SPUR, DICKENS COUNTY, TEXAS

THURSDAY, JUNE 21, 1956

NUMBER 35

Whoa, Now!

By Grady Lackey

It's very encouraging and inspir ing to see our local politicians, both city hall breed and drug

store breed, take on a new atti-

tude of cooperation and harmony titude to the extent that it is ac tually put into practice in regard of the true potential of this com

Possibly, after all, Spur folks can learn to "disagree without be ing disagreeable".

We hear that Spencer Campbell conceived the original idea of having State Highway 70 run through Spur via the rim of the hill, just north of the present route. Someone suggested that the drive could be called Campbell's Scenic Skyway.

The idea does, however, hav

some very attractive points. As motorists came through our town they could glance to the north over as beautiful a stretch of farm lands as you'll find in northwest they would see Dickens arney, and Chamber Manager Ken-West Texas. Also to the north and Hill. Soldier Mound, the caprock, Croton Breaks-all historic landmarks in Dickens County.

And then just south of the high way would be almost a bird's-eye view of the City of Spur. Have you been up there recently and looked over our town? It's really Here On June 14 a pretty site, day or night, and from atop the hill, a view that we could be proud of.

And then other advantages.

Consider how a nice underpass at the north end of Burlington would be. This underpass could carry us and our children to the 1923 she married the late G. W. pienies, swimming, golfing, polo games, or just riding through the park, without having to cross the busy highway. It would make our beautiful park more useful in that it would eliminate the dusty washboard trail around or over the hill. It would make our park widely known in that the whole thing stadium, polo field, picnic areas, swimming pool, golf course, etc. would be in plain sight of those traveling the highway.

"Y's" off the main highway a both sides of town could safely and quickly divert local traffic off the highway and into town without any right-angle turns.

All in all it looks to us like mighty good idea and one to be seriously considered by the High way Department and the local highway committee. We commend Spencer for his vision of progress for our city.

Starting this week is a new crossword puzzle series in the Texas Spur, carrying out a Southwest theme. We would appreciate your comments either for or against their desirability. Their continuation will be based entirely on our readers' reactions. 0

Former Resident **Buried Recently**

Turn Chevy out on the road to discover its real charm! For this is the beauty that recently raced 2,438 miles in 24 hours to set a new competition track record! It happened at the famed Darlington Raceway. A '56 Chevrolet, with 225 h.p., poured it on for 24 straight hours, averaging 101.58 miles per hour, to top the Indianapolis stock car record by 280 miles! Here's proof of perform-ance, stamina, stability and sureness of control that no other regular pro duction car on the road can equ by for a sample!

ITS SWITCHCRAFT - that's what it is!

You'll see when you try Buick's new Variable Pitch Dynaflow!

T TAKES a new word to describe The magic at your command when you drive a '56 Buick - with

It's full power go-ahead on the instant. You can get where you were just looking in a shaved second's time - with the most modern and most thrilling surge of safety acceleration in the land today. It's smoothness, too. Complete free-

dom from the "bump" and lag of gears shifting. Only with Dynaflow can you go winging away with so smooth a sweep. And only with a '56 Buick can you enjoy Dynaflow's newest marvel. It's something the engineers call "double regeneration." Lets you start off like an Olympic sprinter, with the pedal pressed just an inch or

less. (And driving that way, you get better gas mileage.) There's more big news, too, that goes with this new Buick magic. And that covers a lot

Sure - you'll like the graceful new beauty of the V-shaped prow and sweep-ahead look. And you'll like

But as you drive you'll find that this Buick responds with the new might of a big, record-powered V8 engine of 322-cubic-inch heft.

It handles easy as butter to a warm knife. Tracks the curves like a plane on the beam. Makes any road seem paved with pillows.

And what's responsible for all this are more new engineering advances than Buick has ever made in one model year.

So why not come in and see - and feel-the difference they make? You'll soon know why owners find it's the best Buick yet-and the best buy yet, by far.

New Advanced Variable Pitch Dynaflow is the only Dynaflow Buick builds

JULY PLENTIFUL

FOODS ANNOUNCED Feature foods for the month of July are listed by the U. S. Department of Agriculture as broilers, and ice cream. Production of both is expected to reach record highs during the month.

The total list includes more than a dozen foods. Cantalo and watermelons are expected to dominate the fresh produce markets along with fresh summer vegetables. Movement from the area of heavy production is stepping

eting experts.

Frest and processed lemons and limes we the only fruits listed on the July plentiful list. Milk production is still running

far ahead of last year and all dairy products are just about as abundant this month as last. Turkeys, canned cranberry sauce, peanut butter, canned tuna in list for the Southwestern area. For the family picnics and weekend outings, you can't beat a me-
