Whoa, Now

By Grady Leachy

Here it is right in the middle of "Murder on the Highway" time again, and the Fourth of July just next Wednesday!

A lot of us will be hitting the road to go see grandma and grandpa, or Uncle Mary and Aunt John, and we'll all be driving carefully, too.

It's always the other fellow who is making a fool of himself and converting our highways into a human slaughter pen over holidays.

But the wise folks who'll stay right here in the county over the holiday, need not look too far for a wide variety of holiday fun and relaxation.

The Spur swimming pool will be open, the park will be nice and clean for picnickers, the Palace theatre will open at 1:45 on the Fourth, the Hi-Lo Drive In will feature a bigger and better fire works display, the golf course is expected to be busy, and if any of these holiday attractions don't attract you, get your cane pole and go down on Duck Creek and catch some pollyies and perch.

Farmers will have a wonderful opportunity to get well briefed on the new Soil Bank program next week by attending any one of the four meetings scheduled by the ASC office.

Already we've heard several different opinions of how it works and how much money a farmer can draw. Even caught myself telling it all wrong once.

But it will come straight and true at these four meetings. So don't take the other fellow's word for it—attend one of these meetings and get it right the first time.

Lions Install Allison At Picnic Meeting

Mac Allison was installed as president of the Spur Lions Club Tuesday evening at a picnic meeting in the city park. Installing officer was Lions Zone Chairman Campbell of Matador.

Other officers installed included Bob Nunley, 1st vice-president; Leon Reagan, 2nd vice-president; Bob Johnson, 3rd vice-president; Judon Rickels, secretary-treasurer; Jake Commander, Lion Tamer; D. L. Knight, Tail Twister; and Lawis Lee, Bill Glenn and Arner Watson, directors.

The installation picnic was a ladies' day affair with approximately 50 Lions, Lionesses and Cubs present.

Mrs. Joe Mullins of Post visited a while on day this week in the home of her parents, Mr. and Mrs. Dick Ford.

Cities To Be Asked For Funds For White River Topographic Maps

The White River water committee was notified this week by the Brazos River Authority that the Authority will not help, at this time, to finance the topographic maps needed as the next step toward a dam and lake on White River.

The Brazos River group did not indicate that they will not help at all with the project, but did report that they would not at this time.

SPUR SPORTS

Lions, East Side Still Unbeaten

By Bob Johnson

Last Thursday night the undefeated Lions Club team headed by Arner "Coach" Watson, won another game to remain undefeated. They beat the Rotary Club 11-0. What a team!

On the same night, K. P. Lodge shellacked the West Side 19-8 in the Pony League. Seems Ronnie Ensey had a little trouble getting all his men out to the ball park.

Tuesday night over at Jones Stadium Rickels Chevrolet beat Edwards-Kelley 16-8 in the Little League.

In the Pony League game, Bob Nunley's East Side remained undefeated by edging by North Side 10-8.

The league officials and the players, managers and sponsors appreciate the fine support being given by the many people who are interested in the boys of the Spur area. Why don't you parents who have not been coming out to watch your boys play, come on out to the park? You'll not regret it!

Many thanks to Raymond Powell for the fine job of umpiring he is doing, and thanks to everyone else who is helping to keep the program going.

Pvt. Garner Serving At Ft. Riley, Kan.

Pvt. Thural L. Garner, whose wife, June, lives in Spur, Texas, recently participated in the 1st Infantry Division's 29th organizational day parade at Fort Riley, Kansas.

Garner, son of Lester Garner, Spur, is a member of Company E of the division's 16th Regiment. He entered the Army in October 1955 and completed basic at Fort Ord, California.

Previously employed by Baker and Taylor Drilling Company, Garner was graduated from Spur High School in 1947.

David Marion Wins 4-H Honor At A & M

4-H'er David Marion and County Agent Bob Berry

Bob Berry Dickens County Agent, and a group of 4-H'ers attended the 4-H Roundup on June 12, 13 and 14 at College Station and returned home with honors.

David Marion, son of Mr. and Mrs. Paul Marion, returned with first place in the state contest on soil, water and range conservation. His winning district in April entitled him to compete for top honors in the state contest.

While at College Station they were given short courses by A. & M. professors, toured the A. & M. campus, stayed in the dormitories, ate in the school cafeteria and participated in group recreation.

Delegates who were previously elected to attend were Max Edwards, Donald Harris, Sandra Faulkner and Arlene Harvey. Accompanying the group as sponsor for the girls was Mrs. Jack Gordon. Also attending the state contest was the Livestock Judging team consisting of Rush McGinty, Guy Goen, Jerry Thomason and Frosty Estep. They placed eighth in their category in the state competition.

This Sunday, July 1, scenes of the recent 4-H Roundup will be shown on "Plainman Parade". Televising this program will be KDUB-TV, Channel 13, and the scheduled time is 5:30 p. m.

CHAMBER DOINGS

24 NEW MEMBERS ADDED TO SPUR CHAMBER DURING DRIVE

The Spur Chamber of Commerce is now in the midst of a Membership Campaign under the leadership of Leon Reagan and Jack Reitor, co-chairmen of the membership committee.

Up to this time, 26 new firms and individuals have united with other forward citizens to further the growth and progress of Spur.

With more and better participation that is evidenced in this campaign, the Spur Chamber of Commerce is going to really develop into an organization the community may be proud of.

Bob Weaver, local West Texas Utilities manager, received word from Abilene this week that officials of the Sears, Roebuck company are in Texas to look over five towns, one of which will be selected for a new garment factory site.

He indicated that Spur is to be one of the five. Undoubtedly this is the company's follow-up on the requests for information from various Texas towns a few months ago. At that time, Spur was notified that the field had been narrowed to five, and it was inferred that Spur was included.

In addition to the research and surveys made following the initial request and inquiry, the Spur

chamber has recently further prepared to aid in any way toward the prospect of a local location.

The Agriculture Service Council, made up of all professional agriculture workers of this area met Tuesday morning at Dyess hall and heard W. W. Gunn, county A. S. C. office manager, explain the new soil bank program.

In addition, Earl Burnett, J. H. Taylor and Burl Murdoch presented a six-month program to the Council for approval. This planned activity will include many items of interest to the Council, and also a big day of activity in August for all the farmers interested in seeing first hand what their neighbors are doing in the way of solid diversification. The farmer program will be conducted by farmers.

One of the main activities of the new program of work in the chamber is that which will be performed by the Parks and Recreation Committee under the chairmanship of J. D. McCain.

This committee is going to get together soon to start the ball rolling towards obtaining for Spur bigger and better recreational programs for young people and adults alike.

H. L. Burnam, Pioneer Preacher, Buried Here Tuesday At Age of 75

Last rites for Rev. H. L. Burnam, 75, were held in the Spur First Baptist Church at 3 p. m. Tuesday, June 26, 1956.

The death of Bro. Burnam, as he was known, marked the termination of one of the most useful and colorful lives ever lived in Dickens County. As a young missionary preacher, he and his family came to Dickens County in 1907—two years before Spur was founded. Since that time, he has served as pastor of almost every rural Baptist Church in Dickens County.

His entire life in Dickens County was devoted to preaching the Word and helping those who were in need—whether materially or spiritually. He died Monday morning, June 25, 1956.

Rev. Burnam was born April 7, 1881 in Hunt County. He married Norma Pruitt in Putnam, Texas prior to coming to Dickens County.

Conducting the funeral services was Rev. L. R. Pendley, assisted by Rev. Tommie Allen of Ralls and Rev. Jess Perry of Dara, New Mexico.

Pallbearers were Marion Jordan, George Gabriel, Lawis Lee, Martin Pope, Horace Hyatt and Hubert Karr.

Surviving Rev. Burnam are his wife, four sons, Cecil of San Diego, Calif., Travis of Turlock, Calif., Hoyt of Tulsa and J. S. of Berkeley, Calif.; two daughters, Mrs. R. L. Mitchell of White Flat, and Mrs. J. M. Mansfield of Bogalusa, La.; five brothers, John of Stanton, Lige of Cisco, Jess of Idalou, Rags of Labbock and Mark of Putman; two sisters, Mrs. Lucille Woods of Labbock and Lucille Burnam of Cisco; 14 grandchildren and two great grandchildren.

Burial was in Spur Cemetery under the direction of the church's funeral home.

County Agent Berry Attends Course In Range Management

County Agent Bob Berry is attending a two-weeks course in "Range Management" at Tarleton State College, Stephenville. This course is being held under the sponsorship of the Range and Forestry Department of Texas A. & M. College.

Instructors for the course are Dr. Sperry, professor at A. & M., Dr. Young of the Range and Forestry Dept. and Garland Hoffman and Fred Walker, specialists in Range Management with the Extension Service. During the allowed time, a tour will be made each day of six ranches in six different counties.

"This course will enable me to keep up with various new practices in range management," states Berry.

He will return home on Monday, July 9.

Sheriff Rogers Asks Re-Election

Sheriff Cleo Rogers, candidate for re-election as sheriff, tax assessor, collector of Dickens County, recently announced his candidacy, and this week released his formal statement to the voters.

To the voters of Dickens County: I am a candidate for re-election to your office of Sheriff, Tax Assessor-Collector. First I would like to thank each and every one of the cooperation you have given in the Sheriff's Department since my tenure of office began Jan. 1, 1953. I am not giving myself a pat on the back, but I do feel that we have accomplished something in the past three and one-half years, most of which could not have been done without plenty of cooperation from the citizens of the county.

I am trying to make a house to house canvass, but you have my assurance that I will not neglect the duties of the office to do so. In the first place, I do not believe the citizens of Dickens County would want me to neglect the office to campaign.

I have no promises to make except to work at the job and give the office my undivided attention at all times. As long as I am in office I will be working and trying to make Dickens County a better place in which to live.

If at any time you have any problem you want to talk over with either the Sheriff's Department or the Tax Assessor-Collector's Department, do not hesitate to call on us, day or night. We are always ready to help in any way we can. If we do not know the answer to your question we know where we can find it. If re-elected we will give you the courteous and impartial service you have a right to expect.

Again I want to say thanks for your cooperation in the past and ask for your continued cooperation in the future. Your vote and influence will be greatly appreciated on July 28, 1956.

Very truly yours,
Cleo E. Rogers

Four Meetings Scheduled Next Week To Discuss Program With County Farmers

The Dickens County ASC Community Committeemen, assisted by C. E. Fisher of the Spur Experiment Station, J. H. Taylor of the SCS, and Thurman Lewis, Forest Martin, Sam Brown, Weldon Cybert and Ed Robinson, met in the ASC office Tuesday, June 26, and set yields for the Soil Bank program for the three communities in the county.

Working from the established county average yield of 145 lbs. per acre, the community committeemen and their assistants set the following yields:

- "A" Community, 144 lbs.
- "B" Community, 147 lbs.
- "C" Community, 145 lbs.

These yields are subject to the approval of the District ASC field officer. They were approved unanimously by the above mentioned men.

Payments to participating farmers under this program, will be 15 cents per pound for the yield placed on the farm by the group.

A series of meetings was announced this week by W. W. Gunn, County ASC office manager, for the purpose of explaining the 1956 Soil Bank program. He states that Dickens County farmers are invited to attend any of these meetings, which ever is most convenient.

4-H Group Attends Conservation Camp

A group of 4-H boys and girls and their sponsors have returned after spending several days at the District 3 Conservation Camp which was held at Buffalo Gap, 15 miles southwest of Abilene.

Attending from Dickens County were Rita Williams, Merry Dee McArthur, Lenora Harvey, Rush McGinty, George Scott and Bob by Williams. Accompanying the group were County Agent Bob Berry, Mrs. Dee McArthur and Mrs. Norman Wilson.

Subjects such as Soil and Water, Plant Life, Wild Life, Safety, Crafts and Recreation were reviewed and discussed by Texas A. & M. professors and specialists in various kinds of conservation.

Club members who attended will act as leaders in organizing and conducting the Tri-County 4-H Camp to be held at Roaring Springs on August 13, 14. All 4-H club boys and girls from Kent, Dickens and Motley counties are encouraged to attend.

Dr. Earl Burnett and Dr. C. E. Fisher attended the Conservation Camp as representatives from the Spur Experiment Station.

Wednesday visitors in the home of Mr. and Mrs. B. H. Connally were his brother, O. U. Connally, and wife, from Levelland; their grandchildren, Jackie and Sandra Connally, from Haskell; her sister, Mrs. Valentine Cory, and daughter, Ann, from Stamford; and Bill Little of Abilene.

Meeting Dates, Places

The meetings will be held as follows:

- Monday, July 2, 8:30 p. m., East Ward School, Spur.
- Tuesday, July 3, 8:30 p. m., District Court Room, Dickens.
- Thursday, July 5, 8:30 p. m., School House, McAdoo.
- Friday, July 6, 8:30 p. m., Patton Springs School, Afton.

At these meetings, states Gunn, "We hope to be able to tell farmers all necessary information concerning the Soil Bank program, and the rate of pay that any farmer in the county would receive. We may also be able to sign up any farmers in the county at any of these meetings."

In the Dickens County ASC newsletter this week, Gunn pointed out that eligible crops for Dickens County are cotton and wheat.

The acreage of wheat placed in acreage reserve is limited to 50% of the allotment or 50 acres, whichever is the larger, but must be at least five acres or 10% of the allotment.

For cotton, the maximum acreage is 50% of the allotment, or 10 acres, whichever is larger, with a minimum of 10% of the allotment, or two acres.

A Soil Bank Acreage Reserve Agreement must be entered into by the farmer operator. If the operator is not the owner, and is not a cash tenant, standing-rent, or fixed-rent tenant, the agreement must also be signed by the owner.

The agreement must be signed by July 20. Agreements signed now are for 1956 only, stressed Gunn.

No crop may be harvested from acreage reserve in 1956, and cannot be grazed in 1956.

Reserve acreage must be kept free of noxious weeds, adds the ASC official.

In explaining the 1956 wheat participation, Gunn stated, if wheat was not seeded, payment is \$4.00 per acre up to maximum acreage. If seeded, payment is \$6.00 per acre. Wheat must not have been harvested or grazed after June 22, 1956.

Duck Creek Soil Conservation District NEWS NOTES

E. F. Shugart, Chairman
C. P. Witt, Vice-Chairman
K. P. Brantner

Clark Forbis, Secretary
Giles McCrary

Realizing the need for helping district cooperators get more irrigated cotton land seeded to legumes at the last cultivation this summer, the district supervisors in their meeting last Thursday purchased one power driven and two hand model cyclone seeders. These are broadcast type seeders that have proven very economical, convenient and effective in seeding legumes and other cover crop seeds during the last cultivation operation. Several dry land cotton farmers are also making plans to use the seeders to seed millet, rye, or other cover crops in cotton fields that are subject to blowing.

District cooperators who plan to seed native grass mixtures in the spring of 1957 are urged to plant a cover crop now to serve as dead cover in which to do this seeding. Sweet sorghum, millet and sudan are recommended good crops for this use.

Now that the wheat harvest is over, cooperators are urged to

leave the stubble or residues on the surface by use of sweeps or other implement that will leave the residues on top. Research has proved the extra benefits by soil improvement and increased water intake.

A report of Soil Conservation Service activities of the Spur Work Unit for the first six months of this year shows that cooperators have built and restored over 300 miles of terraces as compared to 150 miles during the same period of 1955. During recent years of low rainfall the benefits of extra moisture saved by terraces has been well observed. Crop residue use, range and pasture seeding, and irrigation work has also increased in interest and application on the land.

Rye and vetch planted this late summer in the middle of blue panic grass has possibilities of affording some grazing during the winter months as well as helping to give soil blowing on some fields.

This scene from the motion picture "JOHN WESLEY" shows the breaking tradition by preaching in the fields to hostile Indians. The Eastman color by the Radio and Film Commission of The Methodist Church in cooperation with J. Arthur Rank.

The motion picture "John Wesley" is coming to Spur and will be shown at the First Methodist Church on Sunday, July 1, at 7:30 p. m. according to the pastor, Cal C. Wright.

The feature-length film is in Eastman color and was produced by the Radio and Film Commission of The Methodist Church in cooperation with J. Arthur Rank.

It brings to the screen for the first time the dynamic and colorful 18th century evangelist and educator.

John Wesley's miraculous rescue from a burning house at the age of five, at the beginning of the film forecasts the dramatic and eventful life which unfolds in this story of a man of slight stature but of impelling influence upon his contemporaries and upon history.

The English clergyman thought his venture in America as a missionary to the Indians in the Georgia colony was a failure, but it was the kind of failure which opened the door to the discovery of a religious certainty he had been seeking.

Furthermore, this discovery, in which John Wesley felt his "heart strangely warmed" led him to face mobs unafraid, and to ride 250,000 miles on horseback, changing the masses of English people from a low state of moral degradation to sturdy and happy uprightness.

His "enthusiasm" was frowned upon by the lethargic leaders of the Church of England of that day, but it was this new-found enthusiasm which enabled him to influence so many phases of the life of English-speaking peoples.

His appeal to the common man, his establishment of schools, clinics, lay preaching and societies—finally his sending of supervisors for the movement in the new world after the American Revolution—all these make the film one which will be long remembered.

The Rev. Mr. Wright explained that while the film is being released only to Methodist churches at the present time, the public is invited to see the picture at the First Methodist Church.

"NEVER REST 'TILL SPUR SCHOOLS ARE BEST"

"A healthy personality for every child in Spur Public Schools"

By Marie Kelley
 P.T.A. President

The idea of family "togetherness" is catching on around Spur. Mothers and fathers, mothers and daughters, fathers and sons and fathers and daughters are playing together more this summer than ever before!

The Father-Son, Father-Daughter swim session has been set for Tuesdays and Fridays from 5 to 7 p. m. Try to go swimming with your son or daughter at least once a week.

Bob Nunley, Bill Glenn, W. D. Blair, Bob Conner and Dr. Martin, who has taken his daughter to Chicago with him.

Dr. Eric Darnall, a Dallas child psychologist who is also a mother, has the following theories to promote: "Teach your child the habits of happiness and he is less likely to turn into a juvenile delinquent."
 "The happy child is a good child."
 "The happy child will enjoy beauty—a sunset, a bird song, an autumn leaf."
 "The happy family should share fun and wholesome recreation as a music hour, a lovely poem, picnic, games and hobbies."

Someone made a list of fathers and sons, and fathers and daughters seen together this spring and summer. We would like to start an Honor Roll of Father-Son, Father-Daughter Participation. These men spent at least an hour last week playing with and engaging in a wholesome recreational activity with their children: Ben Loe, Max Eckels, Mac Allison, Pat Williams, Alfred Walker, Oscar Kelley, Bob Alexander, James Jay, Charles Fisher, Robert Williams, William Starcher, T. B. Watson, Jim Christopher, Guy Karr, Guy Goen, R. L. Benson, Bill Gregory.

The child should take part in family worship—(I wonder how many of us do have family devotional in Spur, Texas).
 "The happy child has experienced the joy of a task well done, as he assumes a fair share of the family chores."
 Dr. Robert Sutherland, Hogg Foundation says, "Non-participating children become delinquents."
ARE YOU TRAINING YOUR CHILD TO BE HAPPY? If you spent an hour a week with your child, please tell somebody! We want you on the honor roll.

Low-Calorie Snack Fits To A Tea

A pleasant way to shun the sun these sultry days is to take a tea-time-out from your chores, relaxing beside a tray like this of nibbly icebox cookies and tall, frosty glasses of iced tea.

Heat-producing calories are kept to a minimum in these slim-minded morsels, for both the cookies and the tea are sweetened with pure saccharin, more than 400 times sweeter than sugar but containing not a single weight-adding calorie.

To sweeten the tea, choose from several brands of liquid saccharin, or dissolve 24 1/2 grain tablets in one-half cup of water to make your own syrup. A teaspoonful equals one teaspoon of sugar in sweetening power.

You can freeze and keep rolls of these icebox cookies handy for munching in a matter of minutes.

- Orange Pecan Cookies**
- 1/2 cup unsweetened orange juice
 - 1/2 cup unsweetened orange juice
 - 1/2 cup shortening
 - 1 cup sifted all-purpose flour
 - 1/2 cup sugar
 - 1/2 cup baking powder
 - 1/2 cup orange juice
- Add sifted dry ingredients alternately with orange juice mixture.
- Blend well into dough.

Shape dough into 1 1/2 inch balls and wrap in waxed paper. Chill in refrigerator until firm. Bake on rack slightly above center in 400° oven (325° if you use a hot box) for 12 minutes. Makes 18 cookies. (Calories per cookie 44.)

Parents of the groom are Mr. and Mrs. John P. Davis of Panhandle, Texas.

Rev. Charles Lutrick performed the double ring ceremony before a setting of candles against greenery. Three baskets of white gladioli were built to the center point of interest.

Given in marriage by her father, the bride was attired in a gown of white de-lustre satin with lace inset at the neckline and a special dart effect on a long waistline from a full floor-length skirt. ARMY OFFERS VARIOUS CAREERS FOR YOUNG MEN

Within another year, seven out of every ten men in the Army will be members of the Regular Army or will be volunteers.

That estimate has been made by Major General Donald P. Booth, Assistant Deputy Chief of Staff for personnel, Washington, D. C., who points out that the Army is moving steadily toward its goal of being a 100 percent volunteer unit.

"A high school graduate can find tremendous advantages in an Army career, a chance to develop his leadership traits in the combat arms, or a chance to become a technician through the Army's technical training program," said Colonel Bryant. "A young man can map his own career, choosing his branch before actual enlistment. Being able to select a branch makes a happier soldier than is provided by the general assignments following selective service inductions."

Complete information on an enlistment in the U. S. Army may be obtained from the local Army recruiter, M/Sgt. Don Spencer, whose office is at the Post Office Building, Room 307, Abilene, Texas.

Sgt. Spencer is in Spur the first and third Thursdays of each month.

S-S Payments In Area Up 30%

Social Security payments totaling \$292,811 went to 7154 people in the South Plains Area in the month of December 1955, according to John G. Hutton, Manager of the Lubbock Social Security Office. This was an increase of over 30 percent over payments at the end of 1954.

In making this announcement, Hutton said that many persons think of the old-age and survivors insurance program as providing protection only for older men and women. He made it clear that it is also a program benefiting youngsters. At the end of 1955, nationwide, about 1,275,000 children under age 18 were receiving monthly benefit payments under the social security law. Of these, 120,000 were being paid monthly dependent's benefits because of the retirement of an aged parent; the others were receiving survivors' benefits as children of a deceased parent. Hutton pointed out that about four times as many orphaned children are receiving benefits under the old-age and survivors insurance program for aid to dependent children. Nationwide, at most 200,000 mothers of children under age 18 were receiving monthly survivors insurance benefits under social security at the end of 1955.

As a further illustration of the protection Federal Survivors insurance now provides for the young people of the country, Hutton pointed out that the mothers and children in 9 out of 10 American families can receive monthly survivors insurance benefits if death should take the family breadwinner. More than half of all young children in the Continental United States whose father have died were receiving social security benefits at the end of 1955.

With the bringing in of many groups of employed and self-employed persons previously excluded, the old-age and survivors insurance program achieved almost universal coverage at the beginning of 1955", Hutton said. He pointed out that an estimated 68 million persons had taxable earnings under the program in calendar year 1955. Some 70 million workers were insured as the year came to an end. Of this number, 32 million are permanently insured and can qualify for old-age benefits at age 65, regardless of future employment, likewise, in the event of death, their survivors can qualify for monthly benefits, lump-sum death payments, or both.

When a worker retires or dies, he or his survivors are urged to visit, phone or write the Lubbock social security office for assistance in making claim for benefits. "In fact," Hutton said, "the social security office should be contacted (1) when a worker reaches age 65, regardless of retirement, (2) when he reaches age 72, regardless of earnings, (3) when an insured member in a family dies, and (4) when a worker becomes disabled for any gainful employment or self-employment."
