

# THE MULESHOE JOURNAL

VOL. 6 MULESHOE, BAILEY COUNTY, TEXAS, FRIDAY, MAY 18, 1928 NO. 14

## Bailey County Drenched With 2.50 Inches Rain

**Thomas L. Blanton To Speak Here On Wednesday, May 23**

The following speaking dates have been announced by Congressman Thomas L. Blanton, candidate for the United States Senate.

Wednesday, May 23, 10:30 A. M. Muleshoe, 1:30 P. M., Farwell, 3:30 P. M. and Hereford, night.

Congressman Blanton has been a member of Congress for something like twenty years and has earned an enviable reputation as a forcible speaker and earnest, hard worker. Let the voters of Bailey county turn out en masse and give him a hearing.

### WHAT'S DOING IN WEST TEXAS

**BENJAMIN**—Through the efforts of President J. H. Atterbury of the local Chamber of Commerce, citizens of Benjamin have voted to incorporate.

**FLYDADA**—Building permits for this city totalled \$23,725 for the month of April.

**CLARENDON**—A special train will originate here to carry the Pease-River Valley delegation to the Fort Worth convention of the WTCC.

**PERRYTON**—Mrs. Horace Lackey is serving as temporary secretary of the Poryton Chamber of Commerce.

**HASKELL**—Seven new business buildings are under construction here.

**LUBBOCK**—The \$275,000 chemistry building for Texas Tech is under construction, to be completed by January 1, 1929.

**IRRAW**—Irwan's \$20,000 school building will be ready for use for the coming session.

**ARTESIA** N. M.—The Chamber of Commerce is planning a huge celebration on completion of the natural gas line here, June 13.

**MCAMEE**—C. H. Amacker has been elected chamber of commerce secretary for McAmey.

**LIVERTON**—A toll line is to be constructed from Silvertown to Floydada.

**TAHOCA**—Tahoka will be 1928 host to the South Plains WTCC district convention, it was decided at the record breaking 1928 meet at Lamesa, May 10.

**ABERNATHY**—Over 5,000 people attended the annual get-together banquet of the Abernathy Chapter of Commerce recently.

**EAIRD**—Eaird will build a \$40,000 school building as a result of recent bond election.

**ALIDA** N. M.—Alida is the newest member town of the West Texas Chamber of Commerce.

**CHRISTOVALL**—Christoval's school has closed for the year, with 7 pupils graduating.

**OZONA**—Installation of Ozona's white-water system is reaching completion.

**NEWLIN**—Newlin and Estelina will have natural gas by September.

**PETERSBURG**—A brick veneer standard design depot will be constructed.

**FORT STOCKTON**—Grady Wheeler has been elected chamber of commerce secretary for Fort Stockton.

D. E. Keeney returned Monday from a brief visit in Woodburn, Oklahoma, and Miami, with relatives. Mr. Keeney reports the roads so muddy and impassable that he left the car at Miami, returning by train.

Misses Opal and Jewel Hancy motored to Plainview, Sunday to meet their sister, Mrs. F. B. Pierson and children. Billie James and Theresa June, of Ringling, Oklahoma.

**Houston Now Ready To Entertain Crowd At Convention**

Houston, Texas.—Houston is prepared today for Democracy's quadrennial gathering, and is only awaiting an influx of Democratic party delegates, but is poised to entertain thousands of Texans, Oklahomans and Louisianians, who, it is pointed out by Jesse H. Jones, Houston capitalist and chairman of the committee on arrangements, will pour into the city throughout June.

Democrats in the Eastern section of the United States had their chance to see a national convention in operation when Democracy met in Madison Square Garden. Those on the West coast had their chance when the gathering took place in California. Now with the meeting at Houston it is considered the Southwest's very own neighborhood event. Literally thousands of persons from the three states are expected to troop into Houston.

And these thousands will find the city prepared to take care of them. More than 300 Houstonians have paved the way. They are parts of a smooth running machine that has completed arrangements to care for all visitors attracted to the city by the Democratic convention in June.

While the housing committee assures quarters for all, it is urgently requested that every prospective visitor at the earliest possible date register his name, stating his housing requirements. Houston committee workers have learned, will not only be a convention city but will be city headquarters for vacation jaunts. Attracting to the convention, thousands are expected to include in their plan, programs for visits to the San Jacinto battle field, to Corpus Christi, Galveston, the Alamo, and other points of interest.

**PIE SUPPER AT ENCHOS**

The Journal is asked to announce that there will be a pie supper at Enchos on Friday, May 18. Candidates are invited to attend as they are going to try to arrange for speaking periods.

K. K. Smith and mother, Mrs. D. K. Smith, visited friends in Clovis Saturday evening.

**YL News Items**

On account of bad weather, we did not get to have our Mother's Day program. Everybody come to hear Rev. W. B. Hicks sermon next Sunday.

This community was well supplied with a good rain last week. Many farmers are beginning to plant their crops this week.

Some of the leading men of our community arranged a rabbit drive Saturday morning. The drive began at the school house and covered the surrounding country. Many rabbits were killed.

Mr. Harry Wilterding and family visited W. M. Wilterding Monday.

Miss Lessie Field spent the week-end with Miss Inez Farrell of Muleshoe.

Misses Jerry and June Beller visited Miss Inez Farrell Wednesday afternoon.

Mrs. Jackson visited Mrs. Gulley Monday.

The singing at Mr. Beller's Thursday night was well attended.

**FARMER AT AMHERST MAKES MONEY ON HOGS**

M. E. Thornhill, a farmer near Amherst, last week sold 55 head of hogs which averaged better than 200 pounds, and brought him 8 cents on the market here. Mr. Thornhill tells the writer that last fall he planted 25 acres of wheat between his corn. After gathering the corn, the wheat was up enough to graze and he turned 25 pigs in on it and did not feed them anything at all until the last 15 days, when he fed corn to harden them and finish them for market.

Mr. Thornhill says he cleared 75 per cent profit on this bunch of hogs, as his wheat is not damaged, and he only fed a small amount of corn. He declares there is nothing better to grow than wheat in the winter and sudan in the spring and summer—Amarillo News.

**Free Show at Brooks Theatre Beginning Saturday May 19th**

Beginning Saturday, May 19th, the free shows will be run again at Brooks Theatre. These shows are made possible for the public by the merchants of Muleshoe, co-operating with the theatre, and many excellent pictures have been booked. It is stated.

These shows are varied in character, some being Westerns and others high class features. Tickets are to be given at the business houses named below, and are good for the Saturday afternoon shows only.

Jeff D. Bryant & Son  
C. J. Roach  
White Front Garage  
D. O. Smith  
Sanitary Barber Shop  
E. W. Haney  
Gardner Dry Goods Co.  
E. R. Hart Lumber Company

**EPWORTH LEAGUE PROGRAM For May 20, 1928.**

"Playing the Game Together." (Lat. Cor. 3-11)

Leader—Howard Carlyle.  
Introduction by Leader.

Junior—Alice Ragsdale.  
Epworth Hi—Leagues—Iris Harden.  
Seniors—Jeff White.  
Co-operation of Leagues and How to Win the Game—Mills Barfield.  
Playing the Game—Opal Haney.  
Business and Benediction.

**SPEED RECORDS MADE WITH ETHYL GASOLINE**

The distinction of contributing to speed records goes to Ethyl Gasoline according to K. K. Smith, of Valley Motor Company, local distributors. General Motors Research Laboratories developed this fuel and General Motors is now affiliated with the company making it.

Driving along Daytona Beach at 209.9 miles per hour. Capt. Malcolm Campbell set a new official AAA speed record for automobiles. About the same time Frank Lockhart and J. M. White made unofficial speed records. Previously, Major Seavare had set the record at 203.7 miles per hour. Each of these men rode with Ethyl.

Mr. Smith states that your own car's performance will likewise be increased by the use of Ethyl gasoline. You will get more power to negotiate the hills and heavy roads; you will have more pick-up and greater flexibility and less gear shifting. And above all eliminate knocking and reduce vibration.

**ARRANGEMENTS MADE FOR HOUSING LEGION MEN AT CONVENTION**

San Antonio, Texas, May 12.—The American Legion in handling housing arrangements for 1919 World War veterans and members of their families coming here for the organization's national convention October 3 to 12 is carrying out a very comprehensive program which, it is believed, has never before been attempted for a national convention.

In several major respects, the plan being followed by the Legion differs from the housing program of the Republicans for their national convention at Kansas City and from that of the Democrats for their gathering at Houston, a survey just completed revealed.

The Legion through its convention bureau is entering into a definite legal contract for every room in all the hotels in convention city, according to Philip B. Staupp, general convention director. Assignments are being made by the bureau on receipt of an agreed deposit, equal to the first day's charges.

The Republican national committee set out at Kansas City to require a deposit on hotel reservations but later canceled all contracts made on that basis, withdrawing the requirements for a deposit, as shown by the survey. Assignments of rooms are being handled by a local committee at Kansas City and at Houston.

Ten thousand hotel rooms have already been assigned to the 57 Legion departments for the convention here, five months in advance of its meeting. Assignments were made on the basis of membership.

San Antonio's school board has just taken action to turn over to the use of Legion two senior high schools and eight junior high schools. Here bands and drum corps, of which more than 115 are expected to attend, and drill teams and other organizations will be housed. The school children will get a week's vacation. Pullman parks for 35,000 to 40,000 persons are being prepared. Space has been signed up in private homes for at least 12,000 persons. Clubs, apartment houses, rooming houses and similar places are being used.

Several World War outfits have elected to live as in the days of the war and will occupy quarters together. Among these are outfits in the Ninth Division and the Thirty-sixth Division.

**Local Markets**

These prices are furnished by the local buyers, and are for your convenience.

The following prices hold for the week at Muleshoe Elevators and produce houses:

Kaffir	\$1.25
Maize	\$1.30
Shelled corn	.85
Sudan, unsteady	\$2.50

**Retail Feeds**

Cotton seed meal	\$3.25
Bran	\$2.25
Shorts	\$2.50
Oyster shell	\$1.50
Sell	.50c

Broilers, 2 1/2 lbs. and under .25  
Lights and black legs .22  
Heavy hens .17  
Lights and Leghorns .12  
Cor .05  
Slags .07  
Eggs .18  
Cream .36  
Hides, dry .12  
Hides, green .10

**Swimming Pool Open To Public**

Mrs. R. L. Faulkner announces that she has opened her swimming pool for the summer. The pool having been filled last week. This pool is one of the best to be found anywhere, being of concrete construction with dressing booths near by. Bathing suits may be had at the pool, or upon using your own suit the fee for swimming is somewhat less. Mrs. Faulkner has had everything overhauled and put in fine shape for the coming season.

### BREAKS LIMB

Mrs. H. M. Shofner of North of town had the misfortune of breaking her leg last week. After one of the rains last week, Mrs. Shofner stepped out of the house to see about an incubator which was nearby. She slipped and in the fall broke her leg just above the ankle.

### GOING EAST FOR SPECIAL EYE WORK

Every year brings new scientific theories and practices in the care of the eyes. In order that I may keep abreast of these, I am going to Chicago about June 1st for special work with some of the ablest eye specialists. I expect to return about July 1st.

### DR. C. E. WORRELL

Messrs. K. K. Smith and J. O. Jones, Jr. were business visitors in Clovis Monday afternoon.

Mr. and Mrs. I. W. Hardin motored to Plainview Friday to meet the former's mother, Mrs. M. J. Hardin, who will visit here for a while.

Mr. and Mrs. Charlie Long were shopping in Clovis Tuesday afternoon.

Vic Nelson, real estate dealer of matters here, Tuesday.

J. A. Winters of Brady, Texas, was in the city Saturday.

**FARMING THROUGHOUT TERRITORY IN FULL SWING**

Beginning Thursday afternoon with a good shower, Bailey County has received a total average of 2.50 inches of rain to Sunday afternoon, it is estimated. Some sections received as high as four inches, while others had only about an inch. Friday night at Muleshoe, 1.08 inches-fell, and Saturday night and Sunday a slow rain measuring .72 was received which soaked into the ground.

Some wheat will be benefited by this moisture, but it is said that a part of the crop will be plowed up and planted to other grains. Farmers are rejoicing over the prospects for the coming year, and old-timers claim that preparations for planting the remaining crops are being rushed. Range conditions are excellent with lakes practically full of water.

The drought is said to be broken throughout the entire Plains section and some towns report as much as five and six inches of moisture. The U. S. Weather Bureau at Amarillo, reports a five year precipitation record broken with indications for more.

Cooler weather has prevailed in this section Saturday and Sunday, the thermometer registering 49 degrees at 10:00 o'clock Saturday morning. A banner year is predicted for the crop, but for settlers as well.

**BUCK JONES IN "BRANDED SOMBRERO" BROOKS THEATRE**

Buck Jones, Fox Film star, has a very difficult role in "The Branded Sombrero" which comes to Brooks Theatre Friday and Saturday.

His fight against tremendous odds wins Buck the friendship of the townspeople who are organizing to rid the county of a band of rustlers.

The rustlers put up a stiff fight, but are overcome by sheer grit.

Mr. and Mrs. Delmar McCarty spent Sunday with the latter's parents, Mr. and Mrs. I. W. Harden and family.

## June Term of District Court Will Convene Monday June 4th

District Court will convene here beginning June 4th. There will be three weeks at this term and the list of grand jurors and petit jurors are given below. The petit jury for the first week will meet June 5th.

Grand Jury, June 4th

1. E. E. Booth
2. J. E. Adams
3. A. L. Davis
4. J. M. Ranner
5. P. B. Grissom
6. C. H. Adlington
7. H. Sterling
8. Ed Hulse
9. W. M. Wilterding
10. E. T. Coloway
11. T. H. Adair
12. H. H. Carlyle
13. Whitson West
14. H. G. Harvey
15. M. W. Vaughn
16. T. C. Wiseman

Petit Jury for 1st Week, June Term

1. Cecil Robison
2. E. E. Cudley
3. C. M. Evans
4. Charley Phipps
5. Arthur Askew
6. M. A. Snider
7. A. J. Hicks
8. J. H. Beggs
9. J. T. Lindsay
10. L. R. Simms
11. Walter Ramm
12. Samuel Welch
13. V. E. Garner
14. Homer Mack
15. C. C. Ragsdale
16. L. D. Winn
17. Ray Buzard
18. T. E. Arnold
19. J. D. Campbell
20. Clyde E. Carter
21. W. A. Elmore
22. J. F. McBris
23. J. W. Parton
24. T. C. Young
25. I. P. Williams
26. C. J. Durham
27. J. R. Odom
28. Good Hardin
29. J. M. Green
30. J. V. Young
31. H. E. Schuster
32. J. M. Harris
33. L. S. Barron
34. M. A. Brumley
35. W. B. Harlan
36. W. E. Cox

Petit Jurors for 3rd Week, June Term

1. R. T. Jenkins
2. C. E. Henton
3. W. R. Hairgroves
4. Tom Farris
5. J. A. Baker
6. C. C. Huber
7. J. E. Platt
8. G. C. Morris
9. J. M. Mayo
10. G. W. Darron
11. W. R. Darron
12. Leo Gilmore
13. E. R. Hughes
14. J. De Shazo
15. J. W. Odom
16. J. J. Scribner
17. Dudley Kent
18. W. M. Starnell
19. Raymond McDaniel
20. D. C. Shofner
21. W. R. Erwin
22. J. P. Upton
23. W. R. Harmon
24. J. R. Thornton
25. D. C. Stoval
26. H. J. Weyer
27. Winfield Johnson
28. Claude Coffman
29. B. C. Done
30. J. L. Akup
31. N. H. Moore
32. H. C. Copeland
33. H. E. Witterling
34. J. M. Frazer
35. E. J. McCollum
36. R. H. Kizer

Petit Jurors for 2nd Week, June Term

1. A. C. Gade
2. J. A. White
3. G. T. Nordyke
4. W. T. Cunningham

## A Romance of Braddock's Defeat

By Hugh Pendexter

Illustrations by Irwin Myers

Copyright by Hugh Pendexter, WSU Service

### SYNOPSIS

Impoverished by the open-handed generosity of his father, Virginia gentleman, young Webster Braddock is serving as a scout and spy for the army under General Braddock preparing for the advance on Fort Duquesne. He has just returned to Alexandria from a visit to the fort, where, posing as a Frenchman, he has secured valuable information. Braddock, bred to European warfare, fails to realize the importance of the news.

### CHAPTER I—Continued

Governor Morris further mollified the fractious commander by saying: "I will send George Croghan a letter, directing him to start belts to the Iroquois. He stands next to William Johnson in comprehending Indian nature and influence over them. If any man can bring the Iroquois, the Shawnee, Wyandott, Twightwee, (Miami), and the Piankashaw, it is Croghan."

"When I last talked with Mr. Wash Morris he informed me there were three hundred Iroquois, who left the Ohio last winter, and who are now ready to march with us," said Braddock, his face losing some of its doubt expression.

I glanced at Governor Morris who fancied I detected symptoms of an easiness. He knew what I was thinking, and, while he much disliked at that time to dash any of Braddock's hopes, he announced:

"I regret, sir, that the Iroquois you mention are no longer under our control. Pennsylvania fed them from the latter part of last year until this spring. My last advice from Philadelphia is that the assembly has voted to go to no further expense in their behalf and that the Indians have returned to the Proctor."

It was disheartening news for the leader to hear. I do not know that I would have imparted it had Governor Morris kept silent. And yet it would have been deadly wrong to have blinded the general to the truth of the situation. I could have told him it was too late to send belts to the Iroquois; but as that was my belief and not an established fact my conscience permitted me to keep my mouth shut.

"After all, sir," soothed Mr. Franklin, "Fort Duquesne will fall to General Braddock's veterans and not to some of the warring allies of the natives. The tribes are with us today and accept presents from France tomorrow. And on another day they will turn their backs on us. The truth of the matter is, sir, the Indians favor neither English nor French, and would heartily rejoice if the two races would cut each other's throats. I have sent a child man was left in North America."

This speech made an impression and Braddock agreed:

"Aye. There's sound sense in that. We must depend upon the army. Thank God, the Guards have never failed England and his majesty!" I will say now that there were but two men in all the colonies of whom General Braddock unqualifiedly approved—young Mr. Washington whom I had known in my boy days, and Mr. Franklin, Mr. Washington, despite his youth—twenty-three years of age—had been requested to serve on Braddock's staff. He was very bold in opposing the general's plans when he perceived they were based on strategy learned on the battlefields of Europe, but in other days, and in wild forests and mountains Mr. Franklin was a magician at expedients, and without any show of bluster could blaze a trail where it appeared to be impassable obstacles.

General Braddock remembered I was still in the room and said something to Governor De Laney. His excellency asked me:

"Do you believe you could visit Duquesne again and pass yourself off as a Canadian?"

I believe that I could, and said so. Then his excellency proceeded to question me closely as to the physical conditions of the fort. Stepping to the table and using my finger and a pool of spilled wine I indicated the structures and was marking out the twelve-foot stockade on the river side when the general curiously interrupted:

"We understand enough of that. We shall learn all the details after we have taken over the fort. You will proceed to the fort and learn if the French have received any reinforcements. As you will travel much faster than the army, you are to secure enlistments among the provincials while traveling to and from the fort."

He dismissed me with a flit of his thick head.

Governor Morris motioned for me to follow him down the hall, and explained I was to write a letter for me to give to George Croghan. He smiled wearily and murmured:

"None of us will rest easy until the army is under way. 'Tis too bad young Mr. Washington isn't here to make things clear to the general!"

"But you have Evans?"

"Aye. We have the map," grumbled his excellency.

There are men of high station with whom I feel free to talk, but there was something chilling and repelling

about General Braddock. I almost believed he would blame the bearer of bad news. It was his firm conviction that the best of our riflemen were much inferior to his drill-sergeants. He did not seem to comprehend the difference between fighting in our gloomy forests and on a level open field in Flanders.

His contempt for our riflemen was complete. Tell him they could whip the French and outwit the Indians and he would sneer at them because

"My White Brother Has Come From the Home of His Father."

they were unable to go through their drill. Hyde Park dexterity in the manual of arms weighed more with him than the keenest knowledge of forest lore.

I was peeping the broad stairway with beautiful women from my boyhood's recollections, and was again admiring their imported brocades and velvets and marveling at their fashions in hair-dressing when his excellency finished his letter, and announced:

"Here it is, Mr. Brond. See that it gets to Mr. Croghan either by your own hand or by some trusty messenger. Be careful with it, and remember we have a bit of time now, but it'll be the devil's own stew for the French unless we get the post to hold long. Good luck on your travels and bring back your own hair."

I preferred the river bank to the crowded taverns sleeping place that night. My business from Braddock gave me immunity from any annoyance by the civil authorities, and there were homes of old friends that would have opened to me had I made myself known. I had thought to make my camp in the neglected garden of the Broad house, but the ghosts were too many, and I got no farther than the gate.

Early astril, I ate at a market-stall on the square near the Horse market. The place was lively with the rolling of drums and the clumping of heavy brogans as the regulars, with wonderful precision, swung into various formations.

The march to Frederick, Maryland was about to begin. As there was no road from that town to Wolf's creek Colonel Dunbar would have to cross the Potomac at the mouth of the Chesapeake and take the Winchester road.

My business was finished in Alexandria, and trailing my long rifle I passed once more by the house of the open hall, and started north. Clear of the town I stopped on a slight eminence and looked back and watched the cloud of dust ridden in the sun light. It hung low and settled on the meadows and robbed the first grass of its rich sheen, raising the strains of the "Granades' March," and my

(TO BE CONTINUED.)

### Simply Couldn't "See" Chow Puppies at \$50

"In front of a fashionably located dog store window containing a display of Chow puppies, I saw two Chinamen laughing and slapping each other on the back in their outbursts of glee. I don't know when I ever saw Chinamen so emotional. Out of curiosity I sauntered near and tried to see what had amused them. It wasn't any cute antics of the Chow puppies, because all were asleep. Finally I asked one of the Chinamen what they were laughing at. This brought a fresh outburst, by, after gaining control of himself, the one who seemed to have the best command of English pointed to a small sign which I had not previously noticed. It gave the price of puppies at \$50 each. That price was what made the Chinamen laugh.

"Dogs like that in China cost fifteen cents, maybe ten cents," one of them explained.

heart beat fast at the brave rolling of the drums. At last the march on Fort Duquesne had commenced, and we were off to have it out with the Frenchmen. And sickening of the dust, I picked up my rifle, struck through a noble grove of oaks and started to find my friend, the Onondaga, Round Paw of the Wolf clan.

### CHAPTER II

#### Der Hexenkopf

After passing through the Blue ridge I felt as if my visit to Alexandria had taken place in a dream. No place here for gay coats and ruffled shirts and silken hose; and what mockery would the undergrowth make of my dusty rife's exquisite matter? A buzzard quartered the sky, and I knew there would be many of them before long following the army.

Round Paw of the Wolf clan barely glanced up as I stood beside his small fire, and yet he had discovered me coming or else he would not have been seated with his scarlet blanket covering him from head to foot. I dropped on the ground and laid aside my rifle. He filled and lighted his pipe and nuzzed it through the blue smoke. After a few whiffs I returned it. "Finally he remarked:

"My white brother has come from the home of his father."

"My father is a ghost. There is no home for me in Alexandria. My father's home belongs to another."

He was silent for a few minutes then asked: "You carry belts for Onas?" (The governor of Pennsylvania.)

"I carry a talking-bird to George Croghan," I told him, tapping the breast of my hunting shirt. "The big chief from over the striking water has asked me to get men with long rifles for his army. And I have said I would go to Duquesne again. Does the man of the Wolf go with me?"

He rose and allowed his blanket to drop down on his loins. During my absence he had repainted white the paw on his chest, the totem mark of his clan, and he was about for me to know he was eager to be deep in the forests beyond the Alleghenies and was even now ready to start. Although legless I did not crack my blankets, but signified my readiness to travel. He produced some smoked meat and parched corn for me to eat and after I had finished he made up his travel-bundle, and we were off.

As I walked behind him, as much of an Indian in appearance as he, it did not for a moment occur to me to describe the gallant appearance of the army as it marched out of Alexandria. His only comment was:

"Big noise. The Shawanock—Englishmen—cannot shoot with drums."

I answered that the soldiers would have no chance to use their guns because of an insupportable condition of the fort and garrison. A year earlier when Mr. Washington marched out of Fort Necessity, the situation might have been different. Then Duquesne was garrisoned by close to a thousand men under the command of veterans.

Twelve months had seen a change in conditions. The portage at Niagara had slowed up the arrival of stores from Canada. The horses exported from Presqui Isle had not been delivered. The garrison had been weakened by the sending back of troops to Canada.

These bringing supplies from Canada arrived attired in rich velvets and furs of rare value, but with their sacks empty. Waste and confusion had blighted the fine spirit of Duquesne's defenders. I had learned this much from Captain Douglas who had readily accepted me as a loyal Frenchman.

Round Paw was never a gossip. We had traveled together for two years and there had been many days when he barely spoke. We first met on Lake Erie's southern shore when a pack of Hurons and a few Frenchmen were giving me a hard run and on the point of catching me. It was Round Paw's horse that was the terrible deluge of the Onondagas, and his deadly arrows that had caused my pursuers to slow up the chase, fearing an ambushment.

(TO BE CONTINUED.)

# Quick ENERGY FROM THIS wake-up food

Here is the wake-up food for breakfast! Post Toasties is rich in energy—and so easy to digest that it quickly releases its store of energy to the body.

To men and women it brings new zest for the day ahead. It gives children fresh energy for school and play.

And so convenient to serve! Just shower the golden flakes from the package into the bowl. Eat Post Toasties plain with milk or cream, or vary it with fruits and berries. Everybody loves the flavor—the natural sweetness of sun-ripened corn. Be sure you get genuine Post Toasties in the red and yellow package. Postum Company, Inc., Battle Creek, Michigan.

# POST TOASTIES THE WAKE-UP FOOD

### Death, Disease and Fate

Death and disease are not the handiwork of an inscrutable Providence or a cruel chance, says the Woman's Home Companion. They are instead enemies to be fought and conquered by devotion and intelligence and dogged persistence.

### Spare Your Effort

A great deal of time is wasted by trying the other fellow to have common sense. If he hasn't common sense, he won't get it, so let him alone.—Atchison Globe.

### In and Out

"How are you this morning?" "All in." "Where were you last night?" "Out."—Portland Evening Press.

### Where the Law Halts

Every good citizen has a good opinion of the law, but the opinion of some would be better if the law knew how to keep bad eggs of Juries.—Boston Transcript.

### Impossible Feat

"Why did you quit your job at the tailor shop?" "Oh, I couldn't stand sitting all day!"

### Nothing is more expensive than the things that are presented to us.

### PARKER'S HAIR BALM

Removes dandruff, restores color and beauty to gray and faded hair. Cleanses scalp, keeps hair soft and fluffy. 50 cents by mail or at drug store. Hancock Chemical Works, Philadelphia, Pa., U.S.A.

Classified ads, 10 cents per line.  
Advertising Rates on application.

**SUBSCRIPTION RATES**

In Bailey County, 1 Year .....\$1.50  
Outside of County.....\$2.00

**TRIBUTE TO COUNTRY PRESS**

The smaller newspapers of the country are the most important newspapers, and incidentally, in proportion to their circulation, their advertising results are the biggest, and their advertising rates are the smallest in the country. They are read through from end to end. Every copy of circulation means an entire family, not a family that lives in one place, but a family that has a family that owns its own house, and land around it, at least ninety times out of a hundred; a family that buys everything, from the cement on the house, to the cement on the cellar floor; from the hat on mother's head to the shoes on the boy's feet. The service that their publisher's render to the public is, in my opinion, the most important service rendered by any class of citizens in the United States. The country editors are distributors of information; they reach the minds of the boys that leave the farms, and they are the nation's mental police force," says Arthur Brisbane.

After half a century in the publication of newspapers, daily and weekly, the writer can indorse the opinion of Arthur Brisbane that the country paper is read from end to end, and the advertisements are of special interest. Where a hundred read all that is in the home weekly, only one in that hundred peruses all that is in the big city daily paper that comes to them. Large foreign advertisers are also becoming cognizant of the fact that space in country weeklies and smaller city daily papers is of real value to them.—Woodburn, Ore. Weekly Independent.

**A GOOD ARGUMENT**

We recently heard a story that is worth passing on to our readers because it touches on good roads. Men were seeking a right-of-way for a road in the Kentucky mountains. Some were giving it freely, others were charging for it. One old timer, when told the highway would run right through his garden said: "Go ahead. Take the garden. Move the house if you want to, and I'll pay the expense of moving it. I've hauled truck in the mud for forty years and now I'm through. That's my answer."

Every year finds good road supporters more numerous in this section. More and more our people are coming to realize that our salvation so far as prosperity and living conditions are concerned depends on the kind of highways we have, and the number of them. That being true, it is a bad idea for anyone to stand in the way of progress by contesting a right-of-way. If it is impossible to donate the land, then cut the cost to the lowest possible figure. No man can afford these days to block a highway improvement, because when he stands in the way of road building he is standing in his own light.

The old Kentuckian set a good example for the people of every community as well as his own. Let us hope that the same spirit will prevail in this section at any time, and every time, there is a road building proposition on foot.

So live that you can get sick and be delicious without later worrying over what you said.

Among the books with unhappy endings are check books.

A pedestrian should always have himself under control.

Most advice seldom gets any farther than the ear drum.

The world is your oyster. Don't hurt yourself opening it.

Burning your bridges behind you isn't so bad if you can swim.

It is pleasant to think of the Garden of Eden, without taxes, reformers, working hours or relatives.

Long hair, says a woman's page note, will come back slowly. Bobbed young ladies who are trying to grow it already knew that.

It can be proved without insurance statistics that careful drivers live longer.

**TELL HIM NOW**

If with pleasure you are viewing any work a man is doing, If you like him or you love him, Tell him now.

Don't withhold your approbation, Tell the preacher makes oration And he lies with snowy lilies On his brow.

For no difference how you shout it, He won't really care about it, He won't know how many tear drops You have shed:

If you think some praise is due him, It's your time to slip it to him, For he cannot read his tombstone When he's dead.

—She Selvo.

**TEXAS AND TEXANS**

By Will H. Mayes  
Politics Before Business

If one may judge from reading Texas as newspapers people of this State go "hog wild" every two years about politics, and stay in that condition about six months or one fourth of the time. The newspapers give most of the best front page positions to the views of candidates and laudatory or denunciatory expressions about them. Those elected to office leave their offices in charge of clerks and office boys and run wildly over the state to tell voters what to do to "save the country. For the time, and it is a big part of the time, business is laid aside and forgotten. The average citizen, who would like to be left to go quietly about his business, finds the pages of his paper filled with politics and with the laudation or condemnation of candidates. Business can not get the ear or either the press or the people, and has to sidestep from the view of the loud-mouthed note-seeker with his ballyhoo methods. If only one-half the energy were concentrated on the development of Texas we would have a more prosperous state of politics, this State could soon become the greatest industrial and commercial commonwealth of the world. Seemingly, no officers are to be arranged by the politicians.

**Press Agenting**

Barnum was the greatest press agent of his day. He believed that to win success as a showman was to spend one hundred times the cost of every attraction in advertising it to the public. Were Barnum in Texas during a political campaign he would be shocked that he had ever seen so modest in his claims for his attractions, for he would see that in politics the ratio of claim to real value is often more than 100 to 1. He would wonder why he had ever paid the newspapers for space that they so willingly give away so liberally to every Dick, Tom and Harry who tries to get into office or to help boost some one else into office. Running for office is now largely a matter of shrewdly working the press for space that at least many readers would like to see used for something else than political "tommyrot." This is an era of political press agenting, and the wonder is why the press is so easily worked for it all.

**Tax Rate Reduction**

A hope is held out that the automatic tax board may be able to reduce the State tax rate from 67 to 62 cents. The constitutional maximum of 30 cents for schools, 7 cents for pensions and 20 cents for general revenue purposes is now levied. It is the last item that may be scaled 5 cents. This is a small item, but tax payers will welcome even a small reduction.

**Favors State Highway Bonds**

Chairman Sterling of the Highway Commission has declared in favor of a State bond issue of at least \$50,000,000 for building permanent State highways. The interest to be paid and bonds to be retired with a 3 cent gasoline tax. He would retire the county bonds that have already been issued, giving the counties credit on the present valuation of their roads. He thinks the Commission could advantageously spend \$40,000,000 to \$50,000,000 a year on the State highways, whereas now from \$15,000,000 is being spent.

**Menard Improvements**

Picking up the Menard Enterprise at this time of the year one is invariably tempted to lay aside all duties and cares and go to the enticing streams, the alluring hills and the cooling breezes of that section. When the Enterprise really gets started to tell about its section for an outing or a vacation it is difficult to stick at a typewriter a day longer. To its former attractions the Menard country has added numerous tourist camps of up-to-date type and at Menard a modern hotel that would be a credit to any city.

**Valley Road Systems**

The road system in three counties in the lower Rio Grande Valley when completed according to present plans, will cost approximately \$10,000,000. The counties that believe in building roads of a kind that will stand the usage of the future development will require are Cameron, Hidalgo and Willacy. Cameron was among the first counties in Texas to build concrete highways and has been so pleased with them that the people of that part of the state are not satisfied with anything short of the best roads that money can buy.

**Texas Tube Roses**

It is not generally known that many of the imported "tube" roses so valued in this country are grown at New Braunfels shipped to Holland, then back through New York and Philadelphia and sold through different parts of the United States, including Texas, as Holland tube rose bulbs. Yet it is so.

Mr. and Mrs. J. M. March and little daughter, left Saturday for Hollis, Oklahoma, to visit relatives there. Mrs. March and daughter will remain for several weeks, while Mr. March is expected back the latter part of this week.

**ONE-VARIETY COMMUNITIES, EASY WAY TO PRODUCE BETTER COTTON**

SEARS-ROEBUCK AGRICULTURAL FOUNDATION

No way to produce larger yields per acre of better cotton which will command higher prices can be applied so easily and cheaply as the method of growing one variety in a community, says the Sears-Roebuck Agricultural Foundation.

It is virtually impossible for the individual farmer to maintain pure seed owing to the unavoidable mixing of seed that takes place at the public gins. It has been shown that as much as one-fourth of the seed delivered to a farmer may be seed of a different variety from the preceding customer's crop. Owing to this inevitable mixing of varieties, crossing in the fields takes place and the cotton "runs out," compelling the farmer to go outside the community for fresh seed.

This "running out" is accompanied by deterioration in the length of staple of which both domestic and foreign buyers complain. As a result, it is becoming increasingly difficult to obtain large lots of clean running cotton of good length, and a high percentage of the American crop must compete with the short staple cotton of India and China. Those countries probably can produce such cotton at lower cost than American growers. The demand for better cotton has been increasing while the average quality of the cotton produced has been declining. Today the mills want cotton of a higher average grade and staple length than that of the American crop, according to studies made by the United States Department of Agriculture.

Varieties of early, prolific cotton, of 1 to 1 3/8 inch staple, have been developed, so that there is little excuse for growing cotton under 1 inch in length in most parts of the United States. While a larger number of communities have organized to produce one variety in recent years, reliable observers have estimated that about 90 per cent of the seed planted in mixed gin run, the Foundation states.

Aside from the fact that organizing to produce cotton on a one-variety community basis makes it possible to produce larger yields of superior cotton per acre, the quantity grown in this way becomes large enough so that buyers will pay full commercial value for it. Usually they will not do this when only a few loads of superior grade are offered in communities where most of the crop is inferior short-staple cotton.

**PRINTING That Gets Results**

It is not necessary that you be an advertising expert to get results from advertising. We are in position to secure for you any cuts and copy that you want. Ask us to help you, we are always at your service.

**WEST TEXAS COW SETS PRODUCTION RECORD AT TEACHERS COLLEGE**

A new high record for Texas has been established in the senior three-year-old class by the pure bred Jersey cow, Gambogea Fox's Little Agatha an outstanding producer owned and tested by the West Texas Teachers college at Canyon. In her latest test which was started when she was 3 years and 6 months of age, Little Agatha produced 736.96 pounds of butter fat and 13,215 pounds of milk in 365 days. Her milk averaged 5.58 per cent butter fat for the year. For three successive months of this test her

yield was above 71 pounds of butter fat month.

With this splendid record Agatha surpasses Majesty's Oxford Madame, a cow which held this age class championship with her record of 719.40 pounds of butter fat and 11,823 pounds of milk.

The new champion was also tested as a junior two-year old and in that test she made a very creditable record when she produced 602.80 pounds of butter fat and 10,761 pounds of milk in 365 days.

The sire of this champion is Gambogea Fox's King and her dam is the gold and silver medal cow, Gambogea Fox's Agatha, which holds the senior

four-year-old 305-day championship for Texas with her record of 628.93 pounds of butter fat and 12,314 pounds of milk. Little Agatha's half-sister Agatha's Little Girl, formerly held the state record in the yearling class.

Gambogea Fox's Little Agatha was bred by Howard Ferguson of Amarillo and was sold to the college as a yearling. She was senior and grand champion of the first annual Texas Panhandle-Plains dairy show in Plainview and first in the News-Globe production contest.

In Chicago half the population is praying for the city and the other half praying on the city.

**NOTICE OF TRUSTEE'S SALE**

STATE OF TEXAS, COUNTY OF BAILEY

WHEREAS, on October 26th, W. S. LARD executed and delivered to J. H. Paul and F. A. Paul fifteen (15) vendor's lien notes each for the principal sum of \$253.65, bearing interest from January 1, 1926, until maturity at six per cent per annum, and from maturity until paid at the rate of ten per cent per annum, interest being payable on the first of each year, beginning January 1, 1927, said notes being due and payable on or before one to fifteen years after January 1, 1926, respectively; and providing for ten per cent attorney's fees or collection fees; and also providing that failure to pay either of said notes of any interest thereon when due, shall, at the option of the owners said holders thereof immediately mature all of said indebtedness; and said notes having been executed in part payment for all of Labor No. Nine (9), out of League No. 196, located in Bailey County, Texas, original grantee Lubbock County, containing 1771 acres of land; and

WHEREAS, on the 28th day of October, A. D. 1925, W. S. Lard executed and delivered to J. C. Paul, trustee, of Potter County, Texas, a deed of trust further securing the payment of said notes for the use and benefit of J. H. Paul and F. A. Paul, beneficiaries named therein, said deed of trust covering the lands above described and fully describing said indebtedness, and being recorded in Volume 8, at page 21, Records of Deeds of Trust, Bailey County, Texas; and

WHEREAS, the makers of said notes have defaulted in the payment of principal and interest thereon due, and J. H. Paul and F. A. Paul, the owners and holders of said indebtedness have elected to declare all the indebtedness due and provided in said deed of trust, and as provided in said deed of trust, requested me, the said J. C. Paul, trustee, to advertise said lands for sale as provided in said deed of trust and to enforce said trust;

NOW THEREFORE, NOTICE IS HEREBY GIVEN TO ALL PERSONS CONCERNED: That I, as trustee under the deed of trust aforesaid, will offer the above described land for sale on the fifth (5th) day of June, A. D. 1928, between the legal hours thereof, to-wit, between the hours of 10 o'clock A. M. and 4 o'clock P. M. at public auction to the highest bidder for cash, said date being the first Tuesday in June, 1928, at the courthouse door in the town of Muleshoe, Bailey County, Texas; the land to be sold under and by virtue of said deed of trust being all of Labor No. Nine (9), out of League No. 196, located in Bailey County, Texas, original grantee Lubbock County, containing 1771 acres of land; together with all of the rights, members and appurtenances thereto in anywise belonging.

WITNESS MY HAND, this 2nd day of May, A. D. 1928.

J. C. PAUL, Trustee

NOTICE OF TRUSTEE'S SALE STATE OF TEXAS, COUNTY OF BAILEY

WHEREAS, on January 1, 1925, W. R. REDDEN executed and delivered to J. H. Paul and F. A. Paul eleven (11) certain vendor's lien notes, Note No. 1 for \$478.00 due one year after date and two Notes, Nos. 2 to 11 inclusive for \$400.00 each, due two to eleven years after date, respectively, bearing interest from January 1, 1925, until maturity at the rate of six per cent per annum and from maturity until paid at the rate of ten per cent per annum, interest being payable on January 1st of each year, beginning January 1, 1926, and providing for ten per cent attorney's or collection fees; and also providing that failure to pay either said notes or any interest thereon when due, shall, at the option of the owners and holders thereof immediately mature all of said indebtedness; and said notes having been executed in part payment for all of Labor No. Twenty (20) out of League No. 196, located in Bailey County, Texas, original grantee Lubbock County, containing 182.6 acres of land; and

WHEREAS, February 23, 1925, the said W. R. Redden executed and delivered to J. C. Paul, trustee, of Potter County, Texas, a deed of trust further securing the payment of said notes for the use and benefit of J. H. Paul and F. A. Paul, beneficiaries named therein, said deed of trust covering the lands above described and fully describing said indebtedness, and being recorded in Volume 8, at page 22, Records of Deeds of Trust of Bailey County, Texas; and

WHEREAS, the makers of said notes have defaulted in the payment of principal and interest thereon due, and J. H. Paul and F. A. Paul, the owners and holders of said indebtedness have elected to declare all the indebtedness evidenced by said notes due and payable, and have elected to foreclose their deed of trust thereon, and as provided in said deed of trust, requested me, the said J. C. Paul, trustee, to advertise said lands for sale as provided in said deed of trust and to enforce said trust;

NOW THEREFORE, NOTICE IS HEREBY GIVEN TO ALL PERSONS CONCERNED: That I, as trustee under the deed of trust aforesaid, will offer the above described land for sale on the fifth (5th) day of June, A. D. 1928, between the legal hours thereof, to-wit, between the hours of 10 o'clock A. M. and 4 o'clock P. M. at public auction to the highest bidder for cash, said date being the first Tuesday in

June, 1928, at the courthouse door in the town of Muleshoe, Bailey County, Texas; the land to be sold under and by virtue of said deed of trust being all of Labor No. Twenty (20) out of League No. 196, located in Bailey County, Texas, original grantee Lubbock County, containing 182.6 acres of land, together with all of the rights, members and appurtenances thereto in anywise belonging.

WITNESS MY HAND, this 2nd day of May, A. D. 1928.

J. C. PAUL, Trustee

**NOTICE OF TRUSTEE'S SALE**

STATE OF TEXAS, COUNTY OF BAILEY

WHEREAS, on December 24, 1924, S. T. ECHOLS and wife, STELLA ECHOLS, executed and delivered to J. H. Paul and F. A. Paul, fifteen (15) vendor's lien notes each for the principal sum of \$222.45, bearing interest from January 1, 1925, until maturity at six per cent per annum, and from maturity until paid at the rate of ten per cent per annum, interest being payable on January first of each year, beginning January 1, 1926, said notes being due and payable on or before one to fifteen years, respectively after date, and providing for ten per cent attorney's fees or collection fees; and also providing that failure to pay either of said notes or any interest thereon when due, shall, at the option of the owners and holders thereof immediately mature all of said indebtedness; and said notes having been executed in part payment for all of Labor No. Twenty-four (24) out of League No. 199, located in Bailey County, Texas, original grantee Lubbock County, containing 1711 acres of land; and

WHEREAS, on June 13, 1925, the said S. T. Echols and wife, Stella Echols executed and delivered to J. C. WITNESS MY HAND, this 2nd day of May, A. D. 1928.

J. C. PAUL, Trustee

**Today's Recipe**

(By Betty Barclay)

**FRUIT BLISS**

2-3 cup sugar  
1-3 cup water  
2 egg yolks  
1/2 cup lemon juice  
Red color paste  
3 cups fruit  
Boil sugar and water five minutes. Pour over egg yolks, cook over hot water until thick, stirring constantly. Add lemon juice and red color paste and chill. Pour over fruit, using peaches, oranges, red cherries and strawberries cut in pieces. Serve very cold. Serve six.

**TOASTED RAISIN SANDWICH**

1-2 cup chopped American cheese  
1-2 cup netcars raisins  
6 drops tabasco sauce  
1/2 cup butter  
Plump raisins, drain and chop, using a coarse cutter. Blend raisins with cheese and spread on thin buttered slices of bread. Put slices together as a sandwich and toast on both sides. Serve hot.

**VANILLA JUNKET ICE CREAM**

(two quarts)  
1 quart milk  
1-2 pint cream  
1 cup sugar  
2 junket tablets  
1 tablespoon vanilla  
Mix cream and milk together, and add to lukewarm—not hot, then add sugar and vanilla. Dissolve junket tablets in the cold water, add to the milk and mix well. Then pour immediately into the freezer can, and let stand in a warm room until firm—about 20 minutes. Place can in freezer, with the cover on, and freeze slowly to a thick mush, then finish freezing rapidly.

**SCALLOPED DISHES**

Pour over layers of well-seasoned meat, fish or vegetable enough medium cream sauce to cover. Sprinkle well with butter, crumbs and bake until brown. When combined with starchy dishes such as potato or macaroni, use thin cream sauce. Medium cream sauce calls for 1 cup milk, 2 tablespoon butter. Thin cream sauce calls for 1 cup milk, 1 tablespoon flour and 1 tablespoon butter.

**LIGHT LUNCH CROQUETTES**

Two cups left-over meat or fish may be mixed with 1 cup thick cream sauce for croquettes. Mold in desired shape, roll in dried bread crumbs, then in beaten egg, again in bread crumbs and fry in hot fat. Thick cream sauce calls for 1 cup milk, 1-3 cup flour, 3 tablespoons butter, 1-2 teaspoon salt and a touch of pepper.

**RHUBARB PUNCH**

1 quart rhubarb  
1 quart water  
1-3 cup orange juice  
4 tablespoons lemon juice  
1-2 cups sugar  
Few grains salt  
1 pint mineral water  
Cut rhubarb in small pieces, cook with water until fruit is soft. Strain through double thickness of cheesecloth, add orange juice, lemon juice, sugar syrup and salt. When ready to serve pour over a cake of ice in a punch bowl and add mineral water and allow to stand in refrigerator. Makes 8 glasses; 24 punch glasses.

**OUR NEW FRONTIER**

In the past history of our country there have been no imaginary lines that marked a division in the geography of the nation. For a century the plainly understood meaning of frontiers was the movable line of settlement by population extending westward from the Atlantic ocean. The new frontier of today is a great line of continual advance moving steadily from the northeast to the southwest, finally to drop into the Gulf of Mexico and the Pacific.

**GENTS PREFER BLONDES**

George: "I love your dark eyes, your raven hair—everything about you." Beulah: "I love you, but I have a little gray home in the west." Georgette: "I would dearly, were it not for..." George: "For what?" Georgette: "That little blonde hair on your vest."

ONE factor more than any other will determine the number of miles left in your car. That factor is lubrication. Feed your motor the right oil regularly and you'll prolong its life indefinitely. Feed it the wrong oil—then watch it wear out.

Conoco Motor Oil specializes in keeping cars young. It protects the moving parts—thus reducing wear and tear and staving off "old age." Conoco Motor Oil fights friction—the motor's worst enemy—and clings to the cylinder walls with its constant oily film under practically all conditions of motor operation and strain.

There's a particular grade of Conoco for your motor. Ask for it.

**CONTINENTAL OIL COMPANY**

Producers, Refiners and Marketers of high-grade petroleum products in Arkansas, Colorado, Idaho, Kansas, Missouri, Montana, Nebraska, New Mexico, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington and Wyoming

**Gay Little Hats for Summer**

MULESHOE TEXAS

Agent for Warren Addition.

**MONEY RAISED FOR NEW BUILDING, UNIVERSITY TEXAS**  
Austin, Texas.—More than \$400,000 has been pledged to the University of Texas Student Union Building fund during the two months the campaign has been under way, according to W. L. McGill, vice-chairman of the campaign committee.  
A trifle less than \$100,000 remains to be raised before the Ex-Students Association can meet its contract with the Board of Regents calling for \$500,000 from the Association to be added to \$600,000 appropriated by the Board for the construction of three campus buildings. The recent campaign on

the campus "went over the top," according to McGill, and campaigns are now under way in Austin, Houston, Fort Worth and Dallas.  
If the Association fails to raise \$500,000 plans for the immediate construction of the buildings will be cancelled. The Regents have announced, as all the available university building funds will be required for the library addition and the new chemistry building.

This is the time of year when a man begins thinking where he would like to go on his vacation and wondering where his wife is going to take him.

**Paint Your Home**

Before you choose the paint for your house, come in and see our Lowe Brothers High Standard Paint. By making that your first step you will save yourself a lot of time and worry. We can supply you with your first need for a good job—the right kind of paint!

Our Stock is complete, and we are equipped to give you the best of service.

Learn from us the remarkable qualities of High Standard. About its unusual covering capacity. About its great durability. About its rich and beautiful colors. And how it will both beautify and protect your home at a remarkably low cost.

Call and get one of our color charts.

**Prizes for Best Cotton Stalks**

A National Single Stalk Cotton Show which will award approximately \$10,000 in prizes was the basis of an announcement recently made over WFAA, the Dallas News—Sears Roebuck Radio Station by Robert E. Poole of the Sears Roebuck Agricultural Foundation at Dallas.

In the belief that successful cotton production is built around the producing ability of the single stalk the Agricultural Foundation co-operation with the Soil Improvement Committee of the National Fertilizer Association will award twenty-eight prizes in the Southwest territory including the states of Texas and Oklahoma. The Judges of the show, who will be outstanding cotton authorities from the Southwest, will award to the grower of the best single stalk of cotton in the territory named a cash prize of \$500. To the grower of the second best stalk \$250, third best \$200, fourth \$150, and numerous other prizes for the runners up, scaling down to \$50, for the last prize. In the possible event of a tie, the duplicate award will be made. The contest is open to every cotton grower, landlord or tenant, man, woman or child, in the territory named. There is only one condition to the contest. The entry must be selected from a field containing not less than one acre. The cotton when matured will be sent to the Agricultural Foundation at Dallas and will be judged during the Texas State Fair where it will be on exhibition during the judging period.

Another feature of the show will be the awarding of expense paid educational trips to South Hughes Vocational Agriculture Teachers whose efforts in the community are outstanding. The trips to be taken anywhere in the United States will be awarded to the South Hughes teachers who give evidence of the best work in community standardization of varieties by encouraging the grower in one or two varieties best to the soil, climate and market conditions of their respective communities.

Similar shows, offering identical prizes, will be held about the same time in Atlanta representing the Southeast and Memphis representing the Midwest. The prize winning stalks in all three shows will be taken to Memphis during the Tri States Fair at which time the best stalk in the entire South will be awarded the capital prize of \$1,000. This prize will be in addition to the regional prize.

"The interest that has been displayed, since the radio announcement," declared Mr. Poole, "is very encouraging. We are going to broadcast cotton authorities and suggestions for entrants all during the growing season. From the number of letters from farmers who desire to enroll, the show is meeting with no little enthusiasm in the field."

**SUMMER SESSION AT A. & M. BEGINS JUNE 11**

College Station, Texas, May 15.—The summer session at the A. & M. College of Texas will begin June 11 and continue until Sept. 1. Dean C. H. Winter, chairman of the faculty executive committee for the session, has announced. Registration for the session last summer and the various short courses, exclusive of the Farmers Short Course, was in excess of 800, and indications point to an enrollment as large or larger this summer.

The summer session proper will be divided into two terms, the first term from June 11 to July 21, and the second from July 23 to September 1. Registration will be open to both men and women. In addition to the academic work in the college, the first term will also include the following divisions: Summer School of Cotton, June 11 to July 21; Course for Cottonseed Oil Mill Operators June 11 to June 20. Short course for Graduate Veterinarians will be held June 18-22, and three weeks of the vocational agriculture teachers July 2-21.

Short course in cotton breeding will be held during the second term, the dates being July 20-Aug. 4. During this period the fifth annual conference of county school superintendents will be held. Bulletin of the summer session schedule is available at the college.

**SUMMER SCHOOL TO OPEN IN CANYON**

With commencement only two weeks off, the West Texas State Teachers College is busy making preparations for the largest summer school in its history.

The summer session will last for twelve weeks divided into two six weeks terms. There is much demand for advance courses by students who have finished the first two years of their college work. The faculty will include seventy-five members most of them of the regular faculty with a few additional from the outside. Work will be offered in twenty different departments.

A large number of desirable living quarters are available this year than ever before and expenses are unusually low in Canyon. Recreational hours which have been arranged for the week ends into the mountains of New Mexico are attracting many students from many parts of Texas and other states. The summer session opens June 5th with President J. A. Hill in charge and with Dr. R. P. Jarrett as Dean.

Now that Henry Ford has struck oil on one of his properties we suppose that ends his chances as a presidential prospect.

**DAIRYMEN INTERESTED IN JERSEY CATTLE**

Dairymen of Randall, Potter, Deaf Smith, Swisher, Carson, Floyd and Hale counties who are interested in Jersey cattle have just purchased a set of 113 volumes of the American Jersey Herd Record books. These books will be placed in the library of the Agricultural Department of the West Texas Teachers College and will be in charge of Mr. T. M. Moore.

All persons who have contributed to the purchasing fund will have access to the books. This is the only set of its kind in the Panhandle and the records are complete through the years 1871 and 1925. Some of these volumes will never be put in print again because of copyright. They are of special interest to all breeders of pure bred Jerseys.

This set of books was located by W. H. Upchurch, county agent of Randall county, and was immediately purchased. The books will enable breeders to get all the information about Jerseys without the expense of having to have it looked up at headquarters.

Those who have contributed to the purchasing fund are Randall county, T. H. Moore, Frank R. Phillips, W. H. Upchurch, Canyon Chamber of Commerce, T. W. Duffel, J. W. Shanklin, Swisher county, Joe W. Vaughn, S. J. Payne, E. E. Frye, R. C. Nichols, S. P. Atchley First Nat Bank, Tulla, Bank & Trust, Hale county, J. P. Patterson, Britz, Puchs, H. O. Pettit, J. R. May, Luther Griffin, Potter County, H. A. Ferguson, J. A. Bush, E. F. Lanham, Carson county, George P. Grout, Floyd county, O. L. Stansell.

These individual contributions range from five dollars to twelve dollars and fifty cents.

**NEW MEMBER TECH FACULTY**

Lubbock, Texas.—Miss Bonnie K. Dysart, a practical educational psychologist of wide experience, has been added to the faculty of Texas Tech, according to Dr. A. W. Epaus, head of the department of education. Her special work in Tech will be social psychology. Dr. Evans says that Miss Dysart is one of the leading teachers in the field of primary education and that her coming to Tech will add much to the prestige of this phase of the work.

Miss Dysart has been primary supervisor at Roswell, N. M., at Amarillo, and for years was head of this work in the San Antonio schools. During the past year she has been in charge of primary education in Williamson county under the new state law making the county an educational unit. Miss Dysart has an M. A. Degree from the University of Texas, and has done graduate work in the University of Chicago.

**NOTICE OF SALE**

**IN THE UNITED STATES DISTRICT COURT FOR THE NORTHERN DISTRICT OF TEXAS, WICHITA FALLS DIVISION**  
Universal Oil Products Company  
Vs.  
American Refining Co., Inc., et al.  
No. 226

In Equity  
**NOTICE OF SALE OF ALL AND SINGULAR ASSETS OF M. J. BASHARA**

Pursuant to an order of the United States District Court for the Northern District of Texas, Wichita Falls Division, dated March 2nd, 1926, and filed the 16th day of March, 1926, in the above cause, the undersigned as Receivers of the estate of M. J. Bashara will offer for sale and sell at public auction on the 2nd day of June, A. D. 1926, beginning at 10:00 A. M. at the Court House door Wichita County, Texas, all and singular assets, rights, claims, properties, real estate and personal property, including good-will, cash and accounts receivable and in fact every kind of property belonging to the estate of M. J. Bashara, included in which is the following properties in Bailey County, Texas: Reference made to the order, Parcel No. 14.

**Bailey County Farm:**  
Being 4427 acres in Bailey County, being 1504 acres out of League 193, Abstr. 332, consisting of Labor Nos. 1, 2, 3, 8, 9, 10, 12, 13 and 19. Also 2833 acres out of League 194, Abstr. 334, and consisting of Labor Nos. 1 to 10 inclusive and 14, 15, 16, 17, 24 and 25.  
**ENCUMBRANCES:** There is a lien against this property in the amount of \$28,882.20 payable to the County Treasurer of Bailey County, Texas. This lien matures September 10th, 1929 and bears 5% interest payable semi-annually in advance on September 10th. Reference made to the order of sale in above cause for the conditions thereof, and schedule of all properties is on file in the office of the Receivers at Room 315 of the City National Bank Building, Wichita Falls, Texas.

Witness our hands this 14th day of April, A. D. 1926.  
**JOHN W. HOOSIER,**  
E. H. EDDLEMAN,  
J. C. MYTINGER,  
Receivers for M. J. Bashara.

**NOTICE**

**THE STATE OF TEXAS:**

To the Sheriff or any Constable of Bailey County, Texas:

You Are Herewith Commanded to summon Vaughn Winn by making publication of this citation once in each week for four consecutive weeks previous to the return day hereof in some newspaper published in your County, to appear at the next regular term of the District Court of Bailey County, to be holden at the Court House thereof in Muleshoe, on the First Monday in June, A. D. 1926, the same being the 4th day of June, A. D. 1926, then and there to show cause why he should not be committed to the custody of said Court on the 19th day of April, A. D. 1926, in a suit, numbered on the docket of said Court No. 270, wherein Nancy Jim Winn is Plaintiff and Vaughn Winn is Defendant, and a brief statement of plaintiff's cause of action, being as follows:

That plaintiff has lived in Bailey County for more than six months and the State more than twelve months preceding the filing of this suit; That plaintiff is a duly married man and defendant on the 20th day of December, A. D. 1925, her maiden name being Nancy Jim Cox, and that said marriage relation still exists, and they were separated on or about July 15th, 1927, since which time they have not lived together; that prior to their separation plaintiff had contributed to a sanitarium on account of ill health; that as soon as she was discharged therefrom she went to the home of her mother to recuperate her health, at the suggestion of her husband, which was estimated to require about two weeks, and while there defendant wrote her to remain there as he was not coming after her, after which he went away and never returned, and she never heard from him again; that plaintiff is of a sensitive nature, and the conduct of defendant mortified her so much that she pined away; the said treatment of defendant toward her constituted cruel treatment of such nature as to render her further living together insupportable.

Herein Plaintiff Not but you before said Court, at its next regular term, this writ will return, and you are showing how you have executed the same.

Given under my hand and seal of said Court, at office in Muleshoe, Texas, on this 15th day of April, A. D. 1926.  
C. C. MARDIS, Clerk, District Court, Bailey County, Texas.  
By Lola Lipscomb, Deputy.

The only tires good enough for our store are

Here's the way we look at it: *To be the best tire dealers in town we must have the best tires!* That's our aim—to be the best in town! So' there just isn't any other way about it—We sell Goodyear Tires exclusively.

**WE KNOW OUR RUBBER**

Believe us, we have put in a long, long time in the tire business. We know just why some tires won't do at all. You may sell a man one of them, but he'll never come back for more. We want every customer to remember us when he needs a tire—and Goodyear Tires satisfy.

**Complete Price Range**

Goodyear provides us with a complete line of tires—Goodyear All-Weather Tread Balloons, known as the "World's Greatest Tire," for the man who wants the best tire at any price. And then, for the man who wants a low-priced tire we have the Goodyear Pathfinders. A remarkable tire at low figure.

*With every tire we sell goes real tire service—we put it on properly; see that the tube is correctly installed and inflated, and see that everything is going right to make your tires last a long time.*

NEW COTTON CHOPPER INVENTED

The invention and perfection of a new and improved mechanical cotton chopper was announced on April 10 by one of the well known manufacturers of farm operations in Texas. This chopper represents the results of several years of experimental work in the cotton growing regions of the United States, and as a result is adapted to the physical requirements of the soil and cultural methods of every section of the cotton belt. It is estimated that the mechanical chopper will replace from eight to twelve hand choppers with a saving of \$20 to \$30 a day to the cotton grower who uses it.

Any desired distance between plants left standing in the row may be obtained with the mechanical chopper. It is claimed by the inventors. The chopping mechanism is simple in construction and is adaptable to high or low ridges and level land work. The chopping mechanism can be raised from the ground at the end of the row by a lever arranged within convenient reach of the operator. The hoe conforms to the unevenness of the ground as the depth and vertical action are controlled by a set of shoes which work automatically with the forward motion of the machine.

In addition to chopping the surplus cotton plants, the new machine destroys weeds and grass in the row and lifts them clear of the row by the action of the mechanical hoe. The machine is simple to operate and can be easily handled.

A harrow attachment is also provided for cultivating between the rows to destroy weeds and break up the soil crust at the same time the chopping is done, it is claimed.—Farm and Ranch.

CANNING FOR A BETTER MENU

Fruits and vegetables are so necessary to health that they can be omitted only with danger of injury in the long run. They are especially necessary in the diet of children of all stages of growth. The iron of the vegetables, the wholesome acid of the fruits, the cellular tissue of both are all included in Nature's plan for health. Fruits and vegetables should be served daily, but how can this be done in any but a tropical or sub-tropical climate? The house wife who cans is not only saving money and saving time; she is also conserving health.

Any room or dry cellar will be found suitable for storing canned vegetables. They should always be kept out of direct sunlight.

In selecting a jar, always give preference to those having wide mouths, and cleaning whole fruit or vegetables and cleaning out the jar the wide mouth will be found decidedly preferable. When buying, examine every jar, take off top and run your finger around the under edge; if it has the smallest crack or broken place, reject it.

R. A. Sorrells of Mangum, Oklahoma, was a business visitor in the city the first of the week.

Mrs. J. M. March and daughter, Mrs. Miss Marie Arnold were visitors Friday afternoon.

KNOW TEXAS

Texas last year produced a wheat crop of 17,945,000 bushels valued at \$21,713,000.

Last year Texas produced 81,200 tons of cabbage valued at \$2,436,000. Nearly all of it was raised in the Rio Grande Valley.

Texas is the leading producer of the Bermuda onion. In 1926 the state produced 2,552,000 bushels valued at \$3,402,000.

Only five crops—cotton, corn, wheat, oats and grain sorghums—produce more annually than the sweet potato crop in Texas. The yearly value is almost \$9,000,000.

The most rapid gas development in the United States is going on in Texas. Last year more than 2,500 miles of pipe lines were laid over the state.

Rev. and Mrs. W. B. Hicks and children returned Tuesday from a visit in Memphis, Texas with relatives.

E. W. Jennings of Lutzabuddy, was attending to business matters here Tuesday.

Mr. and Mrs. Dave Hendrickson of Oklahoma, were visitors in Muleshoe last Saturday.

G. M. Hickey of near Littlefield was attending to business matters here last week.

According to local dealers, many new tractors and combines are being sold since the rains of last week. Muleshoe Motor Company sold two combines Wednesday. Several tractors have also been sold and delivered by Hart Lumber Co. it is understood.

I. W. Haney is suffering from a slight attack of the flu this week.

Messrs. A. L. and John Davis of Fairview were shopping here Monday.

J. M. Ellison, of Corsicana, Texas, was a prospector to this section last week. He says that in his opinion Bailey county has the best land in the Plains, especially around Muleshoe.

Alva Martin of Quanah, Texas was a caller at the Journal office last Saturday. He was looking for a new location.

NEGLECTED BRANCH OF THE POULTRY INDUSTRY

The Poultry Craftsman, published in Los Angeles, calls attention to the fact that California poultrymen are almost entirely breeding for egg production, and that well-fed heavier breeds are very scarce in the market.

The same may be said of Texas and many other states of the Union. Where one sees a flock of standard-bred heavy birds, he will see three or four flocks of Leghorns.

Breeding for egg production throws a large number of lightweight chickens on the market. While it is true that Leghorn broilers, if well fattened, make excellent meat, the hundreds of old hens and culls from the laying flocks depress the market and do not make for larger consumption of poultry.

Certainly there is one branch of the poultry industry that is neglected. Large, rapidly-maturing chickens especially prepared for the market should be in good demand at profitable prices. This is especially true if the producer would send to market birds of the same age and of uniform color. Consumers buy chickens on looks quite as often as they buy other meats.—Farm and Ranch.

FOR SALE—Piano, vacuum cleaner, refrigerator and buffet. Priced right. See D. A. Dodson, Muleshoe. 2-tp.

STRAYED—Two bay mares. One weighs about 1,000 pounds, no brand. Other weighs about 900, branded U-Bar. Reward. Notify J. A. Morgan, Muleshoe.

NEWSPAPER HELD

MOLDER OF WORDS

The standard of American speech is the American newspaper, whether read in New York, New Orleans, San Francisco or Chicago and the power of the press in molding usage of words is mightier than a steam roller. William R. Bowlin, for years teacher of English and now principal of the Fulton school, told members of the Chicago Woman's Club, speaking under the auspices of the American speech committee.

Teachers who turn up their noses when newspapers are mentioned, declared Bowlin, must come eventually to realize that the newspaper is the molder of the American language.

Deputy Sheriff Sam Hoffman was attending Federal Court in Amarillo last week.

Mrs. Bland Dennis, of West Camp, is very ill with pneumonia.

Frigidaire gives care-free refrigeration

—and more time to play

DAYS in the country—week-end trips—vacations. You'll enjoy them doubly if there's a Frigidaire at home.

While you're away, direct frost-cooling maintains a constant cold-storage temperature in the food compartment. Yet its operation is entirely automatic. It requires none of your thought or attention.

In the self-sealing freezing trays you can make frozen desserts quickly and easily. And these same trays freeze an abundance of crystal ice cubes from your own pure drinking water. Thus you are entirely independent of outside ice supply.

Come in today and see the new Frigidaire models. Or write for free booklet.

Tale of Village Firemen

By RING LARDNER

To the Editor: I won't give so hint as to the identity of the town where the scene of this little article is laid only to say that it is a suburb of the largest city east of Green River, Wyoming, and can be reached by motor from the midst of the large city referred to in 35 minutes.

Well, like practically every town of a population of 12 and upwards this town has got a fire dept. and like a whole lot of them, this fire dept. is well known as a volunteer fire dept. which means that the members all volunteered to get nothing but glory. Well, they're a man living in this town who is in the theatrical business in one way and another one day the chief of the fire dept. asked him would he join the fire dept. and he says yes on acct. of being public spirited. So he bought himself a rubber coat and a helmet and a pair of rubber boots and staid home several nights with the windows open so as he would see and hear what is known in the town as the sirens.

Well, the siren did not blow and did not blow and finally our hero, who we will call Mr. Klout, recd. a card saying they would be at a meeting of the dept. at the fire house the following night and would be please try and attend. The dept. meets once every 2 weeks to discuss prohibition. Well, Mr. Klout attended the meeting and pretty near all the members was there and he knewed the most of them. The chief is a building contractor and the ass't chief is the town's most prominent plumber. Others who he recognized was all well known citizens in various walks of life. Among them was the dentist, the manager of the gas company, a plasterer, a painter, a mason, a paper hanger, an insurance man and etc.

Well, they sat around the whole evening and disgusted prohibition and the siren did not blow, but the meeting could not be adjourned more than 5 or 10 minutes when it did blow and the firemen rushed back to the fire house and clamb aboard the 2 vehicles with which the dept. is equipped.

Mr. Klout happened to board the same vehicle as the chief and the both of them was right close to the driver. "Whose place is it?" shouted the chief as the vehicle started moving down Boulevard. "L. M. Taylor's," the driver shouted back. L. M. Taylor being the town's millionaire, worth more than \$100,000. "What's that?" the chief burred," shouted the chief and the driver slowed down a little, while Mr. Klout did not know what it signified.

Well, they got to the fire and it did not look like a very big fire, but such a big house and in fact Mr. Taylor's Chinese help had just about put it out with the aid of a few seltzer bottles, but the fire dept. seemed to think the danger was unwarmed near assess and while some of them connected a couple of sections of hose with the nearest hydrant, others entered the house through the front and back doors and up ladders through the 2d story windows and began welding zinc axes vs. wire cutters and etc. One stream of water was turned on the entire upstairs and another on the ground floor and in a few minutes the family and the servants were the firemen moving hither and thither was ineffectively shouting ship ahoy.

Mr. Klout strayed into the bathroom soon found the ass. chief cutting holes in the different pipes. "Safety first," said the ass. chief. "Many a home has burned to the ground on acct. of hidden flames in the plumbing." Mr. Klout walked into a master bedroom on the 2d floor and seen 2 firemen with axes excavating the floor. "Safety first," said one of them. "If we should find a gas stove in a hurry they'd be a panic on the stairs so it is best to have a place big enough to throw through."

Mr. Klout encountered Mr. Taylor, the owner of the house. A couple of firemen was talking to him. "Was you covered by insurance?" asked one of them. "Not fully," says Mr. Taylor. "Well," says the fireman, "this should ought to learn you a lesson."

"This fire," said the other fireman to Mr. Taylor, "was caused by defective wiring. If you would use gas for light a thing like this could not happen."

Mr. Klout next met Mrs. Taylor and her two kids in company with still another fireman. The lady and the kids was open mouthed with horror, and the fireman was looking into their mouths. "Mindin'," he says, "you have got a nice little case of pyorrhea and your kids has got cavities that makes the grand canyon look like a dimple. It is a good thing it happens on you."

In the early hours of the morning the firemen decided they was nothing more to be done and left what might now be considered the safe side of the house. Mr. Klout was the last to leave and Mr. Taylor accompanied him to what had formerly been his room.

Daddy's Evening Fairy Tale

By MARY GRAHAM BONNER

DADDY RACCOONS

"Of course it's true," said Mother Raccoon, "that we do like everything nice and clean."

"But we put our food in water to make it nice and soft—ah, it is so delicious when it is soft."

"We don't eat anything that isn't clean, do we, mother?" "You are right," said their mother.

She sat up high in a tree without any leaves even though it was summer time. She liked an old tree like this quite the best of all.

"It's so delightful," she said, "to keep house in a dead tree."

"And Daddy Raccoon, you are such a pleasant gentleman, and help so nicely with the marketing."

How the raccoon children laughed and played. And what a nice meal they had!

"When the summer is further along we'll have fun," said Daddy Raccoon. "Why?" the children asked.

"Ah, then we'll steal corn from the corn fields. We'll go a-visiting where we can get goodies and summer vegetables from the farmers."

"They don't ask us to come, it is true, but we don't bother about such little trifles as invitations."

They had a happy family party, eating and chatting, and this was the

A Happy Family Party.

first one Daddy had been at for a long time, as before the children had been too young and Mother Raccoon had been afraid he would eat them up.

Daddy Raccoon has been known to do that, but once the children are a little older the daddy raccoons join their happy families, and the mother raccoons are quite pleased with this way.

Airplanes and Boomerangs It seems a downright anomaly to go to the primitive inhabitants of Australia for points on an airplane, yet that is precisely what was done at one stage of the development of aviation.

The fundamental principle of the airplane is both old and simple, having been discovered by the Bushmen of the Antipodes and embodied by them in the boomerang, which, by meeting in its flight the air at a slight angle, got a "lift."

The trajectory of the boomerang may be in part horizontal or may even rise as a result of this lift. Any surface that is more or less flat, which travels a slight angle through the air, tends to lift. If the section has a slight convex, or convex curve, the lift is increased. Better results are obtained if a body of appreciable thickness is used instead of a thin sheet. Investigation will reveal little difference between the wing section of a boomerang made by the Bushmen or whittled by an American boy after he has visited the circus and his witnessed the "stunts" of the boomerang thrower.

Improved Uniform International Sunday School Lesson

Lesson for May 20

JESUS TEACHING IN THE TEMPLE

LESSON TEXT—Mark 12:12-44. GOLDEN TEXT—"He that loveth me as he loveth himself..."

1. The Parable of the Husbandman (vs. 1-12).

2. The vineyard (vs. 13-20).

3. The husbandmen (vs. 21-28).

4. The Son (vs. 29-32).

5. The judgment of the Lord of the vineyard (vs. 33-37).

6. The Tribute Money (vs. 38-44).

7. The Pharisees and Herodians being silenced, the Sadducees came with a question which involved not only legality but the resurrection of the body. They denied the reality of the resurrection, and believed not in angel nor spirit (Acts 23:8).

8. The case proposed (vs. 19-25).

9. The Law of Moses made it not only legal but morally binding in the case of a man dying without children for a woman to marry her husband's brother and raise up seed for him (Deut. 25:5). They propose the case of a woman married successively to seven brothers. They ask whose wife she will be in the resurrection.

10. Jesus' reply (vs. 24-26).

11. The Resurrection of the Dead (vs. 27).

12. The Pharisees and Herodians being silenced, the Sadducees came with a question which involved not only legality but the resurrection of the body. They denied the reality of the resurrection, and believed not in angel nor spirit (Acts 23:8).

13. The case proposed (vs. 19-25).

14. The Law of Moses made it not only legal but morally binding in the case of a man dying without children for a woman to marry her husband's brother and raise up seed for him (Deut. 25:5). They propose the case of a woman married successively to seven brothers. They ask whose wife she will be in the resurrection.

15. Jesus' reply (vs. 24-26).

16. The Resurrection of the Dead (vs. 27).

Lasting Negatives

It is certain that a motion picture negative will last at least thirty years, for there is no existence now the original picture of the inauguration of President McKinley, in 1897, and from that negative perfectly good copies can be made today.

There are motion pictures of all our great deeds since that time, carefully stored. There are wonderful pictures of the part we played in the World War, and of other recent events in our history. Scientists and film experts hazard the opinion that a roll of negative film, kept in a proper temperature and a certain degree of humidity, or moisture, might be preserved for 200 or 300 years, or perhaps indefinitely, but only time will answer the question accurately.

There is nothing that has ever taken the place of Bayer Aspirin as an antidote for pain. Safe, or physicians wouldn't use it, and endorse its use by others. Sure, or several million users would have turned to something else. But get real Bayer Aspirin (at any drugstore) with Bayer on the box, and the word genuine printed in red.

CLOTHES IDEAS FROM ABROAD By Mae Martin

Last fall when I was in France, I admired the dress which the daughter of our hostess was wearing, and she confessed it was three years old, originally rose-bud, now faded to a rich, deep shade of red!

The French are eternally surprising you with the tricks like that—tricks which it pays to imitate.

Most of us have dresses which, if allowed to remain their original color, "Color-Craft" or sordid worn, they'd become favorites again.

Just get a package or two of true, fadeless Diamond Dyes, and try your hand at dyeing. You'll be amazed to see how easy it is to use Diamond Dyes. They never disappoint you. The "know-how" is in the dye. They are real dyes like those used when the cloth was new. They never give things that redyed look like make-shift, inferior dyes. The more than sixty colors you can get from them include everything that's fashionable.

My new 64-page illustrated book, "Color-Craft," gives hundreds of money-saving hints for renewing clothes and draperies. It's FREE. Write for it NOW, to Mae Martin Home Service Dept., Diamond Dyes Burlington, Vermont.

Sorting Mail in the Air An airplane specially designed for the rapid transport of mail is being tested by the British air ministry. It will carry, besides the pilot and an engineer, a postal sorter who will continue his work while flying at 100 miles an hour.

This latest type of mail airplane is fitted with parachutes, and instead of the usual tail skid has a steerable tail wheel, with powerful brakes to help pull the machine up quickly on alighting at small aerodromes. A central engine room contains two Napier engines, each of 500 horse power.

STOP THAT ITCHING

Use Blue Star Soap as a cleanser—then apply Blue Star Remedy for Eczema, Itch, Hives, Ringworms, poison oak, dandruff, children's sores, cracked hands, sore feet and most forms of itching skin diseases. It gets rid of the itching, usually restoring the skin to health. Soap, 25c; Blue Star Remedy, \$1.00. Ask your drugist—Ask.

Famous Conspiracy

In British history the Cato street conspiracy was a conspiracy under the lead of Arthur Thistlewood, which aimed to assassinate Castlereagh and other ministers. The plot was discovered February 25, 1820, at the residence, Cato street, near Elzewanore road, London. It is also called the Thistlewood conspiracy.

Palestine

To go to Palestine is a great stimulation to one's faith and belief in the great things which the little land gave to the rest of the world after having refused them for itself—American Magazine.

Without Love Without first love we may retain senseless activity, immaculate purity, avaricious orthodoxy, but there will be no light shining from a dark place.—G. Campbell Morgan

There is nothing that has ever taken the place of Bayer Aspirin as an antidote for pain. Safe, or physicians wouldn't use it, and endorse its use by others. Sure, or several million users would have turned to something else. But get real Bayer Aspirin (at any drugstore) with Bayer on the box, and the word genuine printed in red.

Even Welcomed the Wolf Resurrected Rufus, when asked why he didn't try harder to keep the wolf from the door, replied: "You know how fond I am of animals."—Farm and Fireside.

A dear old quaker lady, distinguished for her youthful appearance, was asked what she used to preserve her cheeks. She replied sweetly: I use for the lips, truth; for the voice, prayer; for the eyes, sympathy; for the hands, charity; for the figure, uprightiness; and for the heart, love.—J. P. Fishman.

## REFRIGERATOR RESERVES

With a good-sized refrigerator one may have on hand for many dishes supplies which are not available daily in menus. Fresh coconut is so far superior to the dried or canned variety that the labor to prepare it is not considered. Pick out a heavy nut that seems to be well filled with coconut water, puncture one of the soft eyes, wiping around it carefully, then insert over a measuring cup or bowl to save every drop of the precious fluid. After the nut is drained, crack with a hammer or drop on a stone wall to break. Fry the most carefully of all the brown skin with a sharp knife, then proceed to grate the white meat. It may be ground in the meat grinder, but is more delicate and keeps better grated. After grating add enough sugar to it to sweeten and keep it, cover with a saucer or place in a tin with a cover and place in the ice chest where the temperature is about the same. You may use this, a tablespoonful or two at a time for scattering on puddings or candies and it will keep fresh and sweet for two weeks or more.

The water is considered a great delicacy as a drink and may be used with the fresh grated nut as a salad dressing with grated carrots, nothing can be more tasty. Add a very little lemon juice and salt with a dash of paprika or cayenne.

There are so many drinks that may be prepared and kept in the ice chest, to be used on a moment's notice. Here is one:

**Cocoa Sirup.**—Boil together two cups of sugar, one-third of a cup of cocoa, and one cupful of boiling water for five minutes. When cool add a teaspoonful of vanilla or a pinch of cinnamon. Put away on ice in a glass jar. When serving add milk and top with a spoonful of whipped cream. The children are fond of this drink.

## Here and There.

Ideas, suggestions, recipes and hints on serving, cooking and care of a home are always exchanged when a group of women who care for such mundane affairs gather. One of the measures of travel, to a home lover, is seeing other architecture, furnishings, arrangement of homes, as well as different foods peculiar to the locality.

As the kitchen is the heart of the home, where the food which makes or mars our lives is prepared, it behooves every thinking woman to put intelligent thought upon it, whether she is a mistress of a household of fifteen servants or the head of a servitudeless home. Very often, when much wealth is, too little intelligent thought is given to the food for the family. Puny, anemic, willful children, result from improper food. Fits and convulsions are warped or utterly ruined by improper feeding. Each child should be studied, as each has an individuality of his own. Some foods agree and others do not.

If the teeth of this generation last to twenty years of age, the practice of giving little children soft suckers and ice cream comes so frequently will have to be stopped.

Sweets are craved by the average child, but it may be made more palatable, just as the beverage habit controls those who get into its toils. A bit of pure candy after a meal is not injurious, but the constant indulgence by the children seen in public places, even with nurses or mothers, is nothing short of criminal. Children are not allowed to develop strong, white teeth by being given food that is hard enough to take good mastication. Whole wheat, cooked until the starch is cooked out, given with milk, is one of the best possible foods for the teeth as well as growing babies. Teach children to chew, chew and then chew, when they first begin to eat solid foods. Such a habit can be formed as well as a poor one of sucking foods, and eating everything soft and easily bitten.

Few cooks take the trouble to remove the shins from the legs of the turkey. It is a very simple process and the meat is made vastly more palatable. Make an incision in each leg just where the scaly portion begins, bend the leg back sharply and with a hook or stout fork pull out the tendons. They may cut off, allowing a little surplus skin for shrinkage.

For sandwich filling for brown bread slices: Cut into cubes, about a three-ounce cake of cream cheese, add half-ounce of meat soft to spread, season with salt, paprika, etc., a tablespoonful of mayonnaise or butter. Spread on the bread, garnish the rounds with a sprig of fresh mint dipped in egg and sugar. Nice for open sandwiches.

Neenie Maxwell

# PAJAMAS OF GORGEOUS PRINTS; SUIT OR ENSEMBLE IS CORRECT

ENTHUSIASM for gay color knows no bounds these days. Even our homes are done in bright luscious shades. Colorful kitchens, including the utensils therein, colorful bath rooms, colorful living rooms, say the modernistic interior decorator.

What use all this to do with women's fashions? Just this, the spirit of color has so taken possession of us that she dresses up to her environment, becoming, as it were, a part of the picture. Every one will agree that the young woman photographed here, posing in so gorgeously gay a pajama ensemble, would be an ornament to any home, fitting into the color scheme most decoratively. Note we say "ensemble," because no doubt if one were to peep into the bosom of

resist their lure? So here we are, back to where we started—suit or ensemble, which shall it be?

As the matter now stands, statistics show that suits are taking especially with the younger set. The slim, lithe youthful figure, that can wear a suit to perfection, and knows it can, is counting out in either a classic tailleur choosing between navy or oxford gray the latter being a new color "fash" this season, or if not this then a sweet two-piece which abhors in a list of "tricky" details like the slit of oxford brown tweed, two views of which were here given. Upon giving close scrutiny to this noblest of suits, one discovers a belt across the back of the jacket or only, a stitched yoke and slot-seamed pockets, each of which express a note

Of Gorgeous Print.

this young modern, one would discover there a matching coolie coat, for most pajamas nowadays are styled in three-piece sets. Especially does the sleeveless pajama blouse depend upon a picturesque coat to lend it a more formal aspect, should occasion demand.

The entrancing lounging pajama costume in the picture indeed tells a colorful story, for it is vivid both as to line and design. For those dreamy afternoons when summer huns a happy tune and "alls well with the world," what so apropos for a lounging robe as this one in the illustration, whose joyous silk print seems to have gathered nature's most beautiful tones and tints of fruit and flower into its patterning?

It's stylish to be sleeveless this season. Simple daytime frocks, sports clothes, pajama ensembles, all emphasize the mode of sleevelessness. Of

of ultra-chic. There's a kick left at the back of the skirt, had you noticed that? Oh, there's no doubt about it, suits this season are flinging a mighty challenge to the much exploited ensemble costumes.

If you are an ensemble enthusiast, and where is the woman who is not, look at this one in the picture to the right. It's almost a complete daytime wardrobe in itself. There's its seven-eighths length coat for instance—it will serve admirably as a separate wrap, the whole spring and summer through. The skirt is attached to a bodice and that means it can be worn with one blouse, then another and another. That's why an ensemble is one economical buy, at any price. It is so adaptable to mood and occasion.

Seeing that it is fashionable for one's blouse to match one's coat lining, the blouse and coat lining of gray-patterned crepe which enlivens this

Suit and Ensemble.

navy cloth ensemble does that very thing. It is significant that this costume be carried out in navy, for navy is really a very smart color this season. Especially is navy a favorite with the better dressed class. Both separate coats and ensembles carried out in navy are quite patriotic at 1928's moment.

So outstanding is navy that hats, shoes and pocketbooks are in this color; carrying out the ensemble theme from head to foot. The navy favored is an animated blue, the tone that is so generally becoming.

# STUDEBAKER'S \$795 ERSKINE SIX

## Sets Ten New Records by Traveling 1000 miles in 94 minutes

### Dealers' Opportunities

Studebaker assists dealers to conduct their business on a profitable basis—sales training—financing—used car merchandising—advertising helps—accounting—service—etc. No wonder Studebaker-Edsels dealers make a net with these 4 great lines! The new President Elite, \$1945 to \$2485. The World's Champion Commander, \$1435 to \$1625. The new Dictator, \$1195 to \$1395. The new Erskine Six, \$795 to \$965. Write or wire NOW for complete, confidential information if there is no dealer in your town or if you wish to move to a town where the Studebaker-Edsels franchise is available.

### FREE "Trip Through Studebaker Factories"

Every car owner, every family with children in grade or high school, will want this interesting free booklet, "A Trip Through Studebaker Factories." It pictures how your car is made—shows airplane views of Studebaker's 800-acre Proving Ground—pictures the great Studebaker foundry where castings are made from molten iron ten times hotter than boiling water. Learn more about the 76-year-old company and the 11,000 men who build your Studebaker or Edsels. If you cannot visit the huge Studebaker plants in South Bend this summer, send coupon for this entertaining free booklet NOW!

ON April 26, two strictly stock Erskine Club Sedans each traveled 1000 miles in less than 1000 consecutive minutes.

The run took place at Atlantic City Speedway, and was supervised by officials of the American Automobile Assn. who verified the stock design of the cars.

As a result, ten new records for stock cars under \$1000 were established by the Erskine Six. And Studebaker has demonstrated that its 76-year-old traditions for careful building are carried through in the design, materials and workmanship of this low-priced fine car—named for Albert Russel Erskine, Studebaker's president. That is why this car was able to travel 1000 miles at better than a mile a minute—why you can drive your Erskine Six 40 miles an hour even when NEW—why the Erskine is so economical to maintain and to operate.

A drive in the New Erskine will introduce you to a type of performance as sensational for its price class as that of the World's Champion Commander is to the field of higher priced cars.

THE STUDEBAKER CORPORATION OF AMERICA  
Department P-4, South Bend, Indiana

### Rare Coin Collection

Now comes another collection of one-cent pieces, Arthur C. Kelly, of Danvers, who states that he has a collection that runs unbroken for 104 years—1824 to 1928. In the period that runs from 1800 to 1823, 24 years, inclusive, he has cents for 13 of the years, and from 1800 to 1810 his collection is only minus the cents for 1804, 1806 and 1808.—Boston Globe.

### "How Come?"

Esther and Jimmy are the grand children of the president of a union of the W. C. T. U. One afternoon they were very busy "keeping house," the former being "mamma" and the latter "daddy." At the end of their play meal, Esther picked out two toothpicks and handed them to Jimmy, with the remark:

"Here is your cigarette and here is a match. I'll have mine later."

Their grandmother and mother still are puzzled to understand the episode.

### Death Thwarted Discovery

Dr. Sidney Kawson Watson, whose death attracted world-wide attention, was believed by his friends to have been on the eve of a great discovery when he was killed while experimenting on himself with new gas. He was found dead in his study wearing a new mask. Beside him was the latest apparatus for administering gas. A daring experimenter with anesthetics, he often experimented on himself, and he told his friends that he was trying to invent a mixture of gas and oxygen under which a person might be conscious of everything except pain.

### Same Place

Jack—Where did you get the new overcoat?  
Hubert—At my usual restaurant.

# MOTHER!

Child's Best Laxative is "California Fig Syrup"

Tongue Shows if Bile, Contaminated

Hurry, Mother! Even a fretful, peevish child loves the pleasant taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

**Immune**  
Little Martin was much disappointed when he heard that the camping trip that had been planned by her group of girl scouts had been postponed because some of the girls had got ptomaine poisoning on a hike the week before. "That's silly," she declared. "Why, I was out where it was growing all over the hills, and I didn't get poisoned!"

The prices of cotton and linen have been doubled by the war. Lengths of their service by using Red Cross Ball Blue in the laundry. All grocers—Adv.

**Plants on Light Poles**  
In some of the streets of Leningrad and flower boxes have been attached to the electric light poles. For watering, the plants are attendant uses a hose and spray attached to a long rod.

## Bee Brand INSECT POWDER or LIQUID

It Kills Them!

Non-poisonous. Won't spot or stain. The Bee on every package—is your guarantee. Send for free insect booklet. If dealer cannot supply—write McCormick & Co., Baltimore, Md.

## Kill Rats Without Poison

A New Exterminator that is Absolutely Safe to use Anywhere!

Will not harm human beings. Insects, flies, cats, possums, etc. are deadly to rats and mice every time.

**Poisons are too dangerous**  
K-R-O does not contain arsenic, phosphorus, borax, carbamate or any deadly poison. Made of compound equal as recommended by the U. S. Dept. of Agriculture in their best bulletin on "Rat Control."

One of our great customers here told us he had ordered 105 great packages of K-R-O and he was unable to use them all. He was very unhappy. We offered to buy them back for 50% of the purchase price. He refused. He said: "I don't want to pay for them. I want to use them. I want to kill rats. I want to save my money."

75c at your druggist; large size (four times as much) \$7.00. Sent postpaid direct from us. If dealer cannot supply you, send us MONEY-BACK GUARANTEE. The K-R-O Company, Springfield, Ohio.

# K-R-O KILLS-RATS-ONLY

# POULTRY FACTS

## COCCIDIOSIS IS CAUSING LOSSES

Coccidiosis is a parasitic disease of chicks over two weeks old and is causing increasingly large losses to poultrymen. States J. J. Black, assistant poultry pathologist, New Jersey agricultural experiment station.

The disease is picked up from contaminated soil or from brooder houses that have not been properly cleaned. The parasite that causes it may be carried on the feet of attendants or on feeding vessels.

Coccidiosis may be prevented by raising chicks in confinement, using a concrete slab for a run in front of the house, advises Doctor Black. Only new equipment or old which has been disinfected by a high degree of heat should be used. When a person is entering the poultry house, he should slip on a pair of rubber boots for that purpose or clean and disinfect his shoes in a box of wood shavings saturated with a pure, coal tar disinfectant.

It has been found that losses from coccidiosis may be checked by cleaning the brooder as soon as disease makes its appearance. A small amount of litter should be used and the brooder cleaned every day for three days and then every third day until losses stop. All visibly affected chicks must be removed and the brooder should be disinfected. The litter should be burned. It is of great value to keep the floor of the brooder house warm and dry. This prevents the development of the parasite.

California milk mash is favored for feeding. It consists of dry skim milk or dry buttermilk, 40 pounds; wheat bran, 10 pounds; yellow corn meal, 20 pounds; ground barley or rolled oats, 20 pounds.

This mash should be furnished as soon as disease appears. Grain is fed twice daily, but is restricted to one-third the amount of mash consumed. This system of mash and grain feeding is continued as long as there is any indication of the disease. The grain is supplied in the usual manner. The change back to the regular ration is made gradually. All mashes should contain 2 per cent of cod liver oil.

Where liquid milk is used, all mash and water are withheld, and grain is fed sparingly—a little in the morning and more at night. It is often difficult to get the chicks to consume enough liquid milk, especially if it is not of good quality.

### Habits of Guinea

For some reason the mother guinea does not seem to realize that her little ones are frail creatures, unable to withstand extremes of heat and cold, moisture and long trains of cold. Their habits seem to be about as senseless as their noise, which probably accounts in a large measure for "their culture having been neglected." They make their nests in remote places, under hedges, bushes, brush heaps or wheat shocks, and if their nests are disturbed they will move to another place.

### Poultry Items

Wood shavings make better poultry nests than hay or straw.

The first of the roosts in the morning and the last to roost at night are the best layers.

This is the season when pullets and live hungrily so fast that one of ten becomes a granddaddy of hundreds in just a few days.

Poultry should always be fattened before killing. This means better quality, more weight, and a considerably higher price per pound.

For fattening broilers a good ration is made up of seven parts of corn meal by weight, three parts wheat middlings, and one part bran. Wet with milk until it will pour like batter, and feed to the birds in shaded pens.

Mold is one of the commonest troubles in sprouting oats, and moldy feed is dangerous.

Follow directions and handle the incubator correctly if the best hatch of viable chicks is to be secured, say poultry workers.

Hens must eat plenty of mash. If they are to lay their best. Have you made enough hopper room so that every hen can get their fill? There should be a foot of space for every five or six hens.

Keep the chicks that are raised in a brooder pretty close to the heat during the first three days.

High-priced seeds that produce high yields are cheaper than low-priced seeds that produce low yields.

It takes 21 days for a hen egg to hatch, about 28 days for ducks, from 30 to 34 days for a goose egg, and 28 days for turkey eggs. The time may vary somewhat according to conditions.

## How Farm Family Spends Its Money

Farming is a family business and its success in keeping its workers satisfied depends on how well it provides the family with the necessities, conveniences and comforts of life, says the Sears-Roback Agricultural Foundation.

From one-third to one-half of the value of the farm family's output represents food products, use of the house and fuel furnished from the farm, according to a study of the expenditures of 2,000 representative families by the United States Department of Agriculture. This is not free of cost to the farmer, of course, it represents labor as well as an outlay of capital.

The total value of the farm family living averaged \$1,507.50 annually. The value of the food used, which was the largest item in the total, averaged \$628.80, or 41.2 per cent. Of this amount, however, the farm itself furnished \$186.70 worth, or about one-third. The rest was cash spent mostly for coffee, sugar, flour and other staples.

Clothing expenses averaged \$244.00 per family, or nearly 15 per cent of the total budget. The largest clothing expenditure was for ready-made garments. Shoes made a good-sized dent in the clothing account, as did purchases of yard goods, trimmings and similar items for the home dresser.

Food, which was furnished by the farm, was estimated at an average value of \$200. Operating costs, which included the family use of the automobile, household labor, fuel, cleaning supplies, and so on, averaged \$212.10. Fuel cost was estimated at \$85.20, of which 50.7 per cent, or \$43.20, was furnished by the farm.

Money spent for "advancement," including education, vacations, amusement and books, averaged \$104.08. For maintenance of health, the average family spent \$61.90. New household furnishings cost on the average \$40.20 a year. Personal goods, which included money spent for gifts, candy and tobacco, cost \$11. Expenses on life and health insurance averaged \$10.80.

While such baking, canning, churning and sewing, which still do on the farm, and probably always will be, the tendency is for these household industries to be slowly supplanted by factory-made goods. Cream is delivered to the creamery and butter is purchased; live stock is sold to the packer and fresh or cured meat bought from the butcher; the ready-made dress line replaced many a farm-made one. These changes are gradually lightening the burdens of the farm housewife, the Foundation adds.

### NEW MEXICO BOY SCOUTS TO HAVE BEST OF EATS

The Camp Committee for the Eastern New Mexico Boy Scout Council has made arrangements that will assure plenty of fine eats for the Scouts on summer campers. James Love, head cook at the New Mexico Military Institute has been engaged to keep that great behind the belt, known as the stomach filled with clean, wholesome "grab."

Food is not only enjoyed by campers, but is considered very important. The additional exercise, swimming, fresh air and exposure to the sun makes the Scouts consume food like a power-plant consumes fuel. The Camp slogan is good food and plenty of it.

Milk, fresh vegetables, fruit, eggs and meat will be bought from the farmers a few miles below the camp. A hundred campers will consume a hundred pounds of potatoes, twenty gallons of milk, twenty-five dozen eggs a day. In addition to all the other things, a yearling beef will be slaughtered each week in order to assure plenty of fresh meat.

Chavis Hall is the scene for all the heavy action three times a day. This hall was built by the citizens of Clovis. It houses the dining room, kitchen and store room. It is well equipped with double oven range, running water and refrigerator. The first period will begin June 13th.

Mrs. Albert Taylor, who has been spending several days with her husband on their ranch south of town returned to her home in Lubbock Tuesday.

Mr. and Mrs. W. R. Harper and children returned Tuesday from a week's visit in Waco with relatives.

Born to Mr. and Mrs. W. M. Gaston, on May 5th, an 8-1-2 pound boy.

Mr. and Mrs. Thomas Morgan of west of town are the parents of a fine 7-pound boy, born May 7.

C. W. Hildebrandt of Oklahoma City, was in the city on business Tuesday.

E. M. Carter of Plainview was a business visitor in Muleshoe Tuesday.

Rex and Frank Stegall of the Southwest part of the county, were in the city Tuesday.

Messrs. C. I. and Bill Elrod were business visitors in Amarillo the first of the week.

Mrs. C. J. Roach and children returned home yesterday after a week's visit to Memphis, Hall county.

Mr. and Mrs. A. L. Harberer, of the Big Square community, were shopping in Muleshoe Tuesday afternoon.

## Big Frames

You just can't grow big, profitable hogs without big frames any more than you could build a skyscraper on a weak frame. And you can't build big frames without the material. That's why so many successful hog raisers around here are supplementing their corn with Purina Pig Chow. Pig Chow has the minerals in it that make big, strong frames and fast growing hogs.

Phone us today for a supply of Pig Chow
