They Play the Game

Everyone loves a winner, if he conducts himself becomingly, and everyone respects a great deal the man who tries, loses and yet takes that loss in a commendable way, resolving to do better next time if humanly possible and not to grieve too much over the loss.

The Sonora high school football team won early-season games in great fashion. The last two have been dropped to teams that have had a marked advantage as to weight—something that counts for much in the gridiron contest.

Tomorrow, and other times this season that the Sonora Bronchos play, Sutton county citizens should come out en masse to see the excellent way in which Sutton boys conduct themselves on the field of athletic battle. Not always winners are they but they do give a good account of themselves each game and when they lose they take it in good spirit and the opposing team knows well that it has been up against a clean, hard-fighting eleven football players.

Bridge Party Friday Honors Mr. and Mrs. Warren

Honoring Mr. and Mrs. W. C. Warren, who will leave for Stillwater, Oklahoma, soon, Mr. and Mrs. G. H. Davis were hosts at a bridge party at their ranch home Friday evening.

Roses and zinnias were placed at vantage points in the home.

An interesting feature of the party was the scrapbook presented Mr. and Mrs. Warren by Mr. and Mrs. Davis and other friends.

Mrs. Davis—the day of the party—gave loose-leaf pages from the book to those who were to be there that evening as well as to several others who know the Warrens. Each couple prepared their page using any method desired. Photographs, reminiscent notes and clippings made up most of the pages. The book was assembled by Mrs. Davis before the party.

Pecan pie and coffee was served after several games of bridge.

Guests attending were: Messrs. and Mesdames W. C. Warren, Earl Lomax, F. J. Wood, J. F. Howell, Libb Wallace; Hix Hall.

Gifts were presented Mr. and Mrs. Warren, the latter of whom won high score for ladies. Dr. Howell received a gift for having men's high score.

Eldorado elementary school pupils are to do battle this afternoon in Eldorado with boys from the Sonora grade school. Last Friday the two played a scoreless tie in Sonora. L. W. Elliott School pupils defeated the elementary school, 20 to 13, Friday.

Money Made at Game

F. T. Jones reported that the athletic association cleared \$85 at the Eldorado game here and that with a good crowd Saturday and at one or two more Sonora games the association's financial difficulties would be greatly lessened.

Fifty per cent profit from the Carnival and Football Queen crowning tomorrow night will go to the association.

A report was made by Dr. Joel Shelton of the welfare committee and by Boyd Caffey, appointed last week to examine the books of the treasurer, W. C. Warren, who resigned recently. The books were declared to be in excellent shape.

Guests were C. P. Alfrey, who recently was appointed manager of Wm. Cameron & Co., Inc., to succeed W. C. Warren; Leslie Nance of Ozona, and J. E. Boog-Scott of San Angelo, an employee of the United States Biologic Survey.

Lighted red tapers supplied a decorative note. A mandolin on a gayly-colored rug occupied a prominent place on the floor near where the young ladies in Spanish costume danced the native dances.

The menu, opposite the program page in a small folder, was written in Spanish. On the front was a pencil drawing of a man holding the Mexico national flag.

Fergus Falls Minn.—Three skeletons, believed to date to a remote era, have been uncovered in Otter Tail county. Scientists are making a study of the bones. They reported the skulls are shaped differently from those of Indians and the eye sockets are much higher in the skull. The jawbones are very heavy and protruding. It is believed that they antedate anything heretofore found in Minnesota.

Children Bad in Good Weather and Vice Versa

Milwaukee.—A study of probation officers revealed that when the weather is bad children are good, John J. Kenney, chief probation officer of the juvenile court, said that juvenile delinquency increased 25 per cent in the first five months of 1937 over the same period of 1936.

In 1936, Kenney said, snowdrifts and zero weather kept children indoors, but in 1937 the winter was so mild that the youths were outdoors much of the time and more of them got into trouble.

Kenney said there always is an inverse relationship between the weather and child delinquency.

Moderate in Cost, Very Practical

Interesting in treatment is this modified colonial design. The living room floor is not on the same level as the rest of the house. Steps lead to the dining room through an arch of wrought iron grill work. The front bedroom is well ventilated and a window in the

back bedroom juts out for its share of the south breeze. The house is considered as being in the \$2750 class with plans and specifications of such nature that they will probably meet with the approval of the Federal Housing Administration.

Thought Needed in Plan For Playroom

Decorations and Appointments Should Be Correct

A child's room should be carefully planned and the utmost effort made to provide assistance in character building, promote pride of ownership and a sense of order which, cultivated during impressionable years, promises beneficial results all through life. Attention paid to the particular needs of the smaller members will save time of the older people. The child's room must be practical, sound-proof, with walls finished in washable material and floors covered with linoleum, cork, rubber, or other material easily kept clean and free from dust. Sunshine, fresh air, satisfactory ventilation, are essential. An adjoining sun porch has many advantages.

If the room is a combination playroom and bedroom, low shelves and cupboards should be built in to take care of toys, books and games. Color should be extensively used, adequate lighting and a cheerful atmosphere provided at all times.

A blackboard will permit the use of bright crayons and provide amusement and possibly encourage early attempts at drawing. Wall coverings are obtainable in many varieties from which pencil marks and other defacements may be washed and even scrubbed.

Furniture should be simple, durable, and of a size to suit the occupants. Rugs, curtains, hangings, must be able to withstand many washings. If possible, a special bathroom should be installed with necessary equipment of reduced proportions, but should the family bathroom be used, a special bench might be provided at the washstand to make the washing of small hands easier and a towel rack placed within convenient reach.

Laundry Tray Helpful Article
A combination kitchen sink and laundry tray is a convenience for the housewife who prefers washing her personal things.

The necessity of going to a basement laundry is obviated when the work can be done in the kitchen, and it is an added convenience to be able to watch a roast or other cooking foodstuff while the work is being done. This laundry equipment may be provided for when a home is being built.

A Hint About Your Shelves
Shallow shelves are most convenient in the bathroom chest. When bottles or jars are placed one in front of the other they are difficult to get at and are very apt to get broken in the shuffle. The shelves should be of graduated sizes to take care of assorted bottles.

U. S. Map-Maker Logs Mexican Roads

Map-maker James D. McClure took to the railroad ties (upper left) from Uruapan, State of Michoacan, to the west coast, in his logging tour of Mexico. Forging the rocky creeks (upper right) was no novelty for McClure, as he pushed his Chevrolet over 75 such crossings in the course of a two-day journey of 48 miles. Straddling a 2 1/4-foot ditch (center) was frequently necessary, too. One of Mexico's first-class highways (left center) provides a beautiful setting for the map-making car. Typical of the scenic wonders in Old Mexico is the view at right center in Haustead Canyon, about 15 miles off the Laredo highway at Monterrey. Sunrise from the summit of the Nevada Toluca road (lower right). Three hours from Mexico City, McClure had gained an altitude of 15,000 feet. "Mexico not only offers scenery of unsurpassed beauty and grandeur, but is friendly and hospitable to tourists," McClure reported. "It is an ideal vacation land."

Vegetable Loaf Can Solve Problem of Many Left-Overs

Ice Box Can Produce Materials For Delicious Dishes If Cook So Desires

Denton, Oct. 20.—Unless there's a dog or a pig pen handy, every cook has the problem of left-overs. A little dab of this and a little dab of that can quickly crowd an ice-box, and most people follow the pointless policy of keeping such scraps a few days and throwing them away.

A vegetable loaf can solve this perplexity, for vegetables, cereals, bread crumbs and meats can be used in this one dish. It can be served either hot or cold, but the sauce is usually served hot. Vegetable water and meat broth may be used for moisture in mixing the loaf and as liquid for the sauce, and if necessary milk or eggs may be added.

Corn Loaf—(six servings)
Drain the liquor from a No. 2 can of corn into a measuring cup and fill the cup with milk to make white sauce. Melt three tablespoons of butter, add three tablespoons flour and stir until smooth. Add the cup of corn liquor and milk. Stir over low heat until quite thick. Add the corn, one cup bread crumbs and two eggs (slightly beaten) to the white sauce. Season with one teaspoon salt and one-half teaspoon paprika. Pour into greased baking dish and cover with one-half cup of crumbs. Dot with butter. Bake in moderate oven 40 to 50 minutes. Serve with cheese sauce. If an onion is used, it should be finely chopped and lightly browned in the

butter used in making the white sauce.

Cheese Sauce
Melt two tablespoons butter. Add two tablespoons flour and stir until well blended. Remove from the heat and add one cup milk. Stir over moderate heat until of the consistency of thick cream. Add one-half to three-fourths cup of American cheese grated or cut into small pieces. Stir constantly over hot water until cheese is melted.

Vegetable Roast—(six servings)
Mash three medium-sized boiled carrots and six medium-sized baked potatoes (peels removed). Mix in one cup boiled rice or grits, one cup bread crumbs and one-half cup left-over fat beef (cut into cubes and browned with one-fourth cup of finely chopped onion). Add one egg (well beaten) and one-half cup beef broth. Season with one-half teaspoon salt and one-fourth teaspoon paprika. Bake in greased loaf pan 40 or 50 minutes. Serve with tomato sauce.

Tomato Sauce
Melt two tablespoons butter or bacon drippings. Add one tablespoon finely chopped onion and cook until onion is light brown. Add two tablespoons flour and stir until well blended. Pour in one cup tomato pulp and juice. Stir constantly and cook until of the consistency of thick cream.

Texas Spinach Crop Enormous

Denton, Oct. 20.—Popeye may well be the patron saint of many people in Texas other than children, since this state leads the nation in the production of his well-advertised power food. Over six million bushels of spinach were grown in 1936, with a total value of \$1,800,000. With Winter Garden, Zavala and Dimmit counties, as the center of this industry, the town of Crystal City has won a name as spinach capital of the world. There is a farm nearby of about 3000 acres which frequently produces more spinach than any other state in the union. The crop is also grown in the lower Rio Grande Valley and around Corpus Christi.

Bulldog Opponent— (Continued from page 1)

opened. Coffey, 195-pound athlete went around end for a touchdown with McKay, a teammate leading perfect interference, Coffey kicked goal.

Sonora March Started

Sonora made four first downs then, advancing the ball to the Junction 32-yard line. A fumble was costly and Junction punted to deep offensive territory. With time for only two plays left in the half a deep Sonora pass was intercepted by Baugh, Junction center who carried it to the 1-yard line.

The half was over but officials ruled that as the ball was out of bounds at the time that one more play was allowable. Coffey went over for the touchdown and goal was kicked.

Sonora defense and offense was much better in the last half of the game. Junction had the ball on the 1-yard line, goal to go, four times during the quarter but the Sonora line held and the ball was not put over. Sonora had to punt, followed a few minutes later by a long, lateral pass, Archer to Elliott to Morris which gained 35 yards. A fumble shortly afterward lost the ad-

vantage gained.

Line Holds Excellently

Play was evenly divided the rest of the half with Sonora never getting into territory where Junction was threatened greatly.

Junction completed many passes with most of its ground-gaining accomplished that way and with end runs. The Sonora line performed in admirable manner, holding the Junction offense time after time.

Those playing Saturday were: Elliott, Simmons, Awalt, Tjerina, Thorp, Driskell, E. Archer, Trainer, J. Taylor, F. Archer, Morris, Bricker.

A line-up somewhat similar will probably be used in the game tomorrow, Coach Adams said. Bricker will start at end and E. Archer at halfback.
