Someone somewhere once fis ured out that the things we ry most about seldom even worrying about at all. We'll have to admit that we were really worried about this light plant deal causing a permanent breach amongst our citizens.

We are happy to report, that o far it looks like our worries were false and that the city has again united.

Just to keep the record straight the ratio of votes was 2.396 to 1. Okey, so we, as a city voted to keep the light plant. What's next then? If it's ours, don't you think we ought to patronize it? Just a brief word to Homer or plans for our Christmas pro-any other city employee is all gram, and all work together for it takes. We know. We tried it. the betterment of Spur.

The biggest and most important dog fight of the year will take place in Jones stadium tomorrow night. The Spur Bulldogs go into the fray the heavy favorite, but we'll stick by our nservative attitude. As an "at least" guess, we'll say

## Thrill Maker from start to stop

SOMETIME soon - like this week - you ought to try a Buick with Twin-Turbine Dynaflow.\*

You ought to try it just to be familiar with the great advance in this fully automatic transmission that Buick engineers have accomplished.

You ought to try it just for the fun of bossing a drive where you don't do a blessed thing but steer and press the gas or the brake pedal as you go.

But, pure and simple, you ought to try it for thrills.

We mean the thrill of instant getaway response - with two turbines doing the job that one did before.

We mean the thrill of whisper-quiet acceleration - where you barely hear the sound of power build-up, or of flowing oil at work.

And, most emphatically, we mean the thrill of perfect and sublime smoothness from start to stop - the thrill of moving from standstill to and through all travel ranges in one, progressive, infinitely smooth forward "carry" without a gear ever shifting or a clutchpedal pushed-the thrill, rarely found elsewhere, of silky smoothness in deceleration, too.

Will you be our guest at a sampling of a Buick with TT Dynaflow?

Will you try the sweetest, the smoothest and the simplest-to-operate automatic transmission yet devised - and powered by the highest-compression engines in Buick history, including the

world's newest V8 in SUPER and ROADMASTER models?

Drop in on us this week and we'll be happy to accommodate you.

ember When You Had to Shout?

MANY RURAL TELEPHONES used to be connected to a single wire instead of a pair. As a result, you often had to shout to make yourself heard. Now practically every Southwestern Bell rural telephone in Texas is on an all-metallic circuit and you can depend on clear, distinct transmission. That's one of many ways we are working to improve our service to rural customers - at the same time we are working to extend service to more and more farm homes. This year alone we are spending \$41/2 million in Texas for more and better rural telephone service. SOUTHWESTERN BELL . . . A TEAM OF 28,000 TEXAS TELEPHONE PEOPLE . . . AT YOUR SERVICE.
