Whoa, Now!

By Grady Lackey

Dear Editor,

The comment in your column last week obviously was misleading to numerous patrons of our Spur Schools. To quote directly: "And what will all this amount be to the taxpayer? Briefly and simply it will double school taxes." The school administration has not yet formulated its 1956-57 budget. When it is ready, in September, due notice will be given and a public hearing will be offered. We have roughly estimated that an additional \$10,000 over last year's budget will be needed. You refer to an increase of \$20,000 which was an early pre-mature estimate that has already been reconsidered and revised down to about half that amount. With a new high school building, we will be able to scale this needed increase in maintenance funds because a sizeable amount of it is needed in maintenance of inadequate facilities that would be eliminated if the bond issue carries.

Now, may we consider these approximate figures—If the bond issue carries we will need \$42,000 per year to retire the new bonds and existing bonds (last year we paid approximately \$16,000 on bonded debt). We will need approximately \$62,000 for local maintenance and local fund assignment (state). Last year this total amount was \$52,000.

Last year's total tax collections was \$58,000. If the bond issue carries, along with the other two propositions, next year we must collect approximately \$104,000 (the \$42,000 plus \$62,000 previously referred to). This figure is right at 50 percent increase in taxes, or in other words, half again as much.

In the event the bond issue fails, we will feel it necessary to ask the school board for an approximate \$20,000 increase in operational and maintenance funds, to keep the present school facilities in useable repair.

We are both humble and proud to have been in the service of the Spur Schools when this important matter has come up. Naturally, we strongly favor the bond issue and in one short tenure of service here in the Spur district have come to believe that the people of this school district are sincerely interested in and in favor of a modern, well equipped school plant. Had we not thought such a bond issue is needed and is feasible at this time we would have never taken part in the formulation of the plans for this project.

Respectfully,
B. G. Nolley,
Supt. of School.

Meeting Tonight To Discuss Voting Procedure, New School Tax Set-Up

The voters of the Spur Independent School District will appear or reject a \$500,000 bond issue tomorrow.

If the bonds are approved the district will construct a new, modern high school, agriculture building, stadium dressing rooms, and will make needed repairs at the old high school building and primary buildings. The plans call for the salvaging of the old junior high building.

To approve the building program the voters will have to approve all three propositions, on the main ballot. Proposition No. 1 is for or against the adoption of Senate Bill 116 which authorizes a district to go into bonded indebtedness up to 10 per cent of its assessed evaluation.

Proposition No. 2 is for or against the bond issue and the levying of a tax to pay same.

Proposition No. 3 is for or against the levying of a maintenance tax. This is necessary to assess a total school tax sufficient to operate and maintain the system while the bonded indebtedness is being paid.

These three propositions all appear on the same ballot and will be voted on by legally qualified voters who have rendered either real or personal property for taxation in the school district.

The Senate Bill 116 proposition will be voted on on two more ballots, but for all practicality, the bond issue will be decided on the first or main ballot as it is estimated that over 90 per cent of the poll tax payers will qualify to vote on it.

The three different ballots, and the requirements to vote on each are explained in the Election Notice printed on page 2.

PUBLIC MEETING TONITE

Tonight at 7:30 at the East Ward auditorium a public meeting will be held to discuss the proposed bond issue and the method of voting.

The meeting will also include musical entertainment by Spur students.

Original estimate, as to what effect the bond issue would have on school taxes are now said to be erroneous, by the school administration and members of the school board. (See Whoa, Now!)

Supt. B. G. Nunley states that the exact tax rate or the exact assessed value cannot be determined until September. However, it is pointed out that on a \$7,500,000 assessed evaluation only a 60c tax rate would be necessary to retire both the old indebtedness and the \$500,000 to be decided tomorrow.

An additional 80c to 90c rate will care for the other expenses, giving the district a total tax rate of \$1.40 to \$1.45 on an assessed value of \$7,500,000. Last year the rate was \$1.25 on an assessed value of \$5,000,000. Overall this will amount to an approximate 50 per cent increase in school tax. (Earlier estimates were that the bond issue plus additional operational and maintenance costs would double school taxes.)

Voting will be held at the City Hall in Spur.

SCHOOL BOARD ELECTION

The deadline for filing for a place on the Spur Independent School District trustee election ballot passed Tuesday with only two candidates filed.

They are incumbents, Jay Austin and Lloyd Hindman. Two are to be elected on April 7.

A large turnout at the polls is not expected.

Meet In Dallas

Spur was represented at the Northwest Texas Methodist Conference Woman's Society of Christian Service annual meeting held in St. John's Methodist church in Dallas, Wednesday, March 14 through Friday, March 16.

Suits 7th, Ronnie Hill 8th, Marshall McCallister 12th, Bob Johnson 20th.

All the boys got from 30c to 40c for their lambs.

Berkshire Hogs—Ronnie Hughes 2nd, Jennings Long 4th, Dale Williamson 5th.

Spotted Poland China—Jennings Long 15th. The boys hogs brought from 21c to 31c.

Light-weight Angus Calf—Bob Johnson 6th.

Heavy Angus—A. C. Alexander 11th.

Medium Angus—Don Holloway 24th.

All the calves brought 28c.

The Spur FFA chapter sincerely appreciates the bids of the following merchants who bought much of the livestock shown by the local boys:

Godfrey Motor Co., Spur Security Bank, Rickels Chevrolet, Gabriel's, Edwards-Kelley, Farmers' Gin, Godfrey Furniture and City Drug.

Plans Set Up For Little, Pony League

By Billy Bigham

The Spur Softball League is no more. At a meeting held by the league officials Tuesday night it was decided to abandon softball in regular scheduled league play.

The motion, made by Ernest Kearney, was to discontinue the Softball League and organize the Spur Baseball League. It carried unanimously with a provision that if a City Softball team be formed it will be supported by this group.

The Spur Baseball League will have four teams playing Little League, and four teams playing Pony League.

The new commissioners are Kearney, T. B. Watson and Bob Johnson. These were picked by a nominating committee composed of Buddy Hoover, Kearney, Tom Green and Bob Conner. A vote from about 100 people in attendance elected these commissioners when no further nominations were made from the floor.

Sponsors are now being sought for the Pony League teams.

Registration has been set for Tuesday, April 10, at 7:30 p. m. at the high school study hall. Drawings will be made by each manager to secure boys for his team. Little League includes boys through 12 years of age, and Pony League will be boys 13 through 15. All boys desiring to play baseball are urged to attend registration night. If this is impossible, Supt. Nunley states that they will register a boy at the Spur school that he attends.

This is one of the finest summer training programs ever attempted for the youth of this community.

Mothers and fathers should get behind the Spur Baseball League and help in every way possible to make it a success.

Respectfully,
B. G. Nolley,
Supt. of School.

The following are a few quotations from a letter received from Mrs. Agnes Marrs, former H. D. Agent of Dickens County: "Floy, Jack, Jackie, Cre, Kathleen and all the family-in-law, and grandchildren, wouldn't it be wonderful to be together again—Florence, Reese, Penny and Frank. How I would love to see all of you-in-laws and babies. In a flash I am back in the chair before the big fireplace waiting for the delicious dinner—Georgia, Olen and family, our dear days together, ice cream on a hot summer night in the yard. So much of our 3 years there flashes through my memory and I am with my friends again, Mrs. McNeill and Tyler roses."

"I recall my friends at Afton, Lila and Clark Forbis, the Byron Haney's, Goodwins, Avaras, so many others. The Lasseters' One day when it snowed all day I went on out to their house for the Dry Lake Club meeting. I was the only one so foolish as to be out—cozy fire, delicious coffee—all the beautiful things you did, your boy. The Dopsons, Bass's, Mrs. Lasseter. Tell me about Powells, McMahan's."

Rev. M. J. Marton of Roby will preach at Forman Chapel Church, Sunday, April 1. Sunday school will start at 10 o'clock. Everyone is cordially invited to hear Rev. Marton, who is the former pastor.

Ready-Thrilling—and STABLE!

Dual Stabilizer Action doubles your riding comfort!

SOLID . . . STEADY . . . STABLE! That's the feel of Oldsmobile's ride for '56! The dual stabilizer action of Oldsmobile's Safety-Ride Chassis gives you a new sense of control and security . . . doubles your riding pleasure!

This is no "shock-and-roll" ride! Stabilizer bars, both front and rear—part of Oldsmobile's sturdy six-point suspension—keep you "rooted" to the road, even on the sharpest turns. The extra-heavy, extra-rigid frame resists twisting and bounce. This accounts for Oldsmobile's handling stability. And when you add the "muscles" of a host of power features, you have the ultimate in motoring ease.

RATE THE ROCKET ON THE ROAD! This ride's got plenty of "get-up-and-go", too. The 9.25 to 1 compression of its Rocket Engine means swift, fleet acceleration . . . power to spare. And Jetaway Hydra-Matic*, with two fluid couplings, provides a whole new measure of smoothness.

ONE LOOK and you know . . . Oldsmobile's styling is as advanced as the mechanical features. Look, for example, at the "Intagrille" front bumper. It's two bumpers in one for extra-depth protection and new beauty. We have an Olds ready for you—plenty willing . . . mighty able! See it! Drive it! At our showroom, today!

Solid Foundation for That Smooth Rocket Ride!

NEW SAFETY-RIDE CHASSIS for easier handling—superior roadability!

It's built to handle the high horsepower, high torque of the Rocket Engine! Rugged frame has an I-beam center member and 5 cross members riveted and welded into a single unit.

KIRK DOUGLAS PRODUCES STARS IN "THE INDIAN FIGHTER" AT PALACE

The "Indian Fighter," starring Kirk Douglas in the title role, also marks Kirk's bow as an independent producer. Bryna Productions, sponsor of the film, is Kirk's own company.

A stirring yarn of covered wagon in the bloody Indian wars of the 1870's, "The Indian Fighter" was filmed in CinemaScope and color on location in the wilds of Oregon. Co-starred with Kirk are Walter Matthau, Walter Abel and Elsa Martinelli, beautiful 20-year-old Italian discovery who makes her film debut as of all unlikely things, an Indian princess. The large featured cast of "The Indian Fighter," which opens Sunday at the Palace Theatre includes such players as Lon Chaney, Edward Franz, Alan Hale, Elisha Cook and Ray Teal.

Following the current Hollywood fashion of filming on location, "The Indian Fighter" was shot in its entirety in the actual Oregon Trail site of its story.

The two women who vie for Kirk's affections in "The Indian Fighter" are Diana Douglas and Elsa Martinelli. Miss Martinelli

is an import from Italy. Miss Douglas is Kirk's ex-wife. A top fashion model in Rome and New York, the twenty-year-old beautiful Elsa Martinelli makes her debut in "The Indian Fighter" in the role of Onahiti, daughter of an Indian chieftan. Diana Douglas plays the role of a widow with designs on Kirk. She was signed for the role as Kirk put it—"ex-wife or not, because she's a darn good actress and perfect for the part."

CAN YOU IDENTIFY THIS MYSTERY FARM?

This aerial photo is another in a series taken of farms in the Spur area for Rickels Chevrolet Co.

Nobody knows whose farm the aerial photographer snapped... so it's up to the readers of this paper to identify the "Mystery Farm".

If you can identify the "Mystery Farm" (whether it's yours or not) please write, phone or come to Rickels Chevrolet Co. The first one to correctly identify the farm will receive, with our compliments, two passes to the Palace Theatre and a one year's subscription to the Texas Spur.

The owner of each week's "Mystery Farm" will receive absolutely free a beautiful mounted photo of his farm by calling at the Rickels Chevrolet Co.

We invite you to watch for our "Mystery Farm" each week. The operators of the "Mystery Farms" will be announced in the following edition of The Texas Spur.

TO THE VOTERS OF SPUR:

Lloyd Roberson has announced his candidacy for the office of city alderman. He is forty six years old and has been a resident of Spur for twelve years. We need some of the younger blood of Spur in our city council, some one with progressive thinking and modern ideas. Mr. Roberson has no pet peeves nor any axes to grind. Let us elect a man of his type to office on April 3.

TELEPHONE TALK
by J. C. O'Neil, Manager

Telephone Growth Boosts Prosperity

Here are some facts about what's behind your telephone, what it takes to meet the needs of people all over Texas for telephone service.

Last year Southwestern Bell spent \$91 million on new construction and \$150 million for day-to-day expenses in Texas. In one way or another, nearly everyone in Texas benefited from this expenditure to keep your service going—and growing.

One result, we hope, was the best telephone service you've ever enjoyed. Another result, we are sure, was a healthy boost to the prosperity of the entire state.

For example, \$104 million (one of the state's largest business payrolls) went into the pockets of 26,000 Texans who work for the telephone company. And most of this was spent in communities like ours for all the many goods and services which local merchants and businessmen provide.

How Others Benefited From Telephone Activity

Another \$1,500,000 went to Texas service stations and garages to help keep the company's fleet of 3,529 trucks and automobiles rolling. This included the cost of 2,919,880 gallons of gasoline, as well as tires, accessories, repair parts and \$500,000 in direct labor costs.

Three hundred twenty-six Texas automobile dealers profited from the sale of 589 new trucks and 110 new automobiles to the company.

Those in the building industry were paid \$7,500,000 for their work on new buildings, additions, and major improvements. New building activity alone involved 254 different contractors directly and provided enough work to keep 4,500 skilled carpenters, bricklayers, plumbers, electricians, and other craftsmen busy full time for a year.

In addition, we paid \$4,665,000 to independent contractors for jobs ranging from tree trimming to laying underground cable conduit.

Another \$2,618,000 went to local suppliers of office furniture and fixtures, printing, office supplies, and the hundreds of sundry items to carry on our business. And \$840,000 additional went to local people and firms outside the company for building maintenance and odd jobs, ranging from window washing to trash handling.

'56 Construction to Break All Records

This year's construction program will add up to \$106 million, the largest in our history.

Many long months of planning and engineering have gone into this 1956 program. It is based on the company's faith that the Texas communities we serve will continue to grow and prosper—and on our ability to attract more, new investment dollars from outside the business.

To meet your needs for more and more telephone service, we must depend on finding people in all parts of the country who are willing to invest their savings in our business.

So, you see, one of the very important factors of good telephone service is the faith of investors that their savings can earn a safe and reasonable return in the telephone business. Another is the public's faith in us as one of the state's most necessary citizens, an important contribution to continuing prosperity.

TO THE CITIZENS OF SPUR

It is with extreme pleasure and gratitude that I announce to the citizens of Spur that at long last your new Enterprise engine is in full operation at the light plant. You will be glad to learn that, for the past four weeks, it has been carrying the full load of the City. During these four weeks it has generated more than 175,000 kilowatt hours.

The new engine has undergone repeated tests using fuel oil only and dual fuel (a mixture of fuel oil and propane) and has performed satisfactorily on both types under full rated load conditions.

Economy was one of the prime requirements for the new unit. All tests indicate that fuel and oil economies are up to specifications and should effect savings of at least \$10.00 per year over previous operational costs.

For a period of time, while the floor of the plant was torn up and other hazards to safety existed near the engine, we did not encourage visitors to come into the plant. Now however, the new floor is in and, except for a few minor adjustments, the installation is complete and we invite everyone to visit and inspect the new engine and plant.

The \$12,500 which the Enterprise Company refunded the City of Spur some time ago well repays us for the inconvenience the engine's earlier failure caused, and we wish to express our deepest gratitude to the Company for sending its own men here to correct the trouble without expense to the City of Spur.

I feel that we are fortunate to have such an engine in our plant and I am sure you will agree with me when you have seen it perform.

Please do see it soon.

All the big guns will be trained on Pappy O'Daniel in the Governor's race for next few months. That old boy is a "tear jerker" and will perhaps be the candidate to beat, and may win again with a run-off.

IT'S THE LAW
★ *TEXAS* ★
A PRACTICE COURSE
OF THE STATE BAR OF TEXAS

What happens if...? In this unpredictable life of ours, it is the law's business to take a long look into the future and at what would "happen if". For in your contracts, leases, wills, insurance policies, escrows, and the like, you had better say what would "happen if" some of your best laid plans go awry. Such events the law calls "contingencies". Who gets the "earnest money" you put down, if you cannot go through with buying that house? What if you want to pay up that loan and save interest? What happens if a partnership goes sour, or a partner gets sick or dies?

Friday. Mr. and Mrs. Francis Gunter spent the week end in Seymour with Mrs. J. B. Warrent and other relatives.

Mr. and Mrs. Harold Gunter arrived here Sunday to spend his leave with his mother, Mrs. Joe Duran, and Mr. Duran. They are just home from Germany, where he spent two years. He will be stationed at Skaggs Island, California. C.T.C. Gunter is in the Navy and is a native of Roaring Springs.

Mrs. Cora Duncan of Spur is house guest of her daughter, Mrs. Jack Prather, and Mr. Prather. Mrs. Lois Smith and Folk Cooper visited at Lockney, Sunday with Mr. and Mrs. Bobby Tiner.

Mr. and Mrs. H. L. Goodwin visited in Lubbock, Sunday with Mr. and Mrs. W. A. Campbell.

Mr. and Mrs. J. E. Jones and daughters, Jackie and Pamela, and Larry Robinson of Lubbock were Sunday guests of Mr. and Mrs. C. L. Sedgwick.

Mr. and Mrs. Mid Long of Lorenzo and granddaughter, Miss Shirley Davis, of Lubbock were here Saturday visiting with Mr. and Mrs. Jack Davis and Ronny

What happens if the people you name in your will should die before you do, or, if you all perish in a common catastrophe like a car smashup?

The law is wise but it cannot do your thinking for you. It settles such questions—but not always to your liking. If you don't make a will, the law says you shall get your property. If you leave certain things out of a contract, the law assumes, that you meant to put some certain things in. But how much better it would be in the first place to put them in the way you want them, by asking "what if?".

Take your will now: Your first desire, of course, is to take care of your wife and children—those nearest you. But it won't hurt anything to put "contingent beneficiaries" in your will in case something happens to thwart your first intentions.

Review your will every year or so to see if it meets the new things that have come up, or arrange with your lawyer to write in "contingent beneficiaries"—those who will receive your property if your first beneficiaries should die before you.

You may long ago have had your son provided for in your will, but what about those lovely grandchildren he and his wife have presented to you since you

write the will? What would happen to them if things go wrong and your son should die before you?

Or take your widowed sister and her children now. Suppose your son and your immediate family should be wiped out: Would you want your property to go equally to her and your well-heeled bachelor brother? Or would you prefer to leave your brother some token of your affection, and then really take care of your sister?

You may be impatient with the law's long memory. Such things never happen, you think, but the court records are full of plans which failed. And so the law has ways in which you can provide for "what happens-if." One way is the device of contingent beneficiaries in your will and insurance policies.

The DHIA program, now in its 50th year, has proved to be an effective tool and source of information for managing the dairy herd. R. E. Burleson, extension dairy-husbandman, reports a growing interest by Texas dairymen in improving their operations through better herd records.

Producing pasture plants remove plant food from the soil and unless the losses are replaced, production and quality of the forage drop, says E. M. Trew, extension pasture specialist.
