WADING UP AND DOWN MAIN STREET

BY WADE SCOTT

An orchid for us! Miss ROBBIE CLEMONS, SK 2/C, of the Spurs in Cleveland, Ohio, wrote her mother, Mrs. P. A. Clemons, that she is really enjoying The Texas Spur. ESPECIALLY this column. We beamed. In fact, we fairly glowed. Thank you Robbie! Robbie has been a Spar for the last two years, and according to her mother, hopes to be out soon and back in the old home town.

Friday was sure good. Chili weather and we lined up at the counter at COOPER'S CAFE with a good many others who had the same idea. Cooper's stock of crackers and catsup went down quite some.

We had an interesting and unusual conversation the other day with a lovely little person, Mrs. Ira Slaydin who lives three miles west of Dickens and into the office to buy her "talking" pads. Mrs. Slaydin was born a deaf mute and converses with pencil and paper. She finished school at Austin, Texas, and has lived in this vicinity for 27 years. She told us that they own their farm of 330 acres upon which they raise chickens, cows, turkeys, etc.

Boy! We really have some eager beaver Rotarians. Thursday HARVEY HOLLEY, NEAL CHASTAIN, HENRY ELLIOTT and RILEY WOOTEN left town about 10:30 a. m. for the Rotary luncheon. They had to go early in order to beat BILL ANDREWS to the domino table.

BOB WEAVER came after us Monday morning to see that we arrived on time for the big American Legion Barbecue for Service and Ex-Servicemen. Bob said: "We were up all night barbecuing the meat. You should have been with us." Upon arrival at the scene of the barbecue, OLEN ARTHUR informed us that most of the barbecuing the night before was done at -BURLEY GRIMES' house.

Saturday morning, while waiting in line at the Spur Security Bank to get change for a quarter, BILL ANDREWS took me in for an inspection tour. Mr. Andrews is quite proud of their new B. M. Proof Machine, and well he might be! It is a marvel and does everything except make money. MRS. E. L. CARAWAY JR. (Dick to her friends) is a "whiz" on operating this machine. Dick operated one of these machines in a Lubbock bank while E. L. was stationed there at the LAAF. When the Spur Security Bank obtained a Proof machine, Dick came home to Spur. Nice for Dick and fortunate for the bank. Mr. Andrews tells me it's hard for the men to keep their minds on their work with so many pretty girls employed there. Everyone appreciates our strong, friendly, up-to-date bank.

'Tis rumored that R. J. BELL is seriously considering a career in the ring. We do know that he has been "working out" lately.

Poor Response to Victory Loan Drive For First Week

Slow Start Shows Only \$10,000.00 of Bonds Sold

The Victory Loan Drive which officially opened throughout the nation on October 29, has had a slow beginning in Dickens county and the Executive Committee is disappointed by the poor response to the drive evidenced so far.

The over-all quota for Dickens county is \$130,000 only \$10,000.00 of which has been subscribed to date.

Dickens county has subscribed its full quota in every previous bond drive, and it is hoped that this drive will also go over, keeping Dickens county one hundred per cent.

W. T. Andrews is acting chairman of the Victory Loan drive in this county, replacing O. B. Ratliff who has moved to Lubbock. The executive committee consists of O. C. Arthur, Hobart Lewis and W. F. Godfrey.

Spur "E" bond quota is \$25,562.00 and Spur overall quota is \$47,125.00. Chairman Andrews urges that this county consider the importance of supporting this drive. Responsibility to loan our money to our government for the purpose of fulfilling its obligations to those who have been defending it, is that of each citizen who should realize that it is the best way of saving money and keeping inflation away.

LET'S KEEP DICKENS 100 PER CENT!

MRS. PERRY WILL SPEND WINTER IN CALIFORNIA

Mrs. M. E. Perry will leave soon to spend the winter with her daughter, Miss Berta Perry, and her son, James Hill Perry, in Burbank, Calif.

Berta is an employee in the Burbank Post Office. James Hill, who was honorably discharged from the army three weeks ago, has resumed his pre-war position as designer for one of the oldest interior decorating firms of Burbank.

The late Mr. M. E. Perry, who died a year ago, established the first store in Spur in 1909—a hardware and furniture store which he operated for a number of years.

Mrs. Perry subscribed to the Texas Spur to be sent to her daughter, Miss Berta Perry.

Sgt. and Mrs. Jack Senning, and Mrs. Carol Cobb of Lubbock spent the weekend here with their mother, Mrs. Kate Senning. Sgt. Senning is stationed at Lubbock.

Walter Gruben Gives Book Review For Baptist Program

The First Baptist Church observed National Book Week at the regular Wednesday evening service this week, when Mr. Walter Gruben gave a book review of Dr. E. P. Allred's "Cowboys and Coyotes." About 40 people were present to enjoy the review and display of Baptist Church Library books which had been arranged. Mrs. Jerry Ensey was in charge of the program. Refreshments of spiced tea and cookies were served following the program.

R. C. Jones of Stamford was here Tuesday on business. He has two sons who are top notch and expert mechanics and they will be home from the army soon. Both have been in the service for quite some time.

Rotarians were reluctant to adjourn a meeting of unusual interest last week when T/Sgt. Arden Holmes, guest speaker, and Cpl. Floyd Horton told of their experiences in prison camps in the Philippines and Japan.

The guest speaker, Sgt. Holmes, gave an excellent talk on the defense and capture of Wake Island and subsequent hardships suffered in various Japanese prison camps.

Cpl. Floyd Horton told of being taken prisoner on Bataan, spending two and a half years in Japan prison in the Philippines and one and a half years in prison in Japan just 20 miles from Hiroshima where the first atomic bomb fell Aug. 8th. "When the bomb exploded," said Cpl. Horton, "we thought at first it was a severe earthquake." He was liberated Sept. 12 and passed through Hiroshima and said that for nine square miles not a single building was left standing. When he left a month and four days after the bombing, Japanese doctors were still coming to their American camp for advice on treatment of unfamiliar and unusual symptoms shown by patients suffering from effects of the atomic bombing, he said.

At the opening of the meeting a moment of silent prayer was observed in honor of Lt. Ray Dickson Jr., son of R. E. Dickson, Rotarian. Lt. Dickson was killed one year ago on that day, in the service of his country.

The Rotary Club received a letter of appreciation from former Rotarian, Bill Turner of Angleton, thanking the club for its fine letter of introduction sent to Angleton about him.

Coy McMahan, new member, was introduced into the club by Fred Jennings.

President Bob George asked for presentation of all guests and those presented were: Sgt. Arden Holmes by Oscar Kelley; Cpl. Floyd Horton and Walter Horton (ex-Marine recently honorably discharged after two and a half years in the South Pacific) both of Floydada, by their uncle, Olen Arthur; Ensign Bob Weaver by his father, W. R. Weaver; Rilev Wooten of McAdoo; Wade Scott by Bob George; Mr. Payne of Lubbock and Joe Jeffries by Jack Pector; Mr. Gilmore of the Farm Security Board of Lubbock by Pat Patrick; Hobart Lewis by Bill Andrews.

Spur Methodists will be introduced Sunday to their new pastor, Reverend Raymond Van Zandt, who comes to this field from Rule, Texas.

"This is the happiest pastorate I have ever had," said Rev. Hollowell Monday. "There has been absolutely no discord of any kind in the church and my work here has been unusually gratifying to me. We regret leaving some of the finest, most loyal and Christian people we have ever known," he said.

The Methodist Church at Midland has one thousand members and is an imposing edifice valued at \$140,000.

Reverend Hollowell came to Spur from O'Donnell, and before that from Ackerley, staying one year in each of these places and two years in Spur.

Dragons Win Moral Victory Over Spur In 7 to 7 Tie Game

Due to inclement weather, the Spur-Paducah game was postponed until Saturday night when the Paducah Dragons won a moral victory by tying the much-favored Bulldogs with a score of 7-7.

According to Coach Christian there were no excuses to be made, the Dragons just did everything right and the Bulldogs did everything wrong.

The Dragons scored midway of the second quarter when a booming Dragon punt took a crazy bounce and hit the Spur safety. The Dragons recovered. See DRAGONS, back page

John Rollins pays up for the paper for which we thank him. We forgot to ask him if he is a kinsman of our good friend, Ples Rollins, down in Ellis county. If he is we know he is OK, because Ples Rollins is one of the best. He owns a big farm down on Chambers Creek near Italy, Texas, and harvests a lot of cotton and corn, and pecans. Last year he noticed he crows were raiding his pecan trees and carrying off pecans but would be gone only a few minutes and return for more, so he set out to find out what the crows were doing with the pecans. He found they were dropping them in a hollow snag of a tree which had a big hole about four feet from the ground and Ples found 2,000 pounds of pecans at the bottom of the tree which the crows had dropped in at the top and they had rolled out at the bottom. "It was easy pecan picking for me," Ples told us as he brought us in a big sack full of the choice pecans. We are not suggesting that John Rollins bring us in a sack of pecans—they don't grow out here—just a sack of sweet potatoes will do.

Ray Williams, manager of a gin at Girard, and post commander of the local American Legion post, has been in the gin business a long time. In 1920 and 21 he was with a new gin at Colorado City where he married one of the fine young ladies of that town, Miss Skinner. Ray is a jovial fellow and was in the office to tell the new owners that he was right ready and willing to help us all he could in our efforts to give Dickens and surrounding counties a good newspaper. We moved to Colorado City in 1920 and stayed there as a humble printer until 1936. We knew he Skinnners there and must say they were fine people.

Mrs. J. R. Robertson of McAdoo was in the office and paid up for the paper for which we thank her very much. We extend our sympathy to her and her fine family in their bereavement, having just lost their loved one, Mr. J. R. Robertson, her husband, and one of the best men in the McAdoo community. He was an old time settler there, and was well known. Mrs. Robertson said they enjoy the paper.

Mrs. J. H. Jones paid up for the Spur Tuesday evening. She makes her home with her daughter, Mrs. C. C. Childress in the east part of town. She came here from Eastland county 45 years ago and has been taking the paper ever since it started. "I just can't get along without the Texas Spur," she said. "I sure do enjoy the paper and do not want to miss a copy."

G. W. Good has been a reader of his paper for 33 years. He was born down in old Marion county, Texas, and came to West Texas when a young man. He lived in Young county a while and then came to the Spur area—down in Kent county, where he owns a farm. He is 73 years of age and said it was time for him to quit farming, so he came in to put an ad in this paper to sell his farm and expects to move to Spur. "I have been reading this paper for 33 years and just can't do without it," he said. He has only one boy and he has just returned to his home after serving some time in the army. He is Earl Good and is going to farm next year.

FULL EMPLOYMENT BILL
"The Senate Banking subcommittee has voted to report an only slightly changed version of the original full-employment bill to the full committee. But the subcommittee is split evenly on the basic issue involved in the full-employment debate. Senator Wagner and his bloc are firm in what the others interpret as a belief that mere massive spending by the Federal Government will alone solve any future unemployment..."

"It is easy to see why the spenders in the full-employment camp want to believe that spending alone will do the job, then they can agree that they are against any new form of Government control of industry or labor. The fact is, however, that Sir William Beveridge, the inventor of the whole full-employment doctrine as it is now known in the English-speaking world, never believed and does not teach that simple spending can do the whole job. In his detailed and candid survey of the question he offers not a one-way formula for Government intervention... but a three-way formula."

"... In a recent issue of the left-wing paper PM... Mr. Wallace's current full-employment book was reviewed by one of the younger and shrewder of the new labor economists. Mr. Herbert Harris..."

"Mr. Wallace implies that the gap between partial and full employment can be closed merely by additional spending," says Mr. Harris. "This is open to doubt." There follows a faithful statement of the authentic Beveridge doctrine: "Sufficient outlay is only one leg in the tripod of full employment. The other two are (1) regulation of what industry is to be expanded and where it is to be located, and (2) regulation of labor's mobility..."

"In other words, Mr. Harris says what Sir William has already said... To ask for full employment while objecting to... extensions of state activity is to will the end and refuse the means..."

A Lucky Nation

A striking fact of the tumultuous war years through which we have just lived, a fact which no one can truthfully deny, is that the people of the United States wanted for nothing. They kept more than twenty million autos running. Their homes remained brightly lighted and well heated. Their diet, in spite of griping, was nothing less than abundant. They had plenty of clothes and plenty of luxuries. The families of men in service were, by and large, the only one who had the vaguest notion of the horrible sacrifice and destruction being endured elsewhere. This is not a criticism of the home front. It is merely stating facts. It was because of continuing high living standards that we were able to turn in a war production miracle.

It is worth reflecting upon the reasons for the maintenance of such high living standards. Of course, there was rationing and price control to insure stability. There were also hundreds of thousands of miles of paved highways, railways, countless fleets of trucks, trains, planes, ships; there were countless business organizations, manufacturing plants, and millions of individual producers topped by a mass distributing system of hundreds of thousands of retailers. All of this vast activity functioned with clock-like precision. Temporary stresses and strains were absorbed without hitch.

Now that the war is over, we can begin to appreciate this intricate machine. What it did in war it can do on an even greater scale in peace, providing we don't underestimate its ability and turn to paternalistic government in a futile search for perfection.

Government Medicine

The impact of federal compulsory health insurance would be felt in many ways by the public, not all pleasant. For example, a high public official, while on a Western mountain climbing expedition, sprained his ankle. He visited a surgeon in a nearby town and was firmly told the clinic for indigents was farther down the street. The doctor evidently believed he was destitute, and since facilities for the care of such persons were available nearby at public expense could see no reason for burdening himself with the matter.

As government medicine spreads, cases of this character will become more and more numerous. No longer will people be free to go to the best doctor they can find and lay the financial cards on the table and expect to get the best care available regardless of immediate ability to pay. In this respect, state socialization of medical care would be a boon (if they want to take advantage of it) to doctors who heretofore have contributed large percentage of their time giving the same personal care to those who cannot pay as to those who can pay. This, it would be a boon providing state medicine as described by the planners would do everything it is supposed to do. But it won't. There would probably be millions of people "left out" because they did not now left out of the social security system for one reason or another. And of course these lost souls will have to be taken care of in the future as in the past—by the individual doctors whose responsibility is not confined to a set of rules.

JOBLESS INSURANCE

"The Senate Finance Committee has finally approved the bill, after pulling several of its teeth, and sent it to the floor..."

"Senator Kilgore, with Senator Mead as his lieutenant in the battle, will probably fight for the original measure on the floor, and try to clear up some of these misconceptions about it: "The Kilgore bill does not say that everybody out of a job ought to get \$25 for 26 weeks. That's merely the maximum that could be paid anyone. No unemployed person could receive more than two-thirds of his former weekly earnings. Far from nationalizing wage scales, the payments would vary in various sections of the country in proportion to wage scales prevailing in any given area."

"The Kilgore bill does not try to nationalize state controlled programs. In the first place, it is a time-limited measure that leaves administration entirely to the states, with the usual obligation on the worker to accept any reasonable job offered him..."

"It is true that more than half the states have increased or extended jobless payments in the last year, and that the large majority of war workers are being demobilized in states paying fairly liberal benefits. On the other side of the argument lies Federal responsibility to bear a part of reconversion cost, especially where reconversion creates sudden unemployment, for the same reason that it carried the war's cost."

"Mr. Truman called the Kilgore bill 'sound business.' It is also democratic business to give the army of workers who fought the home front Battle of Production a decent break until our peacetime life is stabilized."—Sept. 17, St. Louis Post-Dispatch.

THE DRAFT

"Senator Burton, of Ohio, speaking effectively in the Town Meeting of the Air... would oppose adoption now of compulsory military training for all American young men. He would oppose indefinite extension of the draft. But he sees the urgent need of meeting the military requirements of occupation, and he considers continuation of selective service for a limited period the best way of doing so. In his position he was seconded by Baukhage, the radio commentator."

"The opposition, represented by Sen. Johnson, Colorado, Democrat, and Representative Brown, of Ohio, insisted, first, that the War Department is aiming at a much larger army than will be needed for occupation purposes, and second, that the men actually required can be obtained by offering greater inducements for volunteers."

"But Sen. Burton wanted to know just what authority would be accepted, if not that of the War Department, as to the size of the Army?..."

Occupation is a military job, with important political aspects... Conditions change... "The Army unquestionably has been yielding to some extent in the public demand for a speeding up of discharges. It probably will be scaling down its demands for the Pacific... But it is too early yet to be assured that we can risk doing away with the draft, though we agree that greater efforts should be made to increase volunteering."—Sept. 15, The Birmingham Age-Herald.

THERE'S NO YOU

I feel the autumn breeze,
It steals 'cross my pillow as soft
as a will-o-the-wisp,
And in its song there is sadness
because
There's no you.
The lonely autumn trees,
How softly they're sighing, for
summer is dying,
They know that in my heart
there's no gladness because
There's no you.
The park that we walked in,
The garden we talked in,
How lonesome they seem in the
fall,
The stormy clouds hover,
And falling leaves cover our favorite
nook in the wall.
In spring we'll meet again,
We'll kiss and recapture the
summertime rapture we
knew,
And from that day, never more
will I say
There's no you.

ALL IN FUN

Wayne: May I hold your hand?
La Nelle: No thanks, it isn't heavy.

Dewie: Clever men never think of being rude to their wives.
Deane: Clever men do not have wives.

Doyal: Have you noticed the latest thing in men's clothing?
Glen: Yes, women.

Norman Cornelius Recommended for Heroic Action

Norman W. Cornelius of Spur, who received his discharge from army Wednesday, was cited for heroic action by his commanding officer and received the Soldier's Medal, as per the following recommendation:

1. Recommend that T/5 (then Pfc.) Norman W. Cornelius, ASN assigned 560th Deplacement Co., be awarded the Soldier's Medal for Heroism, at Marina de Pisa, Italy on 21 May 1945.

2. At about 1945 hours, 21 May 1945, T/5 Cornelius, without consideration for his life and safety and cognizant of the danger of other mines, plunged into the thickly wooded area in the direction of cries for help and came upon an American soldier and an Italian woman, lying wounded from the mine on the ground. After shouting for the Sergeant of the Guard and an ambulance, he then proceeded to administer first aid to the injured couple, which included applying a tourniquet on the soldier's leg, which had been bleeding profusely. As a result of his prompt and courageous action performed voluntarily, which saved the life of his fellow soldier and an Italian civilian woman; nearby soldiers inspired by his courageous action and devotion to duty, volunteered to assist him in removing the wounded soldier and the Italian civilian to the ambulance.

T/5 Cornelius' heroic action is in keeping with the finest traditions of the military service, and reflects great credit upon himself and the Army of the United States. He entered service from Lubbock. Signed: William K. Pfbaum Jr., Commanding Captain.

Mr. Cornelius arrived in Spur last Thursday from San Antonio.

Col. Terral Wright Home From Luzon

T/Cpl. Terral Wright, son of Mr. and Mrs. "Red" Wright, recently returned to the States and Spur from extended duty on Luzon. Among things he had to say concerning Luzon was the pitiful conditions of many half-starved Philippines on the island who would stand quietly and watch the American soldiers. According to Cpl. Wright, most of the American boys there were in not too robust condition themselves from sharing the greater part of their rations with the Philippines.

At one time Mr. and Mrs. Wright had six boys and two son-in-laws overseas. At present Pvt. Wilburn Lawrence Wright is the only one who has not returned to the States, and he is expected home in December.

Herman and Woodward, two other sons, are stationed at Fort Worth.

J. P. Wright, veteran, is here in Spur assisting his father in his general contracting business.

Mr. and Mrs. Sam Chapman, who spent last week here with his mother, Mrs. M. W. Chapman, left Sunday to return to their home in Vallejo, Calif. They went home via Amarillo where they visited Bauman and Willard Chapman.

Emory Shugart of Denver City is visiting his parents, Mr. and Mrs. W. F. Chapman.

Mrs. Charles C. Thompson, organist, played the pre-wedding and the wedding music.

Given in marriage by her father, the bride wore a plum wool dress, fashioned with a low scalloped neckline and long sleeves. For something old and borrowed she wore an antique cameo locket and amethyst earrings belonging to her mother. Her hat was a green velvet one pillbox covered with purple, gold and fuchsia sequins. Brown sandals trimmed in gold studs and a corsage of purple orchids completed her ensemble.

Mrs. C. T. Hunter, San Diego, Calif., attended the bride as matron of honor. She wore a black long sleeved wool dress with a pink feather hat and a corsage of pink pom-pom chrysanthemums.

Mrs. Sherwood attended Texas Christian University, University of Oklahoma, and received the degree of Bachelor of Journalism from the University of Texas. She is a member of Phi Mu, national social sorority and is a former member of the Texas Spur editorial staff.

Sudden Heart Attack Fatal to Mrs. Nona Starcher's Sister

The many friends of Mrs. Nona Starcher were shocked to learn of the sudden death of her sister, Mrs. W. R. Snow, one of the most prominent and universally loved residents of Abilene, who died of a heart attack enroute to Dallas Saturday.

Mrs. Starcher and Mrs. Snow were driving to Dallas to visit Captain and Mrs. H. E. Speer. They were four miles out of Ft. Worth when Mrs. Snow gave evidences of undergoing a heart attack. Mrs. Starcher stopped at a roadside cafe and phoned for an ambulance and asked some soldiers to help her sister. They gave Mrs. Snow artificial respiration, and she was put under an oxygen tent when the ambulance arrived but it was believed that she had passed away just a few minutes before the arrival of the ambulance.

She was taken to the Methodist hospital in Ft. Worth where the Laughter's Funeral Home of Abilene received the body and returned to Abilene.

Funeral services for Mrs. Snow were held at the First Baptist Church at 3:00 p. m. Tuesday, with Dr. Atwood and Dr. Jennings officiating. Hundreds of loving friends contributed one of the largest floral offerings ever witnessed in Abilene. Those who attended the services from Spur other than Mrs. Starcher, were: Mrs. M. C. Goldin, Mrs. C. B. Chandler and Miss Lillian Ray.

Mrs. Snow was born January 9, 1891, in Edmund, Okla. Known as Miss Mae Caglia, she had degrees from Decatur Baptist college, NTSTC at Denton, Baylor University and did post graduate work at Columbia. She secured a Teaching certificate at the age of 15 and taught school at Krum, Texas. She was a teacher in Matador school for two years.

She was married in San Antonio in 1917, and she and Dr. Snow moved to Abilene in 1923.

Mrs. Snow and Dr. Snow both known as beloved philanthropists of Abilene, had helped finance 35 young men and women through universities, and messages of condolence were received by her family from many distant points, including a telephone call from a young man in the Panama Canal. Mrs. Snow was a devout Christian and it was said of her that no one could meet her without being uplifted mentally, spiritually and physically.

Mrs. Snow is survived by her husband, Dr. W. R. Snow; two daughters, Nona Mae and Mary Elizabeth, all of Abilene; one son, Joe Caglia Snow, Harvard University, one brother, W. F. Caglia of Ft. Worth, and one sister, Mrs. Nona Starcher of Spur.

Mrs. O. W. Young, Mrs. W. M. Hazel, Mrs. Tommie Ceal and Mrs. Turbin spent Tuesday in Lubbock.

Garlan Chapman of the Marine Corps, is here this week visiting his mother, Mrs. M. W. Chapman enroute to Corpus Christi where he will be stationed.

Two Ex-Servicemen Have Positions With Spur Safeway Store

After an absence of three years, Clyde Walthall Wednesday became again the manager of the Spur Safeway store.

Mr. Walthall was formerly manager of the Safeway, moving from here in 1942 to San Angelo and later to Winters where he was inducted into the Navy. He served two years with the Naval amphibious forces and saw duty in the States and in Pearl Harbor. He received his discharge from the Navy at San Diego in October and returned to Spur last week.

Mr. Walthall is living at the Spur Inn at present. His wife and family are staying in Abilene until living accommodations in Spur can be found.

Safeway Wednesday added another ex-serviceman to its staff when Edward Caudle took up his duties there.

Mr. Caudle was honorably discharged from the Army Oct. 20 following his return from twenty months of overseas duty in England, Germany and France. As Sgt. Caudle, he was a radio operator in the ground forces of the U. S. Army Air Forces.

Mrs. Caudle, the former Miss Bobbie Lawrence, has lived in Spur with her mother, Mrs. Mona Mary Lawrence, during the time Mr. Caudle was in the Army.

Mr. and Mrs. Sam Chapman, who spent last week here with his mother, Mrs. M. W. Chapman, left Sunday to return to their home in Vallejo, Calif. They went home via Amarillo where they visited Bauman and Willard Chapman.

Burdon Smith and Norton Barrett were in Stamford Sunday.

Former Students Visit Spur High

Several familiar faces around S. H. S. which hadn't been seen in quite a while were seen last week, when some former students came back to visit us, if only for a few minutes.

Tommy Towles of the U. S. Navy was home for a few days because of the death of his mother. We extend our sympathy to Tommy, and wish him luck.

Alfred "Soupy" Walker, U. S. Army, is home on furlough for a few days. We're certainly glad to see you, Soupy. Make yourself at home.

Donald Delisle came down from Colorado, where he lives now, to visit for about a month. We're sure to be seeing Donald up at school quite a bit. Don't you imagine?!

"Sonny" Cato, who lives in Lubbock now, came down last week and honored us with a visit. Wasn't it good to see his shining countenance once again?

J. T. Franklin, who received his discharge from the Navy and plans to enter a technical school in Schenectady, N. Y. when he gets his high school diploma, has enrolled in S. H. S. for the courses necessary to graduate at the end of the school year. We are glad to welcome you, J. T., and we hope you like your work.

Junior High Echo Begins Next Week

Beginning next week, the Spur Junior High school will have a column every other week in this paper entitled "Junior High Echo." A staff has been elected to compile the news and the young newspaper fledglings are already "in the groove" and rearing to go. Watch for it!

My Head Is In The Clouds

I was sitting in World History trying to concentrate on what was being said. But somehow I couldn't and all of a sudden, I saw the campus of S. H. S. on the door in bright red letters (I see the pupils haven't changed much) was Sophomores—1955-56. The door opened and out came Joe Max Barclay and his wife, Donno Jean Wright. They were on their way to Europe. They asked me to go, and naturally I said "Yes." We stopped over in New York to see the annual game between Coach Ju Don Rickel's Stinkeroos and Coach G. W. Simmons' New York Blowhards. G. W. is a confirmed bachelor. And poor Ju Don hasn't made up his mind just yet. Bobbie Stanley is majorette for the New York Blowhard's band. I asked Joe Max where Ju Don Rickels was and I was amazed to hear that he was probably home doing last night's dishes. Mary Olive, Ann, Creola, and Virginia were in the crowd, screaming and yelling for the little man in front of them. He was nearly beaten to death. At a second look, I saw Preston Bennett. Preston has never married, but he's left a trail of broken hearts all across the country. Pike Robinson was there with a portable radio, trying to listen to Donnie Scott's "Hour of Fun." As we drove down Broadway I saw Seegar Jenkins' name in lights above the Bijou theater. He is a famous comedian. Our ship left that night. The voyage over was uneventful until the last day. Then we found out that our Captain was none other than Billy Ray Ballard. We were met at the pier by Trinia Mae Taylor and Tommy Conway. Winona Wilson and Evelyn Barclay do a sister act in a night club in London. The name of it is "Olga Bring the Vodka." They stay with Genevieve Pior who runs a theatrical boarding house. The next day we visited Oxford. Juanell De Graffenreid and Ernestine Berry are both there. They have a dancing studio. We were just about to visit Doris Blakely, who is a great teacher of History, when the bell rang and I realized I had only been dreaming.

ALL IN FUN

A boy in the natural history class was asked to describe a skunk. A skunk, he wrote, is a small animal with a bushy tail and a white stripe down its back. It looks like a cat and is quite beautiful. But it eats asparagus.

A tailor, annoyed because he had to wait several months for an order, wired the manufacturer: "Cancel order immediately." Back came the response: "Regret cannot cancel immediately. You must take your turn."

Mrs. Hays: "Now, remember men, statistics don't lie. Now, for example, if twelve men could build a house in one day, one man could build the same house in twelve days. Do you understand what I mean? Leland give me another example."

Leland: "You mean that if one boat could cross the ocean in six days, six boats could cross the ocean in one day?"

Jane Brannen and Dewie Watline Berry are re-kindling that old romance.

Barbara Ford has been driving a good looking convertible around—Influence, girls!

Joyce Williams is beaming lately, her "dreams are getting better all the time."

Trinia Mae! Those ideas of yours—he's too small.

Ann Hull and Ju Don Rickels are on the SHSSL (steady list). Congrats, kids!

Bob Steele and Virginia McNeil have been seen together pretty often lately.

What was Tommy Conway doing with Creola Rector's I. D. bracelet the other day? Winona, you are slipping!

Ann McKinney has found a man—guess who?!

What is this we've heard about parked cars at the Y the other Sunday? Do girls always go without shoes out there?

Why had Mafai rather play football on a sandy road than eat? Could it be Deane's influence?

Autrey Nell has a "mysterious" boy friend one who sends her bears (not real ones).

Wonder what Johnnie Helon really thought about David going with Tillie?? She really must have been upset or she wouldn't have written that note to him.

Basketball News

The basketball girls are coming right along this year having played, and won, a game with the Patton Springs girls. In the first squad game, Spur beat Patton Springs 16-10. The second squad game was a 27-27 tie. The girls will go to McAdoo soon to play, and then will go to Patton Springs and return their game.

Blue and gold suits have been ordered for the team, and it is hoped that they will be here soon.

The Spur girls are working pretty hard and are really enthusiastic about their games. They would surely appreciate a large crowd, so how about giving them your support? You will enjoy the games.

BARBECUE BE SPONSORED BY FARM BUREAU AT SPUR GYM WEDNESDAY, NOV. 21

Every Individual, Whether Member or Not, Urged to Attend

The Dickens County Farm Bureau announces a big county-wide barbecue to be held at the Spur school Gymnasium on Wednesday evening, November 21.

Floy Watson, president of the bureau, said the barbecue would be free and all members are urged to be present, and others are cordially invited.

At that time a business meeting of the bureau will be held to ascertain the opinion of the members and other interested citizens on the proposal to organize a Cooperative hospital in Spur.

Mr. Watson and a committee of others were in Amherst recently to look over the South Plains Cooperative Hospital Association plant there, and they came away quite enthusiastic.

The proposal will be thoroughly explained at the meeting November 21. Mr. Watson hopes to have Mr. M. C. Jaynes, expert with the A. & M. College Cooperative Extension Service, here

to explain the setup and the proposition, as proposed. Other leaders in this work will also be here, Mr. Watson said.

Everyone, whether interested in the hospital plant or not, is invited to attend, and no one will be put under any pressure to support such proposal, but all are invited to air their views on it.

"We believe the plan is a great thing for any community, and went to look into its possibilities thoroughly and get the ideas of the citizenship of the county," Mr. Watson said.

And too, a fine barbecue feed will be given all who come and the fellowship will be enjoyed. Business men, citizens in every profession are invited. You do not have to be a farmer to attend this meeting. Everybody will be welcome, Mr. Watson said.

Estelle McLaughlin Is Elected W Club Member at ACC

ABILENE, Oct. 31—One of the outstanding honors accorded to young women on the campus of Abilene Christian College, Abilene, Texas is the election to membership in the W Club, founded more than a quarter of a century ago by the late Mrs. Jesse P. Recently attaining that honor was Estelle McLaughlin, daughter of Mr. and Mrs. Charles McLaughlin of Abilene, and 1943 graduate of McAdoo high school.

Miss McLaughlin was inducted into the club at a formal initiation in the parlors of Zellner Hall on the ACC campus, at which time the significance of the W in the name of the club was explained to stand for "Worthy Women," and ideals of the club stressing scholarship, leadership and character were set forth to the initiates as goals worthy of all young women.

James T. Franklin Recently in Tokyo Now Spur Civilian

James T. Franklin (formerly S-1/C) has returned to Spur as a civilian after serving four years in the Navy from which he recently received an honorable discharge. Mr. Franklin served on the famed USS Iowa from the time it was commissioned in February, 1943, until it anchored in San Pedro, Calif., in October, completing its saga of "From Brooklyn to Tokyo and back in three years."

Joining the navy in 1942, Mr. Franklin took his boot training at Great Lakes Naval Training Station and saw his first sea duty in the North Atlantic when his ship, USS Iowa, carried President Roosevelt to North Africa for the Teheran Conference. From the North Atlantic, James went through the Panama Canal to the South Pacific where his ship engaged in the Marshall Islands, Caroline Isles and New Guinea campaigns; operated in Marianas and around Tinian with bombardment of Saipan, and the first battle of the Philippine Sea. Mr. and Mrs. Loyd Ball Buy Helpy-Selfy Laundry Plant Here

Mr. and Mrs. Loyd Ball, who have lived in the vicinity of Spur most of their lives, have announced the purchase of the former Henderson Helpy Selfy laundry, and assumed charge Monday.

Mrs. Ball, in the office to leave an advertisement for the laundry, said they have ten good machines, and usually there is no waiting period. In other words they have enough machines that any customer can get a machine quickly and get the work done quickly. They have everything arranged for convenience and plenty of hot water for every customer.

Mrs. Ball invites the ladies to do their laundry at their plant where the machines are ready and waiting.

Mr. Ball, a veteran of this war, has recently received his honorable discharge from the Army, and his many friends welcome him back, and are glad to see him enter business.

Zone Masonic Meet Tuesday, Nov. 13

MEMPHIS, Nov. 6—One of the largest gatherings of Masons of the lower Panhandle in years, is anticipated by the Memphis Lodge on Tuesday night, Nov. 13, when the Texas Grand Master, Bascom Giles of Austin, will be the honored guest at a zone meeting here.

"Masons in this area are indeed honored!" said W. B. Hooser, worshipful master of the Memphis Lodge, "in having our Grand Master present and we hope every Mason in this area will take advantage of the opportunity and be present."

An invitation has been extended all Lodges in the lower and east Panhandle, from Vernon on the east to McLean on the north, to send as large delegations as possible and participate in the program honoring the Grand Master and hear his message.

P. L. Vardy Jr., of Turkey, District deputy grand master, and N. W. Durham of Memphis, Grand Marshal of the Grand Lodge of Texas, are assisting Hooser in the arrangements for the zone meeting, which is scheduled for 7:30 o'clock.

It is the grand master's only scheduled visit in this section and for that reason members of the Memphis Lodge are hopeful of a large attendance from Lodges throughout the area.

Miss Jackie Rector, daughter of Mr. and Mrs. Jack Recor, came in aturday morning for a brief visit with her parents. Jackie is a freshman at T. S. C. W., Denton, and had to leave Sunday to be back in Denton for Monday morning classes.

"IS THAT IN THE RULE BOOK?"

Whether it's football or business, Americans expect fair play all down the line.

In football, the referee is there to see that the game is played according to the rules. But he's not supposed to run with the ball.

In business, the referee is the government, which establishes regulations and fair practices.

But when government goes into business and competes with its own citizens, the American tradition of fair play is set aside. The referee then becomes a player, and he enjoys advantages that are denied to all the other players in the game.

Government-owned electric power systems, for example, pay no taxes. When they need capital, they get your tax money at little or no interest from the U. S. Treasury. To cover operating losses—an accepted political condition—you, as a taxpayer, will take care of that.

Business-managed power systems—unlike tax subsidized political methods—do not have these special privileges. They are not tax dodgers, they pay their full share of taxes, pay fair interest on public loans. Fortunately for you and your tax bill, over 80 per cent of all the electric power in this country is produced by tax-paying, self-supporting electric companies, owned and operated by several million folks like you.

Girard Woman Is Seriously Injured in Car-Truck Collision

Injuries were sustained by Mr. and Mrs. S. E. (Pete) Sherrill and their two children of Girard, when their car was struck about 7 o'clock Saturday night by a truck driven by a Mexican. The Mexican, unhurt by the collision, was charged with drunken driving by an examining trial held in Jayton the following day, and is being held for trial. The wreck occurred west of Girard near the Kent county line.

Most severe injuries were suffered by Mrs. Sherrill, who was thrown partly through the windshield causing an extensive head cut as well as cuts about the face and neck. Mr. Sherrill suffered a neck injury; Sandlyn Sherrill, a lip injury and Jimmy, youngest son, sustained a fractured leg. The collision victims all were suffering from shock and bruises and were brought to Nichols General Hospital in Spur immediately following the wreck.

Sandlyn Sherrill was able to go home the next day, but the other members of the family are still hospitalized. Their condition is favorable.

DRAGONS—the ball on the Spur one-year line, and on the next play carried over for the first score. The try for point was good. Paducah 7, Spur 0.

The next quarter was a see-saw affair. Midway of the fourth quarter Barclay threw a pass intended for Watson which was batted around by two Dragons. When the ball finally came to roost it was in the arms of Watson who scampered the remaining 35 yards for a touchdown. Wright converted, tying the score 7 to 7. The remainder of the game was uneventful.
