Fernando de Union, in Union province, P. I. The case is also a curiesity. It may be called a family cigar, as all smoke it, and the grandmother is supposed to finish it or the cigar to finish the grandmother."

The Utah-Arizona Boundary. H. B. Carpenter, a civil engineer who has just completed the survey of the southern line of Utah, says the boundary between that state and Arizona does not cross a foot of cultivated land. It traverses a desert, which is cut up by great | = canyons that are almost impassable. The length of the line is 277 miles. Landmarks along the line will make it possible for the boundary to be located without any difficulty in the future. Just cast of the Colorado er a sandstone butte rises 1,000 feet above the plain, and the very peak of this butte is exactly on the two gigantic stones-will always be for a time. a guide to persons who have enough curiosity to penetrate the desert in search of the state line
