Whoa, Now!

By Grady Lackey

Friend Bob Berry reports that the stock show last week end was a big success...

Last week we failed to include the report of the schools committee in the story about the community planning clinic.

From this week's mail--

Greetings, Your paper is improving. What we would like to hear is a little more about local farming and ranching.

I am glad you have had some rain and hope that you get plenty more. That whole country is long past due for some good years.

Let us hope that 1957 is going to start a cycle of productive years.

I think my subscription expires this month, so am enclosing my check for \$3.50.

Roy S. Williams Maplewood, N. J.

Dear Sirs, Inclosed you will find \$3.50 for one year's subscription to the Texas Spur.

I love to get the paper so I can keep up with my friends. I lived in Dickens County for 30 years.

Chevy is America's "hot" car —officially!

Chevrolet Wins Coveted Manufacturers' Trophy at Daytona Beach as "best performing U. S. automobile!"

Want facts about performance? Then look at the official figures from NASCAR's internationally famous Daytona Beach competition for stock cars. Here's what you'll find: Chevrolet, in two weeks of blistering competition, proved itself as America's Number One performance car. Nothing in the low-price field could touch it.

No other car, regardless of price, scored such a sweep. And Chevy walked away with the famous Manufacturers' Trophy, hands down!

The 1957 Chevrolet is, by all odds, the most astonishing performer ever produced in the low-price field. Best of all, this superiority isn't limited to just a few extra-cost high-performance models. Every type of Chevy—from the six-cylinder models right up to the 283-horsepower "Super Turbo-Fire" V8's, from the single-carburetor V8's with Powerglide to the stick-shift "270's"—is a championship car.

The table formed a corral with miniature cowboys and horses with a background arrangement of cactus. Guests were served coffee and cake as they arrived.

Mrs. J. C. McNeill introduced the speakers for the afternoon program. Mrs. Spikes and Mrs. Ellis, co-authors of "Through the

Years. The History of Crosby County", gave a review of the book which they had written and told of many hardships and trials of the times. There are many events related to Dickens county and Dickens county personalities which are mentioned in the history.

The club purchased a copy of this book to be placed in the Dickens Library so that it might be available to interested persons.

Cadillac

Relaxing... Across America!

Behind them are the majestic mountain roadways of Southern California and the picturesque desert drive through Arizona.

And ahead lie the broad highways of Texas . . . the scenic roads that wind through Oklahoma and Missouri . . . and the great Midwestern turnpikes that lead to the Eastern Seaboard.

What's it like to spend the better part of a week in a 1957 Cadillac?

Well, first of all, there is the restfulness a Cadillac provides. The car is so incredibly smooth and quiet and comfortable that even the longest journey is an occasion for glorious relaxation.

And for the lucky gentleman in the driver's seat, there is the added reward of Cadillac's brilliant new performance.

In fact, the car is so nimble and eager, so responsive and alert that day's end will usually find them well beyond their morning's destination!

And then there will be the many other Cadillac virtues to enhance the pleasure of their journey . . . its vast areas of vision to give them the full panorama of America's great beauty and grandeur . . . its extraordinary safety and dependability to add to their contentment and peace of mind . . . and its remarkable operating economy to remind them how practical their odyssey is.

So there they are—seeing our wonderful land from the finest vantage point on the American road: through the windshield of a 1957 Cadillac!

Of course, you don't have to travel 3,000 miles in this newest "car of cars" to realize why its owners call it "the greatest of all Cadillacs".

The evidence is in our showroom now—and an hour at the wheel will tell you the whole story.
