NUMBER 44

Whoa, Now!

By Grady Lackey

Contrary to the impression left by a headline appearing in last week's Texas Spur, the second Democratic primary election will be held on Saturday, August 23 instead of August 24.

In the race for sheriff and for Constable of Precinct 3, the candidates seem to have slowed down in their campaign efforts. But who hasn't slowed down with the temperature ranging between 105 and 110 degrees every day?

On the county level, the sheriff's office is one of, if not the most, important position. We've got a couple of good men running for the office, but to properly fill the office either of them will need the cooperation and support of the people of the county. This is most easily accomplished by getting the man in office that the majority of the people want. Just a few hundred voters at the polls can't very well indicate the wishes of the entire county. There were over 2,000 voters in the first primary and there should be just as many voters come Saturday.

Foster Cook, speaking for the whole school system and for himself personally, had a word of praise this week for several individuals and organizations for their help in maintaining the school's stadium during the summer months. He mentioned the Spur Volunteer Fire Dept., the Spur Softball League, the Spur Lions Club, and County Commissioner Arner Watson among those who have given of their time and effort in this good work.

Seems as if we got in a little mix-up with our neighbor city of Floydada this week. They're having a softball tournament up there for boys about the size of their fourteen-year-olds, and Spur's fourteen-year-olds just seem to be a little too big for them.

According to reports from up Floydada way, Spur is receiving criticism for playing boys too big and too old, and illegally whittled the host team 27-6 Monday night.

Friend Roberson, manager of station KFLD in Floydada, admits, however, that he played some fairly large fourteen year olds, and that he told Bingham to bring his of that age because he'd probably need them against his "fast-stepping" team.

Bingham will return tonight to Floydada with smaller boys to continue in the tournament without a grudge against anyone, with a hope to win, but with a question in his mind about why they changed the original rules just to eliminate some of Spur's players.

BAPTIST BROTHERHOOD TO MEET TUES. MORNING

The Baptist Brotherhood of the First Baptist Church will meet in its regular meeting, Tuesday, August 26 at 7 a. m. in the church annex.

The speaker for the meeting will be Rev. Victor Crabtree, pastor of the First Baptist Church at Dickens.

All the men of the Church are urged to be present and enjoy this fine program.

Chamber of Commerce Doing... C. of C. Committee Completes Plans for September Community Day In Spur

Final plans for another Community Day have been completed. The merchants' committee met this week and discussed additional events to be included in this month's Community Day.

The "Dickens Tune Busters" will be on this month's program to furnish western music for the monthly event.

The committee also decided to have a Cracker Eating Contest to be held on the stage in the center of Burlington Avenue. The Cracker Eaters must be twelve years old or below to enter the contest and they may be boys or girls. Lots of fun is expected at the next Community Day and prizes will be given for winners in the Cracker Eating contest. First prize will be \$3.00, second \$2.50, third \$2.00, fourth \$1.50, fifth \$1.00 and sixth prize \$.50.

Cook Announces Opening Schedule; Faculty Members

From the office of superintendent of schools, C. F. Cook comes this statement.

"A new term of school is about to begin for the community of Spur. The school system in the past has been above the average and we hope that this school year will be the best that Spur has ever had. It will take the best effort of every one concerned to accomplish what must be in order for us to have the school that every one will be proud to be a part of. Spur has always been a good school town and every one has been more than nice to me in the past and I appreciate this very much. I know that we will have the same cooperation this year that we have been receiving."

"The faculty, school board, and students will do everything in our power to do the things that will make everyone in Spur proud of our school. There will be many mistakes and errors made this year but we want to assure you that these mistakes and errors will be corrected as soon as we find them if we can possibly do so."

"The children in Spur schools are our first interest. We are going to do our best to help them in every way possible. If your child is not doing well in school please visit the teacher or principal. Do this in me so the child will get the benefit of your conference. Don't tell the other fellow your dislikes of our school, tell your PRINCIPAL OR SUPERINTENDENT."

"We have employed the best trained teachers that we could find. It is still very difficult to find teachers. I am very happy that we have the teachers that have been employed for this school year."

The school lunch room will be opened on Monday, September 1, and the price for lunch will be 25c. Children must pay in advance.

There has been some improvements made this summer on our school buildings. The old Junior High building has been painted through-out, and lights installed in some rooms. The grounds have been worked. The gym floor has been finished, library books have been bought and indexed for Junior High School.

Dry Lake School will come to Spur this year by annexation. The buses are being put into condition and will be ready for school to start.

Children that are starting to school for the first time will be required to have a birth certificate. Students coming from other schools will be required to have report card and book card.

Spur Junior Team In Floydada Tourney

Spur was invited to enter a junior softball tournament in Floydada last week, and gladly entered a team sponsored by the Spur Chamber of Commerce and managed by Billy Bingham.

Bingham reports that the rules were explained to him by Wayne Roberson, manager of station KFLD and director of the tournament. He states that Roberson definitely told him that the teams were to be made up of boys 14 years of age and under.

Fourteen boys along with Bingham, Lester Ball and Don Hindman, made the trip to Floydada Monday night for their first game against the Floydada team, managed by Roberson. Final score: Spur 27, Floydada 6.

Wednesday Grady Elder, manager of the Spur Chamber of Commerce, was contacted by Roberson who stated that the Spur boys were too large to play in the league and that they could not continue in the tournament. He admitted, however, that the Floydada team had two or three fourteen-year-old boys, but "Spur's boys are just too big."

Wednesday afternoon Roberson allegedly called a meeting of the commissioners of the tournament and decided to not count Spur's victory over Floydada, and not to let the "big" Spur boys continue in the tournament.

Rather than drop out of the tournament all together, Bingham states that the boys want to return with smaller, not necessarily younger, boys.

Spur will play Tulia tonight.

Legion and Auxiliary Donate Wheel Chair To Tom Simmons

Tom Simmons, thanks to the American Legion and Legion Auxiliary of Spur, can now visit his friends and neighbors and is planning future trips to town.

It all came about last Wednesday, August 13, when C. B. Chandler and Joe Jeffers presented Simmons a wheelchair as a gift from the Legion and Auxiliary. Simmons, who is a World War II veteran, lost both legs and since being released from the veterans hospital has made his home with his brother, Henry Simmons of Spur.

Funds for the gift were raised by poppy sale held by the Auxiliary and a general fund donated by the Legion.

This chair, which is one of the best made, will enable Simmons to wheel himself where ever he might choose to go. This is a memorable event for Simmons who has been confined to his home for so long.

Hoover-McAteeer Thursday Night, August 14, 14-3 to take the second playoff game and the 1952 championship of the Spur Softball League.

Following the game, the winners were presented the Texas Spur trophy, given each year to the league champions.

One of the largest crowds of the season was on hand to see the last game of the year. Proctor's fine looked like champions in the finals with sparkling play in the field and good hitting at the plate plus excellent pitching by Johnson.

Hoover-McAteeer tried hard to repeat as champions, but could not seem to get the errors out of their systems.

So ended the final game of the 1952 season in Jones stadium. The park was used 34 nights for 58 ball games, played before an estimated 20,000 total fans.

Financially, the Spur Softball league was again a success. Although organized primarily to offer recreation and entertainment to players and fans, the league has proven capable to pay its own expenses and have a little left over just from the volunteer donations of fans attending the games.

Total receipts for the year were \$1695.99. Total expenses were \$1096.28, leaving a net profit of \$599.28. This compares with a 1951 net profit of \$655.00. Total receipts for a 1951-52 season in Jones stadium. The park was used 34 nights for 58 ball games, played before an estimated 20,000 total fans.

Jim Crook Is Guest Speaker For Rotary

Jim Crook, assistant manager of the Lubbock Chamber of Commerce, was guest speaker at the regular noon meeting of the Spur Rotary Club, Thursday, August 14.

Visitors introduced were Hollis Pruitt, Johnson, William Starcher, Ralph Reagan, Rev. John H. Floyd, and B. C. Bert of Lubbock.

The topic discussed by Crook was "Basic Essentials of Chambers of Commerce." According to Crook, betterment and progress should be a common goal between Chambers of Commerce and business. He described chambers as being a group of business men and women who have banded together to co-operate to give citizens what they need and want.

Crook stressed the fact that "South Plains chambers are in their infancy but have made great progress and have even greater potentialities."

Mr. and Mrs. David Sisto of Iowa are visiting friends in Spur this week. They are formerly of Spur.

You can now really have glamorous dessert with practically no trouble at all! Just take advantage of the new angel food cake mixes and convenient ready-to-use frozen fruits for delightful and deluxe fare. In fact, here's an idea using frozen strawberries in a filling for angel food cake. It's scrumptious and pretty! Just split an angel food cake in half, and put it together again with a filling of luscious red-ripe frozen strawberries. Then chill, and serve with a fluffy white frosting. Or, dress it up in real party style with coconut and whole strawberries for garnish. Then stand back and admire a real masterpiece!

Strawberries, and Angel Food Delight
Make an angel food cake from a package of angel food mix, following instructions on the package. After cake has been removed from the pan, split in half horizontally and return bottom half of cake to pan. Spread strawberry filling on this layer and cover with top half of cake. Co-

ver and chill in refrigerator. After filling has had time to chill until firm, remove cake from pan and frost with additional whipped cream or favorite fluffy white frosting. For extra party fare, garnish with coconut and whole strawberries.

Strawberry Filling
1 package frozen strawberries
1 tablespoon unflavored gelatin
1/2 cup cold water
1/2 cup sugar
1 tablespoon lemon juice

You are looking into the mouth of a 16-inch gun on the U. S. S. New Jersey

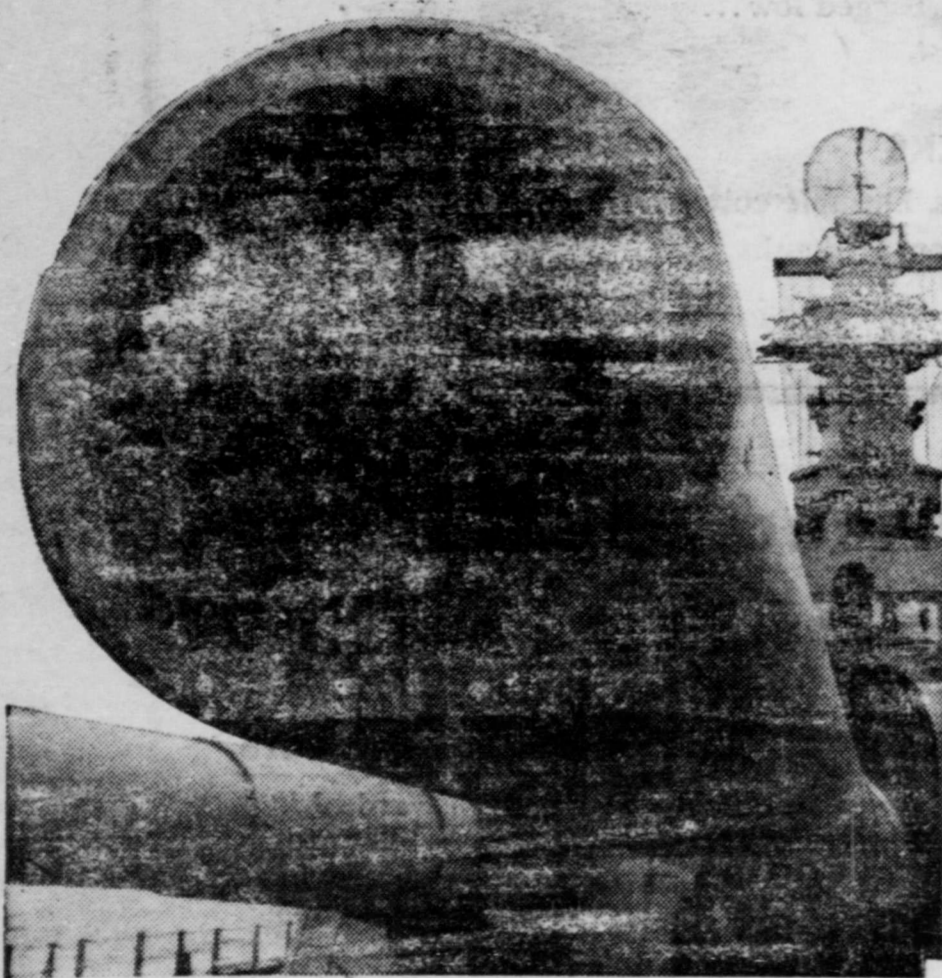

It's typical of the huge rifles with which our great navy bristles. And the size of that bore is a comforting reminder that America's watchdogs have a bite as bad as their bark.

This represents one kind of strength America must maintain in order to keep the restless peace. For surely we all realize that now *peace is only for the strong.*

But keeping America strong calls for more than armed strength. It means that our economy must be stable, too. And that's where you can help . . . by buying United States Defense Bonds! For by bonds and other forms of saving you are building up a personal backlog of financial security which means economic strength for our country.

Saving through bond buying is easier than you think! Try it—through the Payroll Savings Plan where you work. With this Plan you can save a regular sum out of every check—before you have a chance to spend it. And, you know, no matter how small your income, you can't afford not to save something for yourself. So join the Plan today. Thousands say it's the one *sure* way to save!

HERE'S HOW E BONDS NOW EARN MORE MONEY FOR YOU!

Now safe, sure U. S. Series E Defense Bonds pay an even better return than ever before . . . thanks to 3 brand-new money-earning features just announced by the U. S. Treasury.

1. Now every Series E Bond you buy begins earning interest after only 6 months. It earns 3%, compounded semiannually, when held to maturity. It reaches full maturity value earlier (9 years 8 months) and the interest it pays is now bigger at the start!

2. Every Series E Defense Bond you own can now go on earning interest for 10 more years after it reaches the original maturity date—without your lifting a finger!

3. During the 10-year extension period, every unmaturing bond earns at the new, higher interest (average 3% compounded semiannually). Your original \$18.75 can now repay you \$33.67. \$37.50 pays back \$67.34. And so on.

Start now! Invest more savings in better-paying U. S. Series E Bonds—through the Payroll Savings Plan where you work or the Bond-A-Month Plan where you bank.

Peace is for the strong . . . for peace and prosperity save with U. S. Defense Bonds!

"All my life I've wanted to own a Buick"

POWER STEERING on the Roadmaster and Super

Power Steering now available on Super as well as Roadmaster—optional at extra cost.

It seems that owning a Buick is something that a lot of folks dream about—plan for—and finally do.

We say that because, so many times, they say so in words like those above.

Those words make us happy, of course—happy to know we sell a car which means so much to those who own it.

But they make us feel just a little bit sad as well—sad to realize all the years of fun such folks have been missing for no good reason at all.

For the fact is this: If you can afford any new car, you can afford a Buick. You can afford the thrill of bossing around that big Fireball 8 Engine that purrs forth a mighty flow of power.

You can afford the gas bills—as any owner of a 1952 Buick will tell you—because that high-compression, valve-in-head marvel gets a lot of miles from a gallon of fuel.

You can afford the extra luxury of a real million dollar ride—the silken smoothness of Dynaflo Drive*—the extra room and comfort and style that have put Buick popularity right up at the top of the list, next to the "low-priced three."

So if you want to own a Buick—there's just one thing to do: Come in—pick the one of your choice—

and let us show you how close the figure that goes on the bill of sale comes to what you'd pay elsewhere.

As we've said before, your first car can be a Buick. Why not take the Big Step right away—today?

Equipment, accessories, trim and models are subject to change without notice. *Standard on Roadmaster, optional at extra cost on other Series.

Sure is true for '52

The bridegroom is the son of Mr. and Mrs. Dee Hairgrove of Spur.

The bride, given in marriage by her father, chose a gown of white Chantilly lace and tulle over satin trimmed with seed pearls. She carried an orchid surrounded by stephanotis on a white Bible. Her veil of imported fingertip illusion fell from a tiara scalloped and embroidered with rhinestones.

Maid of honor, Mildred Akens, sister of the bride, wore blue embroidered organza over blue taffeta and carried a colonial bouquet of blue pom pom mums.

The mother of the bride wore rose linen with navy accessories and a gardenia corsage.

The bridegroom's mother wore a grey sheer with pink hat, pink carnation corsage, and black accessories.

A reception followed the ceremony at the home of Mr. and Mrs. Tom Akens. Baskets of white gladioluses decorated the house.

Guests attended from Amarillo, Friona, Abernathy, Spur, Lubbock, Colorado City, Odessa, Big

Spring, Midland and Plainview. For traveling the bride chose a yellow linen sheath with matching bolero, navy velvet belt, and navy accessories.

WASHINGTON REPORT

Farm Bureau Leader Proposed Whittling REA

By William S. Roberts

While the Senate this month sustained the House in making

appropriations for continued administration of REA electrification and telephone programs, the position of the leader of one of the three great American farm organizations is deeply distressing some Members of Congress, as well as farm and rural electric officials. Both houses of Congress ignored the proposal made to the House Appropriations Committee by Alan B. Kline, president of the

American Farm Bureau Federation, for whittling REA to a shadow of its former self.

In one of the most fiery Appropriations Committee hearings behind closed doors, Kline demanded "REA administrative expense be reduced by approximately 30 percent or \$2,700,000" during the next year.

"In justification," he said "budget information shows a substantial reduction in the number of consumers to be connected in the year 1953 as compared with the actual number connected in 1951 . . . The number of farms which are electrified is approximately 86 per cent or greater. . . "Little Knowledge"

Members of the House commit-

tee sharply criticized AFBF's president for asking cuts in REA and most other general agricultural services, while seeking more funds for special projects.

Committee Chairman Rep. Jamie L. Whitten (Miss.) told Kline, "You have taken the budget and made certain recommendations, apparently with little knowledge of the details and without any knowledge of what land managing agencies are . . ."

Of Kline's proposal to curtail REA, entirely ignoring the telephone loan program, Rep. Whitten said, "Well that sounds easy. But every application for every loan and everything that is done depends upon the folks to do it . . ."

"There is a joint fund on administrative expenses for the REA and the rural telephone program. The record shows that for the reduction in the REA electricity program there is corresponding increase in the work load for the telephones.

"If we are in an emergency and if the situation is as short as I hear it is with regard to labor, there is a need to help with the rural telephone program. This is not a grant but a loan which they pay back with interest."

Members of both parties of the committee were vehement. Rep. Walt Horan (Wash.) said, "We cannot look at the agricultural budget without feeling as strongly as the chairman does, about these and other things, and we are getting pretty fighting mad about them."

Compare Appropriations
Rep. H. Carl Anderson (Minn.) pointed out to Kline, "Compare the appropriations for 1940 and 1945 and you'll find that the Department of Agriculture is the only one which has received less money this past year than was

given to it in the years mentioned above."

Whitten earlier had charged inconsistency of your position," Kline, declaring, "Everybody knows the close relationship between the Farm Bureau and the Extension Service, and you want to cut everything else."

When Kline persisted, Whitten repeated pointedly, "You want to increase the Extension Service, and that is what the Farm Bureau has been after, and you want to cut down almost everything else. This thing is upsetting to me."

Other appearances and action by the Farm Bureau's national president have been equally distressing to rural electric and agricultural leaders, including some active Farm Bureau leaders.

One was his appearance before the Edison Electric Institute, the commercial power companies' biggest and most active organization, in Cleveland last month where the cooperative and public power programs were scathingly denounced as "creeping socialism." A convention publication produced by Electrical World magazine said, "Kline is a great stalwart in the front ranks of those who are carrying on a running battle against government encroachment in private business. His address was the highlight of yesterday morning's program."

General Language
What Kline said to the power company executive was couched in very general language, without specific mention of REA. But he nevertheless snubbed the accomplishments of rural electric co-ops when he said of agriculture's evolution:

"There are those who would lead you to believe that some particular law that we passed nationally did this thing. I will tell what it is based soundly on education and research."

Kline made an open bid for utility officials to seek more influence in Congress "even if some of you might have to get in it yourself." Members of Congress, he declared, are in need of "the kind of courage that you call guts."

CARD OF THANKS

We wish to take this method of expressing our heartfelt thanks and appreciation to our many friends for the kind expressions of love and sympathy shown us during the illness and death of our mother, Mrs. H. C. Eldredge. We haven't words to tell you what the beautiful flowers, the

food that was brought in, and the many other deeds of kindness meant to us.

Thanks for everything and may God bless each of you.
The family.
