

Band, Speech Arts and Woodwork For Sonora Students

Sutton County Boys and Girls Numbering 783 Begin New Year's Work Monday

Hopeful parents of the 783 Sutton county children eligible for public school instruction will send them Monday to their respective schools where eight new teachers will be serving and where three new subjects, never taught in Sutton before, will be offered.

The teaching staff of the various schools is:

High School

Preston C. Lightfoot, principal, Mathematics, Woodwork, Typing; Miss Annie Duncan, History, Library; Miss Johnnie Allison, Spanish, Mathematics; Miss Viva Millstead, English; Peter A. Chase, Commerce, Band; Jennings H. Flathers, Speech Arts, Social Science in grades; Miss Mary Lillian Leatherwood, Home Economics.

Elementary School

Pecan Springs School

Miss Lois Danner.

F. T. Jones, superintendent, this week invited all to attend the nine o'clock program in the high school auditorium which will be the official beginning of the new year.

Because of the addition of courses in the high school this year seventh grade pupils will study in the elementary school building if room is available there.

Organization of a band, made up of high school students, will be an innovation in the Sonora schools this year. Peter A. Chase of Fort Atchison, Wis., will be the teacher. He is a graduate of Wisconsin State Teachers' College and last year taught at Grand Meadow, Minn., where he organized a 20-piece band and 15-piece orchestra.

Pupils To Supply Instruments

Large instruments such as bass drum and horn will be furnished by the school, band members supplying others. No credit will be given in the subject this year, although 1/2-unit may be given next year.

Speech Arts classes will be taught by Jennings H. Flathers, a 1937 graduate of West Texas State Teachers' College. He has had six years experience and last year taught in Darrouzett.

Woodwork classes will be taught by Mr. Lightfoot. This summer the shop room in the high school has become a woodwork shop with numerous power machines installed as well as the equipping of the room for bench tool work by boys.

Hamlin Lady English Teacher

Miss Viva Millstead, English instructor in high school, is from Hamlin where she taught last year.

Experimental Work at Station May Be State Lands Aid

Cooperative Work With State University Undertaken Last Week

A six- to ten-year experiment which may mean much to University lands, huge domain so named in West Texas, was begun last week at the Ranch Experiment Station by V. L. Cory, range botanist, and W. H. Dameron, superintendent, working with E. J. Compton of Texon, University Lands agent.

The project, described by Mr. Dameron as "cooperative bitterweed work with the University of Texas," has this as its chief purpose:

An effort to observe the effects of different systems of range management on the growth of desirable and undesirable vegetation.

A small tract of land is being used in the experimental work which has a range management basis coupled with the introduction of winter-grown grasses. It is possible that the land devoted to the work may be increased as the experimental work develops.

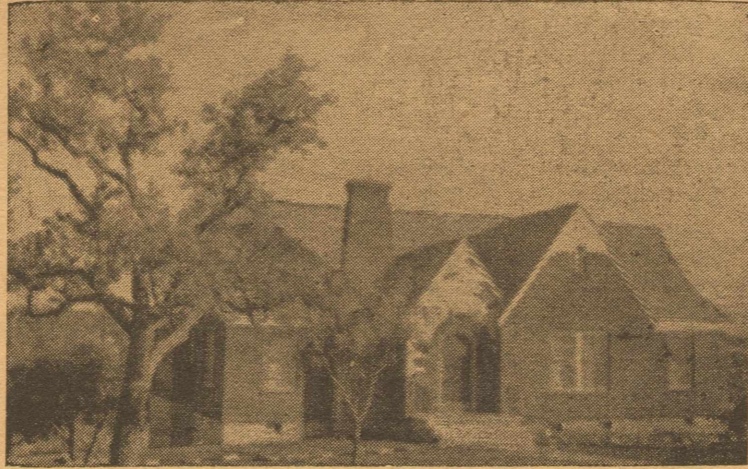

At present, on deferred grazing land of Station property, four enclosure plots have been laid out and beside these, or nearby, four check plots have been designated.

Another enclosure, on land constantly stocked, has been laid out and a check plot designated.

By observation of the development on both constantly stocked and grazing-deferred land valuable findings may be determined.

Information gained from the experiment may be of great value to the state as owner of the University lands, a large part of which is subject to handling in the manner of the experiment at the Station. The huge endowment fund of the University of Texas (\$33,168,960 two years ago) was built up largely from the discovery of oil on this property, two million acres of which was allotted to the university by grant in 1876 and 1883.

Sutton County Is Building!

Attractive and pleasing in many ways is the new home of dark red brick into which Dr. and Mrs. J. Franklin Howell and children recently moved.

Built on a natural elevation, the house is high enough that a large basement for garage and laundry room was possible.

There are three bedrooms, living room, bath room and kitchen-kitchenette combination on the one floor level.

The architectural type used in the home, built on a 100-foot space between the homes of Mrs. George Trainer and R. D. Trainer, is modified English. J. T. McClelland was the builder.

C. D. WYATT FIRST ONE TO PAY CITY FOR WATER

So proud was Chris Wyatt of being the first person to pay his water bill to the City of Sonora that he made a notation like this on his check early Tuesday morning: "First to pay water bill to City of Sonora."

Statements for the first month of operation under ownership of the municipality were placed in the mail Monday.

Almost 4,000 Grower Members On TSGRA Roll September 1

Quarterly Meeting of Executive Committee in Junction Thursday, Sept. 9

When executive members of the Texas Sheep and Goat Raisers' Association meet in Junction Thursday morning they will hear of activities of their organization which boasts a membership of 3,964 growers of wool and mohair, as of September 1.

G. W. Cunningham, secretary, this week was mailing notices of the meeting which will be in the Kimble county courthouse.

The financial report to be presented at the meeting shows a September 1 cash balance of \$8,385.89.

Warehouse collections by the new system of ten cents a bag have amounted to \$9,914.30 since January 1. The 3,964 grower members live in eighty-eight Texas counties and in New Mexico.

There are five members in the neighboring state. In addition to the grower members there are a number of associate members—86 warehouses, 10 banks, 160 others.

Gillespie county has the most members—493—on the membership roll. Others high in the list are: Kerr, 298; Uvalde, 263; Val Verde, 231; Concho, 226.

The financial report to be read at the meeting next week shows receipts during the last quarter of \$8,618.68. During the period disbursements have totaled \$4,790.78, with the largest item (\$1,179.03) that for attorney's fees, spent in carrying on the association's work of prosecuting law violators affecting the sheep and goat industry.

Companies Asked To Sell Gasoline in Sutton Cheaper

Lions Club Wants Retailers in Sutton To Sell at Price Received Elsewhere

A price differential existing in the cost of gasoline sold by major companies in Sutton county and in adjoining counties was the subject of discussion Tuesday noon when it was presented at the Lions Club by the president, W. J. Fields, Jr.

Mr. Fields explained that a 20-cent price usually prevails in Sutton county and that people buy gasoline in nearby counties at one-half of a cent to one cent less than that. The amount that buyers in Sutton would save in the course of a year can be realized when it is considered that nearly a million gallons of gasoline are sold each year.

Dealers' Hands Tied

It was pointed out that dealers, both wholesale and retail, can do nothing about it. Traveling men and other travelers through the country, it was said, are buying gasoline elsewhere than in Sutton county and thereby diverting from Sutton trade channels revenue that is very worth while.

George H. Neill suggested that each of the four major companies be wired a request to cease the discriminatory price schedule. After a motion embodying Mr. Neill's suggestion a committee was appointed to send the telegrams. The message sent was:

"Lions Club, most representative Sutton county civic group voted today ask you take action to reduce gasoline rate. Sutton county has paid higher prices for gasoline than surrounding towns for long period of time. Believe this unfair to local consumers, resulting in loss to retail and wholesale dealers. Letter following."

Profit Not Affected

It was pointed out that the profit made by the wholesaler and by the retailer is not changed as a result of the lowering or raising of (Continued on page 4)

YOUNG SONORA MAN NOW FULL-FLEDGED ATTORNEY

An announcement from Dean Ira P. Hildebrand of the School of Law, University of Texas, this week tells of the conferring of the degree of bachelor of laws on Willie B. Wilson of Sonora.

A baby boy was born Saturday, August 21, to Mr. and Mrs. Jimmie McGonagill of Dallas. The baby was named Francis Wayne. Mr. McGonagill, the child's father, is a grandson of Mrs. M. S. Davis of Sonora and a son of Mrs. Hollie McGonagill of Dallas, who formerly lived here.

Business Property Bought By Sonorans

George Trainer To Sell Magnolia Products At Station

Negotiations were completed this week, according to Sam Hull, Sonora business man, whereby he and Hub Hale become owners of the service station property at the east approach to the Dry Devil's Draw bridge on the Ozona highway.

The property consists of service station with living quarters in connection, warehouse and six tourist cottages. For more than a year the business has been operated by George Trainer who with Mrs. Trainer and their children live there.

The property was bought from the Ohio Oil Corporation, Tulsa, which some time ago secured the assets of the Marathon Oil Co. The ground was sold the Marathon organization in the winter of 1927 by the West Texas Lumber Co. which was formerly located there. The oil company built there immediately and since that time has rebuilt in more modern manner.

Mr. Hull, bulk agent, Magnolia Petroleum Co., said this week that Magnolia products were offered for sale at the station Wednesday for the first time. Mr. Trainer will continue to operate the business.

Work of repainting the property in the authorized Magnolia color plan will begin soon, Mr. Hull stated Tuesday.

Station A Loser in Three Games With Texon and Crane

Sonora-Ozona Players Will Be in Del Rio Saturday and Sunday

A reversed decision regarding the protested 19 to 18 game between Sonora and Iraan will result in its being played again on the Sonora diamond Sunday, September 12.

George E. Smith, Sonora player, said this morning that the same starting line-up will be required of each team.

Thursday the Station A team lost by 4 to 2 a game with Crane on the Crane diamond. Ratliff pitched for the Sonora combination and Osborn for the Crane nine.

Saturday and Sunday the Station A team battles Del Rio in the border town in non-league competition. On Monday, Labor Day, the all-star game with Texon will be played in Texon.

Masterful pitching by Tom Finger, pitcher from D'Hanis, failed to mark up a victory Sunday for the (Continued on page 4)

Those from Dee Ora Lodge No. 715 A. F. & A. M. who made the Monday night trip to San Angelo were: Pat Cooper, Roy Phillips, Joe F. Logan, Joe Berger, E. D. Shurley, C. H. Carson, Paul Turney, A. W. Awalt, Preston Prater, Beamon Speed, H. P. Largent.

Murder Case From Pecos County On Docket Next Week

Few Cases Scheduled But Grand Jury Action Expected To Bring More To Fore

Little is docketed for attention of Judge Joe G. Montague and Weaver Baker, district attorney, next week when they come here for the convening of the September term of district court.

Grand jurors will likely return several indictments, one of which probably will be that charging Morris Coleman, negro who admitted shooting his wife here June 12. Coleman is in jail here.

One case on the docket is that of the state against Thomas John Elmsore, charged with the murder of Bynum Shaw. The case was sent here on a change of venue from Pecos county. The offense occurred on a Sheffield street.

Carry-over cases from the last term of court include:

Mrs. Nannie B. Wilson vs. Geo. F. McKay, trespass to try title; Ed Roe vs. L. W. Elliott, independent administrator, suit for expenses, salary and services; damage suits (3) totaling \$90,000 by H. H. Tanneberger, Mrs. Pearl Tanneberger, Mrs. Quinta Marie Wilson, vs. L. L. Massey, trucking contractor; Charles Baker, charged with forgery; W. D. Wilson, charged with cattle theft.

Other cases scheduled for trial are:

C. V. McKnight vs. F. B. Williams, suit on note; Mrs. Izora Sanders vs. James B. Sanders, suit for divorce and custody of child; Mrs. Violet May Bishop vs. W. K. Bishop, suit for divorce; Mrs. Hazel Thiers vs. T. C. Thiers, suit for divorce.

Grand jurors ordered to report Monday morning, September 6, at ten o'clock are:

C. H. Allen, Lea Allison, Sterling Baker, Joe Berger, C. H. Carson, Henry Decker, Howard Espy, Edgar Glasscock, Hub Hale, Mack Cauthorn, J. D. Cowsett, Cleveland Jones, A. I. Davidson, Joe B. Ross, Joe M. Vander Stucken, Pat Cooper.

The following members of the petit jury are not required to report until nine o'clock Wednesday morning, September 8:

S. H. Allison, Jesse Green Barton, James G. Caldwell, Jack Drennan, Les Fambrough, W. C. Gilmore, Homer Harris, Joe Hull, L. E. Johnson, Pope Lindsey, Ed C. Mayfield, Ben Mittel, W. L. Miers,

Andrew Moore, Lawrence Nichols, J. T. Penick, Louis Roueche, Ira Shurley, Arch Valliant, Libb Wallace, Duke Wilson, Jack Wardlaw, W. C. Warren, Henry Wyatt, P. E. Adams, Lee A. Joy, Terry Baker, Artie Joy, R. R. Murr, Glenn Reeves, Wesley Sykes, Perry Valliant, Carnie Wyatt, D. H. Kirkland.

More Than 1200 Men of U. S. Army To Be Here Next Week

Fort Bliss Soldiers To Camp Overnight Sunday and Thursday

The soldiers are coming! To Sonora next week will come 1,238 men of the 7th Cavalry, U. S. Army, traveling in 257 vehicles from Fort Bliss, El Paso army post.

The men, under the command of R. E. S. Williamson, major, 7th Cavalry of the First Cavalry Division, will camp here overnight on their way to Fort Sam Houston, San Antonio, where they will form a part of troops from fifteen posts and stations being concentrated there for tests to begin September 15 and continue through November 15.

W. C. Gilmore, mayor, had a letter from the major recently in which he said that 340 men and 122 vehicles would be here the night of Sunday, September 5 and that another "column" of 898 men and 135 vehicles would spend the night of Thursday, September 9.

The soldiers will be camped on part of the land recently set aside for an athletic park. No part of the diamond area will be used, Mr. Gimore said Tuesday. The city will (Continued on page 4)

Labor Head in Dallas Monday

Dallas, Sept. 2.—Southwestern labor will converge upon the Pan American Exposition in Dallas for the nation's outstanding celebration of Labor Day, Monday.

Announcement has come from Washington that William Green, president of the American Federation of Labor, has accepted an invitation to be guest of honor and principal speaker. Green's visit to Texas will mark the first visit by an A. F. of L. chief since Samuel Gompers came to the Lone Star State in 1918.

President Green's acceptance follows a series of invitations extended by prominent Dallas and Texas citizens, Exposition officials and the Dallas Central Labor body.

Climax of the three-day celebration will take place Monday at the Pan American Exposition when Mr. Green will make the principal address at 2 p. m. Tentative plans call for a nation-wide broadcast of the ceremonies.

Activities begin with a gigantic downtown parade, Dallas, 10,000 union labor members of A. F. of L. to be swelled by unionists visiting from all over the Southwest. Following the parade, a gigantic barbecue will be held for members at the Exposition.

Of his choice of Dallas for his Labor Day address, Mr. Green explained he had not been in Texas since becoming president of the A. F. of L. and that he chose Dallas because it appeared quite proper he should honor the labor movement of this section.

Expected to participate in Labor Day activities with President Green are many high officers of the various national and international unions and Congressman Hatton Sumners, Senator Morris Sheppard and Attorney-General of Texas William McCraw.

JULY BUILDING PERMITS LOWER THAN LAST YEAR

Austin, Sept. 1.—Total value of building permits in Texas during July were substantially below that of the preceding month and the corresponding month last year, figures compiled by the University of Texas Bureau of Business Research show.

Reports from about forty representative Texas cities show total permits of \$4,006,130, decline of 11.7 per cent from a year ago and a drop of 30 per cent from the preceding month.

"Cities that opposed the prevailing trend by reporting permits in July greater than both comparable periods, included Austin, Brownsville, Galveston, Jacksonville, McAllen, Pampa and Tyler," the Bureau's announcement said.

MCDONALD FAMILY RETURNS FROM COLORADO VACATION

"Wish I could send you some of this snow from Pike's Peak" was part of the message received on a card the other day by Mrs. Josie McDonald from her son, Dr. J. A. McDonald, of Del Rio.

Dr. and Mrs. McDonald and their children, Jo Alice, Jerry Ruth and Norma Mae, were here Tuesday on their way to Del Rio after their vacation in Colorado and other western states.

Five Ranchmen Will Plant Italian Rye Grass in Sutton

Lee Morris Trial With Seed On Small Tract Successful; It Resists Drought

Five Sutton county ranchmen have bought 820 pounds of Italian rye grass seed through H. C. Atchison, county agent, and will plant it on their ranches as an experiment in securing grass for winter grazing.

Mr. Atchison said this week that Lee Morris, Sutton ranchman, had planted a small tract last year in Italian rye grass and was well pleased with the results. Those who will use the 820 pounds of seed bought are: Joe M. Vander Stucken, Ben Cusenbary, W. R. Cusenbary, Ranch Experiment Station and Alvis Johnson.

The seed plants about twelve pounds to the acre, with some requiring only about ten pounds if careful planting means are employed. The seed sells at \$9.08 per 100 pounds, delivered in Sonora. The quantity which Mr. Atchison ordered by telegraph is expected soon.

Italian rye grass, Mr. Atchison explained, is similar to small grains in growth and will re-seed itself if given a chance. Chief advantages of the grass as a winter pasture covering are:

- a) Drought-resistant.
- b) Furnishes abundant grazing.
- c) Grazes later in spring than other grasses and small grains.
- d) As good as oats in food value for stock.
- e) Stock prefer it to other tame grass pastures.

Cattle, Calves and Goats Change Hands

Heifers and Steers Bring 7 and 8 Cents; Many Goats Sold

More than 2,000 head of goats, bought by C. T. Jones and Burts Johnson from various parties, were sold recently to the following Sutton county ranch people:

Paul Turney, 1000; Mrs. Nannie Wheat, 500; J. S. Glasscock, 550; H. West Evans, 100.

The price at which the animals were sold was \$4.25 a head, Mr. Jones said Wednesday.

The same men bought 180 head of mixed cattle this week from Dock Friend at \$43 a head and shipped them Tuesday. Fifty-five head of mixed calves were bought from Mrs. J. A. Ward and Son at 7 cents a pound for heifers and 8 cents for steers.

Two carloads of mixed calves were received by the men yesterday from Joe N. Ross, Sutton county ranchman. Heifers brought 7 1/2 cents a pound and steers 8 cents. Twelve head of steers were bought by Jones and Johnson from Dameron and Jones for eight cents a pound.

SUTTON 4-H CLUB BOYS TO RESUME ACTIVITIES

With one new member signed during recent days, Sutton county boys who belong to the 4-H Club organized last spring will soon begin holding regular meetings.

S. H. Stokes, son of Mr. and Mrs. Marion Stokes, is the new member, H. C. Atchison, county agent, said Thursday. Stokes' sheep project will be with 40 yearling ewes and 4 rams.

By the end of September it is expected that all of the boys will have their demonstration flocks selected and will be started at the work of keeping records on the progress of their animals.

West Texas Ladies See What Happens To Wool After It Gets To Eastern States

Trips of inspection through wool warehouses and woolen mills in Boston were highlight experiences of Miss Nettie Word, Sutton county ranch woman, and her niece, Miss Patricia O'Leary of San Antonio, who returned recently after eight weeks in the east.

Miss Word came here Monday after a week's visit in San Antonio.

In Boston warehouses they saw Australian wools as well as those from West Texas. Complimentary things were said by the warehouse men regarding wool from this section. In Boston the ladies met George E. Rutan, known by many West Texans. Mr. Rutan sent them to the Stevens Mills, thirty miles from the city, where they saw the processes by which Texas wools are made into beautiful woolen materials.

Miss Word and Miss O'Leary were also interested visitors at Draper and Co. and Phillip L. Reed establishments in Boston.

While in Passaic, N. J., they saw the Botany Worsted Mills in operation. Millions of pounds of Texas

wools are used there in manufacturing worsted materials. L. R. Edington is president and general manager of the mill.

The trip to New York was made on the S. S. Seminole from Houston. Two weeks were spent with relatives in Ridgewood, N. J., a month in New York and a visit enjoyed with friends in New London, Conn.

The ladies went as far north as Portland, Me., but found Boston the most interesting, so much so, in fact, that they hope to return there for another visit. The return trip was made by rail. When they called for boat reservations they were told that a longshoremen's strike made a time of sailing quite indefinite.

The Texans saw much rain in New York and some in Boston. The metropolis of New York, they believe, to be "the wonder city of the world."

Miss O'Leary will enter the University of Texas this month. Miss Word has returned to her ranch, thirty-five miles south of Sonora.

Building of Tanks Popular in Program

Other Practices Receiving Good Support, Report Says

The building of earthen tanks and reservoirs is the practice of most interest to West Texas ranchmen participating in the Range Conservation Program, but other practices such as the eradication of mesquite, eradication of cedar, and deferred grazing are receiving much attention.

To date, 31 dam sites have been located in Brown county. Elevations of these dams have been taken and stakes for the base of the dams have been set. Applications for the building of 101 more tanks are on file in the office of the county agricultural agent, and these tanks will be measured and completed as rapidly as possible. The water area impounded by these tanks runs from one-eighth of an acre to 10 acres.

The lines run on one spreader dam on the Means Ranch in Jeff Davis county when completed will turn a vast volume of water from an arroyo onto about 20 sections of grazing land where it will be irrigated in one body. This dam when completed will be 1800 feet long and from 8 to 9 feet high.

W. W. Sherrill created a 70-acre trap of prickly pear in 10 days with three men and a truck. Using labor at \$1.75 per day per man this work cost him 75 cents an acre. The pear on the Sherrill place was classed as medium by the range inspector and Sherrill will draw 75 cents an acre from the government for compliance.

Ranchmen in Menard county have made application to build 56 earthen tanks and reservoirs which will total 87,435 cubic yards of dirt to be used in the dam sites.

Espy Steers Go At \$7.75
Twenty-one steers, contracted some time ago, were delivered in Sonora the latter part of last week by Thomas Espy, Sutton county ranchman. The price paid was \$7.75 per 100. The animals were shipped to D. J. Simmard in Iowa. The steers weighed 18,395 pounds.

R. H. Renschel was in San Angelo Saturday.

JUNE GOAT DIPPING ON BERGER RANCH SUCCESSFUL

No lice were found the latter part of last week when O. G. Babcock of the U. S. Department of Agriculture examined goats on the Joe Berger ranch.

The goats were some of those dipped in a wettable sulphur solution June 19 with the follow-up dipping done ten days later. One hundred and fourteen goats were dipped in a round vat recently built.

A story about the dipping of the Berger goats, done as an experiment by Mr. Babcock and H. C. Atchison, county agent, was published Sunday on the Farm and Ranch page of the Fort Worth Star-Telegram.

JULY STOCK SHIPMENTS GAIN GREATLY IN MONTH

Austin, Sept. 1.—Shipments of Texas livestock to Fort Worth stockyards and interstate points continue fully to maintain the wide margin of increase over last year which has been noted in these reports for several months, the University of Texas Bureau of Business Research has reported.

Total shipments of all classes of Texas livestock for July was 4,926 cars, against 2,659 cars last year, an increase of 123 per cent. Cattle shipments amounted to 4,145 cars, an increase of 160 per cent; calf shipments, 869 cars, an increase of 89 per cent; hog shipments, 414 cars, an increase of 4 per cent, and sheep shipments, 498 cars, an increase of 146 per cent. "As in previous months a large part of this sharp increase in forwarding was destined for the Fort Worth market," the Bureau's report said. "Especially was this true for cattle, calves and sheep."

KIDS AND CALVES SOLD IN SONORA LAST WEEK

Five hundred kids bought by R. A. Halbert from Sol Mayer & Son, T-Half Circle Ranch owners, were delivered Thursday of last week. Four dollars a head was paid for the animals. A few days previously Mr. Halbert bought 718 mixed kids from W. D. Fisher of Rocksprings at \$4.

Early last week Mr. Halbert loaded out 52 calves sold to C. T. Jones and Burts Johnson, commission men. The calves averaged 464.3 pounds and brought 8 cents a pound.

why TAKE THIS CHANCE?

Car owners who seek to economize by using poor oils are inviting trouble. Poor motor oil is never economical. It stiffens in cold weather and must be thinned out by the friction it should prevent. Under high temperatures these same poor oils break down. For little or no additional cost, we give you Texaco "crack-proof" Motor Oil. Texaco retains its rich lubricating body under all operating temperatures and conditions.

Drive around and let us drain and refill with the right grade of "crack-proof" Texaco. You will note the marked improvement in the performance of your car.

ANNOUNCING

TEXACO SERVICE STATION Under New Management

Norville Baker, formerly of Comstock, has been in charge of the Texaco Service Station since Wednesday, assuming that business from Sam Thomas and George Thomas who have been serving motorists here.

In doing business with Sutton county people and others who pass through the town we now call "home" we will do all that we can to please. If our service pleases we can confidently expect an increased patronage.

We hope we may retain the business of the customers of the Thomas Brothers and may gain new ones as we become better known.

Check and "double check"

THOROUGHNESS will be our watchword in lubrication work as well as in every service station process we "deliver." We expect to merit confidence of motorists as they realize we "check and double check" to see that we please in every way.

Most of her collegiate work was done at Abilene Christian College but she was graduated from Hardin-Simmons College this summer.

Two years a teacher at Saratoga, Miss Mary Lillian Leatherwood will instruct girls in Home Economics. Her home is in Denton. She has been a student assistant at Hillsboro Junior College and Texas State College For Women. During the summer the Home Economics Cottage has been extensively remodeled.

Miss Luella Stone of Waco will teach Art, Penmanship and Fourth Grade in the elementary school. She is a 1936 graduate of Mary Hardin-Baylor College. Last year she taught in Travis Junior High School, Harlingen.

A graduate of Abilene Christian College in the spring, Miss Madeline Fritz is the only new teacher at the L. W. Elliott School for Mexican children. She has done practice teaching in the second grade of the academy of her alma mater.

Miss Elizabeth Caldwell, daughter of Mr. and Mrs. W. E. Caldwell, will be a Sonora teacher for the first time. She has been teaching in Vidor. Miss Caldwell is a graduate of Southwestern University and has also studied in Cincinnati and Boulder, Colo.

At the Ranch Experiment Station Miss Robbie Morris will again be the teacher. She will likely have only one pupil—Marjorie Ann Dameron, daughter of Mr. and Mrs. W. H. Dameron. The Boughton children are in school in France this year and Jean Cory will likely go to school in Dallas where her mother, Mrs. V. L. Cory, has been ill a month.

At Pecan Springs School, the only rural school this year, Miss Lois Danner will be in charge. Her degree was secured at Abilene Christian College in 1934. Recently she has been doing secretarial work for an Abilene law firm.

Improvement Work Done
Mr. Jones told this week of several changes in the high school curriculum. Early European History will not be offered but next year World History will be available and will combine Early European and Modern European. Junior Business Training will be offered eighth grade pupils instead of Early European History this year.

Encyclopedia Britannica reference books have been added at the high school, Childcraft reference books at the elementary school and Wonder World reference books at the L. W. Elliott School.

The remodeling work in the Home Economics Cottage will allow sixteen girls in a class. Each will have a locker. The back porch is now a bedroom and fitting room. Rest room facilities have been added. Four new combination Foods-Clothing tables have been installed, floors refinished, painting done and a door added to make the building more convenient. The cottage will be indirectly lighted soon.

Refinishing and painting work has been done in the elementary school and floors varnished at the L. W. Elliott School.

Father of Sonorans
Buried Wednesday

J. N. Morris Lived at Home of Daughter Here

Death came shortly before noon Tuesday to Jasper Newton Morris, 82, father of Mrs. Sealy Cross and Lee Morris of Sonora, at the Cross home near the Junction highway.

Funeral services were held Wednesday afternoon and burial was in Sutton County Burial Park. The funeral was conducted by the Rev. R. C. Brinkley, Baptist pastor. Mr. Morris became a Methodist Church member in 1889 but united with the Full Gospel Church June 21, 1936. He was born at Webberville.

Besides the two children here he is survived by seven other children and two sisters. The other children are: Willie Morris, Paint Rock; Mrs. Ellen Hill, Leakey; Mrs. Florence Landis, Fredericksburg; Mrs. Mary Cross, Camp Allison; Charlie Morris, Paint Rock; Mrs. Emma Lackey, San Angelo; Paul Morris, Paint Rock.

Station A Loser in—

Station A team when it played a 3 to 2, "endurance contest" of sixteen innings with Texon in Ozona. Station A lost 9 to 2 the day before in Texon.

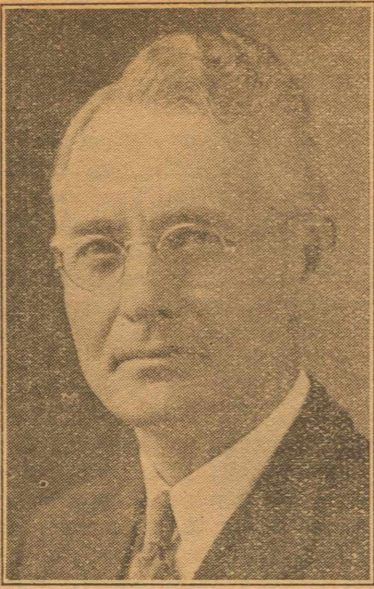

Finger was touched for only eight hits while Station A players managed for thirteen from the delivery of Ritter, Crane hurler.

With Texon lagging in the ninth Barbee connected for a home run, tying the score at 2 to 2. Tight ball was played by both teams for several innings. In the tenth with Station A men filling the bases, after a lead-off hit to left field by Finger, three outs came in rapid order.

In the sixteenth H. Brown, Texon player, got a single through pitcher and second base. Wade was out at first, McMillan was out by a fly to center. Ward then singled through Dorley in a hot one down first base line. Brown came home on it with the winning run.

Station A failed to produce in its half of the sixteenth frame.

NEW MINISTER AT CHURCH OF CHRIST IN OZONA

"Nelectress" Wins For Abilene Woman

"Domestician" and "Homeologist" Entries Get Prizes

Abilene, Sept. 1.—What is believed to be the first concentrated effort in the nation to eliminate from popular usage a name the majority of women resent, "housewife," today had resulted in the substitute word, "Nelectress."

It was defined as meaning "a modern home maker alert to this new electric age" and had the approval of Dr. Charles E. Funk, noted lexicographer of New York, who selected it from more than a thousand substitute names submitted in a campaign conducted by the West Texas Utilities Company over its 40,000 square-mile territory.

Mrs. Ben D. Parker, Abilene woman and a dog fancier, submitted the word, N-e-o, she pointed out, means "new." L-e-c-t-r-e-s-s, she said, suggests feminine usage of electricity.

The campaign was based on the theory that the word "housewife" has become obsolete due to the improved status of women.

Winner of second prize was Mrs. F. B. Probandt, of San Angelo, who entered the word "domestician." Third place was awarded Mrs. W. B. Bourland, of Oklahoma, with the entry, "homeologist." Decisions of Dr. Funk also were based on letters explaining usage of words.

Mrs. Parker's reward for her first place entry will be a super-duty Frigidaire; Mrs. Probandt receives her choice of a Hotpoint electric dishwasher or a Thor washing machine; and Mrs. Bourland will be presented with a Sunbeam Mixmaster.

Honorable mention and choice of smaller electric appliances will go to ten women: Mrs. Lee White, Dalhart; Mrs. O. R. Bodeen, Childress; Jane Yeager, Rochelle; Mrs. R. C. Roberts, Vernon; Mrs. W. N. Pipkin, Matador; Mrs. S. G. Jones, Abilene; Mrs. J. Dexter Eoff, Ballinger; Anna Mick, Mason; Mrs. R. H. Bounds, Stamford and Mrs. R. R. Trimble, San Angelo.

Among the other posts from where soldiers will go to San Antonio are: Fort Logan, Colo.; Fort McIntosh, Texas; Jefferson Barracks, Mo.; Fort Sill, Okla.; Fort McClellan, Ala.; Fort D. A. Russell, Texas; Fort Brown and Fort Clark, Texas; Fort Crockett, Texas.

The men will be quartered at Fort Sam Houston, Dodd Field, San Antonio, and Camp Bullis, northwest of San Antonio.

At first it was contemplated that the border highway route would be used in going from El Paso to San Antonio. Major Williamson liked the Old Spanish Trail route better and when it was found that requirements for an overnight stop could be supplied in Sonora without charge the OST route was chosen. The men will be free from their camp several hours while here.

Sonorans' Relative Buried in Sanderson

Stokes Sharp, Alpine Youth, Hurt in Car Accident

Injuries received Thursday of last week when the car he was driving crashed into a concrete bridge on the new road between Alpine and Fort Stockton proved fatal for Stokes Sharp, 16, son of Mr. and Mrs. Harry Sharp of Alpine. Burial was in Sanderson Saturday afternoon.

The young man, an Alpine high school pupil, was a nephew of H. V. Stokes. Mrs. W. A. Ezell, Mrs. J. W. Trainer, Mrs. Ernest McClelland, Mrs. J. M. Huling and Marion Stokes. He and his mother were on their way to Sonora to visit their relatives.

Mrs. Sharp was severely bruised in the accident but was able to attend the funeral Saturday. Her son's skull was crushed. He was taken to an Alpine hospital where he died Friday afternoon.

Mr. Sharp is employed on a ranch near Sanderson. In addition to his parents the following brothers and sisters survive: Walter and Savell Lee, who live at home; Jack Sharp of Pyote; Mrs. George Cardwell of Lockhart. A grandson of Mr. and Mrs. Sharp, Jack Sharp, lives in the Sharp home. He was with the others when the accident happened.

Mrs. Curtis Nicholas and son, Don, and Miss Agnes Jones returned Sunday morning from San Angelo, where Don underwent an operation for the removal of his tonsils.

If Your Daughter Is Going To School--

She'll Need Blouses, Skirts and Clever Sweaters

Denton, Sept. 1.—Whoever invented middy blouses and skirts for school girls had the right idea, because that's exactly what college students are stocking up on for this fall—blouses, skirts and sweaters.

However, the 1937 workaday costumes are a far cry from those somber middies, for color and novelty will invade the campus on a large scale.

As a foundation for everything else in her school day wardrobe, the going-away miss will need a three-piece suit. The skirt can be worn with her sweaters, the jacket is good with other skirts and dresses, the top coat is fine for early fall and spring weather, and spring weather, and the whole thing together cannot be beat for football games and other occasions where she may encounter stormy weather.

As for the skirts, they are being shown in more variety than usual this year, with gores and pleats of primary importance. Some of the Scotch plaids, with gores set in diagonally, are positive knock-outs. Others are dyed to match hand-knitted sweaters, with colors ranging from spice browns to pine greens, magenta reds, rust and black.

Jackets and sweaters have gone ritzy. Girls here especially prefer those with leather and suede trimmings, since these materials have been treated so that they do not get that shiny, used look which spoiled them before.

Two separate jackets are supplied with some skirts, and they are often highlighted with pigskin buttons, a deluge of zippers and other tricky items. Cashmere and Angora vie with regular yarns for sweater popularity.

Seventeen Enjoy Weiner Roast Thursday

Members of the Baptist Sunday School class taught by Mrs. Pope Lindsey enjoyed a weiner roast Thursday evening at the Lindsey ranch home.

After a number of games were played, a picnic supper was served to:

Miss Joyce Bogard, Ruth Freeman, Viba Holland, Virginia McGhee, Audrey Rankhorn, J. H. Brasher, Jr., John Nichols, Reuben Brinkley, Mrs. R. C. Brinkley and daughters, Kathleen and Norma Jean, Mrs. Walter Anthony and son, Orville, Mrs. Lillie Anthony, Odell Odum, Mrs. Pope Lindsey and children, Jack and Jean.

Mrs. Lomax Party Hostess Thursday Afternoon

A corsage of phlox was given each guest as a plate favor Thursday afternoon when Mrs. Earl Lomax was hostess to the Pastime Club. Verbenas and zinnias as well as phlox were used in decorating for the occasion.

Mrs. Richard Vehle was the only club guest.

Ice cream and cake was served after a series of games of forty-two.

Club members present were: Mesdames W. E. Caldwell, C. E. Stites, W. D. Wallace, Hi Eastland, O. G. Babcock, Robert Rees, W. C. Warren.

Mrs. Babcock held high score.

Mrs. Caldwell Club Hostess Monday Afternoon

Bachelor buttons and queen's wreath added attractiveness to the party Monday afternoon when Mrs. W. E. Caldwell was hostess to the Blue Monday Club.

Ice cream and cake was served by the hostess.

Club members present were: Mesdames C. E. Stites, Lee Labenske, R. K. Muckleroy, Auther Simmons, Robert Rees.

Mrs. O. G. Babcock and Mrs. Velma Shurley were club guests. Mrs. Muckleroy won high score.

Sonorans Attend Reunion

Mr. and Mrs. J. D. Lowrey and daughter, Mrs. R. C. Vicars, and Mr. and Mrs. A. W. Awalt and A. W. and Sidney, attended a reunion of Mrs. A. B. Awalt and her children, to celebrate her 84th birthday, last week. All of her children, eight daughters and one son, were present. Careful Concrete Work Pays
Care should be taken when concrete sidewalks are being laid. Before the concrete is placed, a drainage bed of gravel, broken stone, or coarse cinders, should be prepared. There should be expansion joints about every four feet.

HOME COMPACTLY DESIGNED FOR COUPLE

This frame cottage is ideal for a couple. The living room has roll-away bed to provide for guests. French doors open on a flagstone terrace at the rear. An airy kitchen

with many built-in conveniences pleases the housewife.

Approximate cost is \$2,100. The siding is of wide colonial or could be equally effective in shingle. Asphalt composition shingles are used on the roof, blending in color with the color scheme. The design is said to comply with the rigid inspection of the Federal Housing Administration.

QUESTIONS AND ANSWERS

Q. What would cause the cracking of a new coat of paint on my front door?

A. It is probable that the second coat was applied before the first had a chance to dry thoroughly. You should scrape or burn off the paint and do it over. Be sure that ample time is allowed for drying between coats.

Q. How can I prevent water from coming under the window sills where they rest on brick?

A. The window frames should be calked all around with calking compound.

Q. My dining room has only one window and is quite dark. Would it be possible to put in a bay window?

A. A bay window would certainly lighten the room but you should consult a competent architect or builder before making a structural change of this type.

Q. Is it necessary to remove old wallpaper before hanging new?

A. When there is only one layer of paper and it is good and tight without any tears or ridges, you may paper over it, taking care to use no more paste than is absolutely necessary. If there are more than two layers the paper should be removed.

Wooden Steps Need Attention

Outside wooden steps are subject to rapid deterioration because of constant exposure to the alternating action of rain and sun. As soon as any softness or excessive spring in the steps is noticed they should be examined and any wood showing signs of decay should be removed and replaced. If the steps have been there for any length of time it might be well to replace the whole flight.

Books For Mirror Frame!

A modern apartment had a mirror over a fireplace. There was no mantel. Bookshelves formed a frame around the mirror, and the glass backing reflected the colors of the books and art objects placed there.

Avoid Sills When You Can
Saddles, or sills, should not be used between two rooms except when the floors are of different materials, as they are dust catchers and might cause falls.

OVER-ROOF NOW THE Certigrade WAY
IT'S economical to put a new roof on your home the CERTIGRADE way.
No need to tear off the old covering—you can lay CERTIGRADE Red Cedar Shingles right over it. You'll avoid mess and dirt—no litter in the yard. The double thickness of the new roof and old will greatly increase insulation. Your home will be cooler in summer and will require less heat in winter. CERTIGRADES will give low initial cost and extremely long life as well as the beauty of real red cedar.

By L. L. STEVENSON

Once upon a time, Conrad Thibault was a floorwalker in a New York department store. He took the job in order to pay for musical studies while waiting a radio audition. Born of French parents in Northbridge, Mass., he studied intensively before actually starting his career. First he earned a scholarship in Curtis institute, Philadelphia. Then for five years he studied in New York and Paris. After that, for four years, he sang leading roles with the Philadelphia Grand Opera company.

Just turned thirty, Thibault is modest in manner and conservative when it comes to clothing. He doesn't believe in temperament and holds it "just a pose" with most artists. He sings in French, German, Italian and Russian, and believes that radio's greatest contribution is recognition it gives to American singers. It is his belief that, thanks to radio, American singers now have as much chance for success in opera as have foreigners.

Thibault is an amateur of considerable athletic ability. He excels in handball, tennis and swimming but prefers golf. He says his favorite time for practicing baritone solos is 11 o'clock at night, and that doesn't increase his popularity with his neighbors. He receives an average of 1,000 letters a month chiefly from women and romantic school girls. The most unusual gift he has received was a large cake with his name done in icing. It was shipped from Missouri and arrived intact. Recently he traveled 6,000 miles by airplane to sing three songs at Lehigh university because an old friend made the request.

If this one happens to be old, blame Tim Ryan who told it to me: An Englishman and an Irishman approached the captain of a vessel about to sail from Melbourne. Both wanted jobs. The captain accepted the Englishman without question. But from the Irishman, he demanded references which he studied long before signing him on. Because of that, the Irishman took violent dislike to the Englishman. They were three days out when the Englishman leaned over the rail to get a pail of sea water for mopping. A big wave swept him overboard. The Irishman went to the rail and stared but nothing was to be seen. Immediately he called the captain.

"Perhaps yez rimimber when I shipped yez asked me fer rificances," remarked the tar from Erin, "but yez didn't question the Englishman?"

"Sure I do," responded the skipper. "Why?"

"Ye've been decaved. That Englishman's gone off with yer pail."

Mario Chamlee is always interested in children's reactions to music. Recently, he attended a children's symphony concert and noticed that a little boy sitting next to him was much concerned by the extraordinary gyrations of the conductor. The latter threatened, cajoled, bullied and implored his men with no uncertain gestures.

"Did you enjoy the concert, son?" inquired Chamlee when the finish was reached.

"Well," responded the lad, "I liked the real clowns at the circus better."

Estelle Lieblich recently took a pleasure trip through the Rocky mountains. At one point in the road, she noticed a sheer drop of many hundreds of feet.

"This seems to be a very dangerous precipice," she remarked to her guide. "I wonder that they haven't put up a warning board."

"Yes, it is dangerous," was the response. "They kept a warning board up for about two years but nobody fell over so they took it down."

Alp Sold for 50 Cents
Vienna.—The Tyrol provincial government has sold the peak of Austria's highest mountain, Gross Glockner, 12,461 feet high, to the Austrian Alpine club, it was announced recently. The club will pay 2.54 schillings (50 cents) for the 40 square feet of summit.

Feelings of Horse Held Worth \$25,000

Hollywood.—The owner of the trick movie horse Zane asked \$25,000 damages because the horse's feelings were hurt at receiving no screen credit.

Zane's humiliation was made the basis for a suit brought against Republic studios by the horse's owner, Tracy Layne.

Layne said he let the studio use the animal for the "nominal sum" of \$200 because "screen credit" was promised. He alleged that it was not forthcoming.

HE TELLS OFFICIALS HOW IT SHOULD BE DONE

Abolishment of the state property tax and the leaving of all property tax revenues to the counties was the theory advanced last week by Everett Looney of Austin, former assistant attorney-general, in an address before the West Texas County Judges and Commissioners Association meeting in Austin. As Looney said it: "Let's give the property owner—the farmer, the rancher, the storekeeper—some tax relief, and at the same time support the government of Texas."

Chopsticks Needed in Texas
Denton, Sept. 1.—Using chopsticks could easily become a Texas fad, considering the amount of rice produced in this state annually. One tabulation shows that enough is grown to furnish cereal every day for every breakfast table in the state over a two-year period. In other words, a little matter of 3,245,447 bushels were harvested in 1934, with the majority of this crop coming from the southeastern counties of Wharton, Matagorda, Chambers, Colorado and Liberty.

The younger Mr. Mackey is professor of animal husbandry at Texas A. and M. College.

The Mackeys left Tuesday to continue their vacation trip to Carlsbad Caverns.

Many Rail Miles in Texas

Even with the amount of territory to be covered, the transportation problem in Texas should not be a difficult one. Not only does this state rank first in railroad mileage with 17,000 miles of main line tracks, but 1930 census shows that there is an automobile for approximately every three families. Texans believe in going places.

Dear Sir:

The purpose of the contest that your Company arranged is one that should appeal to every American woman, for it is true that the facilities for the effective management of the home have, within the past few years, become so notable as to remove -- let us hope, forever -- much of the ceaseless drudgery formerly a concomitant of that necessary field. Science and invention, I am sure, will shortly find ways to eliminate the few remaining onerous duties. It is, therefore, indeed high time that the term formerly synonymous with household drudgery be relegated to the limbo of forgotten things.

Accordingly, I have examined with the greatest interest all the entries that you sent me by airmail. I can not be certain, naturally, that any of them would become the one term that will be received by American women as a permanent and acceptable substitute for the outmoded term housewife. I think, therefore, that your plan to offer a selected list of prize-winning terms is the wise procedure, thereby suggesting possible lines which may lead to a term -- perhaps altogether new -- that may be generally accepted.

I regret that a great many of the entries seemed to me altogether too flamboyant and fanciful for even brief consideration. Others, tho the contestants may not have realized it, were terms already employed in our language with far different meanings. Others were altogether dependent upon the correct pronunciation for their significance.

My search for the winner of the contest led me to seek a term that was not only new in every respect, but that would be formed with due regard to etymology and with a recognition of the fact that the chief agency in the relief of household drudgery is electricity. This word I found in **Neoelectress**, coined by Mrs. Ben D. Parker, of Abilene, Texas.

For second choice, I have selected the entry of Mrs. F. B. Probandt, of San Angelo, whose word is **Domestician**. My third choice is the entry of Mrs. W. B. Bourland, of Oklaunion, whose word is **Homeologist**. The remaining selections, in the order of my preferences, are attached hereto.

Very truly yours,

Charles Earle Funk
Charles Earle Funk.

Do you like "Neoelectress"? N-e-o means new. L-e-c-t-r-e-s-s has the feminine ending and suggests electricity. Taken together, the word suggests a modern home maker alert to this new electric age. Dr. Funk, in his letter, says "the chief agency in the relief of household drudgery is electricity." Thus, we define "neoelectress" as meaning "a modern woman freed of kitchen drudgery by Electric Servants." The name is being copyrighted with that definition.

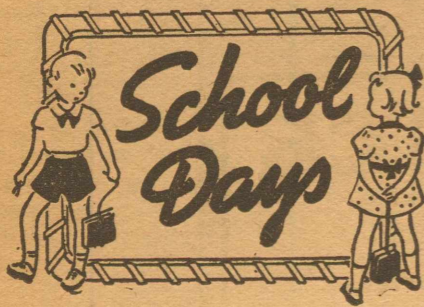

The contest was successful because it attracted attention to the improved status of West Texas women. A thousand women specifically said they dislike the name "housewife." However, it is more difficult than we at first thought to find a suitable substitute. But we like "Neoelectress" better the more we think about it. We hope you will. To all entrants we express sincere gratitude for their help. We only wish there could have been prizes enough to go all the way round!

Dedication of Will Rogers Memorial Monday Morning at Eleven O'Clock

Colorado Springs, Colo., Sept. 2.—The beautiful Will Rogers Shrine of the Sun, to be dedicated Monday, is to become one of the most unique singing towers in the world. Spencer Penrose, who has built the granite memorial on Cheyenne mountain, half a mile

seconds after the last note has been lost in the night, the light will be dimmed to extinction.

The singing tower will be in readiness for formal dedication of the shrine Monday. Almost two years have been required to complete the memorial. Friends of the

above the city, has installed an elaborate system of Westminster chimes and vibra harp which can be operated automatically or thru a console on which concerts can be given.

The silvery notes will be amplified and sent out over the entire Pike's Peak region. Westminster chimes will be heard on the hour and each quarter hour, starting with the songs of the birds at dawning of each new day and continuing until eleven at night when they close the day with a hymn. After dark, floodlights will illuminate the shaft like a jewel set in velvet. The lights will come on gradually ten seconds before the song of the chimes, and thirty

late Will Rogers from all corners of the nation are preparing to be present for the dedication. Special trains from California, Texas, Oklahoma, Kansas, Missouri and Illinois are to carry thousands to the shrine for the dedicatory service to be held at eleven a. m.

Because Will Rogers was the dean of cowboys, a world-wide Will Rogers Memorial rodeo will be held Sept. 4, 5 and 6 on polo grounds just below the shrine. The opportunity to memorialize Will Rogers in the rodeo arena is attracting the world's leading cowboys. The Pike's Peak Polo association is offering handsome trophies and \$15,000 cash prizes.
