MISS GRACIE STINNETT, L. BARNETT ARE UNITED IN GIRARD CEREMONY

Double ring marriage vows exchanged Sunday, September 9, 1956 at 4:00 p. m. at the Girard Church of Christ between Gracie Stinnett and Leroy Barnett. Roger Turner, minister of the Girard Church of Christ officiated.

Parents of the bride are Mr. and Mrs. C. W. Stinnett of Girard. Parents of the groom are Mr. and Mrs. I. C. Barnett of Wolforth. The bride was given in marriage by her father. Her ballerina length original gown of white slipper satin was fashioned with an escalloped long waist with white lace scalloped yolk and long sleeves.

Traditional wedding marches were furnished by recordings of the Broadway Church of Christ wedding chorus. A reception followed the ceremony with Mrs. Bernice Goodall, Girard; Mrs. Don Huff, Lubbock; and Miss Rowanna Parker, Odessa, assisting the bride's table which was arranged in green and white, the bride's chosen colors.

After a honeymoon to parts of New Mexico, the newly weds will be at home at 2611 Colgate, Lubbock.

Gamma Eta Has Roaring Sprgs. Meet

Members of Gamma Eta Chapter of Delta Kappa Gamma, an honorary educational society for women teachers, gave reports on their summer activities at the first meeting in September which was held at the First Christian Church in Roaring Springs, Texas.

Mrs. Jessie Thomas of Paducah gave report of interest to those concerned with education. These included a report on the benefit of the Texas tidelands to schools, the Ford Foundation Fund for advancement of Education which will grant a fund during the next three years for use in teacher recruitment and education by television, and some facts in regard to amendment No. 4 which will be voted on in November.

Members of Gamma Eta Chapter of Delta Kappa Gamma, an honorary educational society for women teachers, gave reports on their summer activities at the first meeting in September which was held at the First Christian Church in Roaring Springs, Texas.

Three members are transferring from Gamma Eta chapter because of their work in other areas. Miss Mary Jane Gray of Ralls will teach in the Lubbock schools, Miss Burney Lee Maserang of Ralls will teach in the Birdville schools, and Mrs. R. M. Parsley of Girard will be in Abilene, Texas.

TELEPHONE TALK by J. C. Oakley, Manager

VISIT AGAIN BY TELEPHONE At this time of year, vacations are over for most of us. And I suppose if you're like me, you are already looking forward to next year's. But it's a good thing to remember that those miles that took you hours to cover on your trip can melt away in seconds with a Long Distance call.

That way, you can thank your friends or relatives by telephone for all the fun you had during your vacation visit. They'll appreciate it, and will enjoy hearing your voice again.

Or maybe you met friends on vacation. There's really no better way of keeping in touch with them than by a friendly Long Distance call.

Rates are lower after 6 p. m. every weekday, and all day Sunday. This makes it easier to recall the happy vacation days all year long. Remember, too - call by number - it's twice as fast.

WHY RUN? JUST REACH Some time ago, I heard a good slogan for extension telephones. It was, "Why run for the telephone when you can reach for it?" It makes sense, too. You arrange furniture and appliances in your house so that they'll be convenient for you. Why not carry this convenience over to your telephone service?

Most homes could use an additional telephone. The kitchen and bedroom seem to be the most popular spots for families now enjoying life with two telephones.

The cost is small for an extension. An installation charge of \$2.00, and the monthly rate of \$1.00 can make you a "two telephone family."

LOOKING UP WORDS You know, people sometimes use words for years before finding out exactly what they mean. Usually, they're pretty close, but it never hurts to dust off the old dictionary and look up a word.

I did it the other day to find the definition of "value." We talk about value of service a lot in the telephone business, and I wanted to know once and for all just exactly what "value" meant.

In simple terms, it means "real worth." So if you stop and think a minute about how much the telephone does for you, we think you'll agree we're not misusing the word "value" when we talk about telephone service.

Put, you see, a good part of the "real worth" of telephone service is the telephone's ability to help you do more things easier day after day.

Call by number. It's twice as fast.

Weather Cycles Mean Nothing To Area Reports Exten. Service Expert

Weather cycles don't mean a thing in making predictions of periods of "wet and dry" years.

And Spur area farmers and ranchers can expect more years below average rainfall than years above.

A study of rainfall records made at 31 locations on the High and Rolling Plains by Dr. R. J. Hildreth and Dr. Gerald W. Thomas of the Texas Agricultural Experiment Station show that cycles have little or no part in annual rainfall.

"Average or normal rainfall seldom occurs," Dr. Hildreth said. "The records indicate that farmers and ranchers in the High and Rolling Plains should figure more years — 52 to 69 percent — will be below average in rainfall than years above average."

Records dating back to 1916 at Spur, Substation No. 7, show more than half the years — 59 percent — have had rainfall below the annual average of 19.9 inches.

"Using past records to predict the future, 10 to 20 inches of rainfall may be expected 62 percent of the time; 20 to 30 inches, 31 percent of the time; 30 to 40 inches, 5 percent of the time; and over 40 inches, 2 percent of the time," Dr. Hildreth added.

The seasonal distribution follows the usual pattern with peak rainfall in May and September. The highest average rainfall (2.8

inches) occurs in May and the lowest (0.6 inch) in January.

The study and publication of results — "Farming and Ranching Risk as Influenced by Rainfall" — is the first of a planned series to include the Edwards Plateau, Trans-Pecos and Rio Grande Pains areas of Texas where drought also has severely affected farm and ranch income.

AND FORMER RESIDENTS TO HOLD REUNION

Former residents of Hood County are having their annual reunion at the Little Party House located near the East Broadway entrance in Mackenzie State Park at Lubbock, Sunday September 23. Bring a picnic lunch.

Mr. and Mrs. E. J. Lasseter left Monday for Columbus and Glidden where they will visit her sister, Mr. and Mrs. Hubert Ashcraft. Hubert has had major surgery but is improving.

Expanding Credit Services to Serve More Farm Families Through FHA

Recent changes in laws govern- ing Farmers Home Adminis- tration will enable the agency to serve the credit needs of a larger number of farm families. Water T. McKay, State Director, said to- day.

The expanding credit services are the best yet devised to help our farmers and ranchers through the worst drought in Texas history, McKay stated.

The new law provides broader authority to assist family-type farmers with loans to improve and operate their farms. It also authorizes, as a part of the Rural Development program, loans for operating and developing farms where the farmer has part-time employment off the farm. Included in the broader authority are loans for refinancing existing debts and an increase in the max-

imum amount that can be advanced for operating loans.

All county office staffs of the agency have been brought up to date on these changes at meet- ings held throughout the state, and will begin operating under the new authorities and policies on September 4.

Types of loans which can now be made include:

1. Operating loans to full-time farmers. Initial operating loans may be made in amounts up to \$10,000 to one borrower, with subsequent loans authorized as needed so long as the total amount of indebtedness does not exceed \$20,000. Operating loans are used for the purchase of equipment, livestock, or to refinance debts owed on equipment and livestock, and for fertilizer, seed and other farm and home operat- ing expenses needed to carry out efficient farming operations on family-type farms. Interest is at the rate of five percent, and these loans are repayable over periods up to seven years. The new law increased from \$7,000 to \$10,000 the amount of the initial loan; from \$10,000 to \$20,000 the limi- tation on the indebtedness; and increased from 7 to 10 years the period during which additional credit can be extended in hard- ship cases when the inability of the borrower to repay his indebt- edness within 7 years was due to causes beyond his control. Under the former law no new credit could be extended to borrowers who have been indebted continuously for 7 years.

2. Farm Ownership loans. These loans are made for the purchase, enlargement, or development of family-type farms, and to refi- nance existing debts for farmers who have adequate real estate security but who are unable to meet present credit obligations and need credit on more favorable terms. Payments are scheduled according to the ability of the borrower to repay, up to 40 years. Insured loans are made from funds provided by private lenders. The loans bear 3½ percent interest, plus a one percent insurance charge. In the past, the agency has only refinanced existing real estate debts, and then only when the refinancing was incidental to the making of a real estate loan for purchase or improvement of family-type farms.

3. Farm Housing loan. These are made for the construction and repair of farm houses and other farm buildings, including farm- stead water supplies. Interest is four percent on the outstanding principal, and repayment may be scheduled over periods up to 33 years, with the loan secured by a deed of trust on the borrower's farm. This loan program was re- activated in May of this year.

4. Soil and Water Conservation loans. Made to carry out measures for soil conservation, water de- velopment, conservation and use, and farm drainage. Individuals can borrow up to \$25,000 for these purposes. Interest and insurance charges are 4½ percent with re- payment scheduled according to the borrower's ability to pay, up to 20 years.

5. Loans to part-time farmers. These are designed to help farm- ers in areas designated for the Rural Development program, who are unable to obtain enough land resources to develop full-time farms. Loans may be made for operating and developing less than family-type farms, if the appli- cants are established bona-fide farmers who have historically re- sided on farms and depend on farm income for their livelihood, and who are conducting substan- tial farming operations and spend- ing a major portion of their time farming. Such operators must have dependable sources of out- side income. When such loans are made for operating expense, they bear interest at five percent and are repayable over periods up to seven years. Loans for real estate development bear interest of 4½ percent and are repayable over periods of up to forty years.

6. Special Livestock loans. Ini- tial loans of this type will be av- ailable until July 14, 1957, and loans to indebted borrowers can be made until July 14, 1959. Such loans are made to help establish producers of cattle, sheep and goats maintain their normal oper- ations. Loans are made for re- placement livestock and for pur- chase and production of feed and for other operating expense. Interest is five percent and loans are re- payable in one to three years. They are not made to pay exist- ing debts.

7. Emergency loans. These are made to enable farmers to con- tinue normal operations but not to refinance existing indebted- ness. They bear interest at the rate of three percent. Ordinarily loans secured by liens on chattel property are scheduled for repay- ment within one to five years. Loans for crop production are due

when the crop is harvested.

8. Great Plains loans. These loans are available only in 57 West Texas designated counties under the Great Plains Special Credit Program. They are made in the same manner and for all pur- poses authorized for the making of Operating loans, except that under these loans the operator may be conducting farming oper- ations on larger than a family- type farm. The fifty-seven coun- ties in the Great Plains Special Credit area are:

Andrews, Armstrong, Bailey, Borden, Briscoe, Carson, Castro, Childress, Cochran, Collingsworth, Cottle, Crosby, Dallam, Dawson, Deaf Smith, Dickens, Donley, Fisher, Floyd, Gains, Garza, Gray, Hale, Hall, Hansford, Herdeman, Hartley, Hemphill, Hockley, How- ard, Hutchinson, Kent, Lamb, Lipscomb, Lubbock, Lynn, Mar- tin, Mitchell, Moore, Motley, Nol- an, Ochiltree, Oldham, Parmer, Potter, Randall, Roberts, Runnels,

Auto Inspection Starts Sept. 15

The Texas Public Safety Com- mission has set September 15, 1956 to April 15, 1957, as the period

during which automot- other motor vehicles must be inspected under provisions of State's Motor Vehicle Inspection law.

Col. Homer Garrison, Jr., Direc- tor of the Texas Department of Public Safety, said in announcing the Commission's action that mo- torists should avail themselves of the opportunity to have their au- tos inspected as soon after Sep- tember 15 as possible in order to avoid the inconvenience and de- lay which is usually associated with the end of the seven-months period by the "log jam" of car owners who wait until just be- fore the deadline to have their ve- hicles safety checked.

George W. Busby, Chief of the DPS Motor Vehicle Inspection Di- vision, stated that the more than 4,200 licensed inspection stations in the State would have sufficient supplies of stickers on hand by the starting date and would be equipped to check vehicles with- out delay.

Eligibility for all types of loan assistance available is determined by a three-man county Farmers Home Administration committee. Farmers Home Administration credit supplements but does not replace other sources of credit. Loans are made only when the applicant is unable to obtain credit from private or cooperative sources of credit. While Farmers Home Administration requires less security than is usually re- quired by other lenders, no loan is made unless it appears that the loan can be repaid.
