### Election Day Saturday

#### Whoa, Now!

By Grady Lackey  
Would You Like to be the "Man of Distinction" of the Spur Cowboy Jubilee

We've all seen the whisky ads portraying the "moderate drinker" as the "man of distinction." Here are a few more pictures of him in a real true-to-life setting:

He is the drunken driver who ran down a 13-year-old girl in Raleigh, N. C., and left her dead in the street.

He is the man in Cincinnati, Ohio, who sold whisky to minors with the resulting death of a teen-age girl.

He is the cab driver in Indianapolis who shot and killed his estranged wife.

He is the prominent businessman in Hot Springs who, driving his car at a high rate of speed in a safety zone, killed one woman and severely injured others.

He is the young man who brutally murdered a family of six and threw their bodies down the shaft of an abandoned mine.

He is the man in Orange, Pa., who, after drinking 17 bottles of beer, drowned his 18-month-old son in the bath tub and savagely beat his wife and another child.

He is the man in Los Angeles who, after kidnapping a 6-year-old girl, cruelly tortured her and then finally killed her and stuffed her body in a garbage can.

He is the man in Columbus, Ohio, who kicked a woman to death and then soaked her body with gasoline and set it afire.

These are the true-to-life pictures of what alcohol does to men and women.

Many of the so-called "moderate drinkers" of our day will do well to ponder these sobering facts . . . and let us as Christian parents and Christian citizens protect our families, our loved ones and our property by reaffirming our belief in the way of total abstinence.

#### Weather: HOT!

Dickens County folks and crops continue to sizzle amid a heat wave that has topped the 100-degree mark 12 of the last 13 days.

The top this week was Sunday, July 18, when it hit 104.

The top temperatures for the week beginning last Thursday, as recorded by the Spur Experiment Station, have been: Thursday 100, Friday 99, Saturday 103, Sunday 104, Monday 102, Tuesday 101.

#### SPUR MILK vs HOTRODS; LIONS vs CITY DRUG IN PLAY-OFF GAMES

The championship playoff of the Spur Softball league will open in Jones Stadium next Tuesday night at 7:30 with the Spur Milk and Hoover-McAteer teams in the first game. The second game will match the Spur Lions Club and City Drug.

The City Drug finished the regular season on top with the Lions, Hotrods and Milk boys all tied up for second. The teams drew for play-off spots Tuesday night.

The winners of next Tuesday's games will play a two-out-of-three series for the championship beginning next Thursday night.

Last Thursday night the Glimmer Boys and Lions gave the fans a thriller with the drug store players coming out 9-7. Hoover-McAteer trounced the Farmall team 18-4 in the first game.

Two run-outs finished up the season Tuesday night with neither game instrumental in determining play-off teams. In the opener the Hotrods ran off from the Veterans 22-5. Spur

### GOOD TURN-OUT DUE IN COUNTY AS STATE, LOCAL RACES LOOM

Texas voters will go to the polls Saturday, July 24, to elect a governor, a senator, and on down to precinct chairmen and constables.

On the Dickens county level, the two hottest races are for the offices of county-district clerk and county school superintendent. The election will be spiced up on the precinct level by commissioners races and one constable race.

County voters heard speeches from several candidates at the candidate-speaking in Jones stadium last Friday night.

Local candidates are winding up their campaigns here with a few advertisements in the paper this week and several still knocking on doors and passing out candidate cards over coffee cups.

The absence of races for the offices of county judge and sheriff does not seem to indicate a short vote in the county, as the other races have been kept active and the governor's race

### County Farmers To Vote On Wheat Quota Issue Friday

There will be held in the entire nation on Friday, July 23, a wheat referendum to determine whether or not there will be marketing quotas on wheat for 1955, according to a report from the Dickens County A. S. C. office this week.

If two-thirds of the wheat growers of the United States vote "yes", there will be quotas. If more than one-third vote against it, there will not be quotas—only acreage allotments which have a support price of 50% of parity. If the quotas carry, the support price will be between 82% and 90% of parity.

Any farmer in Dickens County is eligible to vote who has a wheat allotment of more than 15 acres, the report states. Under Texas laws, a man and his wife are both eligible to vote.

The hours of voting will be from 9 a. m. until 7 p. m. at the following places in Dickens County: McAdoo, co-op gin; Afton, co-op gin; Croton gin, and Spur A. S. C. office.

Farmers must vote in the community in which their farms are located, the report states.

#### Chamber of Commerce Doings . . . LARGE HOST OF JUBILEE VISITORS INCLUDES POSSE'S FLORIDA PALS

By Homer Hindman, Mgr.  
Today (Wednesday) is the beginning of Spur's Cowboy Jubilee which will last four days.

Everyone connected with it is pretty well worn out, but we've all enjoyed it, and assure you of a good show.

We sincerely hope you will get behind our rodeo this year and make it a great success.

We'll have a large host of out-of-town visitors, several out-of-state visitors, and a nice delegation from New Smyrna Beach, Fla. where our sheriff's posse was entertained so wonderfully this spring. We feel sure our folks will show them the same hospitality that they showed us.

Already here are Mr. and Mrs. E. S. Estinger, the founders of Palmetto Polo. Accompanying them is Miss Marcia Mathews, 16, the youngest member of the New Smyrna Beach Riding Club team who plays the center position. Expected to arrive in time for the Jubilee are Mrs. Jack Snop and daughter, Barbara, and Mr. and Mrs. Clyde Hart. Hart is president of the Valucia County, Fla., Cattlemen's Association.

Saturday, July 24, is election day. Let's all go to the polls and vote for the candidates of our choice.

**TREATING SERIOUS BURNS By Science Features**

When investigators checked into the cause of death in mass fire disasters ten years ago they found that very few people with severe burns on one-third or more of their bodies survived. Today, after major research projects have developed new medical approaches to the problem, 75 per cent of those suffering from serious second- and third-degree burns do live.

Of the new treatments now being practiced, replacement of fluids and other essential elements lost by the body is very important. Plasma or whole blood and salt solutions—after 12 to 20 pints—are administered during the first 24 hours of care. The amount of fluid depending on the extent of the size of the patient. Vitamins are lost when the body secretes fluids and interference in absorption takes place. Doctors remedy this by supplying concentrated vitamin compounds such as ADF, the anti-stress formula designed for emergencies.

The bandages and heavy ointments once administered to burned areas have given way to the new "exposure" treatment. This method relies only on natural fluid that the body exudes to cover the wound. To prevent infection of the uncovered burn—infection is still the major cause of death in extensive burns—antibiotics such as penicillin and terramycin are given in large doses.

Medical advances have also done more than save burn victim's lives. New developments in skin grafting and plastic surgery remove most of the physical traces of the injury to help return the patient to a normal life.

**WHO WILL RUN TEXAS IN 1955 AND 1956?**

Will the Lone Star State be run by Texans who believe in States Rights, who believe in Texas First, with Allan Shivers continuing as Governor?

— O R —

Will Texas be run by a "Labor Government", by an administration supported by Northern CIO labor unions, the P. A. C., and the National Association for the Advancement of Colored People (NAACP)?

This question is important to Texans, for make no mistake about it, the main opponent of Governor Allan Shivers is being financed and supported by CIO, PAC and NAACP. This support comes mostly from the Northern Labor leaders who long have wanted to dictate to Texans while Allan Shivers has been Governor. Now these labor union leaders want a change.

The following is from a news story appearing in the Corpus Christi Caller-Times on Friday, June 18, 1954:

A strong state labor department properly constituted with authority to act in behalf of the worker was called for by Jerry Holloman, vice president of the State Federation of labor, at the closing session of the Texas Builders and Contractors Construction Trades Council Convention yesterday at the Princess Louise Hotel in Corpus Christi.

The state labor department should have authority to set state-wide prevailing wage rates, rather than determination in each political sub-division, Holloman said.

Other speakers yesterday hit at the "subsidized daily press," "chiseling road contractors" and lack of organized membership drives.

Stie Driscoll, carpenter's union representative, made an open endorsement of the can-

didacy of Ralph Yarborough for Governor. "We've got to have a listening ear and an open door (to the Governor's office). We don't have one now," he said.

Freeman Everett, colored vice president of the Texas Federation of Labor, ended the convention with a moving appeal to allow Negroes to join AFL Craft Unions.

The above news story appeared in the Corpus Christi newspaper just a few days ago.

Allan Shivers has always been FOR the working man, but is AGAINST letting Northern Labor leaders run Texas Unions . . . He has made a fair and impartial Governor . . . Texans CANNOT afford to change the efficient, impartial administration of Allan Shivers for one financed and controlled by the CIO and PAC and others who have no real interest in Texas.

Are we ready for a "Labor Government" in Texas? Are we ready to pay a third more for highway and other construction work in Texas? Do we want Texas' state departments in Austin headed by persons who must first be approved by the CIO and the CIO Political Action Committee?

Texans never will be ready for the CIO Political Action Committee to take over in this state. That is why it is important that Texans who believe in Texas first support Allan Shivers for Governor July 24.

A VOTE FOR ALLAN SHIVERS IS A VOTE FOR A GREATER TEXAS.

**New Experiment In Christianity**

Several weeks ago, we had a note from Mrs. Jim Barron, who, with her good husband, lives at the Spur Ranch headquarters in the Free State of Dickens.

Mrs. Barron, who is as nearly typical of the finest young American motherhood as anyone we know, told us she and Jim had gotten interested in something called "World Neighbors, Inc." They'd been to a meeting or two, had gotten carried away with the idea. Therefore, they decided they would do what they could to encourage neighbors in looking into the organization and, if they thought well of it, into working for it.

Along with the letters came a sack of pamphlets on the subject. These we skimmed through, noting the material outlined what looked like another "global do-gooder" undertaking. With a sigh, we put it aside for some future, more leisurely, inspection.

A few days later, we got a letter from William B. Ruggles, editor of the Editorial page of the Dallas Morning News. Knowing Bill to be a pretty practical citizen with a forthright view on everything from the weather to reincarnation, we were surprised to note that he had been more than somewhat impressed with the "World Neighbors, Inc." plan.

In his letter, Bill said he'd attended a "World Neighbors" luncheon along with former Congressman Ed Gossett in Dallas, recently, and that Ed had expressed himself as being sympathetically interested. This really surprised us, since Ed, as Representative from the Wichita Falls district in the National House, never was one of those "bovian" boys. In fact, he'd done considerable misery to his colleagues who favored an American financed "Global WPA."

Well, the other day we had the convenient time to look more closely into the material sent us by Mrs. Barron.

To be honest, we started the task with little relish, being somewhat fed up on global relief of all kinds for some time now.

But the further we read, the better "World Neighbors, Inc." looked. And then when we saw a picture reproduced from a magazine, showing some of the organization's original backers in Oklahoma City, we really got a shock.

Three of the men pictured—who helped get "World Neighbors" started and who still are working might and main for it—are known to us to be very hardheaded gent, indeed. One is Don Nicholson, an investment broker, with whom we went to college; another is Charlie Stuart, a banker married to another former college mate; the third is Ben Head, a lawyer with whom we have been acquainted for years.

All three are good men: good husbands, good fathers, good churchmen, good in their business fields. None is the sort of guy likely to be roped in by a daisy-chain, no matter how high-sounding the project.

"World Neighbors, Inc. is the brain-child of a youngish associate Professor of Religion on the faculty of Oklahoma City University.

A former Army chaplain with plenty of rugged frontline experience under his belt, Doctor John Peters returned from World War II convinced that the world can and should be run in a better way than it ever has been; vowed to do everything he could—if, in fact, he could do anything—to bring about improvement. An humble, deeply spirited man, Doctor Peters believed that only by following the teaching and the practices of Jesus could any great and good change be wrought by and among men. Strangely, perhaps, he never was able to figure out a way to get started until, accidentally, he preached a sermon one Sunday as supply pastor of St. Luke's Methodist Church in Oklahoma City.

His plea for institution of the practices of the Man of Galilee was simple, as are all great pro-messiahs, and because of it, Oklahoma City "caught on fire."

Eyon St. Luke's Methodist congregation, his idea spread to other denominations in the Oklahoma capital. Then, like wildfire, it crossed the nation, burning right into the White House office of Dwight David Eisenhower. It burned, too, into the temple, the homes and the countinghouses of others of great power and continues to spread to this very day.

There is nothing complicated about Doctor Peters' plan. There isn't anything really new about it, unless it is the theory that "you can help people only by helping them to help themselves."

"World Neighbors, Inc." doesn't go into the foreign field—India for instance, where its teams are in great demand with a fat pocketbook in one hand and a briefcase of propaganda pamphlets in the other.

It doesn't send "executives" and their "executive assistants"

**J. E. SPARKS SHOW TEXAS TO CALIFORNIA FRIENDS**

Mr. and Mrs. J. E. Sparks had as guests in their home the past two weeks their daughter, Mr. and Mrs. Martin Parks, and Mrs. Pacaha and Miss May Edwards, all from San Leandro, Calif.

It was the first time for Mrs. Pacaha and Miss Edwards to visit in Texas. Mr. and Mrs. Jim Koonsman, Mr. and Mrs. Earl Muchison and the Sparks all drove to Stamford one night to the McGeehee ranch and were fed some very large watermelons there.

Mr. and Mrs. Parks, Miss Edwards and Mrs. Pacaha left for Dallas, Galveston, Austin, San Antonio, San Angelo and Abilene for a few days.

They attended the Fisher County reunion at McKenzie Park at Lubbock on Sunday and then left for California early Monday morning.

Jimmie Sparks and family from Dell City visited his parents and his sister while they were here.

Misses Judy Moss and Beverly Thomas and Arch March of Floydada, and David Wiggins of Hobbs, N. M., picnicked at the Springs and visited with relatives here Sunday.

Into starving neighborhoods to live on an unheard-of scale and order the natives: "Do it this way"

Instead, it sends in persons trained to teach, by word and act, better ways to farm, to safeguard health, to build, to live in with their sleeves rolled up and say, "Come, let's both try it this way."

And as they work they keep uppermost in mind that passage from the Gospel according to St. Matthew: "Inasmuch as ye have done it unto one of the least of these my brethren, ye have done it unto me."

"World Neighbors, Inc." operates on the assumption that since all humans are brothers in the Biblical sense—and partners in the economic sense—it not only is good Christianity for each to help and try to understand the others, but good economics, too. It doesn't believe in U. S. Government aid to the underprivileged individuals of the world, but personal aid in the way of teaching them how to live better and to improve their status in every way. It operates on a tight budget, money for which is supplied by private contribution and strictly husband-and-accounted for. Its agriculture, public health and other experts labor largely for love of humanity, are not highly paid. They co-operate with other agencies. Point 4, mission, etc., but are not dominated by them. There is the task of putting Christianity on an every-day individual basis—and keeping it there. That is the reason hard-headed businessmen over the country are agreeing with their ecclesiastical brothers in the statement: "If an idea like this doesn't work, the world's done for."

Will it work, as all else to date has failed?

Can the basic teaching and principles of Jesus—applied right at the grass-roots, raise the standards of downtrodden humanity in the slum areas of the world and secure the peace so desired by all men of goodwill? "World Neighbors, Inc." thinks so—and many others must, too, because the idea is spreading daily and attracting to its standard men and women of all races and creeds who are willing to lend a hand.

**WASHINGTON AND "SMALL BUSINESS" R. C. WILSON HARDER**

While securing data on which Federal Trade Commission is making investigation of couponing practices, the National Federation of Independent Business found even a gross cannot be made on yearly cost of coupons to nations independent grocers.

Independent grocers lose on coupons two ways.

Usually, the home couponing corporations agree to pay the grocer for the service charge on each coupon received.

Thus, the grocer takes the item out of stock, and gives it to the customer for a coupon and cut price, often less than grocers cost. Theoretically he receives from the corporation the amount of the discount, plus the 1c handling fee. But even at best, part of the grocer's working capital is tied up weeks, or months, in coupons. Thus big corporation schemes to wreck independent manufacturing competition in an area is partly based on working on independent grocer's money.

But processing coupons is expensive. A big national chain operation now demands the usual 1c handling fee be raised to 2 1/2c on the basis their figures show it actually costs them 2 1/2c to handle every coupon they receive.

However, independent grocers take an even greater loss than chains. Corporations, because of the club wielded by chains, will pay off coupons held by chains, with no questions asked but a number of subsidiaries are used to delay or avoid payment altogether to independent grocers.

For example, there is the dating procedure. Some coupons are not valid until they are dated.

Whenever one of these corporations decides an independent manufacturer is too strong in some area, it moves in with coupons delivered to every home in a city at a loss to the Post Office, thus costing taxpayers. Then grocers, chains and independent alike, are forced to serve as banking centers for this spurious coupon currency at a loss, and independent suffer still further and buyers of items in areas not couponed pay a price which permits corporation to use these facilities to attack independent manufacturers. Thus, ironically, every time a housewife presents a coupon she is unknowingly helping to destroy independent business payrolls, perhaps her own families income.

**IT'S THE LAW**  
in Texas

A public service feature of the State Bar of Texas

**LEGAL ADVICE REQUIRES STUDY, EXPERIENCE**

When a lawyer serves a client from trouble or financial difficulties, the client knows only that he has been charged for "advice" — a commodity often-

times too freely given by us all. Often overlooked is the study, work, and time the attorney has spent in order that he may be in a position to give advice that can be relied upon.

First, a practicing lawyer must have had six or seven years of academic education. In Texas this means at least three years of college work and three years in a recognized law school. Because the community at large has an interest in the qualifications and conduct of members of the bar, these minimum educational requirements must be met before examinations for admission to the bar may be taken.

During the three years of formal legal education, the law student attempts to read, digest,

reconcile and understand from 10,000 to 20,000 separate cases, statutes, and monographs. He must draw from these and understand of basic legal principles, of processes of legal reasoning, of methods of fact and legal investigation, and of court procedure, which bring relief to clients.

From the standpoint of court proceedings, the community then expects the work of a lawyer to be a prompt and efficient trial of their cause, at a fair cost. From a counselling standpoint, it expects reasonable promptness and efficiency with, above all, the utmost of sound judgment.

In both counselling and litigation, a lawyer must draw upon

a wealth of precedent which he has attempted to store in his memory in order to apply one or more principles of law to the fact situation presented by his client. Ordinarily, many legal principles and rules of statute or decision are involved in even the simplest situation. Too, the problems, raised by various clients, like fingerprints, are never exactly the same.

After searching his memory, the lawyer will usually check the pertinent rules and precedents. These are found in an ever-increasing volume of statutes with which modern legislation seeks to regulate many aspects of our life, and in the decision of the courts, boards and bureaus.

Almost every problem presented to a lawyer requires research in the statutes and law books before a proper answer can be given.

Therefore, you will not receive an immediate answer to your problem from your lawyer, unless it is of the most elemental type. Your lawyer should, and you should give him time to, form his opinion from the authoritative statutes and decisions. (This column, based on Texas law, is written to inform—not advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts because the facts may change the application of the law.)

## "QUO VADIS" RETURNS TO SPUR FOR 2 DAYS AT REGULAR PRICES

In "Quo Vadis," Metro-Goldwyn-Mayer has produced a film that is destined to become a motion picture milestone.

With Robert Taylor and Deborah Kerr heading its cast of thousands, this thrilling story of the birth of Christianity in a pagan world is brought to the screen with magnificent splendor. Etched against the most spectacular of all of history's backdrops, that of ancient Rome in the days of the Emperor Nero, this is the story of a handsome warrior and a beautiful girl who find their love is matched by their devotion to a cause which is humanity toward man.

It is based on the novel by Henryk Sienkiewicz, which headed the best seller list for twenty-five years after its first publication in 1895 and which has been translated into every language in the world. It was filmed entirely in Rome amid the actual scenes of its historic locale. Its spectacular scenes, required more sets (115), including a reproduction of the Circus of Nero and the filming of the burning of Rome; more actors (6,500 in one scene alone); more

props (150,000); more cast principals (110 actors in speaking roles); more animals (including 63 lions) than any motion picture ever made.

So that "Quo Vadis" could be brought to the screen in Technicolor (the first such ever made in Italy), more than 250 tons of electrical equipment was shipped from Hollywood to Italy.

Robert Taylor, most recently seen in "Westward the Woman" and "Devil's Doorway," plays his most colorful role as the Roman warrior, Marcus Vinicius. Deborah Kerr, last seen in "King Solomon's Mines," enacts the lovely Lygia. Leo Genn and Peter Ustinov, both prominent in the English theatre, are cast respectively as Petronius and Nero, with other important roles enacted by Patricia Laffan, as Poppea; Finlay Currie, as Peter; Abraham Sofaer, as Paul; Marina Berti, as Eunice; and Buddy Bear, former heavyweight champion contender, as Ursus, the giant who wrestles a ferocious bull.

## Texas Is Proud of Lyndon Johnson

Texas is proud of Lyndon B. Johnson.

The youthful United States Senator from the Lone Star State is recognized by leaders of both major parties as a fair, intelligent, hard-working legislator.

He has given invaluable support to President Eisenhower on major issues and has opposed the Administration in a constructive way when he felt it to be to the interest of the Nation.

As leader of the Democrats in

the Senate, he has had to be nationwide in his thinking, yet he has been a devoted spokesman for his State.

He has lifted himself and his party above opportunism and partisanship.

He has demonstrated the skill and wisdom that are needed in these critical times.

In every way, Senator Johnson has proven to be a courageous, able leader.

He is young, and will certainly gain in stature as the years pass. Then, as now, Texas will be proud of Lyndon Johnson.

## "SMALL BUSINESS"

By C. WILSON HARDER

At long last Federal Trade Commission has launched a full scale investigation of couponing practices. And in doing so, FTC has invoked seldom used compulsory process to get information from a few huge corporations who have been using the couponing method to drive out independent regional competition.

The background is interesting. In September, 1953, Sen. James Duff, heading C.W. Harder sub committee of Senate Small Business Committee asked FTC to report on course being taken to probe couponing practices.

Of course, the monopoly investigation branch of the FTC has been the heaviest cut, although the agency seems to find plenty of time to read over a half million radio and television commercials annually, even though evidence is strong public doesn't place too much credibility in any non-printed advertising claims.

But for whatever reason Senate Small Business Committee forced FTC was not getting the evidence. The National Federation of Independent Business was asked to gather data.

On the basis of this data Sen. Edward Thyne, committee chairman, called on FTC for action now. In announcing FTC is proceeding on matter, Chairman Edward Howrey stated FTC is being forced to use compulsory processes against several big corporations to get more facts.

The facts about couponing are many. For example, an independent regional soap maker or flour miller, may be doing a fine

job in some metropolitan market to distress of big national operators who even with their huge national campaigns cannot dislodge independent competition.

So these corporations give away their merchandise by mailing coupons to all householders offering a cutprice with the coupon. These coupons are carried at a loss to the U. S. Post Office to every home in area selected.

No independent regional manufacturer can stand this pressure, because unlike the big firm offering a cutprice with the coupon, he doesn't have customers all over nation who are paying for giveaways in a special local market.

In fact, these investigations may establish purchase of a non-metropolitan area are paying an excessive price for these national products to build big corporation war chests needed to knock off independent regional competitors one by one, city by city.

In addition, couponing practice has reached a point where by several large corporations will get together to include coupons for their respective products in one mailing.

Some are enclosing in their packages a coupon good for cut price purchase of an item put out by another packing giant. Thus there appears to be at high corporation level a club which might be called I.J.W.O.I.C. Club, which spelled out means "Let's Jointly Wreck Our Joint Independent Competition."

Start of FTC action against big interests is no guarantee to early successful conclusion.

But on this issue both Senate and House Small Business Committee as well as independent businessmen will be looking over FTC shoulder because survival of independent regional manufacturing is at stake.

Judge Yarborough's record of fairness and understanding exemplifies the Christian way. He began his illustrious career as Assistant Attorney General, serving successively as lecturer on land law at the University of Texas, member of the Board of Directors of the Lower Colorado River Authority, District Judge, Presiding Judge, and one of Texas' leading attorneys in private practice.

Loved and respected by his fellow lawyers, he was selected President of the Travis County Bar Association, Director of the State Bar of Texas, member of the Editorial Board of the Texas Law Review, a member of the Texas State Board of Law Examiners, Director of the National Association of Law Examiners, and member of the American Law Institute.

### VETERAN

A combat veteran with the 97th Infantry Division in World War II, serving under Eisenhower and Patton in Europe and later as a military governor under MacArthur in Occupied Japan, Judge Yarborough won commendations and awards for his services in both theatres of war.

Judge Yarborough is a member of the American Legion, Vice Chairman of a National Committee and Chairman of a State Committee of the Veterans of Foreign Wars. He advocates continuance of all veterans' programs, to include homes as well as farms.

### WORKER

Believing in the individuals' responsibility to his community, Judge Yarborough has been a willing volunteer worker in many community efforts, especially in financial drives for the Boy Scouts of America and other worthwhile organizations.

In 1940 he served as Chairman of the Austin Community Chest Drive and in 1947 headed the Travis County Red Cross Drive.

### A GOVERNOR FOR ALL TEXANS

Hard-working Ralph Yarborough has a clean, honest, progressive record as a public official. His ambition is to be the kind of Chief Executive about whom any Texas can say with satisfaction, "He's MY Governor." He does not regard Texans as groups—blobs—cliques or parts of a political machine, but as independent voters of the greatest state in the nation. Ralph Yarborough pledges not to run for a third term. The Democratic candidate for Governor invites the support of all Texans who believe with him in the time-honored Texas principles of free, honest, democratic government and in the future of Texas.
