## Stamp Collection Gives Spur Youth Foreign Friends

(Editor's note: This is one of the letters which Joe Bruce Long, son of Mr. and Mrs. Jos Long of Spur, has received from foreign countries in his search for unusual stamps to add to his collection. The following letter is from Blackheath, N. S. W., Australia. We believe that this is one way of making world peace possible. If we know people we usually like them.)

Dear Joe,  
My father, Cecil C. Phillips, received your letter and passed it to me. I am 12 years old. We live in Blackheath, which is a lovely tourist resort on the Blue Mountains. Some sights are Governor's Leap and Bridal Veil Falls, Horse Shoe Falls, George Prillip's Lookout, which was named after my grand father. There is also Evelyn's Lookout, Hat Hill, Mt. Blackheath. There are some lovely valleys around us, Shipley, Kanimbla, Megalong, Jamieson and Hartley. They are not the only sights and valleys; there are others. Blackheath is 3,495 feet above sea level, and is the highest town on the Blue Mountains, and one of the coldest towns in winter in Australia, with the exception of Mt. Kosciuszko which is 7,328 feet high and Kiandra. There is a park in Blackheath called Memorial Park which has a lovely swimming pool in it. The council organizes it in winter so we don't swim for very much of the year.

My grandfather, Mr. R. P. Williams has a fine collection of stamps, so he gave me some to send you. I hope you will like them. Have you a good collection of stamps? I have a sister who is nine years old. Her name is Myfanroy, but we call her Van for short.

When you write, which I hope is soon, I hope you'll tell me about Spur and all the places around it. I've never had a pen-friend before. I go to Katoomba High School which is seven miles away from Blackheath. I am in 1B class. The B classes take at school. I will tell you more about my school in the next letter. I will close now hoping you find the stamps grandfather sent which I am enclosing very interesting.

Yours sincerely,  
David O. C. Phillips,  
Blackheath, N. S. W.

approximately 25 yards behind him, according to witnesses.

It is reported that Braddy turned south into the alley and awaited Burger there. Another scuffle followed during which witnesses say that Burger warned Braddy "Stop, or I'll be forced to hurt you."

To which Braddy allegedly replied, "Burger, you don't have the nerve to shoot me." With this remark, witnesses say, the former carnival boxer charged the constable only to meet the slug of the officer's gun. He was reported dead upon arrival at the Spur hospital shortly afterward.

In a statement to a Texas Spur reporter, Burger said, "Of course I didn't mean to kill the boy. My shot was aimed for his left shoulder, but his renewed attack toward me obviously brought him in a more direct line of fire. My trigger pull could not have caused me to hit him in the heart, because it would have taken my shot farther to my right."

According to the officer, he met Braddy and a friend of his who had been released from jail only a few hours hence on charges of drunkenness, on the sidewalk in front of the Bell and Fox Grocery. Burger says that he walked up to the men and asked them to leave town to avoid a disturbance. Words followed and the constable reached out to take Braddy's arm and lead him to his car to make the arrest. Braddy then allegedly struck the constable in the face.

"I then turned and went to my car about 20 feet away and got my pistol," Burger told investigating officers and a Texas Spur reporter.

"When I turned back around, Braddy was running north down Burlington avenue. I shouted for him to halt and when he didn't, I fired a warning shot into the gutter."

After the chase, Burger said, "I again tried to make the arrest." Braddy was shot in the scuffle that followed.

W. P. Foster, Jr., ambulance driver for the Campbell Funeral home rushed out of a nearby cafe at that time and the constable asked him to rush Braddy to the hospital. Braddy was dead upon arrival.

The Constable asked a witness to call Sheriff Kimmel and Deputy Cagle in Spur when the trouble first started. They arrived on the scene later.

Constable Burger has been in office since last September, taking over an unexpired term at that time and having been elected in the November election.

Braddy was reported to have been working on the Doug Hinson place near Spur. It was understood that he was a former boxer and visited Spur with a carnival last fall. He had been living in the Spur vicinity for the past month and a half, Burger said.

## Countians Warned Of Farm Road Peril

Many Dickens county residents are likely to be killed or injured when the farm-to-market roads are constructed in the county.

This will happen unless rural people learn quickly to use these roads properly and to police themselves, according to the Texas Safety Association.

Like the roads to be built in Dickens county, a 5.3 miles stretch near Afton and 3.7 miles near McAdoo, new farm roads are merely sub-standard highways, narrower and with sharper turns and grades.

Correction:  
Last week's issue of the Texas Spur erroneously reported that the Spur roping club as winners over the Matador group in a match held July 17. The Matador club won the match.

**PSALMS OF TRUST**

International School Lesson for July 31, 1949

MEMORY SELECTION: "I will say of the Lord, he is refuge and my fortress; My God in whom I trust."—Psalm 91:2.  
Lesson Text: Psalm 34:3-8; 37:3-6; 46: 1-3.

While the Psalms are poetry, there is a difference between Hebrew poetry and English poetry. Hebrew poetry is recognized neither by rhyme nor meter. It is characterized by parallelism of lines and rhythm of accent. This parallelism may consist of two lines, a couplet; three lines, a triplet; four lines, a quatrain; six lines, a sextet, or eight lines, an octet.

matches the first in meaning. In the greater part of the Psalms, this is true. Every other line could be omitted and still there would be readable poetry. But, sometimes, the second parallel line, instead of being similar in meaning to the first, has the opposite meaning, as . . .  
The trust which the psalms, selected the righteous . . .  
But the way of the Ungodly shall perish.  
For our lesson this week, we are studying the Psalms of Trust. The trust which the psalms, selected for our study, express was not the result of a care-free and sheltered existence but the note of hard-earned triumph over adversity. Thus comes their appeal to troubled believers.

Psalm 34 begins by an acknowledgment of the rightful place of God in human life—that of the central place. The soul that really knows God is always praising Him for His goodness to it. Trust in God delivers the man of faith from the uncertainty and fear which come with the inability to see one's way through the confusion of a world in turmoil.

No one who has had the experience of trust in God can help wanting others to share it. Verse 3 is an invitation to join with the psalmist in praise to the God who makes himself the Guardian of his people. The psalmist gives his personal testimony that when he sought the Lord, the Lord was there and delivered him of his troubles. Out of his great assurance of the presence of God, the psalmist appeals to those who have not yet found the key to the happy life to make the great adventure of faith, to accept the divine invitation, to find for themselves that the great claims of religion are a glorious fact.

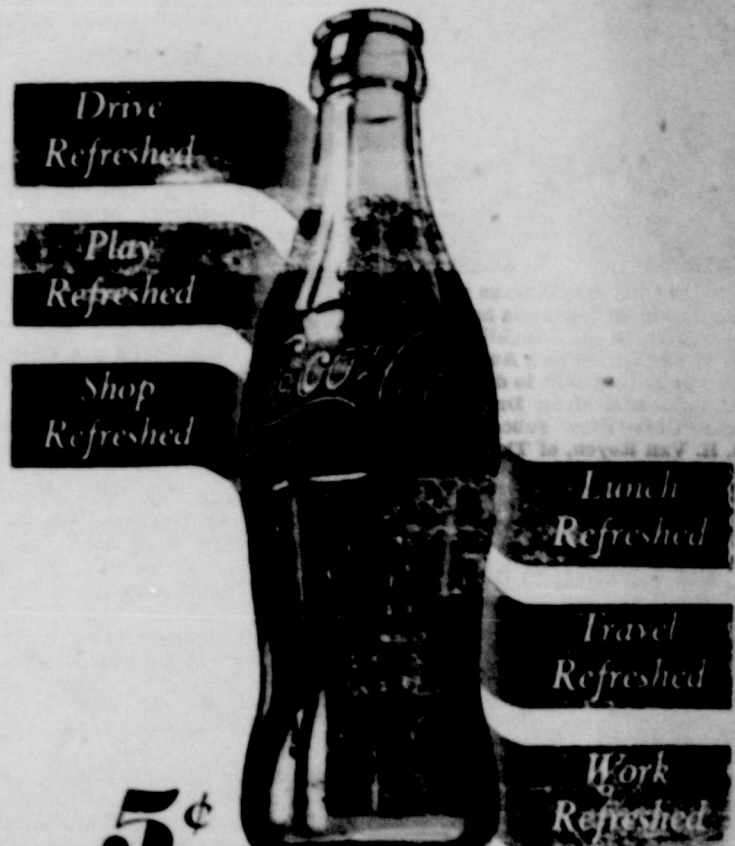

The 37th Psalm contrasts the lives of those whose trust is in the Lord with that of out-and-out worldling whose soul is centered in himself and in the world. While those who make worldly success their main goal in life attain it more frequently and in larger measure than those who put it in secondary place, the psalmist says there is no real ground for envy. The prosperity of the worldly man is transitory. It is only a summer-time wealth which he enjoys, and, like the "green grass of summer," it will wither under the chill breath of the autumn of adversity which is sure to come.

Who can never be the portion of the God-fearing man, he may never gain a place of high importance in this world, but of his integrity, the strength, and beauty of his character, there will never be any doubt. He will have moral and spiritual riches which the world can never give and, in these things, he will find an abiding peace which the rich man can never hope to know.

The 46th Psalm is a great hymn of confidence, sung above the uproar of a world of conflict in which the great foundations are shaken and nothing is secure any more. In time of crisis and terror, this psalm has been a source of the deepest comfort to hard-pressed souls of every time and every place. Surely, this psalm is needed for our own time in which nothing seems secure and a great fear is over all the face of the earth. Down the ages comes the steady command: "Be still, and know that I am God."

Earle M. Hand, in The Secret Place, asks a pertinent question: "Do we wish to have a singing heart? The key is in our own hands with which to unlock the door to happiness. If we commit our lives wholly to Christ, trust Him in all things for He careth for you, He will give us singing hearts." Try it for yourself!

**More Study Makes Best Conservation**

Farm and ranch people are unlikely to do much conservation work for purely patriotic reasons, nor will they accept troublesome terrace maintenance and soil-saving practices for the benefit of posterity, and therefore, there's a need to help people understand the "whyfore" of conservation and soil-building practices.

As a rule, farm operators have to make their living off the land they are urged to save for future generations, and the farming (or ranching) business is a dead earnest job because they must eat their cake while saving it.

**Rural Youth Has Free Day At Fair**

The largest single gathering of farm boys and girls in the nation's history will be honored by the State Fair of Texas on Rural Youth Day, Oct. 15, it has been announced.

At least 75,000 4-H club boys and girls, Future Farmers and Future Homemakers from farms and ranches in every corner of the state are expected to attend. The youths are traditionally given free admission to the fair.

**Poultrymen Advised To Cull Loafers**

It is a direct loss to the poultry producer to feed non-layers during the summer months, and it's also one of the reasons poultry producers are not doing a better job of maintaining high egg production during the summer. Poultrymen should sell the non-producers as soon as they are noticed in the flock. Chances are, they will not come back into production until late fall or early winter, and during this time feeding them is a dead loss.

low vents are the ones to be culled and sold. Hens that lack vigor and spend their time loafing should also be removed from the flock. A good producer has to eat good feed and drink lots of clean cool water and they can't do this unless they rustle. Of course, the poultryman must do his part by supplying this feed and water.

ly will be paid, and at the same time he'll be following one of the important practices of efficient farm management.

NOTICE—Any erroneous reflection upon the character, standing or reputation of any individual, firm or corporation, which may appear in the columns of The Texas Spur will gladly be corrected upon its being brought to the attention of the publisher.

Entered as second class mail matter on the 12th day of November, 1909, at the Post Office at Spur, Texas, under the Act of Congress of March 3, 1879, and published continuously without recess.

Get Rich Quick!

"Want to make \$1,000 out of \$25." We plan to reopen and work the Q-Ball Mine in Wascomacit, Alaska, and are offering you 100 shares worth \$100 for just \$25.

We understand that Americans in every section of our nation are receiving these letters urging that they invest in stocks in gold-mining or oil-drilling corporations.

It is hoped that the potential "suckers" aren't chosen according to their likelihood to be suckers because your editor has also received one such offer.

Our advice to everybody is to be cautious in investing money, especially in what may be something like wildcatting. If the pressure of the letter of solicitation is for quick action, follow this advice and throw the circular into the wastebasket.

Just for curiosity and amusement, we filed out our postage paid card and returned it to the sender for further information about how to make \$1,000 out of \$25.

The Way to Prevent a Depression Speaker Sam Rayburn, of Texas, has doubts about the existence of a recession.

The Texan says that when 38,000,000 people are employed in industry and 30,000,000 farmers have money to buy what they need, he does not see how anybody can call it a recession.

There is something to what Mr. Rayburn says. Undoubtedly, the nation will go back to its pre-war level but, just the same, it will not maintain its economic level close to the top of the wartime boom.

While there are many economists who predict a serious depression for the United States, one should not overlook the differences between conditions today and those that existed after World War I. The Government continues to spend billions of dollars and the people of the nation have managed to get aside "something for a rainy day."

We do not think that a depression is impossible but we believe that it can be avoided. This will not be accomplished by penny-pinching economy or by tax reductions designed to persuade timid business men to go ahead with progressive programs.

It centers around intelligent efforts to revive world trade and to create economic conditions that will boom international commerce higher than ever before.

Belden Reviews State Amendments

By Joe Belden Director, The Texas Poll AUSTIN, Texas, July 23.—Very few Texans seem to be interested in the record number of constitutional amendments proposed by the State Legislature.

Even repeal of the poll tax, the most controversial change suggested by the lawmakers, has not made much of an impression upon the public mind. Only six per cent of the qualified voters questioned in a recent statewide survey could name poll tax repeal as one of the amendments to be voted on.

Three per cent were aware that the Legislature had submitted an amendment to make women eligible to serve on juries. Less than one per cent could recall each of other eight amendments.

The ten amendments, the greatest number ever to be proposed by the Legislature in a single session, will become effective only if approved by the voters in a special election November 8.

The purpose of the amendments are as follows: 1. To repeal the poll tax as a requirement to vote.

2. To make women eligible to serve on juries.

3. To permit the Legislature to set up rural fire prevention districts.

4. To raise pay of legislators to \$3,600 per year and to require the Legislature to meet annually.

5. To permit the Legislature to set up city-county health units.

6. To authorize civil service systems for county employees in counties of over 75,000 population.

7. To allow lunacy cases to be tried before a judge, without jury, when either the person, his lawyer, or a relative waives trial by jury.

8. To authorize creation of county hospital districts by vote of the people in a district.

9. To authorize a statewide retirement system for county officials and employees.

10. To allow a district judge in a district having more than one county to issue orders enforceable in any county in the district without his having to go to the particular county to issue the order.

The Texas Poll tested public interest in these amendments one week before the Legislature decided to change the election date from September 24 to November 8. The September 24 date had stood until the closing days of the session, and the Secretary of State, Gov. and Bonnie, returned with the girls to Spur for a few days visit in the English home.

ON VACATION Mr. and Mrs. N. C. Moffett and children, Clara, Charles and Marvin Wayne, are leaving Friday on a two-week vacation.

They plan to visit with Mrs. Moffett's parents in Monroe, Louisiana, and then go to Lake Charles, Louisiana, to visit the mother of Mr. Moffett.

State had gone ahead with state-wide publication of the amendments in preparation for the election as originally planned.

Interviews asked a cross section of the adult population this question: "On September 24, a special election will be held on a number of propositions to change the Texas Constitution. Which of the propositions have you heard or read about?"

The above figures do not necessarily mean that all those who couldn't recall any of the amendments had never heard or read about any of them. Some persons might have heard or read about one or more, but their interest was not sufficient to retain the information. Interviewers for the poll were instructed not to help any one refresh his memory.

This test showed that qualified voters are slightly more interested in the amendments than the general adult public. For instance, while six per cent of the voters knew about the poll tax repeal amendment, only four per cent of all the adults questioned said they had heard or read about it.

The worst in-juries proposal was recalled by only one per cent of the general public, as compared to three per cent of the voters.

## Society-Club News

### Mrs. Hamm Hosts Afton HD Club

"Frozen Desserts" was the demonstration given by Mrs. Jewel Robinson, county home demonstration agent, when the Afton club met July 20 in the home of Mrs. Clark Forbis, with Mrs. W. J. Hamm, as acting hostess.

Ten members answered roll call, and elected Mrs. Forbis as club candidate for delegate to the THDA to be held at Mineral Wells in October. Members voted to bring up to date the club plan, and instead of giving gifts to the sick, they will mail cards.

The club will not have an August social as planned, but will meet in the home of Mrs. Legg, September 7.

Earnest Roberts, enlisted personnel of the USMC, is spending 22 days leave with his parents and friends. The leave is part of delayed orders enroute from his former station at El Toro, Calif., to Public Relations Division, N. A. S., Pensacola, Fla.

### City Federation Plans Study Club Joint Meetings

In a recent call meeting of the City Federation, it was decided that the study clubs should have three joint meetings through the City Federation, Mrs. J. E. Berry, City Federation President, announced today.

One of the joint meetings will be the Federation Day program which will be December 6. Mrs. John J. Perry, state president of the Federation of Women's Clubs, will be in Spur for this program.

The Texas Day program will be a joint meeting and will be held March 7, 1950. There will also be a Library Tea which will be the third of the joint meetings. This will probably be an evening meeting and will not interfere with any study club program.

The place and date have not yet been decided and will be announced at a later date, Mrs. Berry stated.

The meeting was attended by the officers of the Federation and delegates from each of the study clubs.

Miss Jewel Garrett of Grand Prairie, Texas, was a visitor in the home of Mrs. L. W. Langston last week.

### Vicki Arrington Honored On Her Fourth Birthday

Little Miss Vicki Arrington was honored on her fourth birthday, Tuesday, July 26, with a party held at the home of her parents, Mr. and Mrs. Victor Arrington.

Conventional children's games were played. Refreshments of home-made ice cream and birthday cake were served.

The following guests were present: Becky Reid, Gerry and Mike Proctor, Nella and Eddie Ball, Sandra Karr, Kent Morgan, Sandra Ballard, Linda Hotcho, Barbara and Cynthia Ball, Toni Kay Arrington.

Mrs. Roy Arrington, Mrs. Pearl Morgan, Mrs. Buck Ballard, Mrs. Floyd Ball, Mrs. Loyd Ball, Mrs. Paul Hotcho, Mrs. Harold Karr and Mrs. Victor Arrington, hostess.

### Veta Roth Weds Ralls Resident

Miss Veta Mae Roth, Spur, and Charlie Hudson, Ralls, were wed July 2, in a Ralls church parsonage. Rev. James Abernathy officiated at the ceremony.

Mrs. Hudson is the daughter of Mr. and Mrs. M. S. Aldredge of Spur, and the groom is the son of T. C. Hudson of Hartley. The couple is at home in the Savage community near Ralls.

**How to keep cool  
— and carefree**

This time of year there's one place a lot cozier and cooler than your favorite spot around the house.

That's in your Buick—finding a breeze along dusk-cooled highways, or following those little roads that lead to inviting "loafing grounds."

Either way, whichever pleasure trail you follow, you'll find more fun on the way if your Buick is in top-flight shape to take the miles in its steady stride.

How about letting us put it in that shape for you?

Get one of our conscientious motor tune-ups, and one of our thoroughgoing Lubricare treatments. We'll put the bounce back in your motor—while we're taking the bounce out of your ride.

We do this well because we're Buick men. We know your Buick, we've studied correct factory methods for each operation, we know the factory specifications your car was built to. We use genuine Buick parts—even special Buick tools!

Yet you don't pay a penny more for all these extras. Stop in this week, won't you?

### HOW HIGH IS A TUNE-UP?

Our Buick tune-ups go far beyond adjusting your spark and carburetor. We cover a long list of things—your valve tappets, voltage regulator, fuel pump filter, coil, hose connections, and so on.

We even tighten the cylinder head and clean off your battery terminals—and do all this at a low, low flat-rate price that will surprise you!

**Public Eats More "Southern" Greens**

Two old-time Southern menu favorites—turnip and mustard greens—are winning popularity as a year-round table delicacy important crop for growers and packers of greens.

Tender young leaves of the mustard and turnip plants, cooked in water with salt pork and are becoming an increasingly popular pepper pods, have long been traditional Southern favorites but have not been widely known in other sections of the country.

However, crop and canning figures now show that these greens are becoming increasingly available in all seasons, and nutrition experts point out that the products offer an interesting taste variant and afford much the same healthful benefits as other leafy vegetables.

Can industry figures show that more than 1,500,000 cases of mustard, turnip and other greens were put up in 1948.

**South Texas Cotton Crop Trading Good**

Most of the spot cotton trading in the southwest centered around South Texas crop this week, reports the U. S. Department of Agriculture's Production and Marketing Administration.

Domestic mill buying stirred up most of this business with demand for prompt shipments very good. Export buying against sales to European countries was slow and in small volume.

Spot cotton prices lost \$3.25 to through Friday at Dallas, Houston and Galveston, dropping to the lowest point since late August, 1948. Friday's closing quotations \$3.75 per bale from Friday on Middling 15/16 inch cotton ran a year ago on the corresponding \$6.25 to \$8 per bale lower than day.

Cotton in public storage on July 1 totaled 4,407,000 bales, more than double stocks a year ago. About 88 per cent of these stocks belong to the Commodity Credit Corporation and the rest is "free cotton."

**Rodeo-Horse Show In Pampa Aug. 2-6**

Pampa is all set to entertain the biggest crowd in the history of the annual Top o' Texas Rodeo and Horse Show to be held here next week on Aug. 2-6.

Cash prizes totaling \$4,500 will be the goal of the three hundred amateur cowboys and cowgirls expected from a wide area. Outstanding special attraction for this year's show will be the appearance of a group of Indians from the United States Indian Reservation at Anadarko, Oklahoma, who will present Indian war dances at each rodeo performance.

A street parade will be held on Wednesday August 3 at 4 p. m. led by the famous Cowboy Band of Abilene, Texas, who will be on hand to furnish music nightly for rodeo performances.

The Kid Pony Show and Miniature Rodeo will be held on Tuesday night Aug. 2 at which time kids from 4 to 16 will show their riding ability and participate in the several kid rodeo events. This is one of the most outstanding

**features of the Top o' Texas Show.**

All regular rodeo performances will be held at night in the beautiful improved rodeo arena at Recreation Park one mile east of the city on U. S. Highway 80 beginning promptly at 8 p. m.

**Rural Land Prices Drop 6% From 1948**

Farm and ranch land prices have dropped six per cent since last year. But that's only a drop in the bucket when compared with land prices during the period between 1935-39.

Today's land prices in Texas are still 96 per cent above those of 10 to 14 years ago. After ten years of steady climbing, farm and ranch land prices in the entire nation appear to have passed a postwar peak.

Declines in prices of farm products in recent months was probably the major factor affecting the level of land prices. This downward drift began little less than a year ago in August, and has had quite an influence on prospective land buyers.

Since the land values have risen slower than the net farm income since 1940, there's a good chance that land price declines will lag behind commodity price drops. If farm costs remain extremely high and limits the net return to operators, the land value drop may increase in rate.

Even though government price supports are active on many farm products and livestock, the farm income is expected to continue downward. High priced costs become more of a burden as the net profits are trimmed.

Here's why the Gas Refrigerator

**STAYS SILENT LASTS LONGER...**  
Only Servel freezes with No Moving Parts

Look at all the new refrigerators. Study them closely. You'll find there's only one that's really different... offers you more years of silent, dependable refrigeration. It's the Servel Gas Refrigerator.

That's because Servel operates on a basically simpler freezing system. It has no machinery to cause noise, no motor to wear, break down, need fixing. A tiny gas flame does the work. So owners find Servel stays silent, lasts longer. Many of America's almost 3,000,000 Gas Refrigerator users report that theirs are still on the job after 15, 18 and even 20 years.

But silence and longer life are only part of the story. The new Servels bring you every modern convenience, too. Plenty of ice cubes—easy to get at. Big frozen food compartment. Dew-action vegetable fresheners. Come in today—choose your new Gas Refrigerator from a complete line of beautiful models.
