Lions Considering Project of School Pupils' Welfare

Specialist For Examination of Children May Be Secured By Civic Club

Further work for the benefit of children attending Sonora schools is being considered by Lions Club members and, if undertaken, will likely be under way before schools begin September 6.

As an aftermath of a discussion of the proposition at the directors' meeting last week the matter was presented at the Tuesday luncheon of the organization.

Record of Work Planned

It is believed that genuine service may be rendered by securing a specialist to come here to make eye, ear, nose and throat examinations of children attending Sonora schools. It is likely teeth also would be inspected. To assure utmost benefit from the examination it is planned that a card record will be kept for each child showing results of the examination with space for notation of correction of physical defects. The card could be referred to in other years if the work were done again.

F. T. Jones, superintendent of schools, Dr. J. Franklin Howell, W. R. Cusenbary and Dr. Joel Shelton expressed themselves Tuesday noon as favoring the proposed work if it is done in a thorough manner.

Benefit Bridge Party Soon

W. J. Fields, Jr., assigned Dr. J. Franklin Howell and Dr. Tom White, only members of the Blind Work committee of the club in town now, the task of finding out what the cost of such work would be and the manner in which it could be handled. If undertaken by the club, some of the examinations at least probably will be made during this month.

The Child Welfare committee, made up of Dr. Joel Shelton and Homer Harris, was authorized by the club to proceed with plans for

(Continued on page 4)

NEW BOOK OF BIBLE TO BE STUDIED BY CLASS

All services will be held at the Baptist Church with the Rev. R. C. Brinkley, pastor, who returned from Loraine Monday night, in charge.

The Reverend Mr. Brinkley said Tuesday that the Loraine meeting was quite successful, with forty-two persons converted during the course of the meeting.

The first chapter of John will be used by the Reverend Mr. Brinkley Sunday morning in his address at the Bible Class in La Vista Theater. The men will study chapters of John, in chronological order, just as they have been studying the book of Matthew.

Elliott Brothers Buy Store Interest

Mrs. Belle Steen, Vice-President of Corner Drug, Sells Out

A resident of Sonora twenty years, Mrs. Belle Steen last week announced the sale of her interest in the Corner Drug Store to L. W. Elliott and his brother, A. C. Elliott, with whom she has owned the store since the death of Mr. Steen several years ago.

Mrs. Steen has been vice-president of the corporation which has operated the Sonora business firm since it opened for business March 18, 1929. She and Mr. Steen came here from Monterey, Ala. Mr. Steen was first employed by the Sonora Drug Store and became a member of the Corner Drug Store firm when it opened for business.

At the time of her husband's death Mrs. Steen assumed his interest in the store and has been actively interested in it since that time.

Not able to announce definitely her plans for the future, Mrs. Steen said that she will spend some time soon with her mother, Mrs. T. A. Crawford, who has been ill recently in Alabama. Mrs. Crawford spent several months with her daughter here last winter.

Judge's Typewriter Taken By Stranger

Ruse Permits "Service Man" To Get Machine From Office

Alvis Johnson, county judge, is short one portable typewriter as a result of the misguided energy of an individual who made a call at the courthouse Thursday of last week.

Typewriter cleaning work was solicited in county offices. The judge was not in his office but the custodian of the building, Pete Andrews, was found by the typewriter "service man."

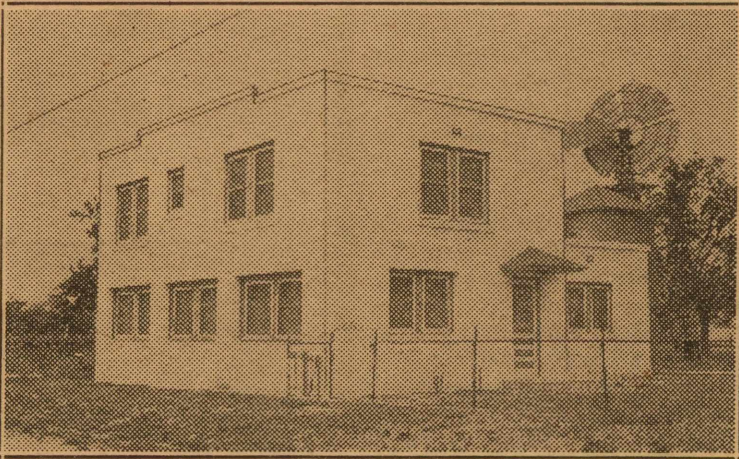

Andrews was asked to be let in the county judge's to get the typewriter which he wanted cleaned. The typewriter was secured and the "service man" went on his way after a few movements to indicate he would be at the cleaning work soon.

Letters were sent this week from the sheriff's office seeking to locate the machine. Information received here from San Angelo typewriter people has been to the effect that they have heard recently of such a person's activities.

Firemen Work Wednesday

Sonora Volunteer Fire Department members were called Wednesday afternoon to put out a fire back of the Claude Prater residence. The barn-chicken house which was afire was destroyed.

Sutton County Is Building!

Almost at the time 1937 came Sutton county construction was begun on the house pictured above for Mr. and Mrs. Joe B. Ross.

Serving both as a garage and a residence, the front of the building is two-story and the back one-story. There are two bedrooms and a bathroom upstairs and a kitchen, large living room, bedroom and bathroom downstairs.

Hollow tile and stucco was

used in the construction of the house, near the school campus, by J. T. McClelland, contractor.

The picture is one of the series being used in the NEWS in connection with its "Home Builders' Page" on Page Six. Other homes which have been shown are those of Mr. and Mrs. John Fields, and Mr. and Mrs. Neill Rouche.

Turn Now To The "Home Builders' Page"

Business Property Bought By Jeweler

Building Will Be Constructed Within Two Years

Deed has been recorded in the office of J. D. Lowrey, county clerk, signifying that George Barrow is now owner of a frontage of ten feet west from the Club Cafe property owned by Mrs. Mike Murphy.

Mrs. Murphy, owner of the property from the cafe to the alley as well as the buildings to and around the corner toward the postoffice, sold the property to Mr. Barrow.

The privilege of tying on to the cafe building wall was included in the transaction.

Mr. Barrow has been renting a storeroom on eight feet of the ten he bought. He said this morning that within the next two years he expects to build an attractive business building on the property he has bought. The building will be used for his store.

The frame building used by Andrew Moore and J. C. Morrow and Sonora Electric Co. is owned by J. D. Eaton.

New Owner For Theater Building

Sutton county records show the transfer recently of La Vista Theater property from Carl Gunzer to L. W. Elliott. The property has fifty foot frontage and is one hundred feet deep. The building is being remodeled.

A. C. Fambrough, 65, Here Since 1889, Buried This Week

Early Day Sheepman Machinist in Sonora Many Years; Pioneer Garage Man

Probably known as well as any citizen of Sutton county, A. C. Fambrough, known to people everywhere as "little Fambrough," was buried Tuesday morning after services conducted by the Rev. R. F. Davis at the home of Les Fambrough.

Death came about noon Friday after an illness of only a week. He suffered a paralytic stroke last week and little hope was held for his recovery after that time.

Ranch Worker Years Ago

Les Fambrough, his son, said this week that his father came to Sonora from Menard in 1889. He and his stepfather, John Potter, and W. W. Wilmaker were in the sheep business for some time on what was known as the Potter place, part of what is now the Aldwell Bros. ranch.

Later he operated what his son said was the first garage business in Sonora. It was where the Recreation Club is today. The first automobile in Sonora, according to the son, was brought here by the father for G. W. Morris, Sutton county pioneer. It was a high wheel vehicle resembling the old fashioned hack.

Last year when he was sixty-five

Methodists to Burn \$8,000 Note Given For Building Loan

Remaining \$1,000 of Cost of 1925 Structure May Be Settled During 1937

Methodists in Sonora will observe a forward step in their history as a religious group in Sutton county at the Sunday morning service when they burn an \$8,000 note given nearly ten years ago.

The last payment of \$1,000 was made April 1, the Rev. R. F. Davis, pastor, said this week.

The lending organization was the extension board of the church with headquarters in Louisville, Ky. The note, given for money to be used on the church building as church trustees at the time—November 29, 1927:

M. G. Shurley, B. M. Halbert, W. J. Fields, Ben H. Cusenbary, R. A. Halbert, J. D. Lowrey, J. W. Trainer, George J. Trainer, W. E. Caldwell.

All are living except George J. Trainer.

Ben Cusenbary, senior ranking member of the board, will be asked to officiate at the note burning, the Reverend Mr. Davis said.

The church owes only \$1,000 more on its building—completed in 1925—and it is hoped by the pastor and church officers that this obligation may be removed within the next six or eight months, making the organization clear in the matter of obligations entailed for the providing of its house of worship.

In the evening the pastor will speak on "The Glory To Be Revealed." Saturday afternoon at four o'clock children between the ages of six and twelve will have their usual weekly meeting in the church basement. The young people will sing and play and a Bible story will be told. Twenty-two children attended last week.

CHURCH OF CHRIST WILL BEGIN MEETING AUG. 22

Announcement was made this week that the Church of Christ would begin a series of meetings in the new church building Sunday, August 22.

Preaching will be by James F. Black who until recently was pastor of the Church of Christ in Ozona. He lives in Del Rio. Mr. Black is well known in Sonora, having conducted services at the Sonora church a number of times.

The series of meetings will continue a week or ten days, Miss Bertha Eaton, a member of the church, said Thursday.

Baby To Mr. and Mrs. Minnick

A baby boy weighing nine pounds was born Tuesday to Mr. and Mrs. Gomer Minnick. Mrs. Minnick is the daughter of W. B. Person.

Sonora People Now Own and Operate City Water Plant

Utility Revenue For August To Go To New Owner; Deal Completed Tuesday

Last minute difficulties in the transfer of the water system serving Sonora people to the ownership of taxpayers rather than private parties became history about noon Tuesday.

Conferences were held last week between the city officials, representatives of the Interstate Public Service Co. and the bonding company.

Payment for the bonds was made through a San Antonio bank Tuesday and the city at once completed its transaction with the owner of the utility so that immediate possession of the property might be effected.

Printed forms and other supplies were ordered this week by O. C. Ogden, manager of the water system department, and George E. Smith, city manager, to carry on the business of operating the utility.

Transfer of the property was scheduled for August 1 but could not be effected as money was not "in hand" for use by the city in paying the utility owners the \$37,985 purchase price agreed upon some time ago.

Satisfaction was expressed this week over the fact that transfer had been made so that the city may secure revenue for operation of the system during August, a month when a great deal of water is ordinarily used.

The city last week purchased a pick-up truck for use in carrying on the work of the water system department.

Newspaper Worker On Vacation

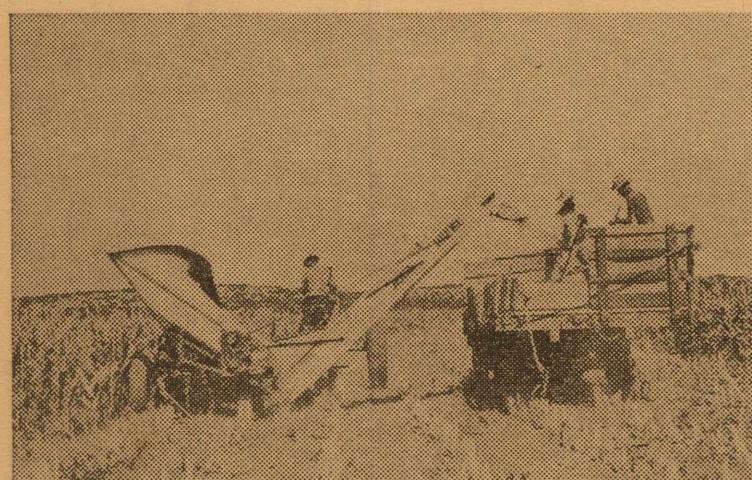

Vacationists through Sonora Monday included Mr. and Mrs. O. L. Royal of San Angelo. They were on their way to a few days' fishing on Devil's River at the power dam near Del Rio. Mr. Royal is classified advertising manager of the San Angelo Standard and Times. Mrs. Royal is a sister of Evert White, publisher of the Ozona Stockman.

Mrs. J. M. Treadwell and daughter, Linda, of Menard visited Mrs. V. F. Hamilton and Mrs. Tom Driskell Sunday.

COUNTY'S BUDGET MEETING MONDAY—1 O'CLOCK

Alvis Johnson, county judge, announced this week that the meeting to consider the Sutton county budget for the coming year would be held Monday afternoon, August 16, at one o'clock in the county courtroom. All citizens have the privilege of attending.

HARVESTING AND STORING KAFFIR CORN ON ALLISON RANCH FOR FUTURE FEEDING

Strange thing—a trench silo in Sutton county.

The pictures above, cuts for which were furnished the NEWS by E. C. (Pete) Garvin, show the work of cutting kaffir corn silage on the William S. Allison place west of town and storing it in the ground for future use.

The only other trench silo work known to have been done in the county is an experimental one dug by the Ranch Experiment Station. Joe M. Vander Stucken has recently had a silo dug on his ranch.

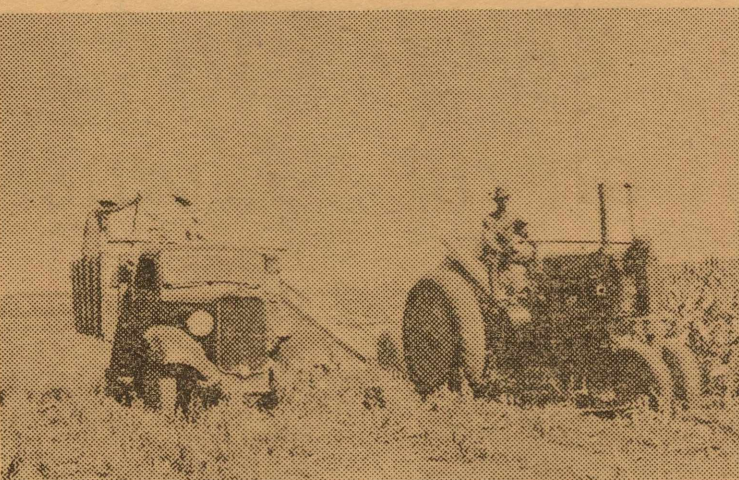

A cutter, known correctly as an ensilage harvester, and a rubber-shod tractor, recently bought by Mr. Garvin were used in the work

on the Allison place. The equipment cost \$2600.

Two silos were dug with Garvin equipment near the 65-acre field of kaffir corn.

The silo filled is 140 feet long with an average depth of nine feet. The top width is eleven feet and the bottom seven, giving it a wedge shape. It was built at a cost of \$60. While the equipment was on the ground Mr. Allison had another silo dug which has not been used.

The picture at the left above shows the harvester at work "grabbing" grain, "grinding" it and propelling it to the truck as it moves alongside over rows where

work has been completed. Otis Murray and Donald Mackey are working in the truck and H. O. Chapel is tractor operator.

The center picture shows a front view of the tractor and truck while idle for a moment.

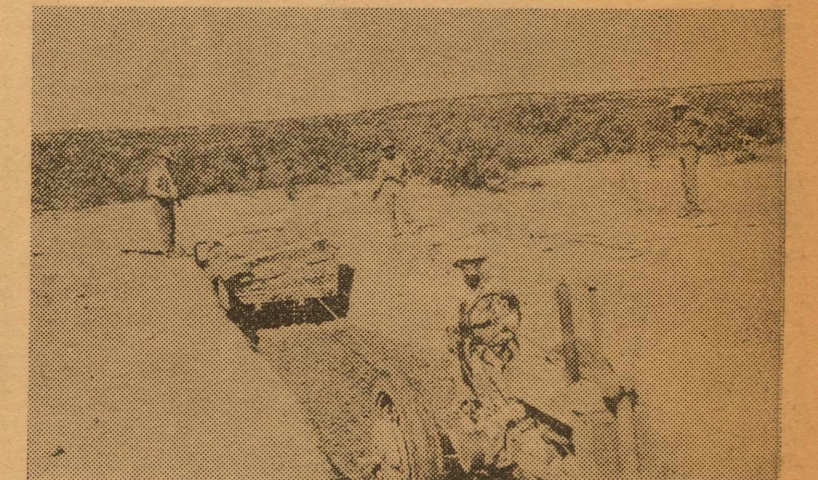

The picture at the right shows the tractor unloading the truck in the silo. An ingenious hammock-like affair, made by Mr. Allison, is laid in the bottom of the truck before each load. After the truck is driven in the silo a rope from the "hammock" is attached to the tractor. It travels down the silo, pulling the hammock and unloading the truck quickly.

A silo filled with cut silage and

packed well with lots of water used weighs 45 to 50 pounds to the cubic foot, according to H. C. Atchison, county agent, who has worked closely with Mr. Allison and Mr. Garvin. Ordinarily only the truck unloading in the silo does the packing. The Allison job also had a tractor packing in the silo continually.

Mr. Allison believes that he has approximately 225 tons of silage. Mr. Atchison says that this is sufficient to feed 2,000 grown sheep from 60 to 70 days and is enough to lamb out that number of ewes during drought and put them in good milk flow.

Mr. Atchison said Thursday that

such silage as Mr. Allison has stored for future use is:— a) a good substitute for winter grass; b) a good tonic, appetizer and conditioner; c) a good feed; d) a feed that can be kept indefinitely without damage in a trench silo if properly packed.

A two-inch water line was used for water on the silage as it was packed in the silo. When filled the silo was covered with dirt. Fencing of the silo is desirable, it is said, to keep stock from digging into the feed stock.

In speaking of trench silo work this week Mr. Atchison said:

"Bees store up food for winter, dogs bury their surplus bones

against time of need. All insects and many wild animals that do not become dormant in winter months have a store of food during winter months when food is not available.

"The trench silo offers the farmer and ranchman a practical and sure method for storing feed for use during the winter or a drought.

"Sheep can be fed three to four pounds of silage on a dry range heavily infested with bitterweed with practically no loss from bitterweed poisoning. No trouble is experienced in getting sheep started on silage."

(Pictures by Devil's River News)

Sonorans On Way To Boston
Mrs. Velma Shurley and children, Lacey, Lillie Marie, Margaret Fay, Jerry and Eugene, left Thursday of last week for a trip to the north and northeastern states. In Boston they will visit Mrs. Shurley's son, Marvin, who is employed there.

CARD OF THANKS

We are truly grateful for the kind acts at the time of the illness and death of our husband and father, A. C. Fambrough.
Mrs. A. C. Fambrough and Children. (adv)

Before you go elsewhere to buy, try George Barrow's. He can supply anything in jewelry. Buy on time; no carrying charges—adv.

LEGAL NOTICE

Notice is hereby given that I, Jesse Green Barton, whose place of business is located on Lot 2, Block U, in the city of Sonora, Sutton county, Texas, have applied to the Texas Liquor Control Board at its office in the city of Austin, Texas, for a retail package store permit under provisions of the Texas Liquor Control Act.

Jesse Green Barton.

Notice is hereby given that I, R. V. Sewell, whose place of business is located 22 miles west of Sonora on Highway 27, Sutton county, Texas, have applied to the Liquor Control Board at its office in the city of Austin, Texas, for a retail package store permit under provisions of the Texas Liquor Control Act.

R. V. Sewell.

Notice is hereby given that I, Amador Castillo, whose place of business is located on Lot 9 1/2, Block K, in the city of Sonora, Sutton county, Texas, have applied to the Texas Liquor Control Board at its office in the city of Austin, Texas, for a retail package store permit under provision of the Texas Liquor Control Act.

Amador Castillo.

Notice is hereby given that I, Alfred Brown whose place of business is located on Lot 2, Block Y, in the city of Sonora, Sutton county, Texas, have applied to the Texas Liquor Control Board at its office in the city of Austin, Texas, for a retail package store permit under provisions of the Texas Liquor Control Act.

SONORA, TEXAS

"VOICE OF THE WEST"

Lieut. William J. Trevorrow, U. S. Navy, retired, now a teacher at a Los Angeles high school, as he prepared to sail for England, where he is to become one of the "Bards of the Gorsedd of Cornwall," the only person in the New World to be so honored. There are only 133 bards in the world and only three outside of England.

NEW "FLEECE" WORKED ON PUBLIC HIGHWAYS

The Houston Chronicle reveals a new hold-up graft in the following warning:

Women motorists were warned to look out for an "obliging" motorist who has figured out a new way to get money without working for it. The warning came from Capt. E. W. Mayr, head of the Houston detachment of the state highway patrol.

"Two Houston women on the way to Dallas a few days ago were flagged down by a man and woman in another car," said Mayr. "The man drove up beside them and shouted that the woman's car was on fire."

The woman stopped the car and the man rushed over and threw up the hood, they told Mayr.

The man looked under the hood and said, "My God, it's a good thing you stopped when you did." He told them it was a fire coming from the distributor cap and the whole car would have been enveloped in flames in another half-mile.

"The women knew nothing about machinery and accepted his word for it. The man suggested that he leave his wife with them while he drove back to the nearest town and get another distributor cap. When he returned, he had the cap in a box on which was marked \$14.75. The women paid him that amount and he obligingly put the new cap on the distributor for them.

"When they came back to Houston, the women told their husbands and learned that the regular price for the cap was 75 cents."

Guests at Davis Home

Mr. and Mrs. Wallace Davis and son, Dudley, of Houston spent several days this week at the homes of his brothers, W. L. Davis and G. H. Davis. Marjorie Davis, daughter of Mr. and Mrs. G. H. Davis, returned to Houston with them for a visit.

The hardest part of making good in this world is you have to keep on doing it every day!—Stewart Warnerite.

Fountain Installed By Firm This Week

New Drug Store Owners Have Modern Dispensing Unit

Work of installing the new fountain bought by the Sonora Drug Co. was completed Wednesday and that firm now has the distinction of owning a modern soda unit, "streamline" in design and possessing the best features of modern fountains.

Sharp corners and dust catching crevices are eliminated and exterior surfaces are polished, stainless steel. One-piece syrup jars of the same material are a feature of the fountain.

Ice cream compartments are especially designed and placed in the fountain so that ice cream is kept at the proper serving temperature at all times. Syrups used in work at the fountain are also kept at a constant low temperature.

The fountain is longer than the one it replaces yet is only thirty inches wide, making for ease of serving on the part of the dispenser. It is a product of Liquid Carbonic Corporation, Chicago.

Young Lady Home From Hospital

Miss Wynona Hutcherson has returned from San Antonio where she underwent a tonsillectomy Friday. Wynona and her mother, Mrs. B. W. Hutcherson, came home Wednesday.

Roueches Have Guests

Mr. and Mrs. R. T. Mobley of Midland and Mrs. Ora Teagarden and sons, Jack and Gilbert, of Odessa spent Tuesday with Mr. and Mrs. Louis Roueche. Mr. and Mrs. Mobley and Mrs. Teagarden

left late Tuesday evening for Houston, while Jack and Gilbert remained here for a visit with their aunt, Mrs. Roueche.

Men Return From Fishing Trip

George A. Barrow and Jimmy

West of Eldorado have returned from a fishing trip on the Nueces river, south of Rocksprings. Mrs. Barrow was in charge of the Barrow store during his absence.

MEASURE UNIVERSE BY SPEED OF LIGHT

Celestial Events Arouse Interest of Laymen.

Washington, D. C.—Total eclipses, unusual sun-spot activity, radio fadeouts, and other celestial phenomena breaking into news columns these days make necessary a yardstick by which the layman can straighten out his conceptions of heavenly distances, says the National Geographic society.

"The two factors in important eclipses, the moon and sun, may seem impressively far away when their distances are measured in miles; but they are really very close in terms of the time required for their light to reach the earth.

"The moon, our nearest neighbor in space, is roughly 235,000 miles from the surface of the earth facing it. It is a dead 'world' and gives out no light of its own. But its reflected light from the sun travels through space at the same speed as direct sunlight: approximately 186,000 miles a second. Light, therefore, reaches us from the moon in about 1 1/4 minutes—almost a negligible period of time.

"The sun's mean distance from the earth is much more impressive in miles—approximately 93,000,000. But light from the sun, piercing space at its tremendous speed, reaches the earth in a mere matter of 8 1/2 minutes. Our temperature and other weather phenomena, and even life itself, are dependent on the continued flow of light from the sun; and since the light stream travels to us so swiftly it results that effects on earth are tied extremely closely to events on the sun.

Sun Storms Affect Radio.

"With radio communication as widely developed as it is today, there are striking demonstrations of the effective closeness of the sun to the earth. Scientists recently photographed the flaring up of a brilliant spot of light on the sun, recorded the time and found that at the same instant radio signals of certain frequencies faded out completely.

"The earth's fellow planets of the solar system are also close by. Venus, which approaches nearer to the earth than any heavenly body except the moon, is only 26,000,000 miles away at the closest, and light then reflected from it reaches the earth in 2 1/2 minutes. Neptune, farthest of the major planets, is 2 3/4 billion miles away at its closest approach, and light then reflected from it reaches the earth in about four hours.

"These and the other members of our own solar system are the earth's only 'neighbors.' When we consider heavenly bodies outside the sun's family—the so-called fixed stars—we run into stupendous depths of empty space before finding the nearest star. In measuring such distances as this miles become meaningless. Instead, there is brought into use as a measuring unit the vast 'light year.' This is the distance that light, rushing through space at 186,000 miles a second, travels in one year, or more than 31 1/2 million seconds. In miles, a light year is more than 5,865 times one billion—a figure far too cumbersome to use, especially when it is multiplied many times as it must be in measuring the distances to the more remote stars. Astronomers have, therefore, saved both time and mental wear and tear by inventing the light year.

Incredible Distances.

"The nearest star to the earth is Proxima Centauri, visible from the southern hemisphere, which is 4.27 light years away. Numerous stars have been observed which are as much as 500 light years distant. Far beyond these are the great nebulae, vast groups of stars or 'island universes.' The nearest of them are estimated to be 850,000 light years away; and the farthest, faintly visible in the world's largest telescope, are estimated to be the almost unthinkable and incredible distance of 500 million light years away from the earth.

"It is when we deal with distant fixed stars and nebulae, very far outside our solar system, that we run into the fascinating and romantic fact that the star which we see at any moment is not the star as it now exists but the star as it was five hundred, a thousand, or several million years ago! Thus, if we were to look tonight through a telescope at the star Rigel we would see its light which started from the star 600 light years ago, some ten years before Christopher Columbus was born. Even if Rigel had been blotted out of existence 400 years ago, it would continue, to the observer from the earth, to shine in its accustomed place in the heavens for 100 years yet to come."

Dog Competes With Cats for Nine-Life Reputation

Minden City, Mich.—A cat may have nine lives but Buster, a collie owned by M. J. Ennest, Minden City banker, for 13 years, has at least three.

Ennest found Buster lying stiff and cold behind the house one night. Before burying him, he went into the house to tell the sad news. When he returned Buster had come back to life. Later the dog disappeared and was reported by a school girl to be "really and truly dead this time" in a distant woods. A few weeks afterward Buster appeared at the back door, weary but alive.

Sutton Horses and Goats Winners at Junction Affair

Otto Mund Goats Place and Other Ranchmen From Here Sell Breeding Stock

Sutton county livestock's excellent points were shown this week in Junction when two Sutton county ranchmen displayed goats at the showing sponsored by the Texas Angora Goat Raisers' Association and the Hill Country Fair Association.

Horses of J. S. Holman, Sutton Sutton county ranchman, won races for their owner Tuesday and Wednesday in the racing meet held as part of the celebration.

The first day Purple, ridden by L. Robinson, Holman's trainer and jockey, was second in a 3-8 mile race.

Yankee Doodle and Purple carried the colors of the Holman racing string the next day with Yankee Doodle third in a free for all half mile with \$70 purse and Purple third in a free for all 5-8 mile race. The purse was \$80.

Joe Brown Ross who recently bought sixty-seven head of Angoras from U. S. Grant, well known Oregon breeder for many years, took ten of the Grant goats. Fifteen of the animals he raised himself were also offered for sale. The Grant goats were not exhibited in the contests inasmuch as they only had five months' hair.

Seven billies were taken to Junction by W. L. Davis, Sutton ranchman, who last week had a number of goats at the Sanderson celebration.

Sales to or by Sutton county people, reported in the San Angelo Morning Times Wednesday, were:

Mrs. J. A. Ward & Son, three billies to L. A. Gaathopf, Hondo, at \$35 each; Joe B. Ross, one billy to Fletcher Gardner, Roosevelt, at \$22.50; Johnson & Turner, Junction, to W. L. Davis, one billy at \$45;

Otto Mund, one billy to J. L. Gulley & Sons, Uvalde, at \$45; J. L. Gulley & Sons, one billy to Otto Mund, at \$90; J. B. Reagan, Leakey, one billy to W. L. Davis, at \$37.50;

S. S. Shankling, Rocksprings, one billy to Mrs. J. A. Ward & Son, at \$50.

The San Angelo newspaper stated that top price for billies Tuesday morning was \$160, paid by M. B. Burr, Junction, to C. A. Pepper, with an average price of \$70.45.

Otto Mund, Sutton county ranchman, won fifth place with a doe kid in the "B" type, short fleece, class. He also won second and third in the class for buck kids, "C" type.

Goat sales to or by Sutton county people Wednesday included: J. A. Ward, Jr., one billy to Joe B. Ross, at \$60; J. A. Ward, Jr., one billy to J. O. Padgett at \$100; Claude Pepper, one billy to J. A. Ward, Jr., at \$250.

W. H. Rawlings was elected president of the Texas Angora Goat Raisers' Association Wednesday night. He succeeds M. D. Taylor. Vice-presidents chosen were Joe Gardner, Junction, and C. A. Pepper, San Antonio.

FEED COMPANY INSTALLS NEW TYPE OF MACHINERY

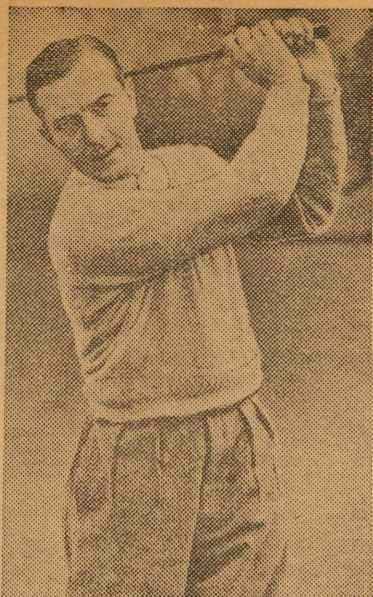

H. V. Stokes announced this week the purchase of feed grinding machinery which is to be used in his place of business here.

A mixer of 1-ton capacity has also been bought and will be used with the grinder.

The new equipment, Mr. Stokes said, is particularly suited for the grinding of maize heads for mixing with cottonseed meal and other ingredients for feeding use. Special mixtures of any kind are to be made by the Sonora firm.

Mr. and Mrs. Lee Labenske and daughter, Mildred, returned last week from a visit in Winters and Fort Worth.

BRITISH GOLF ACE

Henry Cotton, who was acclaimed as the new British Open champion at Carnoustie, Scotland, recently, after defeating leading amateurs and professionals from all parts of the world. Cotton, who scored a brilliant par 71 during a furious storm, defeated his nearest rival, Reginald Whitcomb, by two strokes.

LAMBS SHIPPED MONDAY AVERAGED 62.64 POUNDS

An average weight of 62.64 pounds was registered Monday when R. A. Halbert, Sutton county ranchman, shipped 1581 cross-bred, blackface lambs sold to Dee Finley at eight cents.

Eight hundred lambs of the same crop were shipped some time ago. The 62.64 weight is considered quite good when shipment of top lambs of the lot had already been made.

Mr. Halbert said Monday afternoon that less than 100 lambs of the crop are left.

W. A. McDONOUGH STILL UNABLE TO WALK ON FOOT

Slow improvement is noted by W. M. McDonough who has been ill in Blanco several weeks since he underwent an operation on his foot.

A part of the time Mr. McDonough, a brother-in-law of Mrs. Beal Freeman of Sonora, is allowed to use crutches. Most of the time he must remain in bed.

In a letter to the NEWS Mr. McDonough says that tomato raisers in the Blanco section are experiencing a poor crop because of dry weather. Livestock in that section is also suffering.

Drennans Home From San Antonio

Mr. and Mrs. Bill Drennan and children, Billy Dee, Oscar, Betty and Patsy, and Mrs. O. E. Merriman and daughter, Violet Drennan, returned Wednesday from San Antonio. Patsy, their three-year-old daughter, underwent an operation for the removal of her tonsils. Mr. Drennan had an examination at the clinic.

NOTICE OF PUBLIC HEARING ON COUNTY BUDGET FOR SUTTON COUNTY, TEXAS, FOR YEAR 1937 AND 1938.

Notice is hereby given that in accordance with provisions of Chapter 206, House Bill 768, passed by the Forty-Second Legislature of the State of Texas, that there will be a public hearing on the budget for year of 1937 and 1938 as prepared by the county judge, budget officer, and presented to the commissioners' court for consideration.

Such hearing will be conducted at the county court room in the courthouse in Sonora, Texas, on the 16th day of August, 1937, at one o'clock p. m. of said day.

Any taxpayer of Sutton county has the right to be present and participate in the hearing and make objection to any item in the budget or make suggestions proposing any item not contained in the budget.

Alvis Johnson, County Judge. Sutton county, Texas. (adv.)

FARMERS' SHORT COURSE CANCELLED THIS YEAR

The following telegram was received Thursday morning by H. C. Atchison, county agent: "Farmers' Short Course and agents' meeting cancelled because of infantile paralysis. This action follows recommendation of state health office not advisable to bring crowds of young people together.

"No cases in College Station but scattered over state. Please advise press and local people."

HALBERT TERRACE LINES COMPLETED WEDNESDAY

It took only two hours of rapid fire work Wednesday to lay out terrace lines on a 55-acre field on the R. A. Halbert home ranch west of town.

Directing the two crews which did the work were H. C. Atchison, county agent, and M. P. Bentley, agricultural engineer, Texas Extension Service, who was here for the day. Mr. Bentley also did checking of tank dam work on the Joe M. Vander Stucken ranch where there are three tanks built as part of the range conservation program.

The terrace lines on the Halbert field are unusually long ones. Two crews and two rods finished the work rapidly.

Station Billies Sold Last Week

Ten yearling billies owned by the Ranch Experiment Station were sold last week to C. E. Boyd, Sweetwater ranchman, W. H. Dameron, superintendent of the Station, said Monday. The Nolan county ranchman came here in a truck to take the Sutton county stock to his ranch.

Calves Sold To Mason Man

Six hundred and fifty mixed calves have been sold by Oscar Appelt, Sutton county ranchman. Delivery will be made about November 1 to Walker White of Mason who bought the animals from Mr. Appelt.

Couples Return From Fishing Trip

Mr. and Mrs. Earl Duncan and Mr. and Mrs. Jesse G. Barton returned Wednesday from a three-day fishing trip on Devil's River.

SONORA FIRM DISTRIBUTOR IN FIVE TEXAS COUNTIES

Distribution of products of National Battery Co. of St. Paul, Minn., in five counties of this section has been secured by E. D. Kennedy, owner of Wes-Tex Batteries.

The manufacturing firm makes light plants, light plant batteries and car storage batteries. It is a very large maker of replacement batteries for farm light plants. Mr. Kennedy says that agencies for the company's products have been established or will be established in Schleicher, Val Verde Menard and Crockett counties.

Agents appointed by Mr. Kennedy are: Harvey Walker, Menard county; Palmer West, Schleicher county; R. G. Nance, Val Verde county. Mr. Nance is a Juno business man.

Mr. Kennedy's firm will retain sale privileges of the National company's products in Sutton county.

DAMERON AND JONES SELL 738 LAMBS AT \$5.06 EACH

Delivery was made Monday of 738 mutton lambs sold by W. H. Dameron and his brother-in-law, Herman Jones, who operate a ranch in the Juno section.

Buyers of the lambs, at \$5.06 per head, were B. W. Hutcherson and Dee Finley.

Ranch in Callahan Leased By Sonoran

Oscar Appelt, Jr., Will Get 18 1/2 Sections September 1

Announcement was made this week of the leasing of a 11,840-acre ranch in the Baird, Texas, section by Oscar Appelt, Jr., young Sutton county ranchman who has been ranching with his father, Oscar Appelt, in the southern part of Sutton county.

The ranch leased by the younger Mr. Appelt is on the Cross Plains road near Baird in Callahan county. It is a cattle county with the divide between the Brazos and Colorado Valleys passing through the county. Two-thirds of the land is devoted to grazing with the cattle industry predominant. The total livestock value in the county in 1930 was \$1,711,339.

Possession is to be given the lessee September 1 by Cass Bledsoe of Brownwood, owner of the land. Mr. Appelt bought 2006 yearling ewes and 2000 mutton goats—1-year-old and 2-year-old—on the ranch.

Mr. Appelt will move from the Sutton county ranch 500 cattle and 1350 sheep and goats which he owns.

Worth While Event

Close upon the Boy Scouts of America Jamboree at Washington comes the fifth World Jamboree, being held this month at Vogelenzang (the Netherlands).

More than 28,000 youngsters from 31 countries are encamped on the plain not far from historic Haarlem. Close by are the famous dikes, associated in legend with the heroic act of a little Dutch lad—the Scouts' spiritual ancestor—who reputedly saved the country by discovering and stopping a small leak which soon would have grown into a raging flood, to engulf Holland.

It is a matter of pride with the American Scouts that their delegation (805 boys) were judged to have the cleanest camp in the great cantonment—and that in a country which is noted for well-kept cities and spotless homes. The American Scouts also showed up excellently when they led the parade, which took two hours to pass—marching before Queen Wilhelmina and waving a greeting to her with the small American flags they carried.

Of course, every boy attending the Jamboree paid respect to World Scout No. 1, who was present—Lord Baden-Powell of Gilwell, 80 years old. Just thirty years ago this summer he organized the first "experimental camp" on Brownsnet Island, near Bourne-mouth—to take city boys "back to the woods and to ideals of self-reliance, self-discipline and service."

Because the idea basing it fired the lads' fancy, and partly because the leader was a hero after the boys' own heart, Scouting won immediate popularity and quickly spread over the globe. Its international aspect—exemplified by the World Jamboree—is significant of teaching a new kind of patriotism, from which may grow enduring peace.—San Antonio Express.

funds for hot luncheons work in Sonora schools.

It was suggested by the president that milk bottles painted white and placed in various places over town would secure considerable small change which might be used to increase the fund for luncheons work in the schools.

Boxers Entertani

Two rounds of boxing, one slow motion in the style made famous by the news reels, were provided by J. W. Thomas and Sam Harold Thomas, with both boys stripped to their shorts by their father. "Me and the Moon" and "Red Sails in the Sunset" were sung by the boys as a preliminary to their boxing exhibition. Their mother, Mrs. Sam Thomas, played piano accompaniment.

Roy Phillips was introduced as a guest.

George Thomas and Sam Thomas were introduced as new members of the club. The men have recently assumed ownership of the Texas Company service station.

A. C. Fambrough, 65
 (Continued from page 1)

years old (Oct. 27) the NEWS had a birthday story of him. At that time he told that he was born in Georgia but was brought to Texas when he was eight years old.

Two Children Survive

For many years Sutton county people have known "little Fambrough" as a machinist and gasoline engine worker. He worked at his home in west Sonora. Small of stature but wiry and strong, he was known in his younger days as an enthusiastic bicycle rider and a "fiddler" who played for dances in this section. That was in the day when bicycling was "the thing" and "fiddling" was more commonplace than today.

Besides Mrs. Fambrough he is survived by two sons, one of whom lives here, and two sisters. They are: Les Fambrough, Sonora; C. W. Fambrough, Mertzon; Mrs. Mary Rinehart and Mrs. Mattie Beauford, both of San Antonio. Pallbearers at the funeral were: Frank Smith, Neil Roueche, W. D. Martin, Tom Driskell, J. V. Roberts, O. E. Merriman.

IMPROVEMENTS BEING MADE AT CITY HALL BUILDING

Carpenter work at the city building this week is expected to make that building more useful for the city manager, George E. Smith, and for the Mullins family which lives in the upstairs rooms.

The staircase is being inclosed and the front door of the building will serve only those desiring to go to and from the second floor. The door into the room where the fire equipment is kept will be the only entrance to the city manager's office where payment will be made by water customers under the new system of city ownership of that utility.

Mrs. Blanton Club Hostess
 Mrs. T. A. Williams of San Antonio won high score Tuesday afternoon when Mrs. A. G. Blanton was hostess to the Monday Contract Club. Others present included Mrs. W. L. Aldwell, Mrs. Sam R. Hull and Mrs. Ed C. Mayfield.

THE DEVIL'S RIVER NEWS

Station A--Iraan Divide Twin Bill During Week-end

Freak Games Provide Fans With View of Many Runners On Base Paths

An idle week-end faces the Station A team of the Permian Basin League this week-end with the scheduled McCamey games cancelled because of that team's withdrawal from the league.

At a meeting this week it was decided that all games for the remainder of the season in which McCamey was to be a contestant should be omitted from the schedule.

Sunday Game 12 Innings

Sixty-one runs were made in games Saturday and Sunday by Station A and Iraan players when those teams opposed each other in the two towns. The Saturday game was won by Iraan by a 14 to 10 score with Smith on the mound for the Sonora-Ozona combination.

After nearly twelve innings of play a Mangold hit Sunday afternoon scored Ratliff with the run that gave Station A a victory in what was one of the most peculiar games on the Sonora diamond in many months. The score was 19 to 18.

An 8-run lead established by Iraan in the first inning when its players got seven hits and three walks proved to mean little in such a game as the Sunday one. Station A scored two in the second, three in the fifth, nine in the seventh, three in the eighth, one in the eleventh and one in the twelfth.

Ratliff Credited With Game

Ratliff relieved White in the tenth round of the endurance contest while Williams got credit for the Iraan loss. Gray and Paige also saw service on the mound for the Oilers.

At the end of the ninth the score was 17 to 17. Iraan scored in the eleventh when the ball hit the umpire as a single was stretched into a double by an Iraan player. Mangold tied the score again when he came home after Stuart hit a 2-base hit.

In the winning twelfth inning White and Heatherly were out and Ratliff got on base, to be brought home by Mangold's bat blow. Ratliff had stolen second and third.

Crane will furnish opposition for the Sonora-Ozona crew Saturday and Sunday, August 21-22, with the Saturday game in Crane and the Sunday one here at three o'clock.

A bill outlawing all slot machines in Florida is now on the books, which leaves either oranges or not boosting California the first industry in the state.—Detroit News.

Miss Emma Sessions is visiting her sister, Mrs. Jimmie Martin, in McCamey.

Yes, Use A Map On the Wall—Maps as wall decorations have grown in popularity. As a protective and preservative measure the application of a coating of pale varnish is suggested. The addition of a very little turpentine will increase the transparency of the varnish.

In the Southwest, 25,000 people a day hang up before the called party has a chance to answer.

MISS EATON COMPLETES 19 YEARS COLLECTION WORK

Nineteen years of collection work for a public utility is quite a record in any man's land, the NEWS believes.

Miss Bertha Eaton, sister of John Eaton, manager of the water system here until this week, has collected for water service since August 1, 1918. The first ten days of each month she has spent in Sonora at the collection office where water customers paid their bills in time to secure a discount.

Miss Eaton left this week to make her home in San Angelo with her parents, Mr. and Mrs. J. D. Eaton. Since her parents moved from here she has been making her home with her brother and Mrs. Eaton.

Truck Fire Causes Damage to Pastures

Thomas Bros. and Perry Mittel Lose With Truck Owner

For the second time in about as many weeks a truck fire at the edge of a highway through Sutton county has been the cause of a damaging grass fire on land owned by ranchmen near the blaze.

Shortly after noon Thursday Antonio Garcia's large truck burned on the San Angelo highway about nine and a half miles from Sonora. Grass in the Thomas Bros. pasture and in the Perry Mittel pasture, directly opposite, caught fire. Mr. Mittel said Thursday night that he believed about fifteen acres of his pasture burned.

Garcia and Efraim Martinez were on their way to Ballinger, they said. The cause of the fire was not known. The truck, a used one bought about three weeks ago, was insured, Garcia said. It was on the highway shoulder and blazing when firemen arrived.

The Sonora Volunteer Fire Department went to the fire and used the water of the booster tank in putting out the fire. The firemen were aided by a number of ranchmen and others who used wet sacks in beating out the fire and preventing it from doing more extensive damage.

"Just For Fun"

Just for Fun is a new weekly feature in The NEWS. Some of the statements below are true, some are false. Indicate your answer at the side of the column and when you have finished the quiz turn to the correct answers and grade yourself. Deduct 10 points for each incorrect answer. Subtract the total of mistakes from 100 to get your score. There are no prizes. The whole thing's Just for Fun.

Tribute Sunday To Mrs. Logan's Mother

Mrs. G. A. Goodall Has Been Texan Fifty-nine Years

Ten of her eleven children were present Sunday when a family reunion was held Sunday in honor of Mrs. G. A. Goodall of Roosevelt.

Mrs. Joe F. Logan of Sutton county is one of Mrs. Goodall's daughters. The other children are: Mrs. J. A. Watkins, Prairie Valley; Mrs. L. A. Watkins, Paint Rock; Mrs. Claude Lawler, Roosevelt; M. A. Goodall and Mrs. W. W. Adams, both of Mertzon; Miss Eunice Goodall, Mrs. Eva Ragsdale, Ross Goodall, Bobbie Goodall, all of Roosevelt; W. B. Goodall, Salinas, Cal.

Only the son in California could not be present.

Mrs. Goodall, a native of Georgia, has lived in Texas about fifty-nine years and in the Roosevelt section since 1898. She has forty grandchildren and nine great grandchildren. Honoring her at the reunion Sunday were sixty-two of her relatives and eighteen of her friends.

All of the J. F. Logan family was present at the reunion except Joseph who is a student at the summer term of John Tarleton College in Stephenville.

Marriage of H. F. Gilley and Miss Smith August 22

Invitations to the wedding of Miss Evelyn Smith of Fort Stockton and H. F. Gilley, Sonora school principal, were received by friends here this week.

The ceremony will be at the First Baptist Church in Fort Stockton at six o'clock Sunday afternoon, August 22.

Miss Smith is a daughter of Mr. and Mrs. Lemuel Smith. She has been a teacher in the Fort Stockton section recently.

Mr. Gilley came here last September to be principal of the L. W. Elliott School. His home is in Hollandale, Miss., but he was graduated in 1935 from Sul Ross College, Alpine. Before coming to the Sonora school system he was a teacher at Tornillo, Texas, in El Paso county.

Mrs. Fields Bridge Hostess Thursday Morning

Colors of yellow and green were used extensively when Mrs. W. J. Fields, Jr., was hostess to Las Amigas Club Thursday morning.

At the luncheon hour an attractive salad plate was served.

After several games of bridge, Mrs. G. W. Cunningham won high guest award and Mrs. Collier Shurley high club. Miss Ada Steen was awarded second high club award.

Mrs. Fields' guests included: Mesdames R. C. Vicars, B. M. Halbert, Jr., John Fields, J. C. Morrow, John Hamby, Joel Shelton, Alton Hightower, Ernest McClelland, G. W. Cunningham, Collier Shurley, Miss Ada Steen, Miss Alice Karnes.

Scratch Pads, doz. 20c—NEWS.

Personals

Mr. and Mrs. Richard M. Johnson visited in Brownwood last week-end.

Miss Edythe Carson left Monday for a week's visit in Austin.

Mr. and Mrs. Oscar Vehle of Me-nard spent Sunday with Mr. and Mrs. Richard Vehle.

Mr. and Mrs. Gus Love left Saturday morning on a two weeks' vacation trip to Colorado.

Elizabeth Elliott spent last week in Fort Worth with her uncle, Dr. L. O. Godley, and daughters.

Mrs. O. L. Richardson and sons, Glenn and O. L., spent last week with her mother, Mrs. Charles Simon, near Junction.

H. L. Richey of Big Lake and his sister, Mrs. Ira Hale, of San Angelo visited their parents, Mr. and Mrs. E. H. Richey, Sunday.

Mr. and Mrs. G. E. Bean and son, Richard, and Mrs. R. M. Johnson were among those from here who attended the celebration in Junction Tuesday.

Mr. and Mrs. O. V. Mullins and son, Bernard, and Mrs. Fritz MacGill and daughter, Gretta Mae, returned last week-end from a visit in Eden.

WILLIAM POWELL, ACTOR, SENDS SONORA GIRL CARD

An expression of sympathy by Doris McDaniel to William Powell, motion picture actor, at the time of the death of his friend, Jean Harlow, film actress, has been acknowledged by Mr. Powell.

A neatly printed card acknowledging the Sonora girl's note reads in this manner:

William Powell to thank you for your very kind Expression of sympathy

The card was mailed from Culver City, California.

NEW EMPLOYEE AT BEAUTY SHOP SINCE LAST FRIDAY

A new operator at Grace Draper's Beauty Parlor is Mrs. Manley Randle, formerly of Ozona. Mrs. Randle was formerly engaged in beauty shop work in Ozona and in San Angelo.

Mrs. Randle began work Friday. She takes the place of Mrs. Samuel E. Carter who has gone with her husband to Fort McKavett where he is in business.

Mr. and Mrs. Randle and their four children have moved here.

Mrs. Randle is a daughter of Albert J. Owens of Sonora.

YOUNG LADIES RETURN FROM CHICAGO SCHOOLS

Miss Marie Watkins and Miss Gertrude Babcock returned Monday evening from Chicago, where they have been attending summer schools. Miss Babcock studied commercial art at the Art Institute.

Miss Watkins studied voice under the direction of John C. Wilcox of the American Conservatory of Music. They have been gone about six weeks.

Sonora Woman Ill In Austin

Mrs. W. E. James, who has been ill in Austin four weeks is feeling much better. Mrs. James, who recently underwent an operation, is convalescing at the home of her aunt, Mrs. Florence McKellar. If she continues to improve Mrs. James plans to go to San Antonio about the 18th to be with her sister, Mrs. P. A. Diehl. Mr. James and his daughter, Mrs. John McClelland, spent last week-end in Austin with Mrs. James.

Miss Brown at Clerk's Office Miss Kathryn Brown, daughter of Mr. and Mrs. Orion Brown, is employed as stenographer this week at the office of J. D. Lowrey, county clerk.

The World's Fair, seeking the bizarre in Midway attractions, might look over Japan's new Premier. "I am," says he, "without qualifications for this job."—San Francisco Chronicle.

V. J. Glasscock In Hospital Mrs. J. S. Glasscock and daughter, Sue, are in San Angelo with V. J. Glasscock who is ill in a hospital there.

Uruguayan Pioneer to Seek U. S. Training

Hoping to gain new ideas and experiences to take back to the women of her country, Miss Alicia Lopez Ibarburu of Montevideo, Uruguay has applied for and been awarded a scholarship at Texas State College for Women this fall. A pioneer in physical education for the girls in Uruguay, she wishes to gain more preparation for the work.

Stylist Will Speak At College Station

Varied Program For Women Part of Short Course Next Week

College Station, Aug. 11.—Texas women attending the twenty-eighth annual Farmers' Short Course at Texas A. and M. College August 16-19, will be offered a complete program of study and entertainment ranging from practical kitchen operation to style hints and book reviews. More than 1400 women are expected.

The women's program also will include annual meeting of the Texas Home Demonstration Association. Mrs. John Palmore of Ravenna, is president of this group.

Miss Jane Alden, style expert from Chicago, Ill., will discuss fashions during some of the women's meetings. She returned recently from abroad where she studied fashion trends in Austria, Hungary, Italy, France and England. While in England she attended the coronation of King George VI.

Brought up on a farm, Miss Alden is thoroughly familiar with rural style problems. She frequently contributes fashion notes to leading agricultural publications.

Kitchen equipment and household buying will be discussed by Miss Laura Breihan, of the home economics staff at Texas State College for Women. Miss Barbara Van Heulen of Washington, D. C., of the Farm Credit Administration, will speak before women's meetings as well as before general assembly of both men and women Thursday morning. Mrs. L. M. Hogsett of Fort Worth, will be in charge of book reviews.

Mrs. Isla Mae Chapman, extension specialist in home industries, is chairman of the committee in charge of the women's program. Other speakers for the women's section of the short course will include:

Mrs. A. E. Brady, Hillsboro; Mrs. L. L. Bradley, Rockdale; Mrs. Leon Rosenberg, Greenville; Mrs. F. R. Starr, Houston; Mrs. Joseph Perkins, Eastland; Mrs. Mary Wilson Young, San Antonio; Mrs. Ellen S. Quillen, San Antonio; Miss Ethie Eagleton, Arlington.

Delegates to the Texas Home Demonstration Association meeting will elect officers Wednesday, Aug. 18, and the new board of directors will meet Thursday, Aug. 19.

Party Honoring Missourian

Thirty guests were entertained Monday night when Mr. and Mrs. Robert W. Jacobs were hosts at a party given in honor of Mr. Jacobs' niece, Miss Betty Jones of Sedalia, Mo., who will return home Sunday. The young people played games and danced. Watermelon was served.

You save by buying from your local jeweler—George Barrow. No carrying charges on long time purchases!—adv.

Miss Ray Honored at Dinner Thursday

Complimenting Miss Lita Ray of Fort Worth, a guest at the home of Mr. and Mrs. J. W. Trainer, Mrs. John McClelland and Mrs. Ernest McClelland were hostesses at a dinner Thursday evening at the latter's home.

Their guests were: Mr. and Mrs. Alton Hightower, Mr. and Mrs. Sam H. Thomas, Mr. and Mrs. Preston Prater, Miss Muriel Simmons, Louie Trainer, John McClelland, Ernest McClelland, Jodie Trainer, Ollie Stockton, Henry Decker, Mr. and Mrs. W. J. Fields, Jr.

Mrs. Nettie Marion of Greenville is visiting her son, Vernon, and Mrs. Marion.

Mrs. Warren Club Hostess Wednesday Evening

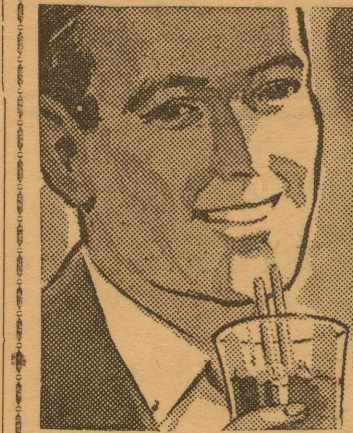

Miss Elizabeth Caldwell was the only guest, Wednesday night when Mrs. W. C. Warren was hostess to the Sonora Music Club. The club, which meets once a month during the summer, met on the lawn of the Warren home.

A short business session, with Mrs. Warren, president, presiding, was held.

Iced watermelon was served, after the social hour, to the following club members:

Mesdames E. D. Shurley, O. G. Babcock, Maysie Brown, W. E. Caldwell, Miss Marie Watkins, Miss Thelma Rees and Miss Gertrude Babcock.

"OVERHEAD" IN BUILDING HOME QUITE IMPORTANT

The structure and covering of the roof are excessively important in home building and should be given particular attention.

The weight of a sloping roof has a tendency to cause the structure to spread, and therefore the rafters of the two slopes must be tied together as close to the bottom as possible. Ceiling joists near the point where the rafters meet the side walls should run parallel with the rafters to serve as a tie, or, if this is impossible, metal straps should be attached to the rafters and run over and nailed to at least four additional joists. There should also be tie beams from rafter to rafter near the bottom of the spread.

Slate, tile, wood, composition, or asphalt may be used as a covering. In each instance the better grade of material will prove more economical in the long run, as it will not have to be replaced so soon.

ATTRACTIVE COLONIAL BUNGALOW

A bungalow deserving of its popularity.

It is surprising to find out just how inexpensively homes of this type can be built. All of the rooms are conveniently arranged on one floor, with desirable privacy between the living rooms and bedrooms. An attractive living room, dinette and comfortable bedrooms and four large closets are desirable features of the plan.

Built-in conveniences include a telephone niche in the hallway and medicine chest in the bathroom. Provision for cupboard space is made in the kitchen.

Nothing so arouses a woman's suspicions as asking her a question. Even if you merely ask her what time it is, she'll want to know what you want to know for. —St. Louis Star-Times.

AVOID FIRE HAZARDS BY CORRECT HOUSE WIRING

Defective wiring has been responsible for a large percentage of fires in homes. New homes that are financed under the Insured Mortgage System of the Federal Housing Administration are inspected with particular regard to wiring. In all cases the home owner should see that this work is done under competent supervision.

Three types of wiring are used by electricians. They are the knob-and-tube, flexible cable, and wires run in metal conduits. The greatest degree of safety may be expected with the latter method.

Flexible cable, when properly installed, is perfectly satisfactory, but unless waterproofed cable is used it should not be exposed to dampness.

Galvanizing will protect cable under normal conditions, but will become ineffective under extreme moisture.

Knob-and-tube wiring is adequate when the wiring does not pass through any wood without a protecting nonconducting porcelain tube and when all connections are properly insulated.

If You Use Wood Shingles—

When wood shingles are being laid on a roof, paper should not be used between the shingles and the lath or sheathing to which they are nailed. Wood sweats with the change in temperature and humidity, and paper beneath the shingles keeps the dampness inside and rots the shingles.

Mirrored Niche Possible

When there is a closet in a bedroom that is too narrow to hold a dress hanger on a rod, the doors may be removed, the closet lined with glass paneling and the result is a mirrored niche for a dressing table.

COMPANY ANNOUNCES NEW CABINET-LAVATORY

The plumbing and heating section of Crane Co. recently announced a new model in a series of cabinet lavatories for homes of today.

The fixture has porcelain enamel lavatory with back above the cabinet and a specially designed rectangular shape brings the long side next to the user.

A compact, single spout faucet unit allows sufficient shelf space between panel and basin to accommodate small toilet articles. The cabinet is featured by roomy compartments and novel in-a-door pocket shelves.

PREMIUM LUMBER

WHY WE FEATURE IT--and WHAT IT MEANS TO YOU!

A great many people think you cannot get as good lumber today as was obtainable 30 or 40 years ago. THIS IS NOT TRUE!

We have in stock now some of the same quality of lumber that we had 35 years ago—cut from the same forest that produced lumber then...BUT the lumber is BETTER as the trees are 35 or 40 years older, and the manufacture of the lumber has been improved!

The best lumber is not as plentiful now as it was then, but there is still plenty to be had. It costs us more, but is well worth the additional cost because of the better service it gives our customers—we charge you no more for this better lumber!

We are buying a large part of our Dimension Lumber from J. A. Bentley Lumber Co., at Zimmerman, Louisiana. This company is cutting in the same forest it was cutting in 35 years ago—they do not make any 1-inch stock flooring or "clears," so all of the log goes into "Dimension," with all clears left in. This is Better Lumber than where the clears are out.

A Livable Room

The large fireplace is the focal point of this room, with an attractive grouping of windows taking second place in the decorative interest. The room, while not exceptionally large, permits a nice grouping of the furniture. The room is in a home which was financed under the terms of the insured mortgage system of the Federal Housing Administration, and planned for an owner who wanted the house built around a living room that would suit the needs of his family. The services of an architect in planning a new home, assure the owner of having a home that meets the requirements of his family.

SO YOU'RE GOING TO BUILD

QUESTIONS AND ANSWERS

Q. How can cracks and breaks in stucco be repaired?

A. They can be repaired by carefully removing all loose stucco around the break or crack as well as the surface to which stucco is applied. In preparing cracks for stucco, they should be chipped to a wedge shape, with the smaller edge of the wedge on the outside, to insure a strong key with the new material. A cement mortar or a prepared stucco is then applied, care being taken to obtain same texture as already exists on the building.

Q. Every time we run bath water we find it full of sediment. How can this be prevented?

A. Drain the water system, including the hot-water tank. Then flush the system with fresh water. If repeated flushing does not clear the line, a replacement of the pipes may be necessary. Check the hot and cold-water lines separately.

Q. Why do floors squeak? Can this be corrected in a 5-year-old house without tearing up the flooring?

A. Floors squeak because they were not properly nailed at the time the floor was laid. The simplest method of correcting this annoyance is to surface-nail the boards that cause the noise. Care should be taken that the nail is

driven through the subfloor into the joist, as it may be the sub-floor rather than the finish floor that is causing the disturbance. Countersink the nails and refinish the floor. This will silence the floor for the time being and may solve your problem for years. The surest answer is a new floor properly laid.

FHA and NHA Here To Stay

The National Housing Act is permanent legislation and the Federal Housing Administration is a permanent governmental agency. Treasury guarantees of Housing Administration insurance fund debentures continues until July 1939, but insurance of home mortgages continues with a fund that now totals \$15,000,000. This fund is increasing at the rate of \$500,000 each month.

The League of Nations condemns the custom of bombing cities which has become so common in Spain. That is a good, vigorous position to take, and probably the bombing will stop immediately.—Boston Daily Globe.

SUTTON TRAVELERS END MOTOR TRIP THROUGH MANY OF WESTERN STATES

Nearly 10,000 miles of travel through western states was completed this week when a party of Sonorans, in two cars, returned after twenty-one days "on the road."

Those making the trip were Mr. and Mrs. Auther Simmons and sons, Robert Allen and Dock, Mr. and Mrs. Joe Hull and son, Raymond Lee, Mr. and Mrs. Dave Locklin and son, Connie Mack. The latter observed his first birthday in Seattle July 28.

Mines of West Interest
A bus ride from Colorado Springs to Pike's Peak to see the sun rise at three in the morning was a highlight of Colorado days. Gold mines at Cripple Creek, the

CHANCE MEETING OF OLD FRIEND IN ARIZONA

Only friend of Sonora days seen by the Simmons-Hull-Locklin party while away was C. H. Jennings.

As they ate one evening in a restaurant in Flagstaff, Arizona, Mr. Jennings walked into the restaurant. He is with the U. S. Biological Survey and until recently has been stationed in Corpus Christi. He has been in Arizona several months.

Royal Gorge bridge (nearly 1200 feet high), and mammoth pine, fir and spruce trees were other impressive sights there.

On the way to the Pacific Coast

the Sonorans saw Salt Lake City and its Mormon Temple, Brigham Young's "Beehive," Butte, Montana, mining activities and the world's largest copper mine at Anaconda, Montana.

On the Pacific Coast the party traveled through Seattle, Tacoma, Olympia, Portland, Salem and Corvallis. In the latter town they saw Oregon State Agricultural College.

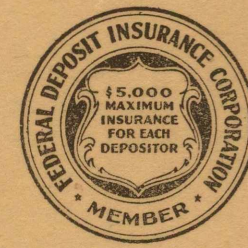

Alcatraz "From A Distance"
The Golden Gate Bridge and the Oakland Bridge were interesting sights in California. After leaving California on the trip home 140-degree temperature was experienced in the Mojave Desert. Alcatraz Island was seen from the customary 1 1/2 miles away.

While in Yellowstone Park, Old Faithful, Morning Glory Pool and other natural wonders were observed. A bit of fishing was done by members of the party in Yellowstone Lake in the Park.

Dave Locklin said this week that the Continental Divide was crossed about eight times during their trip. From a distance one day they saw the Will Rogers Shrine of the Sun, being built on Cheyenne Mountain near Colorado Springs. The memorial to the famous humorist will be dedicated September 6. Westminster chimes and a vibra harp in the memorial can be operated through a console or automatically. Floodlights will illuminate the shaft at night.

Write your checks this way:

- ALWAYS write your checks in ink.
- BEGIN at the left of each line.
- FILL all blank spaces by drawing a line through the unused space.
- AVOID flourishes in your signature. A simple, legible signature is the hardest to forge.
- DESTROY all checks erased or marred in drawing. Mark the check stub "void." Never make out checks to "Cash" or "Bearer."
- DO NOT SIGN BLANK CHECKS—

Personals

Henry Decker returned Monday morning from Santa Anna and reports Mrs. Decker "doing nicely."

Mr. and Mrs. James E. Lindsey of San Angelo visited her parents, Mr. and Mrs. B. C. McGilvray, Sunday.

Mr. and Mrs. C. W. Reddoch and son, Warren, and Mr. Reddoch's brother, Bryan, returned this week from a visit in San Saba.

Mr. and Mrs. Marshal Huling and children, Monette, J. M. and Gerald, of San Angelo visited Mr. and Mrs. J. W. Trainer Sunday.

Mr. and Mrs. Alwis Logan and family returned to Dallas Monday afternoon after a visit with his parents, Mr. and Mrs. Joe F. Logan.

Mr. and Mrs. Ed Pfister and children of Fort Stockton spent Sunday here with Mrs. Beulah Pfister and Mr. and Mrs. G. W. Morris.

George Baker of Fort Stockton and his aunt, Miss Bonnie Baker, of San Saba were here for a short time Sunday while on their way to Fort Stockton from San Saba.

Mr. and Mrs. W. H. Dameron and daughter, Marjorie Ann, will leave Sunday for College Station where Mr. Dameron will attend the twenty-eighth annual Farmers' Short Course Monday, Tuesday and Wednesday.

Mrs. Virgen Buried Here Monday at Six

Wife of Business Man Died in Del Rio Hospital

Funeral services were held Tuesday at six o'clock for Mrs. Theo Virgen, 43, wife of Theo Virgen, Sonora business man.

Mrs. Virgen died in a Del Rio hospital Monday morning. She underwent an operation Monday of last week. She was born in San Ygnacio, Zapata county, Texas, and was married to Virgen here in 1914. Her husband came to Sonora in 1910.

There are seven Virgen children, the husband, and three brothers and a sister surviving Mrs. Virgen. Her mother, a brother and sister live in Kerrville. Another brother lives in Houston and the other in San Ygnacio. The children are: Mrs. Alfred Brown, Josephine, Raymond, Theodore, Jr., Armando, Mary, Dora, all of Sonora.

The service at the Catholic Church was by Mrs. Antonio Jimenes and at the grave by the Rev. Carlos H. Rios, Baptist pastor among the Mexican people.

Charlie Hull was in San Angelo yesterday.

Mr. and Mrs. Wesley Granger expect to leave tomorrow for La Grange, returning Sunday. Albert Fiebig, father of Mrs. Granger and Mrs. Bert Swails, will return with them to make his home here.

SONORA BOY SCOUTS AT JAMBOREE TOURING NOW

A card was received Monday from Jack Shurley, Sonora Boy Scout attending the World Jamboree in the Netherlands, by his parents, Mr. and Mrs. M. G. Shurley.

The card was written in England while the young man and companion, Wesley Sawyer, son of Mrs. E. E. Sawyer, were on their way to the Jamboree location near Amsterdam. A few days before two cards and a letter were received from Jack. For a 19-day period—while he was on his way to Holland—Mr. and Mrs. Shurley had no word from their son.

The Jamboree ended this week. The two boys will begin a sight-seeing tour in various European countries. They expect to return to the United States early in September.
