YOUTH PROGRAM INCLUDES MANY ACTIVITIES FOR THE COMING WEEK

Free Swim To Be On Program At Pool Today

Plans are being made by Coach Sam Hawkes for all boys and girls of school age to meet at the swimming pool at 2 p.m. today (Thursday) for a free swim in the swimming pool, as a part of the Spur youth recreation program.

Plans are also underway to offer free skating in the near future, it was announced this week.

Included in the recreational program being conducted under the direction of Mr. Hawkes, youth of the community have enjoyed archery, croquet, tennis, badminton and ping pong during the past week. Several movies have also been shown, including "This Amazing America," and "Topnotchers in Tennis and Archery" with Larry Hughes.

Next week's program will include the following: All boys and girls, ages 6 through 10 years, will meet in the gym at 5:30 each morning, boys and girls 11 years and older will meet at the school at 2:00 p.m. The reason for the change of time in the afternoons is because most of the boys and girls are spending most of their time in the pool and not coming out for the recreational program, Coach Hawkes stated. This will allow the youth to come out at 2:00 p.m. and have plenty of time for the program and then have time to swim at 4:00 p.m.

The Junior American Legion baseball team is to journey to Childress on Saturday to play the American Legion team there. The game will be held Saturday afternoon. They will then journey on to Hedley to play the Legion team there Sunday afternoon. This will be the first games of the district play for the Spur team this summer.

Fair Store To Remodel Building; Modernize Front

Plans for completely remodeling the Fair Store front and the interior of the business was announced this week by George Gabriel, manager of the firm. The entire front of the building will be made modern with a single entrance instead of the present two-door front and the exterior of the building will be of tile glass construction. The building will be latest architectural design and will embody the latest in store appearance and arrangement.

The interior of the building will be remodeled and rearranged to give an attractive appearance to compare with similar stores of larger cities. Work on the interior has already started and will continue as materials are made available, Mr. Gabriel stated.

Work on the new front will be started when materials are available and is expected to require some time for completion.

The shoe department of the firm has already been enlarged and is now nearing completion. Work will continue on other departments of the firm. The back part of the building, formerly used for storage will be remodeled into a modern display room for appliances that will be handled by the Fair Store. Mr. Gabriel pointed out.

An artist's conception of the front elevation of the building is appearing in this week's issue of The Spur in an ad of the Fair Store. The store is opening a ten-day sale Friday morning which is for the purpose of removing excess merchandise to afford room for remodeling operations, Mr. Gabriel stated.

Some furniture has been donated to the American Legion and Boy Scout hut at Dickens, but additional furniture is badly needed, according to Jake Varnell this week.

The hut at Dickens will be used jointly by the American Legion and the Boy Scouts and is an attractive place for both organizations to meet. CAR SHORTAGE TO BE RELIEVED HERE TODAY; SHIPPING CONTINUES

Total Of 205,000 Bushels Wheat Shipped From Here

A total of 120 railroad cars of wheat, containing 205,000 bushels, had been snipped from Spur up to Wednesday night, according to J. R. McNeill, manager of the Kimmel Milling Company here.

About 15 cars were expected to arrive at the local yards today and these will be shipped today and tomorrow. Mr. McNeill stated. Cars have been available for wheat shipment from here, until Wednesday afternoon when the local elevators ran out of cars for the first time of the season. This was due to trains from the north not making connections in Ft. Worth, and the cars scheduled to arrive yesterday will be here today.

Loading operations were continuing this morning and storage tanks of the elevator company were nearing capacity. Soon as the cars arrive they will be loaded as fast as possible, Mr. McNeill stated. Several cars now on the siding were also being loaded this morning.

Railroad officials have stated that cars will be made available for wheat shipments from here, and indications are that but little, if any, wheat will be poured on the ground in this community due to shortage of shipping facilities.

The bumper wheat crop harvest is estimated as about two-thirds complete in the southern portion of Dickens county, while harvesting is about half completed in the northern section. Wheat from the plains country is some better in yield than that grown south of Spur, according to indications. Wheat from this region is showing an average yield of 18 to 20 bushels to the acre, compared to 16 to 17 in this locality.

Wheat prices gained some last week despite the bumper crop being harvested. Thursday morning, \$1.68 was being paid here, compared to \$1.85 a week ago. Prices during the week raised to \$1.88, but sagged slightly again this week. The estimated value of the wheat that has already been shipped from here would approximate \$380,000.00. Some of the early harvest received \$2.10 and 2.05 per bushel.

Trucks loaded with grain were lined up at the elevators here this morning and Mr. McNeill predicted that the yards would be completely filled by this afternoon. The elevator firm is handling the wheat as rapidly as possible, however, and the rush caused by yesterday's shortage of cars, is expected to be relieved.

DICKENS COUNTY BLIND MAN SEES AGAIN AFTER OPERATION

Lions Club Makes Eye Operation Possible

S. P. Peck has had to be led about due to blindness for a year, but he can now see and has hopes of regaining good vision. He underwent an eye operation to remove an internal cataract in a Lubbock hospital June 10, which was paid for by the Spur Lions Club. The operation was very successful and present indications are that he may regain excellent vision.

"Bandages have been removed from the eyes three times since the operation and I can see out of that eye just fine," Mr. Peck stated Tuesday of this week. He was happy almost beyond expression for his prospects of regaining vision.

J. D. HOPKINS MOVED TO HOME OF SISTER AT LOCKNEY SUNDAY

J. D. Hopkins, who was injured on the morning of June 7 and who has been a patient in the Lubbock Memorial hospital at Lubbock since that time, was removed to the home of a sister at Lockney, Sunday. J. D.'s condition is reported to be somewhat improved, although he has not fully regained consciousness.

gaining vision after a year of almost complete darkness. Mr. Peck's eyesight has been failing for a number of years and last year a similar growth was removed from the left eye. The operation last week was on the right eye.

Mr. Peck has lived in this community for the past 47 years and is well known. The operation was made possible by the Lions Club Eyesight Conservation Committee, of which Walter Woodrum is chairman. The program has aided a number of blind persons in this community in recent months. The program has given radios to several blind persons, a braill writer to one and the eye operation was paid for by the club. The eyesight conservation program is one of the outstanding services that is being carried on by the local service organization.

The eye operation was performed by Dr. E. M. Blake of Lubbock. Mr. Peck was released from the hospital Thursday and since that time bandages have been changed every three days. On a visit to a local physician Tuesday for dressing to be changed. Mr. Peck stopped in at the Texas Spur office to state his deep appreciation for the splendid work of the Lions which made the operation possible.

Former Spur Girl Marries In New Mexico

Choosing the Presbyterian church in Las Vegas, New Mexico as the scene of her wedding, Miss Nada Carol Spivey of Maxwell, New Mexico, became the bride of Robert J. Henry of Las Vegas, New Mexico recently in a single ring ceremony performed by the Rev. Frank W. Duggan.

The bride who is the daughter of Mr. and Mrs. E. L. Spivey of Maxwell and former Spur residents, and the groom, son of Dr. and Mrs. Paul D. Henry of Las Vegas, exchanged nuptial vows before an altar banked with white flowers and lighted by white candles in candelabra.

An orchid corsage complemented the aqua blue suit and white accessories which were her wedding costume. As maid of honor, the bride's sister, Miss Bea Spivey of Lubbock, Texas, was lovely in a cocoa brown suit with white accessories and a gardenia corsage. The groom's brother, Paul Henry, Jr., was his best man.

Wedding guests were seated by Ushers Jack Werley, Thurmond Spivey, Arthur Devine and Phillip Hosford. Mrs. Adolprine Schubert Kohn at the organ played the wedding march and Richard C. Wingo sang "O Promise Me" and "Because" before the ceremony.

At the reception in the Henry home which followed the wedding rites, Dr. Henry was assisted in receiving by members of the bridal party, Mrs. Spivey, the bride's mother; Mrs. May Bowles and Mrs. J. D. Henry, grandmothers of the groom; and Mrs. Paul D. Henry, Jr.

Bouquets of roses decorated the reception rooms, and the serving table was lovely with the three tier cake centered on a mirror and surrounded with white flowers and white candles in candelabra. Assisting in serving were the Misses Lee Byrd, Bo LaMunyon, Eloise Scott and Marilyn Staley.

The bride's book, the same one used by Dr. and Mrs. Henry at their wedding in 1919, was presided over by Miss Jane Dowler.

Mrs. Spivey greeted reception guests in a pale grey chiffon gown with a gardenia corsage and Mrs. Bowles wore turquoise blue with pink rosebuds.

Out-of-town guests included Thurmond Spivey and Mr. and Mrs. S. L. Dennis, Mr. and Mrs. Ferman Willis and son, Lyndel of Levi; Mr. and Mrs. Johnny Morrow of Raton; Randall Jones and Miss Spivey of Lubbock, Texas; Mrs. John D. Henry, Mr. and Mrs. Fay D. Henry and son, Joe of Hurley.

The newly-wed couple's honeymoon was spent in Denver, Colorado. They are at home now

PATTON SPRINGS SENIOR TRIP

The following members of the Patton Springs Senior Class and their sponsors left Saturday morning, June 14, 1947 at 7:00 o'clock for a short trip:

Doris Baxter, June Hughes, Billie Galloway, Tommie Judd, Verlie Henley, Dorothy Lester, Marvin Young, B. F. Yeates, Doc Roberts, Gerald Yeates, W. J. McSpadden and the sponsors, Mrs. Ethel Young and Kenneth, Mr. and Mrs. Dan McRae, Mrs. Alma Lee Yeates.

The first stop was in Plainview, then Farwell where the group ate lunch, then Portales, and they reached Roswell, New Mexico about 4:00 o'clock p.m. Various types of amusement were chosen, and part of the group went swimming in the Bottomless Lakes.

The girls stayed in the Greenhaven courts, but it was the boys wish to sleep outside, so they did.

Sunday morning, June 15, we left Roswell with only 14 persons aboard the bus, since Mrs. Ethel Young and Kenneth had made plans to remain in Roswell to make their home in the future.

The group visited such scenic places as Ruidoso, White Sands National Monument, Hondo Valley and they arrived at Las Cruces about 3:45 o'clock p.m.

The group drove from Las Cruces to El Paso and Juarez, Mexico, where they spent a wonderful evening at the Stork Club. They drove back to Las Cruces to spend the night.

Monday morning, June 16, found the group "on the road" again. They went boat riding, then ate lunch at the Elephant Butte Dam, then drove to Albuquerque to spend the night.

Tuesday, June 17, the group drove to Santa Fe where they visited a number of interesting places, then they drove to the ranches of Taos, Taos Pueblo village, after which they chose the scenic drive over 57 miles of gravel road from Taos to Cimarron. Part of the group went by way of the Raton Pass over into Colorado, a short distance, then they spent the night in Raton.

Wednesday, June 18, found the group of seniors and sponsors "headed homeward." The only

at Camp Luna. Both plan to return to New Mexico Highlands University next fall.

Mrs. Henry attended schools in Maxwell and will be a senior next year at Highlands University. She is a member of Sigma Sigma Sigma sorority.

Mr. Henry resumed his studies at Highlands this year after serving two and a half years in the infantry in the Philippines, with the rank of technician, fifth grade. A sophomore, he is a member of Betu Chi fraternity.

stops were at Texline, Amarillo (where the group ate lunch), Plainview and Matador.

Even though the time was limited to four nights, and they rode 1,520 miles, everyone had a nice trip.

The group wishes to thank each person who made this trip possible.

Johnnie Hopkins arrived in Spur Sunday. He has been making his home at Olney but has been at the bedside of his brother, J. D. Hopkins in Lubbock for the past few weeks. He will remain here for awhile.

Story of a Lawbreaker

Here lie the remains of a driver who thought he could drink and still drive a car. Racing down the highway at a dangerous speed, his car wandered off the edge of the pavement, dragged on the sandy shoulder, and was wrenched into a spin. Drunken drivers are potential murderers of every other motorist who comes near them on the road. They were involved in more than 5,000 fatal accidents last year. National Conservation Bureau safety specialists say even one or two drinks slow up reactions, make judgment unsure, increase chances of accident three to four times.

GARNERS FISH IN TEXAS GULF; VISIT TEXAS CITY DISASTER

"I thought I had caught a whale," J. L. Garner stated, this week when asked about his deep-sea fishing in the Gulf of Mexico. Mr. and Mrs. Garner and daughter, Omallee, returned last week from a two-weeks vacation trip in Galveston and the Gulf Coast and who spent some time deep-sea fishing in the Gulf. The whale that Mr. Garner thought he had hooked was a game king fish that has a reputation for putting up a stiff battle when snagged. The Garners chartered a fishing boat and went about 40 miles out in the Gulf where they caught approximately 200 pounds of fish of various species. "It was the most fun that I have ever had fishing," Mr. Garner emphasized.

While on the vacation trip the Garners also visited the disaster scene of Texas City. He stated that the wreckage by explosion is almost unbelievable and damage by fire covered a very large area of the industrial section of Texas City. A large number of fuel oil and tanks were destroyed by the tremendous explosions, some as far as a half-mile away from the original explosions.

Mr. Garner pointed out that he had good news, however, for those who may be afraid of the local municipal plant or butane storage tanks. "The butane and propane storage tanks which are constructed just like the ones we have here were hardly damaged and none exploded," he said. These tanks have every known safety device such as automatic safety relief valves, automatic safety excess flow valves to automatically relieve the vapor pressure, discharging it up into the air, preventing danger of explosion. The bottom outlets are also fixed with excess flow valves to stop the flow of liquid fuel in case of line breakage. These type valves are what prevented the explosion of eight large butane and propane tanks where they were located in the refinery grounds at the place where the hottest fires were. "In fact, the fires were so hot that steel melted like lead," Mr. Garner explained. "Seven of the large butane and propane tanks which were mounted on concrete piers, were in very good shape, although they were subjected to the intense heat. One of the eight tanks had a flame blown on it that covered approximately six feet. It was a flame like a huge blow torch, which caused it to almost melt at the exposed portion. There was a small split in the tank," he said.

There was definitely no explosion from the butane and propane storage tanks, which is almost unbelievable to those not familiar with handling of this type gases.

Prices Steady On S. W. Markets Last Week

(USDA)—Many southwest farm markets showed considerable easiness last week, but some held firm, and corn and milo rose to even higher levels, according to the Production and Marketing Administration, U. S. Department of Agriculture. Market for East Texas tomatoes weakened, and many shipments moved out unsold. Most late-week f.o.b. sales went at \$2.75 to \$3 per lug box for 6 by 6 and larger U. S. No. 1's. Denver's wholesale market noted a general easing of fruit and vegetable prices. New Orleans held mostly unchanged. Potatoes showed recent firmness at St. Louis, but cantaloups and lettuce declined there, as well as at Kansas City. Eggs held firm last week, but poultry showed slight easiness at some places. Eggs brought 37 cents per dozen at Denver, Amarillo, and Austin; 37½ at New Orleans; around 38 at Fort Worth, Dallas, and San Antonio; and 44 at Houston. Dallas bought

ryers at 35 cents per pound, and heavy hens at 24 to 25. Fort Worth paid 33 to 35 for fryers, and 21 to 23 for heavy hens. New Orleans took fryers at 33 and hens 26. Corn values rose rapidly last week in response to unfavorable planting weather in the corn belt states. Total advances of around 30 cents per bushel brought No. 1 white to \$2.62 Friday, and yellow to \$2.40 at Fort Worth and Galveston. Wheat and oats eased down another nickel or so, and sorghums gained about the same amount. Milled rice met slow demand. Early plantings made good progress under favorable conditions. Most feeds held fully steady; bran gained \$6 per ton, and shorts lost \$4. Trade expects prairie hay movement from North Texas and Oklahoma next week. Peanut exports through April 1947 neared ten times the volume for the same period in 1946. Texas 12-months combing wools and the finer territory wools continued in good demand. Cotton prices fluctuated widely, but closed a little lower. Extremely light offerings and demand for only special qualities

I Give You Texas

By Boyce House

Nothing which has been touched upon in this column in months has attracted as much comment as the recent criticism of the incident in Pawtucket, Rhode Island, where a man was arrested and fined for laughing. Nearly all the reaction from our readers has been favorable but several letters were received from Rhode Island, or former Rhode Island, citizens and they took your columnist over the coals. Their letters criticized Texas. In other words, the writers denied that I had the right to criticize their state but they had the right to criticize mine. If Texans have faults—and of course we do have—that would be no excuse for Pawtucket outrage—for that is what it is, an outrage. Our forefathers wrote into the Bill of Rights the assurance of freedom of speech, freedom of press and freedom of worship; they did not provide for freedom of laughter for the reason they never dreamed that anyone would question that right. I have before me a letter from the mayor of Pawtucket who admits the man was arrested and fined for laughing but the fine was paid back, so that ought to make everything just ducky. The reason it was paid back was because editorial writers and columnists by the scores all over the nation protested. Was the chief of police fired or even reprimanded for making the arrest? Was the judge who levied the fine kicked out of office? When the letters protesting against the criticism made in this column came from men, I replied by mailing them a timetable showing the trains that leave Texas, northbound. Those who don't like Texas ought to go back to the place they do like, then both they and we will be happy. The first edition of "Cub Reporter", your columnist's new book, is 1,001 copies, numbered and signed by the author. High-tower Press, 610 E. 10th, Dallas, is the publisher.

AN IMPORTANT MESSAGE FROM THE TEXAS BUTANE DEALERS ASSOCIATION—

BUTANE and PROPANE Users!

Is Your BUTANE or PROPANE System Ready for Next Winter?

The Texas Butane Dealers Association asks every domestic butane or propane gas user to take stock of your present system. If your tank cannot furnish gas enough to serve you through the four winter months without refilling, you may find yourself without heat this winter.

New industries developed during the war now demand tremendous amounts of butane and propane gases throughout the year. On the other hand, domestic users of gas burn four to seven times more in winter than in summer. Because of tremendous demand, your dealer is able to furnish you very little more gas in winter than in summer. In order to "level off" this high winter load, heating gas users must plan now to tank up far ahead with a four months' supply.

By doing this you can be absolutely sure of your supply. It's "Winter Insurance," just as the farmer has always stored grain early for winter use. Housewives do their canning in the summer. Your gas will already be in your tank when you need it most. And by taking less time for your dealer's services, he can supply you and your neighbors more efficiently and more economically at the time when winter roads usually hold up gas delivery.

Before you buy any system, consult your local gas dealer. He is your friend, he knows butane-propane, and he will cooperate in every way to help you prepare for winter now.

sharply restricted trading. Lambs dropped from 50 cents to \$1.00 at San Antonio to around \$3.00 at Wichita last week. Aged sheep and feeder lambs remained steady at Fort Worth, but sold generally lower at other markets. Good spring lambs closed at \$20 to \$21.50 at Fort Worth; the me-

Cattle markets weakened materially on practically all classes, with the better grades of cows, steers and yearlings holding up best. Medium to good cows brought \$17 to \$18 at San Antonio; and common to good kinds \$15 to \$17.50 at Denver. Medium to good steers and yearlings moved at \$17.50 to \$23.50 at Fort Worth; and steers \$21 to \$24.50 at Oklahoma City.

Butcher hogs closed the week steady at Oklahoma City, but fell mostly 25 to 50 cents or more at other southwest terminals. Sows sold generally 50 cents to \$1.50 lower, and feeder pigs dropped at San Antonio. Late high price on butchers was \$24.50 at San Antonio and Fort Worth; \$24.75 at Oklahoma City and Wichita; and \$26 at Denver.

Hay making time on the farm marks the beginning of a season when farm accidents always run high. The gears and cutting mechanism of haying machinery take a big toll of casualties each year.

Air Rescue Service Covers This Area

An emergency air search and rescue service for fliers lost or forced down within this area is now being conducted by the Army Air Rescue Service operating from Biggs Field, El Paso, Texas. Assistance will be given whether planes in trouble are civilian or military, and the unit is also authorized to transport by air anyone injured in ground accidents when other transportation is not available.

All persons who have knowledge of an airplane crash or emergency landing in this vicinity are urged to place a collect long-distance telephone call to the Army Rescue Service, El Paso, Texas, telephone East 3181, Extension 3991.

The area covered by the Biggs Field unit includes more than 468,000 square miles and takes in Texas, Southeastern New Mexico, and the Southern portion of Oklahoma. A force of thirty-two officers and enlisted men is constantly standing by on a 24-hour alert basis to respond to calls for assistance.

Equipment provided for rescue expeditions is elaborate and complete. Six aircraft of various specialized types are used. They include two C-47 transports, three L-5 reconnaissance planes and a helicopter. Transports are especially equipped for flying sup-

plies and emergency equipment to accident scenes, and for dropping supplies by parachute when necessary. The smaller reconnaissance planes are capable of landing in remote and rugged terrain and are equipped as ambulances for flying injured persons to hospitals. The helicopter, a whirling-winged aircraft which can take off straight up and land straight down, can reach quickly by air, places inaccessible from the ground.

Among the emergency equipment carried by rescue planes is a medical "bomb" which was developed by the Biggs Field Air Rescue Service for parachute delivery of injured men when landings of rescue planes cannot be made immediately. This contains blood plasma, morphine, splints, antiseptics and other medical supplies of an emergency nature. When required, medical officers who are especially trained for rescue work, jump by parachute to give first aid treatment to downed fliers.

"BAT" MASTERSON, FAMED MARSHAL WROTE LAWS OF WEST IN GUN SMOKE

The exploits of "Bat" Masterston, famed U. S. Marshal, who believed in "shooting first and shooting straight," sparks the action in RKO Radio's stirring new drama of the old west, "Trail Street." Randolph Scott has the role of Masterston, and co-starring are Robert Ryan, Anne Jeffreys and George "Gabby" Hayes.

The farmers around the little town of Liberal, Kansas, appeal to Masterston to come and help them in their fight against the lawless, hard-drinking trail drivers who are ruining crops by driving their herds across the farmlands on their way to the railroad. Masterston goes about his work in his reputed spectacular fashion, in one outstanding scene disarming all the cowmen. The situation builds up to a gigantic climax when farmers and cowmen meet in a spectacular pitched battle for possession of the town and the badmen are cleaned out.

It is a big picture with all the ingredients for top-notch entertainment including romance, comedy and music in addition to slam-bang action. Scott does his best work as "Bat." Ryan is seen as a young land agent who believes in the future of Kansas. Miss Jeffreys is a cabaret star. "Gabby" Hayes is an old livery-stable keeper whom "Bat" swears in as a very reluctant deputy marshal. "Gabby" was allergic to flying lead!

About a year ago, the United States planned to export 400 million bushels of grain to the needy people of foreign countries. By July of this year, 525 million bushels will have been shipped. The famine overseas still exists.

reporting of aircraft accidents by witnesses is of great assistance in rescue operation.

Where Do Managers Come From?

A DOZEN MEN operate turret lathes. A dozen clerks stand behind hardware counters. A dozen stevedores hoist dockyard freight.

Sooner or later, one operator, clerk, stevedore is going to reach out and do the work more competently than those alongside him.

This is a real beginning. But it is not enough for a man who hopes to manage.

A manager must have demonstrated that he can take orders, before he gives orders. He must know how to impart information. He must have character, courage, and the ability to administer.

If he has all these, he is ready to go on up. Some managers stay on the first, eighth,

tenth steps, and do an important job. They are the foremen, superintendents, department heads, buyers. Some still keep going. The most farsighted and imaginative climb to the top.

This constant movement of men upward is one reason why American business has an ever-fresh point of view. Someone is always bringing a new idea on up with him.

Neither the men and women in industry nor the money in industry can be effective without good business-management. Nothing else is so important to the workers' welfare, the investors' welfare or the public welfare.

Crazy Hat Wins Refrigerator!

One of those "Breakfast in the morning" radio shows came to Capitol City last week, and Sarah Carey won first prize for wearing the craziest hat in the audience. It was a full-sized refrigerator! (The prize, not the hat.)

"Glad them hats of hers paid off at last," says Ed, treating the whole thing like a joke. But you could see he was proud of Sarah. From where I sit, there's another thing Ed can be proud of: the way he's put up with those hats of Sarah's, with never a criticism; just

as she's put up with Ed's pipe and the other little freedoms he enjoys.

They've got that refrigerator home now, stocked with beer; and we're going over tonight to drink a toast—not just to Sarah's hats taking first prize... but to a happily married couple, who've learned to live with one another's differences in tastes—whether it's a taste for hats or beer!
