NO MORE BLUE MONDAYS WITH PUSH-BUTTON WASHING

I'll lighten All your housework!

OLD fashioned washing methods really made Monday a blue Monday for the housewife who hand-rubbed her clothes or used an outmoded mechanical washing machine.

But it's different today-electric service has helped take the blues out of blue Monday. Today, you just push a button and Reddy Kilowatt, your electric servant, will wash as many as three tubs of clothes for just one penny.

But that's only one of the many jobs he can do. For just one penny, he will light a 100-watt bulb for almost 3 hours-or run a radio a whole evening! For one little copper, he will vacuum clean 6 large rugs, run your refrigerator for 5 hours, or tell you the correct time for about a
