Though the proper petition for signatures, praying the commissioners court to call this election, have not been circulated, it is presumed that this requisite will be attended to. It seems that this matter was overlooked by the committee, as Mr. Downing stated nothing was mentioned regarding the preparation and circulation of a petition. As the writer remembers the law governing such cases the commissioners are not authorized to call an election for the purpose of voting bonds until the court is petitioned by a certain percent of the tax paying voters. Then it becomes mandatory.

The Designated Roads.

Following are roads designated by the special committee at the meeting last Saturday. All will be hard surface roads, capable of standing up under the heaviest traffic, except the road from Cisco via Nimrod to Pioneer, which will be sand, clay and gravel. The Round-Up is indebted to Secretary Downing, of the Chamber of Commerce, for the information relative to the routing of the proposed roads; Cisco to Pioneer via Nimrod; Nimrod to Scranton; Pioneer to Rising Star; Cisco to Rising Star; Cisco to Callahan east line; Cisco via Eastland to Ranger, thence to Eastland county east line, which is designated as the Bankhead highway, and will be constructed of the heaviest road material.

Eastland to Gunsight on the north and Carbon on the south; Rising Star to Carbon; Carbon via Long Branch to intersect with the Cisco Rising Star road; Carbon to Gorman; Gorman to Desdemonia; Desdemonia to Ranger via Staff, thence to north line of county; Cisco northeast to Gunsight; Cisco to Moran.

These descriptions were given from memory, and discrepancies may arise and are therefore subject to correction when the official map is published.

NEW PRICE SCALE FOR FOODSTUFFS

Washington Aug. 13.—To meet reductions recently made by retailers, a new scale of prices for surplus food stuffs was put into effect today by the war department: Roast beef was reduced from \$2.10 to \$1.90 per six pound can; bacon from 35 to 31 cents per pound and three pound cans of beans from 11 to 9 cents. Prices on other items were reduced in proportion.

"The Secretary of War," said the announcement "has approved the quotation from time to time to keep these prices below those charged by the retailers for similar commodities.

Honoring Her Grandson.

Mrs. M. E. Vernon, honoring her grandson, Frank Vernon, served a noon dinner Sunday to the following guests, Mrs. H. H. Hall and family, of Ft. Worth, Wm. Reagan and family, Mrs. M. J. Hall and Miss Lorena Leaser.

BOOSTERS AND BUSINESS MEN VISIT MORAN

Cooperation Sought Between Towns in Oil Belt, Through Establishment of Morning Paper in Cisco; Royalty Welcomed.

Commenting on a recent visit of Cisco boosters to our thriving neighbor city, Moran, the News, the live weekly edited by Earnest Hendrix, formerly of Cisco tosses the following fragrant bouquet at the metropolis.

"Wednesday evening our town was visited by a number of Cisco's live boosters and business men, who were endeavoring to get more cooperation among the towns in the West Texas to-the-minute morning news at Cisco. It is the opinion of the Moran people that the oil fields need a good live daily paper and we think that Cisco is the best town in the oil belt for this paper. Cisco is the very center of all oil activities, has the best, in fact the only train service, in the entire oil region, and has the best territory in the whole world to draw from. She has a bunch of real live, energetic business men who know nothing else, and it is almost a cinch that Cisco will have some paper.

"The principal speaker of the evening, Mr. Walter A. Downing, Secretary of Cisco's live Chamber of Commerce, pointed out the benefit Moran would derive from a paper of this kind. Every day Moran is to have a complete report of the oil activities in this part of the oil field as well as the rest of the oil belt. This paper will carry full Associated Press reports, which will carry news from all over the world. This paper will be delivered in Moran before most of the people are up, and will give us good hot news twenty-four hours before any other paper is delivered here. This paper will arrive in Moran in time to catch the route every morning and will be delivered to every part of the country within a few hours after the news is printed. "We are glad to have had these men with us, and assure them that Moran is always ready to meet them half-way in any thing that they may undertake that will be to the mutual advantage of both towns."

American National Has New Asst. Cashier

There has been a change at the American National Bank. Mr. Gibson, who went with the American when it was organized as assistant cashier, has resigned and accepted his old position with the First State bank. He is succeeded at the American National by Mr. R. R. Downey, who comes to Cisco from Tulsa, Okla. Mr. Downey has had wide experience with some of the larger city banks, and is a valuable man to the American, to which he brings his experience that will greatly facilitate the growing business of that financial institution.

Mr. and Mrs. Downey will go to house keeping just as soon as they can find a home, as they will make Cisco their home in the future.

Faris Makes Annual Visit To Bank Here

Mr. H. P. Faris, the banker of Clinton, Missouri, came in this week to attend the meeting of the board of directors of the Guaranty State Bank and Trust Company, of which he is one of the directors. Mr. Faris is well known here, and is one of the large stockholders of this financial institution. He has been coming yearsto Cisco for the past 33 years, having made his first visit to this place in August, 1886, and is therefore entitled to be classed as an old timer. He could relate many interesting incidents of the early days of not only Cisco, but the entire western part of the state, as the early settlement of this whole section is familiar to him. He was in Cisco the day after the famous bank robbery and was also here a day or two after the disastrous cyclone, which devastated this city.

TEARING AWAY THE PAVEMENT FRONT OF P. O.

Workmen are busy and Soon the Hump Will be Out of Main Street. Where it has Benn an Eye Sore To the Town.

Work commenced in earnest on the paving of Avenue D, where the contractor, who recently forfeited his contract, quit off. At least, they are busy tearing out that portion that has been an eyesore to every person in the city, located in front of the post office, preparatory to laying it correctly.

It was given out that this would be the last job attempted as the town has been torn up so long it was thought advisable to complete the street and then come back and make this bad job over. This decision was changed overnight, for just what reason the Round-Up is not informed.

It is presumed that the appearance here of the bondsman, W. A. Myrick, for the defaulting contractor, had something to do with this change in program. Mr. Myrick was here Wednesday and conferred at length with the Mayor and City Attorney, and it is stated that an understanding has been reached.

At any rate Contractors Page & Mood have a force of men on the job now, tearing out the pavement, preparatory to making the necessary excavation which will commence just as soon as the masonry is displaced. This half block to the intersection of fifth street will be torn up. This work is being done at the time when it will really save, as the machinery ordered for the street work has not yet arrived, and there would necessarily be considerable delay.

Mr. Page states that as soon as the machinery gets here they will commence paving the rest of the street, and this half block will not remain a reproach to Cisco after it has been relaid.

Mr. Rodney Ellis, of Clifton, Ariz. arrived in Cisco last evening, and will probably make this place his home. Mr. Ellis is a qualified business man and was until inducted into the army, the district clerk of Greenlee county.

WILL BUILD MODERN FILLING STATION

Mr. C. M. Lewis was here from Tulsa several weeks ago, and at that time closed a deal for a lease on the J. W. Ray lot on the corner of Ave. D and Ninth street, for the purpose of erecting a modern filling station.

Mr. Lewis arrived in Cisco last night, and is now advertising for a contractor to put in this station.

This place will be one of the most attractive and up-to-date places in the state. Mr. Lewis will put in all conveniences of the most modern filling stations, beautify the grounds and make it really a show place. He proposes to use Cisco products made by the Liberty Refining Company.

Arm Broken Playing Ball—An unusual accident occurred at the Brittan Hill ball grounds last Sunday when the ball game was in progress. Mr. J. L. Kelly, one of the most enthusiastic ball fans of the city, had the misfortune to break his arm in two places. He threw the ball and by some means broke his arm as above stated. There were two breaks, both above the elbow.

Mr. Kelly was rushed to town and given surgical attention as quickly as possible, but he suffered agonies before the pain could be relieved. He is reported to be resting nicely today, and will likely be out in a short while.

Mr. J. W. Smith was the week end guest of Miss Hazel Wilson. Mr. Smith is attending a business school in Ft. Worth, but his home is in Jordanton.

For men who don't smoke pipes and kiddies who don't believe in Santa Claus—we hereby pass resolutions of sympathy.

Velvet Joe

There's Taste to It!

It's easy to find a mild tobacco that's tasteless. There are full bodied tobaccos that are strong. But there's one that's cool as a cucumber and lively as a cricket. And it's friendly. That's Velvet. Have some?

Liggett & Myers Tobacco Co.

Roll a cigarette with Velvet and know how a cigarette ought to taste.

Returns rom Harvest.

Mr. and Mrs. H. E. Carter went out to their ranch near White Deer about a month ago to look after the harvesting and threshing of the big wheat crop produced on their ranch. Mr. Carter returned to Cisco last Tuesday, but Mrs. Carter will remain awhile longer in the Panhandle. Mr. Carter stated that the wheat crop this year was the best ever known, as portions of this crop produced as high as fifty bushels to the acre.

Accompanying him on his return was his brother, Mr. A. P. Carter, who will be associated with him in the management of the Cisco Land Company here, who will be permanently located, and look after the affairs for the present, as Mr. H. E. Carter expects to be absent at intervals for some time yet.

City Buys More Pipe

Two pipe salesmen were in Cisco yesterday, when the city commissioners placed an order for six miles of additional pipe for the Cisco water service. The Universal people sold the order.

The Williamsons Entertain.

Mayor and Mrs. J. M. Williamson entertained Sunday with a noon dinner and the following were present: Mr. and Mrs. J. S. Carswell, of Ft. Worth, Mr. and Mrs. B. F. Adams, Brownwood, and Mrs. M. K. Lovelady, Atlanta, Texas, Miss Justine Dodd, Marshall, Miss Johnson, Atlanta, Texas, Mr. Charlie Ford, Ranger, Mr. and Mrs. J. S. Lovelady and family and Mr. and Mrs. W. C. Sikes of this city.

Was Not One of the Guilty.

Last week the Round-Up stated the pure food inspector had been in Cisco, and complaints had been filed against three cafes. The Round-Up gave the names of three safe proprietors who escaped. In this list we did not pretend to give a list of every man in town who was not guilty of violating the sanitary laws, but just these three, which were mentioned by the inspectors, as they are more or less reluctant about giving names. The proprietor of a cafe who was not mentioned one way or the other, seemed to be laboring under the impression that in some vague way his place was included in the list of those guilty. For this reason the Round-Up wishes to say that the Central Cafe was not one of those against whom complaints were filed.

Wanted Oil Leases.

Direct from owners, for good company now organizing. Only a few more good leases wanted. Get busy if you want in on something big, as we have the goods. P. O. Box 236, Cisco, Texas. 15 tlc

Christian Church

Regular Services next Sunday. Preaching by the Pastor Rev. E. B. Isaacks, at 11 o'clock. Sunday school 9:45 a. m. Christian Endeavor at 7:45 p. m. Everybody invited.

Lady Real Estate Agent.

Miss L. E. McCausland is the latest addition to Cisco's business circles. She arrived about ten days ago, but owing to the fact that she has been unable to secure offices, no announcement has been made. Miss McCausland will go into the real estate business, and unless she can secure a building she will operate temporarily from the Alexander hotel where she has apartments.

Bedford Revival.

Revival services will begin at Bedford Chapel, Sunday, August 17th. The quible is cordially invited. J. D. Gardner, Pastor in charge, Cisco circuit.

Lieut. Roquemore Reaches Cisco.

The Round-Up announced last week that another of the heroes of the world war was expected home when it was stated that Mrs. O. G. Roquemore had gone to Dallas to meet her son. After giving him a mother's welcome, Mrs. Roquemore,

returned home, while Lieut. Otho G. Roquemore proceeded to Camp Travis, where he received his final discharge from the army. Lieut. Roquemore arrived here Monday, and is again under his parental roof after having served his country as a soldier in France. He will likely remain here and go into some line of business. At present, however, he is too pleasantly situated with his parents to think of business, after the strenuous campaigning and is enjoying a much appreciated rest.

A GRAVE SITUATION CONFRONTS SCHOOLS

The publicity committee of the State Teacher's Association has just received, in reply to numerous letters sent out, information that indicates so grave a situation in Texas schools that the committee feels that this information should be brought to the attention of every citizen of the state. The committee frankly admits that it does not see how the situation is to be met in time to prevent serious loss to our schools, but the information is given out in the hope that out of the wisdom of all of the people some way may be found to remedy the condition.

Carefully compiled replies from 19 of the best cities and large towns of the state show a loss this year of 34 per cent of their men and 20 per cent of their women teachers. In addition to the many vacancies at the present time, these reports show an average of only one-fifth the number of well qualified male, and one-third the number of well qualified female applicants this year as compared with recent years.

Of the teachers lost according to estimates of superintendents, 77 per cent are among the better and 23 per cent are among the poorer teachers. The report from four schools losing over forty teachers among them, show that every teacher lost was in the better class.

Returns from county superintendents, representing 607 teachers, show even worse conditions. They

have lost this year 33 per cent of their men and 39 per cent of their women teachers, and 78 per cent of those lost were among the better class of teachers. The number of male applicants is less than one-fourth and the number of female applicants is less than one-third that of last year. One North Texas county reports 100 vacancies now, and a middle western county has 60 vacancies.

Of course a part of the losses in teachers is due to the usual transfers from one school to another, but 35 per cent of the city and town losses and 66 per cent of the rural losses are reported as permanent.

These losses are reported in spite of the fact that there has been an average raise in salary of 28 per cent in the cities and towns and 23 per cent in the rural schools reporting.

If the figures compiled from these reports are typical of the state as a whole, Texas schools have lost about 4,500 women and 1,200 men teachers this year, and there are 4,500 vacancies at this time. These vacancies, if filled at all, must be filled with inexperienced and untrained young people, mere boys and girls, and with former teachers who have dropped out of school work on account of inefficiency. Some superintendents report that they are obliged

to use more inexperienced teachers than ever before in order to fill the vacancies at all.

We ask in all seriousness, what is to become of the children of Texas if one-third of the men and from 20 to 30 per cent of the women leave the schools, either by transfer to other schools or by getting out of the profession, in one year—especially when three-fourth of these are among the better teachers.

With probably more than 4,000 vacancies now in the Texas schools and with one-fourth of the usual number of men and one-third of the usual number of women applicants for these positions, what kind of teachers will your children have next year.

Certainly we realize today as never before, that the welfare of the state and nation is wrapped up in our educational system, and yet it seems certain that, unless radical steps are taken in the near future, our schools will fall back more in the next year or two than they have gained in ten years. The teachers of Texas can easily afford to leave the schools for more remunerative employment, but the people can not afford to let them go.

No ordinary measure will meet this grave situation. Increases of 23 per cent and 28 per cent have failed to hold the teachers because the cost of living has increased more than three times that amount. The Chicago papers call attention to the fact that the delivery boy on the milk wagon is paid more than the teacher in the school. The salaries of the railroad employees average \$585 more per year than when we entered the war. This increase is greater than the average annual salary of the Texas teachers, and almost equal to the average teachers salary in the United States.

In the face of 100 per cent increase in the cost of living, and the increased pay offered in other fields, the schools must meet the competition or condemn our children to the hands of inexperienced, half-trained and incompetent teachers, aided by a few missionary spirits who will teach under any circumstances, and a few who are able to teach as a pleasure.

regardless of pay. Our legislators, our school boards, and the public must find ways to pay a living wage to school teachers or lose to the commercial world a large portion of their ablest and best qualified men and women. The salaries paid teachers must be prac-

tically doubled. This sounds impossible. If Texas can furnish over 200,000 of her citizens and put up a billion dollars a year to fight for democracy in Europe, she can certainly put up a few million extra to fight ignorance and incompetency at her home.

We urge every man and woman to talk of this matter to his or her neighbor, to write about it to the papers, and keep it before the people until a proper solution is found.

Respectfully,
G. O. Slough,
Committee Chairman.

GOOD WATER NOW CARRIED EVERYWHERE

Mammoth Bottle-Making Machine Turns Out Big Bottles for Texas Use

One of the most interesting inventions in recent years is an automatic bottle-blowing machine which is now in operation in the big factories of the Illinois Glass Company up in Alton in southern Illinois, which turns out finished 6-gallon bottles at the rate of about five every minute. The machine stands as high as an ordinary house and weighs something over 800 tons. And experts say that the strength of the bottles which it turns out, and the quality of the glass surpass any other bottles of this size ever made.

For many years a big problem has confronted individuals and companies whose business takes them into the dry parts of Texas, particularly the oil regions. How they could carry good water into the districts where they were compelled to work has been a question; it was a difficult matter to transport water from the areas where it was plentiful to the dry regions where their work compelled them to locate. Heretofore, there has been no practical container which could be used for this purpose. So when the Illinois Glass Company brought out the new big bottles, their achievement came as a boon to the industries in these sections. They fill all the need exactly, and come ready to ship, tightly corked and complete with strong shipping cases.

The Nason Hardware Company of Fort Worth and Huey and Philip Hardware Company of Dallas are taking care of the demand for these new big water containers.

Camel CIGARETTES

Cigarettes made to meet your taste!

Camels are offered you as a cigarette entirely out of the ordinary—a flavor and smoothness never before attained. To best realize their quality compare Camels with any cigarette in the world at any price!

Camels flavor is so refreshing, so enticing, it will win you at once—it is so new and unusual. That's what Camels expert blend of choice Turkish and choice Domestic tobacco gives you! You'll prefer this blend to either kind of tobacco smoked straight!

As you smoke Camels, you'll note absence of any unpleasant cigarette aftertaste or any unpleasant cigarette odor. And you'll be delighted to discover that you can smoke Camels liberally without tiring your taste!

Take Camels at any angle—they surely supply cigarette contentment beyond anything you ever experienced. They're a cigarette revolution! You do not miss coupons, premiums or gifts. You'll prefer Camels quality!

18 cents a package

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply when you travel.

CAN CONGRESS DESTROY THAT WHICH IT FOSTERED?

The American federal government is now worrying over the rectifying of conditions which have been fostered by congress for the past generation. Under the plea of fostering infant industries, nourishment has been administered until the child has outgrown the parent, and now the commercial world is so well organized that it defies its parent which brought it into existence.

The protective tariff was the nourishment administered. By its fostering influence great combinations have sprung up, and notwithstanding the most drastic laws have been enacted, ostensibly for the breaking up of these illegal combinations, few of the favored are ever brought to justice.

A few years ago there was a great to-do about breaking up the American Tobacco Trust. The country was lead to believe they were forced to disintegrate. The result was quite contrary to that which the people were lead to believe. The tobacco interests simply parcelled out the country among their several member factories, and doubtless a common reckoning is had once a year. At least the products of the trust has been increased 150 per cent.

None are more to blame for these conditions than the national government. The business of the country is so well organized today that every article of merchandise is priced for the consumer before it leaves the factory, and the retailer is given the minimum price at which he may sell; he has the privilege of selling as much higher as his conscience dictates, and in most instances this is limited by the ability of his customers to pay.

But now there is a great furor about the high cost of living. The federal government is trying (seemingly) to kill the system which congress has long fostered. The packers, the petted child of special legislation, is bearing the brunt of federal attack, and the wise and patriotic (?) attorney general is threatening to jail the entire bunch of the big five. But the present generation will never see a Swift, Armour, Cudahey or Wilson behind the bars. Its all merely camouflage.

However, some good may be expected. The people are long-suffering and patient, but there is a limit, and when the avalanche of public disapproval engulfs the country the righteous will raise the howl of "bolsheviki." The real bolsheviki of America are the profiteer class, but the system has been fostered and rivited upon the people by such a gradual process that they have not realized the enslavement they have permitted to be fastened upon them.

After all is the only remedy socialism? Democrats have fought off this eventuality since the establishment of the government, but with competition destroyed is there any other remedy? It is doubtful, as much as real democrats would welcome its coming, that it is possible to ever return to the doctrine of democracy as taught by the fathers.

The protective tariff, as taught by the Republican party, and practiced by the favored interests, have demonstrated to the world that socialism is not an ethereal fancy, for big business has been practicing socialism for many years, but they have practiced it for the exploiting of the people, rather for the relief of the masses.

Now the federal administration is making a bluff toward forcing the disorganization of these combinatons which have gained control of the commodities of the country. If prosecutions of the packers are carried out it can be expected that prices will take another rise, and the people will be further exploited, as only fines will be imposed, and this is a small matter when they can reimburse themselves by raising the prices of their products. A life sentence in the penitentiary for every man convicted of violating the Sherman law might prove beneficial, certainly a fine will do no good.

Attorney General Palmer has asked congress to appropriate one and a quarter million dollars to fight the high cost of living. The appropriation should be made. Congress will likely appropriate three and one half million dollars to keep the people from buying something to drink; it should be willing to furnish one third of that amount to enable them to buy something to eat.

FURGESON SEEKS ELEVATION BY BAILEY'S KITE.

In the language of the reformer: "All reform measures attract the vicious." And it might be added that popular reform measures attract the mediocre and those of pee wee calibre. This is very forcibly exemplified in the eagerness with which Jimmy Ferguson grabs the tail of Joe Bailey's kite, and tries to ascend from the place of oblivion in which his own ignorance, graft and chicanery had placed him, or rather by which he had been placed by the people. Jimmy was a political accident pure and simple, a child of the primary system which elevates the man to position and power who uses the most money to get before the voters.

Just why Furgeson should take himself seriously is a matter that thinkers could never fathom. Coming before the people by the use of unlimited means, furnished from questionable sources, and at a time when the tenant class was sorely oppressed by the avarice of landlords, having his makeshift of a land platform, and an opponent whose corporation alliances were too strong for the people to swallow, he was elevated to the highest position within the gift of the people of the state. Subsequent events are history, known to all. It does seem that he would have sense enough to realize his true place, but he is really too ignorant to see. Poor Jimmy, he is dead, but does not realize it.

The committee on good roads met at Eastland last Saturday and agreed on the several roads to be built in the county. The amount of bonds to be voted was raised from \$3,000,000 to \$4,000,000. It is not known that the committee acted after ascertaining that this amount could be voted upon the basis of the taxable values, of just jumped at conclusions. It is learned that they overlooked the fact that a petition must be presented to the court containing a requisite number of property tax paying voters before the election can be called. We hope they acted with more judgment in arriving at the amount of bonds that could be voted on the taxable values of the county. Cisco would rather there be no joker in the road bond election.

The former presidential clerk in the legal department of the Wilson administration, who by courtesy was designated the attorney general, has been speechmaking in Texas, furthering the propaganda for the ratification of the league of nations. Perhaps most Texans understand the league of nations and its probable effect upon this country, better than Mr. Wilson's ex-legal clerk.

The lower house has voted to repeal the tax on soda water and ice cream. Another fool measure obliterated, or will be as soon as the senate concurs, and that by a republican congress. But then the Wilson administration will leave lots of rubbish for the republicans to clean up.

After declaring in favor of every measure the democratic party has fought since the days of Jefferson, the Fort Worth Record declares that "if Hon. T. I. Fitzgerald is a democrat the Record is not." Entirely unnecessary, esteemed Record. Your editorials tell it for you

Chicago has felt the strangle hold of black fingers on white necks—reaping that which she has sown. Her taking the serpent to her breast in days past is now feeling the poison of its sting. Thirty-two lives have been snuffed out in recent race riots in that city.

If the attorney general is really in earnest the federal penitentiary will soon be as crowded with federal profiteers as the houses of Cisco are with honest people.

Four million dollars will build several miles of good roads in Eastland county, and the sooner the better.

The gathering of the faithful at Fort Worth yesterday, was not all harmony. In fact there was evidence of the former pep of democratic assemblies, as there was a split. Jimmy Ferguson and his bunch established a wigwag of their own, and will fight the socialist tendencies of Wilsonism from without the party. For this purpose the American party was born and the impeached ex-governor was the principal speaker of the occasion.

Senator Joe Bailey was the center of attention in Fort Worth yesterday when there was a gathering of the representatives of real democracy. His was in no sense a part of the Ferguson aggregation, the conception of which was inspired by the opportunity afforded by the meeting of real democrats as represented by those who think along the same lines of Bailey.

While Driver Worships Thief Drives Off Auto

The police department of the City of Cisco reports the theft of an automobile from right in front of the City Hall. Not only this, but the ungodly man absolutely defied the sacred precincts of the Lord's own sanctuary for committing this crime against God and man.

The car belonged to the Burton-Lingo company, but was driven by Mr. Tony Preston, who parked the car in front of the Norris tabernacle opposite the City Hall, and while Mr. Preston was engaged in his devotionals this degenerate son of Beelzebub, who had not the fear of God in his heart, nor the rights of property in his mind, maliciously, and feloniously did then and there purloin, take and steal the said tin lizzie, with the intent then and there to appropriate it, or the proceeds thereof, to his own use and benefit, and thereby depriving the owner of the proceeds of his own property, to the embarrassment and mortification of the driver and bailee of the aforesaid Ford.

At any rate, the car was stolen, and that too, from right in front of the City Hall.

Mr. Preston reported the theft immediately to Chief Hittson and Patrolman Stamps, who have been at work on the case, but up to this hour their efforts have not been rewarded with much success.

Chief Hittson requests that those who should be so unlucky as to lose their machines, will render valuable aid in recovering the stolen cars if they will immediately, as did Mr. Preston, report the theft, together with the full description of the car, number of license, number of engine and any other information known. This will enable the officers to get on track of the thieves before they get out of the country.

Description of Car

The car stolen was a five passenger Ford, 1919 model, motor No. 285-9141; state license No. 360360, license tag not on car but under cushion of back seat; black rubber cap on radiator. Practically new car, with one fender bent. A reward will be paid by notifying chief of police, at Cisco.

New Grocery Store In Folly Building

Workmen are remodeling the Folly Theatre building, and putting it in shape for the new occupants, Messrs Kemper & Perry, who will open an up-to-date grocery store and meat market there. The new firm will be ready for business about next Wednesday, if the fixtures and alterations can be put in by that time.

Mr. Kemper is no stranger to the people of Cisco, having been connected with both the wholesale houses of Radford & Company and Webster & Sons. Mr. Perry comes

here from Wichita Falls, having arrived about a week ago. Both of these gentlemen have large experience in the grocery business and commence here under the most favorable auspices. They will carry a choice line of goods, and conduct a modern establishment. In connection with the grocery that will also operate a meat market.

Presbyterian Aid.

The Ladies Aid Society, of the Presbyterian church met with Mrs. A. A. Webster in the work meeting, Tuesday afternoon. A number of ladies were present. Mrs. Webster and Mrs. Albert Gracey served ice cream and cake and those present enjoyed the hospitality of these ladies.

Texana Oil Co's. Well No. 1 Has Spudded In

Reed Tract

We began drilling our first well last Saturday, August the 9th. The drillers advise us that they expect to complete this well between the 1st and 15th of next month.

Shellenberg Tract

Our derrick is up and tools ready, except the boiler and engine for well No. 2. We expect to be drilling on this well in the next ten days.

Harrell Tract

The derrick material is on the ground for our third location and we are waiting on our contractor to build the rig.

Driller Invests \$4,000.00

Mr. J. G. Hamil of Cisco, who is drilling our second well, has purchased \$4,000 of our stock. As Mr. Hamil has been in the oil game thirty years, it doesn't sound reasonable that he would invest this amount if he did not think our wells sure of production, as he is in the field all the time and has as much knowledge of our holdings as anyone. WHY should he invest this amount if he doesn't think it the best investment in the field?

Buy Now and Save Money

We can't afford to offer this stock at \$1.25 much longer. It is our intention to either raise the price on all unsold treasury stock or withdraw it from the market entirely when our first well is completed.

NOW IS THE TIME TO ACT while you can get it at this price. Fill out the application blank and mail it to us with your check for the amount wanted.

SUPERVISORS NAMED FOR 14th TEXAS CENSUS

Texas Contains Eighteen Districts, Population 3,896,542; Counties Embraced in Each Supervisor's District.

The machinery is being put in motion for the taking of the fourteenth census of the United States.

The supervisors have been appointed and soon the enumerators will be announced. Albert W. Sledge of Ballinger has been named as supervisor of this, the Seventeenth District of Texas. To Mr. Sledge must application be made to be appointed enumerators.

This district contains thirty-eight counties, and the census of 1910 gave the district a population of 178,781. The census of 1920 will likely show a population of over 500,000.

The following are the districts and the counties contained in each. Last week the Round-Up published all the names of the Supervisors.

First District: Counties: Bowie, Camp, Cass, Delta, Franklin, Hop. Second District: Counties: ssIP m kins, Lamar, Marion, Morris, Red River and Titus. (11 counties.) Population 1910 229,341.

Second District: Counties: Angelina, Cherokee, Hardin, Harrison, Nacogdoches, Newton, Orange, Panola, Sabine, San Augustine, Shelby and Tyler. (14 counties.) Population 1910, 273,842.

Third District: Counties: Gregg, Henderson, Kaufman, Rusk, Smith, Upshur, Van Zant and Wood. (8 counties.) Population 1910 214,721

Fifth District: Counties: Dallas, Ellis and Rockwall. (3 counties.) Population 1910 197,449.

Sixth District: Counties: Brazos, Freestone, Hill, Leon, Limestone, Madison, Milam, Navarro, and Robertson. 9 counties.) Population 1910, 259,062.

Seventh District: Counties: Anderson, Chambers, Galveston, Houston, Liberty, Montgomery, Polk, San Jacinto, Trinity and Walker. (10 counties.) Population 1910, 190,122.

Eighth District: Counties: Fort Bend, Grimes, Harris and Waller. (4 counties.) Population 1910 167,204.

Ninth District: Counties: Brazos, Calhoun, Colorado, DeWitt, Fayette, Goliad, Gonzales, Jackson, Lavaca, Matagorda, Refugio, Victoria, and Wharton. (13 counties.) Population 1910, 212,502.

Tenth District: Counties: Austin, Bastrop, Burleson, Caldwell, Hays, Lee, Travis, Washington and Williamson. (9 counties.) Population 1910, 238,026.

Eleventh District: Counties: Bell, Bosque, Coryell, Falls, Hamilton, McLena. (6 counties.) Population 1910, 214,116.

Twelfth District: Counties: Erath, Hood, Johnson, Parker, Somervell and Tarrant. 6 counties.) Population 1910, 215,397.

Thirteenth District: Counties: Archer, Baylor, Clay, Cook, Denton, Jack, Montague, Throckmorton, Wichita, Wilbarger, Wise and Young. (12 counties.) Population 1910, 199,544.

Fourteenth District: Counties: Arkansas, Bee, Bexar, Blanco, Comal, Gualalupe, Karnes, Kendall, Neches, San Patricio and Wilson. (11 counties.) Population 1910, 237,317.

Fifteenth District: Counties: Atascosa, Brooks, Cameron, Dimit, Duval, Frio, Hidalgo, Jim Hogg, Jim Wells, Kinney, Kleberg, La Salle, Live Oak, McMullen, Maverick, Medina, Starr, Uvalde, Webb, Wilacy, Zapata and Zavalla. (22 counties.) Population 1910, 156,041.

Sixteenth District: Counties: Andrews, Bandera, Brewster, Coke, Cane, Crockett, Culberson, Ector, Edwards, El Paso, Gillespie, Glasscock,

Howard, Hudspeth, Iron, Jeff Davis, Kerr, Kimble, Loving, Martin, Mason, Menard, Midland, Mitchell, Pecos, Presidio, Regan, Real, Reeves, Schleicher, Sterling, Sutton, Terrel, Tom Green, Upton, Val Verde, Ward and Winkler. (38 counties.) Population 1910, 178,91.

Seventeenth District: Counties: Brown, Burnett, Callahan, Coleman, Comanche, Concho, Eastland, Llam Comanche, Concho, Eastland, Jones, Lampasas, Llano, McCulloch, Mills, Nolan, Palo Pinto, Runnels, San Saba, Shackelford, Stephens and Taylor. (19 counties.) Population 1910, 292,074.

Eighteenth District: Counties: Armstrong, Bailey, Borden, Briscoe, Carson, Castro, Childres, Choctaw, Collingsworth, Cottle, Crosby, Dallam, Dawson, Deaf Smith, Dickens, Donley, Fisher, Floyd, Ford, Gaines, Garza, Gray, Hale, Hall, Hansford, Hardeman, Hartley, Haskell, Hemphill, Hockley, Hutchinson, Kent, King, Knox, Lamb, Lipscomb, Lubbock, Linn, Moore, Motley, Ochiltree, Oldham, Parmer, Potter, Randall, Roberts, Scurry, Sherman, Stonewall, Schwisher, Terry, Wheeler and Yoakum. (53 counties.) Population 1910 203,697.

Meeting At Pleasant Hill Closed Sunday

The protracted meeting which has been held at Pleasant Hill, was a marked success. The meeting came to a close last Sunday night, and much interest was manifested by everyone who attended. The Rev. Paul Watsonabe, the famous Japanese minister, delivered three sermons during the meeting. Big meetings have been the diversion in this section, and a number of young people have been enjoying the meeting at Ballard this week.

Miss Winnie Miller spent last week with friends in this community.

Mr. and Mrs. White of Eastland, were the guests at the O'Brien home Sunday.

Mr. Nelson McCord, of Cisco, sent the week with his parents here. Messrs T. L. Lasater and N. S. Kinard attended the Farmer's Convention at Austin last week.

Mr. and Mrs. Roy Camp, of Carbon, attended church here Sunday, and were the guests of their parents Mr. and Mrs. Brummel.

Mrs. R. L. Poe of Cisco, spent the week with friends and relatives in the Pleasant Hill community.

Miss Fannie Hastings who has been visiting in Menard, spent last week with her parents leaving this week for Cisco to resume her work there.

Breckenridge Has Reorganized Lodge

Breckenridge, Texas—Tony Harrison of Eastland, district deputy grand master of the Masonic Lodge, was here recently and effected the reorganization of the local lodge, which has been unorganized since their building and charter were destroyed by fire early in January. It is the intention of the Breckenridge Lodge to commence soon a handsome two-story brick and concrete home.

Baptist Auxiliaries Meet.

The Auxiliaries of the Baptist Ladies Aid met in Circles this week. Circle B. met with Mrs. J. B. Jenkins. The following officers were elected: Mrs. B. W. Patterson, president; Mrs. Mark Stamp, vice-president; Mrs. J. B. Jenkins, secretary; Mrs. Shupe, treasurer. Refreshments were served.

Mrs. J. T. Gardner has for her guest this month, her sister-in-law, Mrs. Henry Rogers, and little son, Henry, Jr., of San Angelo.

RESIGNATION OF DIST JUDGE BURKETT TRUE

Recessed Term and Went to Austin; Grand Jury Ready to Make Final Report Finds No Court To Receive it.

For several days it has been rumored that Judge Joe Burkett had decided to resign as judge of the 88th District Court, but this rumor was almost as persistently denied as soon as made. However, the news is authentic that he has really resigned.

The resignation of Judge Burkett was announced after the court had taken a recess until September 1, and the Judge had departed for Austin. His mission to the Capitol city is not known, but presumably he is there to confer with the Governor regarding his successor.

Just who will likely be the successor to Judge Burkett is problematical. No one so far as the Round-Up has heard, has been in training to enter the race and there is every indication that this may be one time when the office will seek the man. Among those most prominently mentioned as the next district judge are Judge D. K. Scott, of Cisco, Judge W. L. Griswold, and Judge E. A. Hill of Eastland. Judge Scott is in no sense an applicant for the vacancy, though a number of his friends are importuning him very strongly, to allow his name to be used.

There is too much doing in business, professional and industrial affairs in the great oil belt for political positions to be very attractive, and probably the best qualified men will not accept the position if tendered him.

Grand Jury Finishes

The grand jury which has held for three weeks, completed their labor the first of the week and ready to make its final report, but was informed that the court was in Austin. This will necessitate the big twelve having to return to Eastland for the purpose of making their final report and ask to be discharged.

The grand jury has not been idle and from the number of indictments returned one might think that crime is not on the wane in Eastland Co.

While the final report has not yet been made, yet there has been returned 126 bills of indictment, of which 84 were for felonies, and 42 misdemeanors.

An unusually congested docket has featured this term of court, and much litigation has been disposed of. Some cases establishing precedents in land and oil jurisprudence, as well as enforcing the Sunday law as regards moving picture shows, even though it became necessary to impose a jail sentence to force respect of the orders of the court.

Late Criminal Cases.

The following are among the latest criminal cases disposed of:

State of Texas vs. Harry Walsh boot legging, plea of guilty and given 2 years suspended sentence on recommendation of the State. Walsh is about 45 years of age.

State vs. James Carragien, charged with conducting picture show on Sunday, Carragien was fined \$100.

State of Texas vs. Jewell Redwine, charged with murdering Eulon Ellis at Gorman, Texas, on June 24, 1918 the jury returned a verdict of guilty and assessed defendant's punishment at 18 years in the State penitentiary. Redwine had been tried in the court here before and given 25 years, the case was reversed. Redwine's attorneys made a motion for new trial.

Mr. Dause Rogers has returned from an extended visit in Arkansas and New Mexico. He has been away for several months.

Certificates, Round-Up

SENATE HAS UP PROHIBITION ENFORCEMENT

Sub Committee Makes Liberal Changes in Dry Enforcement; Can Manufacture All Non-Intoxicating Fruit Juices for Personal Use.

Washington, August 13.—Prohibition enforcement legislation advanced another step in congress Monday when the Senate Judiciary Committee began consideration of the bill passed by the House last June as amended and liberalized by the judiciary sub-committee.

Although the general house plan for the enforcement of war time and constitutional prohibition remain in the bill the subcommittee eliminated several drastic House provisions and modified others. In its work the subcommittee, comprising Senator Sterling, (Rep.), S. Dakota, chairman, Fall of New Mexico, and Norris, of Nebraska, (Rep.) and Overman of North Carolina, Walsh of Montana, and King of Utah (Dem.) first revised the Senate enforcement bill and then incorporated their amendments in the House bill, reporting the latter as amended by unanimous vote of the full committee.

Separation Retained

Like the House, the Senate subcommittee adopted the plan of having separate sections in the bill to deal with war time and constitutional prohibition.

The subcommittee left unchanged the House definition of intoxicating beverages as those containing one-half of one per cent or more of alcohol.

As revised the bill will not interfere with storage and personal use of intoxicating liquors in the homes of individuals.

Probably the most liberal amend-

ment to the House bill is a provision exempting from penalties any person manufacturing non-intoxicating cider and fruit juices exclusively for use in his house. This would permit of the home manufacture of light wines and cider for home consumption and the amendment except by implication in connection with the definition of intoxicants does not define intoxicating beverages.

Stricken from the House bill was the provision making it unlawful for persons to be intoxicated or to drink liquor on trains, street cars of jitneys, boats, or other public conveyances.

Another liberation is the provision that the reports of manufacture, sale and transportation of liquor, made to the internal revenue collector shall not be open to inspection of the general public, but kept solely for scrutiny of the commissioner, his agents, court or other officers.

Seizure Clause Milder

The House search warrant provision also was made less drastic, the subcommittee amending the search and seizure sections so as to provide that search warrants may be issued only under the usual practices provided by existing Federal law and not on mere suspicion that liquor is being stored for unlawful purposes.

Instead of the House bill's unlimited provision for funds to enforce prohibition, the subcommittee fixed \$3,500,000 for the first years enforcement work and leaves this duty jointly to the internal revenue commissioner and the Department of Justice. The former is to report and the latter to prosecute violations.

In defining intoxicating liquors the subcommittee provided the following liberal proviso: "Provided, however, that the foregoing definition (one-half of one per cent alcohol, shall not extend to dealcoholized wine nor to any liquor or liquors produced by the process by which beer, ale or porter is manufactured, but containing not more than one-half of one per cent of alcohol, if such liquor

Be Sure to Say "Threaded Rubber"

If everybody said "Threaded Rubber Insulation" when they bought batteries and saw to it that "Threaded Rubber" was what they got there would be a lot less battery grief.

—Far fewer jobs of re-insulation that is so often necessary to get full life out of the plates of an ordinary battery.

—Assurance of longer battery life.

If your battery is getting to the point where it shows signs of quitting it will pay you to get on the track of Threaded Rubber. Come in any time and have a talk about batteries.

CISCO BATTERY CO.

shall be other wise denominated than as beer, ale or porter." This proviso rejects the request of prohibition advocates for prohibition of beverages which have the appearance of intoxicants.

Another relaxation of the House Bill was made in its provision for penalizing persons having "reason to believe" their property is being used unlawfully. The Senate amendment requires "personal knowledge" of such use.

The House provision declaring that after Feb. 1, 1920, the possession of liquor unauthorized by the law shall be prima facie evidence that it is being kept for sale is retained and strengthened by an addition providing that in proceedings under this section the burden of proof shall be on defendants to prove that such beverages do not contain more than one-half of one per cent of alcohol.

Many Liquids Exempt.

The subcommittee revision retains the following exemptions as provided by the House: Denatured alcohol medicinal preparations, patent medicines, toilet and medicinal preparations, flavoring extracts, syrups, vinegar and fruit juices. The subcommittee however, struck out the House clause that such articles should be "non-potable" providing merely that they shall be "unfit for beverage purposes."

A House clause requiring that alcoholic content of toilet, medicinal and antiseptic articles to be labeled to be struck out retaining the House provision prohibiting manufacture sale, purchase, transportation or prescription of intoxicants without a permit from the Internal Revenue Commissioner, the revised bill contains a provision that such acts shall be expressly authorized upon receipt of permits. The House limit of ten days on permits also is extended in the revised bill to ninety days. Pharmacists may only sell at retail and licensed physicians only may prescribe liquor. The House requirement for physical examination by physicians of applicants for liquor prescriptions however was eliminated.

The House provision limiting physicians dispensing, to one pint of liquor in ten days for the same person, is retained but modified to provide that such limitations shall apply only to prescriptions, "to be taken internally."

More rigorous provisions guarding transactions in wines for religious and sacramental purposes are provided by a provision requiring issuance if such permits only to ministers, rabbis or other ecclesiastics.

House provisions regarding advertising of beverages are made more stringent in some respects and are more liberal in others. The subcommittee struck out provisions prohibiting sign or bill board advertisements but added a clause penalizing "advertisement of intoxicants anywhere by any means or method."

Retaining the House provision against advertisement of compounds preparations or formulas for manufacture of intoxicants, the subcommittee strengthened this section by prohibiting the advertisement of any "utensil, contrivance or machine" for such purposes.

FIRE MARSHAL SAYS ARRESTS SHOULD FOLLOW

Refusal to Comply with Those Failing to Remove Fire Hazards From Premises; Suggests Another Admonition, Then Action.

The State fire marshal is getting active in regard to existence of fire hazards in Cisco, and from the tone of his letter some definite action is likely to result from the continued existence of fire hazards remaining in the proximity of insured property. As business men of integrity it does seem that our people would see that these hazards are expensive luxuries to maintain. Every day they are allowed costs the property owners money, and endangers the city's key rate, if not the privilege of carrying insurance at all. The customers of merchants are due some consideration. The cost of your insurance is added to the selling price of your commodities, and God knows they are high enough at best, so every thing possible should be done to lower living expenses. Clean up and reduce the price of living.

A letter to Mr. J. T. Stamps from the state fire marshal, W. S. English, on the conditions existing in Cisco, which is published below might induce some one to clean up his premises, and for that reason it is given in full:

"We have for acknowledgment your report on fire hazards sent to you for attention on June 19, and it would appear, if we understand correctly the way it is marked, that you have not been successful in having very many of the same corrected or removed. We think it would be a good plan for you to cover this territory again, and make it plain that unsafe accumulations of trash and other hazardous conditions such as were noted in this inspection, will not be tolerated.

"The filing of a few complaints against some of these parties for violation of the fire marshal's ordinances, and refusing to obey your orders for corrections, would probably have better effect than anything else you can do. We shall expect this to be done if conditions are not speedily improved along fire prevention lines in Cisco.

"Awaiting the opportunity to be of service at any time, we are

"S. W. English,

"State Fire Marshal."

So there you are. It is up to the offenders to get busy or face prosecution.

All Guilty Of Taking Excessive Shoe Profit

The Federal Trade commission has made its report on the price of shoes and convicts every handler of footwear of the crime of profiteering. Champ Clark calls them thieves. But the findings of the Trade commission are that every man who has handled shoes and shoe material, the packers, tanners, manufacturers, wholesalers and retailers, have been guilty of profit taking beyond legitimate bounds.

Washington, Aug. 6.—The high price of shoes was declared due to excessive profits taken by every factor in the shoe production industry by the Federal Trade commission's report to Congress today.

The packers are charged with having begun the pyramiding of shoe prices by unwarranted increases in the price of hides, the supply of which they are said to control. In addition the tanners took exceptional profits while the manufacturers demanded an unusual margin and the retailer charged prices not justifiable, the report added.

DESDEMONIA FIELD REGISTERS ANOTHER GAIN

With the rate of increase recorded by runs in the Desdemonia field that has been established during the past two weeks, this field may be in second place in west Texas production column by the last of the month. It is only a few thousand barrels per day behind Stephens county now and with sufficient pipe line connections, it might be producing several thousand bbls per day more than present runs show.

MOORMAN WELL BRINGS SIPE SPRINGS FAME

And With Sipe Springs Added to the Oil Map Draws the Production Area Closer to Cisco: Cisco in the Center of Field.

Every producer that is brought in gradually contracts the area that separates Cisco from the proven field of oil producers. With the bringing in of Humble's, Moorman well, a field is opened which is in reality Cisco territory, as this is the nearest point to this field.

But the bringing in of this producer has brought Sipe Springs fame. A boom has started in the little town that is likely to make it quite a city ere long.

Soon after the producer was brought in there was a rush for town lots there, and those owning property in that place experienced quite a thrill in the selling of realty to the investors who clamored for lots. The Spencer Petroleum Company which has large holdings in and around Sipe Springs, did quite a business in selling town lots following the announcement that the Moorman was a producer. They sold \$20,000 worth in a few hours.

Moorman to be Big Producer.

While the new field is just over the line in Comanche county, yet the trend of the oil is towards Cisco, and to the South, where all have predicted that the shallow sand would be found. Those who claim to be informed say that the producing sand extends right up to the corporate limits of the city, and just as soon as the time is ripe, predict that Cisco's field will be one of the sensational producers in the great oil belt.

Already Cisco feels that oil will be found big here—that it has already been found. There are three wells that are confidently believed will be producers just as soon as the owners are ready to bring them in. The Brown, Ray and Shoor, are practi-

cally sure to prove good ones.

Concerning the Moorman well the Comanche Enterprise says:

Last Saturday, August 2, the Moorman well, which is being put down by the Humble company on the J. M. Moorman farm two miles north of Sipe Springs struck the oil sand and has been flowing by heads at intervals of every one to three hours since that time with every indication that when it is finally drilled in that it will be one of the biggest wells in Texas. It is just now on the sand at 2750 feet, and the flow is now estimated at 400 bbls. Much interest is being taken in the possible outcome of the well. Several Ft. Worth oil men are going to the field to be present when the well is drilled into the sand. Many of them confidently look for a good producer and the opening up of an entirely new field. The Moorman is in the same general territory as the Goss well and the Maxwell of the Texas Company, and lies about twenty-five miles west and a little south of Desdemonia and about the same distance southwest of the Ranger producing area.

Many oil men from every section of the state are already on the ground and prices for leases and royalties are reaching an enormous rate.

The Sipe Springs Townsite Company are selling lots at a rapid rate, many 30x150 foot lots selling at prices ranging from \$500 to \$1,500, which when the well does come in will bring much more than this. Altogether Sipe Springs and the Sipe Springs oil field are now enjoying a regular oil boom which is growing greater each day. With two proven fields in the north end of Comanche county it looks as though Comanche county will soon rival Eastland and Stephens in the production of oil, and the making of millionaires.

The Dunn No. 1 is drilling at 1100 feet.

Gas at Goss No. 1 last week blew out the gas cut off and did considerable damage. The four inch casing that led from the well to the slush pit was torn loose and blown over the top of the finger boards, and landed half way between the derrick and the boiler. A defective tee at the tap was the cause of this blow-up.

THE SPENCER PETROLEUM CO A BIG CONCERN

Capital Stock Five Million; Main Office Located in Cisco. Wichita Branch at Wichita Falls; Large Holdings.

One of the newest but one of the strongest oil companies that have been organized in the Cisco country is the Spencer Petroleum Company. This company made its debut in the industrial world on the 12th day of July, 1913, when it secured its charter, with a capitalization of \$5,000,000.

The officers of the Spencer Petroleum are men of the highest integrity, which is the best guarantee of stability to any organization. Messrs J. E. and W. E. Spencer were the prime movers in the organization of the company, who operated under the firm name of Spencer Bros. Mr. J. E. Spencer is president, Mr. W. E. Spencer is vice-president, C. F. Fath is secretary and treasurer, and L. H. McCrea is general counsel.

The location of the principal office of the Spencer Petroleum Company will be maintained at Cisco, but there will be a branch office at Wichita Falls. It was necessary to establish this branch office, as the company has large holdings in Wichita and adjoining counties, and this branch will facilitate the transaction of the enormous business the company expects to do.

Holdings in Over a Dozen Counties.

For some time past the firm of Spencer Bros., has been securing some of the best oil holdings in the state, and when the Spencer Petroleum was organized they turned into the new company in the neighborhood of 30,000 or 40,000 acres in over a dozen counties in the richest producing sections of Texas. These holdings lie in Eastland, Comanche, Wichita and many other counties where the liquid fluid is a reality and not a dream.

Never Sold Leases.

It was the object of the Spencer Bros., to organize one of the largest petroleum companies in the state while they were assembling the thousands of leases, and although they have had some tempting and attractive offers to part with their holdings, they have never sold a lease. They secured them for the purpose to which they are now devoted—the conducting of the largest petroleum company in this section. So with their vast holdings the Spencer Petroleum Company, starts out under the most favorable auspices. They have the goods to back up their claims.

Eight Producing Wells

But it is not the leases alone, valuable as they are, that is the attractive feature of the Spencer Petroleum. They are now delivering the goods. They have already eight producing wells. They are in the proven field of Wichita county. The company expects to have many more wells delivering the goods in a short while, as six other wells are now being drilled in the celebrated Desdemonia field, which will soon be at the pay sand, and big producers are expected from this operation.

Not a Speculative Company.

The Spencer Petroleum Company was not organized as a speculative, but an operative dividend company strictly. Those fortunate enough to hold stock in this company can expect handsome returns on their investment.

and pushed the three joints of casing five or six inches to the north, lifting them almost up out of the two foot ditch. Work was begun immediately to replace the damage done and in 48 hours things were in place and the well drilling with the gas again.

In the meantime Moorman No. 1 and Dunn No. 1 used coal.—Moorman Enterprise.

Recently Sheman Bros., who still retain their town site and farm holdings disposed of lots in Sipe Springs which offered a handsome return upon the investment, the lots disposed of not being necessary to the purpose of the company.

A large area of their land retained by Spencer Brothers is splendid agricultural land, and these will not be allowed to remain idle, but will produce a revenue for the owners. In Lubbock and Hale counties their holdings are splendid agricultural land, and this department is under the management of C. G. Schultz, who informed the Round-Up that he was preparing now to put in 1900 acres in wheat this fall.

Will Build Offices Here.

The Spencer Petroleum Company proposes to commence some time in the near future, the erection of a handsome office bld'g. in Cisco. This building will be one of the handsomest in the city, and will be a monument to Cisco. This will be the home of the Spencer Petroleum and here will the home offices be maintained.

The Company, as stated, will be a strictly producing company, and will adopt all measures and auxiliaries that will further their purpose, but it is not the intention of the management to stray out in foreign fields away from the producing branch of their business that might prejudice the interest of their stockholders, or divert them from the main objective.

Clearing Tract For A New Town

Jack Langford, one of Jake L. Hammond's men, and a gang of twenty men are busy clearing the site for the new town, exactly two miles south of Desdemonia, which will perpetuate the builder's name—not as flowery a town as the booming oil town two miles north of it, but a good solid handle, "Jakehamon". All one word like that.

The townsite of 400 acres, half of which is underbrush and timber and part of the rest in crops, includes the Wilson, Moorman and Gillot tracts. It will be cleared of the timber, brush and crops at once.

That section of the road from Ranger to Jakehamon, will be built first. The new town is just over the Erath county line on the Comanche side.

According to George McQuaid, director of publicity for the new road and townsite, dirt will start flying on the grading of the new railroad next Monday. Engineer Harrison promises that 250 teams will be ready for the work at that time and that this number will be increased as the work goes ahead.

Maney Bros., & Co. the contractors for the grading, will establish offices in the Realty building, Main and Austin streets. Cost of the 1st 110 miles from Dublin, through Ranger to Newcastle, is estimated at \$40,000 per mile.—Ranger Times.

Meridian College.

Meridian College will open its 10th session on September 29th, with the most encouraging prospects. The war is over and the country is blessed with the best crops we have had for years so there is no reason why we should not educate our children. An education is more necessary as civilization progresses because it requires a trained mind to cope with the responsibilities and the problems confronting us. Why not patronize the schools in our home territory? Meridian college is operating under the auspices of the Methodist church and offers a safe environment for any boy or girl.

BABY BONDS A GOOD BUY FOR TRUST FUNDS

State Treasurer Enthusiastic Supporter of Government Saving Campaign; Buys for the State Institutions.

Austin, Texas, August 3.—Among the very first purchasers of the new \$1,000 Registered Treasury Savings Certificates in the Eleventh Federal District was the State of Texas. State Treasurer, John W. Baker at Austin has been an enthusiastic supporter of the Government's saving campaign from its inception and evidenced his enthusiasm over the new Registered Treasury Savings Certificates by purchasing \$1,000 for the State funds.

Two Texas Treasury warrants were issued by Mr. Baker in payment for these United States Registered Treasury Savings Certificates. One of the certificates is drawn against the State Permanent Deaf and Dumb asylum fund. Each is for \$418 the amount is taken to secure \$500 worth of Registered Treasury Savings Certificates in July.

Although the state of Texas made this investment the last week in July, the \$336 represented by the two State Treasury Warrants will automatically be worth \$838 on August 1st and will increase in value the first of each succeeding month until the Registered Treasury Savings Certificate matures, January 1st, 1924. But in case the state needs the money invested at any time prior to that date, the Registered Treasury Savings Certificates may be turned into cash on ten days notice and the amount the state will receive will include accrued interest as well as principal.

Municipalities and county commissioners' courts, school districts and other bodies politic are following the example set by the state of Texas and investing in the new Registered Treasury Savings Certificates the limit of investment for any one fund being a \$1,000 certificate. Individuals, banks and various organizations are buying these new securities freely.

Invest in the new Registered Treasury Savings Certificates.

Mr. G. C. Davis went to Ft. Worth Sunday to meet his little son, Harold, who has been visiting relatives in Galveston for two months.

BEAUTIFY YOUR HOMES

Have decided to make Cisco my home for an indefinite period. Am still cutting weeds, and mowing lawns. There are many other things I can do that will add to the beauty of the town. Next spring I am going to be prepared to do some real yard work, ornamental, as well as practical. My rates for work are 50 cents per hour. No work considered that does not directly help the looks of Cisco.

Little Motor Kar Co.

CAPITALIZATION \$100,000—PAR VALUE \$1.00 FULLY PAID—NON-ASSESSABLE
ULTIMATE CAPITALIZATION \$1,000,000.00

Now Selling Ground Floor Securities at \$1.00 Per Share to Build Factories to Manufacture Little Automobiles, Little Motor Trucks, Little Trailers, Little Farm Tractors, That Will Sell for \$250.00 to \$350.00.

LITTLE RUNABOUT MODEL, THE CAR WITH A GREAT FUTURE

NOW IS THE TIME TO BUY STOCK IN THIS AUTOMOBILE FACTORY

Tremendous Profits to be Made—Will You Join Us?

CONCRETE WORK UNDER WAY ON FIVE BUILDINGS

Already we are rushing the work on our large factory. A large crew of concrete workers are putting down the foundations for five buildings 50x100 each, which will be built out of concrete and steel throughout, being entirely fireproof. The buildings will all have Truscon Steel Windows, which is the most modern construction in industrial plants. This plant will be one of the most complete automobile factories in the entire southwest and will have a capacity of over 100,000 cars a year. We expect to build other factories before the year is ended.

Every stockholder will share in this and every other factory we build.

Contracts have been let for more engines. We have started the manufacturing of certain parts. We have bought in quantities other parts we need. Our first car will be turned out this week from our temporary factory, so we have started, and very much so. Get your share in now early in the game while the stock can be had at \$1.00 a share par value—a few weeks more you will pay more.

Mr. Livezey, Our President, Is Now Buying Our Machinery.

Wm. S. Livezey, President Little Motor Kar Company, is now in the East visiting the automobile centers where he is making contracts for certain parts that will be used in the construction of Little Motor Kars, Trucks and Tractors. He has placed several contracts for machinery to be rushed through in order that it may be ready by the time the buildings now under construction are finished.

Company expects to pay quick returns from the expected quick production of its products.

\$10.00 TO \$1,000.00 SOLICITED

The Few Dollars You Invest Now May Make You Many Thousands Quickly.

BUY THIS STOCK TODAY.

Write for Our New Booklet, "Amazing Profits in the Motor Industry."

CISCO HEADQUARTERS: OIL EXCHANGE

OPPORTUNITY CALLS TO YOU—THE OFFER OF RETURNING TO YOU \$10,000 FOR EVERY \$10 INVESTED

Basing those figures on the fact that one large automobile manufacturer returned \$252,000 for every \$100 invested—in 12 short years—today we feel we have a greater field—as demand of product has already been created and our Tractor offers BIG OPPORTUNITIES NOT AVAILABLE AT THAT TIME.

We will soon be turning out Little Motor Kars from a temporary factory. Complete building operations on our main factory is under way and should be completed in about 90 days.

STOCK WILL BE ADVANCED IN PRICE VERY SHORTLY

LITTLE MOTOR KAR COMPANY, Oil Exchange.

Please find inclosed check, draft or money order for \$..... for which please send me shares Ground Floor Securities at \$1 per share, non-assessable, and it is understood I am to share in the profits of the company's many branches or factories.

WILL MEET TO COMBAT POWER OF UTILITIES

League of Texas Municipalities Called to Meet in Austin Next Tuesday Mayors and Interested Citizens are Urged to Attend.

Dallas, Texas, Aug. 14.—The first organized effort to combat the steadily growing power of utilities over municipal affairs is centered in the activities of the Texas League Municipalities which will meet in Austin on August 19th and take formal steps for the protection of municipal interests. The executive committee of the League has issued a call urging the mayors and interested citizens from every city, town and village in Texas to be present.

The call cites the fact that municipalities have suffered all over the country by the domination of public utilities and their control over civic affairs. It also calls attention to the fact that the so called public service corporations are thoroughly organized that they have the best legal talent that can be attracted to their interests, and are fully prepared at any time to combat any effort to weaken their growing strength on city affairs.

Further attention is directed to the clever manner in which the utilities have heretofore succeeded in breaking down material opposition by pitching the small towns and the small cities against the large cities and vice versa—"playing both ends against the middle", while the public was the middle.

It is noted that every state in the United States with the exception of Texas, Iowa and Delaware has a Public Utility Commission. In order that all sections of the state and all cities and towns may understand fully the extent of the efforts of the League of Texas Municipalities, all mayors are urged to attend. Each city represented by its mayor or proxy will have one vote, regardless of the size. The call compliment the farsightedness of the legislature in defeating past measures favorable to utilities.

Another Cisco Hero Returns From France

Frank Vernon has returned from France after an absence of fifteen months. Frank enlisted in the army May 26th, at Ft. Sam Houston in the Motor Transportation Corps and spent 11 months over seas, he was stationed at Dijon with Unit 309. The last inspection was given cars at this park before leaving for the front and this branch of service has been among the last to return to the United States. This unit composed of 1,000 men sailed from Brest, July 14th on the dreadnought South Carolina and landed twelve days later at Newport News and were sent to Camp Pike for discharge. Mr. Vernon has noted many changes in the old home town since he went away.

"Exide"
Starting and Lighting Batteries Eliminate Doubt

Rubber Corporation Offers to YOU

An Unparalleled Investment Opportunity

The **JACOBS TIRE & RUBBER CORPORATION** offers automobile owners an opportunity to share in the profits of this wonderful industry, and at the same time make substantial savings on their own tire and tubes.

Read every word of this advertisement, as it means dollars in your pocket.

A dollar saved is a dollar made.

This tells how you can buy your tires and tubes at "factory prices."

A unique and effective advertising campaign:

The cooperative direct-to-customer plan that The Jacobs Tire & Rubber Corporation has adopted really saves its shareholders thousands of dollars every year on their tires and tubes.

This Corporation expects to have, when the Advertising Campaign has finished, 25,000 stockholders who are automobile owners using on an average of five tires per year for each car that they own. This will mean a guaranteed output for 125,000 automobile tires, and about 135,000 inner tubes.

The Corporation now is working on a plan that has been used with great success by a number of large corporations such as the United Drug Co., operating a chain of about 8,000 Rexall Drug Stores, the Jewel Tea Stores, the Great Atlantic & Pacific Grocery System, the United Cigar Stores Co., Kresge, Knox and Woolworth Five and Ten Cent Stores, and many other Chain Store propositions which have made tremendous success and have built up from comparatively small companies to gigantic organizations.

This is the guarantee on our tires: "Guaranteed to give as many miles as you think they should. The customer is the sole judge."

FORD SIZES 7,500 MILES; ALL OTHER SIZES 6,000 MILES

Look at these prices. They should show you how you can make a saving on all of your tires and tubes

We Pay all Express Charges to Stockholders.

"I invested my first \$100.00 in a new idea and made \$100,000 out of it."

MARSHAL FIELD

"Don't delay; get it while you can."

JOHN D. ROCKEFELLER

"Fear is old-womanish and has kept untold millions from making fortunes."

ANDREW CARNEGIE

"Five thousand Americans are worth a million each because they invested their savings in new things."

WESTINGHOUSE

"It is keen brained men who invest at the start of an enterprise who makes all the money."

E. H. HARRIMAN

"If you ever make money you must make it on your own judgment and foresight. When you see a good opportunity to invest do it quickly. The fellow who waits either loses the chance altogether or pays a premium to the one who thinks and acts quickly."

RUSSELL SAGE

What an investment of \$30.00 in one share of this stock means to you, Mr. Automobile Owner

If you use only five tires and five tubes a year for each car, you will save at an average of from \$60.00 to \$120.00. This means, on your investment of \$30.00, you automatically declare to yourself a dividend of from 200 per cent to 400 per cent. Your \$30.00 in the savings bank all year long at 4 per cent will earn you the large sum of \$1.20. Which is the better investment? You are the judge.

The stockholders of The Jacobs Tire & Rubber Corporation buys his tires direct from his own Company, and saves thereby, the profits, advertising and selling costs of the Distributor, Jobber and Dealer which amount to from \$5.00 to \$25.00 on every tire, depending upon the size.

Below is a coupon. It means dollars in your pocket. Cut it out right now and send in your subscription. The Corporation prefers that you subscribe for only one share as they desire to have as many stock holders who are automobile owners owning one share as the Advertising Allotment will supply. They do not, however, limit the purchaser to one share if he desires to subscribe for more.

A DIRECT PROFIT TO ALL CAR OWNERS

During the several years you have owned a car have you not often wished that someone would find a way to cut down the cost of tires to the user?

You Can Share in These Enormous Profits

An income producing interest in a business as profitable as the rubber industry is something well worth obtaining. It has already been shown that enormous profits are to be made in this growing industry. Just bear in mind also that as the years go by our output will increase, our sales and the resulting profits will increase year by year, meaning substantial advances in the value of your shares and an increase in your income from earned dividends that will be most satisfactory.

Word of Mouth Advertising

It is acknowledged that word-of-mouth advertising is the most effective and least expensive. Our thousands of members and shareholders will be walking advertisers of our Tires and Tubes. Each individual shareholder, in fact, will be a salesman for our products, especially with those who are owners of cars and who are using our tires and tubes exclusively because of their direct financial interest in the company. An immediate saving is made by the stockholders of 25 per cent on tires and tubes.

NEW WELLS IN RANGER FIELD FOR PAST WEEK

Gulf Production's No. 2 Barnes is making 3,000 barrels at 3,000 feet, and one of the biggest wells at that depth in first sand.

Dorsey et al's. No. 8 Harrison north-west of Ranger is an 1,800 bbl. well at 3,465 feet.

Gulf Production Company's No. 2 Barnes is making 3,000 bbls. per day at 3,255 feet. This well is produc-

ing from the first sand and is one of the biggest wells so far completed at this depth.

Sheppard Drilling Companies No. 1 Olden is in the gray lime at 3,495 feet and is making about 30 bbls. per day.

Barker et al's. No. 1 Sue is making 10 bbls at the top of the pay at 3,492 feet, and is moving back the boiler to drill in.

Gladstone Oil Companies No. 1 Wright is making 500 bbls. per day this week at 3,265 feet.

Guggenheim's No. 1 Barker is making 25 million feet of gas at 3,360 feet.

Hennan and Companies No. 1 Barker is making 26 million feet of gas at 3,551 feet.

Wagner's et al's. No. 2 McCleskey

is a 200 bbl. well at 3,450 feet.

Producers Development Company's No. 1 Cotton is making 700 bbls. per day this week at 3,440 feet.

Texas and Pacific Coal and Oil Co's No. 7 Hand is making 200 bbls. at 3,286 feet. No. 6 Buttler is making 950 bbls at 3,434 feet. No. 1 T. & P. Railway has been shot with twenty quarts at 3,352-64 feet.

Prairie Oil and Gas Companies No. 4 Myers was shot with 80 quarts at 3,295-3,315 feet.

Humble Oil and Refining Company's No. 2 Sue is preparing for a shot 3,552 feet. No. 3 Patton is dry at 3,595 feet.

Dunlap's No. 1 BpaGd.9 1stg Dunlap et al's. No. 3 Rock is dry at 3,622 feet. No. 5 Rock is ditto at 3,504 feet.

Magnolia Petroleum Companies No. 1 Harris is making 1,400 bbls. this week at 3,402 feet.

Westheimer's Oil Companies No. 3 Griffin is preparing for a shot at 3,270 feet and was drilled to 3,585 feet. Nos. 1 and 3 will also be shot.

Sinclair and Gulf Companies No. 1 Davis is making 450 bbls at 3,530 feet.

John Markham et al's. Nos. 8 and 10 are both preparing for a shot.

Imperial Oil and Development Co's. No. 1 Parish is preparing for a shot at 3,300 feet.

Ranger-Stephens Oil Companies No. 1 Sue is making a flow estimated at 200 bbls. at 3,435 feet.

Monitor Oil Companies No. 4 Parton is making 400 barrels at 2,285 feet.

Albert Oil Companies No. 2 Turner is a 3,500 bbl. well at 3,528 feet. A. P. Rogers et al's. No. 1 State-land is dry at 3,500 feet.

Common Law Marriage Decision Sustained

Sherman, Tex., Aug. 11—Plaintiff's motion for judgement in the suit of Mrs. Mary Green Bobbitt vs. I. I. Bobbitt which was filed at the conclusion of the trial for divorce and partition of property three weeks ago, was heard by Judge Elias Hare in the Fifteenth District Court this morning and granted.

The judgment is for one-half of the community property which was shown by the plaintiff during the trial amounting to at least \$459,015.

The motion of the defendant for overruling the findings of the jury and for a new trial, which was also filed at the conclusion of the trial, was overruled by Judge Hare. Notice of appeal was given.

The Bobbitt trial came to an end in the Fifteenth District Court here a few weeks ago after a duration of three weeks, one of the longest divorce cases on record in Grayson Co. The case attracted great interest during the trial.

Mrs. Mary Green Bobbitt is now living in Denison with her son.

COMPLETIONS IN DESDEMONIA SHOWING GOOD

"Hogdemonia" Production is Mainly From Wells Close In, as Outside Tests are Being Held Down Pending Completion Transportation.

The new production in this field know generally as the Desdemonia field (in polite circles and official parlance) but more often referred to as Hog Town or Hogdemonia, has been for the past week mainly from close in wells. The out side tests are being held down pending the completion of transportation facilities and storage where this is possible.

Magnolia Petroleum Company's No. 3 Duke is a 400 bbl. well at 2735 feet.

Plains Oil and Gas Company's No. 3 Herrington is a 2500 bbl. well at 2725-31 feet.

Warren Wagner's No. 2 Terry is a 900 bbl. at 2685 feet.

Beaver Valley Oil Co's No. 2 Terry is a 900 bbl. well at 2685 feet.

Texas Drilling Company's No. 1 Beardon is a 3,000 bbl. well at 2697 feet.

Planet Petroleum Companies No. 1 School Lot is making a 250 bbl. at 2752 feet.

Black Lime Oil Company's No. 3 Hodge is abandoned at 3,000 feet.

Dividend Oil Company's No. 1 Terry is making 20 million feet of gas at 2715 feet.

Texas Penn. Oil Co's No. 1 Lewis was shot at 2655-65 feet and is drilling at 3175 feet.

Gulf Production Company's No. 2 Prater is shut down for storage at 2720 feet; No. 4 is making 10 bbls. at 2758 feet.

J. Hamond's No. 1 Bowles is a 20 million foot gasser at 2655 feet.

Humble Oil and Refining Co's No. 3 Gray was shot with 140 quarts at 2630-50 feet and is rigging to pump.

Lone Star Gas Company's No. 1 Rushing has a showing of oil and gas at 3144-73 feet.

Magnolia Petroleum Co's No. 2 Odle is making about 10 bbls. at 2712-40 feet.

Mary Elizabeth Oil Co's No. 1 Anderson has a showing at 2844 feet and is shut down, across the line in Erath county.

Comanche Home Oil Co's No. 1 Brown is making 600 bbls. this week. This well was drilled to 3007 feet plugged to 2985, and shot with 140 quarts. The shot went off by accident and parted the casing. It was shot again at 2922-72 feet with 200 quarts.

Humble Oil and Refining Co's No. 1 D. C. Davis just east of the Echols lease of the Magnolia Petroleum Co. is a 2,000 bbl. well at 2690 feet.

Atlantic Oil Producing Co's No. 1 Kennison is making gas at 2610 feet.

Tex.-Penn. Oil Co's. No. 1 Gregory has a showing at 2680 feet.

Henderson et al's. No. 1 Terry is making 30 million feet of gas at 2710 feet.

Magnolia Petroleum Co's. No. 1 Beardon is making 75 bbls. at 2700 feet.

Ranger Production Slumps This Past Week

The average daily production for the Ranger field for this past week is about 5,000 barrels lower than the production for last week. This decline is due to the lack of new production in the field. It is estimated that it will take 6,000 to 8,000 barrels per day of new production every week to keep the Ranger daily total on the increase. When this new production does not appear, the totals for the week drop off appreciably. The distribution of production in this field is about as follows:

	Barrels.
Texas Company	4,125
Prairie Oil and Gas Company	3,150
Magnolia Petroleum Co.	4,867
Gulf Production Co.	4,350
T. & P. Coal and Oil Co.	10,725
Sinclair Gulf	325
Humble Oil and Refining Co.	730
Mid-Kansas Oil and Gas Co.	200
Miscellaneous	24,800
Total	61,397

Music is Essential

Without music, modern life would be impossible. Thomas A. Edison realized this when he invented his Three Million Dollar Phonograph—

The NEW EDISON

He also realized the imperfection of the ordinary phonograph and the talking machine. He knew that a phonograph that could not be distinguished from the human voice could be designed—and he designed it.

Music critics cannot differentiate between the human voice and the world's most wonderful sound-reproducing instrument, The New Edison.

A MUCH NEEDED INDUSTRY!

The Cisco Oil Fields are expanding to vast proportions and new fields are coming in to justify the anticipations of the most optimistic investor. It would be the height of folly to transport this oil to other points for refining when it can be refined at home at the same cost and on the same basis of profit. **The Union National Oil & Refining Company** plant immediately west of the City of Cisco, will be the largest refining plant in the Cisco Oil Fields. With a site large enough to accommodate a large plant and being conveniently located to an adequate water supply and railway facilities, this plant can not help but be one of the most profitable and soundest investments anywhere.

If you have not bought some stock in this Company already, do not put it off any longer, as construction will begin soon and you want to have a part in an industry that will pay you a good substantial dividend.

NEWSPAPER PUBLISHERS SELECT TEXAS JURYMEN

Houston, Tex.—The August grand jury will be made up of men picked by the publishers of the three daily newspapers of Houston. Judge C. W. Robinson of the criminal court appointed M. E. Foster, publisher of the Chronicle; Roy Watson, publisher of the Post, and G. V. Sanders, editor of the Press, as the Jury Commissioners to select the next grand jury for the county.

The three commissioners were out about an hour, when they brought in a sealed list of about sixteen names from which the grand jury will be selected.

THE SAGE OF SHADOW BROOK DIED MONDAY

After an illness of Less Than Three Days of Pneumonia, Andrew Carnegie, Steel Magnate and Philanthropist Passes Away.

Lennox, Mass., Aug. 11—Andrew Carnegie, steel magnate and philanthropist, died at his Lennox home, "Shadow Brook", at 7:10 this morning, after an illness of less than three days of bronchial pneumonia. So sudden was his death that his daughter, Mrs. Roswell Miller, was unable to get to her father's bed side before he died. His wife and private secretary were with him at the end.

Mr. Carnegie had spent most of the summer at Lennox, coming here and enjoying himself in fishing trips on Lake Mahkeenc, which borders his big "Shadow Brook" estate and in riding about his grounds.

He was taken ill Friday and grew steadily worse. His advanced age and lessened powers of resistance hastened the end.

Mr. Carnegie came to Lennox to make his home in 1917, and has spent the last three summers here. He intended to spend his declining years at his country home here, and when he bought it an announcement was made that Mr. Carnegie would spend all of his spring and summer months here. He came up from New York late in May of this year.

Mr. Carnegie leaves his widow who was Miss Louise Whitefield of New York, and his daughter, Margaret, who married last April to Ensign Roswell Miller of New York.

MORAN TO VOTE ON INCORPORATION

Notice of an election to be held in Moran on August 16, has been posted to determine whether or not Moran is to become a city.

Mr. and Mrs. J. W. Hartman, have returned from a three months visit in Denver, Colorado Springs and other point of interest in Colorado.

Rules Promulgated For Oil Production

Austin, Texas, July 28.—Rules and regulations for the observance of the oil and gas producers for the prevention of waste in the oil fields, as authorized under the oil and gas conservation act of the regular session of the thirty-sixth legislature, have been promulgated by the railroad commission as the result of a hearing held recently on the subject. These rules and regulations are now effective. The rules are in many respects virtually the same as the tentative regulations issued by the commission on June 18, when the conservation act became operative.

Under the new rules "waste" is defined as permitting the escape of natural gas in the open air from a stratum recognized as a natural gas stratum. A new feature in the rules is that all gas when sold shall be measured by meter. The old rules provide that an oil or gas well operator could not take at any time more than 25 per cent of the potential capacity of the well, while the new increases the amount to 50 per cent.

The new rules requires that notice of the "shooting" of a well shall be given within two days, while under the old five days were given. Other provisions of the new regulations provide that abandoned holes must be closed or plugged in a manner approved by the commission; no well will be permitted to produce both oil and gas from a different strata, and when gas and oil are found in the same hole there shall be a separating device at the surface to prevent waste of gas. Every company pro-

ducing oil and gas must keep books, showing production, amount received amount of stock sold, etc., and report monthly to the commission. The pressure of all gas wells is to be taken each month and report made; notification of all fires and breaks in pipe lines shall be made as soon as possible, and there is also to be a report of all losses of oil in storage through lightning and other causes.

C. G. SCHULTS WAS HERE FROM LUBBOCK

Mr. C. G. Schults of Lubbock was in Cisco last week. Mr. Schults is interested in the Spencer Petroleum Co. and is the superintendent of the company's farming and ranch interests.

The Spencer Petroleum owns 31 sections of land, principally in the Lubbock and Hale section, on which extensive farming and stock raising is carried on. Mr. Schults stated that he was now breaking the land preparatory to putting in 1000 acres of wheat this fall. The wheat crop in the Panhandle this year, Mr. Schults said, was the best ever raised, and is proving a most profitable crop. He was the guest of Mr. W. E. Spencer.

W. F. Baston Resigns.

W. F. Baston, who for the past two or three years has been chief manager for the production department for the Texas Company in the Moran field, has resigned his position and will go into business for himself. He will be succeeded by Mr. Sparks, who, we understand has been connected with the Texas Co. at Breckenridge.—Moran News.

Oil Activity In South Eastland

Work was begun on the rig for the Central Oil and Gas Company last Tuesday morning. It is hoped that they will be able to start drilling by the first of next month.

Associated Company spudded in last Tuesday. They were to start a few days before, but owing to breaks in their well will not be completed as soon as they thought.

The Compton well is reported on the sand. They are looking for this well to come in every day.

Webb seven shut down looking for under reamer.

Work is progressing nicely on the Black Diamond rig. They expect to be drilling within the next two weeks.—Moran News.

Execute Fifteen Mexican Leaders

El Paso, Aug. 11.—Fifteen of the leaders of conspiracy to cause a mutiny in the Chihuahua City Federal Garrison last week and to deliver the city over to General Francisco Villa, were executed following the discovery of the plot, according to an American who arrived here today from Mexico. He said the identity of the men were unknown when he left.

Mr. and Mrs. H. P. Paris, of Clinton, Missouri, and Mrs. A. J. Powers, of Ft. Worth, are guests in the home of H. L. Winchell.

- John F. Maddox vs. James A. Baker, to try title.
- John F. Maddox vs. James A. Baker et al, try title for damages.

AN INOVATION

Recently a farmer died, leaving a widow and children, possessed of several tracts of land, some of which is valuable for oil.

The widow endeavored to secure bond as Community Administratrix, so as to lease the land. Owing to the large prospective value, she was unable to secure proper and sufficient bond, so that she and her children were "up against" a hard proposition. Fortunately she consulted an up-to-date lawyer, who being a "live-wire," and knowing that the Guaranty State Bank and Trust Company of Cisco, is not only a bank under the State Guaranty system, but is also a Trust Company, with a charter providing for the handling of all manner of trusts, he at once suggested that it act as guardian for the children and thus, in connection with the widow, lease the land. The matter was put up to the county judge, who at once recognized the wisdom of such a course, appointing the Guaranty State Bank and Trust Company as such guardian. Upon filing proper bond by it, the transaction was complete and the children will now get the benefit of the splendid opportunity of realizing on what, otherwise is now non-productive real-estate. The widow is also able to obtain ready funds of which she was also in much need. Not only are the children's interests protected by the usual and customary guardian bond, in this instance an especially strong one, but still further and stronger protection is furnished by reason of the fact that the bank is a strong one, and is also under the State guaranty plan, under which admirable system, no depositor ever lost a dollar in the state.

Another very strong feature is that Judge D. K. Scott, whose name is a household synonym for both intelligence and integrity, as president of the Bank, the estate is thus assured of the very best legal advice, so that the children's interests are assured of not only safety financially, but also assured that every advantage will be taken to follow the law and obtain the very best possible results.

The city of Cisco, as well as the County of Eastland is to be congratulated on having such an institution in our midst, as the Guaranty State Bank and Trust Company, both for its banking facilities and also for its larger and broader Trust Company features.

All having estates or trusts of any character, will do well to consult with the officials of this institution.

ABILENE STREET CAR LINE WILL BE SOLD BY RECEIVER

Abilene, Texas, August 12.—Acting on a judgement given in the district court here to satisfy a foreclosure of \$38,670.20, W. G. Swenson, receiver will sell the property and the

franchise of the Abilene Street Railway Company at public auction on Sept. 9.

The cars have not been operated for some months, having been succeeded by a motor bus system. The company has approximately five miles of track.

Mr. and Mrs. Ross Freeman of Winona, are visiting their parents, Mr. and Mrs. T. D. Freeman. Ross was reared and educated in Cisco, and his visit here is proving a pleasant one in meeting his boyhood friends. He is now in the mercantile business in Winona.

PRINCE ALBERT

the national joy smoke

PLAY the smokegame with a jimmy pipe if you're hankering for a hand-out for what ails your smokeappetite!

ENDEAVORS ENJOY MOONLIGHT PICNIC

The Christian Endeavor Society of the Christian Church enjoyed a most delightful evening on a moonlight picnic last Thursday night.

The picnickers gathered at the church and loaded into cars, then drove three miles southwest out to Bacon's ranch. An old fashioned basket lunch was laid out in the yard under the soft rays of the moon, which contained plenty of fried chicken and all the necessary accompaniments. After supper the crowd walked up the hill to the big rocks, and amused themselves in various ways for an hour or so. Just before the time to take their departure from the pleasant scenes which had held them for the evening, the party was treated to a watermelon feast, provided by the young men in the party, which was enjoyed as only young folks can enjoy such things.

Those composing this merry party of picnickers, who were chaperoned by Mr. and Mrs. Jack Winston were: Mrs. Floyd Moore, Misses Gladys Finley, Opal Dossert, Tom Ford, Vesta Mae Mahan, Vada White, Kate Bacon, Theresa Weddington, Lola Tune, Ada Louise Noel, Marie and Judie Copeland.

Messrs. J. E. Hartley, Edward Moore, Sylvester Dossert, Billie Bacon, Boswell and Bryan one of the con. Boswell and Bryan.

Farmer Mail Carrier. One of Uncle Sam's employes is managing to beat the high cost of living. He is raising his. R. S. As a sample of his product the Round-Up enjoyed a nice batch of very fine tomatoes produced by this farmer-mail carrier, which were splendid in flavor, fine and uniform in size.

COLLEGE OF INDUSTRIAL ARTS

STATE COLLEGE FOR WOMEN

Denton, Texas

Next Session Opens Tuesday, Sept. 16th

Denton, Texas, August 10.—The College of Industrial Arts at Denton, Tex., is the largest educational institution of first rank in Texas except one, which is co-educational, the largest college for women in the Southwest and the third largest college for women in the United States. Its phenomenal growth and remarkable record are due to the fact that its courses of study represent in content and method the very best in the education of the young womanhood of this country. Their mastery of the courses of study gives intellectual discipline, culture and development of character, and social and economic efficiency. There is no proper phase of the education of a young woman which is not adequately provided for at the College of Industrial Arts. With a faculty of more than ninety (90) members, with twenty (20) buildings located on a beautiful campus of seventy-five (75) acres, and with every modern convenience and comfort this College is unquestionably better prepared to educate the young women of Texas than any other educational institution of the United States. Why should the young women of Texas attend colleges and universities in the North and the East, when the College of Industrial Arts offers a better and more wholesome environment, a more thorough, comprehensive, and adaptable training, larger opportunities for growth and achievement, all for less money, near home? Parents, guardians, and girls interested in what the College of Industrial Arts offers in the way of education and training to the girls of this country and who desire a catalogue, should write President F. M. Bralley, College of Industrial Arts, Denton, Texas.

"Meats in Storage"

Every working day of the year 75,000,000 pounds of meat are required to supply home and export needs—and only 10 per cent of this is exported.

These facts must be kept in mind when considering the U. S. Bureau of Markets report that on June 1, 1919, there were 1,348,000,000 pounds of meats in cold storage. If the meat in storage was placed on the market it would only be 20 days' supply.

This meat is not artificially withheld from trade channels to maintain or advance prices.

Meats in storage consist of—

- 65 per cent (approximate) hams, bacon, etc., in process of curing. It takes 30 to 90 days in pickle or salt to complete the process.
- 10 per cent is frozen pork that is to be cured later in the year.
- 6 per cent is lard. This is only four-fifths of a pound per capita, and much of it will have to go to supply European needs.
- 19 per cent is frozen beef and lamb, part of which is owned by the Government and was intended chiefly for over-seas shipment. If this were all diverted to domestic trade channels, it would be only 1 1/2 lbs. per capita—a 3 days' supply.

From this it will be seen that "meats in storage" represent merely unfinished goods in process of curing and the working supply necessary to assure the consumer a steady flow of finished product.

BENTLEY WILL BE IN EASTLAND THURSDAY

Mr. J. E. Luse of this city, is in receipt of the following letter from Hon. H. L. Bentley, notifying him, and through him, the farmers of Cisco county, of his visit to Eastland next Thursday.

Mr. Bentley comes to Eastland under the auspices of the State Agricultural Department, and comes for the purpose of meeting with the officers of the county Farmers Institute. Those who can should avail themselves of the opportunity of being in Eastland next Thursday, as nothing is more beneficial than these agricultural institutions to those engaged in farming.

"I was in Austin as a delegate from the Taylor County Farmers' Institute to our State Farmers' Institute, that on August 6th, 7th and 8th was in session there, and I am glad to be able to tell you, that the meeting was one of the best in every way that has ever been held in the state. If the farm people of our state will not only get together but stay together, and act in cordial cooperation with our State Department of Agriculture, I know in advance that it will result in very much good, pecuniarily and otherwise to them. "As one of the representatives of the said State Department of Agriculture, and under the directions of its officials, I will be in Eastland, Thursday August 21, 1919, to meet you and other officers and members of not only the County Farmers' Institute but of the local institutes of the several school districts of your county, and deliver to you a very important, and I am sure it will prove, an interesting and valuable message from our said State Department of Agriculture.

"I ask of you very earnestly to get in touch by phone, or personally, with as many of your said Institute officers, and other members of your county, as you can and urge them to meet me with their own farmer friends and neighbors, and let me deliver to them all the said message. Permit me also to suggest to, and request of you, that you will ask the editors of your local and other newspapers of your county, to announce our proposed meeting.

"Very sincerely,
"H. L. Bentley."

DIXIE DECLARES 50 PER CENT DIVIDEND

The stockholders of the Dixie Oil Company are this week receiving a nice return on the money invested in that company. The officers of this company are mailing to each of these the company's check, with the beautifully printed line running across its face "Dividend Check". And this is no insignificant sum, the stockholders are receiving. This dividend they are receiving represents just half of the investment they made, as the dividend declared at the recent annual meeting was for 50 per cent. This is not bad for an infant industry, and will cause a smile of gladness to come to holders of this stock when this mail is received enclosing this nice little bunch of grapes.

The Winston Grocerteria carries everything you want to eat, and sells for less. 14-1f

Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, "the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. _____ had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

TAKE

CARDUI

The Woman's Tonic

She writes further: "I am in splendid health . . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

MERIDIAN COLLEGE

Meridian, Texas

IF YOU ARE GOING TO SCHOOL THIS FALL CONSIDER THE FOLLOWING ADVANTAGES OFFERED AT MERIDIAN COLLEGE

1. Meridian College is an A-Plus Junior college. Graduates enter the Junior class at the State University.
2. Fine Arts Department very strong. Glee and Choral Club work given without tuition charge.
3. Commercial Department does standard work in bookkeeping, typewriting, shorthand and banking. Office work made a specialty. Graduates of this department assured positions.
4. A four year State Teachers' Certificate granted to students completing fifteen hours college work, three of which must be in the Department of Education.
5. Athletics both for young ladies and young men headed by the best physical trainers in the state.
6. Young ladies will live in Higgins Hall, a beautifully furnished building. Each room has single beds. This building will be in charge of an experienced matron and Mr. and Mrs. Boutwell.
7. Every faculty member will live on the campus or in one of the dormitories. This personal touch with the teachers means much to the students.
8. Young men will live in the Bosque Hall which is well equipped, hot and cold water showers, sewerage connections and electric lights. This building will be in charge of two professors and their wives. The first year away from home is a critical year in the life of a boy or girl. Meridian college looks after the students.
9. Most of our patronage comes from the non-affiliated schools. Our faculty makes special efforts to fit the students for college as soon as possible.
10. The place is healthful, has pure artesian water, is a cleaner town and our rates are low.

For further information write for catalogue. School opens September 20th.

City Civic League Organized Thursday

Last Thursday a number of the ladies met at the city hall and perfected the organization of the Cisco Civic League. Mrs. A. A. Webster was unanimously chosen president of the new civic body, and steps were taken to affiliate with the state federation.

Twenty-five members enrolled at the first meeting, and it is expected to make this one of the largest civic societies in Cisco.

Returns From Vacation.

Rev. and Mrs. E. Buford Isaacs, who have been spending their vacation in El Paso with their parents, returned to Cisco last Monday night. Mr. Isaacs stated that he paid a visit to Juarez while in the border city, and feels considerable recuperated for his duties as principal of the high school which he will soon take up. For the present Mr. Isaacs will continue to preach at the Christian church.

The Tire that's good for us is good for you

Our business is to make friends and keep them, and that is what Miller Tires are doing for us.

These long-distance Millers are built by uniform workmanship—that's why they render Uniform Mileage under like conditions. Uniform Miller Tires mean no "second bests."

Notice the many cars we are supplying with these tires—you will know them by the famous tread that is *Geared-to-the-Road*. By meshing the road, this tread gives positive traction, full power ahead and safety.

With Miller Tires goes our ever-ready service. Call up or drive up; you will always find us on the job, willing to oblige.

RANGER EDITOR SEES PROGRESS IN METROPOLIS CITY
(Continued from Page 1.)

stock holders and they are at present operating the Cisco Round-Up, one of the oldest and best known weekly newspapers in the state.

Build Another School
Contract will be let shortly for another ward school to meet the scholastic requirements of the growing city. A photograph of the new structure was shown at the Round-Up office Monday and from an architectural standpoint it is sure to be one of the most attractive in the oil belt.

Will Be An Oil Center
While Cisco is not in the producing oil well section at present, its citizens have never lost hope that it will be one of the oil centers. A large number of oil companies and subsidiaries have established offices and shops in Cisco and seem to be doing a flourishing business. A five story office building is rapidly nearing completion on the main street. It is one of the most attractive structures in the city. A large number of other brick buildings have been put up since the discovery well at Ranger. Cisco was one of the cities of West Texas which was fortunate to have been long established and able to take care of the great rush of people who could not be accommodated at Ranger because of the lack of houses and the government restriction against the construction of anything but essential buildings.

Some Oil Wells.
A number of wells are being drilled around Cisco. One of these north-west of the city is said to have a showing of oil and promises to become a good producer. The Schoor west of the city is a puzzle to the citizens. It is said to be a splendid gasser and to have some oil. When the gas exhausts itself, it is expected to be a producer. Another well which is at present attracting attention of Cisco and Eastland county people is the Barnsdell's Brown No. 1, about ten miles southwest of Cisco. It is authoritatively reported to be standing 1,900 feet in a superior grade of oil. This well was shot at one time, but whether or not the response was satisfactory to the operators could not be determined, though at the time it was impossible for visitors to gain entrance within a hundred yards of the well. The company at present is said to be cleaning out and making preparations for another shot at a higher

level, where oil is said to be flowing into the bore and augmenting that produced at a lower level. Persons living about the Brown well, and others who have visited it, are of the opinion that the two veins should furnish enough oil to make this well a good one.

Building Derrick.
The Barnsdell people are said to be preparing to put up another derrick in a few yards of the Brown, on the same property. The Scranton, country, in which it is located, is said to have been cursorily searched over for the golden liquid, and, in shallow wells drilled years ago, oil was found in such quantities as to make the water sought for drinking purposes unusable.

Banking on Railroad
Cisco people are expecting great things from the proposed new railroad to be built from Cisco to Breckenridge and south to Brownwood. It is understood that some preliminary work has already been done on the line and material and supplies are being brought in in preparation for pushing the work forward.

The new road would give Cisco three lines—the Texas & Pacific, the Missouri, Kansas and Texas, and the new line. The two companies already operating into Cisco have large traffic. At present the Missouri, Kansas and Texas is hauling considerable wheat from the Rotan and Stamford country through to Waco and to the ports of Texas and Louisiana. Additional crews have been put on in order to handle this immense traffic. The Moran oil fields are only a short distance northwest of Cisco. Much of the gas supply for Cisco, Putnam, Baird, Abilene and other towns in that section is produced from the Moran wells.

New Methodist Church
Contract has been let for a \$75,000 Methodist church and excavation is progressing for the super-structure. The building will be one of the finest in the Central Texas Conference. Rev. L. Stuckey, formerly pastor of the St. Paul's Methodist church at Abilene, is the present pastor, relieving Rev. Humphrey Lee, who is transferred to a professorship in the

State University.
The headquarters for the Cisco district conference is at Cisco. Rev. Mr. Vaughn, being presiding elder. Ranger is also in the Cisco district and will shortly start construction on an \$85,000 Methodist church, as soon as a location can be decided on. The church owns valuable property in the heart of the city which may be sold and the money realized expended partly for the purchase of lots and to supplement the moneys already subscribed for the erection of the big edifice there. It will be an institutional church, and will be probably the most costly of any west of Ft. Worth.

In a short time a board of stewards and trustees meeting will be held when definite action will be taken on the matter of location. Then the work will be let and the work prosecuted to a rapid finish to take care of the large new membership that is being built up.

A New Dentist in Cisco—
For the past two weeks the card of Dr. Paul M. Woods, dentist, has appeared in the Round-Up. The advertisement stated that Dr. Woods would open his office in the Judia building, August 15. He has arrived and he will open the office Monday. He is very comfortable situated on the third floor of the Judia, and offers his professional services to the people of Cisco. Dr. Woods is a graduate of one of the leading dental colleges of the country, and many here will be glad to know that he has located among us.

Federal Conviction For Profiteering

New York, Aug. 13—The first federal conviction for profiteering was reported to day by the Department of Justice. District Attorney Lucey telegraphed Attorney General Palmer from Binghamton that a retail grocer had been fined \$500.00 in the federal court for selling sugar at 15c a pound.

Ford cars are important servants everywhere. They help the family enjoy life, bring the pleasures and advantages of the town within reach of the farmer and give practical service every day in the country and town. They require a minimum of attention; any one can run the Ford and care for it, but it is better to have repairs and replacements taken care of by those who are familiar with the work and have tools, the genuine materials, and skilled men to do the work promptly. We pledge Ford owners the reliable Ford service with real Ford parts and standard Ford prices.

Yours for Ford Service
