### Whoa, Now!

By Grady Lackey  
Right around the corner looms a brand new year . . . another book with 365 pages on which each of us may scribble illegibly, compose a masterpiece, or just leave blank.

We must agree that time is a peculiar something . . . we labor long hours of it trying to earn enough to purchase a gadget that will save a little of it. We don't have enough of it to do the things that our better self tells us is good and noble, yet we have ample of it to waste at our silly little meaningless pastimes.

We take time to fuss with and at our wife and children, criticize the pastor and the mayor, squabble with the merchants, scold the employees, pour over our own problems and consider how green the grass is in the next pasture . . . but we just haven't in the past found ample time to speak those little words of kindness, offer that bit of duly merited praise and congratulation, to offer that prayer of thanksgiving to a merciful God, to speak constructively and considerately of our fellowman.

These days scoldists claim to have figured out just about everything that God made with the exceptions of time and life. From the most brilliant artist down to the lowly publisher, we're all lipped by this thing called time.

As we look toward the coming New Year, with new opportunities, new challenges, new disappointments, new blessings, we see before us a New Year in which we will each one go forward or backward in the sight of our fellow men and in the sight of our God. Without any formal list of resolutions, each of us can, in our own hearts and minds, vow that 1934 will be the most joyous year of our lives by the proper use of our God-given Time . . .

Les Garner is doing all he can to get the farmers a good rain or snow . . . in the past he has had tractor demonstrations postponed a couple of times because of wet weather. Well, he has scheduled five days of it now, hoping that maybe one of them can be called off or postponed because of wet weather.

Things in town hit the usual after-Christmas lull this week, with both advertising and news happenings hitting a low.

We made no effort to put out a large New Year's greeting section this year because of the drought and because of the merchants' wonderful response to our big Christmas edition.

Probably your publisher is in as close a contact with the business people in Spur as anyone, and we would like to tell you a couple of things about them—confidentially, of course, so don't tell them we mentioned it.

First, they are as fine a bunch of men and women as you'll find. They are anxious to serve the people of the area and welcome the opportunity to do so.

Individually and collectively they are willing and are ready to cooperate in making Spur a better place. Although their ideas differ along the way, they strive constantly for Spur and its betterment.

Their taxes are used for our schools, streets, parks. Their donations support our churches, Red Cross, community chest. Their Spur is your Spur.

What are we getting at? Here it is - if they are doing all of this, we should each feel duty and honor bound to offer to them our support by patronizing their places of business. And if these two motives aren't compelling enough, we feel that the additional services and personal attentions and considerations will remove all doubt about the right place to do our shopping.

The John L. Koonsman, Jr., in company with Mr. and Mrs. Bob Hill of Lubbock, will leave the first of the week for Jacksonville, Florida where they will attend the "Cater Bowl" game.

Jimmy and Johnny James, sons of Mrs. Jeff James of Spur, are spending a ten-day leave here. They have been stationed at Camp Chaffe, Arkansas where they attended a cooking school. They will be stationed at Fort Lee, Virginia when they return.

At the stroke of twelve a New Year arrives. May it bring you all the goodness that life can hold . . . health, wealth, friendship, joy and, above all, PEACE!

### SUPT. C. F. COOK LOOKS TOWARD 1934 IN SPUR SCHOOL DISTRICT

By C. F. Cook  
Supt. Spur Schools

We are now entering into another New Year, even though we have been in school for four months. These four months will help to govern the remainder of this year, but what we do the next five months will tell the final score.

Almost every student and teacher has been satisfactory thus far, but the human element will give us some error. Those of us both students and teachers, will make an effort to do a better job and cooperate with our fellow man better in the future.

The parents of the Spur school children have been so wonderful. They have worked with the principals and teachers to promote a better school in Spur.

A public school is an institution that the entire community must help support. This institution belongs to everyone in the community and each person should feel that way. We in Spur encourage the people to use their school facilities. It is a community size of Spur each organization must cooperate with the other so that we may have some of the things that larger places have to be used by the public.

The Spur school board is made up of the following men: Lloyd Hindman, president; Leon Reed, secretary; Jerry Ensey, Fred Neaves, Spencer Campbell, Jay Austin and A. V. Hoover. These men, with the administration of

## See the New "Snap Coupler" and the New Allis-Chalmers WD-45 Tractor

**One! Two! Quick!**

**1. SNAP-COUPLER**  
Allis-Chalmers announces the handiest system ever devised for hitching tractor-mounted implements.  
It's the SNAP-COUPLER! Here's how it works. Just back your tractor. A funnel-shaped cone guides the implement tongue into the single hitchpoint. Snap... it latches! Close the two lift-arm spring couplings and drive away!

Good news for WD Tractor owners - the SNAP-COUPLER is also available for all WD Tractors in service. Ask us about the conversion kit.

**2. POWER-SHIFT Wheels**  
Quick-hitch alone is not the whole story. It's quick everything! Engine power spaces rear tractor wheels.  
Match wheel spacing exactly to rows, furrows, swath or tillage tool width.  
Attach implements and space wheels... one! two! QUICK! Let us show you Allis-Chalmers Quick-Change Farming.

the tractor your neighbors will notice...

Let us put a big new WD-45 Tractor on your farm.  
Your neighbors will marvel at the work power of this new tractor. They won't believe their eyes when the WD-45 handles 3 bottoms fast - in your toughest field.  
POWER-CRATER engine and 4-speed Helical Gear transmission give that extra power you've always wanted... a tractor that pures through your harvest work... takes second-gear jobs in third. Smooth operating

TWO-CLUTCH power control lets you slow or stop the forward motion of the tractor permitting your harvesting machine to handle sudden overloads... without shifting gears!  
All this - plus SNAP-COUPLER, POWER-SHIFT wheels, automatic TRACTION BOOSTER and Traction Booster Indicator - at a price you can't match. Let us show you more work power... more modern features - the WD-45 Tractor on your farm.
