WEDDINGTON WELL NEAR CISCO SHOWING OIL.
 Quite a bit of excitement was occasioned here Saturday by the report that the Prairie Oil and Gas company had a show of oil in the Weddington well about 4 miles north of Cisco.

The well is said to have several feet of fluid sandstone in the top. Robert Weddington, brother of Rufus Weddington who owns the lease, said last night that he had just returned from the well and that it was a fact that a fairly good showing of oil had been obtained Saturday morning by the brothers. Weddington declined to give the depth of the well or other data concerning it.

BURNBURNETT CASE IN FAVOR OF DEPENDANT.
 WICHITA FALLS, March 20.—The jury in the case of the Corbett Petroleum company versus C. T. Burnett, et al., being tried before Judge James D. Wilson of the federal district court for northern Texas, found for the dependant late this afternoon.

Other points upon which stress is laid in the decree are as follows: Considerations are to be granted for 18 years, with a renewal right under the federal executive department's consent, those having possession included in the settlement clauses are limited to a maximum three kilometers long, commencing at the point of the well, and within five years from the date of the commission the well for each kilometer of the land covered, the first well within the five year, commencing from the date of the decree, for each kilometer of land covered.

FRATT, TEXAS MAN, HEADS AMERICAN OIL GEOLOGISTS.
 DALLAS, March 20.—William E. Fratt, of Fort Worth, Texas, who is president of the American association of petroleum geologists at the closing session of the association's 40th annual convention here today.

SAYS BRITAIN WELL GETTING DEEPER.
 Mr. Britain, a former resident of Cisco, was in the city Saturday. Says that there is a show of oil in the well and that England is the best to be found. Undoubtedly Mr. Britain says the showing in his favor to the Houston people.

Okahoma City and San Francisco are candidates for the 1921 convention, a location of which will be made by the executive committee.

The Magnolia Petroleum company has an initial production of 275 barrels in its No. 1 North T & E survey, section 2482, from pay between 1284 and 1292.

COMMISSION SAYS GAS ROYALTY TOO SMALL.
 One of the chief reasons for the great waste of natural gas in Texas is the greatly inadequate royalty usually paid for gas by the operators, according to a statement by the oil and gas division of the Texas railroad commission.

The Texas Pacific Coal & Oil company has 198 acres of oil in its No. 1 West T & E survey, section 1411, from 1284 to 1292. The well is also making three million feet of gas at 100 feet.

reached a depth of 3200 feet, had that all signs look good. Mr. Britain is an old Texas country citizen and serves as county commissioner there for four years. But he knows where to turn down and come to Cisco.

CHRISTMAN, RICHARDS SURVEY.
 The Shering Oil company is drilling at 235 feet in its No. 2 S. C. Graham, Pinedale survey.

COMMERCE IN ERRENCH COUNTY.
 The Magnolia Petroleum has a 7 1/2 acre lot in its No. 1 Haystack, S. H. Robinson survey.

BRECKENRIDGE DEVELOPMENT AND COMPLETIONS.
 The Adams Producing company is making 40 barrels in its No. 1 West T & E survey, section 1411, from 1284 to 1292. The well is also making three million feet of gas at 100 feet.

The Gulf Production has 230 barrels in its No. 1 A. J. S. Graham, T. E. survey, section 7, block 4, after a shot of 420 quarts, between 1207 and 1210 feet. The same covers has a 12 million feet of gas in its No. 1 S. P. Moore, T. E. survey, section 1411, from pay 2911.

The Magnolia Petroleum company has an initial production of 275 barrels in its No. 1 North T & E survey, section 2482, from pay between 1284 and 1292.

The Ohio Range Oil company has a small flow of oil between 1284 and 1292 and is drilling at 1273 in its No. 1 Haystack T & E survey, section 2471.

The Oklahoma Producers & Refiners have a show of oil at 149 in its No. 1 J. A. Sloan, L. A. survey.

The Sinclair Oil has reached line at 1212 feet with no show of oil in its No. 1 W. W. Pope, S. P. survey, section 647. The same covers has 40 barrels

in its No. 1 J. E. Smith, L. A. survey, section 11, from pay between 1284 and 1278. The Sinclair is also making a large flow in its No. 1 South, from pay between 1284 and 1292.

Additional Oil Pay Three.
SLOGAN CONTEST IS TO CLOSE THIS WEEK

Cisco, the city without a slogan, won't be that way much longer. In plans of the Young Men's Business League are to be held a slogan contest in which valuable prizes will be offered. The contest is open to all who are in the city, and a complete list of what is to be offered will be published in The News.

above in getting the matter straight up, and in Saturday night hopes to provide the Cisco booster with a slogan contest slogan that will stand during all the rest of Cisco's history.

The slogan contest closes Saturday night at 7 o'clock, and the winner of the contest is to be announced in the Sunday Morning News.

MEXICO HAS ONE-FIFTH OF OIL IN WORLD

ESTIMATES
FIELDS SHOW
VAST RICHES.

Drilling in the Mexican oil fields has been resumed since President Carranza's decree permitting work by foreign companies pending final interpretation of the provisions of the Mexican constitution. Ralph H. Turner, staff correspondent at the City of Mexico for the United Press association, who recently made a tour of the Tampico district, estimates that facilities for production will be increased in 1920 to the extent of fifty million dollars and that not less than one-fifth of the oil requirements of the whole world will be filled from Mexico, where most of the capital invested is American. The following article comprises excerpts from his report:

When President Carranza issued his recent decree allowing the resumption of oil well drilling under provisional permits, he did more than relieve the tension that had arisen over the Mexican-American oil controversy. He permitted a glimpse into Mexico's future as an oil producing nation.

Due to the involved situation as regards titles, pending the final interpretation of article 27 of the New Mexican constitution, the new drilling will not be as general as it might, but that does not prevent the oil operators from "looking around," nor does it prevent speculation as to the extent of the unexplored wealth which still lies in Mexican soil.

It is estimated that in 1920 Mexico will produce 125 million barrels of oil and that 120 million barrels will be exported. Thus Mexico will fill about 20 per cent of the world's oil requirements.

To achieve this, Tampico must greatly augment her facilities for handling oil. This undertaking already is under way. New pipe lines, storage facilities and other installations are being constructed, or is contemplated, to the value of 50 million dollars, U. S. currency. When the new pipe lines are completed, Tampico will have a capacity for handling 520,500 barrels of oil daily from the fields to tidewater. The first of the year, there were 522 steel or concrete storage tanks in the

Tampico district, having a total capacity of 28,891,500 barrels. But there are being constructed today 46 steel tanks with a capacity of 2,395,000 barrels and plans have been made for 88 other tanks with a capacity of 4,840,000 barrels.

Double Prices for Everything.
The visitor comes to Tampico full of tales about the land operations in this vicinity. He hasn't been here long, however, before he begins to feel that the bold, bad highwayman out in the wilds must be poor pickers compared to the outfit which confronts him in the form of tradesmen, cafe proprietors and hotel men whose methods, perhaps, are less dangerous but certainly as effective.

It's a common saying throughout Mexico that if a salaried man is contemplating a move to Tampico from any other part of the republic, the human instinct of self preservation demands that he receive the same number of American dollars as stipend that he has been receiving previously in Mexican pesos. And the reasoning doesn't seem to be far from wrong when it is considered that prices are about the same here in dollars as they are elsewhere in pesos.

A Housing Problem, Too.
The continuous growth of the American and British population has created a demand for houses, apartments and hotel accommodations that far exceeds the supply, with the result that many of the companies have undertaken to provide quarters for their employees, either by new construction or the remodeling of old buildings.

And then the housewives recount how native servants, formerly employed for \$5 and \$7 a month, now demand \$15 and \$20. Chinese cooks, who prevail in the best kitchens, are receiving from \$50 to \$65 a month, a 200 per cent increase over the old days.

Two sources of trouble confronted allied interests in Tampico during the war. They were the Germans and the I. W. W. At many times it appeared they were one and the same. Petroleum was vital to the allies' conduct of the

war and German agents strove, with radicalism as a medium, to obstruct the flow of oil through allied channels.

I. W. W. Also Present.
"All that is history, but it is interesting today to observe the present status of the Germans and their former ally; to note how they have fared since the capitulation on the western front. The Germans are still here, but the support of an imperial government has vanished and with it has gone a considerable amount of the Teuton self-assurance. All the Germans can hope to do now—all they are trying to do—is to regain a part of their old trade and their old prestige."

The I. W. W. also are here. It is not always referred to with that designation. It is sometimes called the communist party or the left wing or bolshevism. Under any name, however, its aims are the same. But the German backing has deserted the I. W. W. and today the movement is neither German nor Mexican. Rather, it is an international organization, with a Russian-American playing the leading role.

COMMENCEMENTS IN COMMENCE COUNTY.

The Atlantic Oil is making a location for its No. 1 Watkins, P & D A survey, section 28.

The Carlton Drilling company is drilling at 45 feet in its No. 1 T. H. Jackson, D & D A survey, section 577.

Lightfoot and others have a rig up for their No. 3 T. H. Jackson, D & D A survey, section 51. They also have a rig up for their No. 4 Jackson.

H. G. Richards is drilling at 50 feet in his No. 1 J. O. Graves, Edgington survey.

The Safety Petroleum is drilling at 30 feet in its No. 1 M. E. Duke, Buckman survey.

OKLAHOMA OFFERS TO SELL RED RIVER LAND AND ASKS FOR BIDS

New Angle Development in the Controversy Over Valuable Oil Property Between Two States.

OKLAHOMA CITY, March 20.—Leases on all the land in the bed of the Red river in Cotton and Tillman counties, including all the property in dispute between Oklahoma and Texas and the bed of the Red river to the south bank as claimed by Oklahoma as the boundary between the two states, will be offered for sale by the commissioners of the state land office of Oklahoma at the state capitol on the afternoon of April 6, according to an advertisement being published by the land office.

Bonuses bid for leases on this disputed land are payable only in oil, according to the terms of the sale.

DISTRICT COURT HAS MORE BUSINESS ADDED

EASTLAND, March 20.—Ella Myers sued Raymond W. Myers for divorce and charges cruel treatment even to the point of cursing her publicly and striking her with his closed fists.

The case of W. R. Carruth et al vs. J. W. Carruth et al, a suit to cancel an oil and gas lease on lands in the Abraham Snelzer survey, has been transferred from Stephenville in Krath county to the district court of Eastland county, on a plea of privilege, and the papers have been received and filed.

Rosa Morris and her husband have filed suit for the title to 25 acres of land formerly owned by Amanda Dinsler, deceased, and alleges that in a division of the estate heretofore a mistake was made in writing the

The Security Petroleum & Development has a rig up for its No. 1 J. E.

partition deeds and that this 25 acres were omitted by mistake in the deed to the plaintiffs.

Howard Koon sues Vivian Koon for divorce and alleges that she deserted him a few days after their marriage after having secured from him a large sum of money.

W. J. Duckworth, and others have filed suit against W. M. Collier and fourteen other persons and their unknown heirs for the title and possession of lands in the D. & D. asylum lands, and alleges that they are also due \$10,000 damages for being unlawfully ejected from the land.

Other suits filed follow:
Hughes O'Rourke Construction Co. vs. Alamo Duke Oil & Gas Co.
Geo. G. Lamb vs. Guaranty State Bank of Ranzer.
G. W. Dalton vs. C. D. Hoffman.

Gas pipes measuring over 2000 miles run under the streets of London.

OLD SPANISH TRAIL PLANNED TO SCENIC DAVIS MOUNTAINS

FORT STOCKTON, March 20.—The wonderful scenic wealth of the Davis mountain will be made accessible by the Old Spanish Trail highway, a leg of which meanders into and through the scenic, valleys and crevices of these little advertised mountains, says West Texas Chamber of Commerce.

The direct route of the Old Spanish Trail has been designated to run from Fort Stockton to the north of the mountains. The amazing view of beauty of the mountains themselves so nearby was not to be overlooked as a route for scenic routes and travelers from the basin path. Hence the scenic leg will penetrate these peaks and wind around the interesting features of the mountains. Travelers who have spent many months in the far famed mountain sections of the east are anxious to ascertain that some of these scenic spots compare with the Davis mountains, where the rugged peaks and peaks can be seen in a day's drive from the basin of the mountains. The Davis mountains are a few miles from the basin of the mountains. The Davis mountains are a few miles from the basin of the mountains.

In the West Davis mountains are a few miles from the basin of the mountains. The Davis mountains are a few miles from the basin of the mountains. The Davis mountains are a few miles from the basin of the mountains.

The Old Spanish Trail is one of the few important national landmarks which will traverse a part of the Davis mountains. It will be the scenic leg of the trail which will connect the basin of the mountains with the Davis mountains. The Davis mountains are a few miles from the basin of the mountains.

SWEDEN HAD FIGHT ON LEAGUE OF NATIONS

STOCKHOLM, March 19.—Sweden's refusal to join the League of Nations was not reached without a long and bitter fight. The Swedish government has been accused of having acted in a selfish manner in refusing to join the League. The Swedish government has been accused of having acted in a selfish manner in refusing to join the League.

DENVER BUILT GREAT CITY-OWNED COURSE

DENVER, March 20.—The municipal golf links of Denver, the longest course in the United States, if not in the world, according to experts, has been officially opened to the city. In order to build the course, it was necessary to remove all buildings, a farm dairy, a brick yard, a dumping ground and part of a race track.

U. S. READY TO PUT UP FIGHT ON HUN FLY

WASHINGTON, March 20.—Announcing the possibility this spring of another of the numerous treaties out-breaks of the Hessian fly in the wheat fields of the country, the department of agriculture has made ready to combat it. Through appropriation by congress funds for the work were increased and twenty to provide for the principal needs and three stations for the purpose of systematic study have been established at Corvallis, Pa., Centralia, Ill. and Wilmot, N.Y.

BRING GERMAN SHIPS TO AMERICA IN APRIL

WASHINGTON, March 20.—Five German submarines were allocated to the United States under the armistice terms, a half-dozen a cruiser and three destroyers will be brought to this country next month, it was announced today by the navy department.

WINGO NAMED DOGS AFTER HERO AND WINNING TEAM

CINCINNATI, March 20.—Ivy Wingo, star catcher of the Cincinnati Reds, the world's champions, is one baseball player who does not intend to forget his success in the Cincinnati club or his adventures for Pat Moran, his manager. Wingo has two hunting dogs, which he has named "Cincy" and "Moran." When the last season is over, Wingo gets his gun and dogs and carries his summer memories into the hunting grounds.

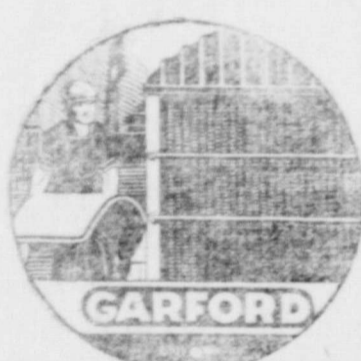

Air Ride Prices Set

LONDON, Mar. 4 (By Mail)—It is now possible to hire an airplane privately for two shillings and sixpence a mile. The cost of a journey by air to the Riviera is given as 31 pounds; to St. Moritz, Switzerland, 60 pounds and to Copenhagen 87 pounds.

Confidence That Is Vested in Leadership

One thing thoroughly fixed in the mind of every Elgin owner is confidence.

Confidence in his knowing—through close personal observation and miles of pleasure—that he owns a car which is dependably fit and ready to meet any emergency that distance, roads or weather may present.

A confidence that in many instances where his car has been called upon to meet a trying emergency, it could have done even more had conditions been prolonged or more severe.

He is constantly reminded that the Elgin Six is an undisputed leader in the light six field—and that it must have performed some remarkable feats in order to earn so creditable a title as

Elgin Six

"World's Champion Light Six"

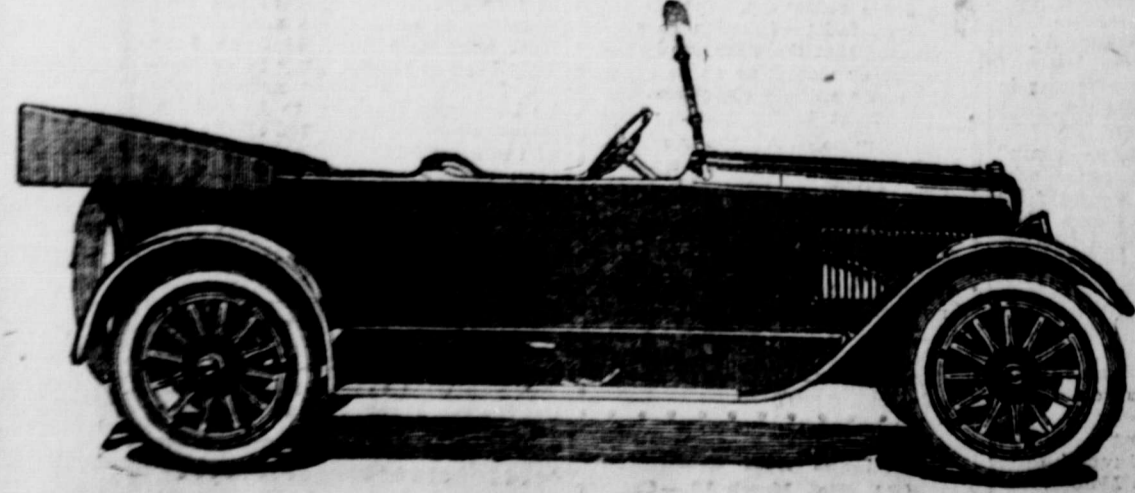

It did. It has won every stock-car race and endurance contest in which it has been entered during the last three years—a field of competition that was seldom restricted to cars as moderate in price as its own.

It was probably this that first inspired him to buy.

We are proud that such an element of faith has been thoroughly justified—that the efforts of Elgin builders are directed toward its never being shaken.

GOVERNMENT FINDS NEW POISON PLANT THAT KILLS CATTLE

WASHINGTON, March 20.—A plant which seems likely to be of considerable importance as a cause of stock poisoning in the southern states has come into notice within the past two years, says the United States department of agriculture. It is a small shrub or tree belonging to the pea family, which includes such plants as locusts and mesquites. There is no popular name for it in general use. It is known to botanists as Daboecia longifolia. The leaflets are alternate with 12 to 60 leaflets and the flowers range in color from scarlet to bright yellow. The pods are peculiar, having four wings, and the seeds are separated from one another by cross partitions. The plant grows in the Gulf region and in Texas to the northeastern border. It is very abundant along the lower Rio Grande and in the neighborhood of San Antonio. All reported cases of poisoning have been of sheep and goats in Texas, but it is possible that cases may occur in other localities and that, under suitable circumstances, cattle would be affected. In light cases, the main symptom is depression, usually accompanied by diarrhea. When animals are fatally poisoned, there are no pronounced symptoms. The animals become weak, the breathing is labored and they die with very little struggling. A considerable period, sometimes a full day, elapses between eating and appearance of any symptoms of poisoning. The poison appears to be in the seed. The pods themselves have little if any poison, and the green plant is not known to do any harm. Less than two ounces of the seeds may kill a sheep and a little more than one ounce may produce very harmful effects. Little can be done in the way of remedies, say the department specialists. Laxatives like Epsom salts aid in the elimination of the poison, but the main reliance must be in prevention. If the herders know that Daboecia is poisonous, they can ordinarily handle the hocks so as to avoid losses. Cases of poisoning occur in winter and ordinarily in areas where food is scanty. It is always poor economy, say the specialists, to keep animals on short feed. When this is done, they will eat poisonous plants if they have a chance. The effects of the poison continues for several days and animals that are poisoned and do not die require special care until they fully recover.

Hundred and Fifty Texas Farm Boys to Get Free Trip Through Nation's Greatest Agricultural States Guests of Commercial Clubs

DALLAS, Mar. 20.—One hundred and fifty Texas farm boys will be taken on a 4000-mile tour of Oklahoma, Arkansas, Kansas, Missouri, Iowa, Wisconsin, Illinois, Ohio, Indiana, Pennsylvania, Maryland, District of Columbia, Virginia, North Carolina, South Carolina, Georgia, Alabama, Mississippi and Louisiana, between next July 31 and August 21, by the Texas chamber of commerce and the extension service of the A. & M. college, at Walton Poteet of the agricultural department of the state chamber, announces. The "Texas Farm Boys' Special" will stop along the way to see the best corn, livestock and general farms, fruit, alfalfa, dairies, creameries, hog and cattle breeding farms, wheat, truck, agricultural colleges, experiment stations, implement factories and the big sights in the cities, according to H. H. Williamson, who thought out the idea. He says: "The train will lay over in Washington, D. C., so that the boys can call on the president and congress and take side trips to Washington's tomb, Lee's home, the naval academy, the navy yard and to take a boat ride down the Potomac river. "Any member of a boy's agricultural club affiliated with the extension service of the A. & M. college will be eligible to go on this special. Selection will be made by competitive examination, to be held in each county. "Only boys who win prizes in competitive examinations will be permitted to make this trip. Inquiries concerning eligibility of boys and all about this examination, should be addressed to the extension service of the A. & M. college, College Station, Texas. "Tickets entitling boys to all privileges of this trip will be sold to local commercial and business organizations, to banks and public spirited individuals. These tickets will be offered as prizes to the club boys of their county. Inquiries relating to purchase of tickets to be offered as prizes should be made to the agricultural department, Texas chamber of commerce, Dallas, Texas. "An interesting souvenir hangs over the door in the reception room of the London hospital. It is the operation bell of the 18th century, and, in the days before anesthetics, was tolled by the surgeon when he wanted four of the strongest porters on the premises to hold down a patient while he operated upon him. The known facts are embodied in department circular 82. "A New Sheep Poisoning Plant of the Southern States," copies of which may be had free on application to the division of publications, United States department of agriculture.

SPIRIT OF TODAY IS CUPIDITY-JEALOUSY

LONDON, Mar. 4 (By Mail)—Baron Leverhulme, formerly William H. Lever, a big soap manufacturer, has "broken a lance" in defense of the money-making business man and refuted the popular clamor which brands him as a profiteer. "The spirit of today," he said, at a recent dinner, "is one of cupidity and jealousy. A feeling is running through the country that the primary sin of a business man is success. The man who has the ability to create, develop, organize and produce is considered as one who must be especially curbed, checked and controlled. "Our war debts," Baron Leverhulme continued, "have to be paid by the persistent efforts of all to build up an enormous home and an enormous export trade. Taxation of wealth only means taking money out of one pocket and putting it back into another. "The greatest disservice we can do the nation is to preach the doctrine that success is profiteering. There should be no interference with the enjoyment of the fruits of industry during the life of their producers," he continued. VALERA SAYS SENATE TREATY 'PLEDGE ENDS MISSION HERE' NEW YORK, March 20.—Eamonn de Valera, "president of the republic of Ireland" announced today that the adoption by the United States senate of a reservation to the peace treaty approving the principle of self-determination for the Irish people had fulfilled his mission in this country. The announcement was made in a cablegram to Arthur Griffith, "acting president of the republic of Ireland," Mansion House, Dublin, which read: "A telegram should be sent throughout all Ireland. We thank almighty God, we thank the noble American nation, we thank all the friends of Ireland who have worked so unselfishly for our cause, we thank the heroic dead whose sacrifices made victory possible. "Our mission has been successful. The principle of self-determination has been formally adopted in an international instrument. Ireland has been given her place among the nations by the greatest nation of them all. "The cablegram was signed "Eamonn de Valera, and colleagues."

TRUCK DRIVER INTERESTS THE ART WORLD WITH LARGE EXHIBITION OF LANDSCAPES

Emile Branchard at work on a landscape. A recent exhibition of eighty-odd paintings of landscapes, exhibited in a Fifth avenue, New York, gallery, attracted the attention of artists. They are by Emile Branchard, a man who has driven a truck on the New York waterfront for years. He is a man of middle age and a big, husky chap. He has taken no lessons, does not paint direct from landscapes, seldom getting out to the country. His ideas are derived from remembrance of pictures in books and stage settings.

WOOD GETS TO DELEGATES TO CHICAGO CONVENTION

ST. PAUL, Minn., March 20.—Five delegations of two each instructed to vote for Leonard Wood for president, four un-instructed delegations and the Tenth district split into two rival factions, one for Wood and one un-instructed will be sent to the republican national convention at Chicago next June. Republicans in eight of the ten congressional districts held conventions today to select delegates to the national and state convention with the above results. "Elgin Distributor Here. H. Chittum, representing the Triangle Motor company, of Dallas, who are state distributors for Elgin automobiles, was in Cisco Saturday. "If you have rooms to rent, let it be known through the News' Classified columns.

FEAR OUTBREAK BASTER BRITAIN MAKES PREPARATIONS

LONDON, March 20.—The government is taking special precautions against possible outbreaks in Ireland Easter Monday according to the Daily Mail, which asserts that the authorities have known for some time the Sinn Fein has considered the possibility of armed risings and drawn up its plans. "It is not believed, however," the newspaper adds, "that the movement is sufficiently supported to really formidably, although it is possible there may be sporadic outbreaks in certain districts. "Auto Salesman in Town. J. C. Roberts, salesman for a Dallas accessories jobbing house, was visiting auto men in Cisco Saturday. Use News Classifieds.

MORE PAY FOR NORTH DAKOTA EDUCATORS

FARGO, N. D., March 20.—Every professor, instructor and teacher in the North Dakota agricultural college; all boys and girls club leaders, and all county agents in the state will hereafter receive higher salaries, more nearly commensurate with the importance of their work, and the present day cost of living. The state board of administration, after conferring with Dr. E. F. Ladd, president of the agricultural college, the deans, the representatives of the teachers' union, has announced a new schedule, effective and retroactive to January 1. A definite twelve months schedule was adopted. Where the employment is for 12 months, the entire year, there will be 12 monthly payments totaling the full year's salary. Where the employment is for nine months, the total salary will be one-twelfth less than for the entire year and payments will be made in nine monthly installments. Here are the new rates of pay: Deans and heads of schools, \$3000 to \$4000; professors and heads of departments, \$2500 to \$3000; associate professors, \$2000 to \$2500; assistant professors, \$2000 to \$2500; regular instructors of two years' course, \$1500 to \$2000. Employees of the experiment stations will receive the same pay as teachers in the college when they do the same work. Project leaders in the extension division will be ranked as associate professors, and county agents with assistant professors and instructors, according to scope and service. Caught Alien Enemies. WASHINGTON, Mar. 20.—A large number of enemy aliens recently reached New York from Europe, but the vigilance of the department of agriculture prevented their admission into the country. These enemy aliens were not of the human variety, but were the European corn borer, secreted in 97 bales of broom corn from Venice, Italy. Interception of the corn, experts said, prevented further spread of the pest, which now is known to exist in Massachusetts, New Hampshire, New York, and Pennsylvania. Clinton Banker in Cisco. Mr. and Mrs. H. F. Finks, of Clinton, Missouri, are spending the week with friends in Cisco. Mr. Fink is cashier of the Brinkerhoff-Farris Trust and Savings company, of Clinton.

Store Your Cars, Trucks, and Household Goods —at— AUTO INN On Broadway Just Over Viaduct Phone 454 Holdway's GARAGE 14th and Mains Sts. AUTO AND TRUCK STORAGE All kinds of Repair Work done. Our Prices Are RIGHT

Our Job As the leader of a great industry, Willard is held responsible, and rightly, for storage battery improvement, for storage battery service, and for giving all necessary help and information to the great car-owning public. To make the new Willard battery owner's task easier, in addition to our responsibility for the quality of material and workmanship, we offer to all such as properly register the new battery at a Willard Service Station, a 90-day service free of charge, with full and complete printed information on every point the owner needs to know. The Nation-wide Willard Service Organization was established and is maintained for the car-owner's benefit, to assist him in getting a really trained service by men who know their job. The latest of many Willard contributions to battery improvement is the Still Better Willard with Threaded Rubber Insulation—an invention which entirely does away with what was previously an almost universal battery repair expense—reinsulation. Our one objective is the car owner's complete satisfaction, and this we pledge to those who make or sell motor cars and to the millions of men and women who drive them. CISCO BATTERY COMPANY STORAGE BATTERY Willard

ESSEX MOTOR CARS Essex Almost Doubles Light Car Endurance Essex Has Performance Like the Costliest Fine Cars-- Its World Endurance Record Has Never Been Rivalled The most important thing Essex has proved is that weight and size are no longer necessary to finest car quality. Its 3037 miles in 50 hours is a world endurance record. The test was official. Supervisors of the A. A. A. certified the Essex stock chassis in every detail. Never before was a car driven at top speed for 50 hours. The grind was equal to years of road use. Yet the Essex showed no measurable wear. What car, the Essex size and weight, can even attain a mile-a-minute speed, much less keep it up for 50 hours? SUCH ENDURANCE AS YOU WANT IN YOUR CAR These decisive tests proved Essex not only the supreme performer of the light car field, but they showed that the moderate priced, economical Essex has such endurance and dependability as few large, high-priced cars offer. Greater size could add nothing to Essex. It has the qualities, weight and size are built to give—riding comfort, solidity, distinction and smooth, quiet pace. But in addition it has fuel, oil and tire economy. And its great durability means freedom from repair costs and positive, dependable transportation. Essex is easy to operate. Driving does not fatigue. Its quick response to the lightest touch and its smooth, restful comfort in motion, account for this. That is why so many women are Essex owners. They appreciate its safety, too. Its controls are simple and instantaneous. It makes fast time, with security, even in difficult traffic. ESSEX WINS ON QUALITY MINUS USELESS WASTE Essex won recognition on the issue of finest quality without useless weight and size. That issue is uppermost today. You will take pride in your Essex from the first. Its beauty, luxurious fittings and its performance give it distinction everywhere. And time will increase your respect for it. You will come to rely absolutely on its dependability. You will find it always ready for any demands you may make. These are reasons why Essex set a world's sales record in its first year. And orders are now so far ahead it is certain even that unrivalled mark will be surpassed this year. Thousands, realizing this, are placing their orders now. We advise that you do the same, to avoid disappointment. Huey Motor Company Avenue D at 4th

How Much Should a Woman Be Compelled to Lift When Working? What Occupations Are Dangerous? What Period of Time For Lunch?

CHICAGO, Mar. 20.—How great a weight should a woman be permitted to lift? What occupations are dangerous for women? How much time is needed for the lunch period?

These are a few of the many problems confronting the employees of 25,000,000 women in the United States which are to receive the attention of the "Women in Industry" section of the National Safety Council during the coming year, in accordance with a resolution of the executive committee, it is announced at the headquarters of the council here.

The program of activities for this section, presented by its chairman, Miss Tracy Copp, formerly of the Wisconsin Industrial Commission, was introduced by the following statement of the problem:

"From the employer's standpoint, the problem is to enter the work performed by women and to regulate the conditions under which they shall work that a maximum of production may be obtained without impairment of the health and efficiency of the women workers."

The subjects receiving special attention are:

What occupations are dangerous for women? Keeping conditions down to a minimum. Practical remedies to reduce fatigue. Improvement of occupations of a proper factory class for women. Summary of evidence and authoritative opinion on the limit of weight which women should be permitted to lift. How much time is needed for the lunch period. Practices of member companies employing large numbers of women, with respect to safety, sanitation, supervision, modifications of processes or equipment which have resulted in greater comfort for the workers and greater production. How to overcome objections to physical examination, when and how should physical examinations be conducted. Factory uniforms and clothing for women workers. Americanization of women workers. The safety and health aspects of night work for women. First aid rooms for women workers.

LAYING PLANS FOR STATE INTER-CHURCH MOVEMENT

To raise funds for the establishment and assistance of homes, hospitals and colleges and to carry out the forward program of the 22 denominations of Texas for home and foreign mission and church work, an united, simultaneous campaign will be put on by the inter-church movement in Texas, April 25 to May 2.

JURY UNABLE TO FIX CAUSE OF MISSOURI PACIFIC WRECK

TEXARKANA, Tex., March 20.—After an investigation of the collision here last night between Missouri Pacific trains Number 7 and Number 25, in which Engineer Joe Hickman, of Little Rock, on Number 7, and Fireman W. W. Thomas, of Little Rock, on Number 25, lost their lives, the coroner's jury returned a verdict that the two men met their death through the carelessness of some party or parties the jury knows to the party.

CARTER HERE FROM PECOS SAYS OIL PROSPECTS GOOD

A. P. Carter, formerly a citizen of Elmer, but recently spending his time in the Pecos country, was a visitor in the city Friday. He says the oil development in that section is getting principally wildcatting, but that all indications look good. The Red Well, 25 miles north of Pecos, he says, he claimed to be flowing at the rate of two barrels per hour. No pump has ever been applied. The drilling, he adds, only penetrated 18 inches into the sand.

UNIVERSITY SCHOOL BOTANY ONE OF BEST IN NATION

AUSTIN, March 20.—The School of Botany of the University of Texas ranks high among similar schools throughout the world. Its equipment is complete, except that it is hardly adequate to accommodate the number of students enrolled in the classes. A greenhouse on the campus contains specimens of plants which are utilized by classes and instructors in their study of plant life.

The university herbarium is considered to be the most complete one south of St. Louis. It has been in process of collection since the early 80's, having been started by F. W. Simons, who is now head of the school of botany.

From the herbarium's standpoint, the problem is to enter the work performed by women and to regulate the conditions under which they shall work that a maximum of production may be obtained without impairment of the health and efficiency of the women workers."

EIGHTY ACRES PANHANDLE LAND SOLD FOR \$22,500

BROWNWOOD, March 20.—Eighty acres of productive land which was sold a few days ago for \$22,500 or \$281.25 an acre, says George Ferguson, the west Texas chamber of commerce. This is declared to be the highest price ever paid for comparable land. The land is an irrigated tract in the southwestern part of Harwood, owned by G. L. McQuinn. The purchaser, S. L. Harmon, came from Richwood, West Virginia.

Essentially the same land "back to the states" will for 1920, Mr. Harmon says, a little publicity on these valuable water lands will stimulate an enormous influx of settlers, he declares.

STATE OWNS BOOK FOR BLIND THAT WILL LOAN TO READ

AUSTIN, March 20.—The state library now has about 150 books in New York format, which will be loaned to any person in Texas upon application. The superintendent of the Texas school for the blind estimated that there are between 250 and 300 persons in Texas who are unable to read ordinary print because of lack of vision.

The library is composed of poetry, essays, fiction, history and technical work and the only expense connected with borrowing them will be the postage needed to bring the application to Austin. The postal law allows all books printed in embossed type free postage through the mail.

MADE A PILE OF SILLS IN COTTON PICKING CHAMPION

DUBLIN, March 20.—In 97 days, Charles A. Jones of this place picked a total of 55,992 pounds of cotton, for which he received \$1074.45 and an average daily picking wage of \$11.25. The cotton was picked in McCulloch, Fisher and Stonewall counties. The record picking for one day was 595 pounds. In 1919 he gathered 25. This is one of the few remarkable cotton picking records made in west Texas during 1919-20, according to the west Texas chamber of commerce.

Jones began picking September 23 and finished March 4.

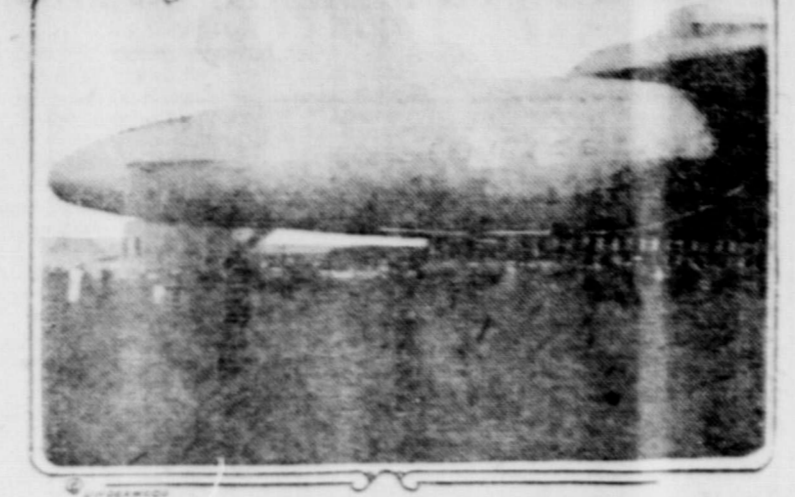

Notes for Women Urged

WILLIAMSON, March 20.—The Williamson administration has injected itself into the Texas race fight for the ratification of the national suffrage amendment. Secretaries Baker, Daniels, and Houston, with Attorney General Palmer, have called upon democrats in the state to use every means to have the amendment ratified speedily. Republican leaders have also declared for speedy ratification of the amendment.

TWO SETS OF DELEGATES TO FRISCO FROM NEBRASKA

LINCOLN, Neb., March 20.—Petitions for opposing sets of delegates to the democratic national convention were filed last night with the secretary of state. One set is favorable to the candidacy for president of United States Senator Gilbert M. Hitchcock, the other known as the Bryan slate, opposes Hitchcock for nomination. The W. J. Bryan list for delegates at large is headed by Bryan himself. Complete opposing lists of district delegates are also filed. Of the 12 Bryan district delegates two are women.

SISTER SHIP OF ILL-FATED C-5 HAS INITIAL FLIGHT ON COAST

Dirigible C-6 being taken from its hanger for initial flight. The dirigible C-6, a sister ship of the ill-fated C-5, which was lost at sea off Newfoundland after accompanying the N-C squadron of seaplanes from New York to Trepassey, recently had its initial flight at the North Island Naval Station on the Pacific Coast. The C-6 is the first naval dirigible to be assembled and flown on the western seaboard.

EASTLAND MAN BUYS CISCO REAL ESTATE

W. F. St. John, of Eastland, was in Cisco Saturday. While here he closed a deal purchasing from W. H. Hickey, lots 1 and 2 in block 67. These lots are just across from the Christian church on Broadway and it is said that they were purchased as an investment. With the lot buildings headed up Broadway, it is estimated that Mr. St. John has shown good judgment.

Corsets are stated by a learned scientist to ameliorate the harshness of chair water and reduce nervous irritability.

There are more Irish in the United States, Irish by birth or blood, than there are in the whole British empire.

In Korea no one but a married man can wear the peculiar high crowned hat that is so characteristic of Korean dress.

BROWNWOOD TO USE OWN CATTLE CLASSER

BROWNWOOD, March 20.—At a meeting of the chamber of commerce last night it was decided to employ a regular cattle classer for Brownwood, in order to simplify the marketing of cotton next season. The chamber of commerce also offered to finance the proposition in event the farmers of Brownwood should make such request. County agent J. P. Griffin has been working hard to secure a cattle classer for this county for a long time and he is now feeling very jubilant over the matter.

Dallas Man in Cisco. Irvin White, of the Perkins Dry Goods Co., of Dallas, was making calls in Cisco Saturday.

New York wastes as much water every day as would supply a city of 100,000 population.

OKLAHOMA G. O. P. MAY URGE HAMON FOR OFFICE

RANGER, March 20.—Jake L. Hamon, of Ardmore, Oklahoma, president of the Wichita Falls, Ranger and Fort Worth railroad company, who has 20 perfectly good votes in the Republican national convention safely tucked away in his vest pocket, has come east after three weeks here putting pep into the construction of his road. Hamon would not talk politics while here but said he might have something to say when he gets back. He is being talked of by the Oklahoma republicans as a candidate for the republican nomination for vice-president.

TEXAS BOY, AGED 11, WRITES 30,000 WORD BOOK FICTION

GALVESTON, March 20.—A former Galveston youth, Horace Atkinson Wade, is a serious rival of Miss Daisy Ashford of Great Britain, the youthful author of "The Young Visitors."

Master Horace, who has just turned 11 years, has conceived and written a 30,000-word novel, "In the Shadow of the Great Peril," the first edition of which already is off the press.

Young Wade, the son of Mr. and Mrs. Edward I. Wade, formerly of this city is an enthusiastic Boy Scout and a lover of the "movies."

On the theory that music banishes fatigue, a building contractor once introduced bagpipes to spur his Scottish workmen on. The men worked so speedily that they struck for more money.

North Dakota is soon to have a minimum wage scale for women workers.

PAPER MILLS CONGESTED ACCOUNT LACK OF CARS

MONTREAL, March 20.—Jason Rogers, publisher of the New York Globe, who has come to Montreal to investigate the causes of the serious newsprint shortage in the United States, said today that it was due in large part to the fact that empty freight cars for the movement of the paper were not being returned to Canada from the United States.

"The situation is desperate," said Mr. Rogers. "Unless the empty cars are returned the mills must stop making paper, as they are getting badly choked and cannot store further supplies."

NO TRUTH IN REPORT BRITAIN TO AID BELGIUM

LONDON, March 20.—The Paris correspondent of the London Times says he is in a position to state that there is no truth in a report from Brussels that the British government has guaranteed military support to Belgium for five years in case of an attack by Germany and also that France and Belgium have signed unconditionally a treaty of alliance for an indefinite period.

Handel wrote the "Messiah" in 23 days.

Along Automobile Row

By R. M. HUDSON

Down along automobile row sentiment is found to be crystallizing more strongly in favor of an automotive association for Cisco. And then the automotive show to follow in the spring. The dealers are thinking and talking these subjects, and there may be a meeting called by them at an early date to perfect an organization and to begin planning for a show.

These business men recognize that such an organization would bring good results to their industry, and the show would boost both their cause and the city of Cisco. Most of the big cars now have agencies here, and they will all have headquarters in Cisco in a very short while. The great distributing establishments are locating here, and the time seems ripe for organization and a spring show.

It has been suggested that plans be begun for a big automobile show to be held on May 21, which is the 29th anniversary of the laying out of the town of Cisco. In this the whole citizenship would join and Cisco would have one grand day and celebration. The modern, palatial automobiles would illustrate the striking progress which has been made in mode of traveling since the pioneers came here in vehicles drawn by mule teams, or perhaps oxen. Now is the time to begin planning.

H. D. Fulwiler, of the Fulwiler Electric company, reaffirms his approval of the proposed auto show, and says the automotive dealers should organize immediately and start something doing in automobiledom.

Mr. Fulwiler says he is placing his full allotment of Reo and Oakland cars, and that his allocation of 19 Garford trucks per month for distribution in this oil district does not nearly meet the requirements. He is placing also many G. M. C. trucks.

Mr. West, of West-Hock Auto Supply company, is in Port Worth negotiating for the agency of the Dorrie car. This car is made at Dayton, Ohio, and is one of the highest class automobiles on the market. It is said to be a great favorite among classy auto sports. Its tag price is marked \$4975.

West & Hock are for organization and for the auto show, but they would like to see the paving on Main street extended first.

The Triangle Service & Supply company report a speeding up in business in their line. Mr. Elenberg, the manager, if for organization of all Cisco automotive dealers, and for immediate activity. He thinks the show plans should be started.

R. W. Mancill, of the Mancill Motor company, says this is a very busy time

with the automobile men—having every nerve strained to meet the demands of the market. But he believes they should take time to organize, hold regular meetings and exchange views and experiences. "It would bring good to them. Then they should plan and do things that would advance their interests and also be for the welfare of the city. The auto show idea should be fostered and plan it for this spring. The auto men should push it. Why procrastinate? The time is ripe."

Turner & Co., tire dealers, say that while all used cars may be in process of being "retired," the tire purchasers are not retiring—as they are active in buying tires.

R. E. Jay, of the Texas Transportation company, says that big movements for truck transportation in a general commercial way are developing in this oil region, with Cisco as the pivot of operations.

It is said that the big favorite Cadillac car, which made a most enviable way service record is soon to have an agency in Cisco.

F. E. Brookshire, manager, says the B-M Motor company expects to be in its enlarged quarters in the next 30 days. In addition to their present quarters they will occupy the east room of the Scott & Hresford building, which adjoins them. Their parts stock will be enlarged and their display of Studelaker, Overland and Maxwell cars, and Federal trucks, will be shown to their merited advantage. Their new model Studelaker is now attracting much attention.

"Let us organize without delay, and have Cisco's first auto show this year. Cisco never falters, and it is time to get in the show class," is the B-M's comment.

Whitaker & Mahaffey, the Elgin Six agency, are cramped in their Fifth street quarters. They are seeking more spacious room to display the popular Elgin Six car.

"We are ready to respond to any call for organization of Cisco automotive dealers. It is the proper thing to do; let's hasten the movement. Then follow this up with an auto show. Cisco dealers can put it over—and Cisco will be behind them, for it will mean much to the city."

Mr. Paul, in charge of the newly established Haynes agency in Cisco, and whose temporary headquarters is at the B-M company, will occupy the west room of the Scott & Hresford building when completed. The Haynes is expected to be shown there in profusion in 30 days.

And Mr. Paul is warm for organization of the auto men, and is heartily for the auto show.

The Huey Motor Co., while distributing Hudson Supers to the auto financiers of this oil center territory, has also developed one of the most complete welding and brazing plants of the state. And this department is continually crowded with broken motors and auto parts coming to this center of West Texas for repair. And they get it done right here. That's the Cisco way.

When passing down automobile row this shop is one of the marvels.

Mr. Huey is heartily in favor of a local organization for Cisco automobile dealers, that they may work out and project common interests.

The Texas auto dealers association will hold their annual convention in Dallas, in the Adelphi hotel, next Thursday and Friday, March 25-26. They anticipate not only a great business meeting, but one also of entertainment in which automobile men cannot be surpassed.

An elaborate program is prepared, and automobile men of national reputation will be there and make talks on the development of the auto industry.

Cisco has no organization yet, but will be represented by Cisco auto dealers as individuals. Following have announced their intention of attending: The B-M Motor company.

H. D. Fulwiler, of the Fulwiler Electric company.

N. F. Elenberg, of the Triangle Service Supply company.

W. W. West, of the West-Hock company, the Willard Station.

J. C. Whitaker, of the Whitaker & Mahaffey company, the Elgin Six.

H. L. Paul, for the Haynes agency.

Mr. B. S. Huey, of the old and reliable automobile firm of the Huey Motor company, was so busy in his varied business interests in and about Cisco's trade territory, that we did not get the opportunity of a personal interview with this popular Cisco-building, automobile and Gramm-Bernstein truck distributor.

However, we did succeed in securing a few moments' conference with one of the busy representatives of this firm, one of Mr. Huey's recent high-priced additions to his already large force of employees.

The Huey Motor company seems to spare no expense nor effort to secure experienced and progressive automobile men, and it was with real satisfaction that the writer listened to their enthusiasm toward the prospects of Cisco holding an auto show and their intent and purpose to put their energies, time and money into bringing to realization for Cisco this show.

Besides the Hudson and Essex motor cars and the Gramm-Bernstein truck, the Huey Motor company maintain a first-class garage and machine shop, and handle the well-known Goodyear tires, and although they are almost exclusive carload buyers, their business is growing so fastly that when another six months elapse it is prophesied this firm will, because of its enlarged business, need build much larger quarters to meet the demand for their particular line.

The Huey Motor company, to a man—and there are some fifty-odd of them—are for Cisco and Cisco's auto show.

DUCHESS MARLBOROUGH ASKS FOR A DIVORCE

LONDON, March 20.—The Duchess of Marlborough has instituted a suit for the restitution of conjugal rights.

The petition of the duchess, which is the usual preliminary to divorce in England, apparently has caused no surprise in London. The Marlboroughs have been separated several years, the duke spending most of his time at Blenheim Castle and the duchess living in London. The two sons of the couple have divided their time between mother and father.

The magnificent London house of the duchess which her father, William K. Vanderbilt Sr., presented to her, was not occupied during the war, the duchess preferring a more simple residence. The house recently was rented for use as offices by the League of Nations.

The institution of a suit for the restitution of conjugal rights generally is the first step in divorce proceedings. Man and wife are called before a judge and an effort is made to smooth over pending difficulties. In case this is found impossible an action for divorce usually follows.

The duchess of Marlborough was Consuel Vanderbilt, daughter of William K. Vanderbilt Sr., of New York, and the now Mrs. O. H. P. Belmont. She married the duke of Marlborough in New York in 1895. The couple have two children, John Marquis of Blandford, who is heir to the title of duke of Marlborough and Lord Ivor. The Marquis of Blandford was married February 17 to the Honorable Mary Cadogan, niece of the earl of Cadogan. The king and queen of Great Britain, Princess Mary, Dowager Queen Alexandria and other members of the royal household attended the marriage.

Michael, Cardinal Logue, the Roman Catholic Primate of all Ireland, is familiarly known among his people as "Michael of the Mount," from the eminence on which his splendid cathedral and palace stands.

In 1914 approximately 400,000,000 people were governed under various forms of monarchy. Today the figure stands at about 129,000,000.

A little more than five years ago Sir Auckland Geddes, who is to become the British ambassador at Washington, was lecturing on anatomy at McGill university.

Only so fastly that when another six months elapse it is prophesied this firm will, because of its enlarged business, need build much larger quarters to meet the demand for their particular line.

The Huey Motor company, to a man—and there are some fifty-odd of them—are for Cisco and Cisco's auto show.

MINERAL WELLS GETS CHAS. STIS MANAGER

ST. LOUIS, Mo., March 20.—Charley Stis, last season a scout for the St. Louis Cardinals and who has been in the minor leagues for several years, has accepted the management of the Mineral Wells, Tex., club of the West Texas league. Stis' experience as a manager extends over a period of several years. His first job as a manager was at Peoria, in 1911 when he won the Three-Eye league pennant. The next year his club finished sixth. While with Peoria he got up such stars as Flack of the Chicago Nationals, Holke of the Boston Braves, Veach and Yelle of the Detroit Tigers.

In 1913 he played with the St. Louis Federals and the next season managed the Regina club of the Western Canadian league. While in charge of the Aberdeen, Wash., club he was responsible for the sending to the majors Jack Smith of the Cardinals and Waad of the Brooklyn Dodgers.

THOUSANDTH GAME OF BALL FOR RAY SCHALK

CHICAGO, Mar. 20.—Ray Schalk, the crack catcher of the White Sox, American league champions, expects to complete his one thousandth major league game before the summer is over. The plucky little backstop is now within about 40 games of that mark. This record has been made in less than eight years.

Schalk is regarded as the best catcher in the majors, his closest rival being Bill Killefer of the Chicago Cubs and Steve O'Neill of the Cleveland Indians.

Few big league catchers have reached the one thousandth mark.

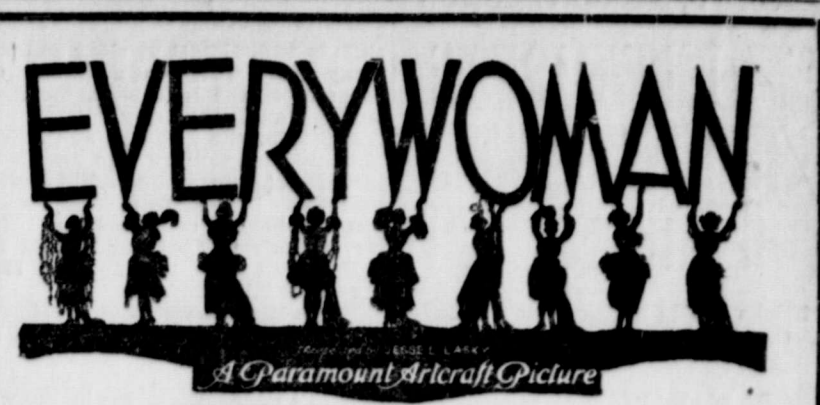

Schalk is of the type that keeps on working all the time, seldom taking a rest, and then only when he is forced out of the game through injury.

DEMPSEY ON WAY TO FRISCO TO ANSWER U. S. CHARGES

LOS ANGELES, March 20.—Jack Dempsey, heavyweight champion and his manager, Jack Kearns, left tonight for San Francisco, where federal grand jury indicted them jointly on charges of having conspired to evade the selective draft, and another charging Dempsey with its actual evasion.

SAN FRANCISCO, March 20.—Mrs. Maxine Wayne, divorced wife of Jack Dempsey, world's heavyweight champion, a nd Beulah Taylor, a negro, appeared today before the federal grand jury which has been investigating reported attempts to prevent the former Mrs. Dempsey from testifying in the trial of her former husband on an indictment charging evasion of the draft.

MINERAL WELLS NOW THRIVING, GROWING HEALTH RESORT CITY

Thinks in Big Figures When Population is Discussed; Hopes to Have 250,000 People Some Day.

By W. HAMILTON WRIGHT, W. T. Chamber of Commerce

MINERAL WELLS, Texas, March 20.—Mineral Wells has ceased to think in terms of ten thousands—it thinks in terms of a quarter of a million. Mineral Wells with 250,000 inhabitants? A preposterous hope you would say when you know Mineral Wells today as a town of about 12,000. Yet Mineral Wells has laid aside the 12,000 idea and is building for a 250,000 citizenship. Not how she is doing it.

Five miles northeast of the famous southwest resort Mineral Wells is damming Rock Creek with a structure 450 feet wide at the base and 1700 feet long. The body of water formed will cover 927 acres, be five miles and a half long and from three-fourths to a mile and a half wide, and six to 25 feet deep. The capacity of the lake will be 10,999,999,999 gallons. The lake will be almost totally surrounded by wildly picturesque mountains, hills, narrow and steep fissures, picnicking grounds and sublime scenery. The circumference will be fifteen miles. A thousand feet of dirt will be made into a rural park through which will pass a beautiful scenic highway.

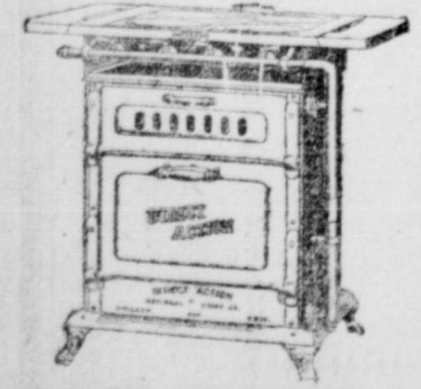

T. B. Durham, former city engineer of this city, conceived the idea of damming this stream to provide Mineral Wells (or all time) with plenty of water. His idea was long in coming into concrete form. But once Mineral Wells awoke to her true fate, the idea was transformed into definite action, and on June 1 this year the great dam and lake will have been completed, and Mineral Wells will have the best artificial lake in West Texas.

The total cost of the lake and dam is considered remarkably low at present prices. Without the pipe line connecting the lake to the city, the cost will be about \$250,000. City bonds are financing the project. The first issues were voted for two separate bond issues for \$50,000 and \$187,500, respectively. Later another bond issue will be voted to pay for the completion of the cost of installation of water service, including piping water to the city, a distance of five miles. Work on this project can be started shortly on the pipe line can be rushed to completion with the arrival of pipe. Water from this lake will be elevated from the lake to the summit of Rock Creek mountains by means of pumps, and thence it will flow by gravity to the city, where again it will be lifted by pumps into the large standpipe.

The lake is being built under contract by W. E. Hamilton, who was also a sub-contractor on Lake Worth and a builder of highways in Reeves, Ward and Tarrant counties. Immediate supervision of the work is under W. W. McClendon, city engineer. Engineer McClendon in discussing the available water supply of this stream said that the lake should catch flood waters from 150 square miles of territory in F. Riker Clay and Jack counties. Suitable water will be assured from such a large watershed, he declared. A test made by him recently showed a flow of 28,000,000 gallons of water an hour for a period of eleven continuous hours. This, he cites as an illustration of the vast amount of water that Lake Mineral Wells will depend through the use of the Rock Creek project. He claims the lake will fill after a few big rains and thenceforth remain full, losing his water on past rainfalls with droughts included. The daily consumption of water in Mineral Wells is 500,000 gallons.

Not only will the mammoth lake of water furnish Mineral Wells homes, factories and industries with all the water they will have need of for many years of rapid growth, but it will provide the city with a nationally famous playground. Thousands of tourists and visitors will annually derive much pleasure here aside from the benefits of the mineral water in the city. The lake will be stocked with fish, surrounded by pleasure pier, bath houses, bathing beach and pavilions, and otherwise improved so as to be a drawing card for tourists.

The lake is almost totally surrounded by some of the most marvelously beautiful scenery to be found in the United States. Important unworked coal deposits lie near. In the gaps of the mountains are trees and shrubbery. Volcanic eruptions in the distant past have torn some of the mountain sides of solid rocks into pieces. Oftentimes these earth disturbances have cut the sides of the

Phone 155-709 Main

cliffs in two, almost as clear and precisely as one would cut a cheese. On one side of the lake trees form enlarged woodlands for picnicking parties and for the pleasure of tourists. Thousands of visitors who have been throughout the globe, after having seen this lake and the wealth of scenery about it, commend it as being far superior to anything else in the nation, and only less sublime than the Swiss Highlands.

While Mineral Wells' population as a health and pleasure resort has already rebounded around the world, its citizens and visitors are confident that this added attraction in the way of a gigantic lake in the mountain fastness, it will rapidly increase in importance and prestige and will assume a growth comparable with that of other greater national resort cities of the nation.

While much of the present growth of Mineral Wells dates from 1917 when the oil excitement of that section was stimulated by the bringing in of wells in adjacent territory, Mineral Wells has been yearly growing in esteem as a watering place. The curative powers of its waters have been told and retold the world over. Mineral Wells understands that its future is assured if it will solve the water situation which so markedly attracts most of the ambitious towns of West Texas. It now is doing its part, sanguine that when its great lake is thrown open, offering splendid opportunities for industries and factories and home-builders, it will have made itself an increasingly attractive town for new residents, and will have provided for its many thousands of new tourists annually the ideal playground, resort pleasures and attractions which mankind so seldom sees blended so adequately and completely as at Texas' greatest health resort.

CITIZENS SAN SABA PLAN DAM SAN SABA RIVER

SAN SABA, March 20.—(Continued from page 6) The dam and lake will have been completed, and Mineral Wells will have the best artificial lake in West Texas. The total cost of the lake and dam is considered remarkably low at present prices. Without the pipe line connecting the lake to the city, the cost will be about \$250,000. City bonds are financing the project.

UNIVERSITY OF MICHIGAN FACULTY ORGANIZE UNION

MATHEWSON, Wis., March 20.—Twelve members of the faculty of the University of Wisconsin have organized a local union which is to be affiliated with the American Federation of Labor.

The union is not for the purpose of obtaining better pay or working conditions for ourselves," declared Professor E. A. Birney. "The organization is of men who are interested in the labor movement as expressed by the American Federation of Labor."

EBERT SKATED ON THIN ICE

FROM FIRST HIS RULE HAS BEEN IN STATE OF FLUX.

Friedrich Ebert, formerly head of the main committee of the reichstag, a leader of the social democratic party, was elected first president of the new German "progressive republic" for a term of seven years February 11, 1919, by the national assembly at Weimar. He has been characterized as a type of Pan-German or imperialistic socialist.

It was the Ebert government which arose from the ruins of the Hohenzollern dynasty and which enabled the entente allies to conclude peace with Germany.

Put Down the Outbreaks.—November 10, 1918, when former emperor Wilhelm abdicated and Ebert was the imperial chancellor, having succeeded Prince Maximilian of Baden who was instrumental in negotiating the armistice. He at once assumed command and succeeded in quelling revolutionary outbreaks. The red flag was hoisted over the Hindenburg gate and the royal palace after wild scenes in Berlin, where the people shouted "Long live the republic," and sang the Marseillaise.

"The government will be a government of the people," Chancellor Ebert said. "It must make every effort to secure in the quickest possible time peace for the German people and consolidate the liberty they have won. The new government has taken charge of the administration to preserve the German people from civil war and famine and to accomplish their legitimate claims to autonomy."

The independent socialists, including a radical element favorable to bolshevism and known as Spartacists, complicated Ebert's problem. When he became chancellor, many of these radicals, including Karl Liebknecht and Rosa Luxemburg, were freed from prison and the two mentioned subsequently were assassinated.

The Assembly Was Dissolved.—The national assembly, which elected Ebert, was formed for the purpose of adopting a constitution. Its document, which was approved last August 2, provided that "the executive power lies with the people." The power of the upper chamber of the reichstag was limited, similar to the British house of lords. There was special protection for labor and generally accepted rules of international law were incorporated in the new instrument. Ebert took the oath of office August 12, and two days later the national assembly ceased to exist, it being superseded by the new reichstag.

Philip Scheidemann was the first premier of Germany under Ebert. Gustave Noske, formerly minister of demobilization and before that, governor of Kiel was named the first minister

of army and navy. By reason of his drastic enforcement of new regulations he became known as a "dictator."

Other members of the first Ebert cabinet were: Minister of interior, Herr Preuss; minister of justice, Herr Sieberg; minister of commerce, Herr Müller; minister of labor, Herr Bauer; minister of foreign affairs, Count von Brockdorff-Rantau, former German minister to Denmark under foreign minister von Richthofen; minister of finance, Herr Schiffer; minister of postal and telegraph, Herr Feiler; minister without portfolio, Dr. Matthias Erbacher; armistice commissioner, former state secretary and leader of the centrist party, Eduard David, president of the national assembly, Herr Wisse.

The Ebert government underwent many changes by reason of political, economic and popular demands.

A Crisis Over Peace Terms.—The first real crisis to threaten the Ebert regime, however, arose over the question of accepting the peace treaty without portico. Dr. Matthias Erbacher, armistice commissioner, former state secretary and leader of the centrist party, Eduard David, president of the national assembly, Herr Wisse. The Ebert government underwent many changes by reason of political, economic and popular demands.

Everything was in ruin when we took charge. Now, however, a socialist republic has replaced the monarchy and power has been put in the hands of the workmen and soldiers."

The first aim to be achieved, he said, was peace and the security of an economic basis. Liberty, he maintained, was worthless without food and employment. It was as a result of this conference that the national assembly met last spring to devise a constitutional form of government.

Rumors of a Soviet Rule.—Meanwhile, the provisional government had been in an almost constant state of flux. Ministers came and went. Owing to scarcity of food, clothing and fuel, conditions in many parts of Germany were reported desperate, and there were many rumors that social government would supersede the Ebert regime.

President Ebert had the backing of the moderates of Germany almost from the beginning. One reason for this was

that when he succeeded Prince Maximilian he announced that property rights would be respected, that no banks would be seized and that the government would uphold the German war losses and pay all claims on the state.

President Ebert, in a New Year manifesto, said that 1920 would decide whether Germany would maintain her status as a nation. A week later he was threatened by a mob in Stuttgart. The threatened December 12, the Ebert cabinet's fall was reported as likely as a result of the allied demands over the Scapa Flow sinkings.

PROPOSE TO CULTIVATE FISH AT CHRISTOVALL ON CONCHOS

CHRISTOVALL, March 20.—A large fish cultural station for west Texas may be located at this point in the near future, if a bill recently introduced by Congressman Claude R. Hudspeth is passed. The bill as introduced by him February 11 has been referred to the committee on merchant marine and fisheries and ordered printed.

An appropriation of \$50,000 is asked for purchase of site, for buildings and equipment. All species of fish indigenous to the Colorado, Conchos and Pecos rivers would be propagated here. Christoval is situated on one of the Conchos, especially favored for fish breeding. Many citizens in this region have for some time gaitated such an institution and have interested the aid of Congressman Hudspeth.

West Texas streams once teemed with many species of the native fish have been largely depleted through the drought of 1917-18 and are now slowly regaining their former prestige. The installation of a fish hatchery here to help nature in restocking these streams is desired. The movement has the unanimous indorsement and support of every west Texas citizen and the west Texas chamber of commerce. Christoval is situated practically in the center of the state from which shipments of fish could be made to all streams in the minimum of time.

BROWNWOOD CHURCH TO BUILD HALL FOR BOYS

BROWNWOOD, March 20.—The Cognition Avenue Baptist church is making arrangements to build a brick annex to the church which will be known as "Ambassadors Hall," and which is to be dedicated to the use of boys from 10 to 16 years of age. The annex is to be of brick and will cost about \$5,000. It will embrace most of the better features of the Y. M. C. A.

If the atoms in a drop of water were magnified to the size of a large marble, the drop would be as big as the whole globe of our earth.

The ancient Arabians kept festival on two occasions, the birth of a colt of some famous breed and the appearance of a new poet.

A Series of Articles Entitled "Motor Trucks And Their Work In The Texas Oil Fields"

Written by B. S. Huey.

NOTE: In view of the unusual conditions surrounding us in this Oil Field, and also due to the fact that we have recently taken on a Distributor's Franchise for the well-known Gramm-Bernstein Trucks, I feel obligated, Mr. Truck Buyer, to lay before you some facts which should govern your purchase of a Motor Truck.

These articles will be in the form of an open letter to the public, and will appear each Sunday in the Automobile Section of the Cisco Morning News. I am sure you and your many friends will find these articles both interesting and instructive.

ARTICLE 3.

"GRAMM-BERNSTEIN AND THE WORLD WAR"

Do you know, friends, it is a source of great satisfaction to me to know that our advertising is getting results; to know that people are reading my articles on "Motor Trucks and Their Work in the Texas Oil Fields?"

Just the other day a man walked into my office and said, "Mr. Huey, I believe you are telling the public the real facts in the articles, and undoubtedly your company has the facilities for giving the right kind of service; but tell me how it comes that Gramm-Bernstein trucks have not been operating down here before this? This truck is, to a large extent, a newcomer in the field."

"Mr. Blank," said I, "there is a real reason and one which I am proud to tell you of. Your boy went to war, didn't he; and with a credit to his country? Well, so did Gramm-Bernstein trucks go to war and there covered themselves with glory."

"A small, unpainted wooden building with skylights but no windows stands in the yards of the Gramm-Bernstein Motor Truck Company at Lima, Ohio. It is a homely, unpretentious structure, and the average passerby dismisses it from his mind with scarcely a glance or, perhaps, wonders mildly why no windows were provided.

"Such was the humble birthplace and home of the first U. S. Standardized Class "B" Liberty Truck. Here it was that the brain child of over two hundred of the best engineering minds of America first saw the light and emerged, a complete success from the very start.

"It was the absence of windows, excepting in the roof, and the strict surveillance of the building, which insured the complete privacy from spying eyes (which was enjoined by the government) while skilled Gramm-Bernstein mechanics, working day and night with feverish enthusiasm, assembled the first Liberty Truck and completed their task in three days under the

minimum time which had been set for them by the government at Washington.

"During the summer of 1917, shortly after America entered the war, a series of conferences were held at Washington by the best engineering talent of the country in order to design a standard truck for the grueling army service.

"Mr. B. A. Gramm, America's pioneer in the motor truck industry, acted in an advisory capacity at these conferences and a number of Gramm-Bernstein features, such as the G-B radiator and shroud, radiator guard, frame construction, Hirschmidt drive, etc., were adopted as standard for Liberty Trucks.

"On September 8, 1917, as a tribute to Mr. Gramm and the long successful truck building experience of the Gramm-Bernstein Motor Truck Company, the order was given to build the first LIBERTY TRUCK. This company built, also, the first convoy of thirty trucks which went to France, and turned out some five thousand of these trucks during the war.

"Now, friends, because of this great war activity of the Gramm-Bernstein Company, because they were doing "their bit" for old Uncle Sam, we haven't been able to get trucks down here before this. I have wanted to get this truck down here long ago, but there weren't any available.

"However, now that the war is over and we are all back in peace-time pursuits, we are able to offer you a completed Gramm-Bernstein truck that not only reflects the great qualities of the Liberty Truck but does full credit to the genius of its creator, Mr. B. A. Gramm, and the long experience of the factory he built.

"The equal of this truck and its appointments has never been seen in this country, my friends. Come in, Mr. Truck Buyer, and let me show you a real truck—a truck built specially for the requirements of this oil field work. Come in and let's talk it over."

Attention, Dealers! There is just a little valuable territory left on this wonderful line. It'll go fast. Wire or telephone.

Local Business Men See No Immediate Drop In Prices of Merchandise, But Think Top Has Been Reached on Ascending Markets

And silk hosiery is going higher. There is no relief in sight for millinery of the sport young man, according to the opinion of Cisco wearing apparel dealers. Some articles, these dealers believe, have reached the peak in price and will remain at that level from now on; but hats, shoes and hosiery have advanced 33 1/3 per cent since last fall, and the advance continues with every order, say the merchants. All silk goods are continually on the advance, they tell us.

General purchases for next fall have already been made, on a price basis of 10 to 20 per cent over last fall; hence, next fall, selling prices must necessarily be that much higher than at present. While some things may remain steady, and even decline, others will advance, is the opinion held.

Old Prices on Low Wages. A recent report sent out from Washington, through governmental committees, stated that a new standard of prices for wearing apparel had been fixed. However, it recites that in 1914 the textile and needle industries, in so far as concerned labor, were of the poorest paid industries in the country. But now they are paying an adequate wage, and the public should expect this condition to reflect itself in the future retail prices of clothing. The report concludes that there is nothing in present price conditions to warrant the belief that there can be any material reduction in the price of clothing.

M. Polesky, for the Model, says that the retail merchant is paying higher for next fall's goods, consequently must sell higher. John & Karkalis say that gents furnishings are soaring higher with each shipment, and that ordinary collars will be three for a dollar in 30 days.

Fisk, of Fisk & Roper, who handle dry goods and wearing apparel for both men and women, don't look for much change in prices. Some articles may possibly decline slightly, but this will be more than counterbalanced by the increase in others. However, he says that some jobbers are now selling at a price below that of the manufacturer. His anticipation of a drop—that may not come.

The Nine Dry Goods company thinks there will be but little change in manufacturers' prices for some time to come, but they rather hope for some reduction. Next fall's selling goods have already been purchased at an advanced figure, however, hence there will be no relief for this year.

Imported Goods To Remain High. Mrs. Curry says that most materials in millinery wear are imported, and that there is no hope to stay the advance in the near future. Ribbons and silks are continually being advanced by the importers and jobbers, so milliners have but to sell higher to protect their business.

O. D. Bibby of the Everybody's Store believes that dry goods and clothing have reached the peak, and that when they change comes, it will be for the decline. But this will not come for from 12 to 18 months. He, too, adds that purchases for next fall have been made on an increased price basis, hence the selling prices next fall will be higher.

H. S. Drundrecht, for the John H. Garner company, believes that prices will remain near the present level indefinitely. Some will doubtless advance, he says—especially clothing and hats. Hats have now been advanced 33 1/3 per cent, and some clothes may go 20 per cent higher. Hats are higher, he says, have but to sell higher to profit on this country.

Mr. Babbs says that ladies ready to wear is gradually rising in price, while those are soaring and very hard to obtain. Prices much stiffer on next fall's delivery in all silk goods and higher retail prices, must be looked for.

PUSSYFOOT STARTS PARIS ON DRY ROAD

PARIS, March 20.—William E. (Pussyfoot) Johnson has inaugurated a prohibition campaign in France. He addressed a Paris audience for the first time on prohibition this evening under auspices of the "Blue Cross Society."

OIL MAN HACKED TO DEATH IN MEXICO

WASHINGTON, March 20.—Details of the killing of Daniels Foley, an American at Los Naranjos, Mexico, were received today in a report from Consul Dawson at Tampico, where the body, showing 63 machete wounds was brought for burial. Foley was employed as an oil well driller by an American oil company. He had trouble with a Mexican employe who attacked him with a knife, the report said, and Foley shot and killed his assailant. The Mexican's friends then attacked Foley, who was surrounded and hacked to death. His family lives in Houston, Texas, where first word of the incident was received.

LOCAL MEN ORGANIZE A TRANSFER COMPANY

The Eastland County Transfer company with temporary headquarters in the American National bank building was organized here Saturday. The company is headed by C. M. Lewis, secretary of the Strum Oil company, F. A. Van Deran, cashier of the American National bank, and J. N. Hardy of Dallas, are the others interested in the new company.

RANGER HAS BULK OF EASTLAND COUNTY VOTE

RANGER March 20.—The town of Ranger will have about 4000 votes in the primaries and general elections this year. That is about 3868 more than the town had four years ago. While they are more interested in town building and bond voting plans than in the governorship it is gathered that Thomson, of El Paso, and Bailey, of Gainesville, are probably leading for the governorship. Thomson has a lot of fellow townsmen here who are real town builders and politicians.

LITHUANIA'S FIRST ENVOY IN AMERICA

Jonas Vileisis, the first representative of Lithuania in America, is a lawyer and a member of the first Lithuanian Tariba or national council. He was minister of the interior and later minister of finance in the Lithuanian provisional government.

TINKER HAS NEW IDEA IN ADVERTISING BALL GAMES

COLUMBUS, Ohio, March 20.—Baseball fans in this city will not have to be calling up the ball park to find out whether Joe Tinker's club is going to play ball, because Joe has conceived a novel way of telling the fans when the game is on or off. A wire will be strung across the main corner in the downtown section and a huge red ball will be hung in the middle of it on days when the team is playing. When the ball is hung close to the building, it will indicate that there is no game.

Among the eatables consumed in one recent voyage of a giant Atlantic liner were 75,000 pounds of meat, 1400 pounds of tea, 107,600 pounds of flour, and 40 tons of potatoes.

It isn't a kodak if it isn't an Eastman. Buy your own Kodak and start a collection of pictures of friends and loved ones.

EVERYWOMAN A GREAT MORALITY PICTURE

Its characters all bear the names of familiar Virtues and Vices. In this screen story, Everywoman becomes a compelling attractive heroine; Devotion a perfect Lover; and Passion a satisfactory villain. Visualized in these various characters are the invisible forces which, for good or evil, influence the life of Everywoman.

Who shall fathom the dreams of a young girl as she first looks out on life. "Standing with reluctant feet. Where the brook and river meet. Womanhood and Childhood meet!"

She starts fortified by all the beneficent attributes, youth—beauty—modesty—truth and good conscience; but near her are ambition and pride beckoning her; on passion with pleasant exterior; Vice in attractive form; Wealth ready to smooth every path; while Love—compassion—and Devotion seem but dull company.

Everywoman meets these characters daily. She must choose which shall be her companions.

In real life they bear ordinary names, but she knows to which group they belong, whether they are a force for good or evil; whether they should enter the inner circle of her Friends, or be passed by and forgotten.

Will she pursue ambition? Consort with vanity and pride? Indulge in dissipation and vice?

Or, in the path of simple standards and quiet modest ways be content to live her life in companionship with womanly virtues believing that if she pursue truth alone, love which she so earnestly desires, will be her sure reward?

What is a morality play? It is a parable in popular form. "Everywoman" by Lawrence Grant, the Juda Sunday, Monday, Tuesday.

Ladies you will notice the millinery display in the window of the Masonic building today by Mrs. Chas. Curry shows new and distinct styles in Fisk designs.

BEST DRESSED STAR IN HIS HOUSE IN ORDER

Elsie Ferguson is one of the few dramatic actresses in the world who has won international fame on the screen as well as on the stage. Since she appeared in her first photoplay, "Barbary Sheep," two years ago, she has become a cinema celebrity. Previous to her screen success her histrionic powers won her a definite place in the spoken drama both in America and in Europe.

Twelve successful photoplays, each giving her an opportunity to add to her reputation as a versatile artist, have endeared this beautiful star to the hearts of many thousands of persons. Miss Ferguson is known as the aristocrat of the screen and not only does she register beauty, poise and grace, but every gesture and movement bespeaks that rare quality—breeding. The leading connoisseurs of fashions have recognized Miss Ferguson's artistic taste in clothes as the best dressed American actress.

In "His House in Order," her latest Paramount Artercraft picture which will be shown at the Victory theater Monday, she wears many splendid gowns, all of which will be admired by her feminine admirers.

The West Texas League schedule is published in the News today, being released all over the state. Some slight changes have been made, due to train connections and local conditions. It was difficult to make a schedule, because of the closeness of the various towns in the circuit. The schedule makers used their best judgment, and Cisco's advantageous location with reference to railroads gave the local fans much the best of the season in holiday games.

The first Protestant Armenian church in America is soon to be erected in Philadelphia.

The Chinese believe that a sneeze on New Year's eve means bad luck through the coming year.

MAY CONFIRM COLBY NEXT WEEK IN SENATE

WASHINGTON, March 20.—Action of the senate foreign relations committee in reporting favorably the nomination of Bainbridge Colby to be secretary of state was expected to lead to confirmation by the senate early next week. Chairman Lodge of the committee was understood to have planned to call the nomination up Monday.

SHAVE AND HAIR CUT COST ONE IRON MAN

Local barbers wish to correct the impression that you can get a haircut in Cisco for 55 cents. That was the price announced at the time that there was a general raise in barber prices here. It used to be 50 cents. But a haircut costs you 65 cents now, according to the local tonorial artists. In other words they will take the foliage off your face and head for one buck and let you choose your weapons.

See the Fisk Millinery display in window of Masonic Bldg. today. Mrs. Chas. Curry, exclusive millinery.

HOW MUCH DID MARY PAY FOR DIVORCE?

FLICKER WORLD WONDERS AT MOORE'S FACILITY.

By MONROE LATHROP.

LAS ANGELES, March 20.—There is much speculation in the picture studios, where the Pickford-Moore divorce still is the sole topic of conversation, as to the amount of money settled upon Owen Moore to insure on his part a policy of non-resistance in the proceedings and his willingness to go to Nevada to be served with the necessary papers. Mary's plans for the future are spiced with topics of gossip also, but the gossip falls to upon the amounts of the Pickford and Fairbanks families as to their future relations.

It is said Mary is planning an early retirement from the screen. A "vase" from "The Sign of the Cross" that she had as a gift from Douglas Fairbanks is said to be her portion. "How do you like it?" she is reported to have asked him in a recent letter. The fact is she and her mother are making preparations for an extensive trip abroad, but what purpose Mary has in the fact that she recently has been the recipient of a substantial residence in Los Angeles, although Fairbanks has one of the most beautiful residences in California.

The matrimonial side of the question is debated warmly also. Mary and Owen are members of the Catholic church, which forbids the remarriage of divorced persons.

Meanwhile Mary and Owen are working on the same lot in the Russian studies in Hollywood and reportedly are said to meet more or less frequently, while Louella Fairbanks again is reported to have crossed the ocean.

ITALY COURTING GERMANY'S TRADE

Count Albertini-Marescotti di Visno.

Italy has entered the race for Germany trade. To promote business relations with her former enemy she has sent Count di Visno to Berlin. It will be his job to help create a demand for Italian goods.

GOOD CROWD TO SEE "MR. BOB" SOPHOMORE THEATRICAL.

There was a goodly gathering at the city hall last night to see the comedy drama "Mr. Bob" by the sophomores of the local high school.

The play received much applause and won many a laugh and cheer from the audience. The piece cleverly put on the play consisted of two acts with the same setting.

The cast of characters was as follows: Mr. Bob, Miss Frances Nichol, Miss Victoria Mahan, Miss Alice McWhorter, Walter Sanders, Paul McCart, and Swan Taylor.

NEW PUMP STATION FINE PROOF IS COMPLETED

The city engineer has approved the new pumping plant housing near Lake Geneva, according to Mayor James W. Harrison, who made a special trip to the lake Saturday.

The completed house is built entirely of steel and concrete and there is not a piece of wood in it. The fact, according to the mayor, will serve to make insurance rates here smaller as the building cannot burn down and get the supply of water out of commission in event there should be other conflagration in the city.

ASK EX-CROWN PRINCE TO PLEDGE NO POLITICAL MOVE

THE HAGUE, Mar. 20.—It is believed that former Crown Prince Frederick William was asked Friday to give a pledge to his father not to mix in German politics and to consent to definite statements.

Secretary General Klap of the Dutch government went to Heringen today and conferred with Frederick William and Burgomaster Verbeek.

The anti-militaristic and anarchist constitution of Holland have arranged a demonstration to be held in Amsterdam March 30 to protest against the residence of the Hohenzollerns in Holland.

The age at which marriage may legally be consummated in India is ten years.

The best type of man for long life is rather short and below the normal weight.

FUNDS FOR LEGION HOME BEING RAISED AT EASTLAND

EASTLAND, March 20.—A club house for the American Legion and legion community club will soon be opened for Eastland when the movement is a little further developed. The committee worked today in Eastland to solicit subscriptions. Several thousand dollars was subscribed in the drive. The plans for the drive were concluded at a meeting Thursday. Three men gave \$100 each.

A good deal is being said on the street corners about the legion club getting into politics. Reports have been going the rounds that the officers of the club were promising to deliver the vote of the American legion to certain candidates, both state and county officers. Earl Bender, the leader of the American legion was seen today and he most emphatically denied that any politics would be indulged in by the members of the legion as an organization, that that was not the purpose of the organization and no such politics would be entertained either by the officers or the members.

A New York hotel has the largest private telephone switchboard in the world. One hundred and twenty people are required to look after it.

WILSON HAS POWER TO STOP WAR MACHINERY TO MEXICO

WASHINGTON, March 20.—Exportation of machinery for the manufacture of arms and ammunition can be stopped only by the exercise of war powers still vested in the president, Attorney General Palmer held today in an opinion sought by the state department.

Mr. Palmer added that in his opinion the exportation of equipment for the erection of a munition-making plant in Mexico would not in itself afford opportunity for designing and domestic violence. While ultimate use of such machinery might result in disorders within the present laws there was no ground for establishing an embargo, he said.

The state department requested the opinion on the ground that a question can be raised in this connection with the proposed establishment of a munition-making plant in central Mexico.

THREE SCHOOL DIRECTORS TO BE ELECTED APRIL 3

An election to be held at the city hall Saturday April 3, three school trustees will be elected in the board of trustees of the City Independent School district.

The polls will be open, between 8 o'clock in the morning and 4 o'clock in the evening. D. L. Rogers has been appointed manager of the election.

An apron is the first article of clothing mentioned in history.

SOCIETY

VIRGINIA VAL JEAN, Editor
Phone 271

Women voters are going to be handicapped in some respects. It isn't going to do a woman a bit of good to change her mind after she has deposited her ballot.

Honoring Mrs. Patterson.
Mrs. W. E. Spencer entertained on Wednesday very delightfully in honor of Mrs. Guy Patterson, who has recently come here to make Cisco her home. The pretty decorations in evidence reminded one it was St. Patrick's day.

Shamrocks and roses enhanced the charm of the occasion. Quaint grocer baskets filled with candy constituted the pretty favors. Refreshments of green and white ice cream and cake were served by the hostess, who was ably assisted by Mrs. Robert Marshall. Six tables of brides and one of fiancés were indulged in and greatly enjoyed. Mrs. A. C. Green captured high score and was presented with a beautiful potted lily by the hostess.

Those present at this delightful party were: Mesdames B. S. Huey, A. A. Webster, R. W. Mancill, C. G. Gray, Guy Ward, John Neel, J. T. Berry, W. Marshall, F. D. Wright, Fulwider, S. P. Bunch, J. H. McCrea, Downing, Payne, Griswold, St. John, Gude, Holcomb, Green, Guy Patterson, C. C. Jones, George Tucker Mark Stamps and Tom Blue and Misses Mary Jane Butts, Bunch Weatherford and Beryl Huey.

Leap Year Dance.

The largest and most interesting social affair of the season was the leap year ball given at Humboldt town on St. Patrick's night by the charming young ladies of Cisco. It was really very swell. The hall was beautifully decorated, the color scheme of green and white being carried out in everything. There were cut flowers and ferns in profusion. Gaily decorated streamers of green and white crepe paper fluttered down from the ceiling. The beautiful real roses were tinted green and were quite unique. Roses and carnations filled the air with fragrance, while the celebrated colored orchestra led the air with sweet sounds. A very large crowd was in attendance. The young ladies made the dates with the men being leap year but sufficient courage to go after them in autos and carriages was lacking. A very lovely time was had by all present and dancing indulged in until the wee sma' hours. At 10

o'clock delicious pie and coffee was served. It was a brilliant, beautiful affair, long to be remembered by those present.

If you want to be cheerful, just set your mind on it and do it. The way to get cheerful is to smile when you feel sad. To think about somebody else's headache when your own is most busting to keep on belching to sun is asinine; nothing helps you to it like thinking more about other folks than about yourself.

Every day look at a beautiful picture; read a beautiful poem, listen to beautiful music and if possible, say some reasonable thing.

Visits Fort Worth.
Mrs. Fleet Shepard made a several days' visit in Fort Worth and Dallas this week.

At Eastland.
A number of Cisco couples drove over to Eastland March 17 to attend the banquet and dance given by the American Legion at the Stanley cafe.

First Bridge Club.
Mrs. Arthur Webster will be the hostess to the First Bridge club which meets next Wednesday afternoon.

Dinner Party.
Last Saturday evening Mr. and Mrs. G. E. Berry entertained with an exquisite five-course dinner at 7 o'clock. Covers were laid for nine. Mrs. Berry is a most gracious hostess and the service was perfection.

The guests were: Mr. and Mrs. John Atkins, Mr. and Mrs. Frank Harrell, Mrs. B. T. Hiddle, Miss Gladys and Harrell Reagan.

Laugh? Yes; Why not?
The better than crying, a lot!
We were made to be glad, not sad.
Sing? Why, yes, to be sure.
We shall better endure,
If the heart's full of song all day long.

The cowslip startles in meadows green;
The buttercup catches the sun in its chalice;
And there's never a leaf nor a blade to mean,
To be some happy creature's palace.

WHERE TO WORSHIP TODAY

SERVICES IN CISCO'S CHURCHES

First Christian Church.
Bible school 10 a. m.
Preaching 11 a. m. and 7:45 p. m.
Christian Endeavor, 6:45 p. m.
This is the beginning of our special pre-Easter campaign. All members are urged to attend Sunday school and church services. Strangers and visitors will receive a cordial welcome.
E. H. Holmes, minister.

First Methodist Church.
(Worshipping in city hall)
The subject of the sermon Sunday night will be "Small Church Rule?" The questions of the rule of the church in religion, in business, in society, and in politics, will be discussed. There will be special music at this service by

May Reside in Cisco.
Mr. and Mrs. E. C. Edens and brother C. O. Edens, are here from Georgetown Texas with a view to making Cisco their future home.

Visiting Son Here.
J. K. Robinson of New York is here for a few days, visiting his son. He is just completing an extensive sight-seeing trip to the Grand Canyon, Yosemite, Yellowstone Park and southern California. He is much pleased with his visit to the oil fields here.

Mrs. Chaney Entertains.
The Wednesday bridge club had a very pleasant meeting this week with Mrs. W. E. Chaney, hostess. Beautiful pastries were in profusion. Dainty refreshments in the form of an ice course, were served.

The ladies present were: Mesdames Guy Dabney, E. P. Crawford, Frank Harrell, Alex. Spears, Dean Sherry, Claude Wild, Chas. Fleming, G. E. Berry, Drewery of Dallas, Pittard, L. A. Harrison and W. E. Chaney.

Mrs. P. O. LeGrann, who has been visiting Dr. and Mrs. J. D. Leslie, returned to her home at Weatherford last Thursday.

A Wedding Announcement.
Mr. Bob T. Green and Miss Ida Mae Langford were married Sunday, March 15, 1920. Bob T. is the son of W. V. Green, living near Cisco. Miss Langford was the daughter of C. J. Langford, living in Gorman. They were married at Goree and came to Cisco to make their future home. We wish them a long and happy life.—A friend.

the Methodist quarter. We wish to call attention to our service Sunday morning at 11 a. m. We had a great experience last Sunday morning. Come praying.

The services of the day will be as follows:
Sunday school 9:45 a. m., Plak. Supt.
Morning service 11 a. m. Sermon by the pastor.

Story hour 4 p. m. Story by Mrs. Stuckey.
Intermediate league 5 p. m.
Epworth league 6:46 p. m.
Evening service 7:30 p. m. Sermon by pastor on the subject announced above.
Everybody welcome.
Lewis N. Stuckey, pastor.

Nazarene Church.
Our revival meeting is still in session. We are having good singing, fine preaching, good interest and very good crowds. Rev. Miss Nora Gehres is the evangelist in charge. It will be a treat for you to hear her preach. We especially invite you to attend these services. Come and hear the message Sunday, also the singing.
Rev. Thomas Albarn, pastor.

First Presbyterian Church.
The order of services today will be as follows:
Sunday school at 9:45 a. m. Preaching at 11 a. m.; Christian Endeavor society at 6:45 p. m.; Preaching at 7:45 p. m.
New members will be received at both services.
Strangers and visitors are most cordially invited to worship with us.
J. D. Leslie, pastor.

Christian Endeavor.
First Christian Church.
A special program has been prepared for this evening, under the leadership of Mr. R. E. Arnold, on the subject "Everyday Courtesy." We will have a number of visitors from Abilene and Baird, including Miss Willie McCaman, our district president, who will address us in regard to the district convention at Sweetwater next Sunday.
Junior Christian Endeavor society will be organized at 4 p. m., under the direction of Miss Lena Tikkler, of Abilene, junior superintendent. Senior society will meet promptly at 7 p. m. All young people of the city are invited.

In India if a man is not married at the latest by his twenty-fifth year then a long and happy life.—A friend.

REPAIRING EASTLAND AND RISING STAR ROAD

Grading crews are busy repairing the roads between Cisco and Rising Star and Cisco and Eastland, according to a statement made Saturday by County Commissioner Eppler. Seven teams and a crew of men have been put on the Rising Star road, and an attempt will be made to make it fit to travel. The Eastland road is also being ironed out.
"Everything that we can do to make these roads fit to travel over will be done," said Mr. Eppler Saturday.

Cisco Amazed Dallas Man.
G. H. Gaston of Dallas, representing the Southland Life Insurance Co. was doing business in Cisco Saturday. Mr. Gaston, like all other Dallasites visiting Cisco, was amazed at the great activity and building progress witnessed here.

RETURN OF TREATY LEAVES NATION IN QUASE WAR STATUS

(Continued From Page One)

a safe in Secretary Sanderson's office since it was given to the senate. It was said tonight that it probably would go now to a vault in the state department.

Has Three Courses.
Three courses are now open to Mr. Wilson. He can return the treaty to the senate, in which case the republican leaders declare it will be pigeonholed; he can do nothing while he waits for the verdict of the people, or he can treat the treaty as a dead letter so far as international diplomacy is concerned, and proceed to negotiate a separate peace with Germany, a step which he alone could initiate.

Whichever he chooses, a long delay seems inevitable before he can bring

REPAIRING EASTLAND AND RISING STAR ROAD

Grading crews are busy repairing the roads between Cisco and Rising Star and Cisco and Eastland, according to a statement made Saturday by County Commissioner Eppler. Seven teams and a crew of men have been put on the Rising Star road, and an attempt will be made to make it fit to travel. The Eastland road is also being ironed out.

"Everything that we can do to make these roads fit to travel over will be done," said Mr. Eppler Saturday.

Cisco Amazed Dallas Man.
G. H. Gaston of Dallas, representing the Southland Life Insurance Co. was doing business in Cisco Saturday. Mr. Gaston, like all other Dallasites visiting Cisco, was amazed at the great activity and building progress witnessed here.

In the consular field, too, the United States still is represented in Germany by Spanish agents.

The move of some senators to recall the treaty and try again for ratification was in a nebulous stage tonight and the general prediction was that it would collapse before Monday. Leaders on both sides said they saw no likelihood of any recall action.

In Greece the bridegroom has a gold ring, and the bride a silver one.

Millinery for Spring

Designed by Gage
for the woman who wants to be correct and not corrected

An Unprecedented Showing of Millinery

It is with a feeling of unworldly pride that we submit to you tomorrow for inspection the most unique and distinguished collection of new Spring Millinery that we ever have had the pleasure of presenting in all our commercial career.

There is not a popular shade or model that the immediate feminine fancy has sanctioned for present and future adornment but that is coquettishly conspicuous in the displays.

There are but a few of the prettiest you will encounter in your browsing among the assemblages.

For Children, Misses and Ladies—\$3.00 and upward to \$4.00

OFFER SILVER CUP TO CITY HAVING LARGEST CROWD OPENING DAY

CHICAGO, March 20.—Competition in the American Association to have the largest crowd on opening day should be keen this season.

The cup which is of sterling silver stands 22 inches tall. The silver part of the cup is 18 inches high and the mahogany base, upon which it stands is 4 inches.

The cup has just been recently received by Thomas J. Hickey, president of the league, who has announced its itinerary.

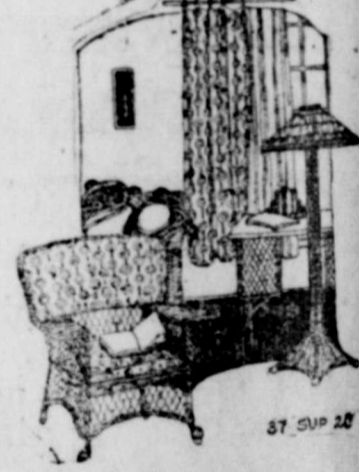

There is ample space below the inscription for the name of the club which wins it.

TURKS MAY EXPECT TERRIBLE JUSTICE SAYS LLOYD GEORGE

Tells Delegation Headed by Mohammed Ali That England Hasn't Forgotten Turk Part in War.

LONDON, March 20.—Premier Lloyd George yesterday discussed the Turkish question with the Indian Caliphate delegation, headed by Mohammed Ali, who declared that Turkey should have all her pre-war territories restored. The premier replied: "I do not understand Mr. Mohammed Ali to claim indulgence for Turkey, she claims justice, and justice, she will get. Austria has had justice, Germany has had justice—pretty terrible justice. Why should Turkey escape?"

"Turkey thought she had a feud with us. Why did she come and try to stab us and destroy liberty throughout the world while we were engaged in this life and death struggle?"

"Is there any reason why we should apply a different measure to Turkey than we have applied to the Christian communities of Germany and Austria?"

"I want the Mohammedans to be able to get it well into their heads that we are not treating Turkey severely because she is Mohammedan. We are applying exactly the same principle to her as to Austria, which is the greatest Christian community."

Regarding Armenian massacres, the premier said the allies were bound in the interests of civilization to exercise control of some sort, since the Turkish government was incapable of protecting its subjects.

CONSTANTINOPLE, March 20.—The chamber adjourned today for two months, apparently to avoid discussion of the proposed constitution. It defeated the suggestion that it reconvene in Asia Minor, but from former troops and signed a resolution condemning the British. The British, who transferred their to the lastingly Bechtel, to be taken to Britain. It is generally believed that, regardless of its public action, the chamber will be reassembled in Mustapha Kemal's territory.

The arrested nationalists will be tried at Malta by a British court martial.

Only about thirty Turkish nationalists were finally deported by the British, who transferred them to the lastingly Bechtel, to be taken to Britain. It is generally believed that, regardless of its public action, the chamber will be reassembled in Mustapha Kemal's territory.

The arrested nationalists will be tried at Malta by a British court martial.

PLEADED GUILTY TO THEFT TOWEL A DAY

Charged with having taken one towel every day from the local laundry in which they were employed, C. C. Reed and his wife, Blanche Reed, pleaded guilty to the charge of Justice of the Peace J. W. Taylor Saturday and were fined \$11.75 each for misdemeanor.

The charge was brought by the laundry manager. A search of the Reed's rooms in a local hotel is said to have disclosed the hoard of missing towels.

HITCHCOCK UNDERWOOD TRUCE FOR TWO WEEKS

WASHINGTON, March 20.—No effort to break the truce between Senator Hitchcock of Nebraska and Senator Underwood of Alabama for the democratic leadership for another two weeks, the two candidates having agreed to abandon their plan for a democratic caucus as soon as the treaty debate was ended.

Senator Hitchcock left today to spend ten days at Augusta.

For Millinery—See Mrs. Chas. Curry, balcony Masonic Bldg. 21-11

White Man Shot by Negro

PINE BLUFF, Ark., March 20.—John Wolf, white farmer, residing near Dixon, was shot three times late today by a negro, "Lucky" Worthen and perhaps mortally wounded. Worthen escaped. The men had quarreled shortly before the shooting occurred.

BERLIN RETURNS TO NORMAL WITH DISORDER ELSEWHERE

(Continued From Page One)

many. The number of loyal Reichwehr troops available is not revealed.

BERLIN, March 20.—Rumors are current that the Baltic troops have not left the Berlin district and are assembled near the Zoological Garden awaiting a fresh pretext to enter the city. Some troops are there but what unit they belong to cannot be ascertained.

Numerous security police are coming into Berlin from the outside cities.

BERLIN, March 20.—Something of its normal aspect returned to Berlin late today and the only reports of a disturbing nature came from cities and towns outside the capital, principally those in the Rhine industrial centers, where local soviet governments and communist regimes are declared to have been set up. To what extent the riots are in control is not definitely known, but that there are serious disorders of all kinds among laboring elements in these places is generally accepted.

Fear of an attack by the communists, who yesterday were reported to be marching on Berlin, has caused great tension among the police and military, who have taken precautions. A double row of barbed wire straggles in all cross streets runs from the northwest end part of the city to Moabit in a semi-circle round the inner city as far as Schoenberg. This is reinforced with machine guns and flanked by strong bodies of troops.

MANCILL MAKES TRIP DALLAS ON BUSINESS

R. W. Mancill goes to Dallas today on a few days business trip. It is not altogether Ford business that is taking Mr. Mancill to that city, but his principal mission is to select and secure the case book for his new building just starting on Seventh street, corner Avenue F. He notes that this new home of the Ford must be tastefully and brick ornamentation. This building is to be fireproof.

BROKE ANKLE TRYING TO STOP RUNAWAY

In a brave attempt to stop a runaway team on Main street Saturday morning, J. B. O'Brien, local citizen, aged 47, broke his right leg. O'Brien, who saw the horses running away, ran into the street, but before he could reach them, turned his ankle in a possible with the runaway subject to his left.

Ask to see the injured man—balcony Masonic Bldg. Mrs. Chas. Curry. 21-11

"L" George Sold to Columbus. "L" George, former Mayor of St. Joseph, a plumber and formerly manager of the Memphis Southern association, has been sold to Columbus of the American association, who announced here tonight.

Miss Gave Dinner. The regular weekly Miss Gave dinner was held in the judge's room of that court above the Julia T. Moore building Saturday. The attendance was not as heavy as usual, but those who came enjoyed themselves.

Harry Shaffer's arbitrator furnished good report.

At the children's games were participated with the danger.

NEWBERY GUILTY

Quintuple From Page One

normal the judge had approved against the arrested defendant the heaviest sentence.

Immediately after the verdict had been passed, Frank C. Dulles, of Indianapolis, assistant attorney general and chief prosecutor wiped the slate clean by offering dismissal of 18 of the 22 respondents to the indictment who had pleaded "no contest."

HAVE SIXTY DAYS FOR REFUEL

Sixty days have been granted defense attorneys in which to perfect an appeal. Then court adjourned.

Several jurors said that the defendant himself was largely responsible for the adverse verdict, particularly his statement that he had visited Newberry in New York that the campaign would not be lost.

It was also learned that in view of the testimony and the letters between King and Newberry introduced by the defense it was probable that the jury had no difficulty in agreeing that a conspiracy had existed. With this as a basis they started to ballot on whether all the 22 defendants were guilty and stood at nine to three all Friday on the proposition. Early today the vote was changed to 12 to two for acquittal. The judge announced the jury agreed not to attempt to convict the minor defendants. One vote only was taken on Newberry. It was 12 to two for guilty.

Turkey H. Newberry was elected senator from Michigan by a majority of 7,827 votes over Henry Ford, according to official figures. Those announced were Newberry 120,654, Ford, 112,827, one of the closest races ever recorded in a Michigan election. First formal charges of irregularities in the 1918 campaign came January 8, 1919, when Henry Ford filed with the senate an account for a recount. He alleged improper use of mails by the Newberry campaign committee, intimidation of voters, improper rejection of ballots and charged that at least 10,000 ballots were unlawfully counted for Newberry. He charged that many election boards included inside parties of Newberry.

LIEUTENANT GOVERNOR STARTED INQUIRY

Charges of "fraud and corruption," also were made by Lieutenant Governor L. D. Dickinson and it was on these charges, according to the department of justice that the grand jury inquiry was ordered.

The grand jury returned the indictments November 29 naming Senator Newberry and 124 others including virtually every man connected with the campaign. The list, however, was narrowed down to 25 after the trial got under way, more than eight weeks ago. Some were dismissed on motion of Prosecutor Dailey and some by the court acting voluntarily.

Testimony was concluded just one week ago.

Arguments by counsel occupied the greater part of the last week.

OLD WAY SUPERIOR TO WILSON PLAN ASSERTS GOMPERS

(Continued From Page One)

the case with the 120 national and international trade unions.

The report of the commission points out that a number of trade union leaders regard shop representatives as a subtle weapon directed against the workers because they are fundamentally wrong in principle and because they, in no sense, serve the real interests of the workers but readily lend themselves to the aims of employers hostile to trade unionism and are in fact, almost without exception creatures of employers.

Springtime Fashions Barnes'

THE HOME OF GOOD MERCHANDISE

Every man and woman who likes to select their apparel from Fresh, New Stocks, should keep in touch with this store. New goods are arriving daily—goods that were bought after a careful search of America's best manufacturing centers.

DRESSES

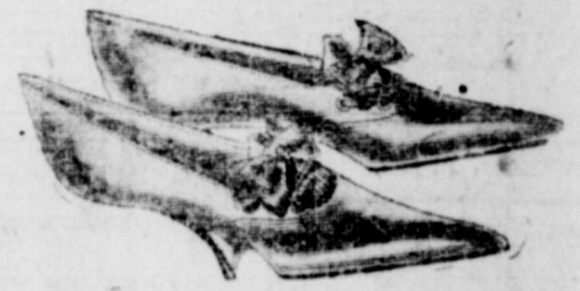

Some new Taffeta and Georgette Dresses arrived this week. Every garment is artful with its smart trimmings and stylish touches. Priced \$39.50 to \$69.50

Women's Spring Suits

Don't delay choosing your new Suit for Spring wear. The styles, in good variety, present an interesting choice for selection. Prices are moderate; materials are the best and workmanship reliable. Priced \$49.50 to \$115.00

Women's Spring Hosiery

All Hosiery is higher, and it is a wise buyer who selects her Hosiery from a well-known brand—one that has maintained the quality of their Hosiery in the face of advancing prices. When you buy your Black Cat Hosiery you are buying Quality Hosiery. Women's light weight Silk Lisle Hose; black, brown, white, Priced 95c Women's Silk Hose, black, brown, white. \$1.85 Women's extra quality Silk Hose; black, brown, grey, fieldmouse, white; regular \$4.50 grade, priced \$3.50 Women's extra quality Silk Lace Hose; black, brown, white, priced \$5.50 and . \$6.50

Women's Low Shoes For Spring

Featuring Reliable Grades at Moderate Prices Women's Patent Low Heel Pumps, plain toe, priced \$7.00 Women's Colonial Kid Pumps; medium heel, light leather sole, priced \$6.50 Women's Patent Pumps; Louis Heel; light turn sole, priced \$7.50 Women's Patent or Kid Pumps, baby sole style, priced \$5.25 Women's Black Glove Kid Oxfords, light welt sole, priced \$13.75 Women's Brown Kid Oxfords, welt sole, military heel, priced \$15.00 Women's Brown Colonial Pumps, military heel, priced \$7.00
