I'd like to demonstrate this tractor on your farm

obligation. I'll bring along one or two of those good Dearborn Implements, specially made for the Ford Tractor. I'll put this Ford Tractor through its paces, then let you take the wheel.

You'll find out how easily Ford Hydraulic Touch Control lifts and lowers implements and controls their depth. I'll run the plow into an obstruction and prove there's no damage. You can hold your watch while I demonstrate Triple-Quick Attaching of implements. I'll show you why new Ford steering and brakes are the best.

Then you'll know why Ford production is up to 400 tractors a day. Leave it to Ford! Whatever tractor you own, you owe yourself this Ford Tractor demonstration. When can I make it?

The usual routine of business was transacted during the week, interspersed with a series of sermons by Bishop Martin. On the closing Sunday of the conference, Dr. Selecman brought the address in the morning from 1st Corinthians, 3rd-6th verse in the words of Paul," I did the Planting. Appollos Did the Watering, But it was God Who Made the Seeds to Grow." In the afternoon session Dr. Selecman read the appointments and again directing

75 Years in the

Diamond Jubilee of the railroad conceived and built by Texans for Texas - the Gulf, Colorado and Santa Fe

75 years ago a group of Galveston businessmen and merchants made plans to build a railroad from the Gulf into the heart of Texas and out across the Southwest.

These industrious Texans had faith in their plans and put their hearts and labors into their railroad, backed up with their own money.

Starting the G. C. & S. F.

On June 6, 1873, the Gulf, Colorado and Santa Pe was incorporated.

The first tracks reached Belton by

1881, then west to Brownwood and north to Fort Worth and Dallas, then a branch extending to Navasota and Conroe.

Linking with the Sente Fe System

By 1886 the Gulf, Colorado and Santa Fe had grown to the point of build-ing into Oklahoma. At this time the Atchison, Topeka and Santa Fe was expanding in the Middle West and expanding in the stiddle west also building southward. Therefore, it was a natural joining of forces for these two railroads, both of which had started out independently, yet with Santa Fe as a part of their name.

Santa Po All the Way The linking of the G. C. & S. F. and A.T. & S. F. brought through service between Texas and Chicago and the Middle West as early as 1887.

Today, travelers and shippers have Santa Fe all the way service between Texas and Louisiana, Oklahoma, Kansas, Missouri, Iowa, Illinois, Colorado, New Mexico, Arizona and California.

On the Gulf Lines Today

During this 75-year period, the ideal of service to the people of Texas has been uninterrupted.

Just a few weeks ago, a brandnew Santa Fe streamliner was placed in daily service between Galveston and Chicago-the Texas Chief, which combines Texas' own kind of hospitality and Santa Fe's traditional "Chief" service.

Giant freight Diesels haul Texas cattle, petroleum, minerals, wheat, cotton, and manufactured products to markets far away.

New servicing facilities for Diesels were recently opened at the great modern Cleburne shops. There are also Santa Fe shops at Temple, Galveston, Bellville, Brownwood and Silabee.

On this 75th anniversary, Santa Fe looks forward to even greater prog-

GEORGE L. POX

CLARKE V. POLING

Commemorating one of the most stirring episodes of World War II, a postage stamp is being issued by the Post Office Department on May 28, 1948, to honor the four chaplains—Protestant, Catholic and Jewish—who gave up their lives on the USS Dorchester in 1943.

When a German torpedo hit the troopship, these clergymen of the three great faiths—John P. Washington, Catholic priest, Alexander D. Goode, Jewish rabbi, George L. Fox and Clarke V. Poling, Protestant ministers—gave their life belts to stranded soldiers and, linking arms, prayed in unison as the vessel sank in the North Atlantic.
