## ENGINEER FINDS ROAD PROJECTS TO BE 77 PER CENT COMPLETED AT PRESENT

### ARBUCKLE IS CHARGED WITH MANSLAUGHTER BY GRAND JURY

SAN FRANCISCO, Sept. 14.—Two charges are pending against Roscoe Arbuckle in connection with the death of Miss Virginia Rappe. The San Francisco grand jury last night voted an indictment charging manslaughter.

### SECOND FLOOR OF BUILDING IS GUTTED; LOSS AROUND \$50,000

Inflicting damage estimated at approximately \$50,000, the second story of the Winston building on Avenue D, just north of the Garner department store, was completely gutted by fire late yesterday afternoon.

The fire is believed to have caught in the Walton studio in the rear of the second story.

Partitions in the building were of heavy board and burned like powder. The fire department succeeded in holding the flames to the second story, although stores on the ground floor were damaged by water to the extent of about \$25,000.

Professional men officiating upstairs over the so-called drug store on the south moved out their libraries and fixtures, but flames were held in check and never crossed to this building. However, some damage was caused from water.

Several thousand people witnessed the fire, which came as most of the larger stores were closing for the day and at a time when most workers in the city were preparing to go to their homes.

The estimated losses follow: George and Bob Winston, damage on building, \$14,000.

Brook confectionery, damage from water, \$7750.

Art shoe store, damage from water, \$23,000.

Z. M. Taylor, office, total loss, \$350.

Fraschall & Sons, office, loss \$1200.

Barker & Barker, loss \$2500.

C. S. Leoney, loss \$25.

Vaughan & Patterson, slight damage from water.

W. R. Tomlinson, loss not estimated.

Walton studio, loss not announced, but probably \$5000.

Practically all losses in fire were covered by insurance. One or two of the smaller losses were probably not covered, according to information received by Fire Marshal Carmichael.

Considerable time will probably be required in adjusting the water losses on Art's Shoe store and the Brook confectionery.

EDITOR BLAMES ILLICIT BOOZE IN ORGIES FOR GIRLS

NEW YORK, Sept. 14.—Conditions which brought about the death of beautiful Virginia Rappe in San Francisco, obtain along Broadway, only on a much larger scale, according to Stephen Clow, editor of "Broadway Brewities," and known throughout the White Light district by thousands as "Steve."

"The tragedy of Virginia Rappe just happened to be staged in San Francisco," said Clow yesterday. "The same thing might have happened here and illicit booze is the cause."

### FRIESTEDT MAN THREATENS SUIT AGAINST CITY

J. H. Richardson of the Friestedt company today made the following statement:

"Numerous articles have appeared in the press of this city and numerous rumors have been afloat in connection with the construction, by the H. F. Friestedt company, of the dam at Lake Cisco.

"From statements made, it would appear that they were inspired not so much for the purpose of giving to the taxpayers of your city the true situation as it has existed for the past few months, but rather to make it appear that the fault lay with the contractor. Notwithstanding many incorrect statements and untrue charges that have been made against the Friestedt company it has refrained from answering such charges because it felt that it did not desire to embarrass the city administration, but, on the contrary, did desire to do all that was humanly possible to make the construction project a success and give taxpayers value received.

"The Friestedt company has never at any time and is not now in default under its contract. It proceeded to do the work specified by the city engineers until about June 10th, when it presented to the city for payment an estimate which had been certified by said engineers. For the first time it was then told that the city had no funds to make such payment and the Friestedt company, therefore, suspended work, notifying the city thereof.

"Representatives of the company have had numerous conferences with the city officials and in no one of these conferences has it ever been suggested by anyone representing the city that the Friestedt company was in default under its contract. On the contrary, it has been stated time after time by said officials that the city was without funds to make the payments due the company and that situation so far as the company is advised remains true today. The company has offered to do everything that might reasonably be asked of it either in the way of continuing the contract, or permitting the city to take over the work, making a fair and equitable settlement with the company for the money it has expended and the work it has done. So far the effort put forth by the representatives of the company has brought no results and the company has, therefore, come to the conclusion that its only remedy to get what it is justly entitled to is through the courts."

### TOPICS FOR ARMS PARLEY ARE SENT OUT

WASHINGTON, Sept. 14.—The American government sent to the governments of all the powers invited to participate in the conference on limitation of armaments and the far eastern question a list of topics for discussion.

### MOORE GIVEN JUDGE'S PLACE BY ASSEMBLY

GENEVA, Sept. 14.—John Bassett Moore of the United States was elected a judge of the international court of justice by the assembly of the League of Nations on the second ballot of voting for members of the court which began here today.

Moore's election was confirmed by the council. Other judges were elected on the first ballot. They are from Spain, Brazil, Great Britain, Chile, Cuba, France, Japan, Holland and Italy.

### PARTISAN LOBBIES SWARM ON OUTSIDE OF GRAND JURY ROOM; CITIZENS SAY SCENE DISGRACEFUL

Scenes around the grand jury room in Eastland are similar to those enacted around committees of the state legislature before the enactment of anti-lobbying laws, Cisco citizens who have lately been in the county seat declare.

Partisans of both sides in the road controversy are swarming like bees around the grand jury room, it is declared, and the issues coming before that body would be clouded with partisan fights, if these partisans were able to bring about that condition, it is declared.

"If I were a member of the grand jury I would seek the indictment of every one of these partisans unless they ceased their activity," one prominent Cisco man declared.

"In the interest of good government and the rights of the people it appears to me it would be a good thing to remove the county seat from Eastland, though this is manifestly impossible. There can be no question but that county affairs are in a deplorable condition as a result of these wrangles and this lobbying," he declared.

### MAYOR BREAKS UP THRIVING BUSINESS WHEN DOCTOR'S WIFE REPORTS PLEA OF MENDICANT

A thriving business firm was broken up, at least temporarily, the other day by Mayor Williamson.

A young man appeared in the west part of the city with a pitiful tale to housewives that he was a sufferer from tuberculosis and that he was soliciting money to go to a higher, drier climate.

He touched the sympathies of most of the women in that neighborhood, who contributed liberally. But he made the fatal mistake of calling at the home of a doctor for alms. The doctor's wife decided he did not look like a tubercular.

She telephoned the mayor and members of the police department were sent out to get the man. When brought to the city hall he was inclined to be inquisitive.

Finally he was taken to Dr. J. W. Howell, city health officer, for examination. The examination disclosed his lungs were in perfect condition and that he was otherwise strong physically.

Further investigation showed he had a business partner. This partner was of the tribe of Benjamin, and possessed of all the business acumen usually accorded members of that tribe. It developed he was the business manager, sending the young man out with his pitiful tale, and splitting the proceeds at night.

A fine of \$10 and costs was imposed on the young man by the mayor. The total was \$20.70. The partner appeared and offered to square up for \$10. When this was refused he offered \$15. When this was also refused he paid the fine in full, and the pair left the city and are probably now working the tubercular graft in some other western town.

The boy said his home was in Missouri, while his business manager claimed a domicile in Texas.

### UNION MEN IN CHICAGO NOW RESUMING JOBS

CHICAGO, Sept. 14.—Facing the possibility of the open shop in Chicago building industry and spurred to action by the refusal of Judge Landis, arbitrator of wage decisions, for a rehearing until they are at work, union men here are returning to their jobs in large numbers today.

SEVEN RESCUED FROM PLANE. Groton, N. Y., Sept. 14.—Seven persons, three of them women and two children were rescued from a wrecked seaplane after W. H. Manners, pilot of the plane, and a mechanic named Baldwin had swum more than a mile in the Hudson river and were picked up by a launch which answered the shouts and cries for help.

EXCURSIONISTS DROWN AS BOAT CAPSIZES IN RIVER. MADRID, Sept. 14.—More than 20 persons are missing as a result of the capsizing of an excursion boat in the Segre river today near Lerida. There were 50 persons aboard.

GALVESTON MAYOR TABOOS ARBUCKLE FILMS. GALVESTON, Sept. 14.—Mayor Charles Keenan ordered that go "Fatty" Arbuckle films in Galveston during the pendency of Arbuckle's trial or until it was proved that he is not guilty of the charges against him.

### PETITIONERS ALSO ASKING RECEIVOR FOR CONTRACTORS

EASTLAND, Sept. 13.—Suit was filed in the 89th district court late yesterday afternoon by attorneys representing the citizens' committee asking a receiver for the Fleming-Stitzer Roadbuilding company, and injunction restraining the commissioners court from selling any more county road bonds except for cash at par.

The petition cites numerous alleged discrepancies in the contract made between the county and Fleming-Stitzer. Every member of the commissioners court is made a party to the suit, although the petition says Henry Stubblefield, commissioner from this precinct, "was not a member of the commissioners court of Eastland county at the time the proposed contract was made and entered into; that said Henry Stubblefield is not seeking to aid or assist the other members of the commissioners court in any unlawful acts, and said Henry Stubblefield is not responsible individually for the unlawful acts herein complained of, but he is made a party hereto in order that the rights of Eastland county in the premises may be properly protected."

The petition also seeks an annulment of the road contract with the Fleming-Stitzer company, citing many alleged irregularities, most of which have been recanted in public discussions of the matter. An injunction restraining Fleming-Stitzer from removing any funds from the Security State Bank & Trust company is also sought on the ground that the company owes the county \$148,169.

In seeking the receivership for the company the petition also asks that all property in the county belonging to it be taken in charge by the receiver and administered for the creditors, among them the county.

Conspiracies are charged in the petition, the county judge is roundly scolded and all the disputed points in the road controversy are incorporated in the petition.

### ENROLLMENT IN PUBLIC SCHOOL IS 1231 THE FIRST DAY OF TERM

One thousand, two hundred and thirty-one pupils were enrolled in the public schools of Cisco on the first day, according to figures compiled by Superintendent Godbey.

The report follows: Kindergarten, 20; primary, 30; south ward, 84; east ward, 249; west ward, 575; high school, 273.

This is understood to be considerably in excess of the enrollment for the first day of the term last year, and is an agreeable surprise to many citizens who expected a decrease in the enrollment. The figures will again be materially increased when the compulsory attendance period is inaugurated.

The report for the first day showed that seven pupils were enrolled from out of the state, states represented being Kansas, Florida, Louisiana and Georgia. There was an enrollment of thirty-five from other schools.

All grades were getting down to business this morning and the regular routine will soon be in force.

The exact increase in enrollment over the first day of last year is twenty-five. The high school enrollment is two more than the first month last year showed.

The enrollment by grades follows: Kindergarten and first grade, 188; second grade, 153; third grade, 144; fourth grade, 138; fifth grade, 118; sixth grade, 133; seventh grade, 84; high school, 273.

The enrollment in the negro school opening day was 16, making a total both white and negro of 1247.

GERMAN MARKS GO DOWN. NEW YORK, Sept. 14.—Cables from London and Paris intimating Germany may temporarily default further reparations payments to the allies forced marks down to 0.915 in the foreign exchange market—the lowest recorded in the memory of local dealers.

### NEWSBOYS ON KATY HELD IN LIQUOR RAID

DENISON, Sept. 14.—Two newsboys on the Katy running between Denison and St. Louis are under arrest and about seventy quarts of bonded whiskey is in the sheriff's office here as a result of a raid on a local rooming house. Officers believe the accused regularly transport liquor into Denison.

CANADIAN CROPS ROT, CAN NOT PAY HIGH WAGES. WINNIPEG, Sept. 14.—Crops are rotting on thousands of acres of land in Saskatchewan because labor is unobtainable at wages farmers are able to pay.

WILLIAM E. WILLIAMS DIES IN PITTSFIELD, ILL. PITTSFIELD, Ill., Sept. 14.—William E. Williams, former democratic congressman at large from Illinois, died here yesterday. He was 64 years old.

FIRST CHAMP GAME GOES TO FORT WORTH. MEMPHIS, Sept. 14.—The post-season series between Memphis and Fort Worth for the southern championship will start with the first game in Fort Worth September 21. It will be a seven-game series, the winner of four games to be declared the champion.

### SUITS CAUSE ABANDONMENT OF PLANS FOR STARTING ROAD

No action was taken by the committee of eight yesterday afternoon in Eastland looking to the resumption of work on the Cisco-Rising Star road, Mayor J. M. Williamson said this morning.

Mayor Williamson said the matter could have been worked out but for the filing of a suit by the citizens' committee asking annulment of the county's contract with Fleming-Stitzer and injunction against the sale of bonds. He explained this was not to all citizens, that warrants hereafter issued might be nulled and for that reason no merchant would desire to take them. The filing of this suit would probably have the effect of stopping road work in progress at other points, he explained.

Mr. Williamson is of the opinion the committee of eight has done all it can in the road matter, and it will probably so report to the general committee when it meets in Eastland next Friday.

"As I see it we could accomplish nothing more without becoming partisans of one side or the other," the mayor said.

"This we have steadfastly refrained from doing, and we will continue that policy. The general committee, when it receives our report, may do as it likes with reference to further action."

It has been suggested that the general committee might submit the facts as produced by the committee of eight to the citizenship of the county, along with an appeal to public sentiment to force an early settlement of all the issues involved.

### NEW BANK IN RANGER GIVEN STATE CHARTER

AUSTIN, Sept. 13.—The state banking board today licensed the People's State bank of Ranger. The new bank is capitalized at \$100,000 and is a guaranty fund institution. J. C. Strubbing of Llano is president and Clay Fowler of Ranger cashier.

Banking Commissioner Ed Hall said today that the most interesting bearing of the insolvent Guaranty bank of Ranger, amounting to \$641,000, were now being paid out of the state guaranty fund.

### DEPUTY SHERIFF LOCATES GANG OF BOY THIEVES

Two youthful desperadoes in the German community south of the city had their careers cut short the other day when Deputy Sheriff C. S. Leoney made an investigation following numerous complaints of the loss of automobile lights, inner tubes, etc.

When he located the boys, who were only 16 years old, they made a clean breast of the affair and were extended clemency on their promise to reveal the hiding place of the goods, which they did. They also agreed to cease their depredations.

### HIGH POINTS ABOUT ROAD PROJECTS IN CISCO TERRITORY

The report shows the road from Cisco to the Callahan county line is 7.2 miles long, that grading is 90 per cent completed and that all bridges and culverts are completed.

From Cisco to Eastland, a distance of 9.5 miles is shown, with grading 90 per cent completed and all bridges and culverts in.

From Cisco to Breckenridge, project 12.3 miles long, grading is 90 per cent completed, base rock rolled on 2.5 miles and bridges and culverts 78 per cent completed.

From Cisco to Romey, 3.7 miles, grading 90 per cent completed and all bridges and culverts in, base rock in place on 2.3 miles and base rock rolled on 2.4 miles.

The recapitulation for the whole county shows bridges and culverts 60 per cent completed, grading 90 per cent completed, lengths of projects under construction 140.9 miles, and the total completed, 77 per cent.

### INSPECTION SHOWS ONLY FEW ERRORS BY ENGINEERS

At the time road construction in Eastland county was suspended, projects totaling 140.9 miles were under way, and these were 77 per cent completed, according to the report of John Mead, civil engineer, submitted to the committee of eight in Eastland yesterday.

The report of the engineer calls attention to the fact that he has not considered the financial phase of road construction at all, this being a matter for the auditor, whose report he said he had not read.

Nothing seriously wrong in the construction of roads was found by the engineer, according to his report. In some instances he found some faulty construction, which he says can be remedied by using the 10 per cent on estimates which was held back.

Much Work Done. He declares he found a great deal of road work accomplished, that considering the contractors had to perfect their organization he considers they have done well with the construction. He also asserts that county engineers and employees have been courteous and have extended every possible co-operation.

F. E. Harrell, secretary of the committee of eight, announced this morning that a meeting of the full county-wide committee had been called for Friday afternoon in Eastland, at which time the committee of eight will make its report.

Refuses Comment. He refused comment upon the report of the engineer further than to say that "I believe it is an honest report as he sees it." He also said he had been told by the committee of eight to caution newspapers against placing misleading headlines over the report, members of the committee objecting especially to the banner line over the auditor's report carried in the Daily News, which said "Auditor Exonerates County Judge Starnes." Members of the committee apparently interpreted the headline as meaning that the committee of eight had exonerated the county judge, when as a matter of fact it did not, in any sense carry that meaning and fairly expressed the contents of the auditor's report.

J. W. Cockrell of Gorman, member of the committee, expressed the opinion that road work in the county would not be resumed until some official changes are made at a regular election. He based this conclusion upon the suits now pending in the district courts at Eastland.

Excerpts From Report. Excerpts from the report of the committee's engineer follow: "A large percentage of the grading on each of the roads has been done, but very little of the grading, except where the road rock has been placed, has received the final finish. However, the ten per cent reserve fund provided for in the specifications should, I think, be sufficient to put all the grading in good shape."

"It was also noted that a considerable percentage of the bridges and culverts had been completed and on some roads all of them."

"Taking the results of our checks as a whole items as determined by our measurements and those of the county engineer are very close (together) our totals being 40785 and his 40402, or a difference of only 383 cubic yards, thus showing that the county engineer has rendered a fair estimate to both parties to the contract, insofar as the matter of the quantities is concerned."

The engineer says he inspected the concrete work at the bridges and culverts and that while all are sufficiently strong to carry any loads that may come upon them, a considerable number are not of the highest standard of finish. He says these improvements can yet be made by the ten per cent reserve fund.

He says he noticed a negligence upon the part of the contractor in some instances in preparing the sub-grade. He does not think there is any large percentage of the road in this shape, believing the practice started after dry weather began. He says it was promised that this manner of preparing the sub-grade would be speedily corrected.

Work Should Start Soon. Owing to the unfinished condition of a great deal of the work, the engineer recommends that the work be resumed at the earliest possible moment to avoid deterioration.

# "FATTY" FACES FIRST DECREE CHANGE

## SAN ANTONIO IS NOW ENGAGED ON BIG TASK OF REHABILITATION

SAN ANTONIO, Sept. 12.—Debris damaged property and rehabilitation work were the principal reminders today of the five-hour flood here Saturday.

Business outside of the inundated district and sections where the water was not deep and where the work of cleaning is practically completed yesterday was resumed as usual.

The exact number of dead and the bodies recovered remained slightly in doubt early today, the list varying from 48 to 47 recovered. In several instances bodies previously unidentified were reported as newly found when identified and in a few instances the same body was being designated under two names.

Many funerals were held yesterday and more are being held today.

Early reports today from along the San Antonio river south of San Antonio failed to indicate any loss of life.

Night reports from Falls City and Goliad, both on the San Antonio river were that the water was high but no loss of life was reported or expected. There had been some damage in the low lands but nothing serious was reported from the two cities.

## COUNTY TO NAME NEW DEPOSITORY SEPTEMBER 26

The commissioner, court, at a meeting to be held on September 26, will select a new county depository for Eastland county. According to announcement by County Judge Starnes any bank or banking firm in the county is eligible, and bids must be accompanied by a certified check for \$50,000, guaranteeing the execution of a good and sufficient bond in case the bank is selected.

The Security State Bank & Trust Company of Eastland was the county depository. It recently closed and this fact makes the selection of a new depository necessary.

## FEDERAL EMPLOYEES IN ANNUAL MEETING IN NEW ORLEANS

NEW ORLEANS, Sept. 12.—Government employees with occupations ranging from scientist to charwomen were represented at the opening here today of the fifth annual convention of the National Federation of Federal Employees.

Reclassification of the civil service on a merit basis, elimination of politics in appointments and promotions and a standardized pay scale fixed according to skill and training, three measures which the federation is campaigning for, will be again discussed at this meeting.

Several hundred delegates are present. They come from every government service.

Luther C. Steward of Kansas City is president of the federation and E. J. Newmyer of Washington, D. C., secretary-treasurer.

## SCHOOLS OPEN WITH RUSH AT ALL BUILDINGS; REPORT TONIGHT

Superintendent Godbey announced at noon that returns from the west ward school showed an enrollment of 388, and in a few cases over last year, despite the fact that many of the pupils were transferred to the new south ward school. Reports from other schools were that they are crowded and the enrollment is expected to exceed the first day's figures of last year.

The superintendent also announced that kindergarten pupils will attend in the kindergarten room on the high school grounds as last year. Children 5 years old and over will be accepted. All primary pupils under school age in the west ward district will attend in the afternoon. Tuition for both kindergarten and primary work will be \$3 a month in advance.

The public schools of Cisco opened this morning for a nine month term. Exact enrollment could not be learned at noon today, but it is thought to have been more than a thousand.

Enrollment during the first month of the term last year was between eleven and twelve hundred, and Superintendent Godbey is confident it will be as much this year.

All teachers were on the job this morning. They will make detailed reports on attendance to Superintendent Godbey at 4 o'clock this afternoon.

Dealers in school supplies did a land office business all through the day, as many happy-faced children wended their way toward the buildings.

The old pun that boys regret to see the opening of school was exploded by one pair.

"Aren't you sorry school is starting," one of them was asked.

"No, there is more fun at school than there is during vacation," he answered.

## GOVERNMENT WILL DEMAND BERGDOLL GOLD SAYS CUSTODIAN

WASHINGTON, Sept. 12.—The government is going after the famous Bergdoll "pot of gold," alien property custodian Miller announced today.

A complaint has been prepared demanding of Mrs. Emma Bergdoll, an attorney in fact for her son, Grover, all property in which he held an interest, including the gold coin taken from the treasury before Grover escaped. It is expected the complaint will be filed in Philadelphia.

## STREET CAR FAILURE IN DES MOINES STARTS ARGUMENT ON BUSINESS

DES MOINES, Ia., Sept. 12.—The extensive trial of motor buses here recently for the several weeks the street cars were not running has led to much discussion of their value. The motor bus people have offered, if given a three-year franchise, to supply up-to-date buses enough to carry 100,000 passengers to and from the business district daily.

Merchants are generally against the proposal as they think buses could not be made warm enough in winter to bring out the usual number of shoppers.

The buses, which were licensed by the city, undercut the street car company, charging five cents to the street car company's eight cents in town, and 10 cents as against 16 cents for the suburbs. The bus people said they hauled 70,000 passengers daily, but street car officials claimed they handled more than 40,000.

## REVIEW SHOWS COMMERCE OF COUNTY BETTER

NEW YORK, Sept. 12.—Events of the week in the financial and commodities market tended mainly to heighten the impression prevalent in informed quarters that the recession of the last eighteen months had come to an end.

Further recovery of prices synchronized with reassuring statements from professional shrews. These stressed the belief that the period of deflation had exceeded the limits of safety and that the country was on the eve of another era of prosperity.

Washington and other official and unofficial points of information and observation voiced similar sentiments. These were buttressed by evidences of increased production in such basic industries as the steel and textile grades.

The further rise in cotton was hailed with satisfaction not only in the South and Southwest, but at principal reserve centers. Hopes were entertained of a speedy release of the enormous credits so long tied up in that staple. Active buying continued in the bond market, that list for the most part reflecting a better tone than any but the more seasoned or representative stocks. New offerings were so freely taken as to justify the opinion that investors had thrown off their post-war timidity.

Larger sums of money were available at fairly easy quotations for sixty and ninety days, but bankers intimated that moderate stringency might sense the coming week when heavy income tax payments mature.

The foreign situation as expressed in terms of exchange is the most disconcerting development of the week. Sharp depreciations of marks to an unprecedented level confirmed private advice suspecting Germany's internal affairs. Weakness of Belgian and Italian rates as well as those of several of the new nations, notably Poland, was indicative of greater economic strain.

## ROBERTS WELL TO START WORK AT EARLY DATE

Timbers are on the ground for the derrick for the G. R. Roberts test well, which is to be drilled southwest of Cisco. It is expected the rig will be on hand within a short time. It is coming from the Hillburn field.

Mr. Roberts has contracted with the landowners in the vicinity, who gave him 1500 acres in leases, to go to a depth of 4000 feet if oil in paying quantities is not found at a shallower depth. He has very favorable reports on that section from the state geological department and is confident of getting a good producer.

It is probable that actual drilling operations will be started now within a few days. There are yet a few details of the contract to be arranged, but it is expected these will be completed early this week.

## TEACHERS LAUNCH A BOOM FOR HUBBARD AS PRESIDENT

TEMPLE, Sept. 12.—A movement has been launched to elect L. H. Hubbard, superintendent of Belton city schools, as president of the Texas State Teachers' association, which holds its convention in November this year. The boom was started by the Ten-County Teachers' institute of Bell, Milan and Williamson counties, which held its session last week at Belton, and of which Hubbard was director general.

## NEW YORK REPUBLICANS IN FOUR CORNERED CITY FIGHT; MAYOR HILAN IS UNOPPOSED

NEW YORK, Sept. 12.—A four-cornered fight for the Republican nomination for mayor overshadows all other features of the primaries Tuesday. Mayor John P. Hylan is unopposed on the Tammany Hall ticket, but there are a number of contests for minor offices.

Nearly 1,175,000 enrolled Republican and Democratic men and women will be entitled to vote, the Republican registration being 643,630 and the Democratic 531,167.

The Republican nominees are: Major Henry H. Curran, war veteran, lawyer, former newspaper reporter, Yale graduate and now president of the Borough of Manhattan.

Major F. H. La Guardia, of Manhattan, former congressman, president of the board of alderman, and an airman during the war.

Judge Reuben L. Haskell of Brooklyn, prominent in politics in that borough, who was elected a county judge last year on a wet platform.

Former State Senator William M. Bennett of Brooklyn, a figure in borough and state politics, who unexpectedly wrested the Republican nomination for mayor from the late Mayor John Purroy Mitchel four years ago.

Major Curran is the nominee of the coalition Republican forces and has the endorsement of the regular Republican machine. Major La Guardia is at present outside the pale of the regulars. Judge Haskell, also an outsider, has made an issue of the prohibition question. Mr. Bennett is opposed to old line

## DUSKY BELLES STAGE BATTLE FOR MAN'S LOVE

Two dusky maidens battled for the love of a black Adonis on one of the principal streets of the city yesterday evening, with the result that one of them spent the night in the city jail, and the other is liable to land there before nightfall.

It also resulted in an official investigation to determine whether or not the man in the case is married to one of the women, as he claims.

During the progress of the fight the woman held in jail asserted the man was not married to the other woman and "that he is much mine as hers."

The investigation will determine whether or not one has a preferential right, given by the law, to the affections of the man in the case, who, regardless of the enmities of the maidens, would take no prizes at a beauty show, either on features or physique.

## CITY WILL GET FINAL REPORT OF AUDITOR TONIGHT

T. P. Taylor returned this morning from Houston and will submit his final audit of city books at the meeting of the city commission tonight. This report will then be placed on file at the city hall for the inspection of the public. It is understood, and will also likely be published.

The commission tonight will declare the result of the recent \$500,000 bond election for the completion of the dam at Lake Cisco and will likely lay first plans for the sale of the bonds and the resumption of the work on a large scale.

## NATIONAL EXCHANGE CLUB MEETS THIS YEAR IN TOLEDO, O.

TOLEDO, O., Sept. 12.—The tenth annual convention of the National Exchange club will be held at Grand Rapids, Mich., September 26 and 27. Secretary H. M. Harter of this city expects a thousand delegates representing 200 cities.

The first club was formed in Detroit April 11, 1910, from a luncheon club with a membership of 24 business men, each with a different business classification, and all that have followed have held to this idea.

Adoption of a national welfare project and possible investigation of American naval prisons are to come before the convention.

Hercules S. Earle of Detroit is president of the national club. Other officers are L. C. Harris, Grand Rapids, first vice-president; Judge Anthony F. Illner, St. Louis, second vice-president; Ray L. Lange, Birmingham, Ala., third vice-president; R. Rudick, Cincinnati, treasurer; R. A. Hayes, Cleveland, marshal, and Charles P. Whitall, Springfield, Mass., sergeant-at-arms.

**LOCAL CONTRACTORS FORM PARTNERSHIP**

R. S. Glenn and W. S. Wooten have formed a partnership in the business of architecture and contracting and will open permanent offices within the next two weeks, according to announcement by Mr. Wooten. Mr. Glenn is at present erecting a building in Zanesville and Mr. Wooten is maintaining a temporary office at the Gilbert grocery.

Do you know you can roll 50 good cigarettes for 10 Cts from one bag of

GENUINE "BULL" DURHAM TOBACCO

We want you to have the best paper for "BULL." So now you can receive with each package a book of 24 leaves of BULL—the very finest cigarette paper in the world.

## MEXICO IS NOW IN FULL SWING OF OBSERVANCE OF INDEPENDENCE

LAREDO, Sept. 12.—In her capital city, Mexico's centenary of independence is being celebrated on an elaborate scale, according to visitors returning to Laredo.

Beginning with the first of September the secretary of state has been formally receiving the foreign delegations and the diplomatic corps with their official messages of felicitation, which were presented on September 10. On that date also 20,000 poor people of Mexico City were presented with clothing and eight public dining rooms were opened for the poor.

On the 11th the educational exposition and babies' week opened. The city council will give a gala function at the Arbeau theater on the 13th. On the 14th there will be a trip to San Juan Teihuacan, where the archaeological discoveries have been made, as well as the opening of the Juridic congress at the Arbeau theater.

On September 15, the anniversary of Hidalgo's declaration of independence, before the vast assemblage of school children of the federal district, President Alvaro Obregon will take the "oath to the flag" and at 11 o'clock that night the traditional "grito" or cry of Hidalgo: "Viva la independencia Viva Mexico!" will be given by President Obregon from the balcony of the national palace, with the ringing of the bell of the church at Dolores Hidalgo, upon which sounded the first call of liberty.

Homage will be rendered by the president and his cabinet at their altar in the cathedral on the 16th—Mexico's independence day—with characteristic popular celebrations at the various theaters and motion picture houses throughout the city. At various points in the capital there will be fireworks on the night of the 16th. The centennial lottery, with a grand prize of 500,000 pesos, will be carried out, the proceeds for the benefit of the invalid soldiers' institution.

The first international congress of students will be opened on September 17, and the Mexico and Toluca railroad will be opened on that day. There will be a great parade of industry and commerce, floral contest, allegorical floats and combat of flowers, with a banquet to the president and the guests of the centennial by the bankers of Mexico City on the 18th. On the 19th the popular art exposition will be inaugurated and a special opera night held. On the 22nd the children's playground donated by the American colony will be dedicated.

"Mexican night," with a great popular display of typical Mexican customs and costumes, will be celebrated at Chapultepec park the night of the 23th. On the 27th there will be a tribute to the insurgent soldiers and a grand military parade of 15,000 men, as well as the opening of the National Geographical congress. President Obregon will give his farewell banquet and reception on September 30. The commercial exposition, Italian opera company and American theatrical artists have been engaged for an all-month performance.

## 40 MEXICANS LOSE LIVES IN TAYLOR FLOOD

HOUSTON, Sept. 12.—Early reports here today indicate the Brazos and Colorado rivers where danger was feared yesterday were receding. A three-foot fall was reported at Hearne.

Aside from reports from Taylor that forty Mexicans were drowned and a report from Hearne that seven negroes were drowned, reports of life were few and far scattered.

Tremendous loss of live stock, corn and cotton, however, are expected to run into the millions. Observers were inclined to believe early today that the worst was over in the Houston territory.

## FLOOD NOW RECEDED IN CENTRAL TEXAS

DALLAS, Sept. 12.—Partial restoration of communication to the flood-stricken section of central Texas to noon today, the list of dead, based on unconfirmed reports, and exclusive of more than forty dead in San Antonio, to more than fifty. The figures are subject to revision.

The waters are receding in central Texas, but are overflowing in the southern reaches of the streams.

## ONE MAN REPORTED DEAD IN TEXAS & PACIFIC WRECK

ABILENE, Sept. 12.—One man was reported killed in the derailment of the dining car and three sleepers on the Texas & Pacific Sunshine Special, east-bound, between Sierra Blanca and Van Horn last night, according to information received here. The man is said to have been riding on top of the dining car.

## BAIL IS DENIED TO FAMOUS COMEDIAN BY OFFICERS IN 'FRISCO

SAN FRANCISCO, Sept. 12.—Formal charges of murder in the first degree will be preferred against Roscoe (Fatty) Arbuckle motion picture comedian, under arrest here in connection with the death Friday of Miss Virginia Rappe, film actress, according to police.

## Arbuckle is held without bail in the hall of justice here. The case is scheduled to be brought before the grand jury here tonight.

Charge Is Verbal.

Arbuckle is not held on a warrant because the papers could not be legally made out on a Sunday. However, when he came in Saturday night from Los Angeles, Detective Captain Matheson placed his hands on the comedian's shoulder and verbally charged him with murder.

Arbuckle arrived back in San Francisco in his famous cream-colored custom-built automobile, often compared to a Pullman car, from Los Angeles whether he had hastened after Miss Rappe's alarming condition caused the dispersal of the "party." He wore a Norfolk jacket, dark green golf breeches, woolen stockings and tan low-cut shoes.

Is Highly Nervous.

He was highly nervous. From an ornate, gold-inlaid silver cigarette case he took cigarettes one after another, fapped each delicately on his thumbnail and smoked them chain fashion, lighting a fresh one from the butt of the one before.

Fatty was booked on the jail blotter on the same sheet with a derelict locked up for vagrancy.

"Ezra" Arbuckle, native of Kansas, age 34; 5 feet, 10 inches; complexion ruddy, hair light brown, inclined to be stout," mumbled Detective Sergeant Tom Regan, writing down Arbuckle's descriptive list.

## EIGHT THOUSAND SCHOOLS IN STATE READY TO OPEN

AUSTIN, Sept. 12.—With the month of September calling the youngsters of Texas from their vacations and bidding them start nine months of schooling, the state department of education is supervising the opening of the public schools of the state.

Most of the schools of Texas commence during September, although there are rural schools which do not open until as late as November 1. Even then the dates of the actual opening are doubtful, the board of trustees determining the date usually by the condition of the farm crops about that time.

There are by actual figures obtained from the department of education, 8675 public schools in Texas. This number includes high schools, grade schools and the rural schools. There are 1,271,000 scholars in the state, including children attending all public schools.

The department has no actual record at present of the number of teachers to be employed during the next school year, but an approximate estimate by the department here places it between 30,000 and 32,000 teachers. There will be no shortage of teachers, the department heads say, there being little difficulty experienced by school boards in filling vacancies.

## Details of Orgy Bared

U'Ren and Captain of Detectives Duncan E. Matheson visited Mrs. Maude Delmont, friend of the dead actress, Sunday afternoon and were closeted with her at the St. Francis hotel for several hours. At the close they made no statement except that the case against Arbuckle was even stronger than the lying testimony of Miss Pryon is being rigidly guarded. It is known that she bore out the previous testimony of Alice Blake, show girl, in telling of Arbuckle's retirement with Virginia Rappe into his bedroom, adjoining the room where the woman was being held, of hearing the girl's screams, and trying vainly to batter down the thick double door, and of how the door was finally opened by Arbuckle, clad in pajamas and dressing gown. Both girls stated that on entering they found Arbuckle lying ex-posed and disheveled. Attempts to restore her and relieve her pain followed. But there was every indication that Miss Pryon had made further revelations which the police refused to lay bare at this time.

"We do not care to show our hand," said Captain Matheson.

The coroner's inquest, set for Monday night, is hardly expected to bring out evidence not already made public.

## Death From Ruptured Bladder

At Matheson's direction, further examination today was made of the remains of Miss Rappe, which lie at the Hearne undertaking parlors here. The purpose of the inquiry was to learn whether there were additional bruises besides the large bruise on one arm, which is thus far the only known indication of actual violence. According to Dr. William Ophuis, who performed the post mortem examination, there were no marks of violence on the body and "absolutely no evidence of a criminal assault, no sign that the girl had been attacked in any way." Death, he said, had supervened from a ruptured bladder.

This was borne out by Dr. M. E. Runwell, who gave the added detail of a large bruise on the left arm.

Miss Jamieson, the nurse, in an interview, reiterated her previous statement that the girl, moaning with pain, had said to her:

"He crushed me and broke something inside of me."

He declared, however, that the girl's mind had been a blank as to much that had happened within the room of horror.

"I know from long experience that patients' statements must often be taken with a grain of salt," said Miss Jamieson.

"The girl was calling for me continuously through the twenty-four hours before her death. At times her mind wandered in delirium, while at others it was evidently clear. Everything that I have publicly stated thus far was said to me when she was, to my judgment, in proper possession of her faculties. When delirious, she made statements yet more extreme, which I shall not repeat until the trial and then with the qualification that I have mentioned."

## PARKS WINS GAME

PARKS, Sept. 12.—In the shortest game of the season Parks defeated the Stephens county Cowbock baseball team here Sunday by the score of 5 to 0. The game was played in one hour and five minutes.

# SAN ANTONIO DEATH TOLL MAY BE 250

## FARMERS WILL AGAIN MARKET CO-OPERATIVELY

The Pleasant Hill Marketing association, which in the last year of its activity, shipped more than \$100,000 worth of livestock to the Fort Worth market has been revived. I has been defunct for two years.

A meeting of around fifty farmers at the school house yesterday afternoon decided to revive its activities and they will start with the shipment of carload of hogs and sheep on September 20. Thereafter it is expected that at least one car of stuff will be shipped each month.

Speakers told the members of the association that the time had come when the farmers must revive their co-operative associations and work together. It was pointed out that the association had always proven profitable and that in the several years of its operation there had never been serious complaint by any member. It was also shown that the members received more for their livestock by the co-operative method of shipping and that expenses were reduced.

W. B. Starr, living near Cisco, presided at the meeting. He told of \$200 profit he made in excess of what buyers offered him on shipments amounting to \$1,200.

Secretary Richardson of the chamber of commerce pledged members of the association the active co-operation of his organization in any manner possible. There were several others present from Cisco, all of whom joined Mr. Richardson in pledges of co-operation.

The association has a membership of more than 300 scattered throughout this section of Eastland county. The members plan the feeding of hogs particularly on a large scale and shipping them in a co-operative way to markets.

## TWENTY MEXICANS' BODIES RECOVERED FROM SWOLLEN STREAM

CORPUS CHRISTI, Sept. 10.—The bodies of twenty Mexicans were recovered from swollen streams at McAllen today, according to reports here. Reports from Harlingen say the Rio Grande river and tributaries are out of banks.

## TWENTY-FIVE KILLED WHEN FAST TRAIN PLUNGES INTO DITCH

LYONS, France, Sept. 10.—Twenty-five persons were reported killed and sixty injured when an express train from Starbourg to Lyons was derailed tonight near here while running fifty miles an hour.

## CORPUS MAYOR ASKS FUNDS FOR VICTIMS

CORPUS CHRISTI, Sept. 10.—P. G. Lovenskiold, mayor, today issued a proclamation calling on Corpus Christi citizens to subscribe immediately to a fund for the relief of San Antonio flood victims.

## WEAK, NERVOUS, ALL RUN-DOWN

Missouri Lady Suffered Until She Tried Cardui.—Says "Result Was Surprising."—Got Along Fine, Became Normal and Healthy.

Springfield Mo.—"My back was so weak I could hardly stand up, and I would have bearing-down pains and was not well at any time," says Mrs. D. V. Williams, wife of a well-known farmer on Route 6, this place. "I kept getting headaches and having to go to bed," continues Mrs. Williams describing the trouble from which she obtained relief through the use of Cardui. "My husband, having heard of Cardui, proposed getting it for me. I saw after taking some Cardui that I was improving. The result was surprising. I felt like a different person. Later I suffered from weakness and weak back, and felt all run-down. I did not rest well at night. I was so nervous and cross. My husband said he would get me some Cardui, which he did. It strengthened me. My doctor said I got along fine. I was in good healthy condition. I cannot say too much for it."

Thousands of women have suffered as Mrs. Williams describes, until they found relief from the use of Cardui. Since it has helped so many, you should not hesitate to try Cardui if troubled with womanly ailments. For sale everywhere. E.53

## COMMITTEE TO WORK ON PLAN TO START ROAD

As the result of the action of a mass meeting of wholesale and retail interests at the city hall Friday night it is believed that work will shortly be resumed on the Cisco and of the Rising Star highway. Work is already in progress on the Rising Star end of the line.

The meeting was called for the purpose of working out a plan by which county warrants would be accepted by wholesalers and retailers furnishing the contractor on the road.

Mayor Williamson, a member of the committee of eight, having in charge the work of straightening out road affairs, told the meeting that Rising Star, Gorman, Eastland and Ranger have already resumed work under this plan. He explained that Cisco might suffer serious loss unless a similar move was started here, and stressed the importance from a trade standpoint of early completion of the Rising Star road.

The mayor told the business men that the exact time they would be required to carry the warrants is uncertain, but he did not believe it would be longer than ninety days at the maximum. He explained that he thought an arrangement could be made early this week for the transferring of Pet Brown from the Leaning road to the Rising Star road, if the plan to take the warrants could be worked out.

Merchants present expressed themselves as favoring the plan and a committee composed of Mr. Cate, Oscar Cllett, George Winston, Roscoe St. John and Guy Dabney was named to interview all interested parties and work out the plan. They will confer with Mayor Williamson and F. E. Harrell, local members of the committee of eight. It is believed that all data will be worked out and that arrangements will be made for starting the work within a few days.

## STORMS OVER SOUTH TEXAS ARE SUBSIDING

DALLAS, Sept. 10.—High winds and heavy rains which swept South Texas yesterday and today in the most severe storm of recent years, causing enormous property damage and injury to a number of people had apparently subsided today, according to reports from the cities affected.

Excluding the deaths in San Antonio, only one fatality that of a brakeman who was killed near Noonan in a wreck on the Southern Pacific, had been reported. Fifteen thousand dollars damage was reported at Austin and eight persons were injured. Various other localities in South and Central Texas reported abnormal rainfall with resultant washouts of bridges and roads and demoralization of communication facilities.

## OBSERVANCE OF FOUNDERS DAY PLANNED HERE

Texas Founders Day, November 10 is to be observed in Cisco under the auspices of the Rotary club, it was announced yesterday.

Arrangements are being made for the observance of the day in all sections of the state.

It is the one hundredth anniversary of the real settlement of the state by white men.

In Cisco it is planned to have a historical pageant, portraying the various areas of the state's history, from the time of the colonization to the present. These areas will include the colonization period, the period under Mexican rule, the state as a republic, then as an American state, as a Confederate state, and back again as an integral part of the union. The period under French rule will also probably be portrayed.

The event will come during the progress of the annual Central Texas Methodist conference and the city will be full of visitors. It is probable that in addition to the pageant there will be a patriotic speech by some prominent Texan.

The chamber of commerce and all civic organizations in the city will cooperate with the Rotary club in the observance of the day, it is announced.

## RIO GRANDE IS WELL WITHIN ITS BANKS AT BROWNVILLE, REPORT

BROWNVILLE, Sept. 10.—The Rio Grande is still well within its banks at all points between here and Rio Grande City, according to reports to the United States army radio station at Fort Brown. There is no confirmation here of reports of the drowning of twenty Mexicans near McAllen.

## AIRPLANE FALLS SEVENTY-FIVE FEET TWO MEN KILLED

ST. LOUIS, Sept. 10.—William Hensel, 17, passenger, was killed and Abe Brown, pilot, was injured when their airplane fell seventy-five feet here today.

## DELEGATES TO DISCUSS PLAN FOR MEETING

WASHINGTON, Sept. 10.—Preliminary discussions by the American delegation with a view to arriving at unified opinions, it was announced officially today, would be the next step taken in preparation for the disarmament conference which opens November 11.

## LABOR PLANS PARADES FOR ARMS PARLEY

WASHINGTON, Sept. 10.—Plans for a nationwide demonstration armistice day under the leadership of organized labor in support of the purposes underlying the international conference on armament limitation was announced today at the headquarters of the American Federation of Labor.

## FREE SITE FOR FLOUR MILL. CANADIAN, Hemphill Co., Sept. 10.—

The chamber of commerce has guaranteed a free site for a flouring mill at this place. J. P. Johnson of the Southwest National Bank is named as a representative of the chamber of commerce to carry on negotiations with persons who want to put in a mill. The new roads now being built into Canadian insure a greater supply of wheat next season.

## BANDITS LOOT TRAIN. PARKSVILLE, Mo., Sept. 10.—

Bandits held up and robbed a Chicago & Quincy train four miles north of here tonight. The engineer was forced to cut the engine from the train leaving the train at the disposal of the bandits. A posse has been organized to search for the bandits.

## VALUATION IS MADE ON ROCK ISLAND FOR RATE MAKING PURPOSES

WASHINGTON, Sept. 10.—Tentative value of the Chicago, Rock Island & Pacific railroad was fixed by the interstate commerce commission today for rate-making purposes at \$322,000,000.

## Putnam Takes Cisco Trade; Farmers Complain on Gin

Putnam is taking business which rightfully belongs to Cisco.

This statement has been made hundreds of times in the last two years, but no action has followed.

This city, with her retail business many times larger than that of Putnam, with a greater variety and with competitive prices, is seeing the business of the country people slip away to the smaller town.

There is just one reason for this condition.

Putnam is providing adequate marketing facilities for the farmer and Cisco is not.

## WHOLE COUNTRY GOING.

J. C. Sherman, long-time resident of Cisco, had occasion to visit Putnam this week. He found the Farmers' gin there running day and night and crowded with cotton. He met wagons loaded with the staple going into Putnam from almost in the shadow of Cisco. All the country around Moran, Dotian and other

Notice this delicious flavor when you smoke Lucky Strike—it's sealed in by the toasting process

## MANY DROWN AS BRIDGE BREAKS UNDER STRAIN OF LARGE CROWDS

CHESTER, Pa., Sept. 10.—At least twenty-five or thirty persons were drowned today following the collapse of one end of the bridge over Chester creek here. The collapse was caused, police said, by a large number of persons crowding on the footwalk watching a search for the body of a boy who was drowned a short time before the collapse occurred.

Nine bodies had been recovered tonight, while twenty-three persons had been rescued from the water. Police and firemen rushed to the scene to aid in the rescue work. The crowd on the bridge was composed mostly of women and children.

The bridge was an old-fashioned structure 90 feet long and cleared the water by 20 feet. It carried two trolley tracks and one foot path. The river was 15 feet deep where the accident occurred.

## SOUTH DAKOTA TORNADO FATAL TO THREE MEN

SIOUX FALLS, S. D., Sept. 10.—Three men are dead, one is missing and heavy damage was done to farm buildings at Whittin, five miles west of here, as toll of a tornado which struck early last night. Roads are impassable from fallen trees and debris.

## ABILENE WINS IN THIRD GAME OF PLAY OFF SERIES

ABILENE, Sept. 10.—Abilene defeated Sweetwater in the third game of the play-off series to determine the West Texas League championship by the score of 6 to 9. Abilene has now won two of three games.

## TWO ARE KILLED IN TRAIN ACCIDENT.

STAMFORD, Sept. 10.—Two persons were killed and three hurt in an accident to a car in a carnival train at Northerton this afternoon.

## MANY BODIES MAY BE HIDDEN BEHIND GREAT PILES OF DEBRIS ALONG STREAMS

## ALL IS READY FOR OPENING OF CITY'S SCHOOLS EARLY MONDAY

Vacation's over. Tomorrow morning between seven and twelve hundred Cisco kids and ladies of varying ages from 7 to 21 will shoulder the well-known books and file themselves away to the various ward schools and the high school building to imbibe nine months of learning.

Superintendent J. J. Godbey said last night the enrollment, in his opinion, would at least equal that of last year. In some quarters it is believed it will even exceed the enrollment of last season.

All buildings are ready for the opening. The new south ward building was completed yesterday after carpenters had put in some strenuous days. The teaching staff of forty-six is on hand and ready for the job.

It was announced last night that Miss Ella Saunders of Denton would arrive today to take the place of director of music. She takes the place of Miss Eloise Allison, who was forced to resign because of an operation on her throat.

Advance enrollment in the high school yesterday of pupils entering from outside of Cisco was thirty. No similar record was kept for the same period last year, and it is not known how the figures compare.

Out of town enrollment in the ward schools was reported to have been heavy, one principal reporting that three pupils enrolled from as many different states.

Superintendent Godbey expects to have complete figures on enrollment for the first day at 4 o'clock Monday afternoon.

Date for enforcement of the compulsory attendance period has not yet been set by the board of trustees, it was announced last night.

## RED CROSS IS READY TO GIVE SPEEDY RELIEF

WASHINGTON, Sept. 10.—While no request for assistance has come from San Antonio as a result of the flood there, the American Red Cross announced today its field directors in the vicinity had been directed to hold themselves in readiness to go to the stricken city on call.

## JUAREZ CHILDREN QUIT SCHOOL TERMS AS EL PASO STARTS

EL PASO, Sept. 12.—While children in El Paso are just starting to school, their neighbors, the children in Juarez, Mexico, are getting ready for a vacation.

The schools in Juarez have two terms and two regular vacations every year. The current term opened July 16 and will close at the end of November. The vacation period following will terminate January 7 and from that time to June 15 there will be another school term.

There are 3000 children in the Juarez schools.

## SAN MARCOS UNDER WATER.

SAN MARCOS, Sept. 10.—The greater part of San Marcos was under water this morning. However, little damage was done.

## CITY HEALTH OFFICIALS MOVE TO CLEAN UP STREETS BEFORE EPIDEMIC OF DISEASE STARTS

Whole Blocks Are Swept Clean; Many Tales of Heroism Are Current; All Sections of South Texas Affected by Storm and Heavy Rainfall; Young Flood at Austin; Milam County Suffers Damage.

SAN ANTONIO, Sept. 10.—With the known list of dead standing at forty at 4 o'clock this afternoon, police officials still believe their estimate of 250 lives lost in the disastrous flood which struck here early Saturday morning is conservative.

No attempt has been made to estimate the property damage, but it is certain to run into the millions.

Because of the continued swollen condition of the three streams which caused the flood work of recovering the bodies is progressing slowly. Great piles of driftwood which lodged in trees and against bridges, when removed, it is feared, will reveal additional dead. Many bodies are believed to have floated down stream and may never be accounted for.

With the waters of the San Antonio river, Alazan and San Pedro creeks back in their banks for only a few hours, relief work and military precautions are already under way.

Well organized relief committees have already begun caring for flood victims and city health officials are engaged in a clean up of the city to prevent any possibility of an epidemic. Streets adjacent to the streams in some cases are swept clean for almost their entire length. Houses in the southern part of the city were lifted from their foundations and piled on top of one another or in some cases driven entirely through adjoining buildings. Bodies of dead animals lie in the banks of the streams. The area inundated was approximately two miles long and extended through the business district and portions of the residence section along River Avenue and adjacent streets as well as the thickly populated west end where thousands of Mexicans were made homeless by the waters which rose almost to the mezzanine floor of the Gunter hotel. Many public buildings, including the city hall were in the pathway of the flood.

Stories of many acts of heroism are current. Civilians and soldiers braved the waters and carried to safety many women and children caught in the swirling waters. There are many reports of mothers losing their babies and children bereft of parents and fathers losing their lives attempting to save children. There are many persons who are in great anxiety lest some close relative may be found among the casualties.

CATCH WITHOUT WARNING. The people of San Antonio were caught without warning. The rainfall which caused the flood fell after 1 o'clock Friday night in the hills about Almos creek. There was undoubtedly a cloudburst and the electric display was the most vivid ever seen here. The cloud came with such suddenness and force that all in its path was swept before it. In some parts of the city the wall of water is variously described as ten to thirty feet high and struck with a rush that carried houses from their foundations, swept automobiles away, destroyed concrete bridges, uprooted trees and posts. Large houses were swept about as though they were paper boxes. Many of them were dashed to pieces.

Some bodies were taken from the debris cut and bruised as though they had been beaten with a mighty flail. Through the darkness of the night terrified screams of women and children echoed now and then over the flood waters. Many sank to their knees in the mud and water and prayed. Others ran about in a distracted manner, seeking relatives and frantically weeping and wailing.

The waters struck the business section with the same force as the residence section. It swept up and down Houston and Commerce streets for blocks, running over sidewalks, into basements, rising steadily all the while. The waters lashed angrily against shop windows, breaking them in many instances and sweeping into what was once an immaculate store with their muddy ooze and gravel.

The police and fire departments worked heroically to save property and help the victims, but they could do but little.

CLouDBURST IN AUSTIN. AUSTIN, Sept. 10.—From 7 o'clock yesterday morning to 8 o'clock this morning 18.22 inches of rain fell in Austin, according to government observer Morris. This was the greatest amount that ever fell here in that period, he said.

There has been approximately \$15,000 damage to property and eight people injured in the terrific tornado and down pour of yesterday afternoon. Most of the injured people are in the Creedmoor vicinity. Austin suffered as much from rain as from the tornado.

COLORADO ON RISE. HOUSTON, Sept. 10.—According to telephone information from Elastrop, the Colorado river at that point is up 23 feet at 11 o'clock this morning and still rising. The river has broken over the banks in the low places.

HURRICANE MOVES NORTHWEST. WASHINGTON, Sept. 10.—The Caribbean hurricane centered today to the south of Haiti and was moving west northwest, the weather bureau reported.

LITTLE RIVER UP. WACO, Sept. 10.—Advices from Cameron are that floods in Little river are raging after 11.45 inches of rain. It has done great damage in Milam county, principally to crops.

WRECK FATAL TO ONE. HOUSTON, Sept. 10.—Brakeman Walter is dead and Engineer Williams and Fireman Wolfe are injured as a result of a wreck of a Southern Pacific train three and a half miles west of Noonan when a mixed freight and passenger train operating between San Antonio and Eagle Pass ran into a wash out early Saturday morning.

TORNADOES IN TWO STATES. CHICAGO, Sept. 10.—Country-wide thunder showers and disturbances are reported today from the Canadian north west to the Gulf of Mexico. There were tornadoes in South Dakota and Nebraska.

NO HELP NEEDED. HOUSTON, Sept. 10.—The mayor's office at San Antonio at noon today wired city officials here that San Antonio did not need food or medicine at present. The loss of life was estimated at not more than a hundred and the property loss at not more than \$5,000,000.

## REDUCTION ANNOUNCED IN THE STUDEBAKER LITTLE SIX MODELS

H. I. Stock, local manager for the B. & H. Motor company, the Studebaker distributor for this territory, has received notice of another reduction in the Little Six Studebaker models, bringing this car down to \$1150 for the touring model at the factory.

This is the second reduction on this car since the first of the year, when it sold for \$1485 at the factory. In June the price dropped to \$1335 and the latest cut took place on September 4.

This latest cut is due, so the factory writes Mr. Stock, to lowered cost of materials.

The light six is the latest addition to the Studebaker, being only about a year old, but in the time it has been in use it has proven worthy of the Studebaker name plate. People who have driven this car say it is in every way up to the high standard of the Studebaker special six and the Studebaker big six.

THE PEOPLE WANT ACTION.

One cannot expect too much of blind partisanship, of course, but it does seem there should be sufficient honest Starnes men and honest anti-Starnes men for them to get together, join forces and save the name of Eastland county from further shame in connection with the county road mess.

The county-wide committee—selected from the best citizens of Eastland county—will meet at the county capital Friday, to hear the report of its committee of eight. What the report will amount to, and what the committee will do after this report is digested, remains to be seen. The public, however, expects much of this representative body of men, and rightly so.

If the committee's findings—through the audits and otherwise—indicate criminality or costly bad management, the removal from office of the county officials concerned should be recommended in no uncertain terms.

If otherwise, the report should be just as plain and direct.

Decisive action of some sort would most certainly be welcomed by taxpayers and the people in general.

THE JINERS.

Mabank Banner: The Dallas News, in all its career of usefulness, has never done a greater service than that which it is performing now by its expose of the inner workings of the Ku Klux Klan.

Dallas News: Some years ago a Cincinnati genius hit upon a scheme for extracting money from the pockets of country youths. He advertised a so-called detective school and after a matriculation fee and a few simple lessons by mail, sold the students a tin badge and an ornate certificate, bidding the graduates to go forth and capture criminals. A lot of the boys thought they were really commissioned to apprehend the guilty, and they made some arrests. Their tin stars fascinated them and it was quite a while before they were made to understand that the Cincinnati gent had no authority to make peace officers of them. Of course, the originator of the scheme got the money. The postoffice department put him out of business as soon as it got around to it. Schemes for getting the money are never ending. To obtain it from "jiners" was long ago discovered to be perhaps the easiest of all. To collect an initiation fee and then sell the initiate an "outfit" is excellent business, from the financial standpoint. If he can also be impressed by ponderous rigmarole and flattered into the belief that he is an exceptional, perhaps a notable person, so much the better. That gives him something like value for his money. This can better be done by conferring dignity through a greater dignity. A "wizard" doubtless is something important, especially when in his regalia, although in olden times a wizard was only the masculine of witch. But to be ennobled by an emperor, one who dates his letters from a palace and refers to himself as an imperial potentate with an empire back of him—that indeed is grandeur. But it costs a good deal, first and last.

OTHER EDITORS

Brig. Gen. Frank R. McCoy. Major General Leonard Wood and W. Cameron Forbes, who are now investigating conditions in the Philippines, have called President Harding, urging that Brigadier General Frank R. McCoy, U. S. A., be appointed to the vice-governorship of the islands. The American chamber of commerce has also called for Manila endorsement of Colonel McCoy. Frank Ross McCoy was born at Lewistown, Pa., Oct. 29, 1874, the son of a civil war general. He graduated from the United States military academy in 1897 and from the army war college in 1908. He has served on the western frontier, in Cuba and the Philippines. He took an important part in the San Diego campaign in 1898. He was aide camp to Major General Leonard Wood in Cuba and the Philippines, and served

that tends to the degrading of morals and the undermining of a solid foundation which is so necessary to the building of a city that will endure forever. Let us reason together and our hands in every move that will better the conditions of our people in every way. A high class citizenship will mean a high class town, and we need here no other. A town built upon immorality and dilapidated and degraded structures of civilization will soon pass away or refuse to grow and prosper just as sure as we live; neither can a town divided ever make progress to any appreciable extent.

Careless Parents.

There seems to be a very dangerous practice among some of the Miami parents of late, in letting their children play on the streets. Nobody wants their children run over, neither does anybody want to run over a child, but children must not be allowed to play upon the streets, especially the main business streets, or it will surely happen. In the past few days three or four very serious accidents have narrowly been averted by children running directly in front of a moving car. The most careful drivers of cars cannot avoid a child running in front of them, and so long as children play upon the streets they are likely to be hit. Keep them off, unless accompanied.

U. S. and Mexico.

We are not inclined to pick a quarrel with President Obregon because he does not see fit to sign a treaty with the United States on its own feet. Certainly the United States should welcome a man of independent spirit, one who places the interest of his own country above every other consideration. It might be expedient for Mexico to sign the proposed treaty of amity, but it would not comport well with the Mexican idea of independence. Mexico, the president pointed out in his formal statement to the lower house of congress, is now functioning in all its departments, will be able to discharge its debts, heavy though they are, and is in every way able to stand on its own feet. Certainly the United States should welcome a Mexico able to take care of herself, meet her obligations, keep her pledged word, insure safety to all nationals and maintain internal peace. The United States has nothing to gain from a weak, badly managed, revolution-ridden, debt-laden Mexico. Will the United States continue to insist on the treaty of amity? Certainly we should demand safety for American lives and property in Mexico, but it is possible to obtain such without tying Mexico up in a formal compact. In the meantime, recognition would go a long way toward putting Mexico wholly on its feet, and this in the long run means much to America.

Pork Barrel.

The Dallas News declares editorially that the movement which West Texas started several years ago to obtain an Agricultural and Mechanical College, while it failed itself, resulted in a flock of other educational institutions being established by the legislators. Governor Neff, it says, approved an appropriation of \$175,000 for the Nacogdoches Normal, which is only 75 miles from a similar institution, but exacted a promise that the money would not be taken from the treasury before 1922. A West Texan would feel at liberty to ask the governor why he killed out right the second West Texas A. & M. bill, instead of holding it in abeyance like the Nacogdoches Normal—also like the senatorial redistricting bill. It probably will do no good to ask.

The News has fought valiantly for the West Texas A. & M. in the last campaign. It thought then and it thinks now that West Texas is entitled to this institution. There can be no doubt on that score, but West Texas has not been fortunate in getting what it needs or what it has a right to expect. It must content itself with whatever is doled out to it by the legislature.

The News closes its editorial with the following significant paragraph: "It can hardly be necessary to recite the denouement. The tree which West Texas planted and fertilized with its hopes has yielded its intended fruit to all save the planter. North Texas, East Texas, South Texas get their institutions. West Texas goes without the one which undoubtedly had the best right to be brought into existence, and the one the projection of which has brought into existence others of such doubtful usefulness that some may regard them as an encumbrance on our educational system rather than as a reinforcement of it."

OPEN FORUM

The Country's Backbone.

Cisco, Texas, Sept. 13, 1921. Cisco Daily News:

Your article on the country trade, etc., going to Putnam and the smaller towns rather than Cisco, as it should, is most timely and very appropriate. As a citizen of your town for the past year, I am not at all surprised. While I do not know anything about the accommodations nor inducements offered the farmers in other towns, Putnam, etc., I do know, and the out of town people know, that the inducements and accommodations offered them here is absolutely worse than nothing and, in truth, in many instances an insult to the intelligence of modern civilization. It is a well-known fact that we cannot exist here unless we thrive unless we work together. People of all classes naturally go where they get the best accommodations, even though they pay more money. In Cisco they pay more and get less.

In the 1000 block between Avenue C and D are vacant lots where the majority of the farmers hitch and congregate when they come here from toward Romney, Rising Star, Gorman, Dothan, etc. Yet the city does not appropriate those people enough to even maintain a public watering trough for the stock. True, there is one there—but dry—so that they must go to some private place and pay 10 cents per head for water or do without.

In most towns over the country where farmers congregate there are hitch racks, public watering troughs, public toilets, etc. These things cost but little. Why not buy, or lease, one of these plots of ground and fix it up that much anyway? It will pay the city an hundred-fold in short time. Yours for a more congenial spirit to start the life and backbone of our country—the good old farmer. A CITIZEN.

Pert Paragraphs.

Policeman—"Lost yer mammy, ave yer? Why didn't yer keep hold of her skirt?" Little Alfred—"I cou-couldn't reach it."—London Opinion.

Captain Kidd strode from the modern lumber yard with a vestige of angry oaths and a tight grip on his cut-throat "Zounds" he exclaimed to his lieutenant. "It's impossible for a man to be a pirate in these extortionary times. One can't even afford a plank!"—Life.

The Visitor—"Yes, this picture is interesting; but have you been to see the new Whistlers?" Mrs. Nowly Rich—"No, we don't care much for val-deville."—Harper's Magazine.

Speaker—"And in conclusion, I ask you to give to your utmost capacity to the sisters for the fund to buy alarm clocks to send out to Uganda to combat the frightful sleeping sickness which reigns there."—Kariakuren (Christiana).

I often hear of "rot" and "tosh." They both allude to forms of cash. In time I'll learn as like as not just which is "tosh" and which is "rot."—Louisville Courier-Journal.

"Have the ladies of the jury reached a verdict yet?" "No." "Why was a bailiff summoned in great haste?" "One of the jurymen wanted to know if anybody in court could lend her a little rouge."—Birmingham Age-Herald.

A speaker who thought very favorably of his own tactfulness was asked to deliver an address, and started as follows: "My friends, I shall not call you ladies and gentlemen; I know you too well."—Toronto Telegram.

The two miners had never seen golf played before. They stood watching a fat, unskillful player at work in a bunker. The sand flew up, but the ball remained. Seven ardent spectators had been played. The player stopped for breath, and then made his eighth attempt. The ball was lobbed up, dropped on the green, and, rolling gently to the pin, settled in the hole. "Begum, Bill," said one miner to the other. "He's got a devil of a job on now."—London Week by Telegram.

"Have you noticed that Dauber has changed his style of painting lately? From his former meticulous method he has turned to a sort of slapdash impressionism." "Yes, it's the influence of golf. I think he now tries to do his work with the fewest number of strokes."—Boston Transcript.

WILL ASK BIDS FOR COMPLETING CONSTRUCTION OF LAKE CISCO DAM

Bids for the completion of the dam at Lake Cisco are wanted by the city commission. At its meeting last night the commission passed an order instructing the city's engineers to ask for bids, all of them to be in by 4 o'clock of the afternoon of September 20.

At the same time the commission adopted a resolution calling upon the Friesstedt company to get its property off the city's holdings at the lake, in order that the city may proceed with the work.

This action is interpreted as a definite break with the Friesstedt company, May or Williamson and Commissioner McCrea told the commission that they had exhausted all the means at their command to effect a settlement with the contractors and that "it has now come to a parting of the ways."

It was announced at the meeting that some of the larger creditors of the Friesstedt company are preparing to sue on the company's bond, and there is a possibility that others may ask for a receivership. It was said the contractors have lost more than \$200,000 in construction work at the lake.

More Street Lights. Street Commissioner Blitch was instructed to install one hundred additional street lights. These are to be placed in various sections of the city, almost every principal street being in the plan. The city has at present only fifty-five lights in the residence sections and the addition of these lights is expected to thoroughly provide the city with street light.

Fire and Police Commissioner Walker was instructed to investigate and report what a new pump truck could be purchased for. It was explained this truck is urgently needed by the department. When it is purchased a night driver will also likely be employed. Some criticism was voiced of the speed with which the trucks are handled and Commissioner Walker was told to order reckless driving stopped.

The matter of sending the fire chief to a school of instruction in Atlanta, Ga., was also passed to Mr. Walker for a report.

Deny Water Extension. Petition of the Cisco Broom Factory for a water main extension to its factory in the new industrial district was finally rejected on the ground that it would cost the city \$1000 and would serve but one customer, and would also set a precedent for other persons similarly situated to ask the same service. Commissioner Blitch said the city should make the extension as a matter of developing its own property and the proposed industrial district.

Two bids of \$150 to deliver uncrushed rock to the lake were received, and one bid of \$275 for delivering crushed rock was received.

Commissioner Blitch asserted that some small haulers would have delivered the uncrushed rock for 30 cents if they had been given the opportunity. The report of the city audit was received and approved. It will later be published. It showed the city's assets had increased more than \$150,000 in the past year. The auditor called attention to the fact that a deed to a portion of the lake property had not been recorded. He also urged that monthly balance sheets be submitted hereafter.

# You Owe Your Children a Home of Their Own

Quality—Service

### Our Prestige.

Comes from the quality of our goods and the kind of merchandising that brings our customers back.

In planning that home, make use of the knowledge we have gained by a lifetime of study.

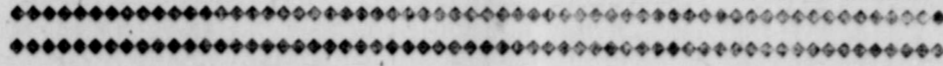

**Rockwell Bros. & Co.**

**Lumberman.**

Quality—Service

Quality—Service

Quality—Service

It is your duty, Mr. Family Man, to provide your little ones with a home of their own! A house is not enough. No matter how fine or beautiful or expensive a rented house may be, it can never mean to your children what a home of their own will mean.

It is in the home that your children first base their concept of life—of duty and industry and responsibility. Denying them a home of their own now robs them of its precious memories in after years and withholds from them the higher ideals, the saving influences which would help carry them safely through life.

A home that you own, by its very stability and permanency, will impress your family with the self-respect and responsibility which comes of being an approved, established part of a community. Children who live here today and elsewhere next year never acquire the home idea of steadfastness and constancy. Instead, they receive impulses to float and drift which may follow them all through life.

You owe your children a chance to make good—an opportunity to face life fully equipped with deep-rooted ideas of honor and integrity. You owe them your help, your support, your guidance. You owe them the safety and protection of a home, because it is in the owned home, in the home that is theirs, that the cardinal principles of life are most indelibly stamped.

You not only owe your little ones the present joy and comfort and happiness of Home but it is your duty to provide them with a safe and secure shelter for the years to come.

Statistics handed down by the Equitable Life Assurance Company state that Eighty per cent of the adult population leave no estate whatever at death. Stop a minute and think what would happen to your family if accident or death should overtake you and your earnings should suddenly cease. Would your little ones be homeless, or safe beneath the shelter of their own roof?

It is your business to face these problems today! It is only right and fair and just to your family to provide them with the protection of their own home. And the most satisfactory way to secure that home is to build it!

And build now! Authorities are agreed that building costs are as low as they can be expected to go. In fact the tendency in building material is upward. Reports show the cost of living to have advanced last month and this indicated that we have turned the corner and started upward again.

The only way you can ever get away from the rent bugaboo is to begin today to plan that home that you owe to your family and yourself.

Any information you desire along this line will be gladly furnished by the firms represented on this page.

## BUILD A SLEEPING PORCH

Did you know that regardless of the location of your house that you would sleep from ten to fifteen degrees cooler in a sleeping porch than in a room?

You would be surprised how little a good sleeping porch will cost you. Come in and let us show you how you can build a sleeping porch to the best advantage.

They are all the year around health builders. Every day you do without a sleeping porch you are cheating yourself and your family.

### THOUSANDS SLAIN DURING CIVIL WAR RAGING IN CHINA

LONDON, Sept. 12.—Ten thousand casualties have resulted from a four days' battle in Hupeh province, China, between armies representing the Peking and South China governments, said a Central News dispatch from Shanghai today.

The fighting centers near Ichang, on the Yangtse Kiang river. The northern army is being reinforced. The natives are fleeing, fearing a renewal of the engagement.

American, British and Japanese blue-jackets are guarding foreign property along the Yangtse Kiang river.

There has been intermittent fighting between North and South China since the new China republic was set up with the capital at Canton. Dr. Sun Yat Sen, first provisional president of the Chinese republic, was elected president of the South China republic.

We can serve the community and our own interest best when we render service which pleases you. We ask only for your co-operation toward this end.

# THE WONDERFUL Yoho Valley

GLACIER NEAR EMERALD LAKE

Playground in Northwest Canada a Never Ending Treat for the Tourist—Beautiful Lakes and Falls—Mountains and Valleys On Every Side.

BY KATHERINE LOUISE SMITH

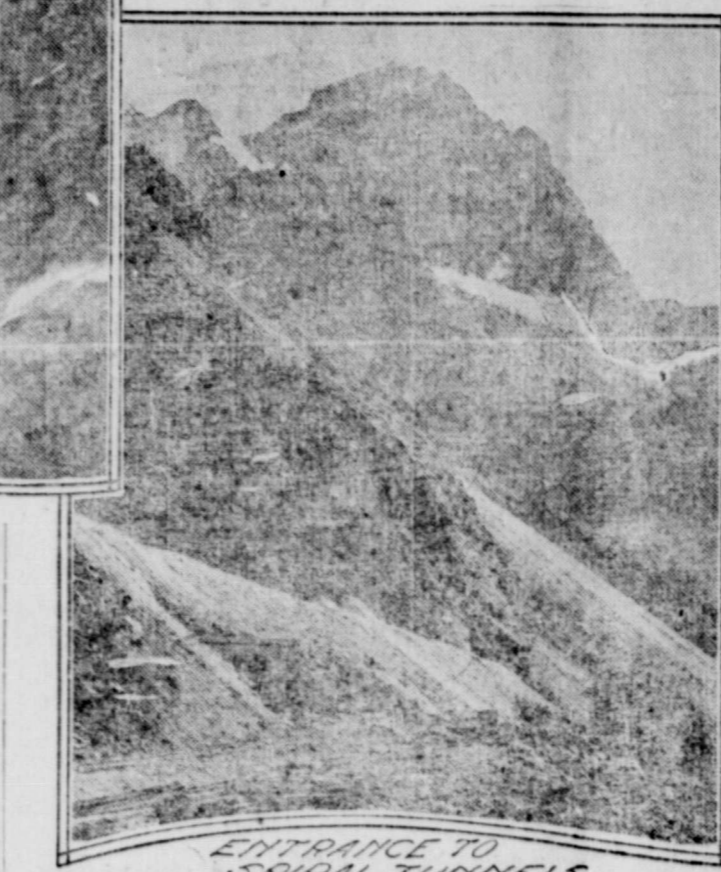

**D**ID you ever hear of the Yoho Valley? If you are a hunter you may have heard of its grizzly bears, its Rocky Mountain goat, its black bears and porcupines. You are a mountaineer you may have climbed some of the nearby Rockies. If you are an American trotter which is much more fashionable than being a globe trotter you may have visited this Valley of the Ice Gods in our storied Northwest where the mountains, glaciers and forests seem a picture of unending and changing masses of color. But only of late years has this Valley been opened to those who enjoy impenetrable silences and falls that dash from the heights of the Rockyland. The Yoho Valley is in the Canadian Northwest, in that land of the trail hills which since Captain Vancouver sailed from England and left his name on an island on the Canadian Coast has always fascinated.

Alexander Mackenzie was one of these who pushed his way up to the Arctic by means of streams—one stream bears his name today—and fascinating, alluring stories could be told of the Scottish Chief Factor of this region of the early voyagers. Even today Northwestern Canada has

been barely touched. Its panorama of mountains, lakes and glaciers are known to few East of the Mississippi. It is well worth a visit for there are few places like Banff, Lake Louise, Field and Glacier and just out of Field is the glorious Yoho Valley, an important addition to the Canadian National Park area. It is eight miles one way and thirty-two miles the other way and on the British Columbia side of the Rockies.

### A Beautiful Valley

The Yoho Valley is considered by ambitious mountaineers one of the most beautiful valleys in the world. It is reached by a trail that skirts Mt. Burgess and near its entrance is Emerald Lake. The drive from Field to Emerald Lake is through some of the wildest scenery on this continent. The road crosses the Kicking Horse River—so called because an early prospector was thrown from his horse—and leads through a forest of fir and balsam. This ride down Snow Peak avenue is but a prelude to the grandeur of Emerald Lake and the Yoho Valley. It takes a couple of hours after leaving Field to pass over this route which in places is so constructed that there is a mile straight as an arrow, with a vista of sky and

ENTRANCE TO SPIRAL TUNNELS

snow capped mountain at the end—a sight seen nowhere else save in Switzerland.

Down by the side of the trail, embowered in spruce and pine, the Kicking Horse River dashes, in one place crossed by a Natural Bridge of sandstone formation. Once the water dashed over the bridge and fell in falls below but today Nature has constructed a bridge on which one can stand and watch the water run madly underneath. At the end of this trail is Emerald Lake, a bluish-green body of water, delicately tinted as are all mountain lakes, and reflecting the white mountains that border its sides. It is the entrance to the enchanted Yoho and around it stand guard the Emerald and Ottertail Range and Mt. Burgess.

### Highest Falls in America

The enthusiastic mountaineer lingers only long enough to rest and pushes on with his little pony. Slowly he jogs his way to Yoho Pass—altitude 6,000 feet. What he is pressing on to see is Takkakak Falls, the highest known cataract in America. Fourteen hundred feet they fall, with a roar that defies, with a volume of spray that fills the canyon, straight from a glacier that scintillates in the sun. These falls are six miles from Emerald Lake.

Some persons go only as far as the Takkakak Falls and are content but the real mountaineer has his appetite whetted by the glaciers, lakes and mighty peaks that he has seen on the way and he eagerly hits the trail again and pushes on to Laughing

LAUGHING FALLS

Falls, which have a leap of only two hundred feet, but which look milk white against the evergreen background. Another stop here, and the pony again takes up the burden and carries the mountaineer to Twin Falls, two separate cascades that leap side by side. But these beautiful falls of the Yoho are by no means the only attractions, for there are Prentiss Glacier and the Waputik ice field and the Yoho Glacier, one of the most beautiful of the Canadian Rockies.

This glacier is at the end of the Valley and well repays the two

days trip for it ends in a beautiful arch of ice from which the stream gushes with great violence.

### Hunting Forbidden

Hunting is forbidden in the Yoho Valley, but just outside the Park the Canadian Rockies is an ideal field. Brown bears live in these mountains, and Rocky Mountain goats have their home here. The Rocky Mountain goat is the most daring of mountain climbers and this coat is white, soft and fluffy. He climbs steep precipices and like the Big Horn or Rocky Mountain sheep is considered a valuable

prize for the sportsman. Both of these animals can be seen in the Yoho Valley slowly threading their way on precipitous cliffs and as the vigilance of both is most wary they seldom approach the lower ground. Moose and caribou are found in the open stretches and an occasional grizzly is seen.

The Yoho Valley and other parts of the Canadian Rockies show some of the most stupendous forces of Nature because the high mountains rise from valleys and not from plateaus. For instance, Mt. Victoria, near Lake Louise, is 11,355 feet above the sea and 5,680 feet above the valley and near Emerald Lake and the Yoho Valley there are seven high mountains, which are from 8,000 to 16,000 feet above the sea and 4,000 to 5,000 feet above the valley.

## Among the Movie Stars

MABEL BALLIN

LOUISE GLAUM AND DONALD MCKEE IN "GREATER THAN LOVE"

ROD LA ROCQUE

SHIRLEY MASON AND RAYMOND MCKEE IN "LOVETIME"

EDITH STOREY AND DELL TRENTON IN "THE GREATER PROFIT"

CONSTANCE TALMADGE IN "UP THE ROAD WITH SALLIE"

JIMMY AUBREY IN "THE RIOT"

### "Greater Than Love"—Mabel Ballin—"Lovetime"—Constance Talmadge—"The Greater Profit"

THE outstanding feature of "Greater Than Love" is its message. The Faith of the Mother in the play transcends all loves—the love of self, the love of dress and the love of love.

Louise Glaum appears as the unrepentant, the unbeliever whose needlessness and selfishness disappear before a great love which, in turn, gives way to the "Greater Than Love" element personified by frail Miss Gertrude Claire the mother and which is shown to be Faith.

"The Journey's End" tells the story of a young girl delicately nurtured and bred who leaves a convent in Rome, where she has been educated, to make her home with an uncle in America. Through force of circumstance she is forced into a marriage with a man infinitely her inferior, when, finally she meets a man who is in every sense of the word her mate, conditions become intolerable and she leaves her husband. How Fate intervenes to straighten out the tangle makes one of the most gripping, forceful stories ever flashed upon the silver-screen.

"Lovetime" The romance of "Lovetime" begins when an artist of noble birth, wandering into a village of Savoy under

an assumed name, paints the portrait of a little peasant maid whose beauty has attracted him. The scene shifts to Paris, whither she goes to escape the attentions of an aged Don Juan and where she earns a living by her ability as a singer and dancer. The young artist follows her—so does the aged Don Juan—his uncle. The latter enlists the co-operation of the artist's aristocratic mother to prevent a union of the loving pair, and difficulties thereupon are erected. But all comes right in the end, of course.

"Up the Road with Sallie" The story concerns a number of irresponsible young relatives who, at a given time have to account for the several ways in which they have employed five thousand dollars. The one who has put his initial bequest to best use will receive the bulk of a large estate. How Sallie, her initial five thousand dollars in hand, kidnaps her own aunt, bumps into a house infested by "burglars," is herself mistaken for a crook, is quarantined for smallpox, and finally falls prey to the very game which she herself is playing, make a fast moving screen story in which countless laughs are punctuated with a few sighs and many tense moments.

"The Riot" Jimmy Aubrey in his latest comedy,

"The Riot," undertakes to play the part of a Sir Gallahad—a rescuer of forlorn dames. His sweetheart and her tearful mother are about to be ejected from their humble home because they cannot meet the rent bill. Jimmy is penniless but his cool is

with intentions. The landlord shall not pass the doorsill of his beloved's domicile! But unfortunately for Jimmy's Gallahad pretensions, the landlord is a veritable Goliath while Jimmy is not cast of an heroic mould. His main, not to say his only, weapon is a

ing moustache. Jimmy, however, meets the issue and proves a modern David. He not only saves the girl but receives a reward in good old coin of the realm which is a fitting ending to a story of modern days when "Cash" is king.

"The Greater Profit" The story of "The Greater Profit" is highly dramatic, revolving about a young girl of high ideals and her experiences in the underworld where she is compelled by circumstances to live among criminals and other unde-

sirables. Fate, however, brings about her regeneration and there is a delightful touch of romance to lighten the stronger moments in which the production abounds.

Rod La Rocque Among the most popular of the younger players is Rod La Rocque. His latest appearances are in "Life" and "Greater Than Love."

## FUNERAL DE LUXE IS GIVEN FORMER CLAN LEADER IN U. S.

NAPLES, Sept. 14.—A "funeral de luxe" as the Naples newspaper described the burial of Alberto Alterio, reputed to have been one of the chiefs of the Camorra in America. He was formerly a Camorra leader in Naples but fled from here several years ago.

He settled in American and is alleged to have amassed a fortune of \$500,000 by black mail. He was assassinated in New York a few weeks back and his body brought back to Italy by his wife. The funeral was attended by thousands of Neapolitans. The body was borne on the elaborate hearse which is reserved only for notables among them of recent memory, Enrie Caruso.

Alterio's funeral was an event. The religious service in the church was marked with all the possible pomp and ceremony attendant on funerals given to high dignitaries of church and state. An orchestra of almost

100 pieces accompanied the mass which was still augmented in impressiveness by a large choir. The church, St. James of the Spanish nobles, was elaborately hung in mourning, folds of tapestry being suspended about the walls and ceiling.

The funeral procession was of great moment. In it, marched practically all of Alterio's associates in his profession. A dozen or more men shouldered a large floral offering which was carried in the procession. The design on it was that of a clock which registered the hour of half past twelve. The cost of this has been announced as 2,000 lire.

The coffin also attracted much attention. It has been chronicled that it came from America, cost \$5,000 and was engraved in silver. The crowd which followed the body to the grave was a veritable "unending stream of people."

### PASTORLESS FLOCK IN HARD LUCK AND TRY ADVERTISING

MANCHESTER, N. H., Sept. 14.—This does not exactly go in with the "male help wanted" ads, but the Franklin Street Congregational church is advertising for a pastor. Ads have been placed in the Boston papers.

The church wants a live, up-to-date pastor, good organizer, and church executive. It will pay him \$5,000 a year and give him his house.

Arthur E. Clark, one of the church leaders, said not all members of the congregation approved advertising for a pastor, "but they had not had the

experience of trying over 30 candidates without success, as I have had," he said.

"We had a man landed in July, but Kansas City beat us by offering him an automobile in addition to the house and \$5,000.

### CITIZENS ONLY QUALIFIED TO SERVE AS TEXAS ELECTORS

AUSTIN, Sept. 14.—From now on, only native born or naturalized citizens of the United States shall be qualified electors in Texas, this being made possible by the adoption of the amendment to the constitution voted on at the special election held on July 23, 1921.

The amendment is self-enacting and consequently there is no need of any enabling act by any future legislature to put it into effect. As soon as the state canvassing board declared the amendment had carried, it became a part of the organic law of the state. The amendment also permits the husband or wife to pay the poll tax of the other and receive a receipt therefor.

### SUMMER COLONY IN MAINE CELEBRATING BEGINNING OF IDEA

SQUIRREL ISLAND, Me., Sept. 14.—Fifty years ago twenty men bought this island for a retreat from city life in the hot months of the year, formed a community and gave it religion and a local government.

Now their children are celebrating the golden jubilee of the establishment of the Maine summer colony idea. They declare that while summer homes had dotted the coast of Maine before 1871, it was the success of the Squirrel Island community that led to the founding of other colonies all the way from Kittery to Sorrento.

Founded for freedom and fun, sanctified by church and village regulation, the Squirrel Island association was from the first on a basis of sex equality. Women voted with men under a compact described as being "as obedient to Divine guidance as that of the Mayflower pilgrims."

### AMUSEMENTS

Vera Gordon, "the mother of Humoresque," having scored such a success in "The Greatest Love" and in "Humoresque," is now making a tour of the states appearing in person at theaters in the leading cities of the nation. She is being featured in the headline act at the Alhambra theater in Dallas this week.

"The Greatest Love" is said to be one of the greatest productions in which this talented star has ever appeared. This picture is being shown today and tomorrow at the Julia theater.

Victory. Fontaine La Rue, by her human characterization of Mary Beeler, the invalid in "The Faith Healer," George Jefferson's latest Paramount picture which comes to the Victory theater tomorrow, proves herself a versatile actress.

In "The Sims of Rossana," of which Miss La Rue recently made her debut in Paramount pictures, she had the role of a Malay sorceress, and all who saw her in that production and who will see her performance in "The Faith Healer," will notice the difference in the characterization. Many other noted players appear in the cast of this new production, including Milton Sills, leading man, Ann Forrest, Frederick Broom, Loyola O'Connor, May Girel, John Curry, Adolph Menon, Charles D. Bennett, etc.

Broadway. Mountain lions and bears are the pet of the man one loves in a screen story enough to make any fair heroine a bit nervous. Claire Adams is in such a situation in "A Man of the Forest," the Broadway theater today and tomorrow. Opposite her in the title role is Carl Gantvoort, who has to handle these gentle pets because the script says so, and consequently Claire has to associate with them, too.

When one day she found an African lion skin in her car, placed there by mistake by a property boy, she arrested at the first glimpse of the tawny hide, arousing the studio. Now she's going to sell a black bear skin auto role she has at home for fear it will give her nerves a rude jolt also.

### ABILENE EAGLES WIN PENNANT, BEAT SWEETWATER TEAM

SERIES STANDING.

Team	P.	W.	L.	Pct.
Abilene	6	4	2	.667
Sweetwater	6	2	4	.333

ABILENE, Sept. 14.—Abilene won the pennant in the West Texas League for the second consecutive year Tuesday afternoon, when the Eagles defeated Sweetwater, 6 to 1. In the play-off Abilene won four and Sweetwater two games.

The brilliant young George Scruggs made another big hit with Abilene fans when he got the best end of a pitching argument with Richard Sweetwater's ace, after having defeated the big fellow last Saturday. Scruggs had everything, including airtight support, allowed but seven hits and struck out six men.

The Abilene batters got a total of thirty hits, including a home run by Dyall. Sweetwater's lone tally came in the ninth inning on two singles and an out. A big crowd witnessed the game.

### UNDERWOOD ACCEPTS ARMS PARLEY SEAT

BIRMINGHAM, Ala., Sept. 14.—Senator Underwood, the Democratic leader, who has been selected by President Harding as one of the four American delegates to the coming conference at Washington on limitation of armament and far eastern questions, said here that he will formally accept the appointment as soon as he had received the official notification.

Underwood has been on a vacation in the mountains of Tennessee during the congressional recess.

## VICTORY

PICTURE H O USE TODAY and TOMORROW "The Faith Healer"

This great super-Paramount picture deals with a man's world of green clad hills, where he lived with his folks and his dreams. And it deals with a woman's world of folly and pleasure where virtue and dreams are lost, and it tells what happened when the two worlds met.

Milton Sills and Ann Forrest play the leading roles.

ALSO TOMORROW "The Tiger Band" Serial.

## BROADWAY

You will miss a treat today if you fail to see the photodramatization of Zane Grey's popular story,

### "The Man of the Forest"

A massive tale of love and adventure with an all star cast including ROBERT McKIM, CLAIRE ADAMS and CARL GANTVOORT.

Lan Vegas becomes acquainted with Milt Dale's closest friend, — and doesn't overly much enjoy the experience.

Be Sure to see This Picture.

## JULIA

Where the Best Pictures Are Shown

VERA GORDON IN "THE GREATEST LOVE"

### TODAY

Vera Gordon "The Mother" of "Humoresque" (With an all star Cast)

IN "The Greatest Love"

The incarnation of the most interesting type in the world—A Mother. It is "The Mother" who is the real League of Nations.

The one strong red cord that binds forever together all races, customs, creeds and nationalities — "Motherhood."

Through poverty and riches, sunshine and shadow, sickness and health, "The Greatest Love" remained unchanged.

Every man, woman and child see this wonderful production of motherly love. A photoplay that will be remembered long after others are forgotten.

No Advance in Prices.

BUSINESS MEN WILL SUBSCRIBE TO FUND FOR AID OF WORKERS

WATERLOO, Ia., Sept. 10.—To give employment to 1414 men, Waterloo's leading business men and city officials have endorsed a plan to obtain a fund

through voluntary public subscriptions, the money to be used in making needed improvements on streets, parks, etc.

The plan was presented at a recent meeting by Leon A. Link, candleman-at-large, and it is proposed to give the idea definite form at a mass meeting.

## Everything for QUALITY

### —nothing for show

### THAT'S OUR IDEA in making TCAMELS—the Quality Cigarette.

Why, just buy Camels and look at the package! It's the best packing science has devised to keep cigarettes fresh and full flavored for your taste. Heavy paper outside—secure foil wrapping inside and the revenue stamp over the end to seal the package and keep it air-tight.

And note this! There's nothing flashy about the Camel package. No extra wrappings that do not improve the smoke. Not a cent of needless expense that must come out of the quality of the tobacco.

Camels wonderful and exclusive Quality wins on merit alone.

Because, men smoke Camels who want the taste and fragrance of the finest tobaccos, expertly blended. Men smoke Camels for Camels smooth, refreshing mildness and their freedom from cigarette aftertaste.

Camels are made for men who think for themselves.

### Social Calendar.

September 14.—  
Wednesday bridge club meets with Mrs. Albert Blease.

September 15.—  
Trick club meets with Miss Addie Fee, Mrs. G. W. Griswold will entertain for Mrs. Homer Brelsford, Jr.

September 16.—  
Merry Wives "42" club meets with Mrs. B. W. Patterson.  
Rosewell Heights club meets with Mrs. Charles McBride.  
1920 Bridge club meets with Mrs. K. H. Pittard.

### Christian Ladies' Aid.

The Ladies' Aid of the Christian church devoted Tuesday afternoon to a work meeting, with Mrs. Jack Winslow as hostess. Seven pairs of trousers were finished and will be sent to the orphan home. There were ten members present at this meeting. Mrs. E. H. Hoopes will be hostess next Tuesday.

### Baptist W. M. U.

The W. M. U. met at the Baptist church Tuesday. A splendid program on state missions was given by Messrs. Harris, Bibby, J. S. Bates of Fort Worth, and Dr. C. G. Howard. Mrs. J. T. McCarty explained the object of the personal service work. The society made plans for a bazaar to be given before Christmas, and all Baptists and members of the society are urged to begin on their articles. The next meeting will be in the circles.

### Methodist Society.

The south circle of the Methodist Missionary society was pleasantly entertained Tuesday by Mrs. W. A. Cunningham at her apartment in the Royal hotel. A very interesting missionary program on China was given, and a solo by Miss Thelma Fairless. Mrs. Cunningham served ice cream, angel cake and coffee to twenty-two members. The next meeting will be with Mrs. J. D. Barker Tuesday at 3 p. m.

The north circle met at the church, with a good attendance. The program, led by Mrs. W. E. Ricks, was a devotional service, from which each one derived some benefit. During the business session plans were made for a party to be given Wednesday with the south circle as guests. The circle will meet Tuesday at the home of Mrs. Roy Keathly. A missionary voice program has been planned by Mrs. Keathly and her program committee.

### Law Party.

The Senior Christian Endeavor of the Christian church also complimented the members who are leaving for college. This party was given Tuesday evening at the home of Mrs. Jack Winston. The lawn was strung with lights and here the guests were entertained with music and contests. Ice cream and cake were served to twenty-five guests. The honorees were Miss Alla Gene Holmes, who will enter T. C. U., and Alfred McAfee, who will resume his studies at T. C. U.

### Honoring College Students.

The Presbyterian Christian Endeavor gave a farewell party Tuesday evening at the home of Misses Lettie and Mary Elizabeth O'Flaherty. This was given for the following girls and boys who leave for school in the next few days: Misses Bradshaw of Scranton, Bonnie Leslie, Adda Mary Winchell, Frances Raugh, Sarah Lee, Messrs. Hugh Bradshaw of Scranton, Bob Poe and Frank Smith. The house was prettily decorated with red plants, roses and garden flowers. Five tables were arranged for "42." The Victrola was playing during the entire evening. Mrs. A. B. O'Flaherty, assisted by Mrs. J. D. Leslie, served pineapple ice and wafers. In addition to the honorees, those present were Misses Theresa Lee, Gladys Newcomb, Thita Bell and Elizabeth Sammons, Roberta Angus, Beryl Huey, Messdames D. Odum, J. D. Leslie, A. B. O'Flaherty, Messrs. D. Odum, Francis Leslie, Dudley Lee, Roy Simmons, Albert Garrett, Cochran and Turner.

### PERSONAL MENTION

R. E. Grantham left this morning on a several days' business trip to Morgan.

Mr. and Mrs. H. D. Fulwiler were in Cisco from Breckenridge today enroute to Houston.

Jeese Seashens left this morning on a short business trip to Seymour.

Mrs. Jim Daniels and children, who have been spending the summer on the Daniels ranch, have returned to their home on Avenue M for the winter.

Miss Bonnie Leslie will leave tomorrow for Weatherford, where she will visit before going to Milford to enter Milford Presbyterian college.

Z. B. Edworthy was a business visitor in Eastland yesterday.

Miss Addie Fee will entertain the Trick club Thursday morning at 9 o'clock.

Mr. and Mrs. Homer Brelsford, Jr., of Eastland are guests of Dr. and Mrs. G. Wayne Griswold. On Thursday Mrs. Griswold will entertain with bridge in the morning and afternoon in honor of Mrs. Brelsford.

Mrs. N. V. Mitchell is the guest of her daughter, Mrs. W. A. McSpadden, in Merkel.

Mrs. J. S. Bates, who has been visiting her sister, Mrs. Bertis Lanston, was called to her home in Ft. Worth last night by the serious illness of her husband, Rev. J. S. Bates, pastor of the Kentucky Avenue Baptist church of that city.

Miss Zedie McWhorter, who spent the past week with her parents, returned to Abilene yesterday to resume her work.

Dr. J. D. Leslie is expected home tomorrow from Anson, where he attended presbytery.

Miss Ruth Williamson left this morning for Fort Worth, where she will re-enter T. W. C.

Miss Christine Bowman left today to enter T. W. C. in Fort Worth.

Edwin Neave was in Cisco from Cross Plains Tuesday.

Mrs. K. H. Pittard will entertain the 1920 Bridge club on Friday and not on Thursday, the regular club day.

Mrs. Robert Carnell has returned home from a short visit with friends in Stamford.

One-third off on all ladies' hats at Mrs. Kennon's Exclusive Hat Shop, Thursday, Friday and Saturday, Sept. 15, 16 and 17.

## Announcement

After serving the public conscientiously, as most of our customers will testify, we have picked the tire we consider the best that has ever been offered to motorists, and we now proudly identify ourselves with

## McClaren Tires

And Wish to Be Known As Distributors for This Territory. If we, with a carefulness that has been one of our individual business virtues, have picked this line, and are to become permanently connected, can you appreciate our great confidence in our future success. We know the quality that McCLAREN TIRES possess and the absolute assurance of square dealing men behind the tire.

We are so enthusiastic about McCLAREN TIRES that we will offer them for a short period of time at prices that are really dealers' prices. Of course, we cannot continue to quote these prices, but to introduce McCLAREN TIRES we will sacrifice our legitimate profits and let you judge their merits for yourself.

Remember, too, that we stand behind these tires and will treat any complaints with satisfaction to you. You know us and we recommend McCLAREN TIRES.

We can assure you that McCLAREN TIRES are standard tires made by men who have built other standard tires and that our stock is fresh, just received from the factory. Don't take chances with "seconds" and inferior tires. You only save when you get most service. Now take a look at our introduction prices. We positively will only quote these prices for two weeks. Give us a trial and your future business will be ours.

### INTRODUCTORY PRICES ONLY.

### DEMONSTRATION OF FORDSON TRACTOR ON NEXT MONDAY

The Blease Motor company today placed the order for the tractor to be demonstrated for the tractor demonstration which this company is preparing to have next Monday, at the end of Seventh street, in the Mancill addition.

Every farmer in this territory has been invited to attend this demonstration and see the many uses a Fordson tractor will serve. The demonstration will include plowing, discing, seeding and belt power application. There are many other things for which the Fordson can be used that it will be impractical to demonstrate at this time, among these things being pulling a binder and operating a separator and for heavy hauling.

Albert Blease, Jr., the manager of the Blease Motor company, is planning an intensive campaign this fall to bring to the attention of every farmer in the Cisco territory the many advantages of the Fordson tractor and the Ford one-ton truck. These two utilities, Mr. Blease declares, will, if properly used, increase the efficiency of the farms of this territory at least 25 per cent.

The Fordson tractor is a compact, economical, powerful piece of machinery, that will almost displace the horse and mule in farm work. The fact that the Fordson can be operated day and night, and the fact it does not cost anything to stand idle, are features which recommend it to progressive farmers.

Everyone who is in any way interested in tractors is invited to be present at the demonstration next Monday. Free transportation will be furnished from the Blease Motor company to the demonstration grounds, where there will be plenty of barbecue, pickles, bread, coffee and lemonade.

### COLONIZATION OF RECLAIMED LANDS SUBJECT OF MEETING

ST. PAUL, Minn., Sept. 14.—Colonization of reclaimed lands will be the principal subject of discussion at the tenth annual convention of the National Drainage congress to be held here September 22-24.

The convention will be attended by landowners, farmers, drainage contractors, engineers and others interested in the development of fertile lowlands.

Reports of railroad colonization commissioners and a report on methods of colonization in outcrop regions of Wisconsin will precede discussion of colonization. Other subjects which will be considered are rural credits, financing of drainage projects, state drainage legislation and the relative efficiency of electricity, steam and oil in drainage pumping plants.

Secretary D. K. Sherman of Chicago reports that the governors of South Carolina, Tennessee, Louisiana, Iowa, Minnesota, Michigan and Missouri have named delegates.

Speakers will include Governor J. A. O. Prewer of Minnesota, Dr. F. H. Newell of Washington, D. C., former head of the federal reclamation service, H. B. Rice, a soil expert of the University of Minnesota, and F. W. DeWolf, chief of the Illinois Geological Survey division.
