BIG CROWD ATTENDS AMERICAN LEGION BARBECUE AT DICKENS

Money Derived Will Help Complete Hut Construction

A large crowd attended a barbecue given Monday evening by the Dickens American Legion Post at the Legion hut in Dickens. A crowd estimated at approximately 250 people enjoyed the delicious West Texas barbecue served by Legion members. About \$115.00 was derived from the event that will be used to complete construction of the Legion Hut.

The Dickens American Legion post was organized last October and has a membership of thirty-three veterans. Most of the members live in the Dickens community while a number are from the Glenn and Dumont communities. Officers of the post are: Carl Baker, Commander; W. H. Hamil, Adjutant; John Sharp, Vice Commander; E. V. Arthur, Chaplain; Earl Murchison, Sergeant-at-arms; J. L. Green, Post Historian; F. H. Bostick, Finance Officer; L. J. Varnell, Jr., Service Officer and Ira Copass, Child Welfare officer.

The legion meets at the hut, located on a hill just east of Dickens. Meeting date is every first Monday and considerable interest is being shown in activities of the organization by its members.

The hut is a one-room building of native stone construction and, when completed, will contain a shower room, a stage and other facilities necessary for an adequate meeting place. The interior of the building is also of native stone. The hut was built under the sponsorship of the city of Dickens and is used by Boy Scouts as well as the American Legion. The Legion post is sponsors of the Dickens Boy Scout troop.

At the meeting Monday night, the legion officers expressed regrets for the illness of C. C. Haile of Afton. Mr. Haile recently donated a line-bred Hereford bull from his registered herd, to the Dickens American Legion post and the Spur American Legion post to be auctioned. The officers also expressed appreciation to those who helped to put the barbecue on Monday and for those who attended.

Work on a concrete floor for the hut is now underway and money derived from the barbecue will be used for this purpose, it was pointed out.

Beauties Of Area To Compete For Cash Prizes

Spur merchants are being urged to select their sponsors for the Spur Cowboy Jubilee to be held here June 5-6-7, according to members of the Rodeo committee, at a meeting held Wednesday night. Some merchants have already selected girls to represent their firms in the gala event, but some others have not yet done so, according to Bob Simmons, Chairman of the committee in charge of sponsors.

In the sponsor event, prizes will be given winners and a judging committee will select a girl from Dickens county as a sponsor to represent this county at the Stamford Rodeo. Any girl from the entire area may enter the local sponsor event, and be eligible for cash awards for the winners. Only Dickens county girls will be in competition to go to Stamford, however.

Mrs. Bob Simmons is serving as sponsor hostess for the Jubilee here and those who make selections are urged to contact either Mrs. Simmons or Mr. Simmons.

Keen interest is being shown in the forthcoming event here and large crowds are expected to attend the three-day affair. Advertising posters are being put out over a wide area to publicize the Rodeo and this week windshield stickers will be placed on cars.

Everyone in the city is expected to go western in the next few days, and local business and professional men will blossom out in cowboy regala along with the boys who plan to participate in the rodeo.

Twentieth Century Study Club Raises \$275.00 In Drive

HOUSTON. (Special)—Appreciation to the citizens of Spur, and especially to the members of the local Twentieth Century Study Club, for money raised in the financial drive of the American Cancer Society, was expressed today by J. Louis Neff, Houston, executive director of the Texas Division of the American Cancer Society.

The amount of \$275.00 raised by the Study Club for the drive against the menace of cancer came as a pleasant unexpected surprise to the Texas Division of the Cancer Society.

In a letter to Mrs. P. E. Gollihar, president of the Twentieth Century Study Club, Mr. Neff said: "Please accept our sincere congratulations on the money that you have raised. I think your club will be interested to know that the minimum goal which would have been set for your county on a strictly mathematical basis was \$232.54. On that basis your county has gone over the top without 'organization'. This is certainly something for other counties of the state to shoot at."

and its program, Mr. Doggett made the following statement: "TO WHOM IT MAY CONCERN: Public notice is hereby given of the newly set up NAACP chapter here. First we want to express our thanks and appreciation to the editor and faculty of this paper for space in this column. As chairman of the Interracial committee of the Spur chapter it has fallen my lot to publish this notice calculated to iron out some wrinkles put in the fabric of our operation by erroneous rumors circulated by over-scrupulous persons. Perhaps through misunderstanding. However the case may be the main purpose of this notice is to let the Spur citizens know our exact position as the colored part of this city. We feel that we are enjoying equal protection of the law and we are happy to note that our white neighbors in the past have always proven to be friendly to our minority group so as to give every possible cooperation for the mutual good of all. May I say without flattery or exaggeration we are not in the least unmindful of this fact that through the eighteen years I have been in Spur we have been able to depend on these loyal white folk who not only helped with their dollars, but with their presence and influence in our every worth while movement, in our churches, our schools and even our lately built Lodge Hall. So we see nothing in this vicinity upon which the energy and resources of the organization need be spent. But in the great south land it is needed so the motive here is not to seek some strong outside individual or group of individuals or organization for protection. We already feel secure when properly behaved but one thing we are seeking and that is to prove ourselves worthy of this and other considerations which may follow. "The National Association for the Advancement of Colored People is not new but has thirty-eight years of history to its credit. Its national president is Mr. Arthur B. Spingarn. Its headquarters is located at 20 West 40th Street, New York 18, N. Y. President of the local chapter is Rev. J. L. Norris' Secretary, Jesse Sweet and Chairman of Interracial Committee is John Doggett. This organization has branches in 44 states of the union and the Dist. of Columbia including a membership of 700,000. Its Annual conference convenes in Washington, D. C., June 24 to 29 inclusive. Its purpose is to fight injustice in courts when based on prejudice, to pass protective legislation in state and nation, to defeat discriminatory bills, to secure the vote for the negroes and teach its proper use, to stimulate the cultural life of the negroes. "In conclusion an illustration of the work of the NAACP is the Herman Sweat case handled by NAACP attorney in Austin this week. According to the latest bulletin this organization stands 100 per cent for law and order and its membership is already being enjoyed by some prominent whites who have proven to be some of the organization's best boosters. So the bars are down to our friends and co-workers for the mutual good of both races." —JOHN DOGGETT, Chairman, Interracial Committee.

Mr. and Mrs. T. D. McKinney left this week for a two weeks vacation. They will first visit in South Texas with a son and from there they will enjoy a tour of the Ozarks. Mrs. Lee Hindman returned Saturday from El Paso and Las Cruces, New Mexico where she had spent a few days visiting. Several Spur people were in Matador to attend the funeral of Roy Burleson, well-known business man of that place who died suddenly there last week. Those attending funeral services from here were, Mrs. Cal Martin, Mrs. P. H. Miller and Mrs. Nell Davis. Mr. Burleson was the father of Mrs. Stafford Forbis of Afton.

Governor Will Not O. K. Appropriations Over Present Revenue

AUSTIN.—Governor Beauford Jester today gave clear indication that he would not approve appropriation bills in excess of the present anticipated revenue of the State for the next two years.

The Governor pointed out that, from the General Revenue, the State is now spending \$88,230,000 for the two-year period.

He called attention to the fact that in his first message to the Legislature he recommended doubling that amount during the next two years, so that teachers could have higher salaries, and so other worthy services of the state could be expended.

The governor said, however, that the per capita school bills recently passed by the Legislature would absorb 51 million dollars of the funds available for spending. The Governor favored higher salaries for teachers but opposed the method advanced by the per capita bill, characterizing it as inequitable, inefficient, and improper.

The governor said today that since the Legislature had seen fit to pass the per capita bills, thereby absorbing a substantial part of the funds available for expenditure, it would doubtless be necessary for him to oppose certain other appropriation measures now being proposed, if he is true to his promise to the people that no new taxes would be imposed upon them. "I proposed a 100 per cent in-

crease in appropriations for State services. That would keep us within the revenues available. Now proposals before the Legislature would increase those expenditures of the people's money to several times that amount," the Governor said.

"I cannot approve such action. The Governor may have been wrong last summer when he told the people that there should be no new taxes during the next two years. But the people of Texas by an overwhelming vote said he was right," the Governor continued.

"I would certainly fail in carrying out the mandate of the people if I advocated still additional millions of expenditures over those already presented by me and if I approved the suggestions for a huge new tax bill to pay these appropriations."

Truett Hutto returned Saturday night from Fort Worth and Dallas where he had been to attend an agents meeting of the Bankers Life Insurance Company. Friday the group enjoyed a luncheon at the Adolphus Hotel in Dallas.

Miss Ida Mae McClure, Area Girl Scout Executive spent a few days in Spur this week to meet with the local troop leaders and members of the Board to discuss a Day Camp to be held here during June.

Clyde White of the Dumont community was in Spur Tuesday attending to business.

TEXAS STOCK FARMER FEATURED IN NATIONAL ADS

The typical Texas farm of J. M. Pfluger, San Angelo, Tom Green County, is illustrative material for the fourth of a series of "Master Farmer" advertisements in national farm publications. These pictures of Mr. Pfluger and his farm are appearing currently.

J. M. Pfluger of San Angelo, Texas, well known in farming and stock raising circles throughout the northern part of the state, is being featured in a full-page, four color advertisement in nationally circulated farm publications. The advertisement is the fourth in a "master farmer" series featuring famous American farms and the men who own and operate them. It shows a section of grain sorghum land on Mr. Pfluger's farm northwest of San Angelo. An outdoor portrait of Mr. Pfluger is also shown. The paintings were done by Frederic Teller.

Cotton Up; Hogs Drop On S. W. Markets Last Week

Weak spots showed up all through the farm markets the past few days; but many items strengthened, and only hogs, feeds and corn registered sharp declines, according to Production and Marketing Administration, U. S. Department of Agriculture. Butcher hogs dropped \$1.25 to \$2.50 per hundred for the week, and sows \$1.50 to \$3.00. Closing bulk of good and choice butchers sold at \$22.50 at Texas markets; and \$23 to \$23.50 at other southwest terminals. Sows turned mostly at \$18 to \$22.50. Cattle moved higher at Houston and San Antonio; and weavers and calves gained at Oklahoma City. Other southwest cattle prices receded to slightly lower levels last week. Common to medium steers and yearlings cleared at \$13.50 to \$17.50 at Houston; and \$14 to \$19.50 at

Edna, and sons, Vernon and Gilmore. Another daughter, Mrs. W. L. Keeling, resides in Waco. Mr. Pfluger is a native Texan and has lived in the present locality for 30 years. He was born in Travis County, Texas.

Surplus Property To Be Offered At South Plains Field

Major Robert W. English, commanding officer South Plains Army Air Field at Lubbock, Texas, has announced that a large quantity of surplus property will be sold by invitation bid starting April 28 and ending May 16. Items to be sold include the following: 35,000 pounds of aluminum from salvage aircraft; twelve gross tons of scrap iron and steel; 2000 pounds of scrap plexi-glass; 150, five-gallon gasoline blizz cans. Sealed-bid method will be used and all bids submitted must be accompanied with a deposit of twenty per cent of the net bid. SPAAF will be open to prospective buyers daily Monday through Friday during the sale. All prospective bidders will be allowed to inspect the material before submitting bids. Interested bidders must contact J. E. Rodgers of Post Salvage dept. or E. J. Dresser of Purchasing and Contracting Office. Bids will be opened May 19, and all successful bidders will be notified as soon as possible. Cash deposits will be returned to all unsuccessful bidders.

World War II veterans will get a chance to buy 534 government surplus trailers and trucks at the Red River Arsenal, Texarkana, May 8. Veterans will determine their own order of purchasing by drawing following registration at the sales site. No advantage will be gained by arriving in advance of the sales date. WAA officials pointed out. All of the vehicles will be sold individually to both veteran and other buyers on a fixed price basis.

Government surplus coal helped fill in the gap in mine holiday production in North Texas. Ten thousand tons of bituminous coal was sold to a large distributor through the Grand Prairie re-

Fort Worth. Medium to low good kinds moved at \$19 to \$21 at San Antonio; \$18 to \$23 at Oklahoma City; and mostly \$19 to \$22 at Wichita. Numerous loads of good and choice steers cashed at \$23.75 to \$24 at Denver.

Spring lambs climbed mostly 50 cents to \$1.50 during the week; while old crop lambs and aged sheep held generally steady to strong. Good and choice spring lambs brought \$18.50 to \$21 at San Antonio; and mostly \$20.50 to \$22.50 at other southwest markets.

Hens held firm last week, and fryers advanced to 35 cents per pound at Dallas. Eggs weakened at some points. Egg prices averaged 38 cents per dozen at San Antonio; 39 at Oklahoma City; 40 at Fort Smith, Amarillo, and Fort Worth; 41 at Denver, El Paso, and New Orleans; 42 at Houston; and 43 at Shreveport.

Indifferent trading last week left most grains little changed. Liberal offerings of corn stepped down several cents, however; and oats also appeared in plentiful supply. Corn closed Friday at \$1.90 to \$1.91 per bushel in Fort Worth and Galveston; and oats \$1.03 to \$1.05. Sorghums ranged from \$3.17 to \$3.20 a hundred.

gional office of War Assets Administration. The coal had been stored at Camp Maxey, Paris, Texas, and the sale closes out the last supply of this fuel at that camp.

A forward step in line with War Assets Administration's policy of releasing rented warehouse space in 178 disposal centers was taken when in a single day a stock in excess of \$700,000 value was disposed of out of Disposal Center No. 2 in Fort orth. This made available to private industry by May 1 over 244,000 square feet of closed warehouse space and three acres of open storage space which government agencies have been occupying since the early days of the war. Metal working equipment, including cutting tools and accessories, will be available through sealed bids until May 15, the Grand Prairie regional office of War Assets Administration has announced. The tools are in both unused and used lots and cost the government over \$63,300.

With bidders attracted from as far away as South Dakota, over 700 automotive vehicles were awarded mostly to World War II veterans in a high bid sale conducted recently at the Warehouse of the Grand Prairie regional office of War Assets Administration. Ex-GI's purchased over nine-tenths of the vehicles before the residual was turned over to commercial dealers for purchase. Sold were trucks, trailers, scooters, motorcycles, jeeps and ambulances.

Knocking the knock in Southwestern gasoline will be approximately 1,500,000 gallons of xylidise sold to a New York chemical concern through the Grand Prairie WAA office. This chemical product, stored in tanks at Cactus Ordnance Works at Dumas, Texas, was used during the war in the production of high octane aviation gasoline.

A special three-way bid offering covering 585 surplus aircraft has been announced by WAA. The sale offers 5 aircraft on individual bids, on which no priorities are necessary, nine planes on individual bids on which priority holders will get first chance to buy, and three lots of salvage totalling 481 assorted aircraft. Bids on all three phases of the sale will be opened at noon, May 12.

FIELD DOG TRIAL HOLDS BIG THRILL FOR SPECTATOR

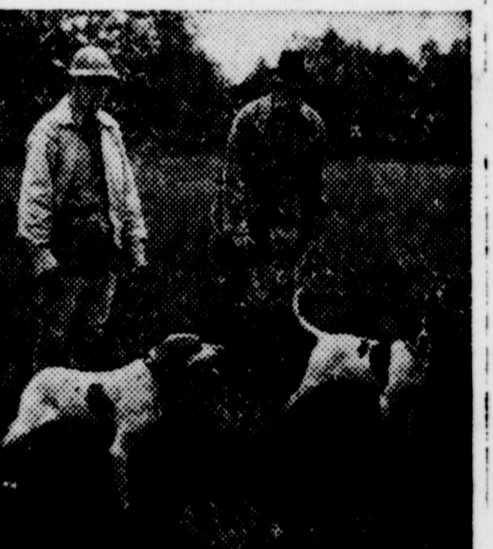

Provides Fascinating Demonstration of Canine Speed, Grace, Precision

Anyone who likes dogs or has an interest in sports will find many hours of relaxation and enjoyment in following field trials, states the Gaines Dog Research Center, New York City.

A field trial might best be described as a public competition for hunting dogs. The main purpose is to encourage and set standards for the breeding and training of better hunting dogs. Aside from its more serious aims, the field trial provides unrivaled recreation for both participants and spectators.

Trials are held for almost every breed of sporting dog and hound on all kinds of small game. There are 27 breeds which are eligible for trials. Some trials limit contestants to representatives of one breed exclusively, as, for instance, Beagle trials in which the game pursued is rabbit or hare. Most retriever trials are open to several breeds such as Labrador, Golden and Chesapeake Bay Retrievers, to name but a few. Entries in bird dog contests are largely made up of Pointers and English Setters, although the entries may include any or all of the other pointing breeds—Irish Setters, Gordon Setters, German Shorthaired Pointers, Brittany Spaniels and Wire-Haired Pointing Griffons. These are used on various upland game birds, such as quail, pheasant, grouse, prairie chicken and Hungarian partridge. English Springer Spaniels, Cocker Spaniels, Brittany Spaniels and several other types of Spaniels are frequent field trial contestants, starring in the role of retrievers. Basset hounds, Foxhounds, Coonhounds and Dachshunds also take part in trials, demonstrating their sporting blood in the pursuit of the rabbit, fox and raccoon.

To sharpen competition, events and entries in a field trial are usually grouped into classes arranged according to several factors. The puppy stake is for dogs not older than 18 months, the derby for dogs not over 30 months of age

Field trial dogs waiting for the "go" signal.

and the all-age for dogs of any age. The members class is limited to dogs handled by members of the organization sponsoring the trial. The amateur class is for dogs handled by non-professionals, and open places no limitation on the handlers. There are also gun-dog or shooting-dog stakes which are for dogs used as all-round personal hunting dogs. Futurities are limited to puppies made eligible far in advance, usually entered before birth. The Winners Stakes are limited to dogs which have placed first, second or third in some previous trial. Championship trials are held to determine regional or national champion.

Field trials are given by clubs or associations of persons interested in hunting dogs. When the entries have closed, a drawing is made to determine what dogs shall run together. This procedure insures that there shall be no partying concerning the time of day a dog runs or what dog shall be his brace mate.

As the dogs work they are followed by their handlers and the two judges, the judges generally being on horseback. The judges determine the pointing dogs on the basis of the best all-round performance. A dog should run with speed, style and class, "class" being the indefinable quality which characterizes a great performer. The way a dog works is the most important factor. He should cover the ground swiftly, but thoroughly, his accuracy in pointing and his really hunting and is not merely out for a romp.

Equipment used by the different breeds. For example, hounds are expected to give tongue and declare their work when on the trail of game. Retrievers are expected to plunge unhesitatingly into the deepest water or the thickest underbrush when commanded to "go fetch" and that has been shot down. Bird dogs are expected to find birds, hold a steady point and "drop" or "back" game made by their hunting noses.

According to the Gaines Dog Research Center, the field trial spectator can expect an interesting and thrilling experience. He should be for hounds, bird dogs or retrievers. No one with sporting blood can fail to be deeply stirred when he hears for the first time "the sweet cry of hounds" or watches the perfect coordination and control of a well-trained bird dog and his handler working together.

Electric Roaster Is Kitchen Handyman

A large chicken, vegetables and dessert may be cooked at once in a roaster. The lid of this model has a glass panel in the top. When roaster is being filled lid may be hooked into handle at end to be out of way.

Whether it's hot dogs, steaks or chops, they can be broiled to a turn in a roaster with a broiler attachment. Lid of this roaster has sliding-cover vents to control the air circulation for browning fowls, roast and broiling other meats.

AN ELECTRIC roaster is a "little range" in itself, according to the Rural Home Editor of nationally-circulated Capper's Farmer. In it, with the use of attachments, food may be steamed, roasted, baked, pan-broiled, boiled or fried.

"A whole meal may be prepared in a roaster," she writes in the magazine read by 1,300,000 farm families. "This might include a roast, vegetables and a hot dessert. Cakes, pies, rolls and bread may be baked the same as in a range oven. Or a large quantity of food such as baked beans to be served to a group may be prepared at one time. It is also useful for canning when using the boiling-water bath method."

"Since the roaster may be used

on any ordinary electric outlet, but not with drop cords and extension cords, it is convenient to use in any home supplied with electricity. For the woman who generally cooks with coal or wood it is especially handy in summertime."

Sound construction is as important in the roaster as in a range. A strong body, heatproof handles, perfect-fitting joints, heavy plating and enameling, all indicate good construction. Insulation on sides and at bottom should be thick enough to retain heat as well as to protect surface on which roaster is placed.

A thermostatic control on a roaster makes it possible to hold temperature at point desired. A timer clock to start and stop cooking is an additional feature with some models.

Texas Cities Asked To Conduct Spring Cleaning

AUSTIN.—A good old-fashioned spring house cleaning in every city and community in Texas would do a great deal toward furthering good health in this state, according to Dr. Geo. W. Cox, State Health Officer, who said in Austin today, "From a practical standpoint the old adage that 'Cleanliness is next to Godliness' is still well worth emphasizing."

A general clean-up program of state-wide proportions with the objective of bettering health conditions for our citizenship should include the surface cleaning of streets and alleys, proper drainage or fill-in of low areas, cleaning all parks and playgrounds and the clearing of weeds and rubbish off of vacant lots.

"The destruction of mosquito breeding places and rat harborage, the proper disposal of garbage and trash and the general cleaning up of all premises will be," said Dr. Cox, "of inestimable value in helping to keep down summer health hazards such as dysentery, typhoid, and poliomyelitis. Good community housekeeping and ordinary sanitary measures require the prompt removal of all waste matter in and around yards and homes in order to abate the danger of such diseases, and insure good health protection throughout the State."

Dr. Cox stressed the fact that many dangerous diseases are filth-borne, and the only possible way to control them is to eliminate the insanitary conditions responsible for their spread.

Annual Homemaking Style Show Is Outstanding

The Homemaking Department of our High school presented its annual style show Monday night, April 28, at 8 p.m. The style show was cleverly presented in verse form with Mary Swenson, FHA president, as narrator. Pink and white bridal wreath adorned the stage. The first scene was a school room where the Homemaking I girls modeled dresses appropriate for school wear. Scene II was an afternoon tea with the Homemaking II girls modeling all occasion dresses. At the camp scene we saw first year girls model play clothes that were made as home projects. The last scene took place in a college dormitory with the second year girls modeling garments of different types as home projects.

Before the style show each dress was judged by the following standards: design, material, workmanship, fit, cleanliness and accessories. The judges were Mrs. Cecil Fox, Mrs. D. J. Dyess and Mrs. R. E. Dickson, Jr.

W. S. C. S. Compliments Spur Seniors With Banquet

The basement of the First Methodist church was fragrant with spring flowers when members of the Woman's Society of Christian Service complimented the Spur high school seniors with a banquet last Friday night, April 25. The banquet table was a depiction of school days, the center piece was the little red school house with roads leading to and from it, and signs beside the

roads reading, Opportunity, Good Fortune, Success and Happiness. Miniature shrubs and spring flowers could be seen growing along either side of the roads. Each bridge carried a name such as, Friendship, Health, Contentment and Marriage.

Small paper traveling cases were used as plate favors, with the menu and program printed on the inside. A cut-out picture of each senior, dressed in cap and gown were used as place cards.

The following program was in theme with the journey of life. Rev. Raymond Van Zandt served as toastmaster for the evening, with H. M. Christian giving the invocation. Rufus Walker from McMurry college at Abilene, was speaker of the evening and using for his theme, Forward Ho.

His talk was most interesting as he discussed building for the future.

Miss Norma Sechrist, a former Spur girl and now a student at McMurry sang several selections. She was accompanied at the piano by Mrs. W. B. Wiley.

Frank Forbis of the Afton community was in town Saturday attending to business.

Miss Autrey Nell Dyess of McMurry college at Abilene spent a few days the past week in the home of her parents, Mr. and Mrs. D. J. Dyess. Autrey Nell was also on the program at the banquet given at the First Methodist church Friday in honor of the Spur Senior class.

Spur School Band Invited To McMurry Summer Band School

...SPUR SCHOOL BAND JoeQU The Spur high school band received through its director, Mr. E. M. Pullis, an invitation to send a group of musicians to the McMurry College Summer Vacation Band School scheduled to begin June 16.

The first half of the school will be spent on the McMurry campus, where an extensive school of instrumental music will be conducted; the final two weeks are to be spent in the Sacramento Mountains of New Mexico, according to information received by the local band director.

Instruction in woodwind and percussion will be under the direction of James B. Nevins, while Gerthal Gilligan, another outstanding bandsman of this area, will teach classes in brass.

"The school will give students of high school and college levels an opportunity to improve their playing while enjoying two thrilling weeks high in the Sacramento Mountains where the whole school will be carried on at the Methodist Assembly Grounds," stated Raymond T. Bynum, director of band and professor of instrumental music at McMurry.

Cost of the four weeks, which will include tuition, room and board both in Abilene and New Mexico, class lessons and group instruction on individual instruments, required music for the summer band, and transportation to and from New Mexico, will be \$80, according to Bynum.

I Give You Texas

By Boyce House

My friend, John Gould, wrote in the Wichita Falls Daily Times: There ought to be a symphony of Texas, wrought by one with the art and the affection to compose it, and he could put into it the howling of coyotes and the swish of the baffled sea against the granite wall at Galveston, and the tramp of marching feet and the industrious clatter of an oil rig and the bright music of a mockingbird singing in the rain, and the plaintive bellow of a newly-branded calf, and the crunch of Sam Houston's men gnawing raw corn after San Jacinto and the voices of children repeating the pledge to the flag, and the sound of an old hymn at a brush-arbor revival and the whirr of airplanes, and the cry of a tamale-vendor calling his wares to the passers-by.

You should know, too, the smells of Texas, the smells of saddle leather and chili and pine forests and sheep-dip and wild plum blossoms and gasoline and sweat.

this, not yet will you know Texas as she would ask to be known. Not even her own sons and daughters know her as they should; not even they have caught all her moods and her mysteries, her shadings and her overtones.

and Joyce Evelyn shopped in Matador last Saturday.

But they know that there is something that draws men to her and makes them Texans partaking of her heritage. They know that wherever, under the flag, whether in Iceland or Rangoon, there is one called Tex, he is one of whom men know that he will not fail in the crucial hour. Texas is a catalyst which works a change without itself being changed. It is a salute and a challenge. It is a prayer and a song, it is a land that one must love.

McManus of the Lubbock Lodge and Theo Yarbrough of the Grand Lodge of Texas and Hugo Horseman, Superintendent of the Orphans Home at Weatherford. The two latter were featured on the program and gave interesting talks before the body.

What Is Management?

Management is as old as the hills. There is nothing complicated about it at all. It is a natural function of human society.

A man and a woman marry, set up housekeeping, and raise a family. Both are managers.

They manage as they buy a home, educate the children, plant a garden, pick out a car, a refrigerator, a piano. A hundred decisions a day around the house are management decisions.

Management occurs at all levels in government, charity, education, lodge. It is the plumber with his helper, the elevator starter, the superintendent of schools, the master of the grange.

But in America, management probably has had its most scientific application in business.

Business management, even before World War I, helped build up a volume of production surpassing that of any other nation. In World War II, the results were even more spectacular. America outproduced all other countries combined.

By 1941, the value of an hour of work in terms of the staple necessities of life, bread and butter, had so been raised that an American could buy from two to eight times as much as a man in Europe. This didn't just happen. Neither the men and women in industry nor the money in industry can be effective without good management. Nothing else is so important to the workers' welfare, the investors' welfare or the public welfare.

We Got to the Fish Fry After All

That community fish fry was a great success. There were plenty of appetizing extras, and Will Dudley did a right wonderful job of frying the fish—soft and flaky inside—brown and crisp around the edges.

But we didn't get to go. The missus was tired after working in the yard, and we just didn't want to leave her.

Then how did we know the fish was so good? Because the folks didn't forget us. They sent Skippy Henderson over with two ster-

ing covered plates of fish, and a pitcher of cool, sparkling beer. And we finished them off in front of our own fire.

From where I sit, that's one of the things that makes our town so nice a place to live in: a spirit of share and share alike. That plate of fish and glass of beer weren't just great eating, they were symbols of the thoughtfulness that makes for better living!

DEAD SHOT GARY

Gary Cooper, who grew on his father's Montana ranch and in later life has made a record as a big-game hunter, is probably the film capital's best shot. In International Pictures' "Along Came Jones" however, he plays a range-rider who can't hit the side of a barn with his six-gun.

and this proves distressing when Gary sets out to impersonate a dead-shot outlaw. Loretta Young co-stars with Cooper in the RKO Radio release, and William Demarest, Dan Durkin and other well-known players are featured. "Along Came Jones" will play at The Liberty Theatre at Pres. Sun. and Mon.

FOR A BETTER WORLD

Troop leaders and other adults active in Girl Scouting are slated for special honors during 1947, the 35th anniversary year of the Girl Scout organization. They are being cited for "national service to youth" and for helping girls become better citizens, to build a better world.

SCREEN'S FAMED HARDY FAMILY IS NINE YEARS OLD

That old dinner table, familiar as their own to millions throughout the land, is bracing its legs to carry the heaviest load of good things it has ever groaned under. It's all set for an anniversary celebration.

The Hardy Family is nine years old. It has become an institution. This substantial development was by no means planned at the outset. When those good neighbors of today moved to the screen as utter strangers in 1937 they might easily have proved transients. Certainly no one expected the to stay on indefinitely and grow into permanent affection and importance. They simply happened to be the people in "A Family Affair," a homey little picture made by M-G-M from Aurania Rouverof's stage play, "Skidding," and that was supposed to be the beginning and of the matter. Yet here they still are in the fifteenth of an enduring series, "Love Laughs at Andy Hardy," coming to the Palace screen this week. Explanation of this survival is not hard to find. "A Family Affair" opened the screen door to the American home. Under its roof lived fictional folk with a glowing kinship to everyday people.

Letters from picturegoers attested to the heartening fact. They wanted more of the same kind. Yet that demand presented a problem to the Culver City studio. Lionel Barrymore, who had played Judge Hardy in the initial film concerned with the family, was in England for the making of "A Yank at Oxford," and Spring Byington, the original Mrs. Hardy, also was unavailable. However, Mickey Rooney, who created Andy Hardy at the age of nine, could be brought back to his inimitable role without any coaxing.

"DESTRY RIDES AGAIN" RETURNS TO THRILL AND AMUSE MOVIEGOERS AGAIN

"Destry Rides Again," a dramatic spectacle of the old West, in which hard riding and quick shooting are interspersed with the stirring mob scenes that have filled so many pages in the history of the American frontier, is being brought back to the Liberty Theatre beginning Sat. Nite by popular demand on the part of those who want to see this stirring drama, hilarious comedy and hear the outstanding musical numbers again. At the same time the showing will give those who missed the picture at its first engagement, an opportunity to see one of the screen's most outstanding films. "Destry Rides Again" stars James Stewart who made such a hit in "Mr. With Goes To Washington," and is now appearing in "It's A Wonderful Life," together with Marlene Dietrich in the role of a frontier entertainer, who sings the now famous songs "Little Joe, The Wrangler" and "See What The Boys In The Back Room Will Have."

One of the features in this picture is the outstanding fight

"Canyon Passage," the Saturday Evening Post story by Ernest Haycock, has been made into a motion picture which comes Tuesday and Wednesday to the Liberty Theatre the second and last time by popular request of the people of Spur and Dickens county. Produced in Technicolor by Walter Wanger and released by Universal, the film has Dana Andrews, Brian Donlevy and Susan Hayward as its co-stars. Development Of West Texas To Be Talked Friday

SWEETWATER. (Spl.)—Third of a series of conferences by West Texas development committees set up by the West Texas Chamber of Commerce to work with rail lines serving the area in probing and nationally advertising its industrial assets and opportunities, will be held this week at Sweetwater, with officials of the Santa Fe system.

E. L. Buelow of San Angelo, chairman of the West Texas-Santa Fe committee, has summoned the 116 members of his group to assemble at Sweetwater's Bluebonnet hotel Friday at 10 o'clock. An all-morning session will follow with the representatives of the three Santa Fe lines traversing east Texas. Two of these cross at Sweetwater.

The discussion is expected to center on the vast production of agricultural and other raw materials in the 55 counties served by the Santa Fe that can be turned to account industrially. Also to be taken up will be a proposal for comprehensive industrialization surveys to be made jointly by the railroad, chambers of commerce in the towns it serves, and the regional chamber. Two of the six industrial groups already have had their kickoff meetings: the east Texas-Texas & Pacific committee at Abilene, February 14; and the West Texas-Southern Pacific committee at Alpine, April 3. Others are the West Texas-Burlington, West Texas-MKT and West Texas-Rock Island. They are expected to become active soon.

All committees are composed of

WTCC directors and local chamber of commerce managers in affiliated towns located along the various lines.

Friday's meeting will close with a luncheon on the Bluebonnet roof. The Sweetwater Board of City Development will be host.

Clyde White of the Dumont community was a business visitor in Spur Saturday.

Wade Gilbert, student at Texas Technological college at Lubbock spent the past week-end here as guest of his parents, Mr. and Mrs. W. F. Gilbert.

Thousands of miles separate mother and child; though their opinions differ and sense of values vary, their love for each other which is the truest, purest love, unites them for all time and under all circumstances. It is Mother who is always forgiving and conciliatory. It is Mother who forgets the unpleasant — and cherishes the pleasant memories. It is Mother to whom we dedicate Sunday, May 11th with remembrances to comfort and delight her in small measure as she comforts and delights us all our lives.
