

Yellowjacket Team and Broncho Eleven Battle at Eight

Sonora Team's Slate Clear With Two Early-Season Wins To School's Credit

Scoring first and early in the game Friday the Sonora Bronchos added to that six points to make twenty before the game ended, decisively turning back the Mertzson high school eleven.

The week before the Bronchos had won from Big Lake in the first 1937 game.

Tonight at eight o'clock the Sonora team's first district competition will begin. The Bronchos will be battling under the lights as they play the Menard Yellowjackets in the Menard county town. A large number of Sonora people are

FOOTBALL GAMES ON THE SONORA GRIDIRON

vs.
Sonora Elementary Schoolboys

expected to go there for the game and the school authorities hope to take all of the girls of the Pep Squad.

Jim Taylor went around right end in the first quarter of the Friday game to gain for Sonora the "nest egg" of six points which they used as a foundation for their play throughout the game. A double reverse play paved the way for the touchdown.

Homer Wood, Mertzson player, took the ball over for the visiting team's first counter in the second quarter. A pass had been completed to the 3-yard line a moment before. Later in the quarter Charles Lindsey made a sensational 40-yard run around end to the Sonora 11-yard stripe. The Bronchos secured the ball on their own 13-yard line and took it back to the 29-yard marker with Archer doing most of the carrying.

More flash and power was shown by Sonora players as the second half began. Archer went through the line numerous times and finally for a touchdown. Point after goal was good. Later that quarter Morris made a nice end run to the 10-yard line and Archer went over for the third Sonora touchdown. Plunge for point was good.

Reverse plays on which Coach Adams has worked with his boys several seasons clicked in a nice way Friday and accounted for much of Sonora's success.

Lindley, Wood and Beauchamp carried heaviest part of the load for the Mertzson players.

Between halves the Pep Squad, led by Kathryn Brown and Ina Archer, presented a mid-field stunt with paper pin-wheels. Miss Johnnie Allison is the squad's sponsor.

Fund For Sweaters To Profit By Dance

Younger Boys of Football Squad Will Be Rewarded

Those in Sutton and adjoining counties who enjoy dancing will have the privilege Thursday, October 14, and at the same time will be aiding in the producing of a football team that is well representative of Sonora high school.

Arrangements were completed this week for Joe Buzze of Waco and his men to play for the dance which will be known as a "Football Dance," under the sponsorship of the activities committee of the Lions Club.

Buzze has made a generous offer for furnishing the music and the remainder of the money received will go to the fund being established by the Lions Club for the buying of sweaters for reserve (younger) football players of the elementary school. The younger boys are coming out for practice even though they are not eligible for the team. At the end of the season they are to be rewarded with sweaters.

Jodie Trainer, who recently became a member of the club, is in charge of arrangements for the dance.

SONORA MAN SERIOUSLY SICK AFTER OPERATION

Little change is noted in the condition of R. F. Renschel, Sonora man who is seriously ill in a San Antonio hospital, following an operation there October 20.

A report to Dr. J. Franklin Howell this morning was to the effect that the young man's pulse was good and that he was able to take some liquid nourishment. He was slightly better Thursday and the report today was that he was "as well off as yesterday," as the San Antonio physician expressed it.

Mr. Renschel came here a year ago this week to succeed C. H. Jennings as game warden in this section.

1937 Baseball Flag at Stake in Game in Sonora Sunday

Iraan and Station A Sonora Will Battle With Both Teams Having Won Twice

When Iraan and Station A Sonora players battle here Sunday in the last game of the 1937 season the Permian Basin League trophy will be at stake.

Dropping both games in Iraan Sunday afternoon, the Sonora-Ozona aggregation took a mighty setback. Each team has won two games and the one here this Sunday will determine the 5-game series winner and the 1937 championship. Station A Sonora won the first half and Iraan the second.

Crostwaite and White hurled the first game Sunday with White holding up the heavy end of the nine innings. He pitched six of the frames. That game was lost by an 11 to 5 score with Station A connecting for only six hits but "discredited" with four errors.

In the second game Roy Lemelieur knocked a home run, as he and his brother, Coy, had done in the first game. Crostwaite, Sonora pitcher, knocked a homer in the first contest. The second game went to the Iraan team by a 9 to 6 score. Station A Sonora made six errors.

A. H. Ohlenburg, Station A Sonora manager, was having his troubles this week. Mangold, Station A Sonora shortstop, was talking of leaving for San Antonio. In case he does, Ohlenburg said, and Heatherly is able to play, Cox and Heatherly will be "juggled" into the second base and shortstop positions.

Mr. Ohlenburg said Tuesday that he believed Sonora and Ozona enthusiasts as well as many from surrounding towns would be out in full force for the last game of the season. Difficulties of various sorts have beset the two teams in their efforts to stage the titular series of games. The Sunday one should be an unusually interesting contest because of the importance of it as a game determining the winner of the Permian Basin League in 1937.

Legionnaires' Leader

An attorney by profession, Daniel J. Doherty of Woburn, Mass., pictured above, was a charter member of the Woburn post of the American Legion, formed sixteen years ago. Last week U. S. members of the American Legion elected him national commander. During the World War he served in the Navy in Washington and Norfolk, Va.

Sutton County Is Building!

All who live in the territory known as the Sonora Independent School District should be especially interested in the brick residence recently built on the school property in Sonora for the use of the superintendent. Constructed of light face

brick, the five-room residence is a spacious one located on a corner of the school property. A large tree in the front yard is an advantage many new homes do not possess. Wylie Logan, brother of Joe F. Logan, Sutton ranchman, was the builder.

Turn Now To The "Home Builders' Page"

Four New Deacons Named By Baptists

Los Angeles Minister in Pulpit Here Sunday Evening

Four men—Ben F. Meckel, F. T. Jones, E. S. Long, A. C. Elliott—were approved by Baptist Church members at their church conference Wednesday night. The men are now candidates for ordination.

Other members of the board of deacons are L. W. Elliott, W. D. Martin and W. E. Wallace.

Guest ministers at the Sunday night services were the Rev. C. M. Bacon and his father, both of Los Angeles, Cal., where the younger man is pastor of Chatsworth Community Church. The evening message was spoken by the Reverend Mr. Bacon.

Sunday morning the Reverend Mr. Brinkley will speak on "The Song of the Lord," the subject previously announced for last Sunday evening. At night the subject will be "I Am Set for the Defense of the Gospel."

The Sonora church will be represented by five at the association meeting at Park Heights Baptist Church in San Angelo Tuesday and Wednesday. Those who were delegated to attend are:

Lavelle Meckel, Mrs. Will Perry, G. B. Rankhorn, Mrs. Lee Holland, the Rev. R. C. Brinkley.

BROTHER OF MRS. BROWN BURIED IN BIRMINGHAM

Word was received last week by Mrs. Maysie Brown of the death of her brother, J. M. Crawford, who died of a heart attack in Birmingham, Ala., where he had lived a number of years.

Mr. Crawford had been in the hotel business for many years and at the time of his death was manager of the Hotel Hillman in Birmingham. He was fifty-one years old.

In addition to Mr. Brown's wife and son, about fifteen years old, he is survived by three other sisters besides Mrs. Maysie Brown.

The funeral was held in Birmingham Friday.

Yes, Cobwebs About Only Problem of One Who Says She's Only Lady Bill-Poster

"It's troubles like this that I have," Mrs. Jackie Wilcox said Thursday morning as a NEWS representative stopped to chat with a woman doing (of all things!) bill-posting about the elephants and the clowns and wild animals that are coming to Sonora.

"You see, there are cobwebs way up there and these labels I'm using just won't stick on dirty windows, with cobwebs, way up near the ceiling. I have an awful time with them sometimes.

"You ask what I can tell you about a woman doing this kind of work? "Plenty, I'd say. This is my eighth season with this show. My husband's head of the posting brigade. Maybe you won't believe it but I don't have a bit of trouble getting by.

"People are really nice to me and I don't run into any smart boys at all. Lots of times people are so startled that a woman is asking their permission to post bills that I have them up before they realize it."

Jackie (she's Mrs. Jackie Wilcox to only a few) says that she likes the job but that there's plenty of hard work to it.

Those going in advance of a circus have to work and to work hard, she says. The show's success depends on it. As she says it, "there must be no 'excess baggage' with the advance crew for theirs is mighty important work."

The show, Seal Bros., winters in (Continued on page 8)

OCTOBER 25TH DATE SET FOR STUNT NIGHT ACTS

An evening of varied entertainment provided by talented Sutton county people of many walks of life is being arranged by ladies of the Baptist Woman's Missionary Society as a means of raising money to apply on the church debt.

Mrs. Gus Love, president of the organization, is in charge of arrangements for the "Stunt Night" which has been set for Monday, October 25.

Churches, clubs, school children and societies have agreed to provide acts for the program, Mrs. Love said Monday. The program will be in the high school auditorium.

Fire Prevention Methods Will Be Stressed Oct. 3-9

Sonora's Yearly Loss Not Large But As Wasteful As If It Were Much Greater

"The fire that NEVER starts will never get out of control."

That's the fire prevention thought put forth by Marvin Hall, state fire insurance commissioner, in a bulletin sent to Texas towns and cities telling of Fire Prevention Week which begins Sunday and ends with the following Saturday, October 9.

Mr. Hall's bulletin continues: "Fire destroys both human life and property. Fire losses have a direct bearing upon the fire insurance rates which the people pay.

"Fires can be controlled, but fires never will be controlled until all the people (home owners, mill owners, manufacturers and business men and women in general), accept fire prevention as an individual responsibility.

"Fire prevention is a habit and easily acquired, and most pleasant to practice, because it is by such practice that a life may be saved or a disastrous fire prevented."

Sonora's fire loss record through the years is not a great one but precautions taken by citizens trying to make every week a week of preventing fire will help maintain the fire loss waste at a low mark. Records in the city manager's office show the following to have been the chief losses by fire in Sonora in recent years:

1933—Residence, Mrs. Mary Swinburn, located where Jesse G. Barton's home is located now.
1934—Residence, owned by Lum Hefflin.
1934—Dairy property, owned by the late T. L. Benson.
1935—Residence, Mrs. M. S. Davis, located where Mrs. Davis later built a duplex house.

The key rate, dependent upon several factors, in Sonora is sixty-four cents per \$100 valuation. It has been as high as eighty-seven cents and as low as sixty-one cents. It is used as a basic rate in determining the actual rate that a property owner must pay for insurance protection.

A recent proclamation issued by W. C. Gilmore, mayor, read, in part, in this manner:

"I, W. C. Gilmore, mayor of the city of Sonora, do hereby proclaim the week of October 3 to 9 as Fire Prevention Week, during which week I most respectfully urge our civic and commercial organizations, our school officials and teachers, and our citizenship as a whole, to cooperate and work with the fire chief, fire marshal and city officials in an effort to control this useless loss of life and property by fire. Every home, office and place of business should be inspected carefully and all fire hazards removed."

HAND OF WORKER BADLY INJURED IN MACHINERY

A severely burned hand was suffered Monday by Miss Emma Bohnsteh when her hand was caught in a laundry press at the Sonora Steam Laundry which her brother, Oscar Bohnsteh, Jr., has recently begun operating.

The young lady was being shown the operation method of the press. She placed her hand on it for a moment, the press was unintentionally closed at that time and became locked. The girl's father believes that her hand was in the press at least a minute before her brother was able to release it.

Sutton County Rain of 2 To 3 Inches Helpful To Many

Precipitation of 1.6 Inches Brings September Total to 2.89 Point

As far as the NEWS has been able to learn this week nearly all of Sutton county's 1,521 square miles was blessed with the rain which began falling late Friday afternoon and continued through the evening and into the night.

Although only 1.6 inches fell at the Ranch Experiment Station in the southeastern part of the county the gauge at Sonora Wool and Mohair Co. bested that by almost half an inch. The rainfall in town was 2.09 inches.

The J. A. Cauthorn ranch, south of town at the county's edge got 1 1/4 inches. Mr. Cauthorn said that the rain played out a little beyond his place with area near Del Rio not getting any.

W. F. Doran of the Bryden Ranch of Sol Mayer & Son said Saturday 3 1/2 to 4 inches fell there, washing out a number of water gaps. The B. M. Halbert Ranch got 2 1/2 inches.

At the Sawyer 12-Mile place 2 1/2 inches or more fell, it was reported this week. Three water gaps went out. The fall was greater on the west part of the ranch.

Pat Cooper, Sutton ranchman who moved to Pecos county last week, was greeted there by a 3 1/4 inch rain Thursday and a 3 1/2 inch precipitation the next day. Much of the Pecos section got rain.

The Ira Shurley Ranch got 2 1/2 inches of rain, Mr. Shurley said in town this week. J. A. Sykes of the Owensville neighborhood said that his place was favored with 1 1/2 inches and that nearly all around him got about that much. From the Cowsett place north to Menard no rain fell, according to Mr. Sykes.

Part of the Paul Turney Ranch got only about 1/2-inch while the fall on the remainder was probably about 2 1/2 inches., Mrs. Turney said here Tuesday.

Several dirt tanks were filled on the D. H. Kirkland place southeast of Sonora. More than two inches fell, Mr. Kirkland believes.

The September rainfall, as of Tuesday morning this week, was 2.89 inches. During September last year 10.47 inches fell and 14.05 inches were recorded in the September of 1935.

Flood conditions in Sonora in September last year were from September 14 to 18 with 7.41 inches recorded at the Ranch Experiment Station during that time. Lowrey Draw and Dry Devil's River Draw were torrents Tuesday, September 15 and 16, with water sloshing through the bridge balustrade early the latter morning.

Men Frightened By Early Morning Yell

Visitors Monday Believed To Have Been "Knob-Knockers"

"One had a long gun and the other a six-shooter."

That's what Frank Mitchell says about the two marauders who waked him between 2:30 and 3 o'clock Monday morning while he slept in a car near the office in the Sonora Motor Co.

A small sledge hammer, with taped handle, and an iron pinch bar were found on the floor near car. The men ran to the back of the building, Mitchell said Monday, after he yelled. An investigation there revealed that a window had been pried open and entrance effected through it.

Sam Hull, manager of the firm, said that the west gate of the lot at the back of the building was the would-be thieves' means of getting to the rear window. The lock had been pried a bit. On a picket of the gate at the other end of the lot he found a knitted glove which it is believed one of the men lost in escaping from the property.

Mr. Hull said that the safe had between \$100 and \$200 and a number of checks in it.

Sonora Man Home From Hospital

J. J. Armour, who recently underwent an operation in Santa Anna, is better this week. Mr. Armour came home from Santa Anna Monday with Mrs. Armour.

Scenes and Persons in the Current News

1—The late Guglielmo Marconi, father of radio, who was accorded a state funeral by Italy following his death recently. 2—Secretary of Treasury Henry Morgenthau (left) shown with Arthur DeSousa Costa (center), and Secretary of State Cordell Hull following a conference in which the United States agreed to sell \$60,000,000 worth of gold to Brazil to aid the southern republic in bolstering its currency. 3—Chinese soldiers typical of the troops now warring with Japanese soldiers in North China.

REBUILT BRICK SITE OF SWEDELAND

Pennsylvania Will Restore Settlement of 1633.

Harrisburg, Pa. — With only the "surface scratched" so far, Pennsylvania historical commissioners are rushing excavations on the Tinicum island site of the first Swedish settlement on American soil in preparation for the tercentenary celebration in June, 1938.

Only bare outlines of a brick foundation building were uncovered in several months of study and digging on the spot in the Delaware river where Gov. Johan Printz is reported to have settled in 1633.

At the present rate of fact collecting and excavating on the island, commissioners feared the entire settlement would not be restored as promised in time for the celebration. When Crown Prince Gustaf and Crown Princess Louise informed President Roosevelt they intended to visit the United States and participate in the observance, commissioners ordered "full speed ahead."

First restoration work will be on the building whose foundation recently was uncovered. It has been declared the first building ever constructed in Pennsylvania by civilized man, and is either the first church erected in the state or the first executive mansion in the commonwealth.

Small Community Built.

Printz was recorded as leading a party of settlers to America, first settling in the area now known as New Jersey, then moving to the Delaware river isle. He built a large dwelling and laid out his plantation. He directed erection of a fort, church, numerous cabins and marking out of a graveyard.

Bricks of yellow clay, believed made on the island, measuring about two-thirds the size of present bricks, were used in much of the construction in New Swedeland.

Records revealed that 500 bricks were shipped to America in 1643 and another 6,000 in 1644 consigned to Printz. Shipments were made from Sweden and Holland. However, other records indicate Printz hall was constructed of hewn logs, was two stories high and served as a fort. Lumber was brought from Sweden despite the fact that America was mostly wilderness at the time.

History showed that 400 bricks were used in a huge fireplace within the hall, leaving doubt that the first executive mansion was made of brick. Some students believe most of the bricks were for foundations with cabins constructed of native wood.

Fort Burned in 1645.

A drunken watchman on November 25, 1645, was recorded as knocking a candle from a table, setting fire to the fort, blowing up the powder magazine and almost destroying the entire colony. Excavators have found charred wood.

William Penn arrived in 1682 to establish the English colony in the state, twenty-seven years after New Swedeland was abandoned. Penn's seat of government was at Philadelphia. He started the unbroken chain of commonwealth governors and, while Printz' right as the first governor on Pennsylvania soil has never been established, it has never been contested.

It will be these sites that the royal guests and official Swedish delegation will visit when they arrive at Wilmington, Del., June 27, 1938. They also will visit Philadelphia, New Jersey and Delaware state points credited to settlements of early Swedes.

Pencil Carbon—at the NEWS. tf

INSTALLATION SUNDAY OF CHURCH SCHOOL OFFICERS

Known in Methodist church life as "Promotion Day," Sunday in the Sonora church will be a day on which recently elected teachers and officers will be installed. Installation will be at the morning hour.

The Lord's Supper sacrament will be offered at the morning service which begins at eleven o'clock. In the evening, at 7:45, the pastor, the Rev. R. F. Davis, will speak on "Measuring God's Love."

In the Reverend Mr. Davis' announcement this week he said:

"I wish you had heard the choir last Sunday! It would have been worth a trip to the church. The choir will be one of the special features of our church during the fall and winter months. Miss Marie Watkins is director and Mrs. Robert W. Jacobs piano accompanist."

Ohio People Visiting Here

Visiting in the home of Mr. and Mrs. J. W. Duckett are Mr. Duckett's parents, Mr. and Mrs. A. G. Duckett of Springfield, Ohio. The Ohioans came Thursday of last week. The two families spent Sunday in Del Rio and Villa Acuna.

Mrs. Lewis Roueche and daughter, Nina, returned Sunday from a visit in Midland and Odessa.

DRIVE SLOWLY
We Love our Children

NATIONAL SAFETY COUNCIL

CAN YOU MATCH IT?

A welcome that was a welcome was extended Pat Cooper and Mr. and Mrs. Roy Phillips when they reached Cooper's new ranch home in Pecos county Thursday night of last week.

Rain had begun falling. That was something but far from all. A bit of plumbing repair had to be made in the kitchen. A few minutes later Mrs. Phillips heard a buzzing noise in the kitchen and an investigation was the order of the evening.

A rattlesnake with fourteen rattles was found in the kitchen where the drain repair had been made.

Careful inspection of the linotype machine in the NEWS office was made recently by Max Darrell Murray, 5-year-old grandson of Mr. and Mrs. B. C. McGilvray.

He completed his inspection and left the office. He turned back after getting out the door, returned to the machine and said, solemnly, to Mr. James:

"Say, pal, don't let 'em rob the bank."

SIMPLY DISGUSTIN'

"One of the most disgusting things imaginable, an old codger told us yesterday, is to see a woman spend \$45 to \$50 for a new fall coat when she knows good and well that much money would pay the expenses of her husband on a deer hunting trip down in South Texas next winter."—Sam Fryar, Clarksville (Tex.) Times.

Army Youth Back to Duties

A visitor in Sonora a month while on furlough, Reuben Brinkley, son of the Rev. and Mrs. R. C. Brinkley, will leave Monday for San Antonio where he will resume his duties as a soldier stationed at Fort Sam Houston.

Pencil carbon work to be done? "Annihilator" No. 3 pencils at the NEWS office.—adv.

Personals

Miss Madeline Fritz will visit in Abilene this week-end.

Mr. and Mrs. Robert Kelly were in San Angelo Monday.

John McClelland and Jamie Kelly of Texon spent the week-end in Sonora.

Ted Mackall and Vincent Roueche spent several days this week in Houston.

Mrs. J. T. Penick is visiting her parents, Mr. and Mrs. W. N. Hardy, in Terrell.

Mr. and Mrs. Jim Wilson and Vincent Roueche were in San Angelo Wednesday.

Mrs. Batts Friend of Ozona visited her parents, Mr. and Mrs. B. W. Hutcherson, Friday.

Mrs. Lee Labenske and daughter, Mildred, were in San Antonio several days this week.

Miss Mary Louise Gardner, Miss Muriel Simmons and Mrs. Joe Hull were in San Angelo Saturday.

Mr. and Mrs. G. H. Davis, Mrs. Velma Shurley and daughter, Margaret Fay, were in San Angelo Saturday.

Ernest McClelland went to Texon Monday, where he has a contract for stone work on the Boy Scout Hall.

Mrs. Nettie Hightower of Chilli-cothe returned to Odessa yesterday after a visit with her niece, Mrs. Lewis Roueche, and family.

Mrs. J. C. Stephen and son, Ernest Carroll, and her nephew, Troy White, left Wednesday for a visit with Mr. and Mrs. Troy White at Somerset.

Range Program For Next Year Scheduled

AAA Washington Officials Tell State Leader of Plans

College Station, Sept. 29.—The 1938 Agricultural Conservation Program will set up acreage goals for cash crops which are smaller than the established basis, according to George Slaughter, chair of the Texas Agricultural Conservation Committee, who has recently returned from Washington, where representative farmers were called to confer with AAA officials as to the program.

The 1938 program is in most respects quite similar to the 1936 and 1937 program. The range program, developed during 1937, will be continued.

The chief difference in the new program from previous plans is the provision for national goals for major soil-depleting crops to provide adequate supplies for consumption and export, but such as to keep down burdensome surpluses, according to Slaughter. He explained that each state will be given its share of the national goal, and each county will be given its share of the state goal. The county goal will be distributed among the farmers of the county.

In 1938, the maximum payment for each producer will be calculated at the beginning of the crop year and the attainments of soil depletion and soil building goals will be set as conditions for full payment.

The division of payments between landlords and tenants will be the same as the division of crops, Slaughter said.

The new program was hailed by Slaughter as by far the most uniform in application to all regions that has yet been developed. He stated that it is the plan of the Agricultural Adjustment Administration to inform each farmer as to the acreage in each of his crop goals before planting time in the spring of 1938.

WHERE HILL COUNTRY WOOL AND MOHAIR IS STORED

Pictured here is the \$40,000 warehouse recently built by the Schreiner Wool & Mohair Commission Co. in Kerrville. The first part of last week

700,000 pounds of the fall mohair clip was in the building. The warehouse has thirty windows and six doors opening on unloading docks along-

side a railroad spur to the warehouse. There is more than 25,000 square feet of floor space in the building. (Kerrville Mountain Sun.)

LAMBS FROM SANDERSON IN SONORA THIS WEEK

Livestock transported through Sonora this week included several double-deck truck loads of cut-back lambs being taken to the Rouse Ranch, thirty miles east of here.

Tom Russell was the buyer of the lambs which were sold by the Russell Estate, operators of the Big Canyon Ranch, near Sanderson.

Sonora Man Tells of Market Traffic

Cattle Receipts in Fort Worth Set Record Recently

The interesting sight of seeing a part of the more than 500 trucks bringing cattle to the Fort Worth market during an 8-hour period Monday of last week was the privilege of A. F. Kasper, Sonora truckman.

Mr. Kasper says that he has never seen as many trucks concentrated at one point. Receipts of cattle were so great that the trucks were lined up thickly and one moved up and took the place of the one in front that had gone forward a bit.

Thirteen head of cows were taken to Fort Worth Sunday by Mr. Kasper. Last week John Reiley sent 30 head of cows and yearlings there, Otto Mund, 14 head of cows and yearlings, Jamie Brook sent 2 loads of cows and bulls and C. T. Jones and Burts Johnson this week transported several loads of cattle to market.

LIVESTOCK OVER SONORA SCALES IN RECENT DAYS

Weighing at the Sonora stock pens the last few days has included the following:

E. E. Steen, 326 lambs, sold to Finley and Kitchens Commission Co.; Espy and Vander Stucken, 125 calves (65 steers, 60 heifers), to Harry Connelly; Cauthorn Bros., 332 calves (153 steers, 179 heifers), to Harry Connelly;

Virgil Powell, 158 heifers; W. B. Whitehead, 1297 spring lambs, to Ross Bros., Fort Worth; Lee Whitehead, 1422 spring lambs, to Ross Bros., Fort Worth; L. D. Whitehead, 733 spring lambs, to Ross Bros., Fort Worth.

MERRY LASSIES CLUB MET TUESDAY EVENING

Seven new members were named Tuesday evening when the Merry Lassies Club met at L. W. Elliott School.

Miss Harva Jones, sponsor, led the program and Miss Maggie Stuart was pianist. Ten old members were present, and the seven new ones. The club was organized last year.

Miss Madeline Fritz was in charge of the assembly program Wednesday morning. Miss Fritz presented the first grade pupils in a program of songs.

SONORA MAN BACK FROM GRANDFATHER'S FUNERAL

Funeral services were conducted last week at White-Wright, fourteen miles from Sherman, for P. S. Adkins, 88, grandfather of Allen Adkins of Sonora.

Mr. Adkins left here Wednesday of last week and returned Monday. His grandfather died Wednesday afternoon of last week.

A resident of Sherman many years, Mr. Adkins is survived by his wife, five sons and two daughters.

Sonora Men Attend Kerrville Meeting

Methods of Game Preservation and Propagation Outlined

Attracting 100 men from many counties of the western half of the state, the two-day game conservation camp at Camp Stewart, Kerrville, was ended Saturday.

H. C. Atchison, county agent, and C. H. Carson represented Sutton county at the camp which was attended by county agents and one representative from each county. Another camp, for East Texas, was held at Kirbyville.

Internationally known speakers told of the best methods of taking care of game resources and of increasing those advantages. They called particular attention to the fact that in this section the matter is an economic one with many making their living, or part of it, from game. "Harvesting of the crop without depleting it," was the general subject of the 2-day meeting.

The Bear Creek Ranch of Ed Friedrich, wealthy San Antonio man, was visited as was the ranch owned by Mrs. Walter Schreiner. Game conservation is practiced earnestly on each place and the Friedrich place has a large number of imported animals and birds on it.

Cattle and Calves Total 3,400 Monday

(Federal-State Market News Service)

San Antonio, Sept. 29.—Supplies of cattle and calves were only slightly less Monday than Monday of the week before when a record was set.

The market was active on the bulk of offerings and price levels held about steady in face of the heavy receipts, as compared with last week's close. Only steers and yearlings were slow, with medium calves strong to 25 cents higher in spots. Estimated receipts, 1100 cattle and 2300 calves.

Steers and yearlings were in comparatively light supply. Calves were active on both packer and shipper account. Medium to good grass calves cashed at \$6 to \$7 with short lots to \$7.50. Plain calves sold down to \$5 with culls to \$4.50, few down to \$4.

Plain and medium butcher cows, \$4 to \$5.25, few fat kinds to \$6. Cutter and low cutter cows, \$2.50 to \$3.25, few shells below. Bulls cashed mostly at \$4 to \$4.50, few above. Stockers, mostly \$5 to \$6.50.

DEL RIO LAMBS SHIPPED TO BRADY FROM SONORA

Three thousand lambs, bought from Bob Miers of Del Rio, were received here yesterday by C. T. Jones, acting for Jamie Brooks of Brady.

Eight cents a pound was paid some time ago for the animals which were re-shipped by Mr. Jones to Brooks in thirteen trucks.

A carload of calves was bought by Mr. Jones this week at 7 cents from Tom Jacobi of Eldorado. Forty-four head of cows were received recently from Lee Morris, Sutton ranchman, who was paid \$45 per head for the animals.

Three old bulls were bought recently by Mr. Jones from Joe F. Logan, Sutton ranchman, at 4 cents a pound.

We read of a music hall artiste who tears newspapers to shreds then apparently reassembles them neatly folded. It is rumored that the amazing man can even put the daily paper together again after his wife has finished with it.—Humorist.

OFFICIAL IN INDIA ASKS ABOUT SUTTON ANGORAS

Price and sale details of stud bucks were asked this week of B. M. Halbert and Son in a letter received from S. M. A. Shah, Esquire, Superintendent, Civil Veterinary Department, North-West Frontier Province, Peshawar, India.

The letter was to have been sent by air mail "Par Avion" (by way of French commune department, Avion) but insufficient postage was affixed. A month was required for the transmission of the letter.

Mr. Shah stated that he wanted to cross the bucks with local goats. He asked that the reply be sent to him by air mail.

SUTTON EWES DELIVERED TO CROCKETT RANCHMAN

Five hundred yearling ewes, contracted six weeks ago at \$6 a head, were delivered Wednesday by Mrs. Nannie Wilson, Sutton county ranch woman.

The buyer was Sidney S. Mills-paugh, Jr., who took them by truck to his ranch in the Ozona section.

See the Difference PURINA Makes in Egg Profits!

DAY BY DAY, week by week, month by month, Purina Laying Chows keep up steady egg production. The reason they do is because they're "eggs in a bag." Every ingredient has a definite egg-making job to do—every ingredient does its job.

All year 'round the carefully balanced, blended and tested Purina Laying Chows do the best job of keeping up egg profits. Checker-board quality feeds bring you results that a "price" feed can never accomplish.

Purina Laying Chows are the only laying feeds on the market fortified with that new vitamin A ingredient, Pur-a-tene. If you want Purina results, feed Purina Laying Chows. You'll be more than pleased at the difference they make!

Think Now of Fire

The coming of a "week" for this and a "week" for that so rapidly is apt to build up a disregard for the purpose of any of them.

Yearly, however, it is wise that people should be urged to think seriously of means of preventing fire, destroyer of life and property to the extent of many millions of dollars each year.

Anyone who has stood helplessly by and watched precious belongings consumed by fire need not be reminded of the need for precautions to prevent such happenings. Many have not had that severe lesson. Whether or not insurance is carried matters little. Insurance payments may help financially but they can never restore treasures.

The Sutton community, with a yearly fire loss that is very small, would do well to consider carefully during "Fire Prevention Week," beginning Sunday, the means of continuing the good record and attempting to reduce the amount of loss by fire in the course of each twelve months.

Mrs. Mary C. Hunt of Brackettville is visiting her son, Bryan, and Mrs. Hunt.

THE DEVIL'S RIVER NEWS

1939 NEW YORK FAIR'S TWO MILE AMUSEMENT LOOP

NEW YORK (Special).—"The 1939 New York World's Fair has planned to have the largest area and the greatest number and variety of amusements ever provided for any exposition in the world," announces Grover Whalen, President of the Fair Corporation, "but let it be understood, too, that we are already assured of producing a fair that will be remembered for its bold treatment of today's problems and for its pathfinding to the World of Tomorrow."

The accompanying photograph shows the design of the Fair's two-mile, 280-acre amusement zone as released at the time of Mr. Whalen's announcement. The sector is being laid out with a greater

visitor capacity than that of any amusement park in the world. Following an entirely new pattern that lends itself to the development of new and novel amusement and entertainment features, the sector is featured by the two-mile looped thoroughfare, flanked on one side by a continuous facade 70 feet high and on the other by the more open and landscaped area extending to the east shore of Meadow Lake.

The upper end of the lake-shore region will be dominated by a \$1,600,000 State amphitheatre with a marine stage for presentation of aquatic shows, operas, pageants and extravaganzas of all sorts. On the far side of the lake, as sketched, will be every conceivable kind of show, spectacle, device, ride, and eating place.

35 Years Ago

John McKee was in from the Gunzer ranch Monday. John says he is glad they didn't want him on the jury.

John Keton was in from the ranch last week for supplies.

Place your orders with McCleary and Deere. They shall receive personal attention. Goods delivered to all parts of town.

We are pleased to see Geo. Allison on the streets so soon after his accident.

Mrs. A. R. Watson and family gave a very enjoyable social to the young people at their home in West Sonora Tuesday night.

Sam Cox, Jr., the good-looking stockman was in from the ranch Wednesday for supplies.

Font Mayfield and Angus Lewis two jolly cowboys were in Sonora Monday scheming.

E. F. Vander Stucken, senior member of the E. F. Vander Stucken Co., of Sonora, expects to leave for the east this month on a purchasing trip.

W. A. Miers the sheep and cattle raiser was in from his ranch this week.

R. F. Halbert sold to W. A. Glasscock 550 steers — coming twos and threes at \$20 with 10 per cent cut at \$18. Delivery April 1.

Joe Ross the stockman was in town Monday.

ROOSEVELT MAN UNHURT IN AFTERNOON ACCIDENT

No one was injured Sunday afternoon when a motorcycle ridden by a Roosevelt resident ran into the sedan in which Mr. and Mrs. T. C. Murray were riding with Mr. and Mrs. Edgar Barton and daughter, Betty Ann, of San Angelo.

The hat of the motorcycle rider blew off while he was going down the steep hill near Roosevelt. In attempting to recover his hat he lost control of his machine and ran into the sedan.

Two Saddle Horses Interest Sonorans

Kansans Taking Horses To West Coast in Steel-Wood Trailer

Two pretty Palamino horses, one two years old and the other four, attracted the attention of Sonorans Saturday morning when they were transported through here in a deluxe twin-type trailer.

The horses were of a light buckskin color. Their owners, Mr. and Mrs. Carl Green of Tonawanda, Kansas, said they were saddle horses and might be used as show

horses later.

The Greens and Mrs. Green's aunt, Mrs. J. C. Robison, were on their way to California to spend the winter months on the coast.

Mr. and Mrs. Green have ranching and oil interests near Tonawanda and Mrs. Robison owns a large ranch in southwestern Kansas.

The bright green trailer for the horses, each of which was blanketed for warmth, had a glass windshield as well as a hay compartment in the front.

OFFICE NOW

The SNAPSHOT GUILD
SEEING THINGS AT NIGHT

Photographing lightning presents no problem other than patiently waiting for the flash with the lens open, the camera stationary. At the top—a night picture made with an exposure of 25 minutes at f.8 on chrome type film. It's probable that a shorter exposure would have sufficed.

OUTDOORS at night you will find many a good, perfectly "gettable" shot. Lightning, for example, takes its own picture very neatly. And the procedure is simple.

As a lightning storm approaches, place the camera (even a simple box type outfit will do) on a window sill or some other convenient perch, aim it at the storm center, open the shutter for a time exposure—and then wait for things to happen.

If you are lucky, a bolt of lightning will soon come within the ken of your camera. Then close the shutter, wind the film to the next number, and try again. Lightning pictures are doubly effective if they include nearby buildings or trees.

Picturing illuminated buildings, electric signs, and other night-blooming subjects is simply a matter of time exposure. The camera, of course, must be stationary. Length of exposure depends on the amount and color of light on your subject, and the kind of film used. The chrome type of film is excellent for outdoor night time exposures, as it minimizes flare from strong, exposed lights. Usually, you'll find exposures of from two to five minutes adequate (unless you stop the lens 'way down; then you'll need longer time). And if your subject is bathed in colored

lights, especially any reddish hue, give it about double the time you would otherwise use.

Real moonlight pictures are something to point to with pride. Moonlight will make pictures just as sunlight does, but being many times weaker, exposures must be very considerably increased. The simplest way to calculate a moonlight exposure is to give 25 minutes for each 1/100-second exposure that would be given the same scene in sunlight. Suppose it is a landscape with a dark-toned object in the immediate foreground. The sunlight exposure would be 1/25 at f.11. Then by the light of a full moon with sky clear throughout, it would be 100 minutes at the same stop. This could be cut down to 50 minutes with stop f.8. Without nearby dark-toned object, the exposure can be cut down to 25 minutes at f.8; for distant landscapes, to 10 or 15 minutes.

If a sort of daylight effect is desired, then exposures must be multiplied by four.

Warning: Don't include the moon itself in your picture unless you want it to show a nice bright "baloney" sausage hanging in the sky. Like the sun, the moon "do" move.

John van Guilder.

SOCIETY NOTES

Parties...Clubs
Future Events

NINA ROUECHE, Society Editor

Bridge Club Entertained By Mrs. Sam Karnes

Another pretty party of the early fall season was the one given Wednesday afternoon of last week by Mrs. Sam Karnes, when she was hostess to the Girls' Club.

Autumn colors prevailed throughout the party, in tallies and the refreshment plate. Roses and zinnias added a pleasing note to the rooms where bridge was played.

Club members attending were:

Mesdames J. A. Ward, Jr., Henry Decker, John Hamby, John Fields, J. C. Morrow, George H. Neill, Joe B. Ross, R. C. Vicars, Louie Stuart of Eldorado, Sam Allison, Miss Alice Karnes, Miss Ada Steen.

Club guests present were: Mesdames B. M. Halbert, Jr., Collier Shurley, Fred Simmons.

Mrs. Vicars won high club, Mrs. Stuart won second and Mrs. Simmons high guest.

A salad plate was served.

Miss Karnes Party Hostess Thursday Afternoon

Climaxing last week's social activities was the party Thursday afternoon when Miss Alice Karnes was hostess to Las Amigas Club. Autumn colors were used extensively in decorating.

Club guests were:

Mesdames Joe B. Ross, Joel Shelton, J. A. Ward, Jr., Richard M. Johnson.

Club members included:

Mesdames P. J. Taylor, John Hamby, John Fields, J. C. Morrow, R. C. Vicars, B. M. Halbert, Jr., Collier Shurley, Sam Karnes.

Mrs. Shurley was awarded high club prize and Mrs. Morrow second high. High guest was won by Mrs. Johnson.

A delectable salad plate was served at the tea hour.

Mason People Visiting Here
Residents of Mason county, Mr. and Mrs. Baze Draper and sons, Driskell and Roddie, came Wednesday for a visit with Mr. and Mrs. Marvin Willman and Miss Grace Draper.

P. T. A. to Meet Tuesday
All members, teachers and parents of school children are urged to attend the first fall meeting of the Sonora Parent-Teacher Association next week. The meeting will be Tuesday afternoon at 3:30 in the high school auditorium. Friday evening at the clubhouse of the Sonora Woman's Club, the teachers will be honored with a party.

Party Given On Courthouse Lawn Wednesday

Halloween colors and designs were used Wednesday afternoon when the Junior Class of the Methodist Sunday School was entertained on the courthouse lawn.

Mrs. R. K. Muckleroy, Mrs. O. L. Richardson and Preston C. Lightfoot served refreshments of punch, sandwiches, cookies and potato chips. The cookies were shaped like pumpkins.

Members of the Junior Class, who were recently promoted to the Intermediate Class, and members of the primary class, who have been promoted to the junior class were guests.

Attending the party were: Sidney Awalt, Marguerite Howell, Warren Reddoch, Gene Wallace, Eugene Shurley, Edith May Babcock, Billy Shurley, R. W. Wallace, Wilford Berger, Glenn Richardson, Jamie Trainer, Jobeth Taylor, Addie Thorp, Mandy Wall, George D. Wallace, Wanda B. Cook, Marjorie Ann Dameron, Frances Atchison, Flora Jean Hildreth, Fannie Sellman, Richard Sellman, Geraldine Morrow, Sammie Jeanne Allison, Mary Burtle, Martha Jo Moore, Davie Dean Locklin, Jimmie Lightfoot, Jean Cliff Johnson, Bernie Dawn Gibbs.

Others present were Mr. and Mrs. Preston C. Lightfoot and daughter, Marjorie Ann, Mrs. R. K. Muckleroy, Mrs. A. W. Awalt and Sally Dawn Prater, Mrs. J. T. Sellman, the Rev. and Mrs. R. F. Davis, Mrs. O. L. Richardson.

Methodist Choir Enjoys Barbecue Thursday

Guests Thursday night of Mr. and Mrs. E. D. Shurley at their ranch home near Sonora were members of the Methodist Church choir and a few others.

A barbecued supper was served on the lawn and afterward the regular weekly choir practice held in the Shurley home.

Those enjoying Mr. and Mrs. Shurley's hospitality were:

Messrs. and Mesdames W. E. Caldwell, R. F. Davis, Marion Stokes, Robert W. Jacobs, O. L. Richardson,

Mrs. A. W. Awalt, Mrs. Belle Steen, Mrs. Rosanna Hildreth.

The Misses Elizabeth Caldwell, Edythe Carson, Johnnie Allison, Pauline Davis, Leeta Mae Garrett, Althea Brister, Alice Sawyer, Thelma Rees, Mary L. Leatherwood, Marie Watkins,

Messrs. Boyd Caffey, Edwin Sawyer, Peter A. Chase, James Caldwell, Jennings H. Flathers,

Mrs. Arthur Carroll and son, Arthur Dorsey, are visiting relatives in Houston.

Youngest Mother Has Second Baby

Mrs. Daniel Gonzales, thirteen years old, of Port Arthur, Texas, claimed the youngest mother in the world 18 months ago, recently gave birth to another baby. She is shown with Robert Lee (left), and Estella Alice (right). The first baby was born in January, 1936, before the child-mother was twelve years old.

Athletes of Tomorrow Will Thrive On This Oven Stew of Muscle-Building Protein

Tomorrow's stars of football, tennis, hockey and track are busy on playgrounds today. Learning the game early is important if outstanding skill is to be acquired.

Mother may not know the correct way to hold a tennis racket, nor understand the fine points of a football game, but she has a job even more important than that of the coach, Inez S. Willson, home economist, points out. She must see to it that the young athletes in her family have plenty of the right kind of food, or all the teaching and practice will count for little.

These boys and girls need food containing a plentiful supply of protein to build muscle tissue and bones. They need food for growth as well as for energy. Since meat is the best source of high quality protein, it should be included in generous amount in the diet, along with vegetables, cereals, fruit and milk.

A combination of meat and vegetables, baked in a tasty stew, is

the kind of food which makes a hit with young athletes. It is just what they need to give them strength and energy.

Oven Stew

Two pounds beef chuck, neck or shank, 2 slices salt pork, flour, lard for browning. One cup tomato puree, 6 small onions, 4 medium-sized carrots, 6 small potatoes, salt, pepper, paprika.

Cube salt pork and brown in skillet. Have beef cut into 1-inch cubes. Dredge with flour and brown in hot lard. Transfer to a buttered baking dish. To the remainder of fat add 2 tablespoons flour and smooth. Add tomato puree, 1 cup water, salt, pepper and paprika to taste. Pour over beef, cover and cook in a moderate oven (350 F.) until beef is nearly tender, one to one and a half hours. Then add the small whole onions, carrots and potatoes and cook until these are tender, an hour longer.

Mrs. J. T. Penick returned Wednesday night from Terrell where she visited her parents, Mr. and Mrs. W. N. Hardy.

Miss Mona Barfield left yesterday for a week's visit in San Angelo.

YOUR CHILD AND THE SCHOOL
BY Dr. ALLEN G. IRELAND
Our Children Shall Drive—Safely

Recently I had the privilege of speaking at the convention of the National Education Association. My topic was "Traffic Safety."

The one point which I emphasized was our national indifference to automobile accidents. I likened it to a disease of the national mind.

We have adopted a defeatist attitude. Don't we say, in effect, the automobile is here to stay, so what? Meaning, what can we do about it? That is, we accept defeat in facing this challenge.

Some people say that "accidents are the price of progress." To receive, we must pay. But this is a false premise. What they mean is "that the chance of accident is the price of progress." In the first case, we give up. In the second, we admit there is a chance of accident. But chance can be foreseen; we can plan to counteract it; no attitude of helplessness need prevail.

At present, we accept the accident, not the chance. We give in too easily when we should be meeting the challenge.

Admittedly, little can be done with adults. But we can change the attitude of beginning drivers now in high schools. They are open to a new psychology. They can be shown that "accidents are preventable." They are eager for life. Show them this obstacle to happy, successful living and they will meet the challenge. We must guide them, however, for the solution rests in attitudes of courtesy and sportsmanship on the highway.

Woman's Club in First Meeting of Year October 7th

A guest of the Sonora Woman's Club, organized in 1916, at its first 1937-1938 meeting will be Mrs. Ethel Foster, of Sterling City, president of the Sixth District of the Texas Federation of Woman's Clubs.

Another out-of-town guest will be Mrs. Frank Friend, prominent clubwoman of San Angelo and an aunt of Miss Nann Karnes, president of the Sonora organization this year. Mrs. Friend is chairman of the Citizens' Organization for Highway Beautification in this division of the state highway department.

Mrs. J. L. Nisbet, corresponding secretary, will make an address of welcome and Miss Karnes will speak. There will be a piano solo by Mrs. Joel Shelton and a vocal number by Mrs. Preston C. Lightfoot.

Social hostesses will be Mrs. B. W. Hutcherson, Mrs. J. L. Nisbet, Mrs. Hix Hall, Mrs. H. V. Stokes.

MUSIC APTITUDE TEST GIVEN SCHOOL STUDENTS

H. N. White of Abilene was in charge of a music aptitude test Tuesday for the high school students of the fifth, sixth and seventh grades.

The purpose of the test was to train them in music, to help determine whether they should play in the band and to help each select the best instrument for playing.

One person out of every 20,000 is expected to make a perfect score of 100. Frances Alamaguer's score was 93, Herbert Andrew's score was 90. Rex Hutcherson also had a score of 90.

All of the high school students except eight made an average of 60 or above. Those students are urged to see Peter A. Chase about playing in the high school band. Twenty-five pupils already own instruments and ready for band instruction.

MISSION STUDY TO BE LED BY MRS. R. F. DAVIS

Thirteen members were present at the regular meeting of the Methodist Woman's Missionary Society Wednesday afternoon at the church.

A new study, "What Is This Mosalem World?" written by C. R. Watson, will be led by Mrs. R. F. Davis, at the next meeting.

Attending were: Mesdames W. E. Caldwell, W. E. James, C. E. Stites, O. G. Babcock, J. D. Lowrey, J. Franklin Howell, George B. Hamilton, W. L. Teague, J. T. McClelland, W. A. Ezell, O. L. Richardson, Robert Rees.

Construction Paper—red and green. At the NEWS office.—adv.

Co-Hostesses At Art Club Monday Evening

Miss Pauline Davis and Miss Leeta Garrett were hostesses to the Sonora Art Club Monday evening when they entertained at the home of Mrs. John Fields.

Miss Garrett, president, conducted the program on "Monuments and Memorials" and discussed "Washington's Monument" and "The Tomb of the Unknown Soldier." Miss Davis spoke of the "Pioneer Woman Monument" and "Stone Mountain Monument."

Officers for the ensuing year are:

President, Miss Leeta Garrett; vice-president, Miss Jamie Gardner; secretary-treasurer, Miss Mary Ruth Quisenberry; reporter, Miss Audrey Rankhorn.

A chilled fruit plate was served to:

Mrs. R. K. Muckleroy, Mrs. Fields and Misses Jamie Gardner, Beavely Reiley, Audrey Rankhorn, Leeta Mae Garrett, Mary Ruth Quisenberry, Pauline Davis.

Mrs. Ross Club Hostess Thursday Afternoon

Officers for the remaining part of the year were elected Thursday afternoon when Mrs. J. W. Ross was hostess to the Pastime Club.

Those chosen were:

President, Mrs. J. W. Trainer; vice-president, Mrs. F. T. Jones; secretary, Mrs. Earl Lomax.

Mrs. J. D. Wallace and Mrs. Richard Vehle were the only club guests.

Club guests attending included: Mesdames Earl Lomax, W. E. James, F. T. Jones, Auther Simmons, J. W. Trainer, W. D. Wallace, O. G. Babcock, Hi Eastland, Robert Rees, W. E. Caldwell.

Pie and coffee were served after a number of games.

Mrs. Eastland and Mrs. Trainer tied for high score.

COUNTY TAX STATEMENTS PUT IN MAIL THURSDAY

Owners of Sutton county property for 1937 taxes as well as their poll tax notices Thursday by Mrs. L. E. Johnson, deputy collector in the office of B. W. Hutcherson, assessor-sheriff-collector.

A new system being used this year has poll tax notices, in the form of a receipt, attached to the property tax statement. When poll tax is paid the original of the carbon copy sent as a notice is given the taxpayer. It is believed by Mrs. Johnson that a great deal of time will be saved at tax-paying time by means of the new plan.

The NEWS will print it for you.

QUESTIONS AND ANSWERS

Q. I am greatly disturbed over my kitchen floors. I just can't keep them clean. How could they be refinished to help this situation?

A. If the floor is wood, get some of the best spar varnish. After cleaning the floor thoroughly and letting it dry completely, put on two coats of the varnish. Three coats would be better, but two will do. The alternative is to cover it with linoleum.

Q. I would like a frosted or obscure glass effect on one of my windows. How can this be done without replacing present glass?

A. Clean the glass with alcohol; cut out a sheet of tissue paper of the desired color to fit the glass and apply a spar varnish thinned with a quarter as much turpentine. This will penetrate the paper and stick it to the glass as well as make the paper water resistant.

Q. My bathroom wall is plastered and we want to finish it with tile. Is it necessary to remove the plaster first?

A. Yes. All the plaster should be removed to the height of the tile. The tile should only be applied on a good grade of metal lath over wood stud partitions. If the walls are of masonry, the entire surface should be cleaned preferably with a chemical before attempting to apply the tile.

Hinge Screws May Be Trouble
Sticking doors are sometimes caused by the loosening of the screws of the hinges. If tightening the screws does not cure the trouble, the hinge can frequently be countersunk a little deeper in the door. This saves planing off the front edge of the door, which always necessitates repainting.

Be Careful of Attic Storage
Much attic space is unusable for lack of floor space. Storage of trunks, furniture and other heavy objects on the ceiling joists in the attic is dangerous to the ceiling below. Rough flooring over at least a portion of the attic will give considerable storage space that can be used safely.

Powder Room

Many new houses have powder rooms on the first floor for the convenience of guests and owner. The guest does not have to go upstairs for that last-minute look at her hair or complexion; and the housewife, who might not always find it convenient to have a guest upstairs, is able to offer the powder or vanity room. This room is found in a large number of homes financed under the Insured Mortgage System of the Federal Housing Administration.

FEW IN FRANCE WORRY ABOUT WAR POSSIBILITY

El Paso, Sept. 30.—Devastation of the franc is the major concern of the French people, who are more alarmed over this monetary problem than over the possibility of a war with Nazi Germany or Fascist Italy, believes Dr. Richard Olmsted, assistant professor of modern languages at the College of Mines and Metallurgy here, a branch of the University of Texas.

Dr. Olmsted has recently returned to El Paso following a two months' residence in Paris.

"Americans in Paris are panic-stricken by news of war preparation, whereas the French have a blasé philosophy of ignoring it completely, rarely reading newspaper articles on the subject," Dr. Olmsted said. "No display of military preparation or power is ever flaunted before the French people."

Dr. Olmsted was accompanied to Paris by his father, Dr. E. W. Olmsted, who recently retired as head of the romance language department at the University of Minnesota.

Sonorans Visit in Fort Worth

Mr. and Mrs. Vernon Marion and daughter, Lunetta, and his mother, Mrs. Nettie Marion, visited Je Ann Marion, a freshman at Texas Christian University at Fort Worth, during the week-end. Mrs. Nettie Marion, who has been visiting here, returned to her home at Greenville. Miss Lunetta Marion is a student in San Angelo.

G. W. Cunningham on Trip Through East

Sonora Man With Others of Party Sponsored by Packer

An educational tour in Chicago, Boston, New York, Philadelphia and Washington is being enjoyed by G. W. Cunningham, secretary, Texas Sheep and Goat Raisers' Association, who left Sonora last week.

Mr. Cunningham went from here to College Station for a brief visit with A. K. Mackey, professor of animal husbandry, who made the northern-eastern trip last year. He went from there to Chicago.

The educational tour, sponsored by Swift and Co., meat packing organization, has the following as its chief purposes:

- a) To familiarize participants with conditions in lamb-consuming cities;
- b) To see lamb buying and slaughtering methods;
- c) To compare live and dressed lamb grades;
- d) To study selling methods used in supplying retailers with lamb;
- e) To meet representatives of the various packing companies;

Those on the tour are expected back in Chicago Saturday, October 9.

The summer now waning has been one of the worst for straw hats. The trade never really rallied after the departure of Maurice Chevalier.—Milwaukee Journal.

URGES WAR AGAINST MARIJUANA TRAFFIC

U. S. Commissioner Says Dope Use Is Spreading.

Washington. — An appeal to law enforcement authorities, civic organizations and educators to co-operate in stamping out the rapidly expanding marijuana dope traffic among high school students was issued today by H. J. Anslinger, United States commissioner of narcotics, through The American Magazine.

He warned that the marijuana weed, known to history as hashish, is now being grown by the ton in backyard gardens and vacant lots throughout the country, and that peddlers are selling it to school children by the thousand, in the form of cigarettes, the result being all sorts of crime, suicide and insanity among boys and girls in their 'teens.

"It would be well for law enforcement officers everywhere to search for marijuana behind cases of criminal and sex assault," Commissioner Anslinger stated. "In more than a dozen recent cases of murder or degenerate sex attacks, many of them committed by youths, marijuana proved to be a contributing cause.

"The menace of marijuana addiction is comparatively new in the United States." In 1931, the marijuana file of the federal narcotic bureau was less than two inches thick, while today the reports crowd many large cabinets. The weed, which is of the Indian hemp family, is now cultivated in practically every state. Growing plants by the thousands were destroyed by law enforcement officers last year in Texas, New York, New Jersey, Mississippi, Michigan, Maryland, Louisiana, Illinois, and the attack on the weed is only beginning."

Admits Turn Criminals.

Commissioner Anslinger revealed that it was an unprovoked crime which brought the first realization that the ancient drug had gained a foothold in America. An entire family was murdered by a youthful addict in Florida. He had no recollection of having committed the multiple crime. The police knew him as an ordinarily sane, rather quiet young man. But the boy said he had been in the habit of smoking something which youthful friends called "muggles," a childish name for marijuana.

"Since that tragedy there has been a race between the spread of marijuana and its suppression," the commissioner wrote. "Unhappily, so far, marijuana has won by many lengths. The years 1935 and 1936 saw its most rapid growth in traffic. But at least we know what we are facing. We know its history, its effects and its potential victims. Perhaps with the spread of this knowledge the public may be aroused sufficiently to conquer the menace. Every parent owes it to his children to tell them of the terrible effects of marijuana to offset the enticing 'private information' which these youths may have received.

Enforcement Imperative.

"There must be constant enforcement and equally constant education against this enemy, which has a record of murder and terror running through the centuries. Reports from various sections of the country indicate that the control and sale of marijuana has not yet passed into the hands of big gangster syndicates. The supply is so vast and grows in so many places that gangsters have perhaps found it difficult to dominate the source. "America now faces a condition in which a new, though ancient, narcotic has come to live next door to us, a narcotic that does not have to be smuggled into the country. This means a job of unceasing civic organization. It calls for campaigns of education in every school, so that children will not be deceived by the wiles of peddlers, but will know of the insanity, the disgrace, the horror which marijuana can bring to its victim."

Game Conservation Efforts Under Way

Ranchmen and Youth Interested in Saving Fish and Animals

College Station, Sept. 29.—West Texans have shown great interest in the subject of wildlife conservation and a large number have established conservation areas on their property, reports from county agricultural agents indicate.

C. H. Gilmer of Edwards county is devoting his 1,528-acre ranch at the head of Hackberry Creek to conservation of deer, wild turkey, fish, raccoon and other wild life.

He built two concrete dams during August to impound water from the headwater springs of Hackberry Creek to form two lakes of about six feet maximum depth and 400 to 600 yards long respectively. The ranch will not be stocked with cattle, sheep or goats this year, in order to allow more feed to grow for game. The lakes will be stocked with black bass. This is an isolated, rugged ranch and is especially adapted to all wild game, according to the county agricultural agent.

A large number of lakes and tanks built in Coleman county in cooperation with the 1937 Range Program will be stocked with bass, white perch, crappie and bream. These will be supplied by the state game, fish and oyster commission. Farmers and ranchmen are receiving these fish under the agreement that they prohibit all fishing in such lakes and tanks for a period of two years.

Kerr county 4-H Club boys are showing an interest in studying habits and foods of deer, turkey and quail and making collections of their food plants. Among wildlife conservation plans outlined for the year are a census of game, building up a conservation museum, collecting conservation bulletins, managing a field for quail, improving home grounds for song birds, learning to identify 50 birds in the community, and studying Texas game laws.

Sonorans Will See Circus Here Friday

Three-Ring Attraction Boasts Noon Street Parade

There should be no lagging in the boy or girl citizenship of Sonora Friday when morning breaks in the eastern sky.

That's circus day!

The tented city will be under way early in the day by way of preparing for the afternoon and night performances and the big street parade at noon.

Seal Bros. Circus is said to have what the press agent of the organization describes in this manner: "....three acres of tents, three hundred and four people, one hundred beautiful horses, a herd of elephants, cages and dens of animals. Just imagine yourself placed in the position of feeding and moving this little city from town to town each day and having everything in readiness for the parade at noon and the afternoon performance. One wonders when the circus employees ever get any rest. The circus has twenty-four different departments and in that way every one has his task to do."

The press agent makes further claim that the Seal Bros. Circus is the largest three-ring, motorized circus in the world and the only one to give the old time free street parade.

BLIND YOUTH DETERMINED TO TAKE COURSE IN LAW

El Paso, Sept. 30.—Blindness has proved no insurmountable obstacle to 17-year-old Howell Palmer, Jr., of Dallas, who has enrolled this year as a freshman pre-law student at the College of Mines and Metallurgy, a branch of the University of Texas.

Young Palmer, blind since he was six and one-half years old, is the son of Mr. and Mrs. H. S. Palmer of Dallas. He was born in El Paso.

Palmer possesses about 10 per cent vision and his left arm is paralyzed, the result of a brain tumor several years ago. He takes class notes in Braille and later composes themes and other written material on the typewriter.

Fond of government and church organization, Palmer plans to become a lawyer. He plans to receive his degree from the University of Texas School of Law.

He was graduated from Dallas Technical High School with an average of 93.53 and was fourth honor student among 213 graduates. He completed the four-year high school course in three and one-half years.

"Men Working" in Texas

Austin, Sept. 30.—Reports to the Bureau of Business Research of the University of Texas from over 1800 Texas establishments showed that 91,282 workers were employed during August, an increase of 7.9 per cent over August last year. Total weekly payrolls of these establishments was \$2,333,941, an increase of 23.9 per cent over the corresponding week last year, the bureau's index indicated.

Too many think you can't properly pursue happiness unless you are doing seventy miles or more an hour.—Montreal Star.

Car Sales Maintaining Level Austin, Sept. 30.—According to the Bureau of Business Research of the University of Texas, reports of passenger car registrations from fifteen representative Texas counties show total sales of 6,087 cars during August, a decline of 3.4 per cent from July, but an increase of 7.1 per cent over August last year. Aggregate sales for the year-to-date in these fifteen counties were 50,233 cars, a decrease of 2.6 per cent from the corresponding period last year.

South Dakotans Yearn to Recover Deadwood Coach

Fort Pierre, S. D.—Gone, but not forgotten, is the old stage coach that jolted passengers over the rough and rutted Deadwood trail in the days of the Indian and the buffalo.

Residents of Fort Pierre have not abandoned hope of finding the old "prairie cart" which, when last heard of, was in Hollywood.

Making regular trips west from Pierre until completion of the first South Dakota railroad in 1907, the coach was taken to Philip, S. D., by Gus Stoermer, its former driver. He opened a livery stable and retired the stage as a curio.

A few years later the coach was sold to be used in a wild west show. Finally it was shipped to Hollywood, where it was used in films featuring Bill Hart, Tom Mix and other western heroes. Whether it still is being used is not known here.

120, She Walks Daily New Delhi.—"Keep on walking as much as you can, and you will live to be my age." Wilayati Begum, an Indian woman, told newspaper men when they came to interview her on her one hundred and twentieth birthday. She said she still walked three miles a day.

Plan School Pilgrimage to Exposition

L. A. Woods, State Superintendent of Public Instruction, visited the Pan American Exposition in Dallas last week, with members of his staff, and joined with Exposition officials in outlining plans to bring 500,000 Texas school children to the World's Fair before its close October 31. Railroads are running scores of special trains for school children and the movement will also be by automobile and bus. "The public schools of Texas should make the Pan American Exposition a field event this year," Superintendent Woods (right) tells Assistant Director General Frank N. Watson.

MEMORIAL TO DONOR OF OBSERVATORY PLANNED

Austin, Sept. 29.—The McDonald Observatory, on Mount Locke in the Davis Mountains, is already in operation, several observers having begun activities some months ago.

The observatory, built by the University of Texas with a \$1,000,000 bequest from the late W. J. McDonald of Paris, Texas, is staffed by the University of Chicago, under the direction of Dr. Otto Struve, who is also director of the latter institution's Yerkes Observatory.

During the summer, as one of the first steps toward making the reception and consulting room in the observatory a memorial to Mr. McDonald, an inscription containing an excerpt from his will was painted on its circular wall by Paul Pressler, architect from the Brownwood State Park. Mr. Pressler is a graduate of the university department of architecture. The illuminated inscription is painted on the slate-gray wall in tones of light blue, darker blue and terra cotta.

It is proposed that an oil portrait of Mr. McDonald shall grace one wall of this room and that a display case shall contain some of his books.

Football Team Here On Way From Coast

St. Mary's University Winner of Two Games on West Coast

"All's well with the world," might well have been the traveling philosophy of St. Mary's University (San Antonio) football players who stopped in Sonora Wednesday noon for luncheon.

The thirty-two players, as well as a number of others, were on their way from the Pacific Coast where they won two games last week. Yesterday and today they are on their own campus but Monday they are to begin the long journey to Scranton, Pa., for a game with St. Thomas College October 10. The Montreal Athletic Club in Montreal will be their foe October 13.

In California they won from the Santa Barbara Athletic Club and the U. S. Marines in San Diego. They lost to the University of San Francisco.

Tonight the Rattlers, as the team is known, play Abilene Abilene Christian College in San Antonio.

Tony Slaughter, former member of the San Angelo Standard and Times sports staff, is business manager of the school's team and was with the party that stopped here Wednesday at Hotel McDonald.

Reserve Sweaters—

(Continued from page 1)

gram October 25.

F. T. Jones urged that many Sonora people attend the game in Menard tonight when Sonora and Menard high schools play under the lights. The contest begins at eight o'clock. Mr. Jones also called attention to the need of a large number of people at the games in Sonora. The one Friday drew a gate of \$48.90. The Merton team received \$30, officials cost \$15. Miscellaneous expenses had to be met out of the \$3.90 remaining.

Leaving For California City

A visit with her mother and brother in San Diego, Cal., is to be enjoyed by Mrs. Belle Steen who will leave for that place tonight. Mrs. Steen returned this week from a short visit in Austin.

Mrs. Ernest Carroll, Mrs. Pat Carroll and son, Pat, Jr., were visitors in San Angelo yesterday.

Swedish Prince and Commoner Bride

Prince Charles, nephew of King Gustaf of Sweden, with his bride, the former Countess Elsa von Rosen, pictured soon after their recent wedding in Stockholm. By marrying a commoner, Prince Charles lost his title and prerogatives as a member of the royal family, but his brother-in-law, King Leopold of Belgium, conferred on him the Belgian title of prince.

Plain Talk Heard By Texas Lawmakers

Allred Demands "People's Program" Be Carried Out

Austin, Sept. 28.—Warning the legislature in joint session Monday of "false prophets" who declare additional revenues are not needed, Governor Allred urged members "to carry out the people's program" and vote taxes to finance old age assistance, aid to needy blind, dependent children and the teachers' retirement act.

"It's a self-evident fact there is not enough money in the old age assistance fund to adequately provide for our needy old folks," the governor said. "Unless some additional money is put into this fund by January 1st, they are going to suffer even more. You and I are either for or against adequate and additional funds for these old people. I am for it! Where do you stand?"

The governor said that the "people's social security program" needed a total of \$6,926,000 of new revenue. Of this total, the governor recommended two million dollars annually for old age assistance, a million and a half dollars for aid to dependent children and three hundred thousand dollars for aid to the blind. Approximately one and a half million dollars annually was estimated as the state's portion of the teachers' retirement fund. He said the state owed \$1,625,000 on past due old age assistance warrants.

The deficit of the general revenue

fund, according to the governor, exceeded fifteen million dollars and would be increased to twenty million at the end of the fiscal year.

For solution to the tax problem, the governor pointed to his recommendations for increased natural resource taxes; franchise taxes; taxes on the earnings of pipeline companies, utilities and other corporations; and income taxes. He reiterated his opposition to a general sales tax.

FUNERAL MONDAY FOR SONORA LADY'S RELATIVE

Mrs. Tol Rutledge, pioneer West Texas ranchwoman, died at her home in San Angelo Sunday morning. Mrs. Rutledge had been in ill health since March, when she returned from California.

Mrs. Rutledge was born in Rogersville, Tenn., and came to Texas when she was seven years old.

Survivors include four daughters, three sons, one brother and two sisters.

Mrs. Birdie Rutledge was a daughter-in-law of Mrs. Rutledge. Mrs. Jack Wardlaw, a granddaughter, and Mr. Wardlaw and their daughter, Jackie Gwen, and Mrs. Rutledge attended the funeral in San Angelo Monday. Burial was in Sherwood.
