Texas' Longest, Wildest Session Ended Wednesday

Austin, July 7 — The longest and wildest legislative session in Texas history ended Wednesday with a trifling \$110,000 left in the cash box.

The 51st Legislature extended state services in dozens of ways, spent an accumulated surplus of \$100,000,000 and all the anticipated revenue for the next two years but the \$110,000.

The Legislature actually authorized spending of more than \$312,000,000 directly or indirectly from general revenue and faced a deficit of \$17,000,000 until Governor Jester's veto brought spending and income into balance.

Doing this brought Texas a re-organized public school system, a new prison system and many miles of rural roads. It increased state workers' pay, boosted funds for state departments and colleges and added many new governmental functions.

The lawmakers resisted all efforts to pass a new tax bill but went home faced with a certain special or regular session within six months to raise new revenue, or retrench.

The 177-day session actually ended at 1:09 p. m., one hour and nine minutes late. That's when House Speaker Durwood Manford announced that the business of the legislating was over.

The Senate quit at 12:03 p. m. Manford and Lt. Gov. Allen Shivers had to stick around through a long, hot afternoon to sign bills and otherwise dispose of mechanical details.

The House officially ended its work at 4:41 p. m. and the Senate at 4:55 p. m.

Lions Rete Ladies On Installation Night

Lions Club Ladies' Night and installation of officers was held at 8 p. m. Tuesday, in the Methodist Church. Past President Fred Kinney bearing the club's large banner and "Spur Lions Club" banner and "Spur Lions Club" banner and "Spur Lions Club" banner.

Officers installed were: Bruce Browning, president; Sam Hawkes, 1st vice president; Lawis Lee, 2nd vice president; Grady Lackey, 3rd vice president; D. J. Dyess, secretary; A. J. Harvick, assistant secretary; Pete Kizer, tall twister; and M. P. Vanover, lion tamer. Directors named were Guy Karr and V. C. Smart, Sr.

The recently purchased resuscitator was presented to the Spur Volunteer Fire Department by retiring president Kinney. Assistant chief Lawis Lee accepted it for the department. The resuscitator is an oxygen-administering instrument to be used for treating victims of drowning, electrical shock, heart attack, etc. It is to be mounted on a fire truck and will be available at any time to any one who needs it. Fire department members will be instructed in its use.

Ladies attending the outing received souvenir sewing kits. Approximately 50 members and guests were served ice cream and cake.

4-H Safety Workers in All-Out Attempt to Reduce Accidents on Farms in 1949

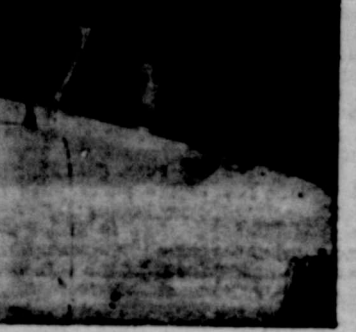

MR. FARMER, has the 4-H Club member in your family checked your farm and home for accident and fire hazards lately? If not, you can expect him to do so any day now. 4-H'ers are making an all-out attempt to reduce the annual cost of accidents affecting farm folks—including motor vehicle, fire and property damage—which totals more than one billion dollars, or about \$35.00 per person! They are also trying to cut down the number of accidental deaths, which kill 51 farm residents in the U. S. every day in the year.

Your 4-H'er doubtless will caution you to drive carefully on highways, and use proper signals when turning or stopping (top right). More than 7,300 rural people are killed annually in motor vehicle accidents. In fact, more fatal automobile accidents occur in rural areas than in any other location.

Falls rank second in farm accident causes. So watch your step when carrying a clothes basket, like the girl shown in right photo. Your 4-H safety worker probably will suggest you tack down throw rugs or put them on non-slip matting, and keep stairways uncluttered.

Are your lightning rods properly grounded? The 4-H'ers shown at top left found the ground wires broken, and therefore worthless. Lightning, which is one of the great causes of farm fires, each year destroys 20 million dollars worth of farm property, kills 500 farm residents and injures 1,300 others.

The National 4-H Farm Safety Week will be observed July 24-30. Rural boys and girls taking part in the National 4-H Farm Safety program.

want to make you, your family and neighbors safety minded so that accidents mentioned above won't happen.

For achievements in safety work, the 4-H boy or girl may receive a prized sterling silver medal of honor as county winner, General Motors also provides an educational trip to the National 4-H Club Congress, Chicago, next November, for the state winner, and \$200.00 college scholarships for each of the eight national champions. By practicing safety from this time on, you'll not only help your 4-H'er in his safety work, but help save a life—which may be your own.

The National 4-H Farm Safety program is conducted under the direction of the Cooperative Extension Service.

Three City Workers Receive Certificates

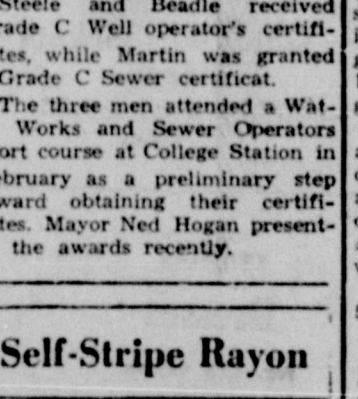

Three city employees, J. W. Steele, Raymond G. Beadle and William Lee Martin, recently received their Certificates of Competency from the State Department of Health, according to city manager James Cowan.

These awards of competency were issued as a guarantee to Spur residents that the water works personnel is qualified to issue a quality drinking water for public consumption, said Cowan.

Steele and Beadle received Grade C Well operator's certificates, while Martin was granted a Grade C Sewer certifiact.

The three men attended a Water Works and Sewer Operators short course at College Station in February as a preliminary step toward obtaining their certificates. Mayor Ned Hogan presented the awards recently.

Self-Stripe Rayon

Here's a figure flattering bathing suit which features the popular single-strap style. The fabric is fine rayon crepe, made of finished rayon yarn, with a self-stripe of rayon yarn—a fabric which will wear beautifully through long, busy days of sun bathing and swimming.

Junior Legion Team Captures District Title

Spur Junior American Legion baseball nine took the District I crown when they defeated Falls last Friday and went on to finish the season with a 5 to 0 victory over Idalou Tuesday.

Their win in District I gives them a right to play in the playoffs starting in Lubbock Friday, July 8, at 2 p. m. Winners in District 1, 2, 3 and 4 will begin the play-offs Friday with finals scheduled for Saturday. Winners in the other districts are: Odonnell, group 2; Allen Bros. Post, Lubbock, group 3 and Leveiland, group 4.

Clyde Blair, John Koonsman and Al Young will see pitching duties for the Spur teams. Blair and Young teamed up last Tuesday to hold the Idalou team to a shutout. Watson and Hoover were the batting stars.

Spur came thru the season with 5 victories and 1 defeat.

Spur All Stars To Play Paducah

The Spur All-Stars, colored baseball team of Spur, will meet the Paducah Tornados Friday night, July 8, at 8 p. m. at Koonsey Park, Dickens. It was announced this week.

The All-stars have played ten games this season and have been victorious in six of them. Max McKinney will be on the mound for the all-stars.

J. D. Henderson is captain of the team, and Archie Lee Samuel is the team's manager.

Sheriff's Office Names 14 Arrests

Report of 14 arrests and convictions for the last two weeks of June was made Tuesday by the sheriff's department. This was a decline from the 23 cases reported in Dickens county for the first two weeks of June.

Included in the latest report were: 1 driving without operator's license; 1 contempt of court; 2 disturbance of peace; 2 drunkenness; 3 fighting; and 4 various traffic violations.

All these cases were held in the Spur Justice court or Dickens Justice court, according to Sheriff C. C. Kimmel.

Cage Resigns As Deputy Sheriff

Horace R. Cage, who has been serving as deputy sheriff under Sheriff C. C. Kimmel for the past three years, resigned his post effectively July 1. Sheriff Kimmel announced this week.

Mr. Cage's resignation came after the Commissioners Court had reduced his salary to \$125 per month.

In making the announcement of Deputy Cage's resignation, Sheriff Kimmel stated that Mr. Cage had been a very efficient and honest officer and he regrets the loss from his force. He further stated that he would be unable to hire a deputy at the salary set by the Commissioners Court, and will endeavor to carry on the work alone. "This will be a big job for me alone, and I urgently ask the cooperation and help of all people in the county," Sheriff Kimmel concluded.

Eric Swenson Named President Of TCR

Eric Swenson, manager of the Emory Farm Lands and Ranches in Spur, has been elected to the presidency of the Texas Cowboy Reunion Association, organization of oldtime cowboys and cattlemen.

Election of officers was held July 2 in Stamford at the annual meeting of the organization. Included as members of the board of directors of the association are Ms. Mildred Hamby Edwards and E. E. Edwards of Dickens.

Also, at the Reunion, Jimmie Bird, of Spur, was named champion calf roper with a total time of 30 seconds for two calves.

Tech Directors Appointed By Gov.

After several months delay and coming just before the Texas Legislature session ended, Gov. Beauford Jester submitted the names of three directors of Texas Technological College.

The names submitted and approved by the Senate were: Robert Price, El Paso, reappointment; Raymond Pfleger, Eden and C. T. McLaughlin of Snyder.

Price will succeed himself; Pfleger and McLaughlin succeed O. B. Ratliff of Lubbock and Kyle Spiller of Jacksboro.

Special Elections Slated For Nov. 8

The Texas House and Senate agreed Tuesday to hold the special elections in Texas on Nov. 8, instead of the previous date of Sept. 24, it was announced from Austin.

Texas voters will go to the polls on the Nov. 8 date to elect a 21-man state board of education and to approve or disapprove 10 or more constitutional amendments.

The election on constitutional amendments had been scheduled for Sept. 24, but the date was changed in order that all special elections could be held at the same time.

Clairemont Woman's Funeral Is Conducted

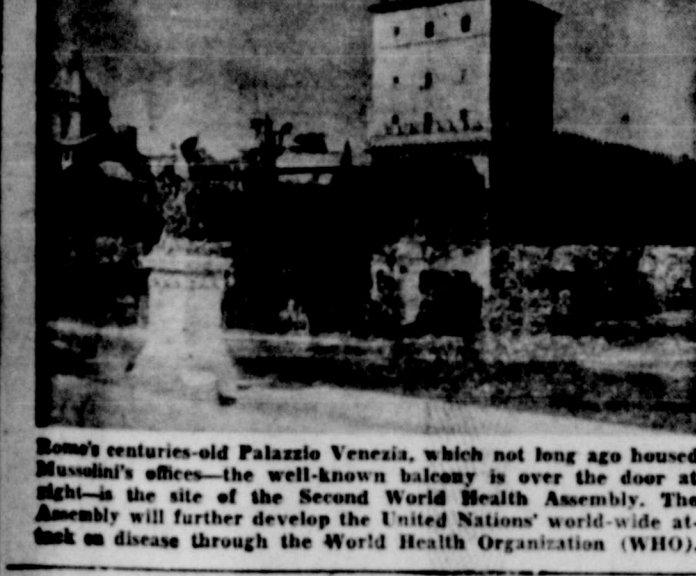

Funeral services for Mrs. J. P. Barkley, 72, wife of a Clairemont business man, were held Monday at the Methodist Church in Jayton.

Mrs. Barkley died Sunday. She was a leader in the Methodist Church and Eastern Star.

Survivors include her husband; two sons, Ben K. Barkley of Fort Worth and Brady Barkley of Clairemont; and two daughters, Mrs. Florence Johnson of Clairemont and Mrs. Frankie Mayfield, Jayton.

Mr. and Mrs. M. P. Duncan left Thursday of last week for Dallas, Paris and Linden to visit relatives and to attend a family reunion in Linden on July 4.

WTU Ads In Texas Spur Given Award

The Texas Spur was advised today that a series of advertisements which appeared in this paper had been awarded first place in a national advertising contest.

A series of West Texas Utilities Company advertisements promoting the use of electric service was selected the best in Class A competition in "The Annual Better Copy Contest" sponsored by the Public Utilities Advertising Association, a Department of the Advertising Federation of America.

"The Better Copy Contest" is conducted for the purpose of stimulating finer advertising and to recognize work well done. This year more than 1,500 entries in twenty classifications were judged, by nationally recognized authorities.

A certificate of award "for the best public utility advertising during the preceding year" was presented to the West Texas Utilities Company at the Annual P. U. A. Convention in Cincinnati, Ohio last week. Robert E. Kennedy, WTUco advertising manager, accepted the award for the company.

All copy and layouts for the winning series of advertisements were written and prepared by the WTU advertising department.

Senate Approves Cut In Cotton

Washington, July 7 — The Senate Wednesday approved by voice vote a bill to permit the Agriculture Department to cut down cotton acreages.

The bill, which now goes to the House, also would permit the department to re-allocate between the cotton producing states the acreage which is to be controlled.

Approximately 27,500,000 cotton producing acres now are under government control, the bill would set up a base acreage of 22,500,000 acres and a cotton quota of 13,500,000 bales.

The acreage and quota could be changed by the secretary of agriculture with changing conditions in the cotton market.

The bill was amended prior to passage to permit the exemption of certain wheat lands from acreage cutbacks below the national quota.

Dickens Lions Club Organized June 30

Announcement has been made of the organization of a Dickens Lions Club on June 30 by L. J. Varnell 2nd vice president of the new organization and county clerk.

Officers elected are: C. C. Kimmel, president; Guy Felmy, first vice president; L. J. Varnell, second vice president; J. W. Street, third vice president; George Carter, secretary; E. V. Arthur, treasurer; Ben Overstreet, lion tamer; and Johnny Koonsman, tall twister. Included in the list of directors are H. G. Watley, L. H. Richards, and two whose names were unavailable at this time.

Mr. and Mrs. C. A. Fagan had as their guests the past weekend their son and family. Mr. and Mrs. C. A. Fagan Jr. of Dallas.

Texans Like Dallas Over Fort Worth, Poll Reveals

By Joe Belden
Director, The Texas Poll

Austin, Texas, July 7 — The long-standing rivalry between Fort Worth and Dallas is illustrated by an anecdote they tell about Amon Carter, well-known publisher of the Fort Worth Star-Telegram.

Carter, so the story goes, was in an airplane over Dallas. He looked down and saw the giant flying red horse on the Magnolia building. Turning to a companion, he exclaimed: "Everybody knows Dallas is a one-horse town; I can't see why they have to advertise it."

This must be a slight exaggeration.

For, in a statewide survey conducted by the Texas Poll, more people said they would rather live in Dallas than in Fort Worth. And not a single one mentioned anything about a horse.

Mind you this was an accurate poll. It included correct proportions of men and women of all walks of life, rich and poor, of all ages, farm and city folks, whites and Negroes, living in all parts of Texas.

Seven out of every ten adults questioned took one side or the other, with the result coming out about four to three in favor of Dallas. Eighteen per cent would express no opinion. Seven per cent said both places were about the same. And five per cent believed both cities by saying neither was fit to live in.

This was the question asked: "As between Dallas and Fort Worth, which do you think is the better place to live?"

Dallas	42%
Fort Worth	28%
Both same	7%
Neither good	5%
No opinion	18%
Total	100%

Now you shouldn't jump to the conclusion, after looking at the above figures, that most people are getting ready to move to Dallas or Fort Worth.

The fact is most Texans say the place where they are now living is the best in the whole wide state. This is disclosed in their answers to the following questions:

"Of all the towns and cities in Texas, which ONE do you think is the best to live in?"

"Which would you say is next to best?"

Named own community	59%	12%
Named larger community	27	43
Named some other place	8	22
No opinion	6	23
Totals	100%	100%

Even though most people tell you their town or community is the best, the figures above also indicate great appeal of the big cities.

Note that seven out of every ten persons named a community larger than their own as "the best" or "the next best" place in which to live. It looks like if there's any moving to be done, it's going to be from the smaller to the larger towns.

Miss Grace Boothe, M. L. Starcher Wed In Garden Ceremony Friday

In an out-door ceremony at the home of Mrs. Nona Starcher, Miss Grace Boothe, daughter of Mr. and Mrs. R. L. Person, became the bride of Melvin L. Starcher, son of Mr. and Mrs. D. R. Starcher of Tipton, Okla. Friday, July 1 at 8:45 p. m.

Background for the ceremony was an arch of fern with pink and white daisies. Rev. C. V. Allen officiated at the double ring service. The entire garden was decorated with cut flowers, palms and ferns.

Given in marriage by her brother, G. R. Boothe, the bride wore an afternoon dress of white pique with a single bertha collar and a full gored skirt. Her shoulder length veil of white was attached to a coronet of white stephanotis. She carried white sweetheart roses showered with stephanotis and white satin streamers. Her something old was a double strand of pearls belonging to Mrs. Starcher's mother. Her Eisenburg earrings were borrowed and she wore blue garters and a penny in her shoe.

Attending her sister as maid of honor, Miss Jean Boothe wore a pink pique dress fashioned after the brides. She carried a nosegay of pink and white carnations and wore pink carnations in her hair.

A program of wedding music was offered by Miss Faye Mid-dlebrook, pianist, and Mrs. L. H. Huff Jr., who sang "Wedding Prayer" and "Always."

W. B. Starcher was the brother's best man. Billy D. Starcher and Garry Huggins were ushers.

Parents of the couple and members of the wedding party greeted guests at a garden reception immediately after the ceremony.

The bride's table was laid with a pink canopy cloth, and centered with white and pink daisies. The bell shaped wedding cake was decorated with a spray of roses and a miniature bride and groom, surrounded by orange blossoms. The bride and groom cut the wedding cake.

Misses Thonnie Thannish, Bettie Bonard and Mrs. Larry Boothe assisted with hostess duties. Billy Starcher played piano selections.

Travelling Rayon

Here's a dress that really takes to the road. It's made of rayon, a fabric that's easy to pack and easy to wear. It's also a dress that's simple to design and make for cool comfort as well as good looks.

For the wedding trip, the bride wore an ermbid and silver striped dress, white accessories and a white beaded corsage. The couple will make it a spur.

Many guests attended the wedding and reception. Out of town guests were the groom's parents of Tipton, Okla. and Mr. and Mrs. M. C. Goding and Mr. and Mrs. H. H. Huggins of Corpus Christi, Texas.

Mr. and Mrs. L. D. Ratliff were in Lubbock to attend the Soap Box Derby.

Canned Citrus Fruit and Juice Go To Buffet Dinner in Molded Salad

THERE'S an informal air to help-yourself dinners that makes them especially appropriate for summer. Buffets are boon to hostesses, too, because they simplify service and suggest foods that can be prepared a long time in advance.

One of the brightest salad items in a summer of buffets is Citrus Cottage Cheese Mold. It's an eye-catching dish for a buffet table and it's almost as easy to make as opening a can of grapefruit sections, a can of citrus fruit juice and adding them to unflavored gelatine. A snowy cap of cottage cheese is added to the molded fruit by the simple technique explained in the recipe below. Good buffet partners for Citrus Cottage Cheese Mold are baked ham, hot rolls and angel cake with chocolate ice cream.

Citrus Cottage Cheese Mold

1 No. 2 can grapefruit sections
Canned grapefruit juice
2 envelopes unflavored gelatine
1 cup (8 ounces) cream style cottage cheese
2 tablespoons mayonnaise
1/2 teaspoon salt
1/4 cup sugar
1 tablespoon vinegar

2 1/2 cups. Soften gelatine in 1/2 cup of the citrus juice mixture; place over boiling water and stir until gelatine is dissolved. Mix cottage cheese, mayonnaise, and 1/4 teaspoon of the salt. Blend in 1 tablespoon of the dissolved gelatine. Turn into 1 1/2 quart mold; chill until almost firm. Add remaining dissolved gelatine, sugar, remaining 1/4 teaspoon salt, and vinegar to the remaining 2 cups citrus mixture. Chill until the mixture is the consistency of unbeaten egg white. Stir in grapefruit sections. Turn into mold on top of cottage cheese layer. Chill until firm. Unmold and garnish with additional grapefruit sections and cucumber slices. Serve plain or with mayonnaise. Yield: 8 servings.

Drain grapefruit sections. Measure syrup and add any of the citrus juices desired, grapefruit, orange, tangerine or blended juice to make

Good Buy—all around

FRIENDS gather, look over that long bonnet and wish they had as much Fireball life as you have here.

They size up the broad windshield and narrow corner posts—and don't have to be told how these things step up "see-power."

They appraise the smart styling, the roomy interiors, the usability of luggage space—and agree you've made a buy.

But don't stop, please, with letting them look. Invite them in and introduce them to some of the special pleasures you'll know as a Buick owner.

Show them, for instance, how completely different Dynaflow Drive is, with every mile cushioned by flowing oil and none of the rigid harshness of direct-drive cars.

Let them sample the matchless Buick ride, with all four wheels cradled on soft, coil springs and low-pressure tires made still easier-riding by extra-wide rims.

Mrs. Velma Owens and son, left Sunday for a vacation trip to Lubbock and Amarillo.

Former Spur Girl Is Wed In Lubbock

College Avenue Baptist Church of Lubbock was the scene of the wedding of Miss Norma Middlebrooks of Midland, daughter of Mr. and Mrs. C. O. Middlebrooks of Matador, formerly of Spur, and Rollin Senter, son of F. O. Senter of McCamey and Mrs. Mable Senter of Midland.

The vows were exchanged before an altar of gladioli and fern. The single ring ceremony was performed by Rev. J. T. Campbell of Plainview, at 10 o'clock Monday morning.

Miss Faye Middlebrooks of Spur, sister of the bride, played the traditional wedding march and furnished music for the occasion. A trio, Nelivee Clark, Verla Lee Goins, and Joyce Strutter of Midland, sang "Because."

The bride, given in marriage

by her brother-in-law, Middlebrooks, wore a white two-piece crepe dress with navy trim and white accessories. She carried a white Bible topped with an orchid with satin streamers. For something old and borrowed she carried a handkerchief belonging to the Midland Y. W. A.

Miss Unell Middlebrooks attended her sister as maid of honor. Her dress was of petal pink crepe with white accessories and a corsage of pink roses.

James Kerr of Midland served as best man.

Following the ceremony a reception was held in the home of Mrs. W. H. Moore, another sister of the bride. Mothers of the couple and the bride and bridegroom were in the receiving line.

The service table was laid with an arrangement of sweetpeas and white candles. The two-tiered wedding cake trimmed with pink rosebuds and topped with minia-

Your Home
By Frances Abner

I think every housewife looks forward to warm summer months, don't you? But summer has always meant one "bugaboo" for me—dust. It's a nuisance to have clouds of dust from the driveway settling on the outside aprons of your house and causing extra cleaning inside. So I was especially happy when our hardware man told us how to get rid of this dust.

He told us to use Columbia Calcium Chloride on our driveway and in our basement to hold the moisture and bind the dust. It's a white flaky material that absorbs water and completely dissolves itself in the moisture it takes from the air. When these flakes are spread over a dusty surface, they absorb water from the air and provide clean, odorless and lasting moisture to bind dust particles together. It's a simple method of "dust-proofing" that has long been used for tennis courts, playgrounds, roads and streets to get rid of the dust nuisance.

You can apply this dust-proofing yourself—either with a special spreader or a shovel. If you use a shovel you'll want to rub over the surface after application, but other method is simple. Apply Calcium Chloride after a rain—or hose the surface first. This makes it stick better. One application will probably do for the entire summer, or you may use small amounts once or twice later.

I was simply amazed at the difference this simple dust-proofing made in the look of our yard, and in the cleaning it cut down inside. I know that it will actually take hours away from my housekeeping, and there's certainly a help in warm weather, isn't it?

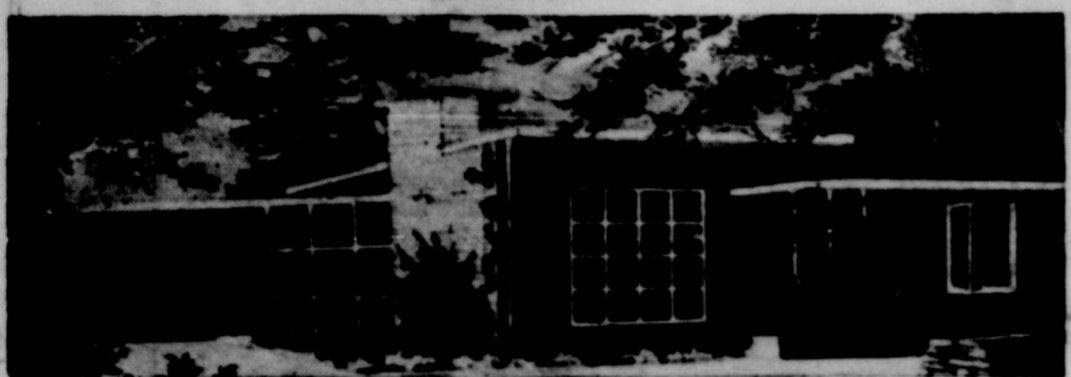

Harry Langham gave such a good performance that one on-looker gave Harry a hearty slap on the back. This was just too bad, for it caused Langham to

really swallow the blades which were pressed against the roof of his mouth. Taken to a hospital, he was fed on cotton wool to stop the internal bleeding.

SOUND SIMPLICITY at rock-bottom cost is the keynote of this new model home recently opened by the Housatonic Beach Company, Inc., on Long Island, N. Y. Designed after the suggestions of Douglas Tuomey, building consultant for Good Housekeeping magazine, the architect kept expenses down by: (1) Elimination of basement; (2) Simple frame and roof; (3) Dry Wall construction; (4) Simplified windows and trim; (5) Use of closets for partitions. Although the house embodies the latest principles and advancements in moderate-priced design and construction, it's so simple to build that the tool-wielding amateur can do much of the work. The Housatonic House lends itself to any seashore terrain and can be used for a summer or year-round home. It is featured in the June issue of the magazine.

ture bells and lovebirds was at one end of the table with the punch bowl at the other. Mrs. Conrad Middlebrooks, J. T. Campbell and Miss Mardell Middlebrooks assisted with the serving.

MAN, 78, SURVIVES 80-FOOT LEAP

Washington, D. C.—Frank Watkins, 78, survived an 80-foot jump from Key Bridge into the Potomac River. Three fishermen who pulled him from the river, said the man laid his coat, hat and glasses on the bridge, climbed over a guard rail and jumped. He was taken, in critical condition, to a Washington hospital.

Drive one of our demonstrators and see for yourself how Ford Overdrive smooths your ride. Your engine speed actually drops 30% without any drop in road speed. For example, while your car's road speed stays at 50 m.p.h. your engine speed drops to 35 m.p.h. in Overdrive. This actually adds to engine smoothness and quietness and engine life. It saves you up to 15% on gas and oil... cuts service costs... it's like getting a dollar's worth of gas for 85¢. And for added safety, a touch on your gas pedal releases a magic-like surge that makes passing and hill-climbing a breeze.

It accents the new FORD "FEEL"

Take the lower, level "Mid Ship" ride... the power of new V-8 or Six engine... the "feel" of "Hydra-Coil" and "Para-Flex" Springs... the 36" "easier" "Magic Action" brakes. Add the many other firsts of the "Fashion Car of the Year" and you'll see why you should be ordering your Ford now.

NO. 525
IN THE
COUNTY COURT OF DICKENS COUNTY, TEXAS
IN THE MATTER
THE GUARDIANSHIP OF J. M. TULLIS, ELTON RAY TULLIS, MARY FRANCES TULLIS and FRANK TULLIS, ALL MINORS

TO ALL PERSONS INTERESTED IN THE ABOVE MINORS OR THEIR ESTATES:

YOU ARE HEREBY NOTIFIED that I have on the 6th day of July, 1949, filed with the County Clerk of Dickens County, Texas, an application under oath for authority to make a mineral lease, covering and including the oil, gas or other minerals on, in, and that may be produced from the following described real estate owned by said Minors, viz:

FIRST TRACT: 123.5 acres of land out of the Northern part of the Southwest Quarter of H&GN Railway Company Survey 374, Certificate No. 10/2062, Block No. 1, Abstract No. 736, situated in Dickens County, Texas and being the same land described by metes and bounds in that certain general warranty deed from Robert J. McAteer to F. C. Davis, dated December 24, 1923, and now appearing of record in Volume 35, page 174 of the Deed Records of Dickens County, Texas, to which said deed, and the record thereof, reference is here now made for all legal purposes; and

SECOND TRACT: An undivided one-half (1/2) interest in and to all of the Southeast Quarter of H&GN Railway Company Survey 337, Abstract No. 195, Certificate No. 10/2064, Block No. 1, containing 167 acres of land, more or less, in Dickens County, Texas, and being the same land described by metes and bounds in that certain deed from C. D. Bird, et al to M. M. Tullis, dated September 12, 1942, and now appearing of record in volume 59, on page 129 of the Deed Records of Dickens County, Texas, to which said deed, and the record thereof, reference is here now made for all legal purposes; and

THIRD TRACT: An undivided one-half (1/2) interest in all of the Southwest Quarter of H&GN Railway Company Survey 352, Abstract No. 636, Certificate No. 10/2071, Block No. 1, containing 166 acres of land, more or less, in Dickens County, Texas, save and except a ten year non-participating mineral reservation in and to an undivided one-fourth (1/4th) of the minerals on, in and under said land reserved by O. B. Ratliff and wife, Irene Ratliff, in deed dated September 10th, 1942 and now appearing of record in Volume 59, page 128 of the Deed Records of Dickens County, Texas, to which said deed, and the record thereof, reference is here now made for all legal purposes.

The Judge of the County Court of Dickens County, Texas, on the 6th day of July, 1949, duly entered his order designating the 18th day of July, 1949, at nine (9) o'clock A. M. in the County Courtroom in the Courthouse of Dickens County, Texas as the time and place when and where such application would be heard and such application will be heard at such time and place.

HEALTH NOTES

Austin, Texas, July 7 — A deficiency of salt in the human system can cause serious consequences, and for this reason Dr. Geo. W. Cox, State Health Officer, advises every person whose work is such that it causes excessive perspiration to add a pinch

of ordinary table salt to each drink of water taken during the day. Farmers, mechanics, carpenters, construction men and all other persons whose work causes them to sweat profusely are in danger of having their body salt content seriously depleted, and as a result may suffer from heat cramps or heat fag. Salt is a prominent constituent of sweat, and when the thermometer hits the high register, the human body may lose as much as 40 to 50 grams of salt during a single day.

In many industrial plants workmen are furnished with and urged to take a tablet of pure salt or find this a pleasant way of taking a mixture of salt and dextrose with each drink of water. Many bring extra salt, but others prefer to add the needed amount of extra salt to their food and drink. "Take your extra salt in any manner that is agreeable to you," says Dr. Cox, "but take it. Heat cramps are very painful and exhausting. They are characterized by cramps in the abdominal region, headache, and in severe cases there may be nausea and vomiting. Body salt losses occur without the knowledge of the individual until a deficiency exists; then the abdominal muscles begin to cramp."

RAIN BREAKS UP PRAYER SERVICE Wisborough Green, England—Villagers holding an open-air service to pray for rain to save their crops, had to run for the church in order to complete their prayer meeting—the rain suddenly came in a downpour. SOUND SLEEPERS Atlanta, Ga.—Jack Phillips of Fayetteville, Ga., slept peacefully during a nap in Atlanta's Terminal Station, that he was unaware when someone removed a new pair of shoes from his feet. The shoe thief left a pair of battered brogans in their place. The visitor also removed \$7 from Phillip's wallet.

Giles Says Procedure For Acquiring Land Under Vet Program To Be Kept Simple

By BASCOM GILES, Commissioner of the General Land Office and Chairman of the Veterans' Land Board

(Editor's Note: This is the concluding article of a series of three by Bascom Giles explaining the newly created Veterans' Land Board Program.)

In keeping with the terms of the legislation creating the Texas Veterans' Land Board, its administration and operating policies will be kept as simple as the problem of this huge program will permit. The fact that approximately 13,000 veterans have already contacted this office for information on the working details of the plan indicates the commendable desire of veterans to own a farm or ranch home as one of the ideas originally conceived by the author five years ago.

Each veteran will be limited to one purchase not exceeding \$7,500 less the amount of any cash he has accumulated in the program. He will be required to pay not less than \$1,000 per acre down and complete an equal before note for 40 years at three per cent interest for the balance. Should a purchaser desire to acquire a tract of land costing more than \$10,000 he will be required to pay the difference between \$7,500 and the purchase price plus the five per cent down payment on the \$7,500 loan.

Weekly Swing of Southwest Farm Markets

Although some southwest farm products brought higher prices this week than last, the majority sold at unchanged to sharply lower levels, according to the Production and Marketing Administration, U. S. Department of Agriculture. Fed steers and heifers brought strong to 50 cents higher prices at Texas markets and steady to strong rates at Oklahoma City and Denver. Cows lost 50 cents to \$1.50 or more at most markets, but sold fully 50 cents higher at Fort Worth and steady to 50 cents lower at San Antonio. Calves and vealers sold mostly \$2 lower at Denver, 50 cents \$1 lower at Oklahoma City and \$1 to \$1.50 down at Houston. Calves held steady at San Antonio and gained up to 50 cents at Fort Worth. Spring lambs held steady at San Antonio and Oklahoma City, lost 50 cents at Fort Worth, and gained 50 cents at Denver. Ewes sold steady to 50 cents higher. Goats ruled steady to strong at San Antonio, on larger receipts. A good volume of mohair sold in Texas this week at 38 to 39 cents a pound for adult and 58 for kid. Wool prices held firm but little trading took place. Butcher, hog and sow, sold mostly \$1 lower than a week ago at San Antonio and steady to 50 cents lower at Oklahoma City. Sows lost \$1 to \$2 elsewhere. Butchers lost 50 to 75 cents at Fort Worth and 50 cents to \$1.50 at Denver. Dressed beef, veal and mutton sold unchanged to \$1 lower for the week at Chicago. Pork ranged from \$1 to \$5 lower. Lamb varied from \$1 higher to \$2 lower. AN classes of livestock arrived in considerably greater numbers this week than last at both south-west and midwest markets. More cattle came to midwest markets than a year ago, but all markets received far less sheep than last year.

The Inventor and Job Maker Dependent On Gold Coin Standard of Money

by PHILIP M. McKENNA, President of Kennametal Inc., Latrobe, Penna.

How do new jobs come up in your town? Somebody has an idea. Very often it's an invention. Sometimes it's what we may call an innovation, that is, trying out something brand new in your town. If the inventor or innovator has enough money on hand, already saved for such an opportunity, he is able to buy what is needed to try it and to pay people to operate the idea to see if it works out and pays off. When Henry Bessemer in 1856 believed it practicable to make steel by blowing air through molten pig iron he had already earned and saved considerable sums of money by use of his earlier invention, notably the manufacture of bronze paint. He says in his Autobiography, "Having thought over thoroughly the risks and powerful opposition I had to fight, I came to the conclusion that it was my duty to settle the sum of \$1,000,000 on my wife, under trustees, so that I could not be ruined absolutely in the further pursuit of my invention or my litigation in defense of my patent rights. After this investment I had still \$12,000 (\$60,000) to spend in perfecting my process if found necessary." Within 3 years of this decision over 1,000 men were employed making Bessemer steel, and in constructing new furnaces and Bessemer converters and within 12 years over 20,000 persons in various companies in England had jobs that hadn't existed before, and steel was plentiful enough to build railways and bridges of high strength compared to wrought iron or to wood.

Now suppose Bessemer and his partner at the start had not had the \$1,000,000 or that it had been irredeemable paper money deteriorating so that it was only one third enough in buying power in 1856 compared to its value when saved, ten years previously. Bessemer could not have made the attempt and built his first furnace. At the risk of being personal I'll tell you my own story as an inventor. In 1927 at the little town of Latrobe, Pennsylvania, I had made an invention of a new tool material, which I called Kennametal. I believed it would solve the problem of providing America with a hard carbide tool material which would cut steel, in lathes, boring mills and milling machines with three times the speed feasible with then known tool steel. I had saved up \$71,500 during the many years I had worked as a metallurgist and chemist. I resolved to risk it in trying out my invention. I needed a storage garage in our

Market trends on fruits and vegetables at Fort Worth varied widely this week. Denver sold tomatoes higher and cabbage and carrots lower. New Orleans enjoyed good movement of heavy receipts. Watermelons moved very fast. Louisiana growers found steady markets for peaches, but tomatoes and peppers continued weak.

White corn advanced 7 to 12 cents a bushel for the week, barley 2 to 3, and wheat one. Oats lost 5 cents a bushel, yellow corn one-half cent, and milo 10 cents a hundred pounds. Wheat closed Friday at \$2.07 1/2 to \$2.15 1/4 in Texas. Rice found limited domestic demand and only small movement into export trade. Most feedstuffs met with good demand at higher prices but wheat millfeeds declined. Hay markets showed more activity this week, with quality improved. Season's first car of prairie hay arrived at Kansas City. Peanuts declined slightly in light trade.

Fewer eggs came to market this week as summer weather got under way, but lighter weights and heat damage resulted in slightly lower per dozen prices. Fryer prices declined a cent or two per pound, and hens eased a little at some markets. Cotton lost 50 cents to \$2.25 a bale. Middling 15/16 closed Friday at 31.55 cents a pound at Dallas and Little Rock, 31.80 at Galveston, 32.15 at Houston, and 32.30 at New Orleans.

SONGS OF PILGRIMAGE
International Sunday School
Lesson for July 10, 1949

MEMORY SELECTION:

"I was glad when they said unto me, Let us go into the house of the Lord."—Psalm 122: 1.

Lesson Text: Psalm 122: 1-3.

Andrew Fletcher once said: "Let me make the songs of a nation, and I care not who makes its laws." Music and song have been used by man, probably since the foundation of the world, to express his emotions, the song of praise, the marching song, the victory songs, the folk songs and the ever-loved spirituals.

Music and song were a definite part of the worship in the earliest time of Israel's history. In Exodus 15: 1-18, we have the song of Miriam, which tells of the escape of the children of Israel from Egypt and at least the nucleus of this poem can be safely taken as dating from the time of the exodus from Egypt. Throughout the Old Testament, we have various poems which must have been used as songs by the Hebrew people.

As we know, however, the Psalms made up the hymnbook of the Israelites and even today are used by some denominations. Some of our most beautiful anthems are based on the Psalms and are sung by the choirs of the world over.

For our lesson this week, we are considering two particular Psalms, 122 and 134, which were used by the Israelites as pilgrim marching songs. Psalm 122 is an account of a pilgrimage made to Jerusalem, a psalm which, according to the Abingdon Commentary, is used to the present day by Russian pilgrims to the Holy City.

The first verse of the Psalms seems to indicate that the writer of the psalm had been invited to do what every Israelite greatly longed to do—to go up to Jerusalem for the observance of one of the great feast celebrations of the Jews. He declares: "I was glad when they said unto me, let us go into the house of the Lord." What a privilege, what a joy! Wouldn't it be wonderful if all modern-day believers felt the same way about the privilege of worshipping God in his temple?

Arrived in Jerusalem, the psalmist describes the glories of the Holy City. How beautiful were the palaces of the Davidic line of kings, its tribunals for judgement and its sacred temple crowning it all! He thought of all the hosts of the faithful who had, through the ages, traveled far to this beloved city, there to show their love for Jehovah and to offer their thanks to him for all the blessings he had showered upon them.

"The last four verses of the psalm breathe a spirit of the

noblest, most unselfish patriotism. Not for his own sake, but for the sake of his brethren—the people at large—and for the sake of his God, his temple, and his service, he wishes peace to Jerusalem and calls upon others to wish her peace. With love to Israel and love to Jehovah, there is naturally united a warm affection for Jerusalem, a hearty interest in her welfare" (Perowne).

Psalm 124 was sung by pilgrim worshippers as the sun was setting on the last day of the feast, as they were leaving the temple after the evening service and preparatory to their homeward journey to be begun at sunrise the following day. As they came to the outer court of the temple, they paused for a last look at the inner shrine and saw gathering before it in ordered array the Levites who were to keep watch before the altar during the night hours. Then one of them led in this farewell hymn, calling upon the watchers of the night to praise Jehovah. Back from the robed choir came the answering benediction, a blessing in the name of the great God, the Creator of heaven and earth, whose care for his people and his loving watchcare over them were symbolized by Zion.

While Christians today do not go on pilgrimages as did the Israelites of old, they do have opportunity to express, in hymns of praise, their thanks to God for his loving kindness to them. Such national songs as "America" and "America, the Beautiful" are songs of praise to God for his bountiful care to us as a people and all of us, when the opportunity presents itself, should sing these great songs as songs of praise and thankfulness out of hearts full of gratitude to God for his blessings upon us.

vs. C. W. Nickels and J. R. Maddox, Jointly and Severally.

THE STATE OF TEXAS, COUNTY OF DICKENS.

Whereas by virtue of an Execution issued out of the County Court of Floyd County, Texas, on a judgment rendered in said court on the 13th day June, A. D. 1939, in favor of the said S. W. Hughes and against the said C. W. Nickels and J. R. Maddox, jointly and severally No. 986, on the docket of said Court, I did on the 27th day of June A. D. 1949, at 11 o'clock A. M., levy upon

Ice Cream—Homemade and Delicious.

Drop a hint that dessert is pie a la mode and you'll see a sparkle in every pair of eyes. And if you add that the ice cream is homemade, food will disappear like a jet propelled plane passing a given point so fast you will not be aware of the ecstasy of eating homemade ice cream on pie.

Making ice cream is very simple. Just get a few five-ounce containers of ice cream powder mix at your grocer's. Sprinkle the contents of one container over cold water, mix and freeze in your refrigerator tray. Make more than one tray if you choose, and vary the flavors to suit your fancy. With the makings in these little containers on your pantry shelf, ice cream delights need never be farther away than your refrigerator.

The following described property belonging to the said C. W. Nickels and being situate in the County of Dickens, State of Texas, to-wit:

1st: Four and one-half acres of land, more or less, being in three tracts described as follows, to-wit: (1) All that certain one-half acre of land, more or less, of the South part of Northwest Quarter of Survey No. 3, Cert. Teacher Completes MA Requirements

Paul Sweatt, Vocational Agriculture Teacher from Patton Springs High School, has recently completed his research problem on "Equipment and Frequency of use of Visual Aids in Teaching Vocational Agriculture in Texas." He will receive his Master of Arts Degree from Sam Houston State Teachers College, August 26, 1949.

Patton Springs Boy Wins Scholarship

Dee Baxter, June graduate of

Patton Springs High School, was approved for an Anderson-Clayton Cotton scholarship when the State FFA Committee meeting was held last week. This scholarship amounts to \$200, and may be used in the college of his choice.

Dee was selected because of an outstanding supervised practice cotton program in Vocational Agriculture. This program was under the supervision of Paul Sweatt, VA teacher.

The time for a vacation is when you can get it. Don't worry about the work you leave behind, it will be there when you return.

Church Installs Cold Air Unit

Installation of an air-conditioning system will begin this week in the First Baptist Church, according to C. Melvin Rathel, pastor. One unit will be installed in the auditorium, and the two units now in use will be moved to the entire plant will be cooled for all meetings.
 This is the initial step in plans to more adequately care for church services. Further construction to be done soon will include remodeling of the front of the auditorium, a new choir loft, and raised baptistry.
