## Whoa, Now!

By Grady Lackey

U. S. Congressman George Mahon came by Monday to say hello and re-new his subscription. He said he would have liked to have stayed longer and visited with more of his friends here, but that his over-crowded schedule before Congress re-convenes prevented a longer stop-over.

He was here long enough, tho, to express his deep concern over two problems we all share: the continued drought in the area and the State's befuddled U. S. Senator situation.

(Let's see if we can get out of this one gracefully!) Last week we "purposely" failed to mention Proctor's big store-wide sale because we didn't want to rush more customers down there than Proe could handle. Well, the dust has cleared away, and now we believe he can take care of a few more of you through the end of the sale Saturday night.

For those of you who like to read automobile and pickup ads in our little sheet, we'll explain the re-run this week of Leon Reagan's ad on the new GMC pickup.

A couple of weeks ago we ran the same ad when Leon had no pickup to show. But now it's here and he will be glad to show it to you at Reagan Motor Co.

## SANTA CLAUS DUE IN SPUR TUESDAY DEC. 11 FOR VISIT

Santa Claus will make his debut in Spur for the 1956 Christmas season on Tuesday, Dec. 11. Plans announced this week are that of Santa will arrive at 3:15 p. m. and be escorted down Burlington on the Spur fire truck. He will have plenty of free candy for the children and an attentive ear to everyone's wishes.

Spur schools will dismiss at 3 p. m. on that day so that all Spur school children can join in the big Santa-welcoming fun downtown.

As the Christmas season is at hand, Spur merchants are beginning to decorate with the yuletide theme and light Christmas shopping has already begun. Musical and religious groups in the area are now, or soon will be, working on plans and programs for Christmas.

Today, Thursday, Nov. 29, there are only 21 shopping days left!

**FIRE DEPT. TO MAKE DRIVE**

The Spur Fire Department will make a house-to-house canvas Monday night, December 3 for the annual Muscular Dystrophy campaign.

The department urges all citizens to give freely to combat this dreaded disease.

## Four Area Men Are Inducted

Four men reported for induction November 14, 1956. They are as follows:

Billy Wayne Williams, Dumont, Texas, Donald Lilly Hindman, Spur, Texas, Jerry Dean Ingram, colored, Spur, Texas and Edgar Neil, Afton, Texas.

On this same date three went for pre-induction examination. They are as follows: Jimmy Baxter Nelson, Spur, Texas, Clayton Winfred Perry, Afton, Texas and Walton Olney Walker, Spur, Texas.

The Spur Rotary Club will not have its regular meeting today, Thursday, Nov. 29, in observance of Thanksgiving.

## Irrigation Gains In Afton Area

Mounting interest in irrigation in the Afton community saw the completion of several new wells during the past few weeks.

J. F. Young has recently completed a four inch well at a depth of 49 feet. C. G. McCarty has two new completions, one six inch and one four inch, each being about 70 feet in depth. Mr. Roberts got a good six inch well but had to go 100 feet.

Several additional test holes are being dug and L. D. Norris and F. H. McCarty are expecting to have completions within the near future.

## Hong Kong Student Is Rotary Speaker

At their regular weekly meeting of Nov. 22 the Spur Rotary Club had as guest speaker Jimmy Shiu of Hong Kong, China. Jimmy is the son of a merchant in Hong Kong and is now attending Abilene Christian College where he is a senior. He plans on going from ACC to Baylor Medical College, after which he will return to his native China where he will practice medicine and preach.

Prior to the program the club sweethearts, Lois Ann Callan and Rosalyn Lewis, were presented with ear screws bearing the Rotary emblem. L. D. Ratliff made the presentation on behalf of the club.

## WILDCAT WELL SET FOR TEST TEN MILES WEST OF SPUR

Equipment is being moved in and drilling is expected to get underway immediately on a wildcat oil well ten miles west of Spur on the Donnie Pace farm.

Location is in the southwest quarter of section 40, Block RM, Dickens County. Drilling contractors are Angle and Angle of Duncan, Okla. The contract calls for a depth of 3000 feet to explore the San Andres lime formation which is the same formation from which the shallow wells in the Post area are producing. The location is in the adjoining quarter-section to the west of two locations drilled to depths of

## Nov. 30 Is Soil Bank Deadline for '56 Conservation

Friday, Nov. 30 is the last date for Dickens County farmers to sign a Conservation Reserve Agreement if the agreement is to include the year 1956, states W. W. Gunn, Dickens County ASC office manager, in a newsletter sent to county farmers this week.

To be eligible for participation in this particular phase of the Soil Bank program, Gunn points out the following requirements: First, must be cropland; second, must not have been grazed in 1956; and third, no crops harvested from the acreage.

Gunn also announced that on Tuesday, Dec. 11, 1956, the cotton farmers of Dickens County will have the privilege of voting on the control of the sale of cotton for 1957. "Remember," states the local ASC manager, "this is not a vote on the program and it is not a vote on cotton allotments—it is for marketing."

## Spur Basketball Open With Win Over Jayton

### Girls Bow To Jayton To Open Season

The Spur Bulldog basketball team opened the 1956-57 season down at Jayton Tuesday night with a 40-21 win over the Jaybirds.

Coach Jim Eddins has 15 boys out for the varsity squad, led by four lettermen. However, two of the lettermen have not yet even worked out with the team because of recent football injuries. They are Dwayne Green and Eddie Hagins. Max Gabriel and Robert Beeson are the other two lettermen and will be heavily relied on in shaping the current quarter.

### 2 County Roads In F-M Program

The Texas Highway Commission has taken the first step to inaugurate a new two-year Farm-to-Market Road Program for Texas. E. H. Thornton, Jr., Chairman of the Highway Commission, stated that the funds for this 1957 and 1958 program are derived from federal-aid highway funds, matched with state highway funds on a dollar-for-dollar basis.

Palmer Massey, District Engineer of the Texas Highway Department at Childress, has stated that the following farm-to-market roads in this area are scheduled for work under this program:

From State Highway 70 at three miles south of Dickens, west and south to the end of FM 1968, a distance of approximately 5.1 miles.

From FM 265 at Croton, east to road intersection, a distance of approximately three miles.

It was announced that work will begin on these projects as soon as final planning is completed and necessary right of way secured. Resident Engineer Algie Green will be in charge of the work in this area.

Coach Eddins reports that about 15 freshmen boys are working out to form a freshman team for this year.

**GIRLS DROP OPENER**

Tuesday night Coach Bill Henry's girls team dropped the season opener 45-25 to Jayton. Starters were Nelda Hahn, Pat Shearer and Patsy Smith at guards, and Nell Smith, Charlene Simpson and Gerry Estep at forwards.

**Mother of Spurite Dies During Visit**

Mrs. Mattie Barsheba Hughes, 81, of Comanche, died Saturday while visiting her daughter, Mrs. Addie Guyer. She had been in poor health for some time.

The body was held at the Chandler Funeral-home until Sunday morning when the Porter Franks Funeral Home of Comanche took it to the Hazel Dell community for burial, where the funeral services were held at 3:00 p. m. with Rev.

Survivors include four daughters, Mrs. Addie Guyer, Spur; Mrs. Ethel Hughes, Dublin; Mrs. Irene Westminster, Dublin; Mrs. Irene Edinburg, McAdoo; five sons, Dewey, Harley, Seattle, Washington; one sister, Mrs. Ida Moore, Baggett; three brothers, Edgar Kennedy and Clark Kennedy both of Dublin; Aaron, Waco; 20 grandchildren, seven great-grandchildren, and one great-great-grandchild.

### Cancer Society Asks For Old, Torn Sheets

WANTED — old or torn bed sheets or white lines table cloths. That's right, states Max Eckels, local official of the service committee of the Dickens County unit of the American Cancer Society, old sheets and table cloths are needed by the chapters to make bandages and dressings to be given free to any or all victims of cancer in the county.

The cause is worthy and will save many dollars for families needing them, he points out. Right now the bandages are being used by some cancer victims at the rate of a dozen or more every day.

Sheets and table cloths may be turned in at the following place in the county:

Afton—Pevton Legg Store, Dickens—Dickens Drug, McAdoo—Dickens Grocery, and Spur—Dunlap's.

For additional information about this, check with Mrs. O. L. Dickens, county nurse, at Dickens.

### Mrs. Kearney is Now Chamber Secretary

Mrs. Ernest Kearney has been employed as secretary for the Spur Chamber of Commerce, announces Bill Glenn, president.

Mrs. Kearney started work on Monday morning at this week with her office at Reagan Motor Company.

### Funeral Services For Mrs. Burnam Set For 2:30 Wednesday

Funeral services will be held Wednesday November 28 at 2:30 for Mrs. Norma Pruet Burnam who died Monday November 26 in Spur.

The services will be held at the First Baptist Church with Rev. Victor Crabtree officiating, assisted by Rev. J. L. Lee and Rev. O. L. Dewees. Interment will be in the Spur Cemetery with Campbell's Funeral Chapel in charge.

Mrs. Burnam was preceded in death by her husband, Rev. H. L. Burnam, a well known minister who died June 25 of this year. They were married in Calahan County and lived in Dickens County for more than 40 years.

Among Mrs. Burnam's survivors are four sons, Cecil, Santiago, Cal; Travis, Furlock, Cal; J. S. Bakersfield, Texas; Hoyt, Tullia; two daughters, Mrs. Roy Mitchell, Hale County, Tex.; four brothers, Ellison, Putnam, Grady, Putnam, Putman; Homer, Putnam, Putman; C. B. Putnam, Ranger; two sisters, Mrs. S. M. Eubank and Mrs. Walter Francisco both of Putnam; fifteen grandchildren and three great grandchildren.

### Miss Kelley Vies For Homecoming Queen

Carolyn Kelley, Abilene Christian College junior from Spur, was chosen as one of the four candidates for the junior class of ACC for the Homecoming Queen title.

Carolyn is the daughter of Mr. and Mrs. O. L. Kelley of 814 W. 3rd and she is a 1954 graduate of Spur High School. At ACC Carolyn is a member of Melpomene Players, Alpha Psi, Sigma Tau Delta, "W" Club, Campus Service Organization and Ko Jo Kai. She is also active in drama productions and serves as secretary of her class and is a member of the House of Representatives.

### Dickens Baptist Assn. To Host Dist. 9 Bro'Mood

A joint meeting of the Dickens County Association Baptist Brotherhood and the District Nine Baptist Brotherhood will be held at the Spur First Baptist Church the evening of Tuesday, Dec. 11.

The meeting will be directed by the district organization. The program will be announced next week.

### Members of Spur Staff Plan Holiday Hunts

The families of H. G. Lackey and Grady Lackey left Wednesday for a holiday deer hunt in Real County.

## Christ, Fine Arts To Be Presented By '31 Study Club

Tuesday evening, Dec. 4, at 7:30 in the primary school auditorium Mrs. John A. Moore, Jr. will be presented by the 1931 Study Club in a program entitled "Christ and the Fine Arts."

Mrs. Moore, of Jacksboro, is the former Miss Nell Author of Spur.

The following local talent will be included in the program: Readings by Rita Williams; a sextet composed of Rorelle Marcy, Myrna Bostic, Margaret Bailey, Johnnie Ann Blakey, Lanelle Soloy and Johnna Lou Seudder; solos by Mrs. Bob Nunley, and accompanists Mrs. Ben Abercrombie and Mrs. Grady Lackey.

The theme of the program is the life of Christ from conception to the resurrection as told by the Virgin Mary.

The 1931 Study Club feels that this will be a most pleasant way to begin the Christmas season, and sincerely urges that every one attend. The price of admission will be 25c and 50c, the proceeds being used by the club for its annual community project.

### Mrs. Qualls Claimed; Funeral Here Nov. 26

## BULLDOGS PUT UP GALLENT GAME IN BI-DISTRICT THRILLER

It was beautiful football weather in a beautiful football stadium up at Plainview last Friday night when the Spur Bulldogs went all out to hold a very strong and versatile Canyon Eagle team to 7-7 tie up to no seconds in the first half, only to drop the bi-district contest 28-13.

Canyon scored first on an intercepted pass in the second quarter, and then the Bulldogs came roaring back on a superb end sweep by QB Ray Don Powell that sent him into the end zone. The run covered 83 yards as he outran the whole pack.

With the score tied at 7-7 and only seconds left in the first half, the Eagles started a passing barrage that ended in the end zone with time already run out on the clock. The spectacular aerial attack gave Canyon a 14-7 lead at the half and has been called by many as the turning point in the game.

David Morgan and Randall Gilcrease were easily the game's outstanding players. They were eating them up on defense and were instrumental in definitely stopping the Canyon ground game.

The Bulldogs were playing without the services of Dwayne Green and Eddie Hagins, stellar ball-carriers in previous games.

### Eight Students Now Attending H-SU

Eight Spur students are among the more than 1,575 students enrolled for the 1956-57 term at Hardin-Simmons University in Abilene.

The fall semester started Sept. 21 and will end Feb. 2, 1957. The students got their Thanksgiving holidays Nov. 21 through Nov. 25, and will get their Christmas holidays from Dec. 19 through Jan. 2.

### Mrs. Qualls Claimed; Funeral Here Nov. 26

Mrs. Bulah May Qualls died in her sleep Saturday night at her home. Funeral services were held at the First Methodist Church on Monday, Nov. 26, 1956, with Rev. Cal C. Wright officiating. She was buried in the Spur cemetery at Chandler Funeral home in charge of arrangements.

Mrs. Qualls was born Aug. 1, 1886. She had lived in Dickens County for the past 15 years. She is survived by her husband, William F. Qualls, Spur; one brother, Robert Gibson, and a sister, Mrs. Harriet Stubb, both of Spur. Pallbearers were Joe Kimmel, Lewis Lee, B. E. Bloodworth, Everett Robertson, Thomas Kelley and Lem King.

David Morgan and Randall Gilcrease were easily the game's outstanding players. They were eating them up on defense and were instrumental in definitely stopping the Canyon ground game.

The Bulldogs were playing without the services of Dwayne Green and Eddie Hagins, stellar ball-carriers in previous games.

A blocked kick and a fumble recovery gave the Bulldogs two breaks through the Eagle 20-yd line in the first half, but both times the Eagle line contained them on downs.

Still dazed by the last-play TD of the first half, the Bulldogs found going tough in pass defense in the second half, as the Dist. I-AA champs flew to two more tallies and a 28-7 lead. In the last moments of the game Max Gabriel intercepted a Nebitt pass on the 27 and went to the nine. James Gordon scored from the five on third down to bring the last scoring play of the game and a finale of 28-13.

Powell was the game's leading ball carrier with 91 yards on 13 carries.

The Spur Bulldogs played a wonderful game against the highly rated Eagles. Area fans and other district teams found in the Bulldogs a much better season than many had thought possible. And, most of them will be back for more next year.

Seniors this year include Gabriel, Gordon, Robert Beeson, Eddie Hagins, Green, Ruben Moore and Dale Edwards. They all did a fine job and we are proud of them.

### City Observing 29th As Thanksgiving

Spur will observe Thanksgiving today, Thursday, Nov. 29, will all retail businesses closed.

However, the post office and bank were required by federal regulations to observe last Thursday, Nov. 29, and will be open for business today.

### NEW ARRIVALS

Mr. and Mrs. A. W. Powell of Spur are the parents of a son born Tuesday morning, Nov. 27, 1956 at the Spur Memorial hospital. He weighed four pounds 13 ounces and has been named Arvey Lynn.

Mr. and Mrs. Wayne Edinburg announce the arrival of a son on Nov. 21, 1956 at a Lubbock hospital. He has been named Kirklin Wayne and weighed seven pounds and eight ounces.

## ANOTHER GOOD SEASON:

Another football season has come and gone and another great chapter has been added to a glorious history of the game in Spur. We have had great teams in the past but we have never had a team that has shown a greater determination to play the game clean and hard when the chips were down and the odds against them as the present one has. It has not been a team of brilliant stars, but a team of boys who realize the importance of working together for the good of the entire team.

In times past Spur has been criticized for un-sportsmanship conduct of a few of our rooters. Such a complaint cannot be made against any one this year. It has been a year of good hard football played by a team of good clean boys, coached by two good, serious minded young men and supported by a fine group of students and citizens, and Spur, Dickens County and Texas has a right to be proud of them all.

## WHERE DO WE GO FROM HERE?

On the pages of the Lubbock paper Nov. 18 was an account of what is being done on one farm which sounds like it might have come from a prospectus from the Magic Valley, or the Imperial Valley. A gross income of more than \$200,000.00 from an irrigated plains farm in addition to a profitable feeding enterprise makes us wonder if we might be overlooking an opportunity to get some of those seven and eight hundred dollar crops to grow around here.

Water seems to be the one big factor in vegetable production. If an acre of irrigated cotton will produce 2 bales of cotton during the entire season and net

the farmer \$200.00, how much would it net him if he grew two or three crops of vegetables over the same length of time?

More and more of the areas that have a limited amount of irrigation water are turning to vegetable crops. But it is not a venture for one man to go into alone. Markets must be found. Packing and shipping facilities must be available. Labor must be available when it is needed. Through the cooperation of a number of growers these essentials can be procured. Farmers in the Rio Grande Valley are doing it. Its being done in the Imperial Valley in California, in Florida, now in the plains—can it be done in Dickens County?

Where do we go from here?

Mrs. Horace Nickels was able to return to her home Friday after several weeks confinement in a Lubbock Hospital.

Mr. and Mrs. John Burrow and Kay visited in Midland and Odessa Saturday and Sunday with her sister, the Lawrence Pipkins and a brother, the Darwin Callihans.

# Cadillac

## Surpasses its Own Great Reputation!

You're looking at a mighty surprised man. Almost all of his adult life he has owned and driven Cadillac cars. And so, when he decided to take an hour out from his busy schedule to see and drive the new 1957 Cadillac, he thought he knew about what to expect.

Well, here he is—barely under way in the city—and already he is learning the startling truth. He is learning that nothing could adequately prepare a man for the new "car of cars"—not even Cadillac ownership itself!

He suspected it, in fact, the instant he stepped into the showroom and caught his first glimpse of this newest Cadillac creation. This was an entirely new kind of Cadillac beauty—brilliantly fresh in line and in contour.

And then he opened the door and swung into the driver's seat—and found added evidence all around him. On every side were new miracles of interior beauty and comfort and convenience.

And when he turned the key and put his foot on the accelerator, his sentiment grew to conviction. The car was incredibly nimble and quiet and smooth of ride.

Surprised, did we say? Just wait until he hits the open highway and receives the final verdict.

No question about it—this is the Cadillac that literally surpasses its own great reputation!

We suggest that you come in soon to see and drive this most surprising new Cadillac in fifty-four years. It's an experience you shouldn't postpone—and one you'll not soon forget.

### Farmers Using Emergency Feed

During the four months period through October 31, 1956, Texas farmers and ranchers eligible under the emergency feed grain and roughage programs, received assistance in the purchase of 1,443,867,646 pounds of grain and 1,374,170 tons of roughage, Walter T. McKay, Farmers Home Administration State Director at Dallas announced today. 91,787 applicants for grain assistance and 37,405 applications under the roughage program were processed during this period.  
The emergency feed grain and roughage programs are meant to help establish farmers and ranchers, who are primarily engaged in farming and ranching to maintain their basic herds of cattle, sheep and goats, if their circumstances are such that this assistance is needed, McKay advised. The local Farmers Home Administration committees have the responsibility to determine the eligibility of individual applicants and to approve the amount of feed each applicant may purchase under the program.  
233 counties in Texas are designated under the emergency feed grain and roughage programs. In the counties, eligible applicants are helped in buying corn, oats, barley and grain sorghums, or approved feed fixtures containing either 60 or 75 percent of these grains through a Government subsidy of \$1.50 per hundred wt. The Federal Government bears the full amount of this subsidy. In addition to the emergency feed grain assistance, eligible applicants are helped to buy hay or other approved roughage to maintain their basic herds. Under this

program applicants receive a Federal subsidy of \$7.50 per ton of roughage actually bought.  
Regulations that guide FHA county committees in the review of applications provide that applicants will not be certified if they are financially able to obtain the necessary feed for their basic herds without difficulty and can continue their normal farming and livestock operations. It is not expected that applicants will exhaust their total resources, including credit, before they can be certified for this assistance, McKay advised.  
"However," McKay added, "the fact that the purchase of feed at regular prices may not be profitable to the applicant is not sufficient to qualify him for assistance. It must be determined in every instance that an applicant is primarily engaged in farming

or ranching and that this is his main source of income. A nominal portion of his income from other sources would not necessarily disqualify the applicant.  
The overriding factor in determining the eligibility of any applicant is his financial ability to obtain the feed necessary to maintain his basic herds and continue his normal operations. An applicant whose financial circumstances are such that he can provide necessary feed for his basic herds and carry on his operations without serious difficulty is not eligible for this assistance."  
Under the present designation applications may be filed through December 31, 1956 for a supply of feed grain and roughage to carry basic livestock herds through December 31, 1956.

HERE'S HOW TO GET "SOLID GOLD CADILLAC"

Just how does a guy, or girl, go about getting a solid gold Cadillac?

Judy Holliday's method, in the hilarious new Columbia Pictures' comedy, "The Solid Gold Cadillac," is joyfully demonstrated on the screen of the Palace Theatre. In the gay new Columbia Picture comedy, "The Solid Gold Cadillac," in which she gives big business man Paul Douglas the business.

But the problem of getting a "solid gold Cadillac," for cinematic purposes, is even more involved than Miss Holliday's delightful antics and romantic. Out in Detroit, the problem created almost as much furor as next year's models.

First it must be admitted that the car shown in "The Solid Gold Cadillac" isn't really solid gold. But it is gold-treated and it cost a plenty.

The car is sprayed with a powder

derer gold mixed with lacquer, on the same principal as that used in gilding gold picture frames. Unfortunately, the first paint job didn't take; producer Fred Kohlmar and director Richard Quine agreed it was too dark; it just wasn't photogenic. Another shade of gold was tried and met with the same reception. In all, fifteen different shades of gold were tried before the solid gold Cadillac was deemed satisfactory. It took as many as six men working on the problem at a time to achieve the final result, at a cost of from \$600 to \$700. In the film, Miss Holliday plays a blonde chick who teaches the bears and bulls and wolves of the Stock Market about the birds and bees; Douglas is seen as the tycoon with Wall Street to Wall Street carpeting.

### HOSPITAL NOTES . . .

#### THANKSGIVING FROM SPUR MEMORIAL HOSPITAL

By Helen Hughes, Lab. Tech.

Of course, we thank God every day for the many good things He has given us, but once each year we take time out to enumerate. This year we would like to list here some of our many blessings—not things, but people.

We are thankful for:

Dr. Bob—for his quiet and assuring voice.

Dr. Williams—for his grin and for the twinkle in his eye that changes to calm intensity during surgery.

Dr. Martin—for his fine lectures and his patience in explaining new medical concepts to us.

Dr. Hughes—for being Dr. Hughes, whom we love.

Dr. Hale—for his pioneering in medicine.

Dr. R. L.—for his many trips over miles and miles to heal and ease the sick.

Dr. Nichols—for making no difference in rich or poor when medical treatment was needed.

Dr. Callan—for being our father confessor.

Dr. Brannon—for his cheery "hello".

Lillian Gordon—for being one of us.

Carol Cobb—for getting our checks out on time.

Ella Garner—for joining us in the swim.

Ann Hart—for being an excellent surgical nurse.

Grace Fincher—for her aspiration toward right.

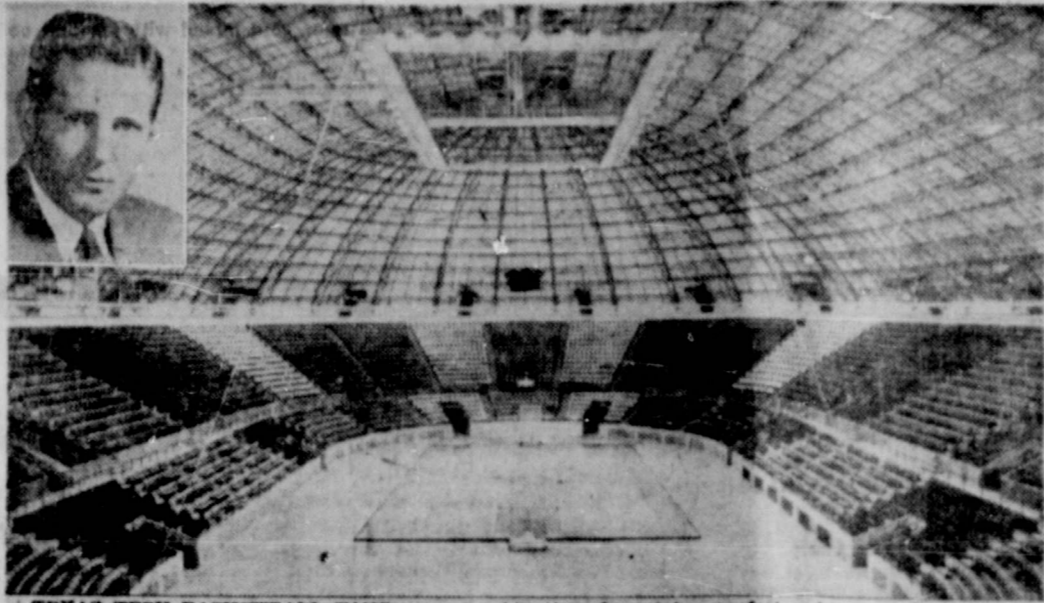

Evelyn Bingham—for her cheerful efficiency.

Lamorra Page—for her willingness.

Thelma Calvert—for her goodness.

Eva Hilberry—for what an army travels on.

Eva George—for those delicious pastries and desserts.

TEXAS TECH BASKETBALL FANS get a combination of spectator comfort and power-laden schedule this season as the Red Raiders move into the 10,000-capacity Lubbock Municipal Coliseum on the Tech Campus. Coach Polk Robinson (inset), in his 14th season at the Raiders' helm, sends his team through this home schedule: Dec. 3—Kansas State, Dec. 4—Texas Christian, Dec. 10—Tulsa, Dec. 14—Iowa State, Dec. 20—Nebraska, Jan. 12—Arizona State, Jan. 18—Phillips 66 Oilers, Jan. 30—Baylor, Feb. 7—Martin Luther, Feb. 9—Southern Methodist, Feb. 16—Texas Western, Feb. 28—Arizona, Feb. 28—West Texas State, Mar. 4—New Mexico A&M. Resigned from the Border Conference after winning that league's title for the past three years, Texas Tech must wait until 1957-58 before competing for the Southwest Conference championship.

Sophia Barron—for helping us talk to our Latin-American friends.

C. B. and Spencer—for bringing our patients and taking them home safely.

Mildred Blanton—for being the same yesterday, today and tomorrow.

E. L. Patterson—for our clean hospital.

Hazel Johnson—for her good natured work and her lifting giggle.

The NIBS—for their answering our call.

The Hospital Auxiliary—for their utmost support in all projects.

The VFW Auxiliary—for their help in our blood bank.

Our Pastors and ministers—for spiritual counsel.

The Beginners Sunday School class of the First Baptist Church for their gift of food and their little song "We're Thankful for our Hospital" given last Sunday morning.

The Texas Spur—for getting our news out each week.

The telephone operators—for extra-curricular services.

YOU, the people—for your belief in and your support of your hospital.

The Hospital Board Members—for going to bat for us and for

### Gabriel To Head Dist. 9 TUDF

George Gabriel of Spur has been named as Chairman of District No. 9 on the Texas United Defense Fund, the state-wide group which will sponsor USO's campaign for \$702,396 in Texas this year. This District includes Cottle, Dickens, King and Motley counties.

Mr. Gabriel was appointed by J. M. Willson, Sr. who is regional campaign chairman of the forthcoming fund appeal to carry on the familiar services of the USO to the young men and young women of the nation's armed forces.

In accepting the appointment, Mr. Gabriel stated that "The uncertainties and the threats of the present time make the task of our boys and girls in service extremely difficult and trying. They need to know that we are behind them, that we realize and appreciate

you, with a high batting average.

And last, but not least, the linotype operator who has to set all of this.

the sacrifices they are making and the dangers to which they are exposed for our defense, safety and peace in the world. There is no finer way we can show our understanding and appreciation than by giving as volunteer Americans to the USO, and providing a "home away from home" for our service men and women."

#### HIGH SCHOOL MENU

### THESE WOMEN!

By d'Alesio

"Unpack the towels, dear. Fran wants to know where we stopped in Tampa!"

The egg bucket is on its way out. The once common sight of the farm boy using "egg wampus" as a means of bartering for groceries and, occasionally, "show-money", is on the wane.

The agricultural revolution of the last 20 years has taken its toll of this and other farm traditions as farming has become less diversified and more specialized. The common reason is that it simply is not worth the time, labor and feed involved to keep a few hens on the side and bring the fruits of their labors to town on Saturday.

Yet a great many Texas farmers may be missing a bet for supplemental income by overlooking the possibility of using egg production as a "specialized" sideline.

While the old "hen house" with a few old tottering birds is an unlikely profit maker, modern facilities and improved handling operations can be made to turn in a nice profit. There is always a market for top-quality eggs, and Texas consumes several times more eggs than it produces.

Best way to get into a profitable egg business is to install an assembly line operation, providing for cooling, proper cleaning and regular marketing. Eggs from such a caged layer plant are not only in constant demand, but usually bring a nice premium in the market place.

As added incentive for premium egg quality, on-the-farm grading and candling are certain to up the profit margin. Accurate grading facilities can be obtained at little cost, and free instruction on grading and candling processes will be given on request for the Texas Department of Agriculture or U.S.D.A. extension workers.

Egg producers who provide for adequate grading and standards now will also be getting in on the ground floor of the proposed Texas law which will make grading mandatory.

Texas is the only state which does not already have such a law, and its inauguration is certain to boost Texas' possibilities as a major egg producer.

John Rankin, son of Mr. and Mrs. Melvin Rankin of Spur, is visiting his parents while here on leave after returning from Okinawa. He will go to California December 21 to finish the remaining two months of his hitch.

Outdates everything else on the road with its dream-car ideas!

Here is one of those rare cars that, in a single model changeover, redirects the whole course of automobile design. The new Mercury makes a clean break with the plump, bulging lines of many of today's cars—presents a sleek, clean-cut, dynamic look that's straight out of tomorrow.

**NEW! V-ANGLE TAIL-LIGHTS FROM DREAM-CAR DRAWING BOARDS**—A stunning example of Mercury's new Dream-Car Design. They help dramatize Mercury's gleaming new breadth and brawn. Mercury is now over 6½ feet wide, more than 17½ feet long!

**NEW! JET-FLO BUMPER-GRILLE GIVES A MASSIVE BUT GRACEFUL LOOK**—New beauty with a purpose. The unique new oval design acts as a double bumper—provides both high and low protection, front and back.

**NEW! SLIM, BRIDGE-STRONG ROOF, MORE GLASS THAN EVER**—It spans the most spacious passenger compartment in Mercury history. You enjoy up to 829 square inches more visibility. And Mercury is new in everything else. You can get a power seat that "remembers" your favorite driving position. And there's a Power-Booster Fan, in the Montclair series, that saves horsepower other cars waste. And much, much more. To see everything, stop in at our showroom today.

**TRUST ARRANGEMENTS EXPLAINED**

When property is placed in trust it is turned over to a trustee who will see to it that it is properly managed for the benefit of a person or persons you name as beneficiaries. It is a method of disposing of your property and may be used in conjunction with a will.

Trusts have many advantages. A trust may be used to provide income for persons unable to support themselves, to provide funds for a child's education, as a means of establishing an annuity, or to provide a gift for a charitable institution.

In these days of high taxes, a trust may be utilized to minimize the tax burden. If carefully planned, a trust may decrease income and inheritance taxes.

A trust arrangement works roughly in this manner. A person

who desires to create a trust is called a grantor. The grantor chooses a trustee. The trustee may be a bank, an individual, or a trust company. The grantor through a trust instrument tells the trustee how to distribute the trust property or income. The trustee will then manage and distribute the trust proceeds or property in whatever manner the grantor desires.

A very common arrangement is to place the property in trust with directions to pay the income from the property to a wife for her life, and on her death the trust is to end and the property is to be distributed to the grantor's children.

An interesting type of trust is that which is sometimes called a spendthrift trust. This is an arrangement whereby one sets up a certain sum of money to be given out to another at a definite rate per month or per year, or under definite restrictions.

This type of trust is generally used in wills where a person desires to leave money to an individual, but feels that the individual is not capable of properly caring for the money and that if left to them in full that the party receiving the money will spend and waste the money and not receive the maximum benefit from it.

Trust property quite often consists of securities. The law regulates the type of property in which trust funds may be invested. However, the grantor may designate the type of investments the trustee may make.

The effectiveness of a trust is dependent largely on its proper creation. To avoid the pitfalls and dangers of lawsuits and ineffective trust operations, a trust instrument should be properly prepared. A poorly planned or carelessly drawn trust instrument can not only defeat the objectives of its creator, but may prove costly as well.

Your lawyer can advise you whether a trust arrangement will be advantageous in your particular situation, and is qualified by education and experience to prepare properly the legal papers necessary to set up a trust. If you have in mind some bank or trust company to act as trustee, that firm's trust officer will be glad to discuss the matter in a conference with you and your attorney. Rev. Sterling Isom officiating. A number of relatives from this area attended the services.

(This column, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

P. T. A. December Meeting Date Changed  
P. T. A. meeting for December has been changed from Tuesday, December 11 at 7:30 p. m. (Father's Night) to December 13 (Thursday) at 7:30. It's still Father's night. Make this change on your calendar and be present.

When temperatures drop, all of heating equipment are brought in to use on the farm. With their use, the chances for farm fires go up. W. L. Ulich, extension agricultural engineer and secretary of the Texas Farm and Ranch Safety Council, says defective chimneys, carelessness with combustible materials or the misuse of petroleum products rank high as causes of farm fires. He suggests that needed repairs and replacements be made now before the winter season.

**State Approves 50 Water Areas**

Fifty areas in Texas have had their public water systems approved during the biennium ending August 31, 1954, according to sanitary engineering records of the Texas State Department of Health.

During the same period, five areas had their water system approvals withdrawn. Approval or disapproval, after adequate inspection of Texas water systems, is just one of dozens of functions carried on by the Sanitary Engineering Division of the Texas State Department of Health.

The prolonged drought in Texas has given new significance to this responsibility as more and more municipalities of Texas seek additional sources of water for their parched citizenry. It was also disclosed by Dr. Henry A. Holle, commissioner of health, that at the close of the biennium there were over 800 domestic sewage treatment plants in Texas, all of which come under the scrutiny of the department of health.

Because of the phenomenal growth of Texas cities in the post-war years, it is estimated that from 25 to 30 percent of these facilities are either overloaded or are in need of replacement, enlargement, or additional treatment units.

The scrutinizing eyes of the sanitary engineers have seen the growth of Texas industry give rise to an air and stream pollution problem. So far industry, teaming with state forces, has kept pollution of Texas streams to a minimum.

However, should the drought continue during the next biennium, engineers feel that many additional problems will be created involving industrial waste disposal, particularly those industries situated inland.

A simple, low-cost plan for keeping dairy production records has been developed by the USDA in the Weigh-a-Day-a-month plan and Extension Dairy Husbandman R. E. Burtleson says all Texas county agents are ready to assist dairymen in putting it into operation. See your local county agent for the details.

The Texas Agricultural Experiment Station has released two new publications, B-837, Financing the Dairy System on a Central Blackland Farm and B-838, Guides in Cotton Irrigation on the High Plains. Both are available from the Agricultural Information Office, College Station, Texas. Order by number and title.

**Doomed Deer Legal Game**

Landowners in the Texas big-game range have embraced the antlerless deer harvest to the extent that a record twelve thousand plus permits have been issued to ranchers in areas overpopulated with deer, according to the Director of Wildlife Restoration for the Game and Fish Commission.

He said the trend indicates that "many more counties will seek legislative authority at the coming session to become a part of this important game management practice."

The combined harvest of antlerless deer this fall may go as high as five thousand head, explained the Director. This total contrasts with the overall quota of only 946 deer when the program was launched four years ago.

These deer, he said, are made available to hunters in addition to the bucks-only routine as a means of reducing over population, sparing the range and strengthening the herds.

"More and more ranchers and landowners now realize that unless the surplus game is taken legitimately, the spare numbers will die of starvation," said the Director.

"Even though the antlerless harvest may run as high as five thousand this fall, this is only a fraction of the over population throughout the big game range. If there should be a severe winter, countless thousands of deer in the congested areas would perish. But under existing laws the expanded harvest has to be limited to the places where actual authority has been granted to reduce the herds to the carrying capacity of the land as determined by scientific findings."

Those interested in the antlerless hunts should contact their game warden or write Chambers of Commerce in counties of which he will have a list. He will also have further details.

**TWO GIRLS, A CHEVY AND A RECORD!**

A meaningful achievement in automobile performance

Most automobile performance records are pretty difficult to relate to the kind of day-in, day-out driving most of us do. Running at safe and legal speeds, a '57 Chevrolet recently chalked up an important new coast-to-coast record on the road. And the way it set this record is even more important than the record itself!

A new '57 Chevrolet recently proved it has the qualities most people look for in a car—and proved it on the roads you travel. It set a new record of less than 57 hours for the run from New York to Los Angeles (certified by NASCAR). It was a strictly stock, V8-powered Chevy. It was driven by two young ladies.

When you consider that all the driving was done by 98-pound Betty Skelton and her friend Caroline Russ, the true significance of this record run becomes apparent. It's a tribute to Chevrolet's great-hearted V8 engine and solid road-worthiness that it could travel day and night for 2,913 miles at safe and legal speeds—and better the existing record for the trip by more than three hours. And when a pair of young ladies step into a car and drive it round the clock to a new transcontinental record, you know that car is easy to drive. Come try a Chevy.

**Name Texas 4-H Trip Winners**

Laura Ellen Horn, Melissa Lindsey, Jo Stubblefield, J. Lassmann

Texas 4-H members were named state winners of a trip to the 1956 National 4-H Club Congress in Chicago, Nov. 23-29. They were selected by the State Extension Service for having the best records in the 4-H Garden, Clothing, Electric, and Recreation national award programs.

Laura Ellen Horn, 16, of Lubbock, is now in her eighth year of Club work. As state 4-H Clothing winner, she is the guest of Coats and Clark at the Club Congress in Chicago. Having a remarkable flair for making clothes, Laura Ellen has completed 118 garments. They included a blue flannel suit which placed first in the county dress revue; a brown corduroy suit; a black two-piece dress which won a blue ribbon.

In addition to making all of her own clothes and being an assistant leader, Laura Ellen also carried several other 4-H Club projects. She hopes to complete her wardrobe to start college with next year. Her mother, Mrs. Cyrus Horn, is 4-H Club leader.

Winning an award and having fun doing it is the experience of Melissa Lindsey, 16, of Haslet, a Club member for four years, she was chosen to represent the state in the 4-H Recreation program. U. S. Rubber Co. provides for her stay in Chicago. Melissa has led games at local and county meetings, also at state round-ups. As a junior leader she assists Mrs. William Vait, leader of the county-wide club.

Melissa studied and taught ballet, giving recitals and dancing at public affairs. Her activities are varied, and she lists 51 things 4-H has taught her. She is a good student and hopes to attend college.

With 84 per cent of all farms electrified, the 4-H Electric program. All these programs are conducted under the direction of the Co-operative Extension Service.

**LOSE UGLY FAT IN TEN DAYS OR MONEY BACK!** If you are overweight, here is the first really thrilling news to come along in years. A new & convenient way to get rid of extra pounds easier than ever, so you can be as slim and trim as you want. This new product called DIATRON curbs both hunger & appetite. No drugs, no diet, no exercise. Absolutely harmless. When you take DIATRON, you still enjoy your meals, still eat the foods you like but you simply don't have the urge for extra portions and automatically your weight must come down, because, as your own doctor will tell you, when you eat less, you weigh less. Excess weight endangers your heart, kidneys. So no matter what you have tried before, get DIATRON and prove to yourself what it can do. DIATRON is sold on the GUARANTEE. You must lose weight with the first package you use or the package cost you nothing. Just return the bottle to your druggist and get your money back. DIATRON costs 50c per unit and is sold with the strict money back guarantee.
