VOLUME 40

SPUR, DICKENS COUNTY, TEXAS, THURSDAY, FEBRUARY 3, 1949

NUMBER 13

Contracts Awarded For Primary School Totals \$125,850.00

The Spur Independent School District Board in their meeting held last Thursday, awarded a contract to three firms for the construction, plumbing and heating and lighting of the new 10-room primary building to be erected across from the Nichols hospital.

The building award went to Parker and Snyder Construction Company, Vernon, Texas, and was for a total of \$103,993. Fagans Electric Company of Abilene was given the electrical contract for a total amount of \$4,130, and Plumbing and Heating contract went to Carson Plumbing Company of Stamford for the amount of \$17,727.

The three contracts for the building totaled \$125,850. The building will be located across the street from the Nichols hospital and will be a 10-room brick, with 9 classrooms, 1 fine arts room, teachers lounge, principals office and an auditorium with a seating capacity of 700. The building will have the modern radiant heating system.

Actual construction is expected to start within a few weeks, and the building will be completed in time for the school term opening in September, 1949.

March-of-Dimes Time Extended

A week's extension, giving until Feb. 7, will give the people of Dickens county a little more time to wind up the March of Dimes fund campaign in a way which may be rightly proud, Jerry Ensey, chairman, announced this week.

The time has been extended because of the severe weather which has prevailed since the drive opened. Dickens county has made a fair showing but are still short of the anticipated goal. Mr. Ensey stated that about \$500 had been donated during the drive, but are still shy of the hoped for \$1,000 goal. He has urged all to bring or send their contributions as soon as possible.

New '49 Pontiac Be Shown Saturday

Leon Reagan of the Reagan Motor Company, returned to Spur last week-end after attending a dealer's preview of the new 1949 Pontiac Silver Streak in Dallas.

Mr. Reagan stated in the Texas Spur that he would have the new 1949 Pontiac on display in his showrooms at 400 N. Burlington, on Saturday, Feb. 5. According to Mr. Reagan the 1949 Pontiac Silver Streak feature two completely new and distinct lines of cars. Entirely new to Pontiac is the Chieftain line, which is functional in design and of the notch or bustle back type.

Its companion is the new Streamliner series, an up-to-date version of the slant or fast back type made popular by Pontiac. Both body styles are mounted on a 120-inch wheel base. The former torpedo series has been discontinued.

Pontiac will make 10 body styles for 1949 and, with the exception of the convertible (Deluxe only) and the swank new sedan (delivery standard only), all will be available with either standard or deluxe equipment.

Mr. Reagan has extended a cordial invitation to the people of this area to view the 1949 Pontiac in his showrooms this week-end.

Pontiac Has Two "New Looks" For 1949

This is the four door deluxe Pontiac sedan in the Streamliner series. Forward thrust has been gained by lowering the hood. Body contour is in the modern manner and yet unmistakably Pontiac. Added safety is compounded by reduced pillars and a curved windshield whose gleaming sweep has been increased nearly six inches. Both Pontiac Streamliner and Pontiac Chieftain lines use a 120 inch wheelbase and Hydra-Matic transmissions optional at extra cost.

HARMONY CLUB TO PRESENT VIOLINIST

WILLIAM HARROD

Music lovers of Spur may look forward to hearing a fine program on Thursday evening, February 17. Mr. William A. Harrod, violinist, accompanied at the piano by Mrs. Chase Pratt, will play a program of familiar and melodic music from classical and everyday favorites. He states that his selection of music is so varied, that it includes numbers everyone will enjoy, for he believes that an enjoyable evening for each member of the audience is the first requirement of a program.

Mr. Harrod, conductor of the Lubbock Symphony, was first known to Lubbock audiences as a violinist, and it is in this role he is best known to the citizens of the South Plains area. During this, the third season of the Symphony, in answer to the many requests he has received, he is appearing as a solo artist, and is appearing on tour in concerts throughout West Texas.

During the years Mr. Harrod was in New York, he studied violin with Emanuel Zetlin, later of the Julliard School of Music and Concert Master of the Metropolitan Opera Orchestra. In addition, Mr. Harrod was a member of the National Orchestral Association under the direction of Leon Barzin, and was offered contracts as a violinist with symphony orchestras in Washington, D.C. and Kansas City, but chose, rather, to continue his training with Mr. Barzin and Mr. Zetlin. He has played radio programs with various orchestras, both at Columbia and the NBC studios in New York.

Mr. Harrod first came to this area when he was stationed in Lubbock with the Army. During the time he was at the Lubbock Army Air Field he was violin soloist of the very fine Sinfonietta organized on that field. Later, he was director of a string quartet which toured European Army hospitals. On his return to Lubbock, Mr. Harrod appeared as guest artist on a joint recital on the summer Tech Artist Course. He has appeared extensively on programs in Lubbock where he is an outstanding favorite.

Piano accompanist for the concert will be Mrs. Chase Pratt, Mrs. Pratt recently moved to Lubbock from Houston. She was the accompanist for the concert master of the Houston Symphony and is now the regular pianist for the Lubbock Symphony Orchestra.

Mahon Reports On Sorghum-Cotton Situation In '49

By George Mahon

The present law permits but does not guarantee a loan, usually referred to as a support price, on grain sorghum. I have joined with others here in appealing to the Secretary of Agriculture to announce immediately a 90 per cent parity loan on grain sorghum for the 1949 crop. I am also supporting legislation which would require such a loan support. Producers need to know what to expect in the way of support prices long in advance of planting time.

The Secretary has authority to announce a 90 per cent parity loan, or a loan at any rate lower than 90 per cent. A loan of less than 90 per cent would be unsatisfactory and inadequate. What the Secretary may do and what Congress may do is not yet known. I hope we can secure passage of a long range farm program assuring a support of at least 90 per cent of parity on grain sorghum, cotton, and other important crops. Producers should be on the alert for development, particularly in connection with the 1949 crop.

Here is the situation as to cotton. The present law assures a support price of 90 per cent of parity for 1949, but after 1949 the support could be as low as 60 per cent of parity. A 60 per cent support would be practically worthless, and we hope to fix the figure for the long program at not less than 90 per cent.

Two important questions as to cotton may be decided by Congress within the next few weeks. First, will acreage planted in cotton in 1949 be considered in arriving at cotton quotas on individual farms in 1950? Second, what sort of formula should be used in fixing cotton acreage quotas for the states, counties and individual farms in and after 1950? It is assumed that if there is to be a support price on cotton in 1950 there will be cotton acreage control program in 1950.

Production controls, however, would not be placed in operation without an affirmative vote of the producers themselves.

If Congress decides that 1949 shall be counted as a base year, West Texas farmers will probably go the limit in seeding land to cotton. But, at the same time, many Central and East Texas farmers who have about gone out of the cotton business would probably plant a big cotton acreage, and it has been argued that West Texas might possibly sustain a net loss in cotton quotas.

Members of the House Committee on Agriculture are seeking passage of a resolution specifying that the year 1949 shall not be considered as a base year in fixing 1950 acreage quotas.

The House Committee on Agriculture has heard some of the Farm Bureau, a nation wide organization, in regard to cotton acreage allotment problems. Farm Bureau members in West Texas should see to it that the West Texas viewpoint is not overlooked in the presentation of the Farm Bureau.

A group of West Texas are scheduled to appear before the House Committee on February 7. Committee officials advise that it will not be possible to hear all individual farmers who may want to appear, but they want to hear as many spokesmen of groups of farmers as possible in order to get a good picture of the situation throughout the cotton belt. The Committee hopes to conclude hearings as to cotton on February 11, but the final draft of the long range legislation will not be agreed upon until a much later date.

I shall seek to be of all possible assistance in this important matter. I welcome the views of the people of our District, and I shall submit any suggestions and plans which are submitted to me to the House Committee on Agriculture. Congressman Bob Poage of Waco and Congressman Gene Worley of Shamrock and Amarillo are members of the Agriculture Committee.

Rainfall Totals 2.5 For January

Dickens county received a total of 2.5 inches of moisture during January, according to information released from the Spur Experiment Station.

Records at the station reveal this to be an all-time high for January. January 1939 registered 1.98, the nearest to the 1949 total in the past 30 years.

NEW MINISTER

Willis G. Jernigan

Brother Willis G. Jernigan arrived in Spur Wednesday, February 2 to begin his work with the Spur Church of Christ. He has been Minister of the Church of Christ in Commerce for the past five years.

Mr. and Mrs. Jernigan and son, Willis, Jr. are located at 424 West 2nd St.

Lions Sponsor Sight Program

"BE THANKFUL YOU CAN SEE" That is the theme of the Sight Conservation Program that is being sponsored by the Spur Lions Club.

Larry O. Boothe, chairman of the Lions Club Sight Conservation committee told the Spur this week that the drive for funds would begin on Monday, Feb. 7, and has very full cooperation of the local citizens. Letters carrying sight conservation data will be mailed out at the beginning of the drive with return envelopes for your contribution.

According to Mr. Boothe the Spur Lions Sight Committee last year aided several people in the county by presenting glasses to several children and radios in the home of four people who were blind, or near blind.

"Be Thankful you can see," and help the Lions Sight Conservation committee in this worthy project.

Spur Defeat Gives Abernathy Lead

The Spur bulldogs went down in defeat to the fast Abernathy quintet Tuesday night on the local court by the score of 45 to 31. This defeat shoved the bulldogs in second place, one game behind Abernathy. Spur has lost two conference games while the leader Abernathy has suffered only one defeat.

Joe Simpson lead the losers, chalking up 11 points, while Blackman was the highpoint man for the winners with 18 points.

Spur will tangle with Lockney on the night of Feb. 4 and Paducah on the night of Feb. 8. Both games will be played in the local gym.

City Election Two Months Away

Voters of the City of Spur have two months in which to ponder over the candidates for the office of Mayor, Street commissioner and Water Commissioner.

According to City Manager James Cowan, the city election for 1949, when a mayor, and two commissioners will be named, will be held on the first Tuesday in April, the same being the 5th. Mr. Cowan further stated that candidates for either of the offices would have to file before the 5th day of March.

None of the present office holders have announced their intentions for the coming election.

Donkey Basketball Comes To Spur

Something new and different in the way of sports in this area will be shown to spectators on the night of Feb. 10, when the Spur Lions Club and the Spur Rotary Club meet in a Donkey basketball game.

The game will be played in the high school gymnasium and will start at 7:30 p. m.

The affair is sponsored by the Future Farmers of America Chapter of Spur. Walter Labay, local Vocational Agriculture teacher is in charge of the arrangements for the chapter.

There's no such thing as a free lunch—they're always busy.

Pictured above is a scene that will greet spectators on Thursday night, Feb. 10, at 7:30 when the Spur Lions Club and Rotary Club meet in a Donkey Basketball game at the High School Gymnasium. The affair is sponsored by Spur's Future Farmers of America.

1949 Auto Tags On Sale In County

License tags for 1949 for automobile owners of Dickens county went on sale Tuesday, and the first plates were issued to sheriff C. C. Kimmel.

Charles Ensey's Motor Car number 4400 with the letters AJ, and are on a yellow background with black letters. The county plates begin with AJ 4400 and continue through AJ 6399.

Although the plates may be purchased now they cannot be placed on your automobile until March 1st. All automobile owners must have plates before the deadline of March 31.

Sheriff Kimmel has urged that registrants for new plates bring the necessary papers of identification which includes your certificate of title and your last year's receipt.

County Poll Tax Reach 1300 Mark

Poll Tax payments in Dickens county had reached 1250 at the close of business in the Assessor's collector's office Monday, Jan. 31, and reports from the office stated that with few remaining in the mails, the total for 1949 is expected to be 1300.

Although far below the polls of 1948 when the total amounted to 2200, this was thought to be an excellent record for an "off-year."

Lions Club News

The Spur Lions were entertained by members of the Dickens County Historical Association at their Tuesday, February 1, meeting.

The group of Junior High School students presented a program based on famous birthdays and dates in February. Lion Billy Ray Barrett was responsible for the program and introduced Miss Carolyn Kelly to the club. Miss Kelly took charge and introduced the speakers.

After short talks and readings, Miss Kelly gave a brief background of the Lion-sponsored organization and presented a financial report to the club. Members of the association taking part on the program were Miss Kelly, Erma Gannon, Don McGinty, Ralph Gibson, Betty Sue Yeess, Lois Dunwoody, Van Cash, Alice and Jo Crockett. Their leader, Miss Margaret Elliott was also present.

ATTENTION ALL LIONS BE PRESENT AT THE LIONS' HALL THURSDAY NIGHT, FEBRUARY 3 AT 7:00 O'CLOCK.

SINGERS NOTICE

It was announced this week that the singing scheduled each second Sunday at Soldier Mound Church has been changed, and will be held on the first Sunday in the future.

The first date for the singing will be Sunday, Feb. 6, and will begin at 2:30 p. m.

Vets Insurance Rebates Expected To Start In June

Dickens county veterans can expect rebate on National Service Life Insurance premiums to begin some time after March 31, according to L. J. Varnell, Jr., county service officer.

Varnell said that rebate would be in proportion to the amount paid in by each veteran. It will run between 20 and 25 per cent of the amount paid, the service officer said.

Some of the checks are expected to be in the mail by June, but the majority will be made during the latter part of the year. GI insurance, Varnell said, was originally written as eight-year term insurance and must be reinstated at the termination of each term. Veterans will be notified 60 days prior to termination date and will have an opportunity either to renew their policies, paying premiums at their attained age rate, or to convert their policies.

Rebates will be made only to veterans who kept their policies in force as long as 90 days.

National Boy Scout Week Feb. 6

Boy Scout Week, marking the 39th anniversary of the Boy Scouts of America, will be observed for February 6 to 12, 1949.

"Adventure—That's Scouting" is the theme of the celebration. More than two hundred thousand active members will observe this 39th anniversary in all parts of the United States, Alaska, Canada, Zone, Hawaii, Puerto Rico, the Virgin Islands and Guam.

Cub Scout Packs, Boy Scout Troops and Senior Scout Units will hold open house, parents' nights, special investitures of new members, and enjoy a program of fun and fellowship.

Scout Sunday will be observed on February 6th in numerous Churches throughout the land, while religious services for Scouts of Jewish faith will be held on Friday and Saturday, February 11 and 12.

Since 1910 when the Boy Scouts of America was established, 15,500,000 Scouts and leaders have been actively enrolled.

The aim of this year's observance of Boy Scout Week is to encourage more boys and men to join the Movement, and help all Americans better understand what it is doing for their country.

As part of their anniversary program, the Boy Scouts of Spur will participate in all Church services Sunday, Feb. 6, will be guest of the Lions Club on Tuesday, Feb. 8; tour the city and county properties on Wednesday, Feb. 9 and conclude the week as guests of the Rotary Club on Thursday, Feb. 10.

EARNERS INJURED

Mr. and Mrs. H. J. Garner was seriously injured at 9:30 Saturday night when their automobile collided with a truck on the Haskell-Throckmorton road. They were taken to the Haskell Hospital. Their condition is reported as well as could be expected at this time.

Mrs. John Adams, who has been seriously ill at West Texas Hospital, Lubbock, is reported to be improving.

PROCLAMATION

Whereas, thousands of our children and citizens were struck blind through accidents and natural causes throughout the nation.

Whereas, during the year 1948 aid to victims of blindness was made to at least nine people of Dickens county and.

Whereas, aid to the blind and sight conservation program was in effect in Dickens county, the funds so allotted have become exhausted.

Whereas, the 1949 aid to the blind and sight conservation program is one of the best means by which this program may be carried on, and.

Whereas, blindness may strike at any time when least expected and adequate funds must be available to meet the need.

Therefore, I, Martin Pope, Mayor of Spur, do urgently appeal to each and every resident of Spur to join zealously during the period of February 7-14, in making the 1949 aid to the blind and sight conservation program the most successful in local history.

Signed: MARTIN POPE, Mayor of Spur

Go North Young Man

Sunning on the terrace after a morning on the ski trails is one of the favorite before-hack times at Quebec's popular North Hatley ski lodges. The famed French-Canadian cuisine, a taste of Quebec hospitality, makes regular visitors of winter vacationists. Many U. S. citizens maintain around country homes among North Hatley's picturesque hills.

Carlye

Women do dress to please men — romantic fashion in rayon tissue faille has tiny waist and dark rustling bands of matching taffeta set into the skirt and repeating the deep, becoming collar. Sizes 7 to 15. \$29.95

Carole King Juniors Create A Stir In Iridescent Shantung

COOL CASUAL Headline your junior figure in fashion-new iridescent rayon shantung! Cucumber cool... picture pretty... this one-piece dress has a beautifully unruffled, on-into-summer point of view. Junior sizes 9 to 15. \$10.95

POCKET EDITION To be seen everywhere: iridescent rayon shantung, squarely pocketing its fashion importance... you, looking your prettiest now and through balmy days to come. Junior sizes 9 to 15. \$12.95

As seen in Mademoiselle and Charm

New Registration Law Will Save Many Hours—Author

The fellow who drives miles to get his license plates and then waits in line hours at the courthouse is going to get a break, if a bill introduced in the Texas Legislature becomes law. The proposal, authorized by Sen. W.A. Shofner of Bell County, would authorize the establishment of permanent automobile registration offices in an estimated 500 small towns and rural communities, in addition to county seats and large cities.

In all there would be approximately 1,000 places to register cars, compared now with 254 places—the courthouses. Senator Shofner said his proposal would relieve county tax assessor-collectors of the burden of handling title transfer papers, some duty of registering cars and this duty would be turned over to responsible local men in each community, who would be designated agents and be directly accountable to the State Highway Department.

Agents would be named for every town and community where deemed necessary. Large cities and in many cases, county seat towns, would have not one but several agents.

The Bell County Senator said his bill had the endorsement of every tax collector who was fully acquainted with what the bill will mean toward giving the public better service. He pointed out that the work of the tax collector offices had greatly increased in the years and this duty had no relation to the regular tax work.

He said he had been advised by E.J. Amey, director of the motor vehicle division of the State Highway Department, that his department favored the proposal because of two major advantages: (1) The public will be given better service at no additional cost (agents will receive a fixed commission), and (2) The more efficient system will lead to greater and quicker recovery of stolen vehicles and prompt identification of vehicles involved in accidents.

Construction of Scout Swimming Pool Is Started

Construction is under way on a \$30,000 reinforced concrete swimming pool at Camp Post, two and a half miles southwest of Post in the first step of a \$100,000 improvement program that will require three years to complete. Excavation for the pool has been completed and forms for pouring concrete are being constructed, said W. R. Postma, executive for the South Plains council of Boy Scouts of America.

When completed the program will provide adequate facilities for camping and recreation for the Boy Scouts of 20 South Plains counties.

The extensive project is located on a 400 acre tract donated to the Boy Scout council in 1926 by the C.W. Post estate. Olliver and Bellamy Construction company of Tyler is building the pool at a contract cost of \$29,286.50 from plans drawn by Parkhill and Cooper, consulting engineers of Lubbock.

Later the council plans construction of a caretaker's home, four rooms and bath; a central lodge containing dining hall and training facilities for 300; two winter shelters with capacity of 300; two winter shelters with capacity of 32 persons each; trading post and equipment storage building.

Electricity is being brought to the camp to provide power to operate wells, refrigeration and electric lighting facilities. An existing mess hall 30 by 90 feet will be converted into a handicraft lodge and museum. The old caretaker's quarters will be converted into a headquarters building. Estimated total cost of the project is \$90,481.50.

Amey said the county's share of car license money that is used for county roads will not be less than now received and in some counties the amount will be more.

Business Review For December

In a review of business conditions in Texas during December, the University of Texas Bureau of Business Research reported as follows:

Electric power consumption was 13 per cent above December of 1947, while commercial and industrial power use dropped 10 per cent from the preceding month but residential consumption advanced 6 per cent.

Loans in Texas numbered 1,354 during December for a total of \$5,964,446, a drop of 9 per cent from the preceding month and 2 per cent under December 1947. Construction loans fell 10 per cent from November.

Cotton consumption rose 10 per cent from November to December, but cottonseed received at Texas mills fell off 59 per cent. December consumption totaled 12,790 running bales, 1 per cent under December of 1947. Cottonseed received totaled 88,500 tons, 35 per cent under the same period the year previous.

Probably the safest and most effective way to reduce electricity is to put a time clock on the refrigerator.

KITCHEN MEMO

If you don't feel like turning on the oven to bake cookies, try this: Preheat griddle for three minutes with flame full on. Then turn down to low simmer for entire cooking period. Best heat test is a drop of water which should dance, rather than steam, on the griddle surface. Put 1 egg, slightly beaten, into 1/4 cup milk. Add 1/2 cup vanilla. Sift once 3/4 cup of purpose flour, 1 cup sugar, 1/2 tsp. baking powder, 1/4 tsp. baking soda, 2 tsp. nutmeg, 1/4 tsp. salt. Work 1 cup shortening into dry ingredients with pastry blender until mealy. Then pour into this the milk, egg and vanilla mixture. Mix. Wrap dough in wax paper, chill in refrigerator 1 hour. Roll out 1/4" thick. Cut with cookie cutter. Brown on slightly greased griddle on one side, then on the other. Makes 36 cookies.

Don't worry about hollers on your top burners. Just wipe them up with a cloth dampened in warm water. Later, when your gas range has cooled, you can do a mighty thorough cleaning job.

Neither hot water nor gas is wasted when you have an automatic regulator on your gas water heater, because gas is turned on and off automatically only as hot water is needed.

The built-in towel drier and movable racks on some new gas ranges not only save precious space but also hide unsightly dish towels and cloths.

An ordinary vegetable peeler is a good tool to use for grating cheese or citrus and cutting zucchini, eggplant and squash.

Car-Tunes By SPUR MOTOR CO.

"Well, personally, I like the way SPUR MOTOR CO. paints them better."

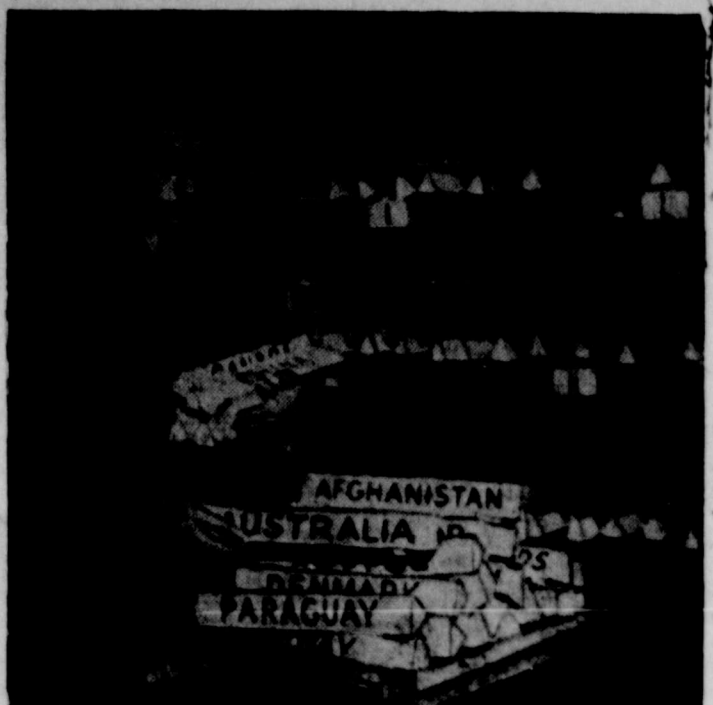

U.N. IN 1948

Nineteen hundred and forty-eight was the year in which man flew faster than sound but could not grow and produce enough to keep everyone fed and clothed. It was the third full year since the guns of the Second World War were silenced but a time in which the crack of individual rifles was frequently heard. It was the year in which more efficient processes for obtaining insulin were developed but in which more than 30,000,000 European children were found to have been infected by tuberculosis.

During that year, the 58-country organization to which the peoples of the world had assigned the task of keeping peace—the United Nations—faced many of the underlying problems which had created the paradoxes of 1948. As it had from its first days, U.N. continued to organize the nations of the world to produce more and to increase trade. It kept at the tasks of maintaining peace, even when, as in the problem of Berlin, they grew out of questions which the world had assumed would be settled before U.N. was a working organization. It worked to settle dangerous conflicts, such as that in Palestine. It listed results in social fields, such as the fight against disease, and again showed how closely the world's troubles were interconnected.

U.N., at the end of 1948, was no longer the infant organization it had been a year before, when its machinery had barely been completed. It now was a functioning organism under whose flag the world had a chance to maintain a lasting peace. In fact, said U.N. Secretary-General Trygve Lie, "... the United Nations has become the chief force that holds the world together against all conflicting strains and stresses that are pulling it apart. ... Indeed, the organs of the United Nations are now virtually the only places where regular contact and discussion have been maintained on a continued basis. ..."

A quick sweep with the camera over last year's events shows how and where the United Nations is serving to hold the world together. It shows, for instance, U.N. observers at perilous posts of duty in Palestine. It shows the face of Count Folke Bernadotte who died for peace in the Holy Land. It shows the General Assembly hammering out a Bill of Human Rights for the peoples of the world. It shows the will toward continued cooperation, despite obstacles, among the family of nations.

RARELY EVERY nation in the world has been represented in the open meetings of the United Nations. Here a U.N. employee takes snapshots out of storage for the 58-country General Assembly.

Rites Conducted For Matador Man

Earl Laughlin, 45, manager of the Leon Ice Company at Matador for the past 13 years, died in a Wichita Falls hospital about midnight last Thursday night, Jan. 27, following a major operation on Monday of last week. Funeral services were held Friday afternoon, Jan. 28, at the First Methodist Church in Rule, Texas. Interment was made at

the Rule cemetery.

Mr. Laughlin is survived by his wife, one daughter, Earlene, one son, Gary; his parents, Mr. and Mrs. Bob Laughlin of Stamford; one brother, Van Laughlin of Rule, and three sisters; Mrs. B. C. Crenshaw of Houston, Mrs. Frank McKarroll of Angleton, and Mrs. Cliff LaFever of Stamford. The funeral was attended by his niece, Mrs. H. G. Lackey, Jr. of Spur and Mr. and Mrs. Bob Blackshear of Spur. Mr. Blackshear served as a pallbearer.

U. S. Inspector Victim Of Mob

MEXICO CITY, Feb. 3—Robert L. Proctor, foot and mouth commission inspector, from Tucson, Ariz., was found dead Wednesday after an assault by a village mob. Proctor and Haul Sanchez, Mexican inspector, were attacked Monday by about 200 natives at Temascalcingo, in the mountains 75 miles northwest of here. The two inspectors had gone there to vaccinate cattle against the foot and mouth disease.

This is the third clash in which men of the joint U. S.-Mexico commission fighting the livestock disease have been killed.

The commission said it assumed the mob opposed the vaccination of cattle. Proctor and Sanchez broke away from the crowd, but Sanchez was overtaken quickly and beaten badly. He is in a Toluca hospital. Proctor was thought to have escaped and to be in hiding, awaiting rescue. An army plane and 100 soldiers searched the rugged country Tuesday. The last trace of Proctor was in a ravine. Early Wednesday his body was found some distance away.

1949 Pontiac To Be Shown Here

A year of continued high demand and sales volume was seen today by L. W. Ward, general sales manager of Pontiac Motor Division, as the new 1949 Pontiac Silver Streaks make their public bow. Although Pontiac sales exceeded 245,419 during 1948, third highest year in the division's history, Ward expressed confidence that Pontiac sales during 1949 will top this figure. With recently expanded factory facilities, Pontiac is more than able to meet these added demands.

"We expect a very fine year," Ward said. "In fact, with the beginning of production on the new 1949 models, we are in a more secure and better competitive position than ever before."

"However, satisfactory past demand has been for our product, we are confident that it will continue to grow in the future. Modern, functional styling and worth-while, functional improvements made Pontiac an even more desirable car to own than before."

"As the accepted car of a large segment of the substantial element of America's buying power, we feel that Pontiac can look forward to a fine reception during 1949."

Production is already under way at the factory with substantial production schedules set for February. First deliveries will be made about February 1, Ward said.

Shoppers List Provided By USDA

It's cheaper to make up the family grocery list from the list of plentiful foods. Scarce items are generally more expensive. Homemakers can keep the grocery bill lower by shopping from the monthly food list issued by the Production and Marketing Administration, USDA. They have just released a new list of plentiful foods for February. Fresh foods featured for this month are citrus fruits, winter pears, cabbage, carrots, spinach, lettuce and onions. The high quality protein foods on this list include cheese, eggs and fresh and frozen fish. The dried prunes and raisins offer excellent variety of uses with oat and corn products, which are also abundant. Reasonably priced canned foods include corn, lower grade peas, cranberries, and citrus juices and segments, says PMA. The other foods nearly always found on the monthly plentiful list are pecans, honey and peanut butter.

The Texas Spur

MOST SERIOUS problem before the Security Council in 1948 was the Berlin question, which involved four of the five permanent members of the Council. Here the 11-nation Council listens to the views of the United Kingdom as explained by Sir Alexander Cadogan (center).

FIRST GROUND was turned in 1948 in New York for U.N.'s permanent headquarters after the United States authorized a loan of \$65,000,000. Excavations for the buildings, an artist's conception of which is shown, are well past the halfway mark.

Afton News

Joe Robinson, a senior at Texas Tech, visited in the home of Miss Bernice Randolph over the week end.

Mr. and Mrs. W. J. Bridge of Lubbock visited in the homes of Mr. and Mrs. Clayton Bridge and Mr. and Mrs. Carl Randolph and family.

Mrs. Carl Randolph spent Sunday and Monday in Stephenville visiting her parents, Mr. and Mrs. T. D. Hale, and attending to business.

Mr. and Mrs. Payton Legg and family visited Mrs. Legg's mother, Mrs. Hicks in Spur Sunday.

The Agriculture boys and sponsor, Mr. Paul Swett were in Fort Worth Friday and Saturday attending the Stock Show. They returned home Sunday.

Mr. and Mrs. M. K. Lawson of Levelland visited here over the week end.

Mr. and Mrs. Hardie Welcher and Virginia attended the Fat Stock Show in Fort Worth over the week end.

Patton Springs High School has a basketball Tournament scheduled for this week end. There will be some good games. Be sure to come and tell your neighbor to come.

Mr. D. R. Hale and Tommie were visiting and attending to business in Stephenville Sunday and Monday.

Miss Billie Galloway visited with Mr. and Mrs. Floyd over the week end.

Nationwide Paper Scheduled by AFL

MIAMI, Fla., Feb. 3—The AFL Tuesday announced plans to start a national weekly newspaper circulating to millions as part of an elaborate political program.

A F L President William Green said the tabloid-size newspaper will be started as "soon as possible" in Washington and circulated first to AFL union leaders throughout the country.

All this is to spur interest in AFL drives to repeal state labor laws it considers harmful to labor, and whip up an even more powerful political force and future campaigns.

"My wife spends too much money, nags me constantly, is very untidy, and doesn't understand me!"

"Really? When did you meet this other woman?"

FOR THE FIRST TIME in their history, the people of Southern Korea voted in 1948 for a government of their own choosing. The way for the voting, shown above, was prepared and the election supervised by the United Nations Temporary Commission on Korea.

TROUBLES BETWEEN India and Pakistan over the State of Jammu and Kashmir were investigated by U.N. in 1948. Here members of the U.N. Commission on India and Pakistan (center and right) talk with local officials. Meanwhile, in Indonesia, another United Nations committee chalked up a body agreement on a cease-fire.

Minimum Pay For Farm Workers Proposed By Labor

WASHINGTON, Feb. 3—Organized labor Tuesday urged a minimum wage for agricultural workers on larger farms.

The proposal was made to the House education and labor committee considering administration legislation increasing the 40c an hour minimum wage to a 75c to \$1 range.

Workers on 100,000 so-called commercial farms regularly employing four or more hands would be put under minimum wages if Congress accepted the plan, Irving J. Levy, general counsel, United Automobile Workers, CIO, told the committee.

H. L. Mitchell, president, National Farm Labor Union, AFL, claimed the wages paid farm workers last Jan. 1 averaged "one an hour for the country as a whole."

The Agriculture Department reported the national average rate, without board and room, was 77c. Reducing board and room to an hourly equivalent, the average was figured at 60c.

The Texas average farm labor rate is 50c an hour. The Pacific Northwest pays the highest rates, 85c an hour, and the East South Central States of Kentucky, Tennessee, Alabama and Mississippi the lowest, 45c.

Largest farm operations pay the best wages, but no specific figures were available, the Agriculture Department said.

Mitchell said agriculture workers should have a guaranteed wage, just as the government guarantees a fair price for farm products.

He estimated more than half of the 3,000,000 farm workers in the United States are employed on commercialized farms, which he said produced 24.2 per cent of all the marketed products.

"These farms are in reality factories in the field, often employing hundreds of workers," Mitchell said.

Read the Want Ads Mary Is Lucky

Little Mary Christine Dunn has a good start toward dental health all her life. At the age of two and one half, she has learned to brush her own teeth. And she is receiving regular examinations and necessary treatment from the family dentist.

Unfortunately, Mary is the exception rather than the rule. Less than half of American children are following simple dental health habits which could prevent the disability and discomfort which dental diseases afflict on most adults today.

To stimulate public interest in the importance of dental health for all children, the American Dental Association is sponsoring such a program beginning with National Children's Dental Health Day on Monday (Feb. 7).

Dental authorities declare that by following three simple dental health rules from early childhood the average person can be assured a lifetime of dental health. These rules are: (1) regular dental care, (2) brushing the teeth after eating, and (3) minimum consumption of all forms of sugar.

Haylift Called Good Gesture

SAN ANTONIO, Texas, Feb. 3—The governor's haylift operation for marooned livestock and sheep was termed a good gesture Tuesday at the National Wool Growers Association's eighty-fourth annual convention, but it's not the answer to the problem, said one wool grower.

H. J. Devereaux, Rapid City, S. D., said "the only effective way would be to plow roads open, with trucks following and delivering feed to outlying ranches."

Devereaux, one of the association's vice-presidents, said the full effect of severe storms will not be felt until spring thaws in May.

He predicted that the loss will be terrific especially in Utah, Nevada, Wyoming, South Dakota and Nebraska. "Around my vicinity (Rapid City) it's worse than we have ever experienced. Sheep goats and cattle will continue to die until grass is sufficient to sustain them."

Consumption Of Cotton Increases

AUSTIN, Texas, Feb. 3—Cotton consumption in Texas rose 7 per cent from November to December, the University of Texas Bureau of Business research reported.

Totalling 12,790 running bales in December, cotton consumption gained 1 per cent from a year earlier.

Consumption of cotton linters totaled 2,079 running bales in December, falling 12 per cent from November and 17 per cent from December 1947.

Active cotton spindles showed no change from November to December while average spindle hours increased a fraction. Compared with December 1947, active spindles dropped 10 per cent, and average spindle hours fell 18 per cent.

Senators Set Hearings on Debated Bills

AUSTIN, Texas, Feb. 3—Highly controversial bills on education and oil and gas were Tuesday set for public hearings by Senate committees.

The three education measures already introduced as the result of the recommendations of the Gilmer-Aiken committee will be heard by the committee on education at 7:30 p. m. Tuesday, Feb. 8, Chairman R. L. Proffer of Justice announced.

The bills provide for the reorganization of the administrative setup of the state schools system, the method of division of financ-

Happy Landing

The committee on insurance heard proponents of two bills liberalizing loans which can be made by insurance companies. No one spoke in opposition to the measures. Action was postponed one week.

The committee on highways and motor traffic recommended passage of two bills. One provides for a 3-month license for non-resident trucks used in the hauling of farm produce. The other allows churches to register buses for \$1 a year.

The powerful state affairs committee, which will handle more bills than any other group in the Senate, held its organizational meeting.

Sen. A. M. Aikin of Paris, chairman, expressed the hope the committee would not be rushed into any hasty action by anyone.

Committee members voted rules which would preclude hasty action on any bill. More than thirty measures now referred to the go-

"Say Roger!" This is the signal for taking off familiar to these three young pilots from different parts of the country who have landed in Chicago's great medical center, Anne, Jean and Marion, flying in civilian patrol during the war, have many solo hours to their credit. At Cook County Hospital in Chicago, said to be the largest institution of its kind in the world, they are now busy piling up hours of nursing duty for their future careers.

At Cook County School of Nursing the student nurses form their own governing body in cooperation with the school faculty, and combine hard work with a balanced time for recreation and their individual hobbies, of which there are many.

Before becoming pilots these girls were active in the work of the I H Clubs. Spring class opens at Cook County on March 22 and two courses are available: A three year course and a combined college and nursing course which takes five years and leads to a college degree and a diploma in nursing as well. The director is receiving applications at 1900 West Polk Street, Chicago.

Oil Committee Gets Chairman

AUSTIN, Texas, Feb. 3—Sterling W. Williams, Snyder, heads the new oil, gas mining committee of the House of Representatives.

Regulatory bills such as the proposed unitization law for oil fields usually go to this committee. Doyle Willis of Fort Worth, another attorney, will be vice-chairman. All oil sections of Texas are represented among the twenty-one members—including Cecil Storey of Longview and Bill Wood of Tyler.

Revenue and taxation committee, which the oil and gas industry watches too, has Joe B. Fleming of Henderson, a farmer, as chairman and T. M. Collie, Eastland lawyer, as vice-chairman. Fleming led the fight two years ago against a unitization bill. The committee membership, based upon past performance in the Legislature, appears to be fairly well balanced between those of liberal and conservative views.

Milk Industry In Texas High

The government has published a bulletin on "How To Treat a Black Eye." More useful would be one on how to explain one.

One of the easiest things in the world to meet is expenses. You run into them every place you go.

Pilgrim Society Plans Replica of Plymouth Settling

PLYMOUTH, Mass., Feb. 3—Building of a replica of the original Plymouth settlement is the goal of a group who have formed the Pilgrim Society in 1945, He-

A site of about 100 acres near here has been purchased. This winter the program of construction of a sea wall with a painted background of the Plymouth Plantation.

People are drinking more milk than in pre-war days and milk is an outstanding low cost food. Milk prices have increased much less than "all foods". Latest government figures show "all foods" up 111 per cent on a national average over 1933-39 with home delivered milk up only 85 per cent.

Worth of the industry to the State is strikingly emphasized by the \$155,365,000 value set on Texas' 1,270,000 milk cows which produced 1,837,000,000 quarts of milk in 1947, final figures show. Production per cow averaged 1,447 quarts, a new record.

A total of \$119,033.90 in cash income was received by Texas dairy farmers. Increased use of milk for drinking and cooking helped as farmers receive the highest prices for milk used in that form. Cheese production of 10,635,000 pounds and butter 16,490,000 gallons plus other dairy products add to the tremendous total which the milk industry pours into the state's wealth.

The milk industry is serving consumers with a high quality product and every possible distribution economy, according to the Foundation. Profits of milk companies are about 1-3 of a cent per quart of milk on the national average which is one of the lowest figures of any industry says the Foundation.

specified the money should be used to make products, supplies and acquire land for the Pilgrim Memorial Village near Plymouth.

Two years later the corporation was formed, the name of the corporation being the Pilgrim Memorial Village of Plymouth.

A site of about 100 acres near here has been purchased. This winter the program of construction of a sea wall with a painted background of the Plymouth Plantation.

Research will continue in 1950 after which a building program will be made. The cost of funds raised by the corporation.

The primary task is to reconstruct the First Settlement as it was in 1623. The settlement consisted of about 40 with twelve houses, the Pilgrim storehouse and the Governor's house, which were surrounded by a palisade.

Houses will be built as they were in 1623. The names will bear the name of the family originally assigned to the house.

Other features of the program include building of a museum for the archeological findings obtained from excavations.

Preliminary estimates of the cost range up to \$1,000,000. A detailed cost estimate will be made. The First Street, Indian Village, Trading Post, museum and other facilities is \$300,000.

Membership in the corporation ranges from \$5 a year for an associate to \$1,000 for a benefactor life membership.

Mrs. Marvin Hays will be able to return home Wednesday after an appendectomy at the Grayston Hospital last week.

Even after football season is over, students will be around the colleges until the weather sets in.

Cigarets and Beer Fall Off in Texas

AUSTIN — Cigaret and beer consumption dropped in Texas during January.

State Treasurer Jesse James reported a drop of \$78,181 in cigarette stamp revenue for January compared with the same month a year ago. Beer stamp sales dropped \$38,625 in the same month.

Liquor stamp sales jumped — \$183,373 in January over the same month last year, and wine stamp sales were up \$9,730.

Total revenue from cigarette and all types of liquor stamps was \$3,057,358 in January compared with \$2,981,040 in January 1948.

KENT FAILURE REPORTED

Parity Price Asked For By Mahon

Representative Mahon of the 19th District has asked the secretary of agriculture to order promptly a 90 per cent parity price support for the 1949 grain sorghum crop.

The Texas Congressman told Secretary Charles Brannan such action would let thousands of acres of West Texas land—land which otherwise would be put into cotton—be planted in the grain feed.

He suggested that planting of more land in sorghum would be in line with the department's plan to curtail cotton production.

Parity is a formula used by the government to insure a farmer approximately the same purchasing power for a crop now that he received in a base period.

TEXAS BROTHERHOOD OBSERVANCE SET—Governor Beauford H. Jester, Texas honorary chairman of Brotherhood Week, has issued a declaration calling for the observance of Brotherhood Week in Texas February 20-27 under the auspices of the National Conference of Christians and Jews. In the picture Austin members of the Texas sponsoring committee receive the official document from the Governor. Shown are Dr. H. J. Ettinger, Brotherhood Week chairman for Austin; Governor Jester; Kenneth Pope, President Harry; chairman and Nelson A. Rockefeller.

Senator Corbin Asks For Holiday Honoring Roosevelt

AUSTIN—A resolution asking Congress to declare January 30—the birthday of the late President Franklin D. Roosevelt—a national holiday, was presented in the senate last week by Senator Kilmer B. Corbin of Lamesa. The lengthy resolution lauding President Roosevelt was unanimously adopted and went to the House for consideration. Copies of the Corbin resolution will be sent to the President, Vice-President, Speaker of the House and to each Senator and Representative from Texas in the Congress of the United States.

Although a freshman in the upper house of the Texas Legislature, Senator Corbin has ably demonstrated his ability as a lawmaker on many occasions during the first days of the present session.

Post-Mortem at 'Namru One'

The Naval Medical Research Unit No. 1, at the University of California at Berkeley, directed in 1945 to investigate possible enemy use of infectious disease as a weapon, has not only gained considerable knowledge of mass defense against disease, but also has assimilated invaluable information for the control of communicable airborne diseases among peacetime populations. Photo shows an autopsy under way on an animal infected during the course of studies at "NAMRU ONE." Protective masks are worn by the laboratory researchers. (Official Navy Photograph)

Tech Professor Named Taxation Member by Jester

Lubbock, Feb. 3 — Gov. Beauford Jester has appointed Dr. Reginald Rushing, head of accounting and finance department at Texas Technological college, to serve on a special committee to study problems of taxation in Texas. An organizational meeting of the committee was held Jan. 31 in Austin.

It is the Governor's desire that this group will prepare data on such subjects as description, yields and administration of present tax structure of state and local governments in Texas; present fiscal problems of county and city governments in Texas and a description of possible solutions; possible abolition of State taxes which are obsolete and unimportant; other changes in the State tax structure and administration which may be indicated.

The material gathered by this committee working with state officials will be presented by the Governor to the Legislature.

Dr. Stuart MacCorkle, University of Texas, is chairman. Members include Rushing, Dr. E. T. Miller, University of Texas; L. P. Gabbard, Texas A. & M.; and Bullock Hyder, North Texas State Teachers college.

State officials include Robert S. Calvert, state comptroller; Jesse James, state treasurer; Hall H. Logan, chairman, state board of control.

Increase Reported In December Sale

AUSTIN, Texas, Feb. 3 — December sales of Texas department and apparel stores climbed 47 per cent from November, the University of Texas Bureau of Business Research reported. This rise was slightly below the seasonal expected rise of 49 per cent.

Sales for December 1948 were up 3 per cent from a year earlier. Following the seasonal trend, Texas cities recorded November-to-December gains in department and apparel store sales. Increases ranged from 31 per cent in Plainview to 125 per cent in Cleburn. Other notable advances from the previous month were: Baytown, 84 per cent; San Angelo, 81 per cent; Corpus Christi, 80 per cent; and Temple, 59 per cent.

In comparison with December 1947, 13 Texas cities reported declines in department and apparel store sales. These setbacks ranged from a fractional dip in Plainview to a 16-per-cent drop in Orange.

On the other hand small increases over December 1947 were

turned in by other Texas cities. Department and apparel stores in Tyler tallied a 13-per-cent rise; Temple's sales were up 11 per cent; Beaumont, 8 per cent; Baytown, Cleburne, and Denison 7 per cent.

Department and apparel store sales for the year 1948 were 7 per cent higher than that reported for the year 1947. Houston made the best showing, with a 21-per-cent increase. Plainview, Tyler, and Abilene stepped up their sales 13, 12, and 10 per cent, respectively, during the 12-month period.

Credit sales in proportion to net sales in department and apparel stores averaged 59 per cent in December, as compared to 62 per cent in November, and 58 per cent in December 1947. The average per cent in November, and 58 per cent in December 1947. The collection ratio declined to 52 per cent from 54 per cent in November and 56 per cent in December 1947.

DOCTORS DISAGREE ABOUT ARTHRITIS!

Some claim it is incurable—yet sufferers who have tried BULMA-SUB tell us that this new liquid anesthetic gives them wonderful relief from pain and discomfort. BULMA-SUB is a pleasant-to-use Anesthetic that penetrates and stimulates nerve endings and soothes joint areas and gives welcome relief. And remember you can find this BULMA-SUB given more relief from pain of Arthritis, backache and Rheumatism than any natural remedy ever used—in your nearest pharmacy. A large bottle of BULMA-SUB costs only \$4.95 of your Druggist or City Drug Co.

CAN WE HELP

YOU IN 1949?

This is the time of the year when most farmers, cattlemen and businessmen as well as other individuals make their plans for the coming year. Frequently loans are required to carry out these plans.

Making loans is an important part of our business. By constantly keeping our bank in a strong financial position we are ever ready to make sound loans to farmers, stockmen, business and others.

Come to see us. You will find that our friendly bank officials will welcome the opportunity of consulting with you on your financial problems.
