**LIBRARY NEWS NOTES**

Your local library committee has been meeting to get everything in order at the library for the opening of school. It was found that a number of books have not been returned. Past due books are a problem for they are not being read, thus defeating the purpose of the local library. Most of these books have been borrowed by young folks who do not realize their responsibility to other people. The committee urges parents to check for these books and send them in before the opening of school.

At the next meeting of the library committee a list will be made of all persons with books more than four weeks past due. This list will be published in the local paper. A similar list will be published at regular intervals to inform parents of overdue books.

**Before You Vote On August 28th Please Consider These Facts:**

- Allan Shivers has always fought for 90 percent and Higher Parity for our crops.
- Shivers successfully supported our gas refund tax which gives you and me 4¢ rebate on every gallon of gasoline we burn on our farms.
- When the Yarborough crowd was trying to procure legislation to declare our underground water property of the State Allan Shivers joined us in giving that crowd a good dunking, and now we own our water.
- Allan Shivers supported and got feed for Texas Farmers in drouth areas and this feed is now available.
- Allan Shivers has at all times supported conservation of our water and soil.
- Allan Shivers has appointed more men in this area to responsible State positions than all other governors in the history of Texas.
- Allan Shivers has helped you and me keep the Yarborough crowd from unionizing our farm labor.
- Allan Shivers carried the box where he and Mrs. Shivers live approximately 11 to 1.
- Allan Shivers carried the box where Mr. and Mrs. Yarborough live 3 to 1. Do a man's neighbors know him better than you and I?
- Allan Shivers put \$32,000,000 into your Permanent School Fund this year by recovering the tidelands.
- Allan Shivers personally went to Washington and fought for and helped obtain additional Cotton allotments for this area this year.
- Allan Shivers is the only Governor in the history of Texas who has had the courage to attack and disintegrate the corrupt political dynasty of George Parr in Duval County—Parr is now actively supporting Ralph Yarborough along with the negroes and CIO political bosses.

The outcome of the August 28th election will largely determine who will run Texas in 1955 and 1956. If Yarborough is elected, Texas will have a "Labor Government" and it will be the opening wedge to let the Northern CIO labor unions take over in Texas. This is the first step toward a labor union for all farm workers. Organization of a farm labor union in Texas is one of the first things the CIO crowd who is supporting Yarborough want.

If Allan Shivers is elected he will continue to keep out of Texas the Northern CIO, PAC, and NAACP. If Allan Shivers is elected we will NOT have a sales tax, and we will NOT have a state income tax. Allan Shivers believes in Texas first. He will appreciate your vote on August 28.

Sometimes we get to thinking that people are different now than they were in the old days. We think that everybody is for "himself" or "dog eat dog" or "Survival of the fittest" until West Texans are put to the test when we find out differently we begin to think of more realistic manner such as "Love thy neighbor as thyself" and all for one".

We had the last two slogans demonstrated right here in the Afton community last Thursday.

Thirty four men and boys lined out in a group to hoe Kelly McAllister's cotton while he lay in the Spur hospital with a serious infested leg and a bad heart. Not a man or boy that helped Kelly would mind to help anyone else if they needed help. The people were proud to do this and it gave them a great deal of personal satisfaction that could not be bought, a satisfaction of being able to help others.

I'm proud to live in a community, county, and state where people are unselfish. We have that community and public spirited people right here at Afton.

## What Was This Call Worth?

"Mommy, can I stay at grandmother's tonight?" That was little Carol's very first telephone call — a real thrill that can hardly be measured in dollars and cents. Yet, Mrs. Caroline Niemeyer, Carol's grandmother, can tell you what that call cost. She is one of a group of customers who kept day-by-day records of calls made for a week — a total of 30 calls covering 133 miles. Then she broke her telephone bill down into the actual cost per call. "I was amazed," she reported, "at how little my telephone service cost for all the convenience and happiness it delivers." SOUTHWESTERN BELL TELEPHONE COMPANY ... ## ELECTION RETURNS ANSWER YARBOROUGH'S CHARGES

The election returns show that Yarborough's wild charges were completely false.

Ralph Yarborough charged that Governor Allan Shivers had made a deal with George Parr for the Duval County votes. The election returns, however, show that George Parr delivered his votes in Duval County to Yarborough, 3016 to 1368, thus branding as absolutely false the charge which Yarborough had made.

GOVERNOR ALLAN SHIVERS  
Election Results in Duval, Hidalgo and Travis Counties are Complete Answers to Yarborough's Charges

Another charge answered by the election returns is the charge that Governor Allan Shivers committed some kind of fraud in a land deal down in Hidalgo County in the Rio Grande Valley. This county, where the land was located, gave Governor Shivers a smashing majority of almost 2 to 1. The voters in that area who knew all about the circumstances of the land deal, what land was involved, what the values were, and what the water situation was were in better position to judge than any other people in Texas. Their great vote of confidence in Governor Shivers completely answers the smears, innuendoes and mud slinging in which Ralph Yarborough indulged, in regard to this transaction.

And look at the returns from Austin and Travis County. This was where the insurance companies were investigated in court, and some found insolvent. This was the county where the insurance commissioners lived. The voters of Travis County knew the facts about Ralph Yarborough's wild charges concerning the insurance companies. They gave Shivers a majority over Yarborough even though Yarborough had lived in Austin over twenty years. And Allan Shivers carried the precinct in Austin where Ralph Yarborough lives almost three to one!

Out here in our county, a long way from the Rio Grande Valley and the State Capitol, it was difficult to tell whether Yarborough was making false charges or not. But these charges have been answered quicker than Yarborough ever dreamed would happen.

These election returns are facts. They cannot be explained away. No wonder the neighbors of Ralph Yarborough, who knew the man and his record, voted almost three to one for Governor Allan Shivers.

## Buick's biggest hit brings you a 3-way bonus

1. You get the car that's in step with tomorrow

From stem to stern, Buick today is styled a year ahead — with long, low glamor lines, with the very look of tomorrow, and with that broad panoramic windshield that many other cars won't have till 1955. Equally important, you get in Buick advanced V8 power, big room, luxurious comfort, the famed Million Dollar Ride — and all for prices that start just a few dollars above those of the so-called "low-price three." Is it any wonder, then, that Buick today is outselling all other cars in America except two of these "low-price three"?

2. You get the car that's a sure high resale value

Buicks have always had a high trade-in value. But the 1954 Buick has an extra advantage in its year-ahead styling. That means your Buick will stay well up in the style parade for years to come — will stay fresh and new-looking well into the future. So you're bound to be way ahead in actual dollars when trade-in time comes.

3. You get a bigger allowance from our volume business

Every month's sales figures this year have firmed this fact: Buick sales are soaring; Buick is outselling all other cars in the nation, regardless of price range, except two of the "low-price three." So with this tremendous volume, we can — and do — offer higher trade-in allowances. Come in, see and drive a new Buick — then check for yourself that our volume business really does mean a far bigger allowance for you.

Come see for yourself why — **Buick Sales are Soaring!**

**RE-ELECT JUSTICE** FEW BREWSTER

Justice Few Brewster of Bell County has served as Associate Justice of the Supreme Court of Texas efficiently, courageously and honestly.

We recommend that the voters of Texas re-elect him to his second elective term in the August 28 runoff.

A disturbing complacency has become notable among the lecturers in this particular race. The dignity of Associate Justice is entitled too often causes lack of interest to a degree which could, conceivably, be determined to our State's highest and most distinguished judicial body.

A look at the record that Justice Brewster is the most eminently qualified man in the race. His entire life - education as well as his professional background - has accented to establishing him as one of Texas' most able jurists. He entered the legal profession in Temple after receiving a Master of Law degree with honor from the University

of Texas in 1916. His legal career has been interrupted only for service as an Army infantryman during World War I.

Justice Brewster's first venture in politics was as Bell County Attorney. He was later promoted to District Attorney and subsequently, to District Judge where he served nearly 13 years before resigning to accept appointment as a Judge on the Supreme Court Commission of Appeals. He became Associate Justice of the Supreme Court when the Court was expanded to nine members in 1945.

Believing that a man is best judged by those who know him best, a testimonial to the esteem Justice Brewster enjoys from the "home folks" in his home county of Bell, was his overwhelming vote in Bell county over two opponents in the Primary Election; Brewster: 9,807, two opponents, 844.

In view of his proven capabilities, we recommend Justice Brewster's re-election to a second term on the Texas Supreme Court.
