Rev. Ratheal **Guest Speaker** At Rotary Club

At the December 9 meeting of the Rotary Club. Rev. C. Ratheal, gvest speaker, presented an enthra lingly new story of the birth of the Christ child.

Rev. Ratheal made it clear that there was no recorded evidence that the story he was about to relate actually occured but pointed that it could have happened since others besides the shepherds may have heard the ane gelic message "Peace on earth,

goodwill toward men" Pev. Ratheal drew a word picture of the home of a lowly laborer as he took his rest at the end of a weary day and how his still active about her household tasks, suddenly heard the voices of the angels and. looking out a nearby window, saw the glorious star in the East Filled with wonder she timidly awakened her husband only to receive his stark rebuke for the tale she told. He turned again to his slumbers without so much as a glance toward the window.

Then the scene was changed to that of a Roman soldier who, lying awake in his barracks, distinctly heard the heavenly chorus and saw the glow of light through the window of his quarters, but because of indifference he did not rise to look and later forgot the occurrence in the course of his duties.

And again the reene changed to the palace of the king, the dwelling places of the tax colletter and high priest where ers of these three house holds heard the angelic anthem and aw the star but, upon rehouseholds, met rebuff or only nominal assent and in no case was there an effort made to go out and first the new born King.

Finally, in sharp contrast to these foreboding experiences, the shepherds in the fields, keeping the night-watch over their sheep, assisted by the services.

In the first Methodist Church, and chaplain o. Post 161, American Legion, conducted the services, with some special programs in the fields, keeping the night-watch over their sheep, assisted by the services of the previous a special feature during the a They left trified into action. Johnny and Mary won't be home for Christmas this year -but they'll have a big Christnas celebration just the same. Maybe Johnny and Mary-won't e able to run around the gleamng tree this year but they hope tha perhaps they'll be able to next year. Johnny will be in a wheel chair. Mary will survey the festive scene with happy eyes gazing from a hospital bed. Both were victims of the polionyelitis scourge which struck wn 1,600 Texans during the irst ten months of 1948.

There are high hopes in the young breasts of both Johnny and Mary, and of he dozens of other children who will attend this year's Christmas party with them. For all are patients at Gonzales Warm Springs Foundation and all hope that the warm therapeutic waters plus the most modern of medical treat-

Idea for Santa's Helper

When you choose a gift for a good friend or neighbor, make it a gift that will bring pleasure long after the Christmas season.

Such a gift is an attractive basket, packed with a variety of cheese spreads. Choose some fruit flavored, some smoky, some with a tangy flavor, and some with pickle relish.

The spreads will be welcomed for use in tasty sandwiches, salads and salad dressings, and as snacks. The glasses will be an attractive addition to the family's tableware, and the basket can have dozens of uses.

A gift such as this is easy to shop for, easy to wrap and give, and at the same time, expresses your personal regard and sincere good wishes. Make up several of them.

Luscious Fir Tree Cake To Top Christmas Party With Success

Here is a luscious Christmas cake, a downy-light fir tree control to help make the holiday menus real triumphs. It is perfect for discussive on Christmas Eve or for refreshments at a Christmas w

The best thing about it, of course, is its rich chocolate flavor, and the delicate texture assured by the use of cake flour. It's made by the mix-easy method, too, so that you needn't linger long in the kitchen. There won't be a big mess of utensils to wash — just one bowl, measuring spoons and cup, and a mixing spoon.

Decorate the cake, after it is frosted, with tiny Christmas trees cut from aliced citron and colored green with vegetable coloring or with tree-shaped gumdrops.

Fir Tree Cake Preparations. Have the shortening at room temperature. Line bottoms of two deep 9-inch layer pans with paper; grease. Start oven for moderate heat (350°F.). Sift flour once. Measure into sifter: 2 cups sifted cake flour Measure into cup:
*Milk (see below for amount)

Have ready: 2 eggs, unbeaten 3 squares unsweetened choco-late, melted

1 teaspoon soda
1 teaspoon salt
1½ cups granulated sugar, or
1½ cups finely packed brown sugar
Measure into mixing bowl:
½ cup shortening

*With butter, margarine, or lard, use % cup milk. With vegetable or any other shortening, use 1 cup milk.

(Mix by hand or at a low speed of electric mixer.) Stir shortening just to soften. Sift in dry ingredients. Add % cup of the milk and mix until all flour is dampened. Then beat 2 minutes. Add eggs, melted chocolate, and remaining milk and beat 1 minute longer. (Count only actual beating time. Or count beating strokes. Allow about 150 full strokes per minute. Scrape bowl and spoon often.)

Baking. Turn batter into pans. Bake in moderate oven (350°F.) about 30 minutes. Spread seven-minute frosting between layers and en top and sides of cake.

Heard a fellow say once that you could add all the water to you wanted to-provided it went through the cow first. Cattle do need plenty of water, and during the winter time it's a good idea to warm the water to 60 or 70 degrees. This way, it won't be too cold, and they'l drink more of it.
