## LAYING OF NORTH SEA MINES ORIGINATED BY WILSON, SAYS DANIELS

President's Bold and Audacious War Policy Disclosed by Naval Secretary in Navy Probe.

WASHINGTON, May 11.—President's "bold and audacious" war policy of the navy was laid before the naval investigating committee by Secretary Daniels, in continuing his answer to charges by Rear Admiral Sims against the navy department's conduct of the war. Mr. Daniels coupled with this presentation a counter-charge that Sims himself had opposed and held back execution of the greatest "bold and vigorous" naval project against enemy submarines, the laying of the North sea mine barrage.

The president laid down his policy in person to officers of the Atlantic fleet, speaking aboard the flagship Pennsylvania in August, 1917. He told them he was not satisfied with progress against the submarines being made by the admirals and urged them to abandon prudently and seek an audacious solution to the problem at whatever risk. He added that he was "willing to sacrifice half the navy Great Britain and we together have" to crush enemy submarine nests.

"Do not stop to think of what is prudent for a moment," he said. "You will win by the audacity of your methods when you cannot win by circumspection and prudence."

Admiral Sims had refused to approve the navy department's plan for the North sea mine barrage for six months. Mr. Daniels told the committee. He added that after Admiral Mayo had been sent abroad to obtain the British admiralty's agreement to the plan, Admiral Sims attempted to give the credit for the project to the British.

"Admiral Sims attempted to rob America and the United States navy of the credit for initiating this great achievement, and to give the impression that it was a British project which our navy just assisted in carrying out," Mr. Daniels said. "This despite the fact that it was originated in the navy department, and was proposed and urged by us half a year before we could induce the British admiralty to approve it."

## CONFESSES POISONING RELATIVES WHO WERE AGAINST HER MARRIAGE

BALTIMORE, Md., May 11.—Miss Stella Hyman, 29 years old, today confessed that she had killed her brother-in-law and sister, Mr. and Mrs. Ed Bunch, and had administered poison to their daughter, Nancy Bunch, last August at Lincoln Center, near here, according to the county attorney.

In her statement, the county attorney said, Miss Hyman said she placed the poison in coffee and other food that the Bunch family drank. Her motive for the crime she is said to have told, was that she was the mother of a child of which Ed Bunch, son of the couple she killed, was the father and that the young man's parents would not let him marry her. She said also that her sister and brother-in-law abused her. Miss Hyman said she poisoned Mrs. Bunch first. After his return from the funeral, Mr. Bunch continued to abuse her, and threatened her with a revolver, she said.

"I thought I might as well kill him as to have him kill me," her statement says in explaining the poisoning of Bunch.

Nancy Bunch, the daughter, still is confined to her bed because of the poison and her physician says she will be an invalid permanently.

Lee Bunch, the son, in a signed statement to the county attorney, said the young woman had told him of her intention to poison his parents and after their death told him of her intention to poison his sister.

Both Miss Hyman and Lee Bunch are being held in jail here pending a further investigation of the case.

## 22 Marriages Last Week Is County's Record

EASTLAND, Texas, May 11.—Following are the marriage licenses issued for week ending May 8, 1920, in Eastland county:

J. Dave Johnson and Ioler McMillin, Rising Star; E. G. Bartlett and Velma S. Gage, Eastland; Albert E. Linquist, Ranger and Fay Davenport, Chicago; Harvey Jack and Virginia Maher, Gorman; Jesus Cruise and Romana Marguez, Strauss; Samuel J. Talkington, Oklahoma City and Helen Odell Smith, Ranger; W. C. Brown and Ella Crumri, Dadeville; J. P. Atwood, Fort Worth and Mrs. Nora Atwood, Bull Creek; Jackson Grider and Edith Bertson, Ranger; one certificate not for publication; Ranger; R. W. Moore and Opal Dossert, Cisco; H. L. Hughes, Eastland and Marie Phum, Fort Worth; Arthur K. Dividie, Vaughn; N. M. and Beattie Hooley, Carbo; Henry Augustus Royce and Rana Jones, Gorman; William W. Williams and Elie Mae Shell, Ranger; B. S. Dixon, Ranger and Valde C. G. Dobbins; one certificate not for publication; Eastland; B. B. Dyer and Dorothy O. Sangston, Mccallen; Arthur Bradsher and Odessa McCollin, Ranger.

## NOTHING ALARMING IN CARRANZA OVERTHROW, U. S. CABINET DECIDES

Revolutionary Forces Guarantee Lives and Safety of Americans and No Imminent Emergency.

WASHINGTON, May 11.—Official reports telling of the overthrow of President Carranza and his cabinet today made the new turn of events south of the border was understood to have been given only passing attention.

Dispatches from navy officers and state department representatives all have indicated thus far that assurances of protection to Americans and other foreigners had been given by victorious leaders of the revolutionary forces and there was nothing of an emergency nature in the situation, officials indicated, that called for action by the Washington government.

The question of recognition of the new government apparently in process of formation in Mexico may arise soon. It was reported today that plans for asking recognition were being pressed by revolutionary leaders. No such request has yet been presented, however, and officials here believed there must be considerable developments in Mexico before it could be forwarded with reasonable expectation of acceptance.

The fate of Carranza still remained in doubt. Official advices threw no light on his present whereabouts. He was variously reported, unofficially, as a prisoner, and as a fugitive after escaping from the hands of his captors.

A report tonight that revolutionary agents here, received in a roundabout way, told of the flight between a force sent out by General Candide Aguilar, son-in-law of Carranza, and Juan Merigo, commanding an escort on one of President Carranza's trains.

Merigo was reported to have raised the flag of revolt and after engaging Aguilar's troops near Cordoba, to have made his way southward to join General Guadalupe Sanchez, a rebel leader. The reports added that Merigo and Sanchez were in pursuit of a force under Federico Montes, one of the federal commanders said to have remained loyal to Carranza.

The super-dreadnaught Oklahoma was en route from New York to Key West tonight, but reports from Captain Long, commanding the destroyer forces now distributed along the east coast of Mexico, told of no disorders. The movement of the battleship was understood to be only an additional precautionary measure.

Revolutionary forces construed the selection of Juan Sanchez Azecona as minister of foreign affairs in the preliminary organization of the revolutionary government, a post left vacant when the organization was effected on April 23, as further indication that General Obregon and Pablo Gonzalez, formerly rival candidates for the presidency, had reached an understanding. Azecona was campaign manager for Gonzalez.

The attitude of Manuel Palaz, who throughout Carranza's administration, made his de facto ruler of the oil district south of Tampico, was being watched here with particular interest. The majority of reports, official and unofficial, have indicated his support of the movement that forced Carranza from power, but it was suggested that until this was confirmed he could not be eliminated from the list of potential opposers of the new government. Were communication with the Mexican capital has been resumed, but the censorship apparently has been rigidly applied.

## DENIES HE CONDONED LUSITANIA SINKING

WASHINGTON, May 11.—United States Senator James A. Reed of Missouri, issued a statement tonight denying charges made by Francis M. Curlee of St. Louis, in a speech before the democratic convention at Joplin, Mo., last month, that the senator had condoned the sinking of the Lusitania.

Senator Reed said he had twice asked Mr. Curlee, first through friends and later by letter, to state when and where he had "condoned" the sinking of the Lusitania, but that Mr. Curlee had failed to do so.

Declaring that Mr. Curlee's statement "was not only untrue, but opposed to my every feeling, act and utterance," Senator Reed quoted from a number of addresses he delivered in the senate and elsewhere, condemning Germany's ruthless submarine campaign and the sinking of passenger ships.

"On numerous occasions," he said, "in public, in the state of Missouri, as well as in the city of Washington, in the senate and out of the senate, I have denounced the sinking of the Lusitania."

## TO HEAR APPLICATION OF RAILROADS FOR AN INCREASED RATE SOON

WASHINGTON, May 11.—Announcement was made today that the interstate commerce commission had set May 24 as the date for hearings on the applications of railroad carriers for increased rate in official western and southern classification territory. The hearings will be in Washington.

The increases requested amount to freight rate advances of not less than 20 per cent in many territories; 25.91 in western territory and 31 per cent, or a general freight and passenger increase of 15 per cent in southern territory.

## GOOD ROADS AND AUTOMOBILES.

THERE is a very close relationship between good roads and automobiles. Speaking on this subject recently, Frank B. Ansted, prominent in Eastern motor circles, asked this pertinent question: "If road conditions throughout the whole of the United States were the equal of those that exist along the Pacific coast, and particularly in California, what would be the production situation so far as motor cars are concerned?" Commenting further, Mr. Ansted says: "Perhaps it is a wise thing most roads are not better than they are, else the makers never would see the possibility of catching up with the demand; and, for that matter, they never will, because road propaganda and the actual improvement of the highways is going on so fast this teamwork will tend to keep up the demand for cars. New roads will cause bigger demand for cars, and yet the improvement of the highways will permit automobiles to be driven farther and with less expense than has been possible heretofore. So one keeps pace with the other, with production lagging because of the lack of labor and materials to permit any factory to go to its full limit.

"But we want more good roads; we must have them; we need more automobiles to permit people to keep up with the present-day pace. The more roads the greater the demand for automobiles; the more motor cars that are built the greater the earning capacity of the people and the greater the prosperity of the industry, and, in particular, the workers and their families. It is a great and endless chain of benefits and it will be strengthened when the representatives of the people can see the light of forming a policy of doing something in road work of a substantial nature for the entire country."

THERE is no greater opportunity for young men than in the field of politics, is the advice given young lawyers of Dallas by Thomas B. Love, national democratic committeeman, at a recent luncheon. There are other politicians who would doubtless point young men in a different direction. Mr. Love is an exception in politics.

## MOTOR PLOWING AS AID TO FARMING.

TRACTOR plowing is now reckoned as one of the great aids to farming. According to figures from the department of agriculture of farm production is reduced one-half by the use of the tractor. The statistics gathered by the department is from about 600 replies to inquiries addressed to farmers throughout the United States. The statement gives these results from motor use: "With the 28-inch horse-drawn plow, one man accomplishes from 70 to 80 per cent more than with a single bottom plow. One man with a 28-inch plow drawn by a tractor covers from 30 to 35 per cent more ground in a day than does a man using six horses on a horse-drawn plow of the same size. A three-bottom plow drawn by a suitable tractor enables one man to accomplish from 60 to 70 per cent more than does the two-bottom plow drawn by six horses. "Similar conditions exist in the operation of the cultivator. Under conditions where the use of a two-row corn cultivator is practicable, this machine enables one man to cover nearly twice as much ground per day as with a one-row cultivator. In the section represented by replies received by the department, three horses are most commonly used on the two-row cultivator and the addition to a fourth horse apparently increases but little the amount of ground covered per day.

DAN CUPID no longer operates in the white collar circles, but lurks among the overall and khaki users. The white collar man is not walking to the matrimonial altar in these high cost of living times, but it is the man who works in the factory, the mill, the farm, the automobile mechanics, the railroader, the shopman and the chauffeur. They are the only ones who can work up courage enough to take into themselves a wife in these days, says Miss Margaret Mahoney, marriage license clerk at Indianapolis, Indiana. Her records show that the greater number of bridegrooms between the ages of 19 and 25 have occupations as listed above.

NEAR five inches of rain in five days the past week will be worth hundreds of thousands of dollars to Eastland county. While it came too late for wheat and oats, it is in time for late cotton, for corn and other feed crops. With other rains that will surely follow, a plentiful feed crop is now assured, according to the old timers here. Then it has made water plentiful to actively prosecute drilling for oil, which recently had been very difficult, and in some places threatened with suspension.

CLEARING has already been started on the basin for Cisco's seven billion gallon water reservoir; and the contract for the concrete dam to impound this immense body of water will be let on the 20th of this month. This lake will be over 100 feet deep in places, and will hold sufficient water to supply 75,000 people. And Cisco is not building far in the future, either.

FLYING may have its sensations, but lion hunting has a point better for thrill, is the view of L. Segrist, former manager of the Sopworth Aircraft Corporation of London. Mr. Segrist made this statement in Salt Lake City a few days ago, just after a lion hunt in Southern Utah, where he captured one live lion cub and dangled the scalps of two others from his belt.

EXPERTS in governmental science, former and present mayors of Texas cities and professors of research and economics will assemble in Dallas, Thursday, for a three days' meet. Cisco is a member of this League of Municipalities, and Mayor Williamson or some representative will attend. An elaborate program is mapped out.

ON THE 17th Cisco will be 39 years old. She is at present making great strides in building and civic improvement. But the park question should not be longer delayed. To act now is economy.

ANOTHER inch and a half of rain was added Tuesday morning to Eastland county's moisture season. And this means added bushels and tons of feed crops the Eastland farmers will grow.

RAPID events are transpiring down in Mexico, from a revolutionary viewpoint; but Villa seems to be staying in the background. Some might wonder if Villa's hand is hidden.

THE rains of the past few days have filled Lake Bernie up to the old run-way. And this means no shortage in water supply for Cisco—the best watered city in West Texas.

## CHAMBER OF COMMERCE ELECTS DIRECTORS AT A HOT AND FIERY MEETING

(Continued from Page One)

In keeping up this division, and again urged that they get together; saying that Cisco should profit by the experience of Abilene and other cities of West Texas. He said: "If Ciscoans do not get together in their Chamber of Commerce it is the death knell of the city, and I am through here, and all that I have here is for sale for what I can get for it. Get together, gentlemen, before it is too late."

They agreed then to pin the ballots together before passing them around. Each voter was to choose from the two what names he wished to vote for, and write his or her name across the ballot, and deposit it in the ballot box. Morris' appeal evidently had some soothing and unifying effect, as the result of the voting showed—four being chosen from one ticket and three from the other.

Then it was time for the "love feast" which the president had urged.

## Fifteen Overseas Boys of Eastland County Discharged

EASTLAND, Texas, May 11.—Following is a partial list of soldiers discharged recorded in the office of county clerk:

1. William T. Carley, No. 3668252, private, Co. G, 55 infantry, Fort McPherson, Ga.
2. Paul L. Ponder, No. 2250429, private, 1st class 90th M. P. Co., Camp Bowie, Texas.
3. Robert T. Hendrick, 2nd Lieutenant, air service, Ellington Field, Houston, Texas.
4. Charles D. Hubbard, No. 1631196, private 1st class, battery, 205 field artillery, attached to 1st provision Co. for discharge U. S. A., Fort Bliss, Texas.
5. Thomas Dewey Wilson, No. 115564, S. A. T. C., Texas Christian University, Fort Worth, Texas.
6. Chancey L. Wells, sergeant head-quarters, Fort Still, Oklahoma.
7. Whainers L. Wells, No. 1049964, sergeant head-quarters Co. 14, field artillery, Fort Sams Houston, Texas.
8. Willard E. Cope, No. 1505014, private 1st class, Co. A 111th engineers, 36th division, Camp Bowie, Texas.
9. William J. Matthews, No. 1509470, private, Co. M 142nd infantry, Camp Bowie, Texas.
10. Jess C. Allison, No. 528262, private 1st class, infantry Co. A, 8th MI, Fort Polk, Camp Thorton, Kansas.
11. Icarine Hill, No. 2056472, private, ordnance quartermaster, N. 15th U. S. army missile school, Alabama.
12. Thomas J. Dolan, No. 842192, sergeant battery B 65th artillery, C. A. C., Camp Kearney.
13. Fred Garhardt, No. 1060101, sergeant, 212th squadron air service aeromobiles, Kelly Field, Texas.
14. Geo. C. Quince, No. 125754, cook, L. M. C., Messing, Camp Shelby, Miss.
15. W. T. Cunningham, U. S. S. R. S. at New Orleans.

## Notice of Hearing to Appropriate Public Waters of the State of Texas—No. 45.

Notice is hereby given, to whom concerned, that the City of Cisco, Texas, acting by and through its Mayor, J. M. Williamson, the postoffice address of whom is Cisco, Texas, did on the 16th day of April, A. D., 1920, file its application in the office of the Board of Water Engineers for the State of Texas, in which it applies for a permit to appropriate from the unappropriated waters of the State of Texas, sufficient water for the purposes of a municipal water supply for the City of Cisco, to be impounded in and diverted from Sandy Creek, a tributary of the Brazos River, in Eastland County, Texas, to be impounded by means of a dam and diverted by means of a pumping plant, said dam to be located at a point which bears N. E. 1/2th of the S. W. corner of S. P. survey No. 497, across the bed of Sandy Creek, in Eastland County, Texas, distant in a Northerly direction from Cisco about three miles.

You are hereby further notified that the City of Cisco is to construct a dam across the Sandy Creek, a tributary of the Brazos River, in Eastland County, Texas, creating a reservoir of an impounding capacity of 9,263 acres of water, and to divert therefrom by means of a pumping plant 9,362 acre-feet of water per annum for the purpose of a municipal water supply.

A hearing of the application of the City of Cisco will be held by the Board of Water Engineers for the State of Texas, at its office in Austin, Texas, on Monday, May 17th, A. D., 1920, beginning at ten o'clock a. m., at which time and place all parties interested may appear and be heard. Such hearing will be continued from time to time, and from place to place, if necessary, until such determination has been made relative to said application as the said Board of Water Engineers may deem right, equitable and proper.

Given under and by virtue of an order of the Board of Water Engineers for the State of Texas, at the office of said Board, at Austin, Texas, this 16th day of April, A. D., 1920.

W. T. POTTER, C. S. CLARK, JNO. A. NORRIS, Board of Water Engineers, Attest: A. W. McDONALD, Secretary.

## HOT SULPHUR BATHS

Nature's Cure for Rheumatism, Skin Diseases, and Stomach Troubles. THE TERRELL WELLS at San Jose, Texas (near San Antonio) are equipped with hot sulphur baths with competent attendants and Modern Hotel accommodations. Reasonable rates. We are now drawing patients from long distances, all of whom will testify to great benefits, and generally absolute cures. Try them at once and be well again. Write or wire for literature. Address TERRELL WELLS CO., San Jose, Bexar County, Texas. Recreation: swimming pools, music and dancing.

## LIVING ORGANISMS AGES OLD FOUND IMPRISONED IN AMBER

PARIS, April 23 (By Mail)—Living organisms, imprisoned in amber and believed to be incomparably older than the microbes found in Egyptian papyrus, have been discovered by Dr. Galippe, of the French Academy of Science, and it is thought by some biologists that these organisms may probably be among the very early elements possessing life to inhabit the earth.

Amber is said to have been formed in the very early stages of the earth's history but Dr. Galippe is convinced the micro-organisms could only have been imprisoned in the amber while it was in course of formation.

As soon as these organisms were set free from their prison they are said to have manifested very evident signs of life and, when carefully cultivated, developed great activity. The organisms are of course, very elementary but this fact detracts little from the marvel that they are living survivals from a period far earlier than that of prehistoric man.

## Ex-Wife Bids Murderer Farewell

LOS ANGELES, Calif., May 11.—Mrs. Elizabeth Williamson, one of the score or more women who married the bigamist murderer sentenced to life imprisonment under the name of James P. Watson, today called at the prison ward of the county hospital and bade him an affectionate farewell, preparatory to departure tonight for her home in Sacramento, California.

She gave him a tube of tooth paste, a tooth brush and \$1.20 in change, all she was quoted as saying, she could afford to give him.

The prisoner, who said he was christened Joseph Hillman, and that he had taken the name of Sam Holden, declared Mrs. Williamson was the "only one of the many women with whom I have had to do, who has had nothing to say against me."

"She has borne with me in my suffering, her memory will be my most valued possession throughout the years behind the prison walls," he said.

## Rural Hauling as Side Line.

Many of the motor trucks on farms adjacent to large cities are not loaded to full capacity on their trips to the city. Few farmers have their business arranged as to permit the use of the truck to its maximum capacity regularly.

Many such farmers, according to the U. S. department of agriculture, have gradually begun to haul a part or all of their neighbors' products to market, and in some cases this practice has led to the establishment of a regular route.

Some farmers have been enabled to purchase trucks, because their own business, coupled with that of their neighbors' has been sufficient to warrant such an investment.

## GARRANZA MAKING STAND AT SAN MARCOS VILLAGE

VERA CRUZ, May 11.—President Carranza, who is making a stand against revolutionary forces at the village of San Marcos, 27 miles northeast of Puebla, has not yet been dislodged from his position by the troops of General Hill and Trevino, who are attempting to drive him from his stronghold along the railroad leading from Apizaco to this city.

## Federals Hold Matamoros.

BROWNSVILLE, Texas, May 11.—Four hundred armed men, including federal soldiers and customs and immigration guards of the Matamoros garrison, were standing behind embankments and in trenches south and west of Matamoros today, prepared to defend the Mexican city against a threatened attack by a revolutionary force, whose strength was not known. The rebels on the west were reported to have captured all railroad and river towns between Mier, about 100 miles west of Matamoros, and the latter place.

## May Attack Sedition Law

CHICAGO, May 11.—Two jurors were tentatively accepted today by both sides in the trial of the 26 alleged members of the communist labor party, charged with conspiracy to overthrow the government by force. One juror also was tendered by each side.

That the defense would make an attack on the constitutionality of the sedition law as its main line of defense, was indicated in questions asked and possible juror by attorney Clarence Barrow.

## Red Deportation Held Up

WASHINGTON, May 11.—Deportation of radicals to Russia has been held up because of political and military developments in Russia and because of inability to obtain transportation direct to that port.

## Classified Ads

- FOR SALE—Threshed feterita.—Phone 5015 P14 50-51
- WANTED—Men or women to take orders among friends and neighbors for genuine guaranteed hosiery; full lines for men, women and children; eliminates laundering. We pay 50c an hour for spare time or \$24 for full time. Experience unnecessary. Write International Stocking Mill, Norristown Pa. 48-101
- \$25 REWARD. LOST OR STOLEN—One brown horse, 3 years old, about 14 1/2 or 15 hands high, little white on right hind foot. One yellow mule about 14 1/2 hands high, 11 years old.—H. C. Gandy, Breckenridge, Texas, Box 424.

## NAVY TO SELL AIRPLANES TO BE DISPLAYED AT MEET

PHILADELPHIA, May 11.—One of the most comprehensive exhibits to be shown at the coming exhibition of aerial supplies and all types of flying machines at Atlantic City, N. J. by the Aero Club of America, from May 20 to May 30, is expected to be the display by the board of appraisal, survey and sale, from the Philadelphia Navy yard.

One feature of the exhibit will be the daily flights made by experienced aviators. The flights will be made in various types of machines that will be placed on sale by the navy department.

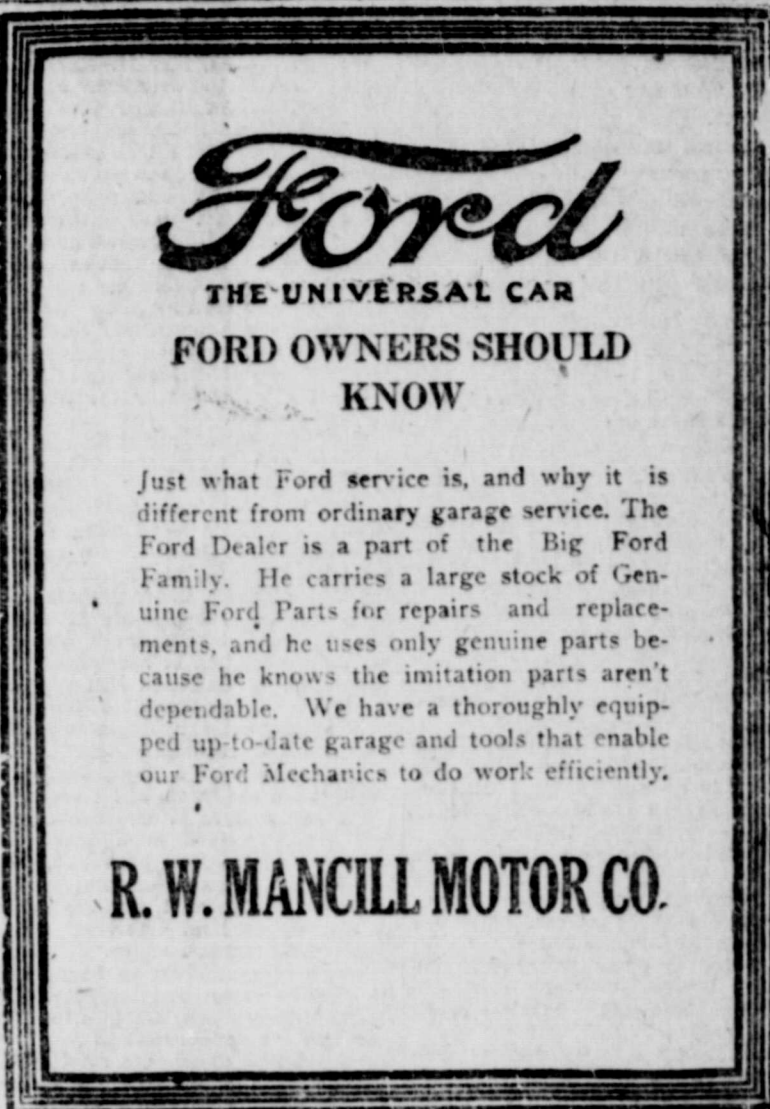

A center of attraction probably will be the Liberty motor, which will be set up in running order to demonstrate its efficiency and the horsepower that can be developed from a gallon of gasoline. It is intended to equip one of the F5L

type of planes with a complete radio apparatus so that during the flights spectators may communicate with the machine. The machine also will be equipped with complete ordnance equipment, including the Lewis and Davis types of guns.

There will be on view a complete assortment of the various accessories that are required in making extensive flights.

## Get Front Seats.

CHICAGO, May 11.—Delegates to the republican national convention from Connecticut, Arkansas, North Dakota, and Colorado, will sit in the front row of the coliseum at Chicago in June, according to drawings made here today by the committee on arrangements. The rear row will be occupied by delegates from North and South Carolina, Hawaii, Montana, and Florida.

Just what Ford service is, and why it is different from ordinary garage service. The Ford Dealer is a part of the Big Ford Family. He carries a large stock of Genuine Ford Parts for repairs and replacements, and he uses only genuine parts because he knows the imitation parts aren't dependable. We have a thoroughly equipped up-to-date garage and tools that enable our Ford Mechanics to do work efficiently.

# Big Value in Tires for The Smaller Cars

Back of the manufacture of Goodyear Tires for the smaller cars is the same purpose to supply high value in the product that is behind the manufacture of the Goodyear Tires that equip the most expensive automobiles built.

This purpose is expressed by the enormous resources, extraordinary skill and scrupulous care applied to the manufacture of Goodyear Tires in the largest tire factory in the world devoted solely to the 30x3-, 30x3 1/2-, and 31x4-inch sizes.

The effect of this endeavor is noted in the fact that last year more cars using these sizes were factory-equipped with Goodyear Tires than with any other kind.

It is also noted in the fact that if you own a Ford, Chevrolet, Dort, Maxwell, or other car requiring one of the sizes mentioned, you can secure Goodyear Tires and Goodyear Heavy Tourist Tubes at the nearest Goodyear Service Station.

30x3 1/2 Goodyear Double-Cure Fabric, All-Weather Tread	\$23.50
30x3 1/2 Goodyear Single-Cure Fabric, Anti-Skid Tread	\$21.50

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3 1/2 size in water proof bag \$4.50

# GOODYEAR

SMALLEST COUNTRIES ASK ADMISSION INTO LEAGUE OF NATIONS

NEW YORK, May 11.—Applications by four of the smallest countries in the world, Iceland, the Republic of Georgia, San Marino and Luxembourg, for admission to the League of Nations which are to come before the Council of the League when it convenes shortly in Rome, have awakened interest in these lands and peoples.

Iceland, which until 1918 belonged to Denmark, has a population of approximately 280,000 and an area of 33,000 square miles. It was discovered by the Norsemen in the ninth century and continued as a republic until 1322 when it united with Norway. In 1389 it was taken by Denmark, in whose hands it remained until two years ago, when, full agreement with the mother country, under a principle of self-determination, Iceland proclaimed its independence. King Christian, of Denmark, honored his former colony by sending a warship to salute the Icelandic national flag.

The Danish government in 1913 forbade the manufacture of alcohol and the parliament of Iceland subsequently enacted a prohibition law making the 19 systems or parishes in the country's three main provinces, forever "dry." Icelandic women have long had the right to vote.

The Russian government in 1913 forbade the manufacture of alcohol and the parliament of Iceland subsequently enacted a prohibition law making the 19 systems or parishes in the country's three main provinces, forever "dry." Icelandic women have long had the right to vote.

Georgia, formerly ancient Iveria, a part of Russian trans-Caucasia, is populated by a people who call themselves Marth and who are known by neighboring Persians as Kartli. The seat of government are Tiflis and Guria. In the third century they constituted a mighty state which lasted until 1424, when it was divided into three parts. In 1806 Georgia was incorporated in the Russian empire.

The population of Georgia at the time she declared her independence of Russia, on May 26, 1918, was about 3,000,000. Eighty per cent of the Georgians are farmers. On March 17 last the independence of Georgia was recognized by Italy. Under the Turkish peace treaty, Batumi is to become a free port. San Marino, or Serravallo, is not only one of the smallest but one of the oldest republics in Europe. It is enclosed by three Italian provinces and consists of a craggy mountain 2420 feet high on which is the town and some magnificent terraces with four or five villages. The population, prior to the war, was about 8000. San Marino furnished an army to the allies.

The chief industry is agriculture, including the raising of cattle. The legislature of the republic is composed of a senate of 50 members elected for life equally from the ranks of peasants, citizens and nobles. Two presidents are chosen by the senate every six months. Luxembourg, which lies between Rhenish Prussia, Belgium and Alsace-Lorraine, and which was occupied by the Germans during the war, was made a grand duchy in 1814 by the king of the Netherlands. In 1867 it was declared neutral territory by the treaty of London. It has belonged, however, since 1842 and until the signing of the Versailles treaty, to the Zollverein or German custom's union.

The population of Luxembourg before the war was approximately 260,000, living in an area of about 1000 square miles. Walloon French is spoken in a few villages but the language of the people is chiefly a German dialect. After the armistice in the world war, the Germans evacuated Luxembourg, a revolution occurred, but was halted by the allies. The American troops passed through the country and were well received. The Grand Duchess Marie, whose abdication had been demanded by a mob, fled from the country and a republic was proclaimed. This new government, however, lasted only a few hours. The parliament called for plebiscite to decide the future form of government and the people voted for a restoration of the Grand Duchy, electing as Grand Duchess, the Princess Charlotte, sister of Marie.

Who Is the Most Popular Girl in Cisco? Elks Ask

Who is the most popular girl in Cisco? That is a question to be decided in connection with the Elks' spring carnival, which will be the center of attraction in Cisco all next week. The Elks will sponsor a queen's contest next week and will vote on it that Cisco's queen, whoever she may be, shall reign over the city and all Elk activities until the new and commodious Elk building is completed. The people of Cisco will have an opportunity to select their queen by popular vote. There will be no Terre! election law intricacies, no primaries, in this contest. The only requirement to voting is a one-cent piece, which will entitle any person to one ballot in this election. Unlike other elections, you can vote more than once—in other words, so long as your one-cent piece hold out, you can express your preference for Cisco's queen. With the queen will be selected two princesses. That is, the highest vote will name the queen, and the next two highest will be the princesses. Get busy now, nominate your choice for queen. In order to stimulate interest in the contest, the Elks have offered three prizes to the young ladies receiving the highest number of votes, as follows: First prize, \$250 diamond ring. Second prize, Elgin wrist watch. Third prize, Ivory manicure set. On Friday night of next week the coronation exercises will take place, together with the presentation of prizes.

MAY DAY FESTIVAL AT HIGH SCHOOL CAMPUS ATTRACTS THOUSANDS

Splendid Program Depicting Landing of Pilgrims and May Pole Dance Wins Applause. More than two thousand people witnessed the May Festival rendered by the Cisco Public Schools Monday night. It was a tercentenary pageant, depicting the progress in America from the landing of the Pilgrims in May, 1620, down to the present.

It was a pretty program, and showed much thought and preparation on the part of both teachers and pupils. The cast was drawn from the high school and the two ward schools, and the entertainment was one of which all Cisco citizens who witnessed it feel proud. The program was given in open air on a brilliantly lighted campus. The municipal band furnished the music. Following the grand march came the May queen elect, her court and merry-makers. While the "Bridal Chorus" was sung by the High School Girls Choral Club, the coronation ceremonies took place. Miss Thelma Fairless was crowned May Queen. Miss Ruth Williamson was her Maid of Honor. The Queen's escort was Marshall McCrea, and M. B. Wood was the Maid of Honor's escort. The other maid's escorts were: Miss Hazel Dawson and Glen Tucker, Miss Edna Webber and Arthur DeRossett, Miss Olga Beard and Warren Eubbs, Miss Gladys Tomlinson and Hazel Chambers.

The historical pageant pictured the Plymouth Pilgrims. Miss Julia Shepard was dressed to represent America, while Cate Brown represented Progress. Passing before these and the queen in review were six scold girls, representing the years. Following these were Pilgrims. Then came George Washington with his continental soldiers and the signers of the declaration of independence. William Penn and the Indians; Benjamin Franklin, and others. Coming in succession were arts and sciences, portrayed in their respective periods; civil war veterans, Spanish-American soldiers, and heroes of the European war. The boys in khaki gave a manual of arms, and the naval boys a horripante dance.

Then came a corps of Red Cross nurses, who sang "The Rose of No Man's Land." They were loudly applauded. An equal cheer was given the big American flag passing in review followed by a beautiful "flag dance" by a bevy of pretty little girls bearing a flag in each hand, and wearing red, white and blue caps and sashes. The Victory Maypole Dance was another pretty number rendered by twenty girls of ten to twelve years in the national colors, weaving the red, white and blue ribbons about the pole in skirt dance fashion.

After "The Miller's Wooling," beautifully rendered by the High School Girls Choral Club, the Spirit of May, a light hearted dance, was given by Norma Wren Mahan. The Amazons, in their long gowns, gave a circle dance that was very unique and won admiration. The "Brownies," a company of boys, gave a drill and performed antics that delighted the audience. The Butterfly dance by the little seven and eight year old girls, dressed in white and yellow, was one of the most charming numbers, and won liberal applause.

A group of about fifty little girls of near twelve years, rendered the wreath drill in a very fascinating manner. But the Maypole dance by a bevy of ten year old girls, was so well done as to merit high praise. The little girls were dressed in mild green, canary and orange yellow, turquoise, blue, pale pink and old rose, and their ribbons were in corresponding colors. The drill in the weaving of these ribbons was perfect. The last number was the "Fairies' Revel," and this group of eight to ten year old curly-haired girls, all dressed in pink, gave a sweet, ending to the evening's entertainment.

The whole program met the high praise of the large audience, and Superintendent J. J. Godbey and the members of the faculty, were profusely congratulated at the conclusion. Miss Alma Copelin was the chairman and general manager, and deserves much praise. This is the first attempt, but was such a decided success that the entertainment will be made annual, and still greater pageants are in store for Ciscoans in future years.

U. S. CENSUS

CISCO COUPLE ELOPES TO BAIRD FOR WEDDING

Sunday afternoon Miss Edna McGuire and Eugene Austin, both of this city, made a hurried trip to Baird, where they were married. The newlyweds arrived here on the 10:10 o'clock train only to remain for a few hours with relatives at the home of the bride's father, W. I. McGuire. The couple left Cisco on the 12:20 train for a wedding trip through several points in South Texas. Miss McGuire was reared in Cisco, and Austin has lived here for several years.

MERCHANTS WILL GIVE PRIZES IN BIG DRIVE FOR Y M B L MEMBERS

Awards to Be Made to Those Procuring the Greatest Number of Members and Donations. Considerable interest is being evinced in the membership campaign being conducted this week by the Young Men's Business League.

Membership cards have been prepared and have been distributed from the office of the secretary at the Masonic building. Members who have not received a supply and new members who wish to sign up may find blanks for the purpose at that place. As an added incentive to greater efforts along this line prizes have been offered by the following firms: Nunn Electric Company, Electric Adjuvante; McClintock & Turner, Conklin Fountain Pen; Moore & Lawrey, Box Chocolates; C. C. Wild, Box of Cigars. For the greatest amount of money pledges secured by any one individual: St. John & Karkolitz, \$2.50 in Merchandise; H. C. Rominger & Co., Pocket Knife; Patton & Williams, Merchandise; Stuart L. Williams, Box of Cigars. These prizes will be on display during the week in the windows of the merchants making the awards. Posters have been put up on show windows throughout the business district and on automobile wind shields appealing to Cisco citizens to "Join the Y. M. B. L. and Help Build Cisco." The organization will hold a rousing meeting at the city hall tonight at which reports will be made on the progress of the campaign and plans perfected for the continuation of the work during the remainder of the week.

POSTPONE HEALTH TALK AT CISCO AUDITORIUM

The public lecture illustrated with film slides, which was to have been given here tonight by Dr. Oscar Davis of the state board of health, will be postponed. In a telegram sent Monday to Dr. J. W. Gregory, local physician, Dr. Davis says that the plates and films for the lecture could not be obtained on the date he had hoped for, and that the lecture had to be cancelled at the last minute. London uses on an average 27 million gallons of water yearly for the purpose of extinguishing fires.

CHADWICK WINS OVER HARRY SWOBODA WITH TWO STRAIGHT FALLS

John Chadwick took the wrestling match last night from Harry Swoboda at the city hall in two straight falls. The bout was hard fought all the way through, but youth had to be served. Swoboda showed spasmodic flashes of class wrestling, and on several occasions doubled his opponent into knots with gripping holds, but the local boy was unable to stop the A. E. F. champion, and after 23 minutes of grueling, fast work, Chadwick pinned Swoboda's shoulders to the mat with a hammerlock for the first fall. Chadwick showed more recuperative powers than his opponent and the second fall went only 17 minutes, when Chadwick again flattened his older opponent's shoulders to the floor. The second fall was the result of a head scissors.

GASOLINE EXPLOSION GUTS RANGER GARAGE

An exploding gasoline tank on an automobile was the origin of a fire Monday afternoon which gutted the Mission garage at Ranger and destroyed twenty new machines. The fire started at 2:45 and was not extinguished until after dark. The amount of damage has not been estimated as yet but will run above the hundred thousand mark, it is thought. Miss Clara F. Porter, who was one of the organizers and first president of the business and professional women's league of New York, has been appointed assistant secretary of one of the largest trust companies in the metropolis.

BIG STORM AT RANGER SUNDAY NIGHT FIRES SINCLAIR GULF TANK

Four Inches Rain Fall in Two Hours; Police Rescue Residents; Damage More Than \$250,000. More than \$250,000 worth of damage was done Sunday evening when four inches of rain fell within a period of two hours at Ranger. The deluge was accompanied by an electrical storm and a high wind which damaged property in the business district to the extent of \$50,000.

A flash of lightning ignited a 5500 barrel oil tank of the Sinclair Gulf which was still burning at a late hour this evening. No attempt is being made to stay the flames. Earthen embankments have been thrown up around the tank, however, to keep the burning oil from spreading. The tent colonies of the city suffered severely during the storm. In the eastern section the police rescued many people whose tent homes and possessions had been blown or washed away. A report that several Mexicans were drowned could not be verified.

LIVER DIDN'T ACT DIGESTION WAS BAD

Says 65 year Old Kentucky Lady, Who Tells How She Was Relieved After a Few Doses of Black-Draught. Meadorsville, Ky.—Mrs. Cynthia Higginbotham, of this town, says: "At my age, which is 65, the liver does not act so well as when young. A few years ago, my stomach was all out of fix. I was constipated, my liver didn't act. My digestion was bad, and it took so little to upset me. My appetite was gone. I was very weak. I decided I would give Black-Draught a thorough trial as I knew it was highly recommended for this trouble. I began taking it. I felt better after a few doses. My appetite improved and I became stronger. My bowels acted naturally and the least trouble was soon righted with a few doses of Black-Draught." Seventy years of successful use has made Theodor's Black-Draught a standard, household remedy. Every member of every family, at times, need the help that Black-Draught can give in cleansing the system and relieving the troubles that come from constipation, indigestion, lazy liver, etc. You cannot keep well unless your stomach, liver and bowels are in good working order. Keep them that way. Try Black-Draught. It acts promptly, gently and in a natural way. If you feel sluggish, take a dose tonight. You will feel fresh tomorrow. Price 25c. a package—One cent a dose All druggists. J. 68

Two Inches and Half Reservoir Now Holds Sufficient Water to Last Sunday Evening Last City Two Years

Lake Bernie, Cisco's water supply reservoir, is now full up to the old spillway, before the dam was raised two feet, according to Mayor James Williamson.

who visited the lake Monday. There is now impounded in this lake one billion gallons of water, enough to supply the present Cisco for more than two years, even if it did not rain again, says the mayor. The present water consumption of Cisco is about 1,000,000 gallons per day. Were there no evaporation this supply would run the city 1,000 days, at the present rate of consumption. But Cisco is growing rapidly, and the water consumption is increasing in proportion. In another year the mayor hopes the new seven billion gallon lake will have been completed, and ready to serve Cisco's doubled population.

Why Trifle With Green, Unripe Drinks? Drink Schlitz—It Is Aged

YOU would not eat green fruit—fruit which is unripe. Yet unless you exercise care you will drink an unripe beverage—and suffer consequences. There is a tendency today to cheapen and hasten beverages to meet a quantity demand. Schlitz is not rushed. It is a scientific product—not a trifling concoction of the moment. The years of experience and the hundreds of thousands of dollars worth of equipment that made Schlitz famous is making the Schlitz of today. Schlitz is thoroughly aged—fully ripe. Then it is cooled in plate glass rooms, in filtered air. The final step, after bottling and sealing, is sterilization by Pasteur's process—through which it is impossible for any germ to exist. When we say Schlitz is pure we mean also that it contains no living organisms—no bacilli—nothing to cause fermentation in your stomach. Drink Schlitz today. The Brown Bottle protects it.

Schlitz in Brown Bottles On sale wherever drinks are sold. Or, order a case for your home from Phone 52 H. O. Wooten Grocer Company Ninth—One block east of Main Cisco, Texas The Drink That Made Milwaukee Famous

### NEWS GATHERERS FROM MANY STATES GUESTS OF CISCO

Incident Weather Fails to Chill Ardor of the Scribes to See This City.

Cisco yesterday had as their guests "The Fighting Journalists," A. E. F. Some 30 strong they hit the city at 2:45 amidst the aftermath of a severe rain-storm which played havoc with the plans of the entertainment which had been arranged for their visit.

But, undismayed over these obstacles, the guests were soon skuddled together for a get-acquainted meeting at the Daniels hotel. No sooner had acquaintances been formed and incidents related of their disarranged schedule than they were inducted into waiting autos and carried out to view Cisco's new million-dollar water reservoir on Buzzard's Roost.

Upon their arrival at the damsite, the first feature that attracted the attention of the visitors was the wonderful scenery at this point. Viewing the location from the south side of the gorge, beautiful hills and deep wooded valleys spread out in every direction. Here they were shown the progress which is being made in clearing the trees and underbrush from the lake bed.

Mayor Williamson explained to them that the dam would be almost a quarter of a mile in length and 125 feet in height; that it rested upon a solid bed of rock and would impound enough water for a city of 15,000 population and would spread over the valley for a distance of four or five miles back from the dam, at an average depth of 75 feet.

The journalists who were connected with industrial and trade magazines were especially interested and asked numerous technical questions concerning the construction problems which the enterprise presented.

The party clambered over the huge boulders which rest on every side of the "Roost" and viewed the gorge from every angle. They were unanimous in their opinions that it was indeed a grand undertaking and one which, when completed, would be an invaluable asset to the city.

The special photographer from the film company who is accompanying the journalists, took numerous views of the dam and of the adjacent valleys, for release through the Weekly News.

Rehearsing and swinging into Humboldt at 6 o'clock, the "Fighting Journalists" were visibly surprised to learn that such a large corporation could have a heart so big that it did things in a way as the Humble Oil & Refining company, which has builded their hamlet on the south hill immediately adjoining Cisco.

For Humboldt has not only the most modern business and living conditions and has its officials prepared for and served the A. E. F. boys and their ladies a real repast. They could not have pleased the newspaperites to better advantage had they the coal and pick in their Cisco branch of the most brilliant chefs and cuisine facilities extant. That they are past-masters at entertaining was reiterated time and again by every one of the 40-odd guests yesterday afternoon.

At 8:30 o'clock Mr. Armstrong, assistant manager at Humboldt, spoke the word that assembled the guests around a table laden with delectable edibles,

where the participants munched until their capacities were chafed. Then several impromptu remarks were made, after which the guests were divided into groups and proceeded to see and learn still more of this enviable institution.

Departing in hesitancy from this fairest flower of the oil fields—Humboldt—the boys and ladies of the "pencil and typewriter" were unhesitant in expressing the satisfaction they had in being the guests of the Humble Oil & Refining company.

At night the journalists were entertained at the city hall, and later visited The News office.

This morning the journalists will motor to Pipe Springs and Rising Star, and thence to Doodemona.

### PET BROWN AND HARRY SWOBODA STAGE BOUT FOR FIGHTING SCRIBES

One of the many features arranged for the entertainment of the "Fighting Journalists," and which proved to be exceedingly popular with every member of the party, was the exhibition wrestling bout by Pet Brown and Harry Swoboda. Both these veterans of the mat introduced the visitors to some real "big town stuff," and the comments both during and after the exhibition was to the effect that Cisco had a right to be proud of these two scientific devotees of the wrestling art.

For twenty minutes the visitors and a hall full of home people marveled at the speed and skill of these two famous mat artists, both of whom, since their residence in Cisco, have willingly joined hands with the citizens here in helping to entertain and promote any undertaking fostered by the commercial and civic organizations.

Although it has been some time since either Brown or Swoboda has appeared in a mat contest, they are both recognized as the best in the business, and their exhibition last night was evidence that neither has lost any of the agility which has established for them an enviable reputation throughout this section of the country.

Brown and Swoboda, during the past few days, have been "working out" together. The former is booked for a match in Houston in the near future, while Swoboda will "take on" John Chadwick at the Cisco city hall next Monday evening. Both men gave evidence of being in excellent condition, and no doubt a large crowd will see the Chadwick-Swoboda bout, assured that the Cisco man will be able to hold his own against the tactful Chadwick.

Before the bout, Swoboda's dog, "Pal," entertained the audience. "Pal" has become a favorite with the people of Cisco, and his exhibitions of bag punching, baseball, basketball and all-around knowledge of "things human" brought forth hearty applause and favorable comment from the visitors.

### GLAD CISCO HASN'T LOST HEAD OVER OIL

"I am elated to find that Cisco has kept her head and hasn't gone hog wild over the oil situation in this part of the country as other communities have done," said H. P. Paris of Clinton, Mo., who formerly owned the controlling interest in the Guaranty State Bank and Trust Company here.

Paris was in this city Thursday on business. He will probably make further investments here.

### FIRST NEWLY-WEDS OF HUMBLETOWN RECEIVE WARM WELCOMING

"I wish I had wings," said Mrs. "Newly-Wed," as she left the city hall Friday night. "You are an angel, my dear," said Mr. "Newly-Wed," as he smiled at her and the handcuffs were removed from the pair on the promise of one of the Humboldt managers to be responsible for their re-appearance in Mayor Williamson's office, to adjust a fine for excessive speeding.

The couple were Mr. and Mrs. Jack Bartlett, Humboldt's first newly-weds. They were married at Nora Vista, New Mexico, Saturday, April 24, and just arrived on the 8:15 T. & P. train from Fort Worth, Friday night. They were met at the Cisco depot by a large crowd of Humboldt friends, and were unceremoniously taken in charge.

A float covered with flaunting banners and streamers was awaiting them, and they were ushered into it and driven along Main street amid the din of cow bells and tooting auto horns from about twenty automobiles which followed. On their float were such banners as "Humboldt's First Newly-Weds," "Newly-Weds—You Can Tell Us by Our Smiles," "Happy All—Just Married, That's Why," "Here We Are—Just Married," and "Engineered a Deal for Life."

When this procession had reached Main and Broadway, S. M. Burleson, Humboldt officer, and Marshal J. T. Stamps appeared on the scene and took the couple from their friends and charged them with violating the city's speed laws. Handcuffs were placed upon them, linking them together, and they were escorted to the mayor's office. Here they pleaded guilty to the charge.

Mayor Williamson told them that it was customary to make the fine in such cases \$1 per mile, but this being rather an aggravated case, he would have to add \$5 to the usual fine.

The groom did not have the cash for the fine, and the situation became very embarrassing for the newly-weds. The mayor was relentless and the marshal was very stern when pleas from friends to release them were made. No acceptable bail was available until the Humboldt manager showed up and assumed the responsibility.

It was then that the shackles were removed and the couple returned to their float and the parade proceeded to Humboldt.

Their friends have planned a great reception for them at Recreation hall, to be held at 7:30 o'clock this Saturday evening. At this feast the "Newly-Weds" will occupy the honor seats. And as a token from Humboldt they will be presented with a silver set.

The groom is a member of the engineer corps of Humboldt and the bride who was Mrs. Edna Hightower, was a stenographer in the Humboldt town service. She recently went on a visit to New Mexico, and Jack shyly followed—thinking to put one over on the Humboldt crowd, so they said. So this thrilling surprise was prepared to greet them on their return.

They are the first newly-weds of Humboldt.

### RETAIL MERCHANTS OF CISCO ENDORSE NEWS-PAPER ADVERTISING

The Retail Merchants Association of Cisco now have a regularly employed secretary, with office in the Winston building. The committee empowered to employ a secretary, Friday selected E. L. Baitelle for the position. Baitelle was formerly connected with the Round Up and has been bookkeeper for Roper & Fisk up to this appointment Friday.

The committee making the appointment are: T. J. Gilbert, J. W. Babbs, R. E. Mitchell, E. C. Smith, R. H. Boon and J. C. Sherman.

It is said that the association now has 50 members, and expect to run it up to 75 in a short while.

The association aims through its secretary, to keep its members in touch with all the people. They will know who are prompt payers, slow payers, no payers, and those who issue bad checks, says this official.

He says that the association has practically endorsed newspaper advertising above any other form. He says that he will not patronize an advertising proposition other than newspaper, unless such proposition receives the o. k. of their advertising committee. Any members violating this rule will be subject to fine by the association.

Their business committee has waited on the Cisco wholesalers and asked why peddlers are sold goods as cheap or even cheaper than merchants are charged. They have asked that this selling to peddlers be discontinued, and practically all the wholesalers have promised to do so, said Mr. Fisk.

They have also asked that the city government has promised to go the limit in licensing peddlers, he continued.

### Negress Complies Swiftly With the Garbage Ordinance

"I sho will prouch me a garbage receptacle Doctah," were the words by which aunt Lina Roberts, West Cisco negress promised the city health officer yesterday morning that she would comply with the city ordinance which requires that a standard sized metal covered garbage can must be used by all Cisco families.

Aunt Lina now has her garbage can and Dr. Gregory says he is highly pleased to see that practically all Cisco residents are realizing the necessity of keeping garbage tightly covered from the dangerous fly.

### HUMBLE GETS BIG WELL ON WHITE LEASE NEAR GORMAN THURSDAY A. M.

The Humble is reported to have a well making anywhere from 500 to 800 barrels a day on its white lease between Carbon and Gorman.

The well was brought in Thursday and is said by some to have a greater showing than the Hilburn well which came in for an initial production of 500 barrels which was later increased to 800.

### CISCO DELEGATION TO HILLSBORO FIREMEN'S CONVENTION WON'T GO

The Cisco Firemen delegation did not go to Hillsboro to the Volunteer State Firemen's convention, which meets there today for a three days session.

In explaining the reason one of the members said Monday that the local association failed to get a definite understanding with the Cisco Chamber of Commerce relative to inviting the State Association to meet in Cisco next year; and further, that the railroads refused to make any rate concessions. So they had a call meeting Saturday night and decided that they would not attend. The money that has been contributed for this purpose, they propose spending in some form of local entertainment.

Denon was in the field for the convention in 1921 and their literature shows a yard long photo group of college girls and proclaims that there will be 1500 of them at the reception committee. Cisco firemen were loth to go against this committee; but they should have gone and voted for them.

### POPULAR CISCO COUPLE MARRIED LAST NIGHT

A very beautiful wedding ceremony was performed last night at the home of Mr. and Mrs. Henry Dossett, when they gave their daughter, Opal, in marriage to Rex W. Moore. The service was performed by Reverend J. S. Stockard, with the assistance of Reverend E. H. Holmes, in the presence of the family and relatives. Miss Vista Mae Mahan played the wedding march. The bride looked very lovely in a wedding dress of flesh georgette, with a corsage bouquet of white carnations. Her traveling suit was of navy blue tricolette.

The bride has been a resident of Cisco for a number of years, and will be greatly missed by a host of friends here. She is very popular among the young people, and was active in church and social circles. The groom also was reared in Cisco, and is at present connected with the T. & P. railway at Clarksville, Texas, where they will make their future home.

The happy couple left on the 10:10 train last night, and were plentifully showered with rice by friends who had gathered at the station. The Pullman stateroom was beautifully decorated by the local T. & P. employees. Friends of the groom, who until recently was connected with the local station, of the T. & P.

### A Bushel of Corn.

The laws of most of the states recognize 74 pounds of ears or 55 pounds of shelled corn as a bushel of corn. These weights are reliable, says the U. S. department of agriculture, when the ears or shelled corn contain only 15 per cent of water. About one-third the weight of ear corn as customarily harvested in the northern states is water, while that harvested in the dried sections of the south contains less than 15 per cent of water.

Underwood and Hefflin Lead. BIRMINGHAM, Ala., May 11.—Incomplete unofficial returns gathered early tonight by the Birmingham Age-Herald, showed Senator Oscar W. Underwood and Representative J. Thomas Hefflin leading in the races for the senatorial nominations in the Alabama state democratic primary.

Available figures at 9 o'clock were: Long term: Underwood, 1,331; Musgrove, 946; Weakley, 123. Short term: Hefflin, 291; O'Neal, 167; Rushton, 144; White, 125.
