## Whoa, Now!

By Grady Lackey

Hey, kiddos, tomorrow's the big day! The swimming pool will open at 2 in the afternoon!

We congratulate the City Council and Bill Gregory and James Jay and their crew for the fine job they have done in cleaning, painting, and fixing up the pool for this summer. We feel safe in saying it looks as good, if not better, than it ever has during our eight years in Spur.

And a note to the youth of the area—The Spur pool is yours to use and enjoy. The extras added this year, including the ping pong tables, shuffle board sets, etc. are there for all of us to use and enjoy.

Let's show the city officials and Mr. Jay and Mr. Gregory that we really appreciate these extra facilities for recreation by really taking good care of them and making them last all year for everyone to enjoy!

Election day is just 12 days off and still no active campaigning for any candidates.

Do any of us visit the sick and shut-ins as often as we should? It's surprising how much those who are more or less shut off from the daily visits, conversations and fellowship around the neighborhood, on a picnic or up and down Burlington appreciate a little word of greeting or a card or a bouquet.

Let's all vow to add cheer and hope to the life of some shut-in or sick friend by paying them a visit or sending them a little something to show our remembrance this week end.

Not just because we mentioned it, but just because it's what you've been meaning to do and meaning to do for a long time now.

Occasionally we run into words that just won't—or at least don't seem to—fit. In Marie Lewis' story this week about her sewing classes we ran across "sewers" as meaning ladies who sew! A quick bit of mental editing re-wrote the sentence.

Here for the week end and a little trout-fishing spree is the senior partner in the local newspaper firm, Mr. H. G. Lackey, and Mrs. Lackey. While us men folk are up after the trout with Bob Nunley, Lester Ball and Sam Hawkes, "Mamah" Lackey will be here riding herd on the third-of-a-dozen little Lackses.

## 314 REGISTER AT 8th ANNUAL PEACE OFFICERS GATHERING

There were 314 who registered last Thursday at the eighth annual meeting of the Caprock Peace Officers' Association at the Wood Ranch.

The attendance set a new record at the barbecue which had its origin in 1949 when six men gathered at the ranch for a feed. The old record was set last year at 287.

Sen. A. M. Aikin of Paris, candidate for lieutenant governor, was principal speaker at the meeting which was attended by law officers from throughout the West Texas area.

The program started with a parade at 10 a. m. led by the Dickens County Sheriff's Posse. After a big barbecue dinner and numerous domino, checker and washer games, the group participated in the annual shooting event climaxed by the rattlesnake rodeo.

Texas Ranger Gene Graves of Lubbock, and an Abilene Deputy Sheriff, Bill Davis, tied for high point honors in the target events.

### T. C. Ensey Named Winner Of Ford

T. C. Ensey of Spur was named winner of the new Ford given a way last Thursday night at the Palace Theatre by 21 Spur merchants.

Tickets for the drawing were distributed by the merchants over a ten-week period.

Many attending the big gathering here Thursday report that it was the largest crowd ever in Spur for such an occasion. J. D. McCain, manager of the Palace Theatre, says it was the largest crowd ever assembled at the theatre.

Ensey, the winner, came to Spur as a Bryant-Link employee over 30 years ago. Presently he is owner and manager of a small local dairy. He is a member of the Masonic Lodge and is treasurer of the Spur First Methodist Church.

He had previously registered at the theatre for the event and was at lodge meeting when his name was called. He was immediately summoned and entered the theatre in time to be presented with the keys to his new Ford by W. F. Godfrey, local Ford dealer.

Other judges for the drawing were S. C. Reynolds and Joe Long.

Visiting their parents, Mr. and Mrs. S. T. Battles, is a son, Mr. and Mrs. R. C. Battles and daughter, from Bolder and a daughter, Mrs. Mary Stone, of Miami, Florida. The length of their visit will depend on the health of their mother, who is a patient in the Spur Memorial Hospital.

This new Chevrolet will be a boon to Carol, as she had planned on using the family car to commute to classes in Lubbock this summer.

Carol's statement to the press was "I know I am the happiest girl in the world with this gorgeous new red and ivory Chevrolet. I have chosen one that will be in style anywhere in the world and bring me much joy and happiness. From the bottom of my heart, I want to thank Chevrolet Division of General Motors, Mr. Rickels, and my many wonderful friends and neighbors in McAdoo who have been so sincere in wishing me well."

## Pool Opens Tomorrow

### Spur Sports . . .

Last Saturday night at Jones Stadium the fans witnessed two closely fought ballgames.

In the Little League, Hubert Howell's Rickels Chevrolet team and James Gordon's Rotary Club team played to an 18-17 score with Rickels out on top at the end of five innings. Rotary had a rally started in the fifth inning with nine runs batted in. Who knows what would have happened if time had not run out!

The Pony League game between Tom Green's North Side team and Dean Watson's K. P. Lodge proved to be one of the better ballgames played so far this season. It was also decided by one run. North Side had eight runs in the third inning and K. P. came up with seven runs in the fourth. Time was called at the end of four innings. North Side 13, K. P. 12. Greer pitched a fine game for the North Side, while K. P. used three pitchers, Gordon, Gabriel and Kidd.

## H.A.C. Brummett Announces For District Attorney

It is with sincere belief that the people of this Judicial District do not believe that the District Attorney's office should be considered the personal property of any one man that I announce as a candidate for District Attorney. The present District Attorney has been elected to the office for five successive terms and is now seeking a sixth term, which will assure him of fourteen years in this office. Upon completion of his present term, he will have received approximately \$60,000.00 in salary and expense allowance; if elected to a sixth term, he will assure himself of another \$30,000.00 in salary and expense allowance.

If you good people feel that after ten long years in this job, the present incumbent is entitled to a rest, then I would like to work for you. If it is a good thing, it should be passed around; if it is not, then he should be relieved of the burden.

As a lawyer with many years of experience in the vital civil and criminal cases, I have always been zealous in representing the interest of my client in keeping with the highest code of ethics of my profession. If elected District Attorney, the people of this District will be my clients, and I will be equally zealous in representing their interests. I have always considered it unfair for a District Attorney to take advantage of his office to practice civil law and represent vested interests such as the Southwestern Bell Telephone Company and insurance companies. Too often these large corporations are buying the prestige of the District Attorney's Office rather than employing a See **BRUMMETT** — Page 5

## YOUNGER FARM AT ELTON IS LAST OF M-F SERIES

The Mystery Farm, shown above and published recently by Rochels Chevrolet Company, is known as the old Younger Farm. The Youngers bought the place many years ago and worked until his death a few years back. Mrs. Younger still owns the farm but it is now being worked by Millard Byrd. It is located two miles northeast of Elton.

Byrd and his wife, the former Miss Carolyn Brooks, have one child, Stephen Wayne, age 1 1/2. They are members of the Baptist Church and moved onto the Younger farm this year. The place is a dry-land cotton farm.

This is the final Mystery Farm of a series of fifty sponsored by Rochels Chevrolet.

The Younger farm was correctly identified first by Mrs. Maurice Goodwin of East Afton who received two passes to the Palace Theatre and a year's subscription to the Texas Spur. Others to name the farm were John L. Green and Weydell Nuffins.

**GIRARD NEWS**

By George Darden

(Editor's Note:—The views and opinions expressed in this column are those of Mr. Darden and do not necessarily reflect those of this newspaper.)

Rev. Allison, Hardin-Simmons U. senior, preached at the Girard Baptist Church Sunday in the absence of the pastor, who underwent surgery in the Spur Hospital last week.

Mrs. Wade Wright received word last week that her mother, Mrs. George Rucker, suffered a broken leg in a fall at her home in California. Mrs. Rucker was a longtime resident of Kent County before moving to California ten years ago. Letters and cards from her friends would be greatly appreciated during her confinement in the hospital. Her address is Mrs. G. P. Rucker, Mercy Hospital, Room 430, Bakersfield, California.

Miss Jimmie Lee Morrow is visiting her grandmother in Amarillo.

Sorry, but Miss Alfreda Taylor's name was left from the list of seniors who graduated from Girard High this year in last week's Spur and Jayton papers.

Bobbie Ted Gallagher of Carswell Air Force Base, Ft. Worth, was home over the week end.

D. J. Williams, ex principal of Girard High and who has accepted the job as principal in Gold-wathe school, visited in that city Friday. The Williamses will move to their new home within the next couple of weeks.

Robert Davison from Ozona,

Texas was visiting his parents, Mr. and Mrs. Lum Davison, over the week end.

Al Timo, Cisco Junior College student, has been employed by an oil well supply company in Odessa for the summer months.

Jimmy Sherer is visiting this summer in Irving, Texas with an aunt and uncle, Mr. and Mrs. Cecil Thompson.

It appears that "wedding bells" will soon be ringing in this community, judging from the flash of diamonds on the fingers of some of the local young ladies.

Mrs. Phillips, sister of Rev. R. M. Parsley, is visiting in the Parsley home.

Mrs. George Smith is visiting in Brownfield with her mother, who is ill.

Mr. and Mrs. Ted Gallagher are announcing the birth of a granddaughter.

Word has been received by the George Dardens that their daughter, Mrs. W. A. Pickron, and children will arrive in Abilene from Germany June 10. The Pickrons have been in Germany for the past three years. The son-in-law is Major W. A. Pickron, Jr., commander of the 525th Fighter-Insp. Squadron in Germany, U. S. Air Force.

While removing a saddle from a bronc horse last Friday afternoon, a wasp, or often called a yellow jacket, swooped down from a clear blue sky and stung ye ole scribe on the left ear. That sent him to the hospital. After a couple of injections in the arm and a lot of pills, he is again on the

move. Supt. M. H. Galbreath returned last week from Austin where he has been on business.

This community was blessed with good rains last week ranging from 3/4 of an inch to over two inches. The best prospects in years for a crop.

Mr. and Mrs. D. J. Williams were honored with a going-away party sponsored by their Sunday School class Tuesday night in the home of the George Dardens. Games of 42 and dominoes were enjoyed by a large crowd. Homemade ice cream and cake was served to the group.

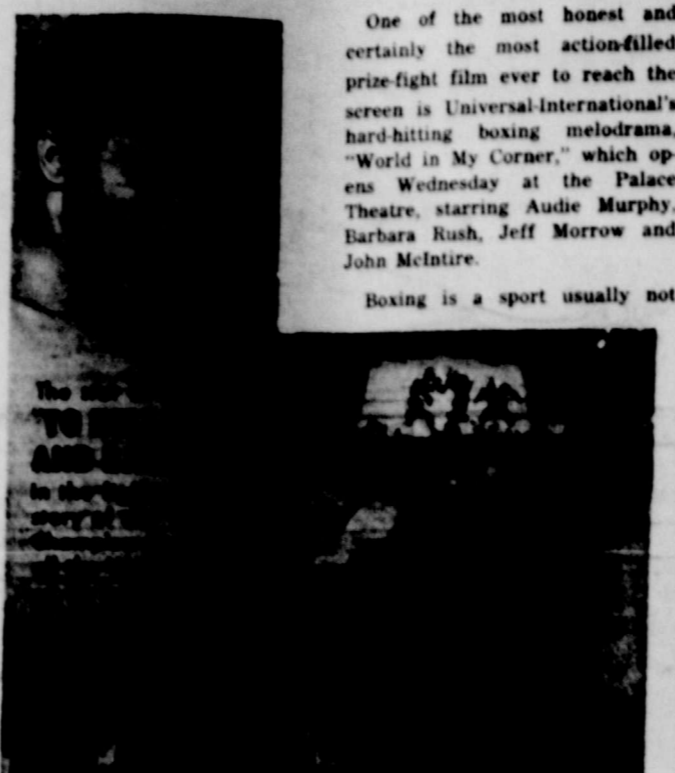

The Glenn Spradlings home was the scene of some hot domino games last Saturday night when three local couples surprised the Spradlings with a visit and their dominoes.

Rev. R. M. Parsley is recovering nicely from surgery he underwent in the Spur hospital last week.

Folks in the neck of the woods were glad to see in print in the Jayton Chronicle last week just where and how the tax payers money is being spent. There must be a lot of travel in and out of the county at "fifty bucks" a throw, according to the report.

See in the minutes of Kent County Commissioners Court where as A. C. Cargile made motion and duly seconded by W. R. Rogers that the Court advertise for bids to rebuild the first floor of the old Court House in Clairmont. We understand that same is for a community center or recreation building. That being the case, we see no good reason why

Girard community should not be granted an equal sum of taxpayers money for same purpose.

**World in My Corner**  
in the new motion picture, "World in My Corner" shows the game in a new night as it traces the life of boxer Tommy Shea, excellently portrayed by Audie Murphy, from his youth in the slums of New Jersey to his position of world champion welterweight.

Jeff Morrow is tops as a millionaire meddler in the lives of his associates, who nearly upsets Audie's ideals and almost succeeds in destroying the life of his lovely daughter, Barbara Rush, Miss Rush, as the girl who at

One of the most honest and certainly the most action-filled prize-fight film ever to reach the screen is Universal-International's hard-hitting boxing melodrama, "World in My Corner," which opens Wednesday at the Palace Theatre, starring Audie Murphy, Barbara Rush, Jeff Morrow and John McIntire.

Boxing is a sport usually not

first scorns the young fighter, then learns to love him, is talented and appealing in one of her first "modern dress" roles in some time.

Boxing scenes in the film are as technically perfect and exciting as any ever filmed, probably due to the fact that a host of real-life fighters are in the cast. Chico Vejar, Art Aragon, Cisco Andrade and Baby Ike are among these professionals.

Also standing out in top roles are John McIntire, Tommy Rall and Howard St. John.

**BLUESTONE CLEARS TANKS AND PONDS OF SCUM**

Bluestone offers a remedy to green scum forming on troughs, reservoirs or ponds. Bluestone in the right mixture, with correct precautions will remove scum with no harmful effects on fish or livestock.

The best way to avoid scum is to put a cover or roof over water to keep out sunlight. Water protected from sunlight will not support scum, says M. K. Thornton, extension agricultural chemist, and W. L. Ulich, extension agricultural engineer. But, they add, it is not always possible to cover all water.

In such cases, it is advisable to use bluestone. Safe dosage is a pound of bluestone per million gallons, 1 ounce per 2,000 gallons, or 1 level teaspoon per 1,000

Mr. and Mrs. Kenneth Coursey have moved to the Ola Miller place south of Dry Lake church.

It is dissolved. In small tanks, scum may be prevented from re-forming by placing pieces of copper sheets or shavings in the water, say the specialists. This is done best by nailing copper sheets on wooden posts set in the tank. This will be effective for a long time unless the copper becomes covered with dirt and slime, they add.

Ponds should be treated one end at a time if it contains skin-fish such as catfish. This allows the fish to escape concentrated areas near the boat. Scale fish are less sensitive.

Complete information may be obtained for the use of bluestone by asking local county agents for L-55, or by writing the Agricultural Information Office, Texas A&M College, College Station, Texas.

Merchandising methods for most food products have undergone radical changes within the past few years, but in the case of eggs, F. Z. Beamblossom, extension poultry marketing specialist, says not many new approaches have been used to inform consumers about egg values at the retail level. Do you know the food value contained in a pound of eggs or how many eggs are required to weigh one pound?

**BRUMMETT — From Page 1**

It is unfair to the other lawyers in the District who must earn their living from their private practice without being subsidized by a salary such as the District Attorney draws, and it is unfair to the people, because many times the duties of the office are neglected in order to serve private clients. You can not serve two masters, and for that reason I HERE AND NOW PLEDGE TO THE PEOPLE OF THIS DISTRICT THAT IF ELECTED DISTRICT ATTORNEY I WILL NOT ENGAGE IN THE PRIVATE PRACTICE OF THE LAW. I will devote all of my time to the duties of the District Attorney's office and be available at all times to talk with and counsel the peace officers and other citizens who are interested in fair and impartial law enforcement.

In order that you might know something of my background, I would like to make a few brief statements of a personal nature. I have lived in Dickens County for 41 years and practiced law for 27 years, having served as County Judge of Dickens County for 6 years. As a trial lawyer, I have actively participated in the trial of many cases all over West Texas, and I invite a comparison of my trial experiences and ability. My first wife passed away in 1951. We had four fine children, three boys and one daughter. My oldest son, Carlos, is in business in Lubbock, Texas, is married and has two children.

His wife teaches in Lubbock Schools. My second son, Winston, is a lawyer in Lubbock, Texas. He was formerly County Attorney of Dickens County, Texas, and is now a partner in the law firm of Brummett & Kimmel. He is also married and has four children. My youngest son, Dudley, is also a lawyer. He was County Attorney of Lubbock County, Texas, for two terms and is now serving his first term as County Judge of Lubbock County. He is married and has two children. My daughter is now Mrs. Ross Q. Smith and lives in Dallas, Texas. She is married and

has four children. Although my children came up through the depression, I am proud of the success they have made.

Two of my four sons were in World War II, and Dudley was a bomber pilot. His plane was shot down while on a bombing mission over Germany, and he was a prisoner of war until liberated. I have always tried to be of help in all community matters wherever I lived. For years I served as a member of the Dickens County draft board under appointment of President Roosevelt and President Truman. For six years during the depression I served as United States Conciliation Commissioner for Dickens, Kent, King and Garza Counties and helped distressed farmers who were threatened with foreclosure. I am a member of the Methodist Church.

In 1953 I married Mrs. Harriette Hatcher, a fine lady, who is now County Home Demonstration agent in Floyd County, Texas. Prior to serving Floyd County as Home Demonstration Agent, she was Home Demonstration Agent in Dickens and Yoakum Counties. We now have her 18 year old daughter in college. We have lived in Floyd County, where I am actively engaged in the practice of law, since May of 1955.

This district is composed of Floyd, Briscoe, Motley and Dickens Counties, and I hope to see each voter of the district personally. However, if I fail to have an opportunity to see you personally, I hope you will take this as a personal solicitation for your support, and I will deeply appreciate your consideration.

Sincerely yours,  
H. A. C. Brummett

**Marriage Does Not Change Property Ownership**

June is traditionally the month for weddings, and many couples will be taking marriage vows within the next few weeks. But, while a certain symbolic transfer of "worldly goods" is often associated with the wedding ceremony under Texas law, the act of marrying another does not give you the authorization to take control of his property.

Generally speaking, each spouse has the right to control and dispose of his or her own separate property. The separate property of a husband or wife includes property owned either before marriage, and that which is acquired by either after marriage by a gift or inheritance. Any other property acquired after marriage is presumed by law to be community property until the contrary is clearly proved.

Aside from the ordinary community estate, there is a class of property known as the wife's "special community," which includes all the income from her separate real property, and probably the interest on bonds or notes, and dividends on stocks owned in her separate right. While the husband may have similar assets, the law accords them no particular distinction from ordinary community property.

Although the history of the matter is somewhat confusing, it appears that under present day law the husband has control of ordinary community property, but control of the wife's special community property is reserved to her.

Certain restrictions are imposed upon both husband and wife

in exercising such control. For instance, the husband cannot legally dispose of community property in such a way as to defraud the wife, nor can he sell the home steed without her signature and acknowledgment. And the wife's sale or mortgage of her separate real estate, stocks or bonds is not valid unless her husband joins with her in the transaction—he must sign and execute the necessary legal papers along with her.

There are laws exempting the wife's separate and special community property from liability for debts incurred by the husband. Such liability is restricted to his separate property and the ordinary community property.

On the other hand, debts incurred by the wife in obtaining necessities for herself or the children bind all property belonging to either party, including the husband's separate property. For other debts which she has power to incur, only her separate and special community property are liable.

All of these distinctions emphasize the advisability of keeping proper records. By doing so the various classes of community and separate property owned by a married couple will always be easily distinguishable. Each category will then receive the special protection afforded to it by our laws.

(This column, based on Texas law, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts, because the facts may change the application of the law.)

## TELEPHONE TALK

by J. C. Oakley, Manager

### "SERVICE WAS NEVER BETTER"

Some time ago we mailed out post cards to all our customers in Spur. If you'll remember, we asked you in the post card what you didn't like about your telephone service.

Maybe some of you were surprised that we would ask a question like that. But we meant it. We weren't asking for compliments. We did it to find out what you really thought about telephone service here.

When the cards came back with your answers, we were happy to see that most of you said, "Service is very good, well satisfied with it." And it was good hearing it from you, because we'll all admit that nobody knows more about your service than you do.

We also got a few complaints—thanks for telling us about them—and we tried to clear those up in a hurry so that everyone in Spur would be satisfied with their telephone service.

Meanwhile, don't hesitate if something's bothering you right now about your telephone service. Just call the telephone company. We'd like to know about it—and we'll try to do something about it, too.

### STOP THOSE HURRIED DASHES

Ever notice how you run for a ringing telephone because you're often in another part of the house? Then, when you get there, you're probably a little out of breath as you answer.

The best way I know of to stop those dashes through the house is a handy extension telephone.

Our records show that the most popular spots for an extension with most people are the bedroom and kitchen. But don't forget the living room or the workshop—or anywhere, really, that's most convenient for you and your family.

To order an extension, just call the telephone company. The cost of an extension in your home is only \$1.00 a month, plus a one-time installation charge of \$1.75.

### LONG DISTANCE VISIT

I was thinking just the other day that you can't drive a car from Spur to Lubbock for 50 cents. Yet you can visit there—by Long Distance—for just 50 cents.

That's the cost of a three-minute station-to-station call, after 6 p. m. and all day Sunday. Long Distance rates to anywhere are much less than you might think. So plan to visit regularly—by Long Distance. And when you call, remember to call by number—it's twice as fast.

\* Both figures to be same as Long Distance rate.

Call by number. It's twice as fast.
