The Committee working on the project selected the following Lions to work at the table at the hour specified below. ## March Of Dimes Goal Far Away

The Lions Club would like to remind all of those who have neglected to mail in your contribution to the March of Dimes to do so immediately. ## Dickens County Invested Greatly In U. S. Saving Bonds, Says Andrews

The people of Dickens County invested \$126,550.00 in U. S. Savings Bonds during 1949, according to the annual sales report received today by W. T. Andrews, county Savings Bonds chairman, from Nathan Adams of Dallas, state chairman. This compares with sales of \$237,929.50 for 1948. Of the 1949 total, Series E, the so-called "people's bond" accounted for \$118,550.00, as compared with \$226,207.50 E bond sales in 1948. Series F and G sales were \$8,000.00 as compared with \$11,722.00 in 1948.

Total sales for the entire state were \$191,499,089, as compared with \$196,448,280 in 1948, Mr. Adams' report said. This is a decline of 2.5 per cent. However, Mr. Adams declared that sales last year were highly satisfactory in view of economic trends and because of a 2.9 per cent increase in the sale of E bonds, from \$138,591,216 in 1948 to \$145,114,738 in 1949. Series F and G bonds accounted for \$46,384,351 of the state's sales total last year. Mr. Adams said that the people of Texas today hold more than \$1.5 billion in Savings Bonds, a substantial share of which are owned by citizens of this county. These savings, he added, give the community, as well as the individual owners, a high degree of financial stability.

## Veterans' County Service Receives Special NSLI Information

Commander V. P. Vannoy of the local American Legion post gave the following information concerning NSLI.

Veterans Administration today warned that dividends paid to veterans on their GI insurance are not assignable under the law, and that dividend checks may not be withheld from them as security for "indebtedness due any individual or firm."

VA issued this warning after noting that some veterans have directed that their checks be mailed to certain business establishments in various localities. VA said the agency has no choice but to honor such requests, since the veteran has the right to have his check mailed to any address he designates.

However, no one has the legal right to withhold dividend checks from veterans after receipt, either for the purpose of procuring settlement of a debt or for any other reasons.

## Mahon Seeking Quick Release Of Grain Sorghum Support Price

Congressman George Mahon reports to the Texas Spur this week that since his return to Washington for the current session of Congress he has conferred personally with Secretary of Agriculture, Charles Brannan, and other officials in the Department of Agriculture in regard to a support price on the 1950 grain sorghum crop.

Mahon has urged that a grain sorghum support price at a level not below last year be announced in the immediate future. He has explained to officials that producers are making their plans for the year and need to know at the earliest possible moment what they may expect.

Under the law the Secretary of Agriculture can place a sup-

port program on grain sorghum into operation. The Secretary makes the decision as to whether or not a support program will be put into effect and the amount of the loan. Mahon and other Members of Congress from grain sorghum areas lost their fight last year to secure a mandatory grain sorghum support program.

The support program for grain sorghum was not announced in 1949 until Mahon and many other Members of Congress from grain sorghum areas had made repeated requests for action by the Department. The support price on the 1949 crop was not announced until last March 14. Mahon has urged that much earlier action be taken this year.

As indicated, the Department has not yet stated whether or

not there will be a loan and the amount of such loan, but President Ralph S. Trigg of the Commodity Credit Corporation has provided Mahon with a long statement as to the situation which has been made available to all PMA County offices and County Agents in the 19th Congressional District.

Insofar as is now known, there will be no acreage control program on grain sorghum in 1950 and producers who comply with the cotton acreage program can, if they desire, plant an unlimited amount of land in grain sorghum.

## Texas, Okla. Spot Cotton Mkt. Review

Southwest spot cotton market continued moderately active last week as prices moved up and down within a margin of 25 to 50 cents per bale, reports the U. S. Department of Agriculture's Production and Marketing Administration.

Sales at Dallas, Houston and Galveston dropped about 10 per cent below the previous week, and totaled 97,217 bales. This represents more than a third of the cotton sold at the country's 10 leading spot markets.

Export and domestic demand was very good for most all qualities of cotton in a wide range of staple lengths, except for Strict Low Middling.

Volume of sales to domestic mills was small but inquiries were fairly numerous. Also, only a moderate volume of export sales was made, since prices offered were slightly down from recent weeks.

Farm markets were rather quiet. Some equities in government loan cotton move into trade channels at \$2 to \$5 per bale.

Cotton closed Friday 50 cents per bale higher at Dallas than the previous Friday and 25 cents per bale higher at both Houston and Galveston. Middling 15/16 inch offerings were quoted at 30.20 cents per pound at Dallas and 30.70 at Houston and Galveston.

These prices were \$10 to \$12 per bale lower than last year at this time.

Q. What U. S. railroad had stations and conductors but no rails?

## HEALTH NOTES

Austin, Texas, Jan. 26, 1950—We do not all grow, develop, mature—nor do our organs degenerate—at the same rate, says Dr. Geo. W. Cox, State Health Officer.

"Today, a man of 60 may be as young, vigorous and vital as the average man of 40. On the other hand, he may look and act like a man of 80, old, weak and miserable. A man of 60 may have a 40 year old heart, 50 year old kidneys and an 80 year old liver.

"The physical changes which come with age alone are not entirely decline, either. Speed of reaction does diminish, but endurance increases in certain capacities. As speed declines, skill is increased with practice, and as strength declines, judgement increases. Automobile driving ability, for example, improves from 24 to 43 in the average individual and at 65 is superior to that of the 20's.

"Normal human beings can

grow mentally at any age. The worst of all old-age diseases is neglect. Many factors that help make a healthy, happy old age are (1) eating right; (2) regular physical examinations and (3) keeping physically and mentally active without overtaxing ourselves. There is a rapidly growing branch of medicine, known as geriatrics, that specializes in disease and conditions of the aging.

"Don't wait until you deteriorate—consult your physician now!"

### Texas Legislature To Have Special Session On State Hospitals

Next Tuesday, January 31, the Texas Legislature will meet in special session to make appropriations for our state hospitals. The bill for food, clothing, medical care and badly needed buildings and repairs will run at least \$25,000,000 for the year beginning next September 1.

That is a lot of money—especially when the State doesn't have it, as it does not at the present time.

Letters coming to the Governor's Office from over the State indicate that a good many citizens do not fully understand the present situation. The Governor is often called upon to answer such questions as these:

1. Why is it necessary to have a special session of the Legislature?

2. Why wasn't the state hospital program properly financed at the regular session a year ago?

3. Why do we say that the State has no money for the hospitals, when the Treasurer's Report shows we have around \$50,000,000 in the General Revenue Fund and about \$120,000,000 in other state funds?

4. What went with that \$100,000,000 surplus we were supposed to have had a year ago?

5. Why can't the appropriations for other things be reduced so as to provide funds for the eleemosynary institutions without raising taxes?

These are perfectly logical questions, and they deserve logical answers. To inform the people about this problem, which is theirs just as it is the Legislature's and the Governor's, I will try to set down the pertinent facts of the situation.

To begin with, our State hospitals are badly run down. Little has been done in a number of years to improve, add to or even maintain the buildings at Austin, Abilene, Wichita Falls, Rusk, Terrell, San Antonio and other long-established hospitals for mental cases and epileptics. The tuberculosis hospitals at Tyler and Mission are old army camps; the Mexia hospital for seniles and mentally deficient children is a former German prisoner of war camp.

Some places are worse than others, but in general we find the hospitals badly overcrowded and many buildings unsafe. The Board for State Hospitals and Special Schools, which has charge of these institutions, estimates that it would take more than \$40,000,000 just to eliminate

Governor Allan Shivers signing proclamation designating the period January 22-28, 1950 as Production Credit Week. Others in the picture are C. H. Matthews, President El Campo Association, Virgil P. Lee, President Production Credit Corporation, J. B. Pumphrey, Farm Credit Administration Director and Director Stamford Association, L. Roy Prescott, Secretary-Treasurer, Production Credit Corporation, Julius Brune, President Brenham Association, and Weldon L. Smith, Secretary-Treasurer Jasper Association.

### Texas Highway Maps Free To Public

Austin, January 21—Want to know the best route from Boca Chica to Terlingue?

Motorists may have the latest official Texas Highway map just for the asking.

D. C. Greer, state highway engineer, states that the 1950 map is the best ever published. Anyone desiring a free copy should contact the Texas Highway Department.

The new map has been brought up to date to show all of the recent changes in the principal highways of the state. Complete mileage tables are shown.

Twenty-five full color pictures show points of interest in Texas and along the Pan-American highway in Mexico.

The highway department distributed three hundred thousand copies of the 1949 edition. An even larger demand for the new map is anticipated.

Q. Who originated the football huddle?

A. Bob Zuppke of Illinois.

Announcing he was not satisfied to see the job only halfway done Governor Jester vetoed the state hospital appropriations for the second year of the biennium (the year September 1, 1950, to August 31 1951). At the same time he promised he would call the Legislature together in January 1950 to provide for the state hospital operation and building needs.

A few days after that promise was made, Texans received the shocking news that Governor Jester was dead. His promise however, must be kept. Otherwise, when another fiscal year begins next September 1, there will be no funds for food, clothing and care for the more than 23,000 people who are now in our insane asylums, tuberculosis hospitals, epileptic hospital and the special schools for the blind, deaf and otherwise physically handicapped.

I think these facts will suffice to answer the first two questions: Why is a special session of the Legislature already provided the necessary funds? Actually, as has

been shown, these two questions are one and the same. The thing that matters most now is that the funds have NOT been provided—and they must be.

What happened to the State's money? In another article I will attempt to answer that question with official figures from the State's books. The people of Texas certainly have a right to know.

### SPIRITUAL AWAKENING

We do not have to beg, plead with, or placate God to give a great spiritual awakening. From the days of Adam, He has been searching for man that He might lead into a closer walk with His Creator. To crown all His work, He sent His Son, Jesus Christ, into the world to illustrate and to demonstrate the interest and concern of the Heavenly Father for His creatures.

Jesus tells us that the Father is more anxious to supply our spiritual needs than we are to feed our hungry children. This places the responsibility for an awakening on us. If we do not have this spiritual awakening it is our fault, not God's. Believing that God is awaiting our move, Southern Baptists are asking 8,500 congregations to begin this spiritual advance, April 9-23, 1950. The Baptist Churches of our community will be cooperating with this movement. These churches plead with all the followers of the Lord to unite in praying, planning, and working for the consummation of such a movement.

### Soldier Mound H. D. Club Meet

"It has been in our mind for sometime that the stand-up type of ironing board is as out modeled as the horse and buggy," said Mrs. Dee McArthur at the regular meeting of the Soldier Mound H. D. Club in the home of Mrs. W. T. Williams.

Mrs. McArthur demonstrated a new type of sit-down ironing table to be used with any ordinary chair. The board has a clever gadget underneath which allows it to slide twenty inches either way, bringing the garment being ironed within easy reach, without moving the garment itself. Nine members ironed a garment and were well pleased with this new time saver. The H. D. Club would like to remind all the H. D. club women and anyone else who might be interested in seeing this board, it will be on exhibit at the regular council meeting January 28th 2:30 p.m. at the Round-up.

### Tech Announces Summer Program

Two major additions to the 1950 Texas Tech summer school visiting faculty in the department of education have been announced by Pres. D. M. Wiggins. Dr. W. B. Irvin, Dallas, and Mrs. Anna B. Odell, Abilene, will offer courses during the session. The first term begins June 1 and ends July 12. The second term will run from July 13 through Aug. 13. Mrs. Odell, associate professor of elementary education at McMurry college, will serve as visiting lecturer during the second term. Dr. Irvin also will serve during the July 13-Aug. 13 term, and will offer courses in educational research and the history of education. He is superintendent of schools at Highland Park, Dallas, and is past president of the Texas State Teachers association.

Tech's department of education will offer 48 courses during the summer session, an increase of 14 over the 1949 curriculum. A visiting professorship in physical education will be filled shortly, Dr. Wiggins said. Benzene hexachloride, BHC, used as a roost paint is highly effective for controlling the chicken louse. Use a suspension containing 1 percent of the gamma isomer of BHC. It kills as a fumigant and is effective for about 48 hours after it is applied. Since the founding of the Boy Scouts of America in 1910, the grand total of boys and leaders enrolled is 16,500,000. In 1910 the membership of the Boy Scouts of America was approximately 50,000 Scouts and Leaders. The grand total during Boy Scouts Week 1950 is in excess of 2,300,000.

By Mrs. Jack Gordon

Most farmers in our community are finishing up their scrappy cotton if the weather continues pretty this week they will get it all.

The weather had certainly been fit for working the past few days.

There is a lot of terrace work, some refilling and some new ones on several farms.

Some low places which are mud holes when it rains on the school bus route is being graded. There had not been too much visiting done lately for most people are beginning to start to work.

Mrs. Bob Pickens went to Lubbock Friday shopping.

We wish to extend all kinds of sympathy to Mrs. Kenneth Coursey and family in the death of her father.

The Dry Lake Baptist Church have been having real good attendance. Remember to come Sunday for the morning and services.

Also the Methodist Church, Foreman Chapel feels that they are improving Sunday school each Sunday morning and church service once a month.

Everyone go to church somewhere if your belief has a church in Dry Lake a cordial invitation is sent to you from the community of Dry Lake to come and worship with them.

### Texas Gifts Included In Crop Dedication

Taylor, Texas, Jan. 26, 1950.—Texas gifts to the Christian Rural Overseas Program (CROP) will be among those dedicated in national ceremony in New Orleans, La., on Monday, January 30.

Invited by National CROP Cabinet to head the Texas delegation are Governor Allan Shivers, Honorary State Chairman, and Daniel Russell of College Station, Chairman of the Texas CROP Committee.

The dedication ceremonies will be held at the Port of Embarkation. It is being sponsored by civic and business leaders and CROP Headquarters for the oc-

casions is being established at International House.

Elmore R. Torn, State CROP Director, has announced that based on contributions already received and those reported the gifts of Texas people to this church sponsored overseas relief work should approximate the equivalent of 150,000 pounds of raw fiber commodities and 1,500,000 pounds of food commodities in bulk.

For economy reasons, commodities are shipped to port only in carload lots. Overseas it is distributed by church personnel actually living in the refugee areas served by the program. Those in direct need are given preference, it was stated.

Miniature boxcars, representing individual and county gifts from the 35-CROP states will be dedicated. Then they will be sent with the actual shipments of the commodities to identify the origin of the gifts, it was explained.

# We take the Woes and Worries out of Weather

ONE of the grandest things about your Buick is the way you can ignore the season—chew your way through gravel and dust alike, splash through the wet stretches, snug and secure even on slippery pavements.

But bear this one thought in mind...

Rough road conditions call for special attention to your lubricants. Tires should be checked for correct inflation—for deep, clean tread that bites on a slick surface. Brakes won't stop you with a sure and gentle touch if the master cylinder needs more fluid, or if an air-bubble has worked itself into the line. These things, and more, should be checked to keep your Buick at its best.

If that sounds like more than one thought to bear in mind—just drive into our shop and tell the man, "LUBRICARE, please."

Our winter Lubricare treatment covers all these points—with specially trained mechanics following factory specifications as they go over your car from end to end.

Drive in this week, why don't you? The price is surprisingly low. The peace of mind is priceless.

### Houston Hosts Production Ass.

As a part of the activities during Production Credit Week there is to be a state-wide directors' meeting in Houston, January 22-25. The first day of the meeting Monday, January 23, is open to all members and employees in the state. Among those taking part on the program the second day is J. L. Hill, Jr., Secretary-Treasurer of the Stamford Association. He will lead a panel discussion on the subject: "What a Good Board of Directors Means to Us."

est number in the Show's history—will have special "days," bringing their bands and Cowgirl Sweethearts. Future Farmer and Future Homemaker Day is Saturday, Jan. 28; Oklahoma Day, Sunday, Jan. 29; 4-H Club Day, Monday, Jan. 30; Veterans and American Legion Day, Wednesday, Feb. 1.

The rodeo, besides presenting the greatest cowboy contestants and the wildest of stock, will offer the greatest horse show the Southwest has ever seen and six spectacular specialty acts.

Entries of cattle, sheep, swine, poultry, turkeys and rabbits are the highest the Show has ever known and cash awards offered are the largest in the exposition's 54 years.

So every sign points to the most successful season ever. The Fort Worth Fat Stock Show.

Many who have never owned a John Deere Tractor, have said to us in recent months, "My next tractor will be a John Deere." "WHY" We think the reason is.

Farmers of today are machine minded. They study tractor features and their good judgement is formed after thoroughly analyzing the facts listed below:

The tractor for us in the one that will do our work for us the longest time possible for the smallest outlay of cash. This is possible because:

- John Deere tractors have approximately three hundred fewer parts than average tractors.
- John Deere tractors are more up-to-date; for instance examine the knee action of the front wheels.
- Inspect the tractor from the position of operator; everything for the operator's comfort and convenience.
- Check the hydraulic control; it is years ahead of competition.
- Inspect the cooling system; no water pump, no thermostats, no fan belts or pulleys to wear out.
- Look at the easier way to adjust the clutch. A pair of pliers and five minutes will do the job.
- See how easy it is to work on the motor. Two hours time will grind the valves and replace piston rings and have your tractor in the field.
- Finally, inspect the equipment made to work with your tractor; Quick-Tack cultivators, listers and mowers, all the best in the field.
- Today's farmer is the shrewd buyer. His judgement is good. Why shouldn't he be choosy? It is his American right and privilege.

We still think, it's a good old world, that God is Ruler here, and that the profits of doom are false profits and that better days for United Nations is now being born.

## it's a GIRL!

It was a busy week for Mr. and Mrs. John Bowman of Independence, Missouri—the week that young Lin-a Marie joined them.

Busy week, too, for the Bowman telephone. As Mrs. Bowman reports, "We use the telephone a lot from day to day, but we never stopped to think how helpful it really is, until we kept a record of calls. We averaged our bill—and were really surprised at the low cost—about 2¢ a local call!"

Telephone service has grown steadily in the part it plays in our daily lives—and in the value it delivers. Most folks agree it's the best buy in their budget! Southwestern Bell Telephone Co.

What else gives so much for so little?

"Mrs. Dawson called Tuesday to give me her recipe for blackberry jelly. I made 13 glasses!"

"Then early Wednesday morning we knew the stork was on his way. Mother called the doctor."

"John got the cab, while Mother packed. Within minutes we were off!"

"Mother called everyone we knew, as soon as they were up. Karen and Sharon, our other daughters, were trying to get in their two cents worth, too, of course."

"John and Mother kept our telephone record for me. I'm finishing it now. Reading it back makes me realize how much we depend on our telephone—and how little it costs!"

**BATTLE**

The tall, dignified man joined the crowd in front of a bargain counter, in an attempt to get a very special pair of hose for his wife. He inched his way patiently, but was buffeted here and there by the women, and made no progress.

Suddenly he lowered his head, stretched out his arms, and barged through the crowd.

"Can't you act like a gentleman?" inquired a cold feminine voice at his elbow.

"I've been acting like a gentleman for the past hour," replied the man, still charging forward. "From now on I'm going to act like a lady."

I here by announce my candidacy for reelection to the office of County Commissioner of Precinct 1. Subject to the action of the democratic primary, I have served you as your humble servant for twelve months past and enjoyed the work.

I have looked on the office as a sacred public trust of the people. I have tried to serve to the best of my ability at all times to be fair and impartial in discharging the duties of the office, and should you see fit to elect me again I pledge you the same fair and impartial service.

I feel that my past experiences has helped qualify me to serve you in the future better than I have in the past. Especially I want to thank you for the fine corporation you have given me; for without it some of the accomplishments that has been accomplished could not have been accomplished, and the honor belongs to you, it has been a pleasure to me to enjoy it with you. I would indeed be grateful to you for the privilege of serving you again. I thank you.

conveyor systems and automatic machines obviate much of the usual back-breaking—and inefficient—hand work.

"With the use of advanced production methods the company has been able to hold expenses within reasonable limits. This is true even though use of the larger engine means two more cylinders—with more pistons, rings, 'con' rods, sparkplugs, etc.—for each car produced.

"The Ford production technique involves a high degree of precision. Vendors regard the company as a 'tough customer' because of the rigidity of inspection standards. Suppliers know they must comply closely with specified requirements or face heavy rejection.

"The precision, together with the extra power of the engine, accounts for the unusual performance of the Ford V-8. Ford's ratio of applied horsepower to gross vehicle weight has long been a favored design characteristic. Other manufacturers have found this power plant too difficult to build inexpensively enough for a small car.

"From present indications, it may be a long time before competitors can challenge Ford in the low-priced eight-cylinder field."
